

Addendum by the Green Group

Finance and Resources Committee

27 September 2018

Item 7.4 – Carbon Reduction Commitment (CRC)

Annual report

Add recommendation 1.1.5

Requests that annual reporting to Committee continues after the final report required under the CRC scheme, in order to continue to inform members about improvements in energy efficiency until any new statutory reporting scheme specifies the Council's reporting duties.

Moved by Councillor Claire Miller

Item 7.5 – Council Change Strategy: Planning for Change and Delivering Services 2019-2023

Add recommendations

- 1.1.4 To note that the themes and ideas set out in the report are simply for consultation and do not reflect the settled views of members of the committee or political groups within it.
- 1.1.5 To agree that, bearing in mind analysis of the public consultation responses and the draft Scottish Government settlement for local authorities, specific proposals for the 2019-20 council budget will be issued for public feedback in a way and in a timescale in which that feedback can influence the final budget decisions.
- 1.1.6 To agree that a draft carbon budget will be provided to a future meeting of Finance and Resources Committee to feed into the final budget meeting of council.

Item 7.6 – Asset Management Strategy

Transformation Programme – Update

Add to recommendation 1.1.5

Recognises that the early implementation of new FM arrangements for primary schools and community centres has raised concerns about access and costs; agrees that school community and wider community use of buildings is a priority; and notes that a three-month review of arrangements was indicated at the City of Edinburgh Council meeting on 20 September, the conclusions and actions from which should be reported to Committee as soon as practicable after the review has been carried out.

And add new:

1.1.9 Notes that disposals and lets at less than market price continue to feature in property management and therefore agrees that there should be further consideration of the need for a checklist of criteria which will be used to determine when a let, re-let or disposal may be at less than market value.
