Edinburgh, the Lothians and Scottish Borders Multi-Agency Public Protection Arrangements - Annual Report 2014/15

Item number	7.6
Report number	
Executive/routine	
Wards	All

Executive Summary

This report presents to Corporate Policy and Strategy Committee the annual report for Edinburgh, the Lothians and Scottish Borders Multi-Agency Public Protection Arrangements (MAPPA) 2014/15, attached at Appendix 1. MAPPA provide a framework to manage the risk posed by registered sex offenders and restricted patients. The annual report presents the roles and responsibilities of partner agencies, achievements in developing practice, strategic overview arrangements and statistical information. The annual report acknowledges the widespread public anxiety regarding sex offenders and highlights that re-offending rates in this group remain consistently low.

Edinburgh, the Lothians and Scottish Borders Multi-Agency Public Protection Arrangements - Annual Report 2014/15

1. Recommendations

- 1.1 Corporate Policy and Strategy Committee is recommended to note the annual report attached at Appendix 1.

2. Background

- 2.1 MAPPAs provide a framework to manage the risk posed by registered sex offenders and restricted patients and bring together professionals from the police, social work, housing, health and the Scottish Prison Service in Edinburgh, Lothian and Scottish Borders.
- 2.2 These agencies are known as the 'Responsible Authorities'. While the arrangements are co-ordinated by a central unit based in Edinburgh, the practical management of offenders remains the responsibility of these agencies at a local level.

3. Main report

- 3.1 There are three MAPPAs management levels intended to ensure that resources are focused where they are needed most to reduce the risk of harm. Those offenders who present the highest management complexity are managed at Level 3.
- 3.2 Over the course of this annual reporting year, 905 registered sex offenders were managed under MAPPAs; 90.16% (816) at Level 1; 9.28% (84) at Level 2; and 0.55% (5) at Level 3. This year, for the seventh year in a row, there were no cases of a Level 3 offender being convicted of further Group 1 (violence) or Group 2 (indecent) crime.
- 3.3 Achievements in developing practice during the reporting year included promoting MAPPAs and raising awareness through training a wide range of audiences; and developing the use of Sexual Offences Prevention Orders, an

order granted by the Court. For some offenders the existence of a Sexual Offences Prevention Order is enough to provide structure to their daily life, through which they are able to avoid further offending.

- 3.4 The annual report includes detailed statistics on the number of registered sex offenders by level, reconvictions and notifications, and the number of restricted patients in the region.

4. Measures of success

- 4.1 The Strategic Oversight Group for Edinburgh, Lothians and Scottish Borders is responsible for the overview and coordination of MAPPAs, ensuring sharing of best practice and learning from significant case reviews. The group provides a strategic lead for developing local multi-agency policy and strategy in relation to shared priorities, with regard to the management of offenders.
- 4.2 The MAPPAs Operational Group supports the work of the Strategic Oversight Group with a remit to share learning, develop best practice and, where relevant, ensure consistency of practice.
- 4.3 Offender Management Committees monitor the performance and quality of local service delivery. This is reported quarterly to Chief Officers' Groups (Public Protection) in each local authority area.

5. Financial impact

- 5.1 There are no financial implications arising from this report, however, public protection in Edinburgh is a significant responsibility for all partner agencies and one which demands considerable resource allocation.

6. Risk, policy, compliance and governance impact

- 6.1 In accordance with the Council's approach to risk management, the potential risk of harm to communities and individuals, which may be caused by a failure to provide effective care and protection to vulnerable children and adults is being mitigated and monitored through the public protection risk register.

7. Equalities impact

- 7.1 There is no direct equalities impact arising from this report.

8. Sustainability impact

8.1 There are no sustainability impact issues arising from this report.

9. Consultation and engagement

9.1 The responsible authorities for each area are required to involve other key agencies in the management of offenders. This is an important part of MAPPA, involving the exchange of information and drawing on the collective knowledge and expertise of numerous agencies.

10. Background reading/external references

10.1 None.

Foreword

MAPPA

Edinburgh, the Lothians and Scottish
Borders Multi-Agency Public
Protection Arrangements

The overarching priority for all partners involved in the management of sex offenders is the protection of the public. Multi Agency Public Protection Arrangements (MAPPA) partners in Edinburgh, the Lothians and Scottish Borders put public protection at the forefront of their practice. We understand that the trauma experienced by victims of sexual offences can be devastating, and we strive constantly to improve our services to ensure the public is protected from harm. I am pleased to introduce this annual report, which reflects the work that has been done this year to meet this aim.

We acknowledge the widespread public anxiety regarding sex offenders, which is heightened by an increasing awareness of the issue, but we are encouraged that re-offending rates in this group remain consistently low. Registered sex offenders come from all social, economic and cultural backgrounds. Understanding this diversity is key to developing effective management techniques and integrated services to improve outcomes. All agencies are committed to keeping our communities safe. Academic research and evidence of best practice in this field indicate that when offenders have stability in their lives and are supported to move forward and make positive changes, they are less likely to re-offend. The work of our partners, facilitated through MAPPA,

is targeted at reducing both the likelihood of reoffending and the risk posed by these offenders. Unfortunately, there will always be some serious incidents, which cannot be predicted or prevented.

We recognise that we are stronger when we work together. Every day, partners share information, assess risk and make constructive plans together to manage people convicted of sexual offending, facilitating their reintegration into our communities as safely as possible. These plans give offenders the opportunity to address the factors that led to their offences, but they also represent a framework for restricting the offender, where this is necessary to protect the public in general, and victims in particular.

I hope this annual report helps to explain the work that is done in our area and provides insight into the public protection arrangements, which help to make our communities safer.

Michelle Miller
Chair Edinburgh, the Lothians and
Scottish Borders
Strategic Oversight Group

What is MAPPA?

Multi-Agency Public Protection Arrangements (MAPPA) provide a framework to manage the risk posed by registered sex offenders and restricted patients (mainly violent offenders, with a small number of sex offenders). MAPPA bring together professionals from the police, social work, housing, health and the Scottish Prison Service in Edinburgh, Lothian and Scottish Borders. These agencies are known as the 'Responsible Authorities'. While the arrangements are co-ordinated by a central unit based in Edinburgh, the practical management of offenders remains the responsibility of these agencies at local level.

MAPPA

Edinburgh, the Lothians and Scottish
Borders Multi-Agency Public
Protection Arrangements

The area covered by the Edinburgh, Lothian and Borders Community Justice Authority incorporates the City of Edinburgh, East Lothian, Midlothian, West Lothian and the Scottish Borders, representing a mixture of urban and rural areas. The population of the area is estimated at 972,120; currently 18.17% of the population of Scotland with: 492,680 residents in Edinburgh; 102,050 in East Lothian; 86,210 in Midlothian; 177,150 in West Lothian; and 114,030 in the Scottish Borders (*Population statistics sourced from General Register of Scotland 2014*).

The responsible authorities represented are:

- » The City of Edinburgh Council
- » East Lothian Council
- » Midlothian Council
- » West Lothian Council
- » Scottish Borders Council
- » Police Scotland
- » Scottish Prison Service
- » NHS Lothian
- » NHS Borders

There are three MAPPA management levels intended to ensure that resources are focused where they are needed most to reduce the risk of harm. Over the course of this annual reporting year, we managed 905 registered sex offenders under MAPPA; 90.16% (816) at Level 1; 9.28% (84) at Level 2; and 0.55% (5) at Level 3. Those offenders who present the highest management complexity are managed at Level 3. This year, for the seventh year in a row, there were no cases of a Level 3 offender being convicted of further Group 1 (violence) or Group 2 (indecent) crime.

Over the past year, there have been 68 MAPPA Level 2 and Level 3 meetings convened across Edinburgh, Lothian and Scottish Borders. Each Level 2 meeting will consider a number of offenders, whereas a Level 3 meeting is unique to that offender.

Further Information about MAPPA can be found on the Scottish Government website: www.scotland.gov.uk

Roles and Responsibilities

MAPPA

Edinburgh, the Lothians and Scottish Borders Multi-Agency Public Protection Arrangements

The responsible authorities for each area are required to involve other key agencies in the management of offenders. This is an important part of MAPPA, involving the exchange of information and drawing on the collective knowledge and expertise of numerous agencies. The roles and responsibilities in relation to MAPPA in our local area are outlined below.

Police Scotland is responsible for the enforcement of the notification and compliance requirements of the Sexual Offences Act 2003 (sex offender registration), and for policing activities, including risk assessment, preventative/monitoring strategies, coupled with investigation and prosecution of any registered sex offender who re-offends. Responsibilities include: maintaining an accurate record of those offenders resident within each local authority area subject to the notification requirements; the creation of risk management plans to mitigate or reduce risk; making enquiries where such persons fail to comply with the requirements placed upon them; managing sex offenders whose current behaviour is of concern. Police Scotland is the lead responsible authority for those community-based registered sex offenders who are not subject to any other form of statutory supervision. These duties are carried out in partnership with all responsible authorities and 'duty-to-cooperate' agencies.

The local authority is the responsible authority for registered sex offenders who are subject to statutory supervision. The Council's criminal justice social work service is responsible for the supervision of such offenders, but housing, adult social care and children and families services also play a key role in the management of sex offenders in the community.

Social work makes a significant contribution to public protection by supervising and managing registered sex offenders in accordance with the requirements of MAPPA and other public protection-related legislation.

Social workers supervise offenders on community payback orders and prisoners who have been released subject to formal supervision. Social workers are required to use accredited risk assessment tools, and in collaboration with other agencies, develop plans for the risk management and supervision of offenders. Social workers can request that additional conditions be placed on orders and licences by the courts and the Parole Board. These conditions can range from restrictions relating to accommodation and employment, to instructions to avoid certain locations or victims, or to attend counselling or treatment programmes. These conditions allow social workers to monitor and influence aspects of offenders' behaviour, as breaches of conditions can lead to the court or Parole Board returning the offender to custody.

Each local authority within Edinburgh, Lothian and Scottish Borders has a Sex Offender Liaison Officer (SOLO) or Lead Officer, within the social work service, who acts as a single point of contact for information relating to registered sex offenders. They are responsible for chairing risk management case conferences and liaising with other agencies as appropriate.

Local authority housing SOLOs are responsible for offenders' access to housing, which includes accessing temporary accommodation and identification of suitable permanent housing.

Registered social landlords, as 'duty to co-operate' agencies, work with the local authority housing SOLO to identify positive housing solutions, which contribute to public protection.

The role of the housing service is to contribute to the responsible authorities' management of risk through:

- » providing suitable accommodation
- » contributing to environmental risk assessments to ensure accommodation is appropriate
- » liaising with the responsible authorities regarding the ongoing management and monitoring of the risk of the offender as a tenant, including any tenancy moves or evictions
- » having regard to community safety and having in place contingency plans for when a property is no longer suitable and/or the offender's safety is at risk.

The local authority is responsible for ensuring the development of a strategic response to the housing of sex offenders. However, in any local authority area there is likely to be a multiplicity of housing providers, and local authorities must involve and consult registered social landlords in their area when developing their strategic response.

It is the responsibility of the local authority to provide an initial single point of contact for accommodation requests from other responsible authorities. This single point of contact is the housing SOLO, whose role involves:

- » identifying the most appropriate housing provider, following risk assessment
- » ensuring that when an appropriate housing provider has been identified, they are included by the responsible authorities in liaison arrangements relevant to the identification of appropriate housing and the management of risk
- » liaising pro-actively with responsible authorities and housing providers regarding ongoing risk management and community safety issues.

NHS Lothian continues to play an important role in MAPPA locally, as the responsible authority for mentally disordered, restricted patients, and in fulfilling its wider duty to cooperate in the management of registered sex offenders.

NHS Lothian and NHS Borders have a Public Protection structure (including child protection, adult protection and MAPPA), which is the responsibility of the Nurse Director at Health Board Level. In addition, NHS Lothian now has an Assistant Director of Public Protection, Designated Consultants for MAPPA (consultant forensic mental health clinicians) and a MAPPA Health Liaison Officer. This is to ensure appropriate information sharing and joint working between NHS Lothian and other MAPPA agencies. The aim of the structure is to provide governance for NHS Lothian's contribution to MAPPA and to ensure health issues that arise in relation to MAPPA cases (including mental health, physical health, staff and patient safety, and information sharing) are dealt with appropriately. The Assistant Director of Public Protection attends all Level 3 MAPPP (Multi-Agency Public Protection Panel) meetings, as does a consultant. A consultant and the health liaison officer attend all Level 2 MAPPA meetings in the NHS Lothian area.

The NHS Lothian and City of Edinburgh Council Serious Offender Liaison Service (SOLS) continued until 31 March 2015, providing specialist clinical consultation, training, assessment, clinical supervision and treatment to support criminal justice social work and the police to manage difficult sexual and violent offenders in the community. The input of the service continued to be viewed very positively by referring agencies and is recognised internationally as a unique and innovative service. Despite a positive evaluation report, no funding was available to continue the input the service provided for non-sexual offenders, and therefore, from April 2015, the service will revert to the NHS Lothian Sex Offender Liaison Service (SOLS), excluding consideration of violent, non-sexual offenders.

NHS Borders also provides a strong contribution to MAPPA. A mental health officer attends all Level 2 meetings and the Associate Director of Nursing attends all Level 3 MAPPP meetings.

Community Intervention Services for Sex Offenders (CISSO)

This service continues to support the risk management of partner agencies through the delivery of community-based group treatment programmes, addressing the behaviour and attitudes associated with sexual offending. In addition, staff provide assessment reports for the court prior to the sentencing of some convicted sexual offenders, consultation to criminal justice social workers in Edinburgh, Lothian, and Scottish Borders, and undertake some individual pieces of work with offenders.

The main challenge for the Community Intervention Service for Sex Offenders this year has been implementing the accredited group work programme 'Moving Forward: Making Changes' (MF:MC). This programme is being rolled out across Scotland and replaces previous accredited group work programmes. The content draws on up-to-date research and includes a focus on the impact of trauma, the role of offence-supportive core beliefs, the development of a positive lifestyle and behaviour modification techniques for managing inappropriate sexual thoughts.

Staff were trained in the new programme in November 2013 and January/February 2014. The first MF: MC groups started at the end of May 2014 and by the end of March 2015 there 3 new groups running: one evening group, a day group and a group for men with a learning disability. The final group for the previous programme (C-SOGP) finished in February 2015. In addition, there are 18 week modules delivered

for internet mediated offenders who do not require MF: MC, but have identified treatment needs. A total of 45 men have been involved in the group work, with 22 places for MF: MC. With regard to court assessments, CISSO staff jointly interviewed 76 offenders and wrote full assessment reports on 34 men. Consultation was offered for all other report requests.

The project also offers training courses for local criminal justice staff on working with sexual offenders, including introductory days and skills based training for social workers. Training for the Moving Forward: Making Changes programme has now been expanded to all social workers who work with this offender group, as part of ongoing risk assessment and case management. Four courses on MF: MC case management were delivered to Lothian and Borders criminal justice social workers, allowing for a wide spread of trained staff to support and supervise men on the new programme.

Keeping Children Safe

The Community Disclosure Scheme provides that parents, carers and guardians of children under 18 can ask for information about a named person who may have contact with their child if they are concerned that he or she might have convictions for sexual offences against children (e.g. if a parent wants to find out more about a new partner). Police officers discuss the concerns of the applicant in a face-to-face meeting and offer advice and support.

In this reporting year, police in Edinburgh, Lothian and Scottish Borders received 39 applications under this scheme.

Further information can be found at:
<http://www.scotland.police.uk/keep-safe/safety-advice-jj/children-and-young-people/child-protection-keeping-children-safe/>

Achievements in Developing Practice

MAPPA

Edinburgh, the Lothians and Scottish
Borders Multi-Agency Public
Protection Arrangements

Training and Promoting MAPPA

During this reporting year, we have held a number of multi-agency training events.

In April 2014, the MAPPA Coordinator delivered a MAPPA presentation to the Lothian and Scottish Borders Police Scotland Command Team.

Also in April 2014, West Lothian Council hosted a multi-agency MAPPA awareness-training day, aimed at staff who may only have limited contact with sex offenders. This event promoted information sharing and understanding regarding the management of registered sex offenders.

In May 2014, the MAPPA Coordinator delivered training to uniform police inspectors within the Lothian and Scottish Borders Police Division. The aim was to increase the community policing teams' awareness of the higher risk and more complex cases managed under MAPPA, and to enable them to play an active role in mitigating these risks.

Also in May 2014, the MAPPA Coordinator and the Edinburgh Access to Housing and Customer Strategy Manager delivered a MAPPA training event to representatives from Move On Edinburgh, which is a Scottish charity working to support people affected by homelessness and to prevent homelessness, especially among vulnerable young people.

In September 2014, NHS Borders hosted a multi-agency MAPPA awareness-training day, aimed at staff who may only have limited contact with sex offenders. This event promoted information sharing and understanding regarding the management of registered sex offenders.

In November 2014, the City of Edinburgh Council hosted a multi-agency event aimed at developing our multi-agency response to child abuse.

In December 2014, West Lothian Council hosted a further multi-agency MAPPA awareness-training day, aimed at staff that may only have limited contact with sex offenders. This event promoted information sharing and understanding regarding the management of registered sex offenders.

In February 2015, the MAPPA Coordinator delivered a training event for staff new to the role of chairing MAPPA meetings.

Developing the use of Sexual Offences Prevention Orders (SOPO)

This is an order granted by the Court. It places conditions on an offender's behaviour, provides a power of arrest if breached and enhances the police role in managing such offenders. SOPOs could initially only contain prohibitive measures, however, a change in legislation in November 2011 allows for these orders to contain positive obligations as well as prohibitions. Police Scotland may now apply to the court at the point of sentencing, for conditions requiring the offender to take specific actions, where previously there was no such obligation to comply.

For some offenders, the existence of a SOPO is enough to provide structure to their daily life, through which they are able to avoid further offending. On 31 March 2015, there were 69 SOPOs in place locally.

Strategic Overview Arrangements

MAPPA

Edinburgh, the Lothians and Scottish
Borders Multi-Agency Public
Protection Arrangements

Edinburgh, Lothian and Scottish Borders – Strategic Oversight Group

This group is responsible for the overview and co-ordination of the Multi-Agency Public Protection Arrangements, ensuring the sharing of best practice and learning from significant case reviews. The group also provides a strategic lead for developing local multi-agency policy and strategy in relation to shared priorities, with regard to the management of offenders.

Edinburgh, Lothian and Scottish Borders – MAPPA Operational Group

This multi-agency operational group supports the work of the Strategic Oversight Group. The remit of this group is to share learning, develop best practice, and where relevant, ensure consistency of practice.

Offender Management Committees

These committees monitor the performance and quality of local service delivery; they provide strategic direction to local member agencies; and develop local policy and practice. These committees include representatives from all key agencies, a number of which are also members of the local child and adult protection committees, ensuring effective communication across public protection.

NHS Lothian Public Protection Action Group

The main aim of this group is to ensure NHS Lothian discharges its responsibilities for MAPPA, child and adult protection. This group provides a general forum to discuss important practice issues, in addition to developing good practice in relation to the management of high-risk offenders within the health care setting.

Statistical Information

Unless stated, the statistics recorded are for the reporting period 1 April 2014 to 31 March 2015.
