Corporate Leadership Team Risk Update

Item number 7.3

Report number

Executive/routine

Wards

Executive summary

The risk information attached is the Corporate Leadership Team's (CLT) prioritised risks as at November 2015. It reflects the current highest priority risks of the Council along with the key controls in place to mitigate these risks.

The attached risk summary paper has been challenged and discussed by the CLT and a plan has been developed for further review and scrutiny.

The risk register is a dynamic working document and is updated regularly to reflect the changing risks of the Council.

The Council's Risk Management Policy has recently been reviewed in accordance with the Council's policy framework to ensure that it is current, relevant and fit for purpose.

The work to refresh the risk management process will be continued to further enhance the capture and treatment of risk in the Council through the quarterly CLT and SMT Risk Committees.

Corporate Leadership Team Risk Update

Recommendations

- 1.1 To note the attached prioritised risk information for the CLT and to invite relevant officers to discuss key risks as required.
- 1.2 To note that the Risk Management Policy has been reviewed by the Chief Risk Officer in accordance with the Council's policy framework and other than a few minor changes to update current team names is considered current, relevant and fit for purpose.

Background

- 2.1 The Council's Governance, Risk and Best Value Committee is responsible for monitoring the effectiveness of the Council's risk management arrangements, including monitoring internal financial control, corporate risk management and key corporate governance areas. The purpose of this report is to provide a quarterly update to the Governance, Risk and Best Value Committee on the key corporate level risks facing the Council.
- 2.2 The CLT last presented its Corporate Risk Register to the GRBV in September 2015.

Main report

- 3.1 The CLT risk summary attached in Appendix 1 reflects the current priority inherent risks of the Council and demonstrates the controls to mitigate the risks.
- 3.2 Following a presentation to the Risk Committee by the Council's Chief Information Officer, and as a result of the recent breach in security and likelihood of a greater amount of leavers than normal due to transformation, it was decided to reflect the increased threat around cyber security in the CLT Risk Register. The Council's Chief Information Officer will provide an assessment on the priority and exposure of systems across the whole ICT environment to CLT at its next Risk Committee.
- 3.3 The Risk Committee recommended that the Internal Audit Leavers report from earlier in 2015 be reviewed at CLT together with an update on the actions included in the report. Particular focus will be around the adoption of key control design improvements that would protect council assets.

- 3.4 In response to issues being escalated from Service Areas around completion levels of mandatory training, it was agreed that the appropriate management information would be brought to CLT for review.
- 3.5 The Edinburgh Partnership Board was discussed in relation to multi engagement on key issues. CLT will consider how this engagement could be further improved.
- 3.6 Each CLT risk reported in Appendix 1 has been assigned an indicator to show whether the risk is escalating or decreasing in profile as a result of activity in the quarter.
- 3.7 The risk register is a dynamic working document and is updated regularly to reflect the changing risks of the Council.

Measures of success

- 4.1 Fully embedded risk management practices should ensure that key risks of the Council are prioritised and relevant action plans are put in place to mitigate these risks to tolerable levels.

Financial impact

- 5.1 None.

Risk, policy, compliance and governance impact

- 6.1 Risk registers are a key management tool to help mitigate risks and to implement key strategic projects of the Council.

Equalities impact

- 7.1 None.

Sustainability impact

- 8.1 There is no direct sustainability impact arising from the report's contents

Consultation and engagement

- 9.1 The attached risk summary has been challenged and discussed by the CLT and a plan has been developed for further review and scrutiny.

Appendices	Appendix 1 – CLT Prioritised Inherent risks at November 2015

Appendix 1 CLT Prioritised Inherent Risks Heat Map

1. **Maintenance of Capital Assets**
Risk that the Council does not have sufficient resources to structure and maintain a capital portfolio that is fit for purpose and meets health and safety standards now and in the future.
2. **Cyber Security and Data Privacy**
Risk that the Council's ICT infrastructure is overly exposed to cyber-attacks by external parties or former employees who may still have access to Council systems resulting in loss of data and significant reputational damage.
3. **Integrated Care Programme**
Risk over the affordability and delivery of the Adult Social Care, particularly in light of expected demographic changes, could impact the outcomes and care for the people of Edinburgh.
4. **ICT Infrastructure**
Risk that the ICT infrastructure is not fit for purpose and doesn't meet the present or future needs of the Council through the transition phase to the new ICT provider impacting the Council's ability to deliver services as expected.
5. **Transformational Change Agenda**
Risk that the Council's transformational change agenda is not implemented effectively with support from Elected Members and Trade Unions resulting in the Council failing to meet service delivery outcomes impacting cost reductions and staff morale.
6. **Savings Targets**
Risk that the Council does not generate sufficient savings to meet budgets in the short and longer term resulting in under delivery of key services.
7. **Planning for Increased Demand**
Risk of a lack of strategic planning in relation to increasing demand for critical services, taking into account the growth in the City's population as well as changing demographics, leading to a shortfall in funding and a lower quality of service.
8. **Public Protection**
Risk that the public in general and service users in particular experience harm and/or negative outcomes through either a lack of adequate resource or process failure.
9. **Workforce Planning**
The organisational model to deliver critical services is not optimised to allow the Council to build a flexible, motivated and high performing workforce, resulting in inefficient service delivery and budget overspend.

10. **Service Provider Degradation**
Risk of ICT disruption and outages for the remainder of the existing outsourced provider contract impacts 'business as usual' and the Council's ability to deliver all requirements as expected.
11. **Delivering Council Commitments**
Risk that the Council does not appropriately prioritise resource to meet its statutory, legal and other stated delivery commitments resulting in potential harm to service users and significant reputational damage.
12. **Health and Safety Management**
Risk that Health and Safety policy and culture are not clearly understood and embedded in a consistent manner within the organisation, leading to a lack of accountability and responsibility which could result in avoidable harm.
