Terms of Referral

City of Edinburgh Council – Report to Those Charged with Governance on the 2015/16 Audit

Terms of referral

- 1.1 On 26 September 2016, the Governance, Risk and Best Value Committee considered the principal findings of the external auditor's statutory review of the Council's Annual Accounts.
- 1.2 The report by the Acting Executive Director of Resources provided an unqualified auditors opinion on the statements as well as a note of the failure of one of the Council's Significant Trading Operations to meet the statutory requirement to break even over a three year rolling period.
- 1.3 The Governance, Risk and Best Value Committee agreed:
 - 1.3.1 To note that, following the audit process, an unqualified audit opinion had been issued on the Council's Annual Accounts for 2015/16.
 - 1.3.2 To refer the audited Annual Accounts for 2015/16 to the Finance and Resources Committee for approval and thereon to Council for noting and to revise by £0.076m the level of in-year underspend transferred to the Council Priorities Fund.
 - 1.3.3 To note that, following approval by the Finance and Resources Committee, the audited Annual Accounts would be signed and submitted to the external auditor.
 - 1.3.4 To note the intention to consider the external auditor's more detailed Annual Audit Report at the meeting of the Governance, Risk and Best Value Committee on 17 November 2016.
 - 1.3.5 To request that information on the Common Good Fund and the General Fund be included in the full audit report scheduled to be submitted to the Governance, Risk and Best Value Committee on 17 November 2016.

For Decision/Action

- 2.1 The Finance and Resources Committee is asked:
- 2.1.1 to approve the audited Annual Accounts for 2015/16.
 - 2.1.2 to refer the report by the Acting Executive Director of Resources to the Council for noting and to revise by £0.076m the level of in-year underspend transferred to the Council Priorities Fund.

City of Edinburgh Council – report to those charged with governance on the 2015/16 audit

Item number	7.5
Report number	
Executive/routine	
Wards	

Executive summary

The report advises members of the principal findings of the external auditor's statutory review of the Council's annual accounts, undertaken in compliance with the International Standard on Auditing (ISA260). An unqualified audit opinion has been issued on the statements but the auditor's report notes the failure of one of the Council's remaining Significant Trading Operations (STOs) to meet the statutory requirement to break even over a rolling three-year period.

The content of the Annual Audit Report (AAR), incorporating more detailed commentary on the financial statements and the Council's wider financial position, governance structures, use of resources and arrangements for securing best value is currently being finalised. It is therefore anticipated that the report will be considered by this Committee at its next meeting on 17 November.

City of Edinburgh Council – report to those charged with governance on the 2015/16 audit

Recommendations

- 1.1 Members are asked to:
 - 1.1.1 note that, following the audit process, an unqualified audit opinion has been issued on the Council's Annual Accounts for 2015/16;
 - 1.1.2 refer the audited Annual Accounts for 2015/16 to the Finance and Resources Committee for approval and thereon to Council for noting and to revise by £0.076m the level of in-year underspend transferred to the Council Priorities Fund;
 - 1.1.3 note that, following approval by the Finance and Resources Committee, the audited Annual Accounts will be signed and submitted to the external auditor; and
 - 1.1.4 note the intention to consider the external auditor's more detailed Annual Audit Report at this Committee's meeting on 17 November.

Background

- 2.1 The Council submitted its unaudited Annual Accounts to the external auditor by the required date of 30 June.
- 2.2 The review of all matters relating to external audit forms part of the remit of the Governance, Risk and Best Value Committee and is an important aspect of the overall governance arrangements of the Council. The external auditor will attend the Governance, Risk and Best Value Committee meeting to provide an overview of the accompanying report and respond to specific queries members may have on its content. Given the Committee's scrutiny function, however, approval of the annual accounts will be secured by onward referral to the Finance and Resources Committee meeting taking place on 29 September. The external auditor will also attend the Finance and Resources Committee meeting.
- 2.3 The external auditor is required to comply with ISA260. As part of the standard, the auditor is required to highlight:
 - Relationships that may bear on the independence, integrity and objectivity of the appointed auditor and audit staff;
 - The overall scope and approach to the audit, including any expected limitations, or additional requirements;
 - Expected modifications to the audit report;

- Management representations requested by him/her;
- Unadjusted misstatements other than those that are clearly trivial;
- Material weaknesses in internal control identified during the audit;
- Qualitative aspects of accounting practice and financial reporting, including accounting policies; and
- Matters specifically required by auditing standards to be communicated to those charged with governance and any other matters that are relevant to the audit.

Main report

- 3.1 There are no qualifications to the proposed audit certificate which is shown at Appendix A of the ISA260 in Appendix 1. Members are asked to note, however, that as of the time of writing, a small number of minor issues require to be resolved before the certificate's content can be finalised.
- 3.2 As in previous years, the certificate includes an explanatory paragraph in respect of significant trading organisations (STOs). The Edinburgh Catering Services – Other Catering STO failed, over the three-year rolling period to 2015/16, to meet the statutory requirement to break even. Changes being taken forward as part of the Council's wider Asset Management Strategy, including reducing the level of (loss-making) vending equipment, are planned to ensure cost reduction going forward, along with a new pricing policy aimed at increasing income from staff facilities and internal hospitality.
- 3.3 The ISA260 also makes a number of observations in respect of three other main areas that, in the auditor's view, require to be communicated to members of the Committee. These issues are as follows:
- (i) appropriate valuation of PPP1 assets as of the balance sheet date in light of subsequent defects affecting some of the Council's schools estate;
 - (ii) the accounting treatment of assets where disposal is effected by means of phased payments from purchasers;
 - (iii) presentation of the embedded derivative element of inverse LOBOs (Lender's Option, Borrower's Option).
- 3.4 In each case, the external auditor has concurred with the Council's proposed presentation of these matters in the Audited Accounts.
- 3.5 Members are advised that there were a small number of changes to the financial statements arising from the audit. These mainly related to a slight over-accrual of income due and changes to the assumed timing of asset disposals and the receipt of associated income.
- 3.6 The net effect of these changes was to decrease the reported surplus for the year from £0.861m to £0.785m. Details are shown in Appendix 3.

Measures of success

- 4.1 The Council receives an unqualified audit certificate from the external auditor by 30 September 2016.
- 4.2 Agreed measures are implemented to address any actions identified within the Annual Audit Report in accordance with the timescales indicated.

Financial impact

- 5.1 There is no direct additional impact arising from the report's contents, although the effectiveness of the Council's current financial management and planning arrangements has been noted in recent external reports.
- 5.2 As a result of the audit process, the Council's reported surplus for the year decreased by £0.076m. On this basis, Council approval will be sought to revise the sum set aside within the Council Priorities Fund, which forms part of the overall General Fund, by this amount. Members are reminded that Council has, subject to confirmation of the outturn, previously agreed to allocate £0.5m from the in-year underspend to take forward precautionary property surveys of buildings of similar construction to those delivered through the PPP1 schools programme.
- 5.3 The General Fund balance stood at £128.396m at 31 March 2016, comprising £115.371m earmarked for specific purposes and £13.025m as an unallocated General Fund balance against the likelihood of unfunded risks crystallising.

Risk, policy, compliance and governance impact

- 6.1 The Committee's remit includes the review of all matters relating to external audit, including reports and action plans to monitor implementation of external audit recommendations.

Equalities impact

- 7.1 There is no direct relevance of equalities and rights issues to the report's contents.

Sustainability impact

- 8.1 There are no impacts on carbon, adaptation to climate change and sustainable development arising directly from this report.

Consultation and engagement

- 9.1 The financial statements were made available for public inspection in July for a period of 15 working days in accordance with the provisions of Part VII of the Local Government (Scotland) Act 1973 and the Local Authority Accounts (Scotland) Regulations 2014. The Council received one request for further information under these Regulations during this period. Additionally, an individual lodged comments with Audit Scotland. These were, however, received outside the statutory timescales.

Governance, Risk and Best Value Committee
City of Edinburgh Council

26 September 2016

City of Edinburgh Council 2015/16 Annual Audit Report

1. International Standard on Auditing (UK and Ireland) 260 (ISA 260) requires auditors to report specific matters arising from the audit of the financial statements to those charged with governance of a body in sufficient time to enable appropriate action. This report sets out for the Governance, Risk and Best Value Committee's consideration the matters arising from the audit of the financial statements for 2015/16 that require to be reported under ISA260. We are drawing to your attention matters for your consideration before the financial statements are approved and certified.
2. An audit of the financial statements is not designed to identify all matters that may be relevant to those charged with governance. It is the auditor's responsibility to form and express an opinion on the financial statements prepared by management; however this does not relieve management of their responsibilities in this respect. This report has been prepared for the use of City of Edinburgh Council and no responsibility to any third party is accepted.

Status of the audit

3. Our work on the financial statements is now substantially complete. The issues arising from the audit were included in matters arising schedules issued to the Principal Accountant during the audit. The more significant issues arising were discussed with the Corporate Finance Manager at a meeting on 13 September.
4. We received the unaudited financial statements on 30 June 2016, in line with the agreed timetable. The working papers were of a high standard and the staff provided good support to the audit team as we completed our on-site fieldwork.

Matters to be reported to those charged with governance

Conduct and scope of the audit

5. Information on the integrity and objectivity of the appointed auditor and audit staff, and the nature and scope of the audit, were outlined in the Annual Audit Plan presented to the Governance, Risk and Best Value Committee on 21 April 2016 and follows the requirements of the Code of Audit Practice prepared by Audit Scotland in May 2011.

6. As part of the requirement to provide full and fair disclosure of matters relating to our independence we can confirm that we have not undertaken non-audit related services. The 2015/16 agreed fee for the audit was disclosed in the Annual Audit Plan and as we did not carry out any additional work outwith our planned audit activity this fee remains unchanged.

Fraud

7. In our Annual Audit Plan we highlighted the responsibility audited bodies have for establishing arrangements to prevent and detect fraud and other irregularities. In presenting this report to the Governance, Risk and Best Value Committee we seek confirmation from those charged with governance of any actual, suspected or alleged fraud that should be brought to our attention. A specific confirmation from management in relation to fraud has been included in the draft letter of representation.

Audit opinion & representations

8. Subject to our ongoing peer review process, the satisfactory conclusion of any outstanding matters and receipt of a revised set of financial statements for final review, we anticipate being able to issue an unqualified auditor's report by 30 September 2016. I draw attention, however, to a failure to achieve a prescribed financial objective. One significant trading operation, Edinburgh Catering Services - Other Catering, failed to achieve the statutory requirement of a cumulative break-even position over the three year period to 31 March 2016. Whilst this does not result in a qualified audit opinion I am required to report this matter by exception. The proposed independent auditor's report is attached at [Appendix A](#).
9. We are required to report to those charged with governance all unadjusted misstatements which we have identified during the course of our audit, other than those of a trivial nature and request that these misstatements be corrected. We have no unadjusted misstatements to bring to your attention.
10. As part of the completion of our audit we seek written assurances from the Section 95 Officer on aspects of the financial statements and judgements and estimates made. A draft letter of representation under ISA580 is attached at [Appendix B](#). This should be signed and returned by the Accountable Officer with the signed financial statements prior to the independent auditor's opinion being certified.
11. In presenting this report to the Governance, Risk and Best Value Committee we also seek confirmation from those charged with governance of any subsequent events that have occurred since the date of the financial statements; or material non-compliance with laws and regulations affecting the entity that should be brought to our attention.

Accounting and internal control systems

12. No material weaknesses in the accounting and internal control systems were identified during the audit which could adversely affect the ability to record, process, summarise and report financial and other relevant data so as to result in a material misstatement in the financial statements. We did however amend our planned financial statements procedures to take account of some system weaknesses identified during our controls review, including access controls within payroll and online banking systems, and documentation and processing issues around element of the council tax system.

Significant findings from the audit

13. International Standard on Auditing 260 requires us to communicate to you significant findings from the audit, including:
 - The auditor's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures
 - Significant difficulties encountered during the audit
 - Significant matters arising from the audit that were discussed, or subject to correspondence with management
 - Written representations requested by the auditor
 - Other matters which in the auditor's professional judgment, are significant to the oversight of the financial reporting process.
14. During the course of the audit we identified the following significant issues that, in our view, require to be communicated to you.

PPP Schools - impairment of assets

15. Following the collapse of a wall at Oxgangs Primary in January 2016, property surveys were undertaken at other schools built as part of the same schools PPP1 contract. In April 2016, 17 schools were closed temporarily as a consequence of the survey findings, and alternative accommodation arrangements put in place for school pupils. The unaudited financial statements include a net book value of £176 million at 31 March 2016 in relation to the affected buildings.
16. A range of remedial work was undertaken by the PPP operator, Edinburgh Schools Partnership (ESP), with a phased return of schools to the council in operable condition between May and August 2016, prior to commencement of the new school term.
17. The condition surveys highlighting structural issues were not undertaken until after the end of the 2015/16 financial year end. However these surveys provided information relating to the condition of the assets at 31 March 2016, and in these circumstances it is appropriate to undertake an impairment review, to ascertain whether these conditions give rise to a reduction in carrying value of the asset at 31 March 2016.
18. An impairment review would usually be informed by an assessment of the cost of remediation. While the council has information around the condition of the assets from the property surveys, the information which would allow the council to determine the likely value of any impairment is held by the operator ESP, and not by the council.
19. In the absence of detailed cost information, it is difficult to ascertain what impairment of asset value at 31 March 2016 would be appropriate. Estimates available to the council do indicate the value is likely to be within our materiality limits. Furthermore, as the assets have now been restored to operable condition prior to certification of the annual accounts, any impairment to asset values as at 31 March 2016 would be temporary and would be reversed in the 2016/17 financial statements.
20. **Resolution:** Officers do not propose to adjust the carrying value of the affected assets in the annual accounts. However they intend to increase narrative disclosure within the financial statements to provide more information on this post balance sheet event. Following discussions with officers and ESP, and in view of the considerations noted at paragraph 19 above, we concur with this approach.

Disposal of assets

21. Our audit review highlighted a number of assets included in the balance sheet of the 2015/16 unaudited accounts where the asset had been sold in a previous financial year. The sale of an asset should be recognised when the significant risks and rewards of ownership have transferred to the purchaser. Normally, this transfer coincides with the transfer of legal title.
22. Although title to these assets was transferred at the point of sale, staged payments were agreed with the purchasers and standard securities written into the sale contracts, to provide the council with protection over the future monies due. The council has retained assets on the balance sheet until the discharge of the standard securities.
23. We have reviewed the council's approach to this matter and concluded that whilst the council retains some interest over the assets until the discharge of the standard securities, this is primarily to ensure flow of future monies, and does not reflect the significant risks and rewards of ownership. The council cannot, for example, sell the land covered by standard securities to another developer. The disposal of these assets should therefore be reflected in the financial statements at the point of title deed transfer.
24. Of the five identified disposals with staged payments, final payment was received in 2015/16 for three assets. The final disposal of these assets has therefore already been regularised through the balance sheet of the 2015/16 unaudited accounts. One of the remaining assets with a carrying value of £0.026 million was sold in 2015/16. The final asset identified in the review, with a carrying value at 31 March 2016 of £5.01 million, was sold in 2014/15. Final payments on both assets are scheduled for receipt in 2016/17.
25. **Resolution:** Officers propose to adjust the annual accounts to recognise the full disposal of these remaining two assets as at 31 March 2016. Debtor balances will be established at 31 March 2016 to reflect the remaining value of future payments from purchasers. Adjustments in relation to the other assets sold in 2014/15 have already been reflected in the 2015/16 closing balance sheet. We concur with the proposed approach.

Lender Option Borrower Option Loans - Embedded derivatives

26. Included within the council's £1.4 billion of borrowing are £280 million of Lender Option Borrower Option loans (LOBOs). These instruments differ from more traditional forms of loans as they have call points through the period of the loan where the lender can seek to vary the interest rate through to the next call period, ranging from 6 months to 5 years.
27. The lender option gives rise to an embedded derivative within the contract i.e. a provision that modifies the cashflow associated with the host contract. Normally, a council would not be required to separately account for the embedded derivative in a LOBO. However, within its LOBO portfolio, the council has £40 million of inverse LOBOs, where in addition to the lender call option, the rate payable also changes in relation to a specified market rate.
28. As the nature of inverse LOBOs is considerably different from standard LOBOs, we reviewed these to resolve whether separate disclosure of the embedded derivatives was necessary, which would also require the recognition of gains and losses in the income and expenditure statement each year.

29. **Resolution:** Our review concluded that the existing accounting treatment of inverse LOBOs within the council's financial statements is appropriate, and no modifications to the unaudited financial statements are required in respect of this matter.

Significant trading operations (STOs)

30. The council's trading activity (Edinburgh Catering Services – Other Catering) failed to achieve the statutory requirement to break even over a three year period. The deficit for 2015/16 was £232,000, with a cumulative three year deficit of £343,000.
31. **Resolution:** The failure to achieve a statutory requirement has resulted in a modification to the Independent Auditor's Opinion. The council has put in place a number of measures addressing the profitability of the service going forward, including a new pricing policy and reductions in vending equipment. The catering service is also included within the scope of the Property and Asset Management strategy which is currently being considered by the council.

Outstanding Information

32. **ISA 580 - Letter of representation:** The signed letter of representation is required prior to the auditor's certification of the financial statements.
33. **Audit evidence:** A small number of requested documents and explanations were outstanding or recently received at the time of writing this report. A verbal update on any issues arising from review of these will be provided at committee.

Acknowledgements

34. We would like to express our thanks to the staff of City of Edinburgh Council for their help and assistance during the audit of this year's financial statements which has enabled us to provide an audit report within the agreed timetable.

APPENDIX A: Proposed Independent Auditor's Report

Independent auditor's report to the members of City of Edinburgh Council and the Accounts Commission for Scotland

I certify that I have audited the financial statements of City of Edinburgh Council and its group for the year ended 31 March 2016 under Part VII of the Local Government (Scotland) Act 1973. The financial statements comprise Movement in Reserves Statement, the group and council-only Comprehensive Income and Expenditure Statements, Balance Sheets, and Cash-Flow Statements, the council-only Housing Revenue Account Income and Expenditure Statement, the Movement on the HRA Statement, the Council Tax Income Account, and the Non-domestic Rates Income Account, The Common Good Fund Movement in Reserves Statement, the Common Good Fund Comprehensive Income and Expenditure Statement, the Common Good Fund Balance Sheet and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union, and as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 (the 2015/16 Code).

This report is made solely to the parties to whom it is addressed in accordance with Part VII of the Local Government (Scotland) Act 1973 and for no other purpose. In accordance with paragraph 125 of the Code of Audit Practice approved by the Accounts Commission for Scotland, I do not undertake to have responsibilities to members or officers, in their individual capacities, or to third parties.

Respective responsibilities of the Acting Executive Director of Resources and auditor

As explained more fully in the Statement of Responsibilities, the Acting Executive Director of Resources is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. My responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) as required by the Code of Audit Practice approved by the Accounts Commission for Scotland. Those standards require me to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the circumstances of the council and its group and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Acting Executive Director of Resources; and the overall presentation of the financial statements. In addition, I read all the financial and non-financial information in the annual accounts to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by me in the course of performing the audit. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

Opinion on financial statements

In my opinion the financial statements:

- give a true and fair view in accordance with applicable law and the 2015/16 Code of the state of the affairs of the council and its group as at 31 March 2016 and of the income and expenditure of the council and its group for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union, as interpreted and adapted by the 2015/16 Code; and

- have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

Opinion on other prescribed matters

In my opinion:

- the part of the Remuneration Report to be audited has been properly prepared in accordance with The Local Authority Accounts (Scotland) Regulations 2014; and
- the information given in the Management Commentary for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which I am required to report by exception

I am required to report to you if, in my opinion:

- adequate accounting records have not been kept; or
- the financial statements and the part of the Remuneration Report to be audited are not in agreement with the accounting records; or
- I have not received all the information and explanations I require for my audit; or
- the Annual Governance Statement has not been prepared in accordance with Delivering Good Governance in Local Government; or
- there has been a failure to achieve a prescribed financial objective.

I have the following to report in respect of these matters.

Local authorities have a duty under section 10 of the Local Government in Scotland Act 2003 to conduct their significant trading operations so that income is not less than expenditure over each three year period. The council failed to comply with this statutory requirement for the three year period ending 31 March 2016 in respect of their significant trading operation, Edinburgh Catering Services - Other Catering.

I have nothing to report in respect of the other matters.

APPENDIX B: Letter of Representation (ISA 580)

David McConnell, Assistant Director
Audit Scotland
4th Floor

Dear David

City of Edinburgh Council Annual Accounts 2015/16

1. This representation letter is provided in connection with your audit of the financial statements of City of Edinburgh Council for the year ended 31 March 2016 for the purpose of expressing an opinion as to whether the financial statements give a true and fair view of the financial position of City of Edinburgh Council and its group, as at 31 March 2016 and its comprehensive net expenditure for the year then ended.
2. I confirm to the best of my knowledge and belief, and having made appropriate enquiries of the corporate leadership team, the following representations given to you in connection with your audit of City of Edinburgh Council for the year ended 31 March 2016.

General

3. I acknowledge my responsibility and that of City of Edinburgh Council for the financial statements. All the accounting records requested have been made available to you for the purposes of your audit. All material agreements and transactions undertaken by City of Edinburgh Council have been properly reflected in the financial statements. All other records and information have been made available to you, including minutes of all management and other meetings.
4. The information given in the Annual Accounts, including the Management Commentary and Remuneration Report, presents a balanced picture of City of Edinburgh Council and is consistent with the financial statements.
5. I confirm that the effects of uncorrected misstatements are immaterial, individually and in aggregate, to the financial statements as a whole. I am not aware of any uncorrected misstatements other than those identified in the auditor's report to those charged with governance (ISA260).

Financial Reporting Framework

6. Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 and in accordance with the requirements of the Local Government (Scotland) Act 1973, the Local Government in Scotland Act 2003 and the Local Authority Accounts (Scotland) Regulations 2014 including all relevant presentation and disclosure requirements.

7. Disclosure has been made in the financial statements of all matters necessary for them to show a true and fair view of the transactions and state of affairs of City of Edinburgh Council and its group for the year ended 31 March 2016.

Accounting Policies & Estimates

8. All material accounting policies adopted are as shown in the Statement of Accounting Policies included in the financial statements. The continuing appropriateness of these policies has been reviewed since the introduction of IAS 8 and on a regular basis thereafter, and takes account of the requirements set out in the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.
9. The significant assumptions used in making accounting estimates are reasonable and properly reflected in the financial statements. There are no changes in estimation techniques which should be disclosed due to their having a material impact on the accounting disclosures.

Going Concern

10. The council has assessed City of Edinburgh Council's ability to carry on as a going concern, as identified in the Statement of Accounting Policies, and has disclosed, in the financial statements, any material uncertainties that have arisen as a result.

Related Party Transactions

11. All transactions with related parties have been disclosed in the financial statements. I have made available to you all the relevant information concerning such transactions, and I am not aware of any other matters that require disclosure in order to comply with the requirements of IAS24, as interpreted by the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

Events Subsequent to the Balance Sheet Date

12. In April 2016, 17 schools built under the PPP contract were closed for remediation work following identification of issues with their construction. The building element of these assets has a net book value of £176 million. Work was undertaken by Edinburgh Schools Partnership (ESP), the PPP provider, with a phased return of all buildings by August 2016, prior to the commencement of the new school term.
13. Information on the costs of remediation lies with the provider, ESP, who consider this to be commercially sensitive information. The council is therefore unable to estimate with sufficient certainty what level of impairment to asset values as at 31 March 2016 had taken place. As the schools were returned to previous condition by August 2016, any impairment would be temporary, and reversed out in 2016/17. However, on the basis of indications from ESP of overall costs, including investigative work, any potential impairment is not considered to be material to the overall asset values within the council's balance sheet.
14. With the exception of the preceding issue, there have been no material events since the date of the balance sheet which necessitate revision of the figures in the financial statements or notes thereto including contingent assets and liabilities.

15. Other than as noted in the financial statements, there have been no events or transactions since the Balance Sheet date which, though properly excluded from the financial statements, are of such importance that they should be brought to your notice.

Corporate Governance

16. I acknowledge as Section 95 Officer my responsibility for the corporate governance arrangements. I confirm that I have disclosed to the auditor all deficiencies in internal control of which I am aware.
17. The corporate governance arrangements have been reviewed and the disclosures I have made are in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16. There have been no changes in the corporate governance arrangements or issues identified, since the 31 March 2016, which require disclosure.

Fraud

18. I have considered the risk that the financial statements may be materially misstated as a result of fraud. I have disclosed to the auditor any allegations of fraud or suspected fraud affecting the financial statements. There have been no irregularities involving management or employees who have a significant role in internal control or that could have a material effect on the financial statements.

Assets

19. The assets shown in the Balance Sheet at 31 March 2016 were owned by City of Edinburgh Council, other than assets which have been purchased under operating leases, and except for certain heritage assets which are held on long term loan to the council. Assets are free from any lien, encumbrance or charge except as disclosed in the financial statements.
20. As noted in the accounting policies to the financial statements, it has not been possible to split out all heritage assets belonging to the common good fund, charities or trusts. Therefore the balance sheet may hold elements of heritage assets that belong to other entities.

Liabilities

21. All liabilities have been provided for in the books of account, including the liabilities for all purchases to which title has passed prior to 31 March 2016.

Carrying Value of Assets and Liabilities

22. With the exception of any impairment relating to PPP1 school buildings, as set out in paragraphs 12 and 13, the assets and liabilities have been recognised, measured, presented and disclosed in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16. There are no plans or intentions that are likely to affect the carrying value of classification of the assets and liabilities within the financial statements.

Provisions

23. Provisions have been made in the financial statements for all material liabilities which have resulted or may be expected to result, by legal action or otherwise, from events which had occurred by 31 March 2016 and of which City of Edinburgh Council could reasonably be

expected to be aware. The amount recognised as a provision is the best estimate of the expenditure likely to be required to settle the present obligation at 31 March 2016.

Yours sincerely

Hugh Dunn
Acting Executive Director of Resources
Section 95 Officer

MANAGEMENT COMMENTARY

Basis of Accounts

The Audited Annual Accounts present the financial position and performance of the Council, together with the financial position of the wider Council Group for the year to 31 March 2016.

The Annual Accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 and the Service Reporting Code of Practice.

Statutory Background

The City of Edinburgh Council was constituted under the Local Government, etc. (Scotland) Act 1994 and became the unitary local authority to Scotland's capital city in April 1996. The Council brought together most of the services delivered by the previous regional and district councils, with its primary current frontline functions being the provision of education to school-age children within the city, social care services, economic development, a range of community-based services such as roads maintenance, street lighting and refuse collection and quality of life functions such as libraries, culture, recreation and parks. Services are delivered to just under half a million citizens across the 102 square mile Council area.

Comprehensive further detail of the services provided by the Council is included on its website and within the annual **Key Facts and Figures** publication.

The Council currently has 58 Councillors representing 17 wards within the city.

Political representation as of March 2016 was as follows:

The Labour and Scottish National Party groups together form the Capital Coalition for the City of Edinburgh, which is made up of 38 of the 58 Councillors.

The Capital Coalition leads the Council and fills the roles of Lord Provost, Leader of the Council and most committee convenerships.

The Full Council meets once a month and also delegates decisions to committees which meet regularly throughout the year.

Details of the senior councillors' remuneration and committee roles are disclosed in the Remuneration Report from page 142 of these financial statements.

MANAGEMENT COMMENTARY

Corporate Strategy

The current **Council Strategic Plan** was first developed in 2012 and outlines priorities for the period 2012-17. The plan forms the central part of the Council's planning and performance management framework and is reviewed and updated each year to take consideration of new developments, emerging priorities and actions.

A new Council strategic planning and performance framework was agreed in June 2015. This framework was developed to provide both a simple and clear articulation of the Council's vision and purposes and a concise set of shared strategic themes and principles around which all Council services can be built. Following these principles, the framework adopted a single vision for the city, shared with all Council partners, to ensure that Edinburgh is a thriving, sustainable capital city in which all forms of deprivation and inequality are reduced.

The **Council Business Plan for 2016/20** builds on the new strategic direction for the Council, providing a clear vision for the city and the type of organisation the Council needs to be in order to help deliver that vision. The plan sets out overlapping strategic themes common to the work of all service areas. These themes set out a commitment for the Council to:

- Improve quality of life for all our citizens
- Ensure economic vitality for Edinburgh, powering sustainable growth and jobs for a wide city region and
- Build excellent places, maintaining Edinburgh as an attractive place to live, work, visit and invest.

Across all of these themes, the plan sets out a further common commitment to provide best value and to deliver lean and agile Council services. In doing so, the plan incorporates budget savings plans and actions agreed as part of the budget setting process and the Council's 2016-20 Revenue and Capital Budget Framework, as well as activity undertaken and agreed as part of the Council Transformation Programme.

The business plan describes six future Council service principles to guide the development of all Council services over the next four years.

Focused on Customers
We are a Council in which services are designed around the needs of our customers, protecting the needs of our city's most vulnerable citizens

An Integrated Council
We are a Council of joined up services working together effectively with our partners

Empowered Communities
We are a Council which engages with our communities and enables community-led service design and delivery

A Sustainable Capital City
We are a low carbon, resource efficient Council, supporting resilient and sustainable communities in the rich natural setting of our city

Value for Money
We are a Council which makes best use of its resources, assets and facilities

High Performing Workforce
We are a Council where services are delivered by an engaged and empowered, high performing workforce

Within these themes, the plan also provides an overview of key priority outcomes for the Council, linked to priorities set out in existing service plans and strategies and to key priorities emerging from customer consultation and engagement work. The plan also incorporates all actions to re-shape services within the reduced financial resources we have available.

MANAGEMENT COMMENTARY

Risks and Uncertainty

In 2012, an external review of the Council's risk management arrangements concluded that they were inadequate for an organisation of its size, nature and complexity. The co-sourcing arrangements for the internal audit and risk management service subsequently put in place by the then Director of Corporate Governance therefore sought to enhance the Council's capacity and capability in this area and the extent of improvement has been noted in successive external assessments.

The Corporate Leadership Team's (CLT) **prioritised risks** as at January 2016 are outlined below. The report reflects the current highest priority risks of the Council along with the key controls in place to mitigate them;

Risk	Risk Description	Key Mitigating Controls
1. Maintenance of Capital Assets	Risk that the Council does not have sufficient resources to structure and maintain a capital portfolio that is fit for purpose and safe.	<ul style="list-style-type: none"> • Property Management report to CLT • Condition surveys performed routinely • Property Rationalisation work-stream
2. Cyber Security and Data Privacy	Risk that the Council's ICT infrastructure is overly exposed to cyber-attacks by external parties or former employees who may still have access to Council systems resulting in loss of data and significant reputational damage.	<ul style="list-style-type: none"> • Laptop and media encryption • Data awareness campaign • Service automation controls in place • Leavers process includes removal of access to IT applications • Implemented recommendations from Internal Audit Leavers Report
3. Integrated Care Programme	Risk over the affordability and delivery of the Adult Social Care, particularly due to demographic changes, impacting the outcomes and care for the people of Edinburgh.	<ul style="list-style-type: none"> • Integration Scheme • Strategic Commissioning Plan • Establishment of Shadow Board • Establishment of Leadership Group
4. ICT Infrastructure	Risk that the ICT infrastructure is not fit for purpose and doesn't meet the present or future needs of the Council through the transition phase to the new ICT provider.	<ul style="list-style-type: none"> • Consultation with staff to design correctly • Output specifications clearly identified • Engagement with staff and service providers • Change controls built into new contract • Single provider has been selected
5. Transformational Change Agenda	Risk that the Council's transformational change agenda is not implemented effectively with support from Elected Members and Trade Unions resulting in the Council failing to meet service delivery outcomes impacting cost reductions and staff morale.	<ul style="list-style-type: none"> • Transformational governance with full-time resource • External assurance and skills utilised • CLT monitoring and reporting on projects • Governance of major projects status reports • Ongoing consultations with Trade Unions • Maintain profile on Service Area risk registers
6. Savings Targets	Risk that the Council does not generate sufficient savings to meet budgets in the short and longer term resulting in under delivery of key services.	<ul style="list-style-type: none"> • Services budgets include a cost pressure contingency • Savings information reported monthly to CLT • External assistance to drive benefits realisation • Monthly budget monitoring and challenge meetings
7. Planning for Increased Demand	Risk of a lack of strategic planning in relation to increasing demand for critical services, taking into account the growth in the City's population as well as changing demographics, leading to a shortfall in funding and a lower quality of service.	<ul style="list-style-type: none"> • Demographic funding built into long term financial plans • Strategic workforce planning Board reporting to CLT • Continuing agenda item for CLT's consideration • Improved information to deliver stronger business case
8. Public Protection	Risk that the public in general and service users in particular experience harm and/or negative outcomes through either a lack of adequate resource or process failure.	<ul style="list-style-type: none"> • Established multi-agency public protection • Agreed infrastructure of multi-agency governance through protection committees and Edinburgh's Chief Officers' Group - Public Protection • Detailed audit and practice evaluation

MANAGEMENT COMMENTARY

Risks and Uncertainty - continued

A further review of the Council's key risks was undertaken in August 2016, with the results reported to the Governance, Risk and Best Value Committee on 26 September. This update considered, amongst others, potential risks arising from the referendum result on the UK's membership of the European Union and any implications for buildings of similar construction of the remedial works undertaken on PPP1 school buildings.

Performance Overview

While the Council is required by statute to report publicly on its performance across a range of areas set out by the Accounts Commission, a suite of additional measures, aligned to the Council's priorities, continues to be reported on a monthly basis to the Corporate Leadership Team and half-yearly to the Corporate Policy and Strategy Committee and relevant Executive Committees. This thematic reporting is intended to complement financial data in giving a more rounded and informed picture of overall performance. Progress is tracked against around forty key indicators covering the full range of Council services, with both absolute levels and trends in performance analysed to identify areas for remedial action and / or dissemination of best practice. Edinburgh-specific performance data for 2015/16 has also been provided through a range of other channels, including the Edinburgh People Survey, audits and inspections. Performance against a range of local-level, "quality of life" indicators is in addition monitored on a regular basis, with corresponding areas for improvement identified.

The Council's Best Value Audit report was published in May 2013 and recognised a range of improvements since the previous assessment in 2007, including good progress in improving outcomes for people and communities. In concluding that the Council's finances were well managed, the report nonetheless highlighted significant risks and uncertainties and, in light of these, the paramount importance of identifying savings that were both achievable and delivered.

A follow-up audit was undertaken in summer 2014, with the **Controller of Audit's findings** reported to the Council in December.

These findings noted improvements in a number of frontline services that had been highlighted in the May 2013 report, as well as to the Council's wider governance arrangements, risk management and internal audit functions. Despite progress in these areas, the report noted with concern that a means of fully addressing the Council's savings gap remained to be found, as well as the continued lack of a comprehensive workforce strategy and shortcomings in information and communications technology arrangements. A further update was subsequently reported to Council on 10 March 2016. The principal findings of this review were:

- Considerable progress has been made in addressing the Council's increasingly challenging financial position. The Council has a clear strategy for changing the way it delivers services, reducing its workforce and achieving substantial financial savings.
- Elected members and senior managers now have a shared understanding of the challenges facing the Council and the action that needs to be taken.
- The Council's various improvement projects have been consolidated into a single transformation programme. The programme is now being used to redesign services and change the way the Council operates.
- A workforce strategy has been developed, supported by more detailed plans, setting out the size and shape of its future workforce needs.

Under Section (1) (1) (a) of the Local Government Act 1992, the Accounts Commission has a statutory power to define the performance information that councils must publish locally in the following financial year with a view to facilitating comparison over time within, and across, authorities. The approach adopted in recent years has been largely non-prescriptive, with councils encouraged to develop their own comprehensive performance data sets, building on the Scotland-wide **Local Government Benchmarking Framework** to promote performance improvement and the targeting of resources to areas of greatest impact.

MANAGEMENT COMMENTARY

Performance Overview

Due to the time required for calculation, verification and publication of Scotland-wide figures, provisional 2015/16 data will not be available in sufficient time for inclusion in the unaudited or audited annual accounts. An overview of the Council's 2014/15 performance against the sixty efficiency- and outcome-related indicators comprising the framework and other relevant indicators as they related to the Council's then five strategic themes has, however, been produced, as well as more detailed briefings on the framework's seven elements. **These briefings** analyse not only existing performance but, more importantly, consider areas for improvement and planned or proposed actions to address these.

Comprehensive detail of both **Council-wide and service-specific performance** is also available on the Council's website.

Progress in delivering the **Capital Coalition's Pledges** is furthermore reported to Council on a six-monthly basis.

Financial Ratios

Financial ratios relating to Council Tax, debt and borrowing are shown below.

Council Tax	2015/16	2014/15	Notes on Ratios
In-year collection rate	96.10%	95.40%	This shows the % of Council Tax collected during the financial year that relates to bills issued for that year. It does not include collection of funding relating to previous financial years.
Council Tax income as a percentage of overall funding	25.02%	24.78%	This shows the proportion of total funding that is derived from Council Tax.
Debt and Borrowing - Prudence			Notes on Ratios
Capital Financing Requirement	£1,633.0m	£1,726.0m	The capital financing requirement represents the underlying need to borrow to fund expenditure on assets. Financing costs are provided for within the Council's Long-Term Financial Plan. Further details of the capital financing requirement can be seen in note 39 to the Financial Statements.
External debt levels	£1,622.9m	£1,677.2m	External debt levels include long-term commitments in respect of finance leases (mainly schools provided through PPP schemes) together with borrowing undertaken to finance capital expenditure. External debt levels are lower than the capital financing requirement as the Council has adopted a position of under borrowing, as set out in the Treasury Strategy.
Debt and Borrowing - Affordability			Notes on Ratios
Financing costs to net revenue stream - General Fund	11.80%	11.94%	These ratios show the proportion of total revenue funding that is used to meet financing costs. The ratios exclude any voluntary repayments of debt made during the year.
Financing costs to net revenue stream - HRA	33.23%	34.43%	
Impact of capital investment on Council Tax	-0.61%	0.96%	These ratios show incremental impact of financing costs (the increase in financing costs from the previous financial year) as a percentage of Council Tax, in respect of costs payable through the General Fund and house rents for the HRA.
Impact of capital investment on house rents	0.45%	-0.10%

Financial Performance

Revenue - General Fund

The Council's financial performance is presented in the Comprehensive Income and Expenditure Statement, which can be seen on page 19. This statement has been prepared using International Financial Reporting Standards. To show the net position of the Council, it is necessary to adjust the Comprehensive Income and Expenditure Statement for statutory items that require to be taken into account in determining the position on the General Fund and Housing Revenue Account for the year. These are summarised in the Movement in Reserves Statement (pages 15 to 17).

The outturn position for the General Fund, excluding accounting practice adjustments, compared to budget is summarised below.

	Budget	Actual	(Under)
	2015/16	2015/16	/ Over
	£000	£000	Spend
			£000
General Fund services	846,022	841,671	(4,351)
Centrally funded release costs	11,000	20,942	9,942
Dividend income (net)	(5,000)	(4,925)	75
Loans charges / interest on revenue balances	115,082	113,529	(1,553)
Net contribution (from) / to earmarked balances	(10,174)	(10,174)	0
Total expenditure to be funded	956,930	961,043	4,113
Council Tax	(238,113)	(240,645)	(2,532)
Council Tax Reduction Scheme	26,621	24,255	(2,366)
Total - Council Tax income account	(211,492)	(216,390)	(4,898)
General revenue funding	(354,576)	(354,576)	0
Distribution from non-domestic rate pool	(390,862)	(390,862)	0
Funding	(956,930)	(961,828)	(4,898)
Transfer to Council Priorities Fund	0	(785)	(785)

Fees and charges levied by the Council have been offset against the cost of providing services and are included within the actual cost of General Fund Services shown above.

Budget performance - General Fund

While a balanced overall position against the Council's budget was again delivered in 2015/16, significant pressures were nonetheless apparent, particularly in Health and Social Care. These pressures were addressed through identification of corresponding savings across other service and corporate areas. Formal incorporation within the budget framework of additional investment in both Health and Social Care and Corporate Property gives the potential for these to be addressed on a sustainable basis. Crucial to this sustainability, however, is the delivery of an unprecedented level of savings in 2016/17 and these will be subject to on-going monthly monitoring and discussion at Corporate Leadership Team and regular scrutiny by elected members, particularly via the planned series of Budget Challenge meetings.

The main variances in the Council's outturn position arose in the following areas:

- An underspend within General Fund services of £4.351m, primarily due to the five service areas returning underspends against their revised budgets and favourable movements in non service specific payments and provisions during the year.
- Centrally funded release costs variance of £9.942m, as a result of £20.942m costs incurred as part of the Transformation Programme, see page 10. Funded from underspends elsewhere within the General Fund.
- A reduction of £1.553m on loan charges / interest received, mainly as a result of the Council's planned strategy not to undertake borrowing to finance capital investment during the year.

MANAGEMENT COMMENTARY

Financial Performance - continued

Budget performance - General Fund - continued

- Additional Council Tax receipts, compared to budget, of £2.532m, mainly as a result of additional properties on which tax can be levied, and a reduction in exemptions. A further saving of £2.366m compared to budget was achieved on the Council Tax Reduction Scheme.
- The Council transferred a net sum of £10.174m from earmarked reserves during 2015/16. The Council's reserves are covered on page 9 of the management commentary and in more detail in note 10.1.
- The surplus of £0.785m returned in 2015/16 was transferred to the Council Priorities Fund, which forms part of the earmarked proportion of the General Fund for contingency funding, as detailed in note 10.1.

Principal Sources of Funding - General Fund

The principal sources of funding used by the Council during the year were:

	£000
Council Tax, net of Council Tax Reduction Scheme (CTRS)	216,390
General revenue funding	354,576
Distribution from non-domestic rates pool	<u>390,862</u>

Classification of Community Safety Expenditure

In accordance with guidance issued by LASAAC in December 2014, the Council has not reclassified Community Safety expenditure as Housing Services. The following figures which relate to Community Safety are included in Environmental Services within the Comprehensive Income and Expenditure Statement. Relevant expenditure relates to crime reduction (payments to Police Scotland) and CCTV costs.

	2014/15 £000	2015/16 £000
Relevant Community Safety expenditure included in Environmental Services	3,461	3,455

Reserves

General Fund

The Council's General Fund reserves comprise two elements:

- The unallocated General Fund; and
- Balances earmarked for specific purposes.

The unallocated General Fund is held against the risk of unanticipated expenditure and/or reduced income arising in any particular year. The level of this reserve is reviewed annually by the Council as part of the revenue budget process. This review considers the level of balances held, the financial risks which could be realised and the arrangements in place to manage these.

The **latest review** was in January 2016, as part of the 2016-2017 budget setting process. The unallocated General Fund balance remains at £13.025m, which equates to 1.36% of the annual budgeted net expenditure. There were no planned contributions to the unallocated General Fund for 2015/16.

In addition, the Council has a further £115.371m of balances earmarked for specific purposes. Details can be seen in note 10 to the Financial Statements. The chart below highlights the split of these balances.

These balances are held for a number of reasons:

- Balances set aside for specific financial risks which are likely to arise in the medium term future. Examples include monies earmarked for staff release costs and the insurance fund.
- Balances set aside from income received in advance are primarily from grant income, due to timing differences between the receipt of the grant income and the planned expenditure thereof.
- Balances set aside to enable the Council to undertake investment in specific projects which will deliver savings in future years. These savings are used, initially, to reimburse the earmarked balances.
- Balances held under the School Board Delegation Scheme (DSM), which permits balances on individual school budgets to be carried forward to the following financial year.

In summary, the level of reserves at 31 March 2016, together with the forward strategy, are considered appropriate in view of the financial liabilities and risks likely to face the Council in the short to medium term.

Other Reserves

The Council holds other usable reserves; these are the Capital Grants Unapplied Account with a balance of £2.657m, the Capital Fund with a balance of £68.793m and the Renewal and Repairs Fund with a balance of £38.194m.

On-Going and Future Developments

Transformation Programme

The Council continues to operate in a challenging environment with increases in demand for services within ongoing financial constraints. In response, the Council has developed a Transformation Programme aimed at building a lean and agile organisation, centred on customers, services and communities. On 25 June 2015, Council approved a report on the **Transformation Programme** which set out the future operating model for the Council.

As of **August 2016**, the first phase of organisational reviews is nearing conclusion, with new structures implemented and associated savings realised in seventeen areas. A further seven areas are in the consultation or matching and assignment phase and are on track to deliver new structures and associated savings in the coming weeks. Progress in delivery is being closely tracked and reported to CLT on a monthly basis and to elected members every two months. As at 5 August 2016, staff accounting for a total of 653.2 FTE have left or are confirmed to be leaving the organisation under VERA or VR arrangements. The one-off cost associated with these cases is £28.6m and the overall payback is 14.2 months, which is in line with planning assumptions.

Budget framework

On 21 January 2016, the Council approved a firm **balanced budget for 2016/17** and indicative balanced budgets for the following two years, subject to confirmation of actual grant funding allocations. With the intention of supporting the areas concerned to return to a sustainable financial footing, the approved budget framework includes additional service investment in both Health and Social Care and Corporate Property, funded by means of a range of transformation programme and service prioritisation-based savings within these functions and across the Council as a whole. The combined impact of this service investment, cost pressures arising from legislative change, continuing increases in demographic-led demand, inflationary uplifts and a cash-terms reduction in grant funding means that over £70m of savings require to be delivered in 2016/17 alone. Given this position and building on the improved scrutiny of the delivery of approved savings proposals and management of risks and pressures put in place for 2015/16, the first “budget challenge” meetings of the year involving Directors and key elected members have been held. These meetings are being supplemented by monthly Corporate Leadership Team consideration and discussion.

Following the Commission on Local Tax Reform report, the Scottish Government has announced changes to Council Tax to be implemented from the 2017/18 financial year, subject to parliamentary approval. The Council Tax band multipliers for properties in bands E, F G and H relative to Band D properties will increase, with the freeze lifted allowing a maximum increase of 3% per year, which is in-line with the Council's long-term financial plan assumptions. In the medium- to longer-term, the Scottish Government has also signalled the potential for councils to be assigned an element of income tax receipts generated in their respective areas as an incentive to encourage economic growth.

Health and Social Work Integration

The Public Bodies (Joint Working) (Scotland) Bill

The Public Bodies (Joint Working) (Scotland) Bill was given Royal Assent by the Public Bodies Act and was laid before the Scottish Parliament in the summer of 2015. Formal delegation of functions and resources to the Edinburgh Integration Joint board (EIJB) commenced on the 1st April 2016, following approval of the Strategic Plan by the EIJB. The Council's Internal Audit function audited the arrangements for Integration in Spring 2015 and the audit was signed off in July.

Governance

The Edinburgh Integrated Joint Board is now formally in place. A Tripartite agreement setting out the principles under which the Edinburgh Health and Social Care Partnership comprising the Edinburgh Integrated Joint Board (EIJB), NHS Lothian (NHSL) and the City of Edinburgh Council (the Council) will operate was agreed in March 2016. It outlines support of the Integration Scheme, describes the sharing of duties, powers and responsibilities and risks and ensures compliance with statutory regulations and guidance.

The leadership arrangements in place up to the formal establishment of the Integrated Joint Board have been replaced by the Edinburgh Health and Social Care Partnership Interface Group. This group will ensure open dialogue between the parties and has a remit to; discuss financial matters, resolve any delivery issues, discuss operational matters in relation to directions and as the first point of discussion with regard to formal disputes.

The Chief Officer took up post on 2nd November 2015 and prior to this the Interim Chief Finance Officer was appointed in August 2015.

Resource

The Edinburgh Integrated Joint Board holds a combined budget of around £577 million of which approximately £185 million is derived from the Council budget. This brings together existing budgets from the Health and Social Care Service in the Council as well as those from NHS Lothian's Community Health Partnership. These budgets are to be delegated to the Integrated Joint Board for governance, planning and resourcing purposes. The Strategic Plan through directions will identify how the resources are to be spent to deliver on the national outcomes and how the balance of care will be shifted from institutional to community-based settings.

Housing Revenue Account

The Council has a statutory obligation to maintain a housing revenue account (HRA) which records all income and expenditure for the management of, and investment in, Council homes. All expenditure on homes let by the Council is funded through the rent and related service charges paid by its tenants.

The HRA Business plan supports delivery of the City Housing Strategy by:

- providing high quality housing services to tenants;
- improving the quality of existing homes and neighbourhoods; and
- building new, energy efficient affordable homes to address the shortage of affordable housing in the city.

Since 2006/07, the HRA has been supported by a rent strategy of annual rent increases to ensure that there was a robust financial framework for delivering the capital investment required to meet the Scottish Housing Quality Standard by 2015. Following this, consultation was carried out with tenants to identify their top investment priorities for 2015/16. Based on the outcome of this consultation, capital investment focused investment to reduce household energy costs and build more affordable homes.

The 2015/16 Capital Programme prioritised investment in energy efficiency measures to alleviate fuel poverty and contribute to the Council and national carbon saving targets. All Council homes need to meet the Energy Efficiency Standard for Social Housing (EESH) by 2020. The Programme worked towards this target by accelerating the installation of new heating systems. The Capital Programme also focused delivery on an external fabric programme to improve energy efficiency in blocks across the city, through a combination of insulation and external render upgrades.

In addition to this, tenants have benefited from further modernisation investment to common areas including lift car upgrades, stair windows, door entry systems and external fabric improvements.

The majority of the delivery of the 2015/16 capital investment programme is through a new Housing Asset Management framework. The new framework has had a positive impact on value for money and quality to customers, achieving savings of up to 20% on certain elements of the programme. The new framework also gives the Council more flexibility and includes performance measures enabling robust contract management.

Significant progress has also been made in delivering new homes through the 21st Century Homes programme. In 2015/16 the programme was expanded to include an additional 400 homes. The current programme is set to deliver over 1,800 new homes, with at least 1,000 of these being let as affordable homes. The programme has been a catalyst for wider regeneration and has brought the Council recognition as a successful house builder, which has been evidenced through awards.

The capital programme supports investment in current homes and neighbourhoods and funds the construction of new affordable homes. The capital programme is funded mainly through prudential borrowing; however capital receipts, capital funded from current revenue and grants (Home Energy Efficiency Programme Scotland) also contribute to capital investment.

HRA income pays for housing management services and repairs and maintenance. It also meets the cost of servicing borrowing required for capital investment. Feedback from Council tenants shows satisfaction with the overall housing service is very high with many areas of satisfaction being top quartile or above average compared to other local authorities. The results show that the Council continues to be in the top three local authorities for satisfaction with the service, the local neighbourhood and quality of homes. There has also been a 14% increase in the number of tenants who think their rent provides value for money, placing the Council above average and amongst the top performing local authorities in this area.

MANAGEMENT COMMENTARY

Financial Performance - continued

Housing Revenue Account - continued

At the end of 2015/16, the HRA was balanced after making a contribution of £2.256m to the Renewal and Repairs Fund. These funds are earmarked for future capital investment in new homes through 21st Century Homes and as a contingency to manage the impact of welfare reform. In line with the HRA business plan, an additional £10.0m of debt was paid off in-year.

Throughout 2015/16 the Council extensively consulted tenants on their priorities for future investment and rent levels to inform the rent strategy from 2016/17 onwards. Many Council tenants are experiencing real and significant financial hardship and there are not sufficient homes being built in the housing market which meet current need and demand and the challenge of a growing population. In response to this a five year investment strategy has been developed which aims to significantly increase the number of affordable homes in the city from 3,000 to 8,000 over the next ten years and invest in services that will reduce tenants' cost of living.

Capital Expenditure

Capital expenditure is controlled through the Prudential Code that provides the framework for investing in infrastructure. In Scotland, local authorities are required by regulation to comply with the Prudential Code under Part 7 of the Local Government (Scotland) Act 2003. The key objectives of the Prudential Code are to ensure that capital plans are affordable, prudent and sustainable and that treasury decisions are taken in accordance with professional guidance and best practice.

In addition, capital plans must be consistent with, and support, local strategic planning, local asset management planning and proper option appraisal.

The outturn position for capital expenditure is summarised below:

	Revised Budget 2015/16 £000	Actual 2015/16 £000	(Slippage) / Acceleration £000
Capital expenditure			
General Fund services	165,277	156,289	(8,988)
Housing Revenue Account	<u>48,830</u>	<u>35,626</u>	<u>(13,204)</u>
Total capital expenditure	<u>214,107</u>	<u>191,915</u>	<u>(22,192)</u>
Capital receipts and other contributions

- General Fund services	(89,853)	(89,503)	350
- Housing Revenue Account	<u>(3,780)</u>	<u>(8,159)</u>	<u>(4,379)</u>
Total capital income	<u>(143,979)</u>	<u>(189,362)</u>	<u>(45,383)</u>
Balance to be funded through borrowing			
- General Fund services	38,860	(14,152)	(53,012)
- Housing Revenue Account	<u>31,268</u>	<u>16,705</u>	<u>(14,563)</u>
Total advances from loans fund	<u>70,128</u>	<u>2,553</u>	<u>(67,575)</u>

Expenditure on General Fund services slipped in total by £8.988m. The majority of slippage related to delays on the Boroughmuir High School replacement, Portobello High School replacement and Early Years improvement projects, caused by factors largely out with the Council's control. Expenditure on the Housing Revenue Account slipped by £13.204m.

Capital receipts and other contributions for General Fund Services includes settlement of a planned but unbudgeted within year receipt for the sale of the Atria totalling £91.251m. This is presented net of a transfer to the capital fund totalling £51.889m which is earmarked to fund Council transformation costs, a top up to the Strategic Investment Fund and to redeem debt.

The Council received £57.461m of general capital grant. The support provided through general capital grant enables the Council to direct resources to its own priorities.

MANAGEMENT COMMENTARY

Financial Performance - continued

Capital Expenditure - continued

Capital expenditure for the year totalled £191.915m. Major capital projects undertaken during the year included:

- Educational properties - £57.452m;
- Investing in new council homes and enhancing existing assets through the Housing Revenue Account programme - £35.626m;
- Social housing through the housing development fund - £31.663m;
- Roads, carriageways and other infrastructure - £25.324m;
- Health and Social Care establishments - £6.531m;
- Recreational venues (including libraries, parks and open spaces) - £3.683m; and
- Providing funding for homes for mid market rent from private developers through the National Housing Trust - £1.498m.

Group Accounts

The Council's arm's-length companies have been affected by the economic climate. A number of the companies are involved in the property market and have seen the values of their property portfolios decrease as a direct result of the current economic conditions. In June 2014 the Council agreed a restructuring of its property companies. Waterfront Edinburgh Ltd, Parc Craigmillar Ltd and Shawfair Land Ltd became wholly owned subsidiaries of the EDI Group Ltd to ensure that there is a coherent strategy across the companies and to improve corporate governance.

Net assets for 2015/16 include a combined group pension liability of £426.753m (2014/15 £749.701m), as shown in note 43.9. The 2014/15 comparative has been restated to correct a prior year misstatement. This reflects the inclusion of pension liabilities relating to Council, other employees, including subsidiary companies and the incorporation of Lothian and Borders Valuation Joint Board as an associate within the group. This exceeds the value of distributable reserves held by the Group. It should be noted that this is a snapshot of the position at 31 March 2016. The actuarial valuation, which takes a longer term view, will consider the appropriate employers' contribution rates and these, together with employee contributions and revenues generated from fund investments, will be utilised to meet the financing of these liabilities. It is therefore appropriate to adopt a going concern basis for the preparation of the group financial statements.

STATEMENT OF RESPONSIBILITIES FOR THE ANNUAL ACCOUNTS

The Authority's Responsibilities

The Authority is required:

- to make arrangements for the proper administration of its financial affairs, including group interests, and to secure that the proper officer of the authority has the responsibility for the administration of those affairs (section 95 of the Local Government (Scotland) Act 1973). In this Authority, that officer was the Head of Finance up until 5 January 2016, thereafter the Acting Executive Director of Resources.
- to manage its affairs to secure economic, efficient and effective use of its resources and safeguard its assets.
- to ensure the Annual Accounts are prepared in accordance with legislation (The Local Authority Accounts (Scotland) Regulations 2014), and so far as is compatible with that legislation, in accordance with proper accounting practices (section 12 of the Local Government in Scotland Act 2003).
- to approve the Annual Accounts for signature.

I confirm that these Annual Accounts were approved for signature by the Finance and Resources Committee at its meeting on 29 September 2016.

ANDREW BURNS
Council Leader

29 September 2016

The Section 95 Officer's responsibilities

The Section 95 Officer is responsible for the preparation of the Authority's Annual Accounts in accordance with proper practices as required by legislation and as set out in the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Accounting Code).

In preparing the Annual Accounts, the Section 95 Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with legislation; and
- complied with the Local Authority Accounting Code (insofar as it is compatible with legislation), except where stated in the Policies and Notes to the Accounts.

The Section 95 Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Annual Accounts

I certify that the financial statements give a true and fair view of the financial position of the Council and its Group at the reporting date and the transactions of the Council and its Group for the year ended 31 March 2016.

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement in the year on the different reserves held by the Council and its Group members. Reserves are analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation), most of which is already earmarked and other, unusable reserves. The surplus or deficit on the provision of services line shows the true economic cost of providing the Group's services, more details of which are shown in the Group Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund balance and the Housing Revenue Account for Council Tax setting and dwelling rent setting purposes. The net increase / decrease before transfers to earmarked reserves line shows the statutory General Fund and Housing Revenue Account balances before any discretionary transfers to or from earmarked reserves undertaken by the Council. Group reserves are shown as either usable or unusable reserves.

GROUP BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Group. The net assets of the Group (assets less liabilities) are matched by the reserves held by the Group. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Group may use to provide services. The second category of reserves is those that the Group is not able to use to provide services. This category of reserves include reserves that hold unrealised gains and losses (for example, the revaluation reserve) where amounts would only become available to provide services if the assets are sold.

BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example, the capital fund that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves include reserves that hold unrealised gains and losses (for example, the revaluation reserve) where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'adjustments between accounting basis and funding basis under regulations'.

GROUP CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Group during the reporting period. The statement shows how the Group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Group are funded by way of taxation and grant income or from the recipients of services provided by the Group. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Group.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies

The Annual Accounts for the year ended 31 March 2016 have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 (the Code) and the Service Reporting Code of Practice. This is to ensure that the accounts 'present a true and fair view' of the financial position and transactions of the Council.

1.1 Accruals of Income and Expenditure

- The revenue and capital accounts have been prepared on an accruals basis in accordance with the Code of Practice.
- Provision has been made in the relevant accounts for bad and doubtful debts.

1.2 Debt Redemption

- The Council operates a consolidated loans fund under the terms of the Local Government (Scotland) Act 1975. Capital payments made by services are financed from the loans fund and repaid on an annuity basis.
- Gains or losses arising on the repurchase or early settlement of borrowing are recognised in the Comprehensive Income and Expenditure Statement in the period during which the repurchase or early settlement is made. Where the repurchase of borrowing is taken with a refinancing or restructuring option, gains or losses are recognised over the life of the replacement borrowing.

1.3 Cash and Cash Equivalents

Cash and cash equivalents includes:

- credit and debit funds held in banks; and
- investments maturing within three months of the Balance Sheet date in respect of the Council and two months of the Balance Sheet date in respect of other Group members.

1.4 Contingent Assets and Liabilities

Contingent assets are not recognised in the accounting statements. Where there is a probable inflow of economic benefits or service potential, this is disclosed in the notes to the financial statements.

Contingent liabilities are not recognised in the accounting statements. Where there is a possible obligation that may require a payment or transfer of economic benefit, this is disclosed in the notes to the financial statements.

1.5 Provisions

The value of provisions is based upon the Council's obligations arising from past events, the probability that a transfer of economic benefit will take place and a reasonable estimate of the obligation.

1.6 Employee Benefits

• Accruals of Holiday Leave

'Cost of services' within the Comprehensive Income and Expenditure Statement includes a charge for annual leave to which employees are entitled, but have not taken, as at the Balance Sheet date.

The Council is not required to raise Council Tax to cover the cost of accrued annual leave. These costs are a reconciling item in the Movement in Reserves Statement for the General Fund and Housing Revenue Account balances by way of an adjusting transaction with the employee statutory adjustment account.

• Pensions

The Council participates in two different pension schemes which meet the needs of employees in particular services. Both the schemes provide members with defined benefits related to pay and service. The schemes are as follows:

• Teachers

This is an unfunded scheme administered by the Scottish Public Pensions Agency. The pension cost charged in the accounts is the contribution rate set on the basis of a notional fund.

• Other Employees

Other employees, subject to certain qualifying criteria, are eligible to join the Local Government Pension Scheme (LGPS). The LGPS is a defined benefit statutory scheme, administered in accordance with the Local Government Pension Scheme (Scotland) Regulations 1998, as amended.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.6 Employee Benefits - continued

- Pensions - continued

- Other Employees - continued

The Financial Statements have been prepared including pension costs as determined under International Accounting Standard 19 - Employee Benefits (IAS19). The cost of services includes expenditure equivalent to the amount of retirement benefits the Council has committed to during the year. The interest cost on defined benefit obligation and interest income on plan assets have been charged / credited to 'financing and investment income' in the Comprehensive Income and Expenditure Statement.

The pension costs charged to the Comprehensive Income and Expenditure Statement in respect of employees are not equal to contributions paid to the funded scheme for employees. The amount by which pension costs under IAS19 are different from the contributions due under the pension scheme regulations is disclosed in the Movement in Reserves Statement for the General Fund and Housing Revenue Account.

Pension assets have been valued at bid value (purchase price), as required under IAS19.

Under pension regulations, contribution rates are set to meet 100% of the overall liabilities of the Fund.

1.7 Financial Instruments

- Financial Liabilities

Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. For the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement (CIES) is the amount payable for the year in the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to surplus or deficit on provision of services in the Comprehensive Income and Expenditure Statement in the year of repurchase / settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new loan and the write-down to the CIES is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the CIES, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain / loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the CIES to the net charge against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement for the General Fund Balance.

- Financial Assets

Loans and receivables are initially measured at fair value and carried at their amortised cost. Annual credits to the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Council may make loans to related parties at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited at a marginally higher effective rate of interest than the rate receivable from the related party, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. For soft loans to subsidiary bodies, the writedown is accounted for as an additional investment in the subsidiary in the Council's Group Accounts.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.7 Financial Instruments - continued

- **Financial Assets - continued**

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Comprehensive Income and Expenditure Statement.

Any gains and losses that arise on the de-recognition of the asset are credited / debited to the Comprehensive Income and Expenditure Statement.

Surplus funds on behalf of the Council and associated bodies and cash monies of Lothian Pension Funds are now managed by the Council under a formal management agreement in a pooled investment arrangement. While the monies continue to be shown as investments in Lothian Pension Funds' accounts, they are no longer shown as both liabilities and investments in the Council's accounts.

- **Available-for-Sale-Financial Instruments**

The Council has a significant financial interest in several companies and trusts which have been set up for specific purposes. Details of these appear in note 7 to the Financial Statements. These financial interests have been assessed under the requirements of IAS39 Financial Instruments: Measurement.

The Council's investments in Transport for Edinburgh, CEC Holdings Limited and CEC Recovery Limited (formerly tie Limited) have been assessed as outwith the scope of IAS39.

Unless otherwise stated, the accounts of these companies may be obtained on application to the Corporate Finance Senior Manager, Waverley Court, 4 East Market Street, Edinburgh EH8 8BG.

1.8 Government and non-Government Grants and Contributions

- **Revenue**

Revenue grants and contributions have been included in the financial statements on an accruals basis.

Where such funds remain unapplied at the Balance Sheet date, but approval has been given to carry these funds forward to the next financial year, these amounts have been set aside in the General Fund.

- **Capital**

Capital grants and contributions are recognised in the Comprehensive Income and Expenditure Statement except to the extent there are conditions attached to them that have not been met.

Where there are no conditions attached to capital grants and contributions, these funds are a reconciling item in the Movement in Reserves Statement for the General Fund and Housing Revenue Account by way of an adjusting transaction with the capital adjustment account, where expenditure has been incurred and the unapplied capital grants account, where expenditure has not been incurred.

Where there are outstanding conditions attached to capital grants and contributions that have not been met at the Balance Sheet date, the grant or contribution will be recognised as part of capital grants receipts in advance. Once the condition has been met, the grant or contribution will be transferred from capital grants received in advance and recognised as income in the Comprehensive Income and Expenditure Statement, as above.

1.9 Intangible Assets

Intangible fixed assets represent software licences purchased by the Council.

- **Recognition**

Expenditure on the acquisition, creation or enhancement of intangible fixed assets has been capitalised on an accruals basis.

- **Measurement**

Intangible fixed assets are initially measured at cost.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.9 Intangible Assets - continued

- **Depreciation**

Software licences are depreciated over the period of the licence, commencing in the year after acquisition.

1.10 Inventories

Inventories are measured at the lower of cost and net realisable value.

Inventories acquired through a non-exchange transaction are measured at their fair value as at the date of acquisition.

Inventories held for distribution at no charge or a nominal charge are measured at the lower of cost and current replacement cost.

1.11 Investment Properties

- **Measurement**

Investment properties are initially measured at cost. After initial recognition, investment properties are measured at fair value (the price that would be received for the asset in its highest and best use).

Any gains or losses arising from a change in the fair value of investment properties are recognised in the Comprehensive Income and Expenditure Statement for the period in which they arise.

- **Revaluation**

Investment properties are revalued annually.

- **Depreciation**

Investment properties held at fair value are not depreciated.

- **De-recognition**

Investment properties are de-recognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential is expected from its disposal.

The gain or loss arising from the retirement or disposal of an investment property is recognised in the 'surplus or deficit on provision of services' within the Comprehensive Income and Expenditure Statement in the period of the retirement or disposal.

1.12 Leases

- **Finance Leases**

Finance leases, which have substantially transferred to the authority the benefits and risks of ownership of a non-current asset, are treated as if the asset had been purchased outright.

- **Leased-in Assets**

Assets acquired under finance leases are included in non-current assets at the lower of the fair value or the present value of the minimum lease payments. The capital element of the lease is included as obligations under finance leases / creditors.

The lease rentals comprise capital and interest elements. The capital element is applied to reduce the outstanding obligation and the interest element is charged to revenue on a straight line basis over the terms of the lease.

- **Operating Leases**

Leases that do not meet the definition of a finance lease are accounted for as operating leases.

- **Leased-in Assets**

Rental payments, net of benefits received, under operating leases are charged to the relevant service on a straight line basis over the life of the lease.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.12 Leases - continued

- **Operating Leases - continued**

- **Leased-out Assets**

- Rental income received under operating leases is credited to the relevant service in accordance with the terms specified in the lease agreement.

1.13 Current and Non-Current Assets Held for Sale

Current assets held for sale are assets that the Council has identified as surplus to requirement, are being actively marketed and it is expected that the sale will be realised within twelve months of the Balance Sheet date.

Non-current assets held for sale are assets that the Council has identified as surplus to requirement, are being actively marketed, but it is not expected that the sale will be realised within twelve months of the Balance Sheet date.

- **Measurement**

- Assets held for sale are measured at the lower of carrying value and fair value less costs to sell at the Balance Sheet date. Where the sale is expected to occur in more than twelve months, the cost is measured at present value.

- **Depreciation**

- Current and non-current assets held for sale are not depreciated.

1.14 Overheads

The costs of support services are allocated to direct services. The allocations are made on a basis appropriate to the service provided, in order to match costs to service usage. Certain support service costs are recovered through direct charges during the year.

1.15 Public Private Partnership - School Buildings, Maintenance and Other Facilities

Public Private Partnership (PPP) contracts are agreements to receive services, where the responsibility for making available the non-current assets required to provide the services passes to the PPP contractor. As the Council is deemed to control the services that are provided under this scheme and as ownership of the schools and other facilities will pass to the Council at the end of the contracts for no additional charge, the Council carries the non-current assets used under the contracts on its Balance Sheet.

Non-current assets recognised on the Balance Sheet are revalued and depreciated in the same way as other assets owned by the Council.

The amounts payable to the PPP operators each year are analysed into five elements:

- fair value of the services received during the year - debited to education services in the Comprehensive Income and Expenditure Statement.
- finance cost - an interest charge of 8.968% (PPP1 scheme), 5.895% (PPP2 scheme) and 8.236% (James Gillespies High School - JGHS) on the outstanding balance sheet liability - debited to 'financing and investment income' in the Comprehensive Income and Expenditure Statement.
- contingent rent - increases in the amount to be paid for the property arising during the contract - debited to 'financing and investment income' in the Comprehensive Income and Expenditure Statement.
- payment towards liability - applied to write down the value of the finance lease on the Balance Sheet.
- lifecycle replacement costs - recognised as non-current assets on the Balance Sheet.

1.16 Fair Value measurement - surplus assets and investment properties

Surplus assets, investment properties and relevant financial instruments are measured at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

In measuring the fair value, the market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use is taken into account.

Appropriate valuation techniques have been applied, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy as:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 - unobservable inputs for the asset or liability.

1.17 Heritage Assets

- **Categories of Assets**

Heritage assets comprise the following:

Monuments and statues	Civic regalia and artefacts
Archival collections	Libraries' special collections
Museum and gallery collections	

Intangible heritage assets represent three private vehicle registration plates.

It has not been practical or possible to split out all heritage assets belonging to the common good fund, charities or trusts. Therefore, the Council's Balance Sheet may hold elements of heritage assets that belong to other entities.

- **Recognition**

Expenditure on the acquisition, creation or enhancement of heritage assets has been capitalised on an accruals basis.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.17 Heritage assets - continued

- **Measurement**

Heritage asset valuations may be made by any method that is appropriate and relevant. Furthermore valuations need not be carried out by external valuers and there is no prescribed minimum period between valuations.

The following measurement bases have been applied to heritage assets based on the most relevant and appropriate information available. This is set in the context where it is not practicable to obtain up to date valuations for all heritage assets at a cost which is commensurate with the benefits to users of the Council's financial statements.

- Monuments and statues Historic value
- Civic regalia and artefacts Insurance purposes valuation
- Archival collections Insurance purposes valuation, based on restoration costs only
- Libraries' special collections Insurance purposes valuation
- Museum and gallery collections Insurance purposes valuation
- Private vehicle registration plates Cost or current value information is not readily available, therefore these assets have not been recognised on the Council's Balance Sheet

- **Depreciation**

Heritage assets are deemed to have indeterminate lives and a high residual value; hence it is not considered appropriate to charge depreciation.

1.18 Property, Plant and Equipment

- **Categories of Assets**

Property, plant and equipment is categorised into the following classes:

Council dwellings	Other land and buildings
Vehicles, plant, furniture and equipment	Infrastructure assets, e.g. roads and footways
Community assets, e.g. parks	Assets under construction
Surplus assets (assets that are surplus to requirements, but there are no clear plans to sell these at the current time.)	

- **Recognition**

Expenditure on the acquisition, creation or enhancement of non-current assets has been capitalised on an accruals basis. Expenditure lower than £6,000 on individual assets is charged to revenue.

- **Measurement**

Infrastructure, community assets and assets under construction are measured at historical cost.

All other classes of property, plant and equipment are measured at fair value.

- Other land and buildings - fair value is the amount that would be paid for the assets in their existing use.
- Council dwellings - fair value is measured at existing use value - social housing.
- Vehicles, plant, furniture and equipment - fair value is the amount equivalent to depreciated historical cost for short life and/or low values assets. For assets with longer lives and/or high values, fair value is the amount that would be paid for the asset in its existing use or depreciated replacement cost for specialised /rarely sold assets where insufficient market-based evidence exists.
- Surplus assets - fair value is the price that would be paid for an asset in its highest and best use.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.18 Property, Plant and Equipment - continued

- **Depreciation**

Depreciation is provided on all property, plant and equipment, other than freehold land, community assets and assets under construction.

The Council does not depreciate its non-current assets in the year of acquisition. The Council operates a five-year rolling revaluation programme for assets and provides for depreciation on a straight line basis on the opening book value over the remaining useful life of the asset. Thus the charge to the Comprehensive Income and Expenditure Statement for the year is not impacted by changes in asset value during the year arising from either revaluation or enhancements.

Component accounting is applied as part of the revaluation process. As a result, where a building asset is split down into further components for the first time in year, the depreciation charge is based on the opening book value over the opening remaining useful life of the asset rather than subsequent component values and associated lives. The difference is not considered material.

- **Charges to Revenue for use of Non-Current Assets**

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service.
- impairment losses attributable to the clear consumption of economic benefits on property, plant and equipment used by the service and other losses where there are no accumulated gains in the Revaluation Reserve against which they can be written off.

The Council is not required to raise council tax to cover depreciation or impairment losses. Depreciation and impairment losses are therefore a reconciling item in the Movement in Reserves Statement for the General Fund and Housing Revenue Account by way of an adjusting transaction with the capital adjustment account.

- **Revaluations**

Where assets are included in the Balance Sheet at fair value, revaluations are carried out at intervals of no more than five years. The Council operates a rolling programme for revaluations. The determination of fair value of land and buildings is undertaken by the Council's Estate Manager (Projects).

- **De-recognition**

An asset is de-recognised either on its disposal, or where no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from de-recognition of an asset is included in 'surplus or deficit on the provision of services' within the Comprehensive Income and Expenditure Statement when the asset is de-recognised.

The gain or loss on de-recognition of property, plant and equipment assets is a reconciling item in the Movement in Reserves Statement for the General Fund and Housing Revenue Account.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.18 Property, Plant and Equipment - continued

- **Components**

Component accounting is applied to all assets that comprise land and buildings. Land and buildings are treated as separate components of an asset and accounted for separately.

The building component of an asset is separated into further components primarily to those with a carrying value of over £5 million approximately. This policy is also applied to buildings with a carrying value of less than £5 million where enhancement expenditure is considered significant in relation to the overall carrying value of the building component.

Where it is necessary to break a building down into further components, the following categories are applied:

- Structural - includes external and internal walls, traditional roofing, doors, etc.
- Non-traditional roofing - includes flat roof, non-traditional roof coverings and industrial type roofs.
- Finishes - includes doors, windows and room finishes.
- Mechanical and electrical services - includes water, heat, ventilation, electrical, lifts, fire and communications.
- Fittings and furnishings - includes fittings, furnishings and sanitary appliances.

1.19 Reserves

Reserves held on the Balance Sheet are classified as either usable or unusable reserves.

Usable reserves hold monies that can be applied to fund expenditure or reduce Council Tax.

Unusable reserves cannot be applied to fund expenditure.

- **Usable Reserves**

The Council operates the following usable reserves:

- Capital receipts reserve - this represents capital receipts available to finance capital expenditure in future years.
- Capital grants unapplied account - holds capital grants and contributions that have been received towards specific works that have yet to be completed.
- Capital fund - under Schedule 3 of the Local Government (Scotland) Act 1975, certain receipts derived from the sale of property may also be used to create a capital fund "to be used for defraying any expenditure of the authority to which capital is properly applicable, or in providing money for repayment of the principal of loans".
- Renewal and repairs fund - holds monies set aside for the renewal and repair of Council property. This fund is operated under the terms of Schedule 3 to the Local Government (Scotland) Act 1975.
- General Fund - held to mitigate financial consequences of risks and other events impacting on the Council's resources. Monies within the General Fund can be earmarked for specific purposes.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies - continued

1.19 Reserves - continued

• Unusable Reserves

The Council operates the following unusable reserves:

- Revaluation reserve - holds unrealised gains arising since 1 April 2007 from holding non-current assets.
- Capital adjustment account - provides a mechanism between the different rates at which assets are depreciated and are financed through the capital controls system.
- Financial instruments adjustment account - provides a mechanism between the different rates at which gains and losses (such as premiums on the early repayment of debt) are recognised under the Code and are required by statute to be met from the General Fund.
- Available for sale financial assets - provides a mechanism to recognise the unrealised gains and losses on the revaluation of financial assets (such as investment bonds).
- Pension reserve - represents the net monies which the Council requires to meet its pension liability, as calculated under IAS19, Employee Benefits. The Council operates a pensions reserve fund under the terms of the Local Government Pension Reserve Fund (Scotland) Regulations 2003.
- Employee statutory adjustment account - represents the net monies which the Council requires to meet its short-term compensated absences for employees under IAS19.

1.20 Revenue Expenditure Funded from Capital Under Statute

Expenditure that may be capitalised under statutory provisions that does not result in the creation of assets for the Council has been charged to the 'net cost of services' in the Comprehensive Income and Expenditure Statement.

These costs are a reconciling item in the Movement in Reserves Statement for the General Fund by way of an adjusting transaction with the capital adjustment account.

1.21 Value Added Tax

Value added tax (VAT) is excluded from the financial statements unless it is not recoverable from HM Revenue and Customs.

1.22 Group Account Consolidation

IFRS 10, 'Consolidated Financial Statements', was issued in August 2011 and replaces the guidance on control and consolidation in IAS 27, 'Consolidated and Separate Financial Statements', and in SIC 12, 'Consolidation - Special Purpose Entities', along with other related code changes.

The group has reviewed its investments in other entities to assess whether the conclusion to consolidate is different under IFRS 10 than under IAS 27. No differences were found.

Group accounts have been prepared on the following basis:

- Accounting policies for group members have been aligned where possible.
- The following methods of consolidation have been used:
 - Subsidiaries - line-by-line basis;
 - Associates - equity method.
- Transport for Edinburgh Limited's and CEC Holdings Limited's reporting periods are to 31 December. As this is within three months of the Council's reporting period (to 31 March), no consolidation adjustments have been made.
- Inter-company transactions have been eliminated on consolidation.
- Group members' financial statements have been prepared on an accruals basis, with the exception of the International Conference Centre Income Trust and International Conference Centre Expenditure Trust, which have been prepared on a cash basis.

NOTES TO THE FINANCIAL STATEMENTS

2. Accounting Standards that have been Issued but not yet adopted

The Code requires the disclosure of information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2016/17 Code:

- Amendments to IAS 19 Employee benefits (Defined benefit plans - employee contributions)
- Annual Improvements to IFRSs 2010-2012 Cycle
- Annual Improvements to IFRSs 2012-2014 Cycle
- Amendment to IFRS 11 Joint Arrangements
- Amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets
- Amendment to IAS 1 Presentation of Financial Statements (Disclosure initiative)
- Changes to the format of the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement and the introduction of the new Expenditure and Funding Analysis
- Changes to the format of the Pension Fund Account and the Net Assets Statement
- Change of accounting policy for the Highways Network Asset

The Code requires implementation from 1 April 2016 and there is therefore no impact on the 2015/16 financial statements.

Overall, the majority of these new or amended standards are not expected to have a significant impact on the financial statements. The adoption of amendments to IAS 1 and changes to the format of the Pension Fund Account and the Net Assets Statement represent a change in accounting policy which may require the restatement of the Balance Sheet at the beginning of the preceding period in the 2016/17 financial statements, if the changes are material. The adoption of changes to the format of the Comprehensive Income and Expenditure Statement, Movement in Reserves and the new Expenditure and Funding Analysis represent a change of accounting policy that will require the publication of a restated Balance Sheet at the beginning of the preceding period in the 2016/17 financial statements.

Change of accounting policy for the Highways Network Asset will see a significant change in balance sheet valuation as at 1 April 2016 but does not require any 2015/16 restatement.

3. Judgements Made in Applying Accounting Policies

In applying the accounting policies set out in Note 1 to the Financial Statements, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The most significant judgements made in these Financial Statements are detailed below:

3.1 Provision of School Buildings

The Council is deemed to control the services provided under the Public Private Partnership agreements (PPP1 and PPP2) and the Design, Build, Finance and Maintain (DBFM) for James Gillespies High School, for the provision of school buildings, maintenance and other facilities with Edinburgh Schools Partnership (PPP1), Axiom Education Limited (PPP2) and Hub South East Scotland (JGHS).

The accounting policies for public private partnerships have been applied to these arrangements and the schools (valued at net book value of £561.529m at 31 March 2016) are recognised as Property, Plant and Equipment on the Council's Balance Sheet.

3.2 Group Membership

The Council has an interest in a number of subsidiary and associate companies and trusts. Full details of these interests are shown in note 7 to the Financial Statements. The most significant of these companies in terms of the size of trading operations and other factors are included in the Group Accounts.

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Financial Statements contain estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

NOTES TO THE FINANCIAL STATEMENTS

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The following table details uncertainties on assumptions and estimates, and outlines the potential effect if actual results differ from the assumptions made.

Item	Uncertainty	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. A reduction in spending on repairs and maintenance would bring into doubt the useful lives assigned to the assets.	If the useful life of assets is reduced, depreciation increases and the carrying value of the assets falls. It is estimated that the annual depreciation charge would increase and the carrying value would fall by £9.347m for each year that useful lives were reduced.
Long-Term Contracts	The Council's approved budget provides for inflationary uplifts on long-term contracts.	If inflation were to increase by 1%, this would result in an additional cost of £0.560m per annum.
Provisions	The Council has made a provision of £0.568m in respect of the remainder of anticipated equal pay settlements. This is based on the number of potential claimants and assumes similar settlement terms to those achieved previously. There is uncertainty surrounding both of these assumptions.	Should the settlement values increase by 10%, this would have the effect of adding £0.057m to the provision required.
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effects on the net pensions liability of changes in individual assumptions can be measured.
Arrears	At 31 March, the Council had a balance of sundry debtors of £32.217m. A review of significant balances suggested that an impairment of doubtful debts of £4.984m (15.5%) was appropriate. In the current economic climate it is not certain that this will be sufficient.	If collection rates were to deteriorate, a 5% increase in the rate of the impairment of doubtful debts would require an additional £1.611m to be set aside as an allowance.
VAT Recovery Status	The Council's accounts are prepared on the assumption that VAT charged on its purchases is fully recoverable and that it will not become partially exempt.	If the Council were to exceed its 5% de minimis level, a minimum repayment of £4.049m would be due to HM Revenue and Customs.

NOTES TO THE FINANCIAL STATEMENTS

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty - continued

Item	Uncertainty	Effect if Actual Results Differ from Assumptions
Council Tax Arrears	The Council makes an assumption on the level of Council Tax that will be collected over a number of years. The Council currently assumes that 96.82% of Council Tax will be collected. An impairment for doubtful debts of £7.956m has been provided for in respect of sums due in the year. In the current economic climate it is not certain that this would be sufficient.	If collection rates were to deteriorate by 1%, the amount to be impaired would require an additional £2.502m to be set aside as an allowance.
House Rent Arrears	At 31 March, the Council had a balance of housing rent arrears of £6.779m. A review of significant balances suggested that an impairment of doubtful debts of £5.399m (79.6%) was appropriate. In the current economic climate it is not certain that this will be sufficient.	There has been a significant increase in arrears and the impairment set aside, which should help protect against additional welfare reforms such as Universal Credit and the reduction in the benefits cap announced in the UK government's budget which will potentially impact on the level of rent arrears.
Council Dwellings - Housing Stock	Council dwellings are valued using the Beacon Method which aggregates the vacant possession values of each unit of housing stock. The beacon discount factor is determined by applying a capitalisation yield to the gross rental income and comparing this to the aggregate value. This methodology takes account of regional variations in capital values, stock condition, rent arrears and voids. The discount factor applied is 48%.	If the discount factor is increased by 1%, this would lead to a corresponding reduction in the total value of council dwellings of £19.372m. If the discount factor is reduced by 1%, this would lead to a corresponding increase in the total value of council dwellings of £19.372m.

This list does not include assets and liabilities that are carried at fair value based on recently observed market prices.

5. Material Items of Income and Expense

The Council used £20.942m of general fund underspends, income surpluses and reserves to fund staff release costs arising during the year. The effect of this is included within the Comprehensive Income and Expenditure Statement.

6. Events After the Balance Sheet Date

A revaluation of the Lauriston Castle collection commenced in January 2016. It is likely there will be a significant increase in the value of these assets when the details of the revaluation become available, however this will not be until October 2016 and as such will only be reflected in the 2016/17 accounts prospectively.

17 schools within the PPP1 contract were closed in April 2016 due to findings of property surveys undertaken as a consequence of a wall collapse at Oxfangs Primary School. The valuation of the affected schools reported within these financial statements does not reflect any impairment in value as a result of the defects identified. Remedial works have been undertaken by Edinburgh Schools Partnership and inspected and certified, with all costs borne by them to bring the properties back into operational use. The impact of the remedial works is deemed to have brought the properties back to an equivalent value to that prior to the identification of the defects.

NOTES TO THE FINANCIAL STATEMENTS

7. Subsidiaries and Associates

The Council holds shares in various trading companies, either as a controlling or minority shareholder.

The Council is also represented on the Boards of various companies that are limited by guarantee and have no share capital. It participates in these companies by means of Board membership and the provision of funding and management support.

The following entities have a significant impact on the Council's operations and have been consolidated into the Group Accounts:

Subsidiaries:	Shareholding	
• CEC Holdings Limited	100.00%	
• Transport for Edinburgh Limited	100.00%	
Associates:		
• Edinburgh Leisure	33.33%	Board representation
• Festival City Theatres Trust	33.33%	Board representation
• Lothian Valuation Joint Board	61.22%	Funding percentage
• Common Good	100.00%	

Trusts:

- International Conference Centre Income Trust
- International Conference Centre Expenditure Trust

The following companies are not consolidated into the Group Accounts. An assessment has been carried out on these companies, their activities and the level of Council control. These companies are not considered to be a material part of the Group and have therefore been excluded from the Group Accounts:

	Shareholding	
• Capital City Partnership Limited	100.00%	
• CEC Recovery Limited (formerly tie Limited)	100.00%	
• Marketing Edinburgh Limited	100.00%	
• LPFE Limited	100.00%	
Joint Venture		Interest
• Edinburgh Integration Joint Board	50.00%	Board representation

Unless otherwise stated, the accounts of these bodies may be obtained on application to the Corporate Finance Senior Manager, Waverley Court, 4 East Market Street, Edinburgh EH8 8BG.

Retained loss carried forward	(51,153)	(51,716)

The Council inherited its interest in CEC Holdings Limited following the local government reorganisation in 1996. It is considered that this was on an acquisition basis, however, as no consideration was given for these interests, there was no goodwill involved in these transactions.

- **CEC Recovery Limited (formerly tie Limited)**

The principal activity of the company was previously the promotion, development, procurement, project management and implementation of certain nominated projects. The company did not actively trade in the year to 31 March 2016 and is actively pursuing the transferral of project documentation to Transport Scotland. The company changed its name from tie Limited to CEC Recovery Limited on 13 May 2013.

The City of Edinburgh Council owns 100% (1,000 shares) of the issued share capital through Transport Edinburgh Limited (a dormant company), the immediate parent company of CEC Recovery Limited. The most recent audited results of the company are as follows:

- **Edinburgh Integration Joint Board**

The Edinburgh Integration Joint Board (EIJB) was established by order of Scottish Ministers on 27 June 2015 under the Public Bodies (Joint Working) (Scotland) Act 2014. The Annual Accounts of EIJB are for the period from 27 June 2015 to 31 March 2016.

The Board comprises 10 voting members, made up of five elected members appointed by the City of Edinburgh Council and five NHS non-executive directors appointed by NHS Lothian, along with a number of non voting members.

The expenditure incurred by the EIJB is covered in full by income received from the partner bodies, NHS Lothian and the City of Edinburgh Council. EIJB will therefore commission services from the parent bodies based on the approved strategic plan.

7.3 Audit Opinions noted on the Accounts of the Companies

Unless otherwise indicated, the companies' accounts are audited.

7.4 Shareholder Support to Council Companies

A number of companies within the group are currently dependent on the continued financial support of the Council. The companies are EICC Limited, a subsidiary of CEC Holdings Limited - (the Council owns 100% of the shares in CEC Holdings Limited), Festival City Theatres Trust and Edinburgh Leisure.

7.5 Financial Impact of Consolidation

The effect of inclusion of subsidiaries and associates on the Group Balance Sheet is to increase both reserves and net assets by £148.992m (2014/15 £109.279m re-stated) representing the Council's share of the realisable surpluses or deficits in these companies.

8. Trusts

● International Conference Centre Expenditure Trust

This Trust was set up to hold funds provided by the Council for its development of the Edinburgh International Conference Centre. The balance of unexpended funds held at 31 March 2016 was £4.183m (31 March 2015 £4.153m).

The Expenditure Trust received interest of £0.03m.

£0.479m transferred from the Income Trust noted below was transferred to the Council to defray the development and running costs of the new additional function space. Payments were also made to the EICC Limited for construction services (£0.072m) and for funding support (£0.600m).

● International Conference Centre Income Trust

This Trust was set up to hold funds received from the sale of land at the Edinburgh International Conference Centre site, pending their use for development and other costs of the centre. The balance of unexpended funds held at 31 March 2016 was £2.398m (31 March 2015 £3.551m).

Funds in the Income Trust have reduced by £1.153m during the year, relating to the transfer, noted above, to the International Conference Centre Expenditure Trust and management fees of £0.013m. The Income Trust received interest of £0.011m.

9. Adjustments Between Accounting Basis and Funding Basis Under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

NOTES TO THE FINANCIAL STATEMENTS

14. Property, Plant and Equipment

14.1 Depreciation

No depreciation is provided in the year of an asset's purchase. Assets in the course of construction are not depreciated until they are brought into use. Where depreciation is provided for, assets are depreciated using the straight line method over the following periods:

Council dwellings	50 years
Buildings	50 years (assets not subject to component accounting)
Buildings - structural	50 years
Buildings - non-traditional roofing	35 years
Buildings - finishes	25 years
Buildings - mechanical and electrical	20 years
Buildings - fittings and furnishings	15 years
PPP Schools	40 years (PPP1 schools) and 35 years (PPP2 schools)
Infrastructure assets	20 years
Vehicles, plant, furniture and equipment	5 years to 30 years, to reflect estimated useful life 3 years to 15 years, Group Companies

14.2 Capital Commitments

At 31 March 2016, the Council had entered into a number of contracts for the construction or enhancement of property, plant and equipment. These are budgeted to cost £78.159m. A number of these amounts relate to contract retentions, as projects are now complete. Similar commitments at 31 March 2015 were £64.920m.

14.7 Council Dwellings, Other Land and Buildings and Investment Properties

The Council carries out a rolling programme of revaluations that ensures that all property, plant and equipment required to be measured at fair value is revalued at least every five years. All valuations were carried out internally. Valuations of land and buildings were carried out under the direction of the Council's Estate Manager (Projects), S. Sladdin RICS, in accordance with the Statements of Asset Valuation Practice and Guidance Notes of The Royal Institution of Chartered Surveyors. Fixtures and fittings are included in the valuation of the buildings where appropriate.

The significant assumptions applied in estimating fair value are:

- Unless otherwise stated, all properties with a greater than de minimis value were assumed to be in a reasonable state of repair and have a life expectancy of more than fifty years. Where the Council has a planned replacement programme asset life is reviewed accordingly.
- The valuations were prepared using information from the Council's internal records, together with the valuation roll produced by Lothian Valuation Joint Board.
- Not all properties were inspected.

The following statement shows the progress of the Council's five-year rolling programme for the revaluation of property, plant and equipment.

Total cost or valuation	<u>0</u>	<u>19,670</u>	<u>0</u>	<u>19,670</u>

- There were no transfers between levels during the year.
- The fair value for surplus assets has been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in similar locations. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant, leading to the properties being categorised at level 2 in the fair value hierarchy. In estimating the fair value of the Council's surplus assets, the assumption has been made that these would be disposed for highest and best use consideration.
- The fair value for investment properties has been based on the market approach using current rent receivable with a capitalisation rate applied. The rate reflects the return that an investor would expect from the capital employed. There is evidence of lettings from the Council's property information systems which have been used to determine valuation parameters and the level of observable inputs is significant, leading to the investment properties being categorised at level 2 in the fair value hierarchy. In estimating the fair value of the Council's investment properties, the highest and best use of the properties is their current use.

16. Intangible Assets

Intangible assets mainly represent purchased software licences.

Software is given a finite useful life based on the period of the licence purchased.

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £1.289m in 2015/16 (2014/15 £0.710m) was charged to the following services.

	2015/16	2014/15

17.2 Details of Heritage Assets

- Monuments and Statues are valued on an historic basis and valuations are carried out under the direction of the Council's Estate Manager (Projects).
- Civic Regalia and artefacts include items such as the Lord Provost's Badge and Chain of Office and the Rosebery Jewel. The value of these assets is based on an insurance purposes valuation carried out in 1998.
- Archival collections include historical records which relate to the history of Edinburgh and its surrounding areas. The value of these assets is based on a current insurance purposes valuation based on restoration costs only. This valuation has not changed since 2008/09.
- Libraries special collections include items such as rare book collections and pictures in Calotype. The value of these assets is based on an insurance purposes valuation carried out in 2007 with a minor proportions valuation being updated in 2014.
- Museums and Gallery collections include various collections held at a number of museums across Edinburgh. They include items held within the Social History, Applied Art, Writers Museum, Childhood, City Art Centre and Picture Loan Scheme. The value of these assets is based on insurance purposes valuations carried out in 2003 along with a minor proportions valuation being updated in 2014. A small minority of the assets are based on insurance purposes valuations carried out in 1996.
- The valuations for heritage assets have all been carried out internally and although they are from earlier periods, they are considered the most appropriate and relevant. Carrying out valuations for the majority of collections held is very costly and time consuming so it is not practicable to obtain recent valuations at a cost which is commensurate with the benefits to users of the financial statements. The carrying amounts of these heritage assets will be reviewed with sufficient regularity in the future to ensure they are brought up to date and remain appropriate.
- It has not been practical or possible to split out all heritage assets belonging to common good, charities or trusts. Therefore, the Council's balance sheet may hold this element of heritage assets that belong to other entities.
- The Council has three private vehicle registration plates which meet the definition of intangible heritage assets. These have not been recognised on the balance sheet due to lack of information on cost or current value. They are limited registration numbers that rarely become available for sale and therefore no relevant or appropriate current value can be placed on these.

18. Financial Instruments

18.1 Categories of Financial Instruments

The following categories of financial instrument are carried on the Council's Balance Sheet

	Long-Term		Current

Lothian Regional Council entered into an agreement for the disposal of Norton Park Annex to the Tudor Trust. The terms of the disposal included the creation of a Title Company with share capital of 100 ordinary shares, held by the Tudor Trust, and 350,000 £1 preference shares held by City of Edinburgh Council. The preference shares carry rights that, in the event of the company being wound up or the property sold, the Council will receive the first £0.35m of the sale proceeds. This is reflected in the Balance Sheet as 'Other Long-term Liabilities' of £0.35m, as shown above and as a long-term investment.

18.2 Income, Expenses, Gains and Losses

In addition to the above interest expense, £1.849m (2014/15 £1.877m) was charged to the loans pool from the financial instruments adjustment account during the year, but not reflected in the Comprehensive Income and Expenditure Statement. It also excludes £0.305m (2014/15 £0.279m) of loans fund expenses charged to the Council.

18.3 Fair Value of Assets and Liabilities

The Council has adopted IFRS 13 for the calculation of fair values. Financial assets classified as available for sale are carried in the Balance Sheet at fair value. For Treasury Bills and shares in Money Market Funds, the fair value is taken from the market price. Financial assets classified as loans and receivables and all financial liabilities are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31 March 2016, using the following methods and assumptions:

- Loans, including PWLB loans, borrowed by the Council have been valued by discounting the contractual cash flows over the whole life of the instrument at the appropriate market rate for local authority loans.
- The value of “Lender’s Option Borrower’s Option” (LOBO) loans has been increased by the value of the embedded options.
- The fair values of other long-term loans and investments have been discounted at the market rates for similar instruments with similar remaining terms to maturity on 31 March.
- The fair values of finance lease assets and liabilities and of PFI scheme liabilities have been calculated by discounting the contractual cash flows (excluding service charge elements) at the appropriate AA-rated corporate bond yield.
- The fair value of soft loan assets has been calculated using the cash flows implied by the appropriate market interest rate which has been deemed to be the appropriate PWLB rate plus a credit spread of between 2% and 5% depending on the party to whom the advance has been made.
- The fair value of short-term instruments, including trade payables and receivables, is assumed to approximate to the carrying amount.

Fair values are shown in the table below, split by their level in the fair value hierarchy:

- Level 1 – fair value is only derived from quoted prices in active markets for identical assets or liabilities, e.g. bond prices.
- Level 2 – fair value is calculated from inputs other than quoted prices that are observable for the asset or liability, e.g. interest rates or yields for similar instruments.
- Level 3 – fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness.

The fair values are calculated as follows:

		31.03.16		31.03.15	
	Fair Value Level	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Public Works Loans Board	2	(1,086,887)	(1,365,967)	(1,128,116)	(1,562,608)
Salix	2	(2,004)	(2,042)	(1,813)	(1,813)
Market debt	2	(289,443)	(497,978)	(293,496)	(508,695)
Temporary borrowing	n/a	(17,877)	(17,877)	(16,469)	(16,469)
Other bodies	n/a	0	0	(2,876)	(2,876)
Other long-term liabilities	n/a	(350)	(350)	(350)	(350)
Trade creditors	n/a	(15,277)	(15,277)	(18,597)	(18,597)
Finance Leases	3	(226,600)	(311,832)	(237,325)	(237,325)
Financial liabilities		<u>(1,638,438)</u>	<u>(2,211,323)</u>	<u>(1,699,042)</u>	<u>(2,348,733)</u>

The fair value is higher than the carrying amount because the authority’s portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date. The relative reduction in fair value of the PWLB loans is due primarily to the requirement of IFRS13 to estimate the fair value of a financial liability using the price that would be paid to transfer it to another participant of equal credit standing rather than the PWLB Repayment Rate that had been used previously.

18.4 Available for Sale Financial Assets

As part of the introduction of IFRS13 in the 2015/16 financial year, a review of the classification of Financial Instruments has been undertaken and as a result, investment in Treasury Bills and Money Market Funds have been reclassified as Available for Sale per the table below.

	Fair Value Level	31.03.16		31.03.15

		<u>64,311</u>	<u>64,311</u>	<u>30,777</u>	<u>30,777</u>

The unrealised gain on the available for sale financial assets (Treasury Bills) was £1,857, which has been transferred to the Available for Sale Financial Assets Reserve in 2015/16 per Note 26.5.

24. Provisions

Provision has been made within the Group Financial Statements for outstanding payments of £13.004m (2014/15 £19.770m).

Of this amount, £11.532m (2014/15 £17.994m) relates to the Council. These include estimates of settlements on outstanding equal pay, compensation, insurance and other claims, land acquisition costs for the tram project and Council Tax discounts that require to be set aside for housing projects. The precise amount of these payments is unknown, however, provision has been made in the accounts, as summarised below, based on the Council's assessment of the costs.

26.2 Revaluation Reserve

The revaluation reserve contains the gains made by the Council arising from increases in the value of its property, plant and equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The reserve contains unrealised gains accumulated since 1 April 2007, the date the reserve was created. Accumulated gains arising before 1 April 2007 were consolidated into the capital adjustment account.

26.3 Capital Adjustment Account

The capital adjustment account provides a balancing mechanism for timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (CIES) (with reconciling postings from the revaluation reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Council to finance the costs for acquisition, construction and enhancement of non-current assets. The account also holds accumulated gains and losses on investment properties and evaluation gains accumulated on property, plant and equipment prior to 1 April 2007.

Note 9 provides details of the source of the transactions posted to this account, except those involving the revaluation reserve.

26.4 Financial Instruments Adjustment Account

The financial instruments adjustment account provides a balancing mechanism between the different rates at which gains and losses (such as premiums on the early repayment of debt) are recognised under the Code and are required by statute to be met from the General Fund and Housing Revenue Account. This account also holds the equivalent interest rate adjustment on lender option / borrower option loans.

	2015/16	2014/15
	£000	£000
Balance at 1 April	(49,159)	(51,049)
Proportion of premiums incurred in previous financial years to be charged against the General Fund and HRA balances in accordance with statutory requirements	1,849	1,877
Proportion of equivalent interest rate calculation on lender option / borrower option loans (LOBOs)	79	18
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in accordance with statutory requirements	1,928	1,895
Difference between actual interest paid and interest rate assumed in equivalent interest rate calculation on transition	17	(5)
Balance at 31 March	<u>(47,214)</u>	<u>(49,159)</u>

The Council operates a loans pool on behalf of the General Fund and Housing Revenue Account. With the transfer of responsibility for Police and Fire services to the new national bodies, all movements are now reflected on the Council's Balance Sheet. An element of the cost, however, is recovered through the pooled interest rate and therefore there is no financial impact on the Council.

26.5 Available for Sale Financial Assets Reserve

The available for sale financial assets reserve provides a balancing mechanism for gains and losses arising on movements in fair value of financial assets (such as Treasury Bills and Money Market Funds).

	2015/16	2014/15
	£000	£000
Balance at 1 April	0	0
Unrealised gains / (losses) on revaluation of assets	2	0
Balance at 31 March	<u>2</u>	<u>0</u>

26.6 Pensions Reserve

The pensions reserve provides a balancing mechanism arising from the different arrangements for accounting for post employment benefits (pension costs) and for funding pensions in accordance with statutory provisions. The Council accounts for pensions in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs.

Statutory arrangements, however, require benefits to be financed as the Council makes its contributions to Lothian Pension Fund or pays any pensions for which it is directly responsible.

NOTES TO THE FINANCIAL STATEMENTS

26. Unusable Reserves - continued

26.6 Pensions Reserve - continued

The debit balance on the pension reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources that the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits require to be paid.

	2015/16 £000	2014/15 £000

Employer's pension contributions and direct payments to pensioners payable in the year	72,287	61,359
Balance at 31 March	<u>(438,940)</u>	<u>(726,969)</u>

26.7 Employee Statutory Adjustment Account

The employee statutory adjustment account provides a balancing mechanism arising from the different arrangements that would otherwise impact on the General Fund and HRA balances from accruing for compensated absences earned but not taken in the year (annual leave entitlement carried forward at 31 March). Statutory arrangements require that the impact on the General Fund and HRA balances is mitigated by transfers to or from this account.

The amount accrued at the end of the 2015/16 is £5.875m lower than the previous year. This is mainly attributable to the timing of the Easter break and resulting impact on teachers' accrued leave and policy changes to the amount of unused leave that can be carried forward from year to year.

32. Amounts Reported for Resource Allocation Decisions

The analysis of income and expenditure by service shown in the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice. However, decisions about resource allocations are taken by the Council on the basis of budget reports analysed across departments. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made to departments in relation to capital expenditure, whereas depreciation, revaluation and impairment losses in excess of balances on the revaluation reserves are charged to services in the Comprehensive Income and Expenditure Statement.
- the cost of retirement benefits is based on the payment of employer's contributions to Lothian Pension Fund rather than the current service cost of benefits earned during the year.
- expenditure on support services is budgeted for within the relevant departments that provide the support services and not charged directly to services receiving the support services.

The income and expenditure for the Council's main service areas is shown separately on the following pages. Income and expenditure for the subsidiary, associate and joint venture companies is shown in total.

33. Trading Operations

The following services continue to meet the definition of significant trading operations under the terms of the Local Government in Scotland Act 2003, as amended.

33.1 Edinburgh Catering Services - Other Catering

Edinburgh Catering Services - Other Catering is a quality accredited trading operation providing a catering service to staff and the public across seven Council buildings which includes civic hospitality in Waverley Court and the City Chambers.

Civic hospitality which includes external customers accounts for approximately 45% of the business turnover within this contract.

	2015/16 £000	2014/15 £000	2013/14 £000	Cumulative £000
Turnover	980	1,297	1,355	n/a
(Deficit) / Surplus	(232)	(66)	(45)	(343)

Edinburgh Catering Services - Other Catering failed to achieved its statutory obligation to break even over the three-year period, due to a downturn in turnover on internal hospitality, an increase in other staffing and equipment costs. Reductions in vending equipment are planned to ensure cost reduction going forward, along with a new pricing policy aimed at increasing income from staff facilities and internal hospitality.

The results of Edinburgh Catering Services - Other Catering are included within 'Financing and Investment Income and Expenditure' in the Comprehensive Income and Expenditure Statement.

NOTES TO THE FINANCIAL STATEMENTS

33. Trading Operations - continued

33.2 Refuse Collection, including Trade Waste

This trading operation provides refuse collection services for over 239,000 households, with the majority of these properties being served by a containerised waste collection system. Trade waste provides a collection and disposal service to producers of commercial waste throughout the city. In addition the service provides uplifts of bulky household refuse.

	2015/16 £000	2014/15 £000	2013/14 £000	Cumulative £000
Turnover	16,723	17,155	17,319	n/a
Surplus / (deficit)	(242)	2,279	2,997	5,034

Refuse Collection achieved its statutory obligation to break even over the three-year period.

In 2015/16, a citywide scheme was introduced to improve the appearance of the capital's streets. Businesses were no longer permitted to permanently store their waste containers in public and were required to present their waste during timed collection windows. As a consequence, there was an increase in staff and vehicle costs to support this initiative.

The results of Refuse Collection / Trade Waste are included within 'Environmental Services' in the Comprehensive Income and Expenditure Statement.

34. Financial Support and Guarantees

34.1 Loans and guarantees

The Council has made loans to the following organisations at less than market interest rates (soft loans).

	2015/16 £000	2014/15 £000	2015/16 £000	2014/15 £000

Nominal Value Carried Forward	<u>1,000</u>	<u>1,000</u>	<u>105</u>	<u>108</u>

Adjustments have been made under the requirements of IAS 39 as required by the Code.

The Transport for Edinburgh loan relates to two £500,000 loans to Transport for Edinburgh Ltd. to provide a loan facility to Tramco for its general working capital purposes and funding its business and activities.

The Spartans loan relates to the lease of an area of ground lying immediately to the west of Ainslie Park Leisure Centre, Pilton Drive, Edinburgh. The original outstanding payment was £120,000, with £3,000 to be paid on or before 31 March each year for ten consecutive years from 31 March 2012 and £9,000 to be paid for ten consecutive years on or before 31 March from 31 March 2022.

NOTES TO THE FINANCIAL STATEMENTS

34. Financial Support and Guarantees - continued

34.2 Shared Equity Scheme / Scheme of Assistance

In 2010/11, the Council approved a shared equity scheme to help buyers purchase homes from PARC. The Council provided assistance to sixteen purchasers, at a cost of £0.484m. No further assistance has been provided since 2012/13.

The monies are required to be repaid to the Council either on sale of the property or after twenty years, whichever occurs earlier.

Interest for the period up to 2014/15 was charged to PARC and thereafter to the purchasers.

Purchasers have the option to pay interest annually or accumulate charges on the same terms as the original equity. Sums due to the Council, including accrued interest, where owners have opted to defer interest, are included in long-term debtors.

The assisted purchase scheme was an initiative administered on behalf of the Council to allow home owners to enter into a lifetime mortgage agreement to finance repairs to their properties. Forty loans were made between 2007 and 2012, with an original loan principal value of £0.762m. These sums are included in long-term debtors.

The loans are repayable on sale of the property or on the death of the home owner. The amount repayable is a minimum of the original loan principal and a maximum of the original loan as a percentage of the property value on signing the agreement, as applied to the value on redeeming the loan.

34.3 National Housing Trust

The National Housing Trust (NHT) is a housing initiative developed by the Scottish Government, in partnership with the Scottish Futures Trust (SFT) and local authorities. The aim is to deliver new homes for mid-market rent while at the same time stimulating the housing market. The scheme is underwritten by the Scottish Government, by way of a guarantee against the borrowing and associated interest costs. The Council works with the Scottish Government and SFT to procure private developers to build homes for mid-market rent and enter into joint ventures with the Council, by way of Limited Liability Partnerships through the NHT initiative.

Phase 1 of investment in NHT saw 422 new homes delivered, by June 2014, across four sites, at a cost of £45.67m.

Phase 2 of NHT was approved in June 2014, for the delivery of up to 96 new affordable housing units. Investment totalling £11.92m will be required with £1.498m of expenditure incurred in 2015/16 and the remaining balance of £10.422m forecast for 2016/17.

A third phase of NHT has been approved and will deliver up to 413 mid-market rent homes across three separate sites by December 2019. The estimated cost of phase 3 is £48.122m.

The Council has advanced the following sums through the NHT scheme:

Developer	Development Site	Total No. of Units	2015/16 £000	Prior Years £000
Places for People	Lochend North	126	0	13,323
Places for People	Lighthouse Court	62	0	6,492
Teague Homes Limited	Salamander Place / Leith Links	145	0	15,551
Miller Homes	Telford North	89	0	10,299
FP Newhaven Ltd	Sandpiper Road	12	1,498	0
			<u>1,498</u>	<u>45,665</u>

These sums are included within long-term debtors, as detailed in note 20.2.

40.3 Assets Leased Out by the Council - Operating Leases

The Council leases out property and equipment under operating leases for a number of purposes, including:

- for economic development purposes, including regeneration and to provide suitable affordable accommodation for local businesses.
- to arm's length companies for the provision of services such as sport and leisure and theatres.

The future minimum lease payments receivable under non-cancellable leases in future years are:

	2015/16 £000	2014/15 £000
Not later than one year	14,625	14,116
Later than one year and not later than five years	41,975	41,346
Later than five years	151,887	157,676
	208,487	213,138

The Council has a number of leases that are agreed for a period of over 100 years, the majority of which relate to land.

41. Public Private Partnerships and Similar Contracts

41.1 PPP - Education Projects

In 2001, the Council entered into a Public Private Partnership (PPP1) for the provision of school buildings, maintenance and other facilities with Edinburgh Schools Partnership. This agreement was supplemented by a further agreement in April 2004, which now requires Edinburgh Schools Partnership either to replace or substantially renovate ten primary, five secondary and two special schools, together with one close support unit and a community wing, and to maintain these schools to a high standard. When the agreement ends in July 2033 the schools will be handed to the Council with a guaranteed maintenance-free life of five years.

In April 2007, the Council entered into a second Public Private Partnership (PPP2) for the provision of school buildings, maintenance and other facilities with Axiom Education Limited. This required Axiom Education Limited to replace six secondary schools and two primary schools and to maintain these schools to a high standard. When the agreement ends in July 2038 the schools will be handed to the Council with a guaranteed maintenance-free life of five years.

In December 2013, the Council entered in to an agreement with Hub South East Scotland for the provision of a new building for James Gillespies High School. This has been procured using a Design, Build, Finance and Maintain (DBFM) agreement with Hub South East Scotland. Construction of the new facility is phased, with the initial phase (comprising the main teaching block) being completed in April 2015, and final phases (including sports hall, social / assembly buildings) due for completion in July 2016. The concession is due to terminate in July 2041.

Under the agreements the Council is committed to paying the following sums as detailed in the contractor's final bid model:

	Payment for Services £000	Reimburse. of Capital Expenditure £000	Interest £000	Total £000
Payable in 2016/17	16,818	8,016	18,629	43,463
Payable within two to five years	76,156	32,552	72,497	181,205
Payable within six to ten years	117,530	41,212	81,867	240,609
Payable within eleven to fifteen years	134,421	51,495	71,495	257,411
Payable within sixteen to twenty years	113,926	54,881	52,800	221,607
Payable within twenty one to twenty five years	45,038	30,824	18,634	94,496
Payable within twenty six to thirty years	185	913	112	1,210
	<u>504,074</u>	<u>219,893</u>	<u>316,034</u>	<u>1,040,001</u>

Payments due under the following schemes have been inflated by 1.11% per annum for the PPP1 scheme, 1.67% per annum for the PPP2 scheme and 2.5% per annum for the James Gillespies High School scheme, reflecting the terms of the separate contracts. The actual level of payment to be made in 2016/17 will be adjusted to reflect non-availability of a number of school facilities over the period between April and July 2016.

The amounts disclosed as reimbursement of capital expenditure are included in other long-term liabilities on the Balance Sheet.

The unitary charges paid to the service providers include amounts to compensate them for the capital expenditure incurred and interest payable whilst the capital expenditure remains to be reimbursed. The liability outstanding to pay the service providers for capital expenditure incurred is as follows:

	2015/16 £000	2014/15 £000
Balance at 1 April	227,802	200,831
PPP unitary charge restatement adjustment	0	64

41.2 Provision of Information Technology services

In 2015 the Council entered into a seven year contract for the provision of information technology services. This contract became operational on 1 April 2016.

Under the agreement the Council is committed to paying the following sums in cash terms (assuming an inflationary uplift at the level shown). The repayments during the first year of the contract include up to £15m of one off costs.

Future Repayment	Inflationary	
Period	£000	Uplift
2016/17	37,139	2.0%

2021/22 - 2022/23	<u>38,039</u>	2.0%
	<u><u>163,666</u></u>	

The cost of information technology is included in overheads and is re-allocated to services.

41.3 Provision of Parking Enforcement

The Council has entered into a five year contract with NSL for the provision of parking enforcement. The contract commenced on 1 October 2014 and ends on 30 September 2019. There is also a five year extension clause at the end of this period.

Under the agreement the Council is committed to paying the following sums in cash terms: (renegotiated annually)

41.4 Waste Disposal

The Council entered into a twenty year contract with Viridor in 2000 to supply waste to their landfill site in Dunbar. The contract requires the Council to supply an agreed tonnage to the landfill site each calendar year. Fees are subject to review twice a year, based on civil engineering indices.

Under the agreement the Council is committed to paying the following sums in cash terms (assuming an increase of 2% per annum):

Future Repayment	£000

42. Pension schemes accounted for as defined contribution schemes

The Scottish Teachers' Superannuation Scheme is an unfunded scheme administered by the Scottish Public Pensions Agency. The scheme is excluded from the accounting requirements of IAS 19 as it is a national scheme which does not allow for the identification of pension liabilities consistently and reliably between participating authorities. The accounts, therefore, only include the payments made by the Council to the scheme in year and do not reflect the estimated pension assets or liabilities of the scheme. The exception to this are payments in relation to unfunded pension enhancements for members of the scheme as they are administered through the Local Government Pension Scheme and are taken into consideration in accounting for pension costs under IAS 19.

	2015/16		2014/15

As a percentage of teachers' pensionable pay		0.00		0.00

At 31 March 2016, creditors include £2.731m (2014/15 £2.487m) in respect of teachers' superannuation. The increase in the percentage of teachers' pensionable pay came into effect in September 2015.

43. Defined Pension Schemes

43.1 Participation in Pension Scheme

The Council makes contributions towards the cost of post-employment benefits. Although these benefits will not be payable until employees retire, the Council has a commitment to make payment for those benefits and to disclose them at the time that employees earn their future entitlement.

Employees other than teachers are eligible to join the Local Government Pension Scheme. The pension costs charged to Services in respect of these employees have been calculated under IAS 19 - Employee Benefits.

In terms of this scheme, in 2015/16 the Council paid an employer's contribution of £55.446m (2014/15 £54.843m) into the Lothian Pension Fund, representing 21.3% (2014/15 21.3%) of pensionable pay. Contribution rates are determined by the Fund's Actuary based on triennial actuarial valuations of the pension fund. The latest review was in March 2014.

The Fund's Actuary is unable to provide an analysis of IAS19 pension costs by individual service. The charge in the Comprehensive Income and Expenditure Statement applied against each service included in 'Cost of Services' reflects an apportionment of costs in line with the actual cash payments made by the Council to Lothian Pension Fund.

43.2 Transactions Relating to Post-Employment Benefits

The cost of pension benefits, as assessed by the Fund's Actuary and reflected within 'Cost of Services', differed from the cash payment to the Fund charged against Council Tax. The following summarises the entries reflected within the Comprehensive Income and Expenditure Statement in respect of accounting for pensions under IAS19. The amount by which pension costs calculated in accordance with IAS19 are different from the contributions due under the pension scheme regulations is included in the Movement in Reserves Statement.

43.6 Basis for Estimating Assets and Liabilities

Hymans Robertson, the independent actuaries to Lothian Pension Fund, have advised that the financial assumptions used to calculate the components of the pension expense for the year ended 31 March 2016 were those from the beginning of the year (i.e. 31 March 2015) and have not been changed during the year. The main assumptions in the calculations are:

Investment returns

Actual return for period from 1 April 2015 to 31 December 2015	1.30%
Estimated return for period from 1 April 2015 to 31 March 2016	4.90%

Average future life expectancies at age 65:

		31.03.16	31.03.15
Current pensioners	male	22.1 years	22.1 years
Current pensioners	female	23.7 years	23.7 years
Future pensioners	male	24.2 years	24.2 years
Future pensioners	female	26.3 years	26.3 years

Period ended	31.03.16	31.03.15
Pension increase rate	2.2%	2.4%
Salary Increase rate	4.2%	4.3%
Discount rate	3.5%	3.2%

Estimation of defined benefit obligations is sensitive to the actuarial assumptions set out above. In order to quantify the impact of a change in the financial assumptions used, the Actuary has calculated and compared the value of the scheme liabilities as at 31 March 2016 on varying bases. The approach taken by the Actuary is consistent with that adopted to derive the IAS19 figures.

For example, to quantify the uncertainty around life expectancy, the Actuary has calculated the difference in cost to the Employer of a one year increase in life expectancy. For sensitivity purposes, this is assumed to be an increase in the cost of benefits of broadly 3%. In practice the actual cost of a one year increase in life expectancy will depend on the structure of the revised assumption and changes in some of the assumptions may be interrelated.

Change in assumptions at 31 March 2016	Approximate % Increase to Employer	Approximate Monetary Amount £000
0.5% decrease in Real Discount Rate	10%	271,586
1 year increase in member life expectancy	3%	80,604
0.5% increase in the Salary Increase Rate	3%	89,601
0.5% increase in the Pension Increase Rate	7%	176,900

43.7 Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a contribution stability mechanism with the scheme's actuary until 31 March 2018. Thereafter, for the next actuarial valuation period of three years, rates could vary from this rate by a maximum increase of 0.5% or a maximum decrease of (0.5%) per annum.

43.8 Information about the defined benefit obligation

	Liability Split		Weighted Average Duration
	£000	%	
Active members	1,434,118	55.1	23.1
Deferred members	297,842	11.4	22.4

Total	<u>2,605,380</u>	<u>100.0</u>	<u>18.3</u>

The above figures are for funded obligations only and do not include the unfunded pensioner liabilities. The durations are effective as at the previous formal valuation as at 31 March 2014.

The unfunded pensioner liability at 31 March 2016 comprises approximately £62.141m (2014/15 £68.26m) in respect of LGPS unfunded pensions and £19.296m (2014/15 £21.123m) in respect of teachers' unfunded pensions. For unfunded liabilities as at 31 March 2016, it is assumed that all unfunded pensions are payable for the remainder of the member's life. It is further assumed that 90% of pensioners are married (or cohabiting) at death and that their spouse (cohabitee) will receive a pension between 37.5% and 50% of the member's pension as at the date of the member's death.

43.9 Pension Reserves - Group Position

The pension reserves shown in the Group Balance Sheet relate to the Council. Pension reserves for the Valuation Joint Board are included in unusable reserves. Local government legislation provides that local authorities have an obligation to meet the expenditure of the joint boards of which they are constituent members. As a consequence, the City of Edinburgh Council has obligations to meet the liabilities arising from the joint board pension deficits as they fall due. Pension reserves for other companies in the group are included in usable reserves. The value of the pension reserves is shown separately below.

The Council's estimated contribution to Lothian Pension Fund for 2016/17 is £55.906m.

43.11 Strain on the Pension Fund

Lothian Pension Fund has the right to require the Council to make additional payments to the pension fund to reflect the extra cost to the pension fund of immediate payment of benefits to employees who retire early on efficiency, redundancy or voluntary grounds. This amounted to £7.994m, including accrued payments (2014/15 £2.705m).

43.12 Further Information

Further information on Lothian Pension Fund can be found in the Council's Pension Fund's Annual Report which is available upon application to the Chief Executive Officer, Lothian Pension Fund, Atria One, 144 Morrison Street, Edinburgh, EH3 8EX.

44. Contingent Liabilities

- There may be outstanding liability claims or claims to be submitted against the Council in relation to insured and uninsured losses or incidents. The actual cost and timing of any claims cannot be estimated with reasonable accuracy and consequently no specific provision has been made in the financial statements in respect of any such claims.
- The provision for equal pay claims includes an estimate of the costs for all staff with unsettled equal pay claims against the Council as at 31 March 2016. Additional equal pay liabilities may arise if further eligible claims are made. This potential additional liability will be confirmed only by further eligible claims being lodged and its amount cannot be estimated with reasonable accuracy. Consequently, no provision has been made in the financial statements in respect of this.
- Whilst the Council has made an impairment provision for statutory repairs debtors, there may also be further liability claims against the Council in relation to works carried out under statutory repair notices served by the Council. The actual cost of these claims cannot be estimated with reasonable accuracy. It is also not possible to estimate precisely when these claims could become due.
- There may be claims submitted against the Council in relation to a decision by the European Court of Justice under the Working Time Directive. The actual cost and timing of any claims cannot be estimated with reasonable accuracy and consequently no specific provision has been made in the financial statements in respect of any such claims.

NOTES TO THE FINANCIAL STATEMENTS

45. Nature and Extent of Risks Arising from Financial Instruments

45.1 Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the unpredictability of financial markets, and implementing restrictions to minimise these risks. The Council complies with the CIPFA Prudential Code and has adopted the CIPFA Treasury Management in the Public Services Code of Practice. Overall these procedures require the Council to manage risk in the following ways:

- by formally adopting the requirements of the Code of Practice;
- by approving annually in advance prudential indicators for the following three years limiting:
 - the Council's overall borrowing;
 - its maximum and minimum exposures to fixed and variable rates;
 - its maximum and minimum exposures in the maturity structure of its debt;
- by selecting investment counterparties in compliance with the Council's Treasury Policy Statement.

The annual treasury management strategy which incorporates the prudential indicators was approved by the Council on 10 March 2016 and is available on the Council website. The key issues within the strategy are:

- The authorised limit for 2016/17 has been set at £1.818bn. This is the maximum limit for external borrowings and other short and long term liabilities.
- The operational boundary for 2016/17 has been set at £1.718bn. This is the expected upper level of borrowing and other short and long term liabilities during the year.
- The maximum amounts of fixed and variable interest rate exposure were set at 100% and 75% of the Council's net debt respectively.

The prudential indicators are reported and approved as part of the Council's annual budget setting process. Actual performance is also reported annually to members of the Council.

45.2 Key Risks

The Council's activities expose it to a variety of financial risks, the key risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council;
- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments;
- Re-financing risk – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms;
- Market risk - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates movements.

45.3 Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers. Deposits are with banks, building societies, and other institutions in line with the Council's prevailing counterparty limits as set out in the Council's treasury policy statement. Investment decisions are considered daily as part of the daily cash flow management by the Council's Treasury Team who can, and do, restrict the list further in light of market conditions.

The Council's funds are managed along with those of Lothian Pension Fund and some other related organisations which are pooled for investment purposes as a treasury cash fund. Management of the cash fund is on a low risk, low return basis, with security of the investments the key consideration while at the same time seeking innovative and secure cash investment opportunities. This arrangement has allowed a better management of the Council's risk in the exceptional financial and market circumstances in recent years.

45.3 Credit Risk - continued

As well as lending monies to other local authorities, the Council purchases UK Government Treasury Bills and has previously purchased Bonds and Floating Rate Notes with an explicit UK Government Guarantee. At 31 March 2016, the Council had £13.0m in short term investments, all of which were loans to other local authorities. Of the net Cash and Cash Equivalents, 41.4% were loans to other local authorities, a further 21.4% were UK Government Treasury Bills, 14.4% was held in two AAA rated Money Market Funds, leaving only 22.8% with banks. All of the monies held on deposit with banks at 31 March 2016 was in call or near call accounts.

The Council's cash holding under its treasury management arrangements at 31 March 2016 was £192.5 million (31 March 2015: £96.4m). This was held with the following institutions:

		<u>192,490</u>	<u>192,688</u>	<u>194,695</u>	<u>96,410</u>

Local Authorities are generally assumed to have a pseudo-sovereign credit rating (which in the UK at 31 March 2016 would have been 'AAA' from S&P) due to their tax raising powers and the perceived government support. Very few have their own credit rating, but of the £87.35m above, £5.93m is with a local authority which had an 'Aa2' credit rating from Moodys.

The Council's maximum exposure to credit risk in relation to its direct investments in banks and building societies of £41.0m cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but the Council takes a low risk approach to investment. Despite continuing concerns over the European Sovereign Debt crisis and the effects that this might have on the banking system, there was no evidence at 31 March 2016 that this risk was likely to crystallise.

NOTES TO THE FINANCIAL STATEMENTS

45. Nature and Extent of Risks Arising from Financial Instruments - continued

45.3 Credit Risk - continued

No breaches of the Council's counterparty criteria occurred during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits. In October 2008 the Icelandic banking sector defaulted on its obligations. The Council has never had any exposure to Icelandic banks and had no investment in the sector at that time.

In line with the Investment Regulations governing local authorities introduced in 2010, the Council approved an annual investment strategy and treasury policy statement for both the Council and the Cash Fund at its March 2016 meeting. The papers are available on the Council's website. A full list of the deposits outstanding at 31 March 2016 is contained in the Treasury Cash Fund Investment Report for Quarter 1 2016. This is available on request from the Council's Treasury Section - Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG.

All Council invoices become due for payment on issue. Excluding pre-payments of £2.769m (2014/15 £1.767m), trade debtors past due date can be analysed by age as follows:

	2015/16	2014/15
	£000	£000
Less than two months	13,163	18,283
Two to four months	1,055	2,008

More than one year	10,886	11,093
Total	<u>29,978</u>	<u>36,299</u>

Collateral – During the reporting period the Council held no collateral as security.

45.4 Liquidity risk

The Council carries out short and medium term cash flow management to ensure that it will have sufficient liquidity to cover all of its payment obligations. This includes monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs. The Council also has ready access to borrowings from the money markets to cover any day to day cash flow needs. It is anticipated that some short to medium term borrowing is likely to be required within the next financial year to meet cashflow and working capital requirements. This will be managed as part of the Council's short- and medium-term cashflow monitoring as required.

Whilst the PWLB provides access to longer term funds, it also acts as a lender of last resort to the Council. The Council is also required by statute to provide a balanced budget, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through cash flow management procedures required by the Code of Practice.

45.5 Re-financing and Maturity Risk

The Council maintains significant debt and investment portfolios. The re-financing risk to the Council relates to managing the exposure to replacing financial instruments as they mature. As shown in the chart in 45.6, the majority of the Council's debt portfolio consists of fixed rate longer term loans, and as such, the Council has a relatively low re-financing risk on its liabilities. However, the Council has market debt which allows the lender the option to ask for a rate increase at set dates and at that point the Council may choose to repay the loan at no additional cost. This gives a potential re-financing risk which the Council monitors and manages.

NOTES TO THE FINANCIAL STATEMENTS

45. Nature and Extent of Risks Arising from Financial Instruments - continued

45.5 Re-financing and Maturity Risk - continued

The Council's approved treasury strategy addresses the main risks and the treasury team address the operational risks within approved parameters. This includes monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt. However, with the increase in borrowing rates announced in the Government's Comprehensive Spending Review in October 2010, it is now unlikely that there will be much scope for any substantial debt rescheduling.

The maturity analysis of the principal outstanding on the Council's financial liabilities is as follows:

	2015/16	2014/15
	£000	£000
Less than one year	(80,656)	(75,077)
Between one and two years	(66,155)	(65,227)
Between two and five years	(188,770)	(188,310)
Between five and ten years	(264,343)	(260,587)
More than ten years	<u>(996,419)</u>	<u>(1,063,998)</u>
Financial Liabilities	<u>(1,596,343)</u>	<u>(1,653,199)</u>

All trade and other payables are due to be paid in less than one year and trade creditors of £15.277m (2014/15 £18.597m) are not shown in the table above. The above figures show the principal outstanding, therefore, neither accrued interest of £17.513m (2014/15 £17.854m) nor net equivalent interest rate (EIR) adjustments of £8.954m (2014/15 £9.041m) to the carrying amounts of market debt shown in the financial liabilities are included.

The only investment which the Council has with a maturity of greater than one year is £4.6m in EDI loan stock.

45.6 Market risk

Interest rate risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- borrowings at fixed rates – the fair value of the borrowing liability will fall;
- investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value on the Balance Sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Comprehensive Income and Expenditure Statement or Movement in Reserves Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Comprehensive Income and Expenditure Statement and affect the General Fund Balance, subject to influences from Government grants. Movements in the fair value of fixed rate investments will be reflected in the Movement in Reserves Statement, unless the investments have been designated as fair value through the Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The annual treasury management strategy includes a forecast for short and longer term interest rates. The treasury team continue to monitor market and forecast interest rates during the year and adjust investment policies accordingly. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns. Any such strategy is run within the short and medium term liquidity requirements of the Council.

NOTES TO THE FINANCIAL STATEMENTS

45. Nature and Extent of Risks Arising from Financial Instruments - continued

45.6 Market risk - continued

The following chart shows the source of the Council's borrowing. Most of the Council's borrowings are from the Government by way of the Public Works Loans Board (PWLB). As interest rates are historically low, none of the PWLB borrowing was variable rate.

Price Risk

The Council does not generally invest in equity shares but does have shareholdings of £23.474m (2014/15 £23.511m) in a number of Council owned Companies and joint ventures. Whilst these holdings are generally illiquid, the Council is exposed to losses arising from movements in the prices of the shares.

As the shareholdings have arisen in the acquisition of specific interests, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio.

Foreign exchange risk

The Council has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to loss arising from movements in exchange rates.

46. Business Improvement District Scheme

The Council acts as the Billing Authority for a number of Business Improvement Districts (BID). The Council collects a levy from the business rate payers on behalf of the BID bodies, Essential Edinburgh, Greater Grassmarket, Queensferry Ambition and Edinburgh's West End.

The monies raised through the BIDs are used to fund activities around similar key themes, including:

- area promotion - advertising, marketing and events
- clean and attractive area - cleaning teams, floral displays, street décor, cleanliness surveys
- safe and secure area - CCTV, improved lighting, transport marshals
- accessibility - pedestrian friendly environment, parking promotions, signage; and
- business initiatives - grants, skills partnerships, start up advice

48. Scottish Cities Alliance

The Scottish Cities Alliance was created in 2012 to promote collaboration between Scotland's cities and the Scottish Government to grow city economies, create jobs and deliver benefits across the country. Total Scottish Government investment funding of £7m has been provided to take forward a range of relevant initiatives. The Council undertakes, on an agency basis, the associated financial administration. During the year, £0.9m was paid out to the respective lead authorities of the projects concerned.

NOTES TO THE FINANCIAL STATEMENTS

49. Prior Period Adjustments

49.1 The following prior period adjustments have been made. The changes are adopted retrospectively for the prior period 2014/15, in accordance with IAS 8: Accounting Policies, Changes in Accounting Estimates and Errors. The 31 March 2014 and 31 March 2015 Balance Sheets and 2014/15 comparative figures have been restated in this statement of accounts to reflect these adjustments.

- **Re-categorisation of long-term debtors**

In 2010/11 the Council approved a shared equity scheme to help buyers purchase homes from PARC, to which the Council provided funding of £0.484m. A prior period adjustment has been made to re-categorise this to long-term debtors from the Capital Adjustment Account.

The Council approved an assisted purchase initiative administered on their behalf to advance monies to home owners to assist with property repairs. Loans were made between 2007 and 2012 and were recorded through the Capital Adjustment Account, with an original loan principal value of £0.762m. A prior period adjustment has been made to re-categorise this to long-term debtors and include estimated valuation increases in proportion to the property values.

- **Re-statement of housing rent**

A prior year adjustment has been made to record an understatement of HRA rental income since 2012, due to a system interface error. The prior year adjustment recognises the income in the long and short-term debtors and the renewal and repairs reserve.

- **Re-classification of creditor**

The Council received monies as a contribution towards the development of the additional function space at EICC. These monies were repayable in the event of a future sale and should therefore have been accounted for on this basis. A prior year adjustment has been made to record this as a creditor.

Group Account Changes

- **Lothian Valuation Joint Board - Re-categorisation of Creditor balance**

The Board previously carried forward unspent requisitions in the form of a creditor balance which was contrary to the Valuation Joint Boards (Scotland) Order 1995. Within the Group accounts these are included in Liabilities in Associates and Joint Ventures.

Unspent requisition balances have now been recorded in the form of a usable reserve.

4 Apartment	22	8,430.00	7	7,924.00
	<u>19,980</u>		<u>20,004</u>	

The stock figure represents all types of residential properties, including furnished tenancies, sheltered housing and homelessness units.

- The amount of rent arrears included as debtors in the Council's Consolidated Balance Sheet was £6.779m (£5.402m 2014/15) against which a provision amounting to £5.399m (£4.326m 2014/15), has been created in respect of non collectable debts. The 14/15 figure has been restated by £1.029m as a result of a prior year adjustment to record an understatement of HRA rental income since 2012, due to a system interface error.
- Significant non-residential income includes ground rent at Broomhouse Drive of £0.160m per annum.
- The total value of uncollectable void rents for main provision properties was £0.464m (2014/15 £0.545m). This has been netted against rental income.

COUNCIL TAX INCOME ACCOUNT

The Council Tax Income Account (Scotland) shows the gross income raised from council taxes levied and deductions made under Statute. The resultant net income is transferred to the Comprehensive Income and Expenditure Statement.

Notes to the Council Tax Income Account

The in-year collection rate for Council Tax was 96.1% (2014/15 95.4%).

Each household or occupied dwelling is allocated to a Council Tax band by the Assessor. The charge per Council Tax band is calculated as a proportion of band D - these proportions are determined by legislation.

A Council Tax bill is reduced by 25% where a dwelling has only one occupant or, with certain exceptions, 10% where the property is a second home. Unoccupied properties are eligible for 10% discount for up to 12 months, from the date the property was last occupied, thereafter 100% additional charge, with certain exceptions. For Council Tax purposes, students and certain other categories of people are not regarded as occupants. Reductions in Council Tax payable are also granted for physically disabled people.

Charges in respect of water and sewerage are the responsibility of Scottish Water. The Council collects both water and sewerage charges and makes payment to the Water Authority.

NON-DOMESTIC RATES INCOME ACCOUNT

The Non-Domestic Rate Account is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Non-Domestic Rate Account. The statement shows the gross income from the rates and deductions made under statute. The net income is paid to the Scottish Government as a contribution to the national Non-Domestic Rate pool.

Contribution to / from National Non-Domestic Rates Pool

The contribution to the National Non-Domestic Rates Pool of £341.540m (2014/15 £344.628m) is the non-domestic rates contributed by the Council through pooling arrangements for government grant purposes. The amount distributed to the Council under these arrangements was £390.862m (2014/15 £364.108m).

With effect from 2011/12, authorities retain in full the income raised locally up to the baseline level assumed in the Local Government Financial Settlement. Any variation from this assumed level is then met by means of a corresponding transfer of funds to or from the Scottish Government.

Poundage

Occupiers of non-domestic property pay rates based on the valuation of the property within the valuation roll for Edinburgh. The non-domestic rate poundage is determined by the Scottish Ministers, and was 48.0p per £ in 2015/16 (2014/15 47.1p per £).

Properties with a rateable value greater than £35,000 (2014/15 £35,000) had their rate charges calculated using the poundage of 49.3p per £ (2014/15 48.2p per £).

From 1 April 2008, the Scottish Government introduced the Small Business Bonus Scheme. Business properties with a rateable value of £18,000 or less may have received relief as set out below:

100% Relief	below	£10,000
50% Relief	£10,001 to	£12,000
25% Relief	£12,001 to	£18,000
Upper limit for combined rateable value		£35,000

COMMON GOOD FUND

The Common Good Fund stands separate from the Council's accounts and has been described as "the ancient patrimony of the community". It was originally derived from the grants by the Sovereigns of Scotland at various times. The present fund is an amalgam of the funds of the City and Royal Burgh of Edinburgh and the Royal Burgh of South Queensferry.

A report on the (Edinburgh) Common Good prepared by the Town Clerk and City Chamberlain in 1905 set out the historical background of the fund and listed its then assets in some detail. The report also stated a "General Principle" that the Fund should be administered "for the purpose of upholding the dignity and suitable hospitality of the City; performing the duties incumbent upon a Royal Burgh maintaining the municipal establishment and managing the municipal affairs; vindicating or extending the corporate rights of the community and defending its interests; acquiring additional land or property for the corporate benefit, or improving existing corporation property, and generally for any purpose which, in the bona fide judgement of the Town Council, is for the good of the community as a whole, or in which the inhabitants at large may share, as distinct from the separate interests or benefit of any particular individual or class, however deserving or needy. The purpose must be limited to those which concern the City and its interests".

The Local Government etc. (Scotland) Act 1994 confirms this interpretation that use of the Fund shall "have regard to the interests of all the inhabitants" of the area.

During 2015/16, the Council acquired Custom House, 69 Commercial Street, Leith for £671,540 to use the building as a museum for the benefit of Leith and the wider city. In addition to the acquisition of Custom House, the Council generated two capital receipts for the Common Good. Cathedral Lane was sold with a receipt of £108,000 and land at Granton Road was sold with a receipt of £51,480, both of which were credited to the Common Good Fund. There has been no reduction in the value of the existing Common Good assets in year.

The sale of East Market Street garage as part of package of properties was completed in 2014/15. The Common Good account was credited with a receipt of £1.182m. The receipt, net of costs associated with the disposal, was transferred to the Common Good fund and will be utilised to fund a planned property maintenance programme on Common Good assets as agreed at the January 2016 Finance and Resources Committee. The resulting balance of the Common Good Fund is £2.297m as at 31 March 2016. (£1.654m 2014/15).

3. Unusable Reserves

3.1 Revaluation Reserve

The revaluation reserve contains the gains made by the Common Good Fund arising from increases in the value of its property, plant and equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The reserve contains unrealised gains accumulated since 1 April 2007, the date the reserve was created. Accumulated gains arising before 1 April 2007 were consolidated into the capital adjustment account.

3.2 Capital Adjustment Account

The capital adjustment account provides a balancing mechanism for timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (CIES) (with reconciling postings from the revaluation reserve to convert fair value figures to a historical cost basis).

The account also holds revaluation gains accumulated on property, plant and equipment prior to 1 April 2007, the date the revaluation reserve was created to hold such gains.

ANNUAL GOVERNANCE STATEMENT

Scope of Responsibility

The City of Edinburgh Council is responsible for ensuring that its business is conducted in accordance with the law and appropriate standards, and that public money is safeguarded, properly accounted for, and used economically, efficiently, effectively and ethically. The Council also has a statutory duty under the Local Government in Scotland Act 2003, to make arrangements to secure best value, which is defined as continuous improvement in the way its functions are carried out.

In discharging these responsibilities, Elected Members and senior officers are responsible for implementing effective arrangements for governing the Council's affairs, and facilitating the effective exercise of its functions, including arrangements for the management of risk.

To this end, the Council has adopted a Local Code of Corporate Governance that is consistent with the principles of the Chartered Institute of Public Finance and Accountancy (CIPFA) and Society of Local Authority Chief Executives (SOLACE) framework 'Delivering Good Governance in Local Government'. This statement outlines how the City of Edinburgh Council delivers good governance and reviews the effectiveness of those arrangements.

This statement explains how the Council has complied with the Local Code of Corporate Governance and how it meets the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom.

This statement also covers the organisations included in the Council's Group Accounts, a list of which is included on page 39 of the Accounts.

The Group's Governance Framework

The governance framework comprises the systems, processes, cultures and values by which the Group is directed and controlled. It also describes the way it engages with, accounts to and leads its communities. It enables the Group to monitor the achievement of its objectives and consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The Council's Local Code of Corporate Governance is supported by evidence of compliance which is regularly reviewed and considered by the Governance, Risk & Best Value Committee. The rest of the Group observes the principles of the code.

The Council has implemented arrangements for monitoring each element of the framework and providing evidence of compliance. The Council's Governance and Democratic Services manager reviewed the arrangements and is satisfied that the Code continues to be adequate and effective. Internal Audit has also reviewed the annual assurance questionnaire process in relation to Arms-Length Companies and has found that this provides the Chief Executive with a level of assurance on the adequacy of the governance arrangements. The Council's Corporate governance framework meets the principles of effective governance.

The key elements of the framework are set out below:

- The Council's key corporate vision and priorities are set out and published in the City of Edinburgh Council Business Plan 2016-2020. The plan forms part of a single planning and performance framework that connects the strategic vision of the Council and its partners to the detailed operational plans which guide the delivery of our frontline services, and the Community Plan for the delivery of services in our communities. Audit Scotland has reported its view that "the Council has a clear strategy for changing the way that it delivers services, reducing its workforce, and achieving substantial financial savings."
- The Edinburgh Partnership Community Plan 2015-2018 sets out the shared objectives of the Council and its community planning partners and details their vision, strategic priorities and intended outcomes for the Edinburgh area, its citizens and service users. The Edinburgh Partnership Community Plan 2015-2018 has been agreed by the Council and community planning partners. There are nine strategic partnerships and twelve Neighbourhood Partnerships, which all form part of the Edinburgh Partnership and help deliver the community plan and neighbourhood plans.
- Governance arrangements for the Edinburgh Partnership Community Plan include the Edinburgh Partnership Board to lead the Partnership and be responsible for its effectiveness; a Partnership Executive to act as a vehicle for wider advice, consultation, involvement and communication; and designated strategic partnerships for delivery of intervention and prevention areas.

ANNUAL GOVERNANCE STATEMENT

The key elements of the framework are set out below - continued

- Empowered communities. The Council has created four localities and is using these to restructure and deliver a range of frontline services. This will ensure integrated local services and improved outcomes for citizens. This locality model operates in co-terminosity with our partners (such as police and fire services) enabling closer working and integration of services around our citizens. This is underpinned by formal local community planning arrangements to support and engage with community planning groups and Community Councils, joint working locality teams and Locality Community Plans.
- The Council's long term financial plan sets out how pressures arising from demographic change, inflation and legislative reform, coupled with reducing real-terms resource levels, will need to be addressed on a sustainable basis whilst still meeting the needs of our customers. This is aligned to a re-design of our service structures to make them more efficient and a transformation of the way that services are provided. Audit Scotland noted in February 2016 that "the Council has made substantial progress in developing its longer-term savings plans" and a four year budget framework and business plan which sets out how it is proposed to deliver a balanced budget until 2018/19 has been agreed by Council. Audit Scotland also confirmed that "there is growing evidence that these savings are being achieved."
- Our programme of transformation focuses efforts on achieving priority outcomes by reducing internal business costs, applying channel shift to reduce the cost of simple transactions and enabling customers and staff to do more through self service.
- A performance management framework, incorporating internal and public performance reporting, which focuses on continuous improvement of our services, applying reliable improvement methods to ensure that services are consistently well designed based on the best evidence and are delivered on a right first time basis. Audit Scotland has specifically complimented progress in stating that "the introduction of regular performance 'dashboard' reports is a step forward in summarising complex issues, such as workforce reductions and savings plans, and highlighting areas of concern." They further noted that "Members are provided with regular progress reports and updates on the various strands of the Council's transformation programme and savings plans."
- The Council is embedding a culture of commercial excellence to ensure that our services always deliver Best Value. Focused work is underway to further improve standards in buying practices and processes across the Council and in mainstreaming a consistent and commercial approach to maximising income from our assets and services.
- The submission of reports, findings and recommendations from Audit Scotland, the external auditor, other inspectorates and internal audit, to the Corporate Leadership Team, Governance, Risk and Best Value Committee and Council, where appropriate, supports effective scrutiny and service improvement activities.
- The roles and responsibilities of Elected Members and Officers are defined in Procedural Standing Orders, Committee Terms of Reference and Delegated Functions, Contract Standing Orders, Scheme of Delegation to Officers, the Member/officer protocol and Financial Regulations. These are subject to annual review.
- The Chief Executive has overall responsibility to Council, as head of paid service, for all aspects of operational management and overall responsibility for ensuring the continued development and improvement of systems and processes concerned with ensuring appropriate direction, accountability and control.
- The Chief Finance Officer has overall responsibility for ensuring appropriate advice is given to the Council and Group on all financial matters, keeping proper financial records of accounts and maintaining an effective system of internal financial control.
- The Chief Internal Auditor has overall responsibility to review, appraise and report to management and the Governance, Risk and Best Value Committee on the adequacy of the Council's internal control and corporate governance arrangements and on risks relating to approved policies, programmes and projects.

ANNUAL GOVERNANCE STATEMENT

The key elements of the framework are set out below - continued

- The Council's Governance and Democratic Services Manager, reporting to the Head of Strategy and Insight, has responsibility for advising the Council on corporate governance arrangements.
- The Governance, Risk and Best Value Committee provides the Council with independent assurance of the adequacy of the governance and risk management frameworks and internal control environment. It also provides independent scrutiny of the Council's financial and non-financial performance, approves and monitors the progress of the Internal Audit risk based plan, and monitors performance of the internal audit service.
- The risk management policy and framework set out the responsibilities of Elected Members, the Governance, Risk and Best Value Committee, management and staff for the identification and management of risks to key corporate priorities.
- The Community Risk Register, Council Risk Register and Service area risk registers identify risks and proposed treatment or actions. These registers are regularly reviewed, updated and reported to the Corporate Leadership Team and Governance, Risk and Best Value Committee for scrutiny and challenge.
- Resilience and business continuity plans are in place for all essential Council services. These set out arrangements for continuing to deliver essential services in the event of an emergency or other disruption.
- Senior management and Heads of Service have formal objectives, with performance reviewed by the appropriate chief officer. Officers have personal work objectives, and receive feedback on their performance through the Council-wide performance review and development process.
- An Elected Members' remuneration and expenses scheme is in place and is consistent with the Scottish Government's 'Councillors' Remuneration: allowances and expenses – Guidance'. Information on the amounts and composition of Elected Members' salaries, allowances and expenses is published on the Council's website.
- The Council's Governance and Democratic Services Manager ensures that induction training on roles and responsibilities, and ongoing development opportunities, are provided for Elected Members.
- Codes of Conduct that set out the standards of behaviour expected from Elected Members and officers are in place.
- The Employee Code of Conduct, Anti Bribery Policy and Policy on Fraud Prevention set out the responsibilities of officers and Elected Members in relation to fraud and corruption, and are reinforced by the Councillors' Code of Conduct, the Code of Ethical Standards and the Financial Regulations. Under the mandatory policy awareness programme it is an annual requirement that officers confirm their awareness and understanding of these key policies.
- The Whistleblowing policy provides a process for disclosure in the public interest about the Council and its activities by officers, Elected Members and others.
- A Register of Members' Interests and Registers of Officers' interests are maintained and available for public inspection.

A significant element of the governance framework is the system of internal controls, which is based on an ongoing process to identify and prioritise risks to the achievement of the Group's objectives. These arrangements were in place throughout the year and up to the signing of the Accounts.

Review of Effectiveness

The Local Code of Governance details the Council's arrangements for monitoring each element of the framework and providing evidence of compliance. The Council's Governance and Democratic Services Manager has reviewed the effectiveness of the Code and the result was reported to the Governance, Risk and Best Value Committee in August 2016.

The Council's Governance and Democratic Services manager reviewed the arrangements and is satisfied that the Code continues to be adequate and effective. Governance arrangements will continue to be monitored and self assessment information provided to the Governance, Risk and Best Value Committee on an annual basis.

ANNUAL GOVERNANCE STATEMENT

The Internal Audit Section operates in accordance with CIPFA's Code of Practice for Internal Audit. The Section undertakes an annual work programme based on agreed audit strategy and formal assessments of risk that are reviewed regularly. During the year, the Chief Internal Auditor reported to the Head of Legal and Risk (Interim) but had free access to the Chief Executive, all Executive Directors and Elected Members along with reporting directly to the Governance, Risk and Best Value Committee.

The Chief Internal Auditor and Council's Head of Strategy and Insight (Interim) have provided an assurance statement on the effectiveness of the system of internal control, which was informed by:

- The work of the Corporate Leadership Team which develops and maintains the governance environment;
- The certified annual assurance statements provided by all Executive Directors;
- The certified assurance statements provided by the Chief Executives and Directors of Finance of the Council's group companies;
- Council officers' management activities;
- The Chief Internal Auditor's annual report and internal audit reports, risk-based, across a range of Council services;
- An annual review by the Council's Governance and Democratic Services Manager of the Council's compliance with the Local Code of Corporate Governance, reported to the Governance, Risk and Best Value Committee;
- Reports from the Council's external auditor; and
- Reports by external, statutory inspection agencies.

In compliance with standard accounting practice, the Chief Finance Officer has provided the Chief Executive with a statement of the effectiveness of the Group's internal financial control system for the year ended 31st March 2016. It is the Chief Finance Officer's opinion that reasonable assurance can be placed upon its effectiveness.

Each Executive Director has reviewed the arrangements in his / her service area and reported on their assessment of the effectiveness of control arrangements, together with any potential areas requiring improvement, to the Chief Executive. Where improvement actions are identified, an action plan will be developed and subject to regular monitoring. In reviewing the overall governance framework, the Council has also considered any relevant third party reviews and recommendations. Reliance has also been placed on each organisation's most recent audited accounts together with the Council's detailed knowledge of these organisations as a consequence of their continued involvement with these organisations. These reviews have not identified any fundamental weaknesses in the framework of governance, risk management and control at the Council. Indeed, Internal Audit have reported that "The Council is on a journey of improvement with regard to the governance, risk management and internal control framework of the Council." Improvements are, however, required to enhance the adequacy and effectiveness of governance, risk management and control. In particular, these reviews have identified the following actions, which have been incorporated with the Council's Business Plan and service plans, to continue to develop in the following activities:-

By the Council:

- To continue to mitigate risks – faced by all councils – regarding uncertainties around future funding and service demands - the Council's expenditure and income assumptions will continue to be reviewed on an at-least quarterly basis, with a particular emphasis on developing transformational and preventative initiatives delivering sustainable savings as part of a longer-term framework;
- To continue to mitigate risks inherent in the Council's major projects portfolio and ensure that the Council retains the necessary skills and management capacity to secure Best Value through successfully implementing the projects; The major projects area is being refreshed and a new model and unit developed that will adopt a best-practice portfolio management approach to the management, delivery and governance of programmes and projects across the Council;

ANNUAL GOVERNANCE STATEMENT

- To continue to mitigate risks inherent in the Council's transformation programme and ensure that the Council retains the necessary skills and management capacity to secure Best Value through successfully implementing the programme. A Programme Management Office (PMO) has been put in place for the Transformation Programme to support delivery and among its functions it will closely monitor and manage risk and escalate wherever risk tolerances are exceeded;
- To deliver savings and improve service delivery through our Asset Management Strategy. Governance and implementation will be delivered by a Project Management Board that reports to the Council Leadership Team every month and the Finance and Resources committee every two cycles;
- To address recommendations within the internal audit reports issued in 2015/16 with a specific focus on addressing unresolved recommendations. All open audit actions will be reported to the Corporate Leadership Team on a monthly basis;
- To implement action plans agreed with external inspection agencies (Service lead - All);
- To continue to mitigate risks surrounding the delivery of the integrated care programme in respect of Adult Social Care; (Service lead - Chief Officer Edinburgh Health and Social Care Partnership/All); and
- To implement all other actions identified by Executive Directors in statements of assurance (Service lead - All).

By the Group:

- long-term financial planning and links to outcomes; and
- embedding and building on recent structural changes and improvements in governance arrangements to take advantage, as appropriate, of improved economic conditions.

The proposed improvements do not indicate any significant gaps or weaknesses in the existing governance framework.

Certification

It is our opinion that in light of the foregoing, reasonable assurance can be placed upon the adequacy and effectiveness of City of Edinburgh Council and its Group's systems of governance. The annual review demonstrates sufficient evidence that the Code is operated effectively and the Council and its Group comply with the Local Code of Corporate Governance in all significant respects.

REMUNERATION REPORT

The Council is required under statute to provide information on the remuneration of each senior officer and each senior elected member, together with any other officer not otherwise included whose remuneration is over £150,000 per annum. In addition, the Council is required to provide information for the most senior employee within each of its subsidiary companies, together with all other employees whose remuneration exceeds £150,000 per annum.

All information disclosed in the tables on pages 142 to 153 in this remuneration report has been audited by Audit Scotland. The other sections of the remuneration report will be reviewed by Audit Scotland to ensure that they are consistent with the Financial Statements.

Remuneration Arrangements

Councillors

The remuneration of Councillors is regulated by the Local Governance (Scotland) Act 2004 (Remuneration) Regulations 2007 (SSI No. 2007/183) as amended by the Local Governance (Scotland) Act 2004 (Remuneration and Severance Payments) Amendment Regulations 2015. The Regulations provide for the grading of councillors for the purposes of remuneration arrangements, as either the Leader of the Council, the Civic Head (the Lord Provost), senior councillors or councillors. The Leader of the Council and the Civic Head cannot be the same person for the purposes of payment of remuneration. A senior councillor is a councillor who holds a significant position of responsibility in the Council's political management structure.

When determining the level of Councillors' remuneration, Scottish Ministers consider the recommendations of the Scottish Local Authority Remuneration Committee (SLARC). SLARC's recommendations were first implemented for councillors elected in the local government elections in May 2007. SLARC was stood down as a committee in February 2013, but the principles of its work continue.

The salary that is to be paid to the Leader of the Council is set out in the Regulations. For 2015/16, the remuneration for the Leader of the City of Edinburgh Council was £50,180. The Regulations permit the Council to remunerate one Civic Head. The Regulations set out the maximum remuneration that may be paid to the Civic Head (the Lord Provost). For 2015/16 this was £37,635. The Council's policy is to pay the Lord Provost at the national maximum.

The Regulations also set out the remuneration that may be paid to Senior Councillors and the total number of Senior Councillors the Council may have (24 for the City of Edinburgh Council). The maximum yearly amount that may be paid to a Senior Councillor is 75% of the total yearly amount payable to the Leader of the Council. The total yearly amount payable by the Council for remuneration of all of Senior Councillors shall not exceed £652,340. The Council is able to exercise local flexibility in the determination of the precise number of Senior Councillors and their remuneration within these maximum limits. The Council's current policy is summarised below. Posts in italics were remunerated until the dates shown.

	No. of Posts	% of amount payable to Leader of the Council
Depute Leader of the Council	1	75%
Depute Convener	1	50%
Conveners of Children and Families, Culture and Sport, Economy, Education, Finance and Resources, Planning, Regulatory, Transport and Environment and Health, Social Care and Housing Committees	8	65%
Convener of Licensing Board	1	60%
Convener of Governance, Risk and Best Value	1	50%
Convener of Communities and Neighbourhoods	1	45%
Convener of Police and Fire Scrutiny	1	40%
Vice-Conveners of Children and Families, Culture and Sport, Economy, Education, Finance and Resources, Planning, Regulatory, Transport and Environment and Health, Social Care and Housing Committees	8	45%
Opposition Group Leaders - Conservative and Green Groups	2	50%

In addition, the Council remunerated the Conveners and Vice Conveners of Joint Boards. The Council has an arrangement with the Joint Boards to reimburse the Council for the additional costs for councillors that arise from their being a Convener or Vice Convener of the Joint Boards.

REMUNERATION REPORT

Senior Employees

The salary of senior employees is set by reference to national arrangements. The Scottish Joint Negotiating Committee (SJNC) for Local Authority Services sets the salaries for Chief Executives of Scottish local authorities. Circular CO/148 set the amount of salary for the Chief Executive of the City of Edinburgh Council for the period April 2015 to March 2017. Circular CO/148 provides a revised Scheme of Salaries and Conditions of Service for Chief Officials.

There is no formal percentage relationship for salaries between the Chief Executive and other chief officers. The national salary points to be applied to Executive Directors and Head of Service posts are determined using the Hay job evaluation method. The decision on whether there is to be an annual pay increase applied to the national salary points, and at what level, for Chief Executive and Chief Officer posts is made by the SJNC for local authority services and thereafter applied locally by the Council.

The Director of Health and Social Care was a joint appointment and the terms and conditions, including pay for the post, are those set by NHS Lothian, who employed the post holder directly. The Integration Joint Board Chief Officer is a joint appointment and the terms and conditions, including pay for the post, are set by the Council, who employ the post holder directly. The appropriate costs are then recharged to NHS Lothian and the Integration Joint Board.

The Council's role in determining the remuneration policies for its companies is currently under review.

Remuneration Paid

The following tables provide details of the remuneration paid to the Council's Senior Councillors, Senior Employees and the remuneration paid to the Chief Executive (or the most senior manager of that body) of each of the Council's subsidiary bodies. Details on roles held by Councillors are set out on pages 143 and 144. Where a Councillor has held more than one post during the year, he/she is only included once within the following table. Salary, fees and allowances represents the total amount received during the year, regardless of whether a senior Councillor role was held for the full year.

REMUNERATION REPORT

Pension Rights

Pension benefits for councillors and local government employees are provided through the Local Government Pension Scheme (LGPS).

Councillors' pension benefits are based on career average pay. The councillor's pay for each year or part year ending 31 March (other than the pay in the final year commencing 1 April) is increased by the increase in the cost of living, as measured by the appropriate index (or indices) between the end of that year and the last day of the month in which their membership of the scheme ends. The total revalued pay is then divided by the period of membership to calculate the career average pay. This is the value used to calculate the pension benefits.

For local government employees the Local Government Pension Scheme (LGPS) became a career average pay scheme on 1 April 2015. Benefits built up to 31 March 2015 are protected and based on final salary. Accrued benefits from 1 April 2015 will be based on career average salary.

The scheme's normal retirement age for both councillors and employees is linked to the state pension age (but with a minimum of age 65).

From 1 April 2009 a five tier contribution system was introduced with contributions from scheme members being based on how much pay falls into each tier. This is designed to give more equality between the cost and benefits of scheme membership. Prior to 2009 contributions rates were set at 6% for all non-manual employees.

The tiers and members' contribution rates for 2015/16 were as follows:

Whole Time Pay	Contribution rate
On earnings up to and including £20,500 (2015 £20,235)	5.50%
On earnings above £20,500 and up to £25,000 (2015 £20,235 to £24,853)	7.25%
On earnings above £25,000 and up to £34,400 (2015 £24,853 to £34,096)	8.50%
On earnings above £34,400 and up to £45,800 (2015 £34,096 to £45,393)	9.50%
On earnings above £45,800 (2015 £45,393)	12.00%

If a person works part-time their contribution rate is worked out on the whole-time pay rate for the job, with actual contributions paid on actual pay earned.

There is no automatic entitlement to a lump sum. Members may opt to give up (commute) pension for lump sum up to the limit set by the Finance Act 2004. The accrual rate guarantees a pension based on 1/60th of final pensionable salary and years of pensionable service. (Prior to 2009 the accrual rate guaranteed a pension based on 1/80th and a lump sum based on 3/80th of final pensionable salary and years of pensionable service).

The value of the accrued benefits has been calculated on the basis of the age at which the person will first become entitled to receive a pension on retirement without reduction on account of its payment at that age; without exercising any option to commute pension entitlement into a lump sum; and without any adjustment for the effects of future inflation.

The pension figures shown relate to the benefits that the person has accrued as consequence of their total local government service, and not just their current appointment.

Notes:

All senior employees shown in the previous table above, with the exception of P. Gabbitas are members of the Local Government Pension Scheme. P. Gabbitas was a member of the National Health Service Superannuation Scheme (Scotland). The pension figures shown relate to the benefits that the person has accrued as consequence of their total local government / public service and not just their current appointment. Accrued pension benefits relate to the position as at 31 March 2016, or the date of leaving, if that is earlier. Employees contribute towards their pensions in accordance with the rates set out on page 149. The contribution rate for P. Gabbitas was 14.7% (2014/15 14.7%).

There are no accrued pension benefits included in the table above if the employee has been a member of the pension scheme for less than 2 years.

The in-year pension contributions include pension strain costs where applicable.

Council's Subsidiary Companies

The pension entitlements of senior employees within the Council's subsidiary bodies for the year to 31 March 2016 are shown below, together with the contribution made to each senior employee's pension during the year.

INDEPENDENT AUDITOR'S REPORT

Independent auditor's report to the members of City of Edinburgh Council and the Accounts Commission for Scotland

I certify that I have audited the financial statements of City of Edinburgh Council and its group for the year ended 31 March 2016 under Part VII of the Local Government (Scotland) Act 1973. The financial statements comprise Movement in Reserves Statement, the group and council-only Comprehensive Income and Expenditure Statements, Balance Sheets, and Cash-Flow Statements, the council-only Housing Revenue Account Income and Expenditure Statement, the Movement on the HRA Statement, the Council Tax Income Account, and the Non-domestic Rates Income Account, The Common Good Fund Movement in Reserves Statement, the Common Good Fund Comprehensive Income and Expenditure Statement, the Common Good Fund Balance Sheet and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union, and as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 (the 2015/16 Code).

This report is made solely to the parties to whom it is addressed in accordance with Part VII of the Local Government (Scotland) Act 1973 and for no other purpose. In accordance with paragraph 125 of the Code of Audit Practice approved by the Accounts Commission for Scotland, I do not undertake to have responsibilities to members or officers, in their individual capacities, or to third parties.

Respective responsibilities of the Acting Executive Director of Resources and auditor

As explained more fully in the Statement of Responsibilities, the Acting Executive Director of Resources is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. My responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) as required by the Code of Audit Practice approved by the Accounts Commission for Scotland. Those standards require me to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the circumstances of the council and its group and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Acting Executive Director of Resources; and the overall presentation of the financial statements. In addition, I read all the financial and non-financial information in the annual accounts to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by me in the course of performing the audit. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

Opinion on financial statements

In my opinion the financial statements:

- give a true and fair view in accordance with applicable law and the 2015/16 Code of the state of the affairs of the council and its group as at 31 March 2016 and of the income and expenditure of the council and its group for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union, as interpreted and adapted by the 2015/16 Code; and
- have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

INDEPENDENT AUDITOR'S REPORT

Opinion on other prescribed matters

In my opinion:

- the part of the Remuneration Report to be audited has been properly prepared in accordance with The Local Authority Accounts (Scotland) Regulations 2014; and
- the information given in the Management Commentary for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which I am required to report by exception

I am required to report to you if, in my opinion:

- adequate accounting records have not been kept; or
- the financial statements and the part of the Remuneration Report to be audited are not in agreement with the accounting records; or
- I have not received all the information and explanations I require for my audit; or
- the Annual Governance Statement has not been prepared in accordance with Delivering Good Governance in Local Government; or
- there has been a failure to achieve a prescribed financial objective.

I have the following to report in respect of these matters.

Local authorities have a duty under section 10 of the Local Government in Scotland Act 2003 to conduct their significant trading operations so that income is not less than expenditure over each three year period. The council failed to comply with this statutory requirement for the three year period ending 31 March 2016 in respect of their significant trading operation, Edinburgh Catering Services - Other Catering.

I have nothing to report in respect of the other matters.
