

Corporate Policy and Strategy Committee 2018 Addendum by Green Group

Item No 7.6 Gaelic Language Plan, 2018-2022

Insert new recommendation 1.4 and 1.5 as follows:

1.4 Committee approves the final Gaelic Language Plan for 2018-22 subject to the following changes:

Under Strategic Priority 1, Corporate action 5 (signage) (page 18), insert the following wording at the end of this action:

"- Encouraging all council ALEOs and partner organisations to consider Gaelic or bilingual signage/branding as and when new or refreshed signage/branding is introduced."

1.5 Committee acknowledges the substantial ongoing work of Fèis Dhùn Èideann and Fèisean nan Gàidheal in enriching Gaelic education, arts and culture in the City; wishes this partnership to continue; notes that some local authorities offer the use of facilities to Fèisean nan Gàidheal, and agrees to consider a short report at the next meeting of the Gaelic Implementation Group to examine whether Edinburgh could do the same, and to consider a timetable and wider actions to engage with Gaelic arts groups."

Corporate Policy and Strategy Committee

2018 Addendum by Green Group

Item 8.4 Sustainable Energy Action Plan Annual Progress Report 2017/18

Add to recommendations;

1.2 Recognises that with 24 months left to run, Edinburgh's Strategic Energy Action Plan will currently fall at least 12.5% (172.2 ktCO₂) below the carbon reduction required to meet its target;

1.3 Further notes that it is unclear what amount of carbon reduction from ongoing SEAP projects is likely to be delivered within the next 24 months towards achieving the target;

1.4 Therefore calls for a report within one cycle on how the SEAP can be progressed in order to meet its 2020 carbon reduction target, including what additional resources would be required.
