

Edinburgh Integration Joint Board

14 December 2018

Amendment – Item 5.3 - Draft Edinburgh IJB Strategic Plan 2019-2022

Please accept the following recommendations delete and insert.

EIJB

Notes that the draft Strategic Plan

- does not include appendices referred to in the recommendations and is therefore not complete
- does not appear to address the points raised at the Strategic Planning Group recent meeting, including setting the first priority to be Health Inequalities and reflecting the presentation given at the meeting
- contains some confusing language that may compromise consultation and engagement
- does not include review of the last plan, lessons learned and recommendations to take forward or drop previous strategic aims

Therefore agrees that the report be continued for consultation with members and the report be revised.
