Laurence Rockey

Head of Strategy and Insight

Committee Members

Councillors Mowat (Convener), Main (Vice-Convener), Ian Campbell, Jim Campbell, Gordon, Lang, Munro, Rae, Ritchie, Watt and Webber.

Information about the Governance, Risk and Best Value Committee

The Governance, Risk and Best Value Committee consists of 11 Councillors appointed by the City of Edinburgh Council. The Governance, Risk and Best Value Committee usually meet every four weeks in the City Chambers, High Street in Edinburgh. There is a seated public gallery and the meeting is open to all members of the public.

Further information

If you have any questions about the agenda or meeting arrangements, please contact Gavin King, Committee Services, City of Edinburgh Council, Waverley Court, Business Centre 2.1, Edinburgh EH8 8BG, Tel 0131 529 4239, e-mail gavin.king@edinburgh.gov.uk

A copy of the agenda and papers for this meeting will be available for inspection prior to the meeting at the main reception office, City Chambers, High Street, Edinburgh.

The agenda, minutes and public reports for this meeting and all the main Council committees can be viewed online by going to <u>www.edinburgh.gov.uk/cpol</u>.

For remaining items of business likely to be considered in private, see separate agenda.

Webcasting of Council meetings

Please note: this meeting may be filmed for live or subsequent broadcast via the Council's internet site – at the start of the meeting the clerk will confirm if all or part of the meeting is being filmed.

You should be aware that the Council is a Data Controller under the Data Protection Act. Data collected during this webcast will be retained in accordance with the Council's published policy.

Generally the public seating areas will not be filmed. However, by entering the Dean of Guild Court Room and using the public seating area, you are consenting to being

filmed and to the possible use of those images and sound recordings for webcasting or training purposes.

If you have any queries regarding this, please contact Committee Services on 0131 529 4319 or <u>committee.services@edinburgh.gov.uk</u>

Governance, Risk and Best Value Committee

10.00am, Tuesday, 28 November 2017

Present

Councillors Mowat (Convener), Main (Vice-Convener), Bird (substitute for Councillor Ritchie), Jim Campbell, Doggart (substitute for Councillor Webber), Gordon, Lang, Munro, Rae and Watt.

1. Minute

Decision

To approve the minute of the Governance, Risk and Best Value Committee of 31 October 2017 as a correct record.

2. Outstanding Actions

Details were provided of the outstanding actions arising from decisions taken by the Committee.

Decision

- 1) To agree to close Action 20 Welfare Reform Update.
- 2) To note the remaining outstanding actions.

(Reference – Outstanding Actions – 28 November 2017, submitted.)

3. Work Programme

Decision

- 1) To request a further report by the Executive Director of Place, reviewing the process for the appointments of the Licensing Forum members.
- 2) To otherwise note the work programme.

(Reference – Governance, Risk and Best Value Committee Work Programme – 28 November 2017, submitted.)

4. Festival City Theatres Trust Company Performance Report 2016-17 – referral from the Culture and Communities Committee

The Culture and Communities Committee had referred a report on the annual performance report for the Festival City Theatres Trust covering the period 2016/17, to the Governance, Risk and Best Value Committee for scrutiny.

Duncan Hendry and Iain Ross from Festival City Theatres' Trust attended the meeting for this item.

Decision

To note the report by the Culture and Communities Committee.

(References – Culture and Communities Committee, 14 November 2017 (item 8); referral report from the Culture and Communities Committee, submitted.)

Declaration of Interest

Councillor Main declared a non-financial interest as a non-executive director of the Festival City Theatres' Trust and took no part in the Committee's consideration of tis item.

5. Council Companies – Edinburgh Leisure Annual Report 2016/17 – referral from the Culture and Communities Committee

The Culture and Communities Committee had referred a report on the annual performance of Edinburgh Leisure covering the period 2016/17, to the Governance, Risk and Best Value Committee for scrutiny.

June Peebles and Kevin Johnston from Edinburgh Leisure attended the meeting for this item.

Decision

- 1) To note the report by the Culture and Communities Committee.
- 2) To ask that information be provided on consultation and engagement which had taken place with the Access Panel on independent access to venues.
- 3) To ask that information be provided on follow-up practices for programmes and their outcomes.

(References – Culture and Communities Committee 14 November 2017 (item 16); referral report from the Culture and Communities Committee, submitted.)

6. Re-basing the 2017/18 Internal Audit Plan

The Committee had approved its Internal Audit plan for 2017/18. Details were provided on proposed changes to the current year's risk based Internal Audit plan which reflected the addition and removal of audits to ensure ongoing alignment with the changing risk profile of the Council and the need to increase audit validation work.

Decision

- 1) To approve the Internal Audit (IA) proposals for a net decrease of 77 days of the planned audit time detailed in the current 2017/18 Internal Audit Plan.
- 2) To ask the Chief Internal Auditor to provide an update to the next meeting on the expected resource challenges for future audits.

(References – Governance, Risk and Best value Committee, 9 March 2017 (item 4); report by the Chief Internal Auditor, submitted.)

7. Revenue Monitoring 2017-18 – Month Five Position – referral from the Finance and Resources Committee

The Finance and Resources Committee had referred a report on the projected overall position for the Council's revenue expenditure budget for 2017/18 based on analysis of period five data, to the Governance, Risk and Best Value Committee for consideration as part of the Committee's work programme.

Decision

- 1) To note the report.
- 2) To note that the Executive Director of Resources would discuss with the Chief Executive and Interim Chief Officer, Edinburgh Health and Social Care Partnership, the possibility of a review of how the Council/NHS Lothian and the Edinburgh Integration Joint Board scrutinised and monitored services and the general governance arrangements.

(References – Finance and Resources Committee, 7 November 2017 (item 6), referral report by the Finance and Resources Committee, submitted.)

8. Capital Monitoring 2017-18 Half Year Position – referral from the Finance and Resources Committee

The Finance and Resources Committee had referred a report on the overall position of the Council's Capital budget at the half year position (based on month five data) and the projected outturn for the year, to the Governance, Risk and Best Value Committee for consideration as part of its work-plan.

Decision

To note the report.

(References – Finance and Resources Committee, 7 November 2017 (item 9); referral report by the Finance and Resources Committee, submitted.)

9. Treasury Management – Mid-term Report 2017-18 – referral from The City of Edinburgh Council

The City of Edinburgh Council had referred a report on Treasury Management Activity in 2017/18, to the Governance, Risk and Best Value Committee for scrutiny.

Decision

To note the report.

(References – Act of Council No 11 of 23 November 2-17; referral report by the City of Edinburgh Council, submitted.)

10. ICT in Schools - Update

The Committee had requested further information on ICT in schools and in particular the current situation at James Gillespie's High School.

Details were provided on the devices used at James Gillespie's High School, the implications of pupils using their own IT devices, other schools within the City who were in the same situation and possible solutions to the lack of wi-fi at the High School.

Decision

- 1) To note the report by the Executive Director for Communities and Families.
- 2) To note that a further report on ICT in schools would be brought to Committee in January 2018.
- 3) To request that the report to the Education, Children and Families Committee include information on the type and ownership of mobile devices being used by school pupils.

(References – Governance, Risk and Best Value Committee, 29 August 2017 (item 1); report by the Executive Director for Communities and Families, submitted.)

Declaration of Interest

Councillor Main declared a non-financial interest in the above item as the parent of a young person attending James Gillespie's High School.

11. Corporate Governance Framework 2016-2017

Details were provided on the Council's governance framework which brought together an underlying set of legislative requirements, governance principles and management processes. The Council's self-assessment for the period 1 April 2016 to 31 March 2017 was provided.

Decision

- 1) To note the corporate governance framework self-assessment which was outlined in Appendix 1 to the report by the Chief Executive.
- 2) To note the improvement actions meantime and that they be reconsidered following the planned workshop on this matter.
- 3) To note that a workshop was being organised for the new year to review the process.
- 4) To delegate authority to the Corporate Governance Manager, in consultation with the Convener, to establish a Member/Officer Working Group to look at how to improve the co-ordination, reporting and use of the strategic management information.

(Reference – report by the Chief Executive, submitted.)

Declaration of Interest

Councillor Main declared a non-financial interest in the above item as a member of the Edinburgh Integration Joint Board.

12. Whistleblowing Update

A high level overview of the operation of the Council's whistleblowing hotline for the period 1 July to 30 September 2017 was provided.

Decision

To note the report by the Chief Executive.

(References - report by the Chief Executive, submitted)

13. Whistleblowing Monitoring Report

The Council, in terms of Section 50(A)(4) of the Local Government (Scotland) Act 1973, excluded the public from the meeting during consideration of the following item of business for the reason that it involved the likely disclosure of exempt information as defined in Paragraphs 1, 12 and 15 of Part 1 of Schedule 7(A) of the Act.

An overview of the disclosures received and investigation outcome reports completed during the period 1 July to 30 September 2017 was provided.

Decision

To continue consideration of the report to the next meeting for clarification on a case.

(Reference – report by the Chief Executive, submitted)

Item No 5.1

Governance, Risk and Best Value Committee

January 2018

No	Date	Report Title	Action	Action Owner	Expected completion date	Actual completion date	Comments
1	19/10/2015	<u>Committee Report</u> <u>Process</u>	To investigate technology offered by the new IT provider with a view to improving report format and reducing officer workload. To request a progress report back to Committee in one year.	Chief Executive	March 2018		Work has been undertaken looking at different options. An option has been identified and funding options are being explored.
2	21/04/2016	Internal Audit – Audit and Risk Service: Delivery Model Update	To ask that an update report on the internal audit function be provided to the Governance, Risk and Best Value Committee a year after implementation.	Executive Director of Resources	April 2018		A verbal update on appointments was provided in February 2017. An update on new service model will be provided after one year.

No	Date	Report Title	Action	Action Owner	Expected completion date	Actual completion date	Comments
							Assurance of progress was provided within the Internal Audit Opinion Report considered on 1 August 2017.
3	26/09/16	<u>Corporate</u> <u>Leadership Team</u> <u>Risk Update</u>	To request that progress reports on the additional precautionary surveys currently being undertaken in buildings sharing similar design features to those of the PPP1 schools, would be referred to the Governance, Risk and Best Value Committee for scrutiny.	Executive Director of Resources	May 2018	5 December 2017	Recommended for Closure A report was submitted to the Corporate Policy and Strategy Committee in December 2017 who have called for a further update in 12 months.

No Da	ate	Report Title	Action	Action Owner	Expected completion date	Actual completion date	Comments
	4/10/16 9/09/17	Home Care and Re-ablement Service Contact Time	To request an update report 6 months after the implementation of the new ICT system for shift allocation. To ask the Chief Officer, Edinburgh Health and Social Care Partnership to provide an update on why the new ICT system for shift allocation was not implemented earlier in the year	Chief Officer, Edinburgh Health and Social Care Partnership	Date TBC		The Interim Chief Officer provided an update to Committee in Sept 2017. The Shift Allocation System was included in a wider review, the results of which would be reported as soon as possible. The Edinburgh Health and Social Care Partnership developed a high- level plan to address the challenges faced by the Partnership in the short- and medium-term. Objectives and detailed action plans for the

2016/17 Annual Audit Report and Review of Internal Controls: progress update

Item number7.1Report numberExecutive/routineWardsCouncil Commitments

Executive summary

In considering the Council's 2016/17 Annual Audit Report and the External Auditor's annual review of the Council's internal control framework on 26 September 2017, members of the Governance, Risk and Best Value Committee asked that a progress update be brought back to the Committee's January meeting, setting out progress against the agreed improvement actions. This report outlines those actions taken to date, with a further progress update on longer-term actions to be reported to the Committee's meeting on 8 May 2018.

Report

2016/17 Annual Audit Report and Review of Internal Controls: progress update

1. Recommendations

- 1.1 Members of the Governance, Risk and Best Value Committee are asked to:
 - 1.1.1 note the progress made to date in addressing the actions contained within the Annual Audit Report and review of the Council's internal control framework; and
 - 1.1.2 note that a further update on longer-term actions will be provided to the Committee's meeting in May.

2. Background

- 2.1 At its meeting on 26 September 2017, the Governance, Risk and Best Value Committee considered the external auditor's Annual Audit Report for 2016/17. In issuing an unqualified opinion on the financial statements, the Council's financial management arrangements were assessed to be effective, with the Council also open and transparent in the conduct of its business and demonstrating strong self-awareness of areas where improvement was required.
- 2.2 As part of its annual cycle of review, the external auditor furthermore requires to assess the effectiveness of the Council's internal control framework. The key findings of this assessment were reported to the Committee's meeting on 26 September 2017, with the existing controls considered to be well-designed and effective.
- 2.3 While, in each case above, the key conclusions were positive, a number of opportunities for further improvement were identified and these formed the basis of the respective action plans. These action plans incorporated management responses in respect of each recommendation made, along with a named responsible officer and associated planned timescale for implementation.
- 2.4 In considering both the Annual Audit and Internal Control review reports, members asked that a progress update be brought to the Committee's January meeting. While a number of the actions are not due for completion until later in the year, this report provides an update on those for which an earlier implementation date had been agreed. A further update, incorporating the actions with longer associated timescales for implementation, will be brought to the Committee's meeting on 8 May.

3. Main report

Annual Audit Report

- 3.1 The agreed action plan for the Council's Annual Audit Report includes eight individual recommendations, with seven assigned medium-priority, and one high-priority, status. Of these, three have planned implementation dates later in the year, with the corresponding preparatory work underway.
- 3.2 For those actions with due dates of December 2017 or earlier, the position in respect of implementation is as follows:

(i) maintenance of councillors' register of interests (medium-priority) – the Council continues to remind, and support, councillors in meeting their responsibilities under The Elected Members' Code of Conduct. Detailed guidance was provided as part of the initial member induction programme in May 2017, with periodic targeted reminders issued since that time following Committee and external body appointments approved by Council. The Council also hosted a regional roadshow for elected members on the Councillors' Code of Conduct, delivered by the Standards Commission, on 20 November 2017, with all elected members invited to attend;

(ii) **finalisation and issuing of "People Plans" (medium-priority)** – action completed. The People Plans chart a twelve-month outlook for each service area, detailing planned HR delivery and service initiatives which have a 'people' impact. The plans are living documents and are now being used by Senior HR Business Partners to discuss with service area senior management teams the timescales for delivery and any gaps which may exist;

(iii) publication of Edinburgh Integration Joint Board Annual

Performance Report for 2016/17 (medium-priority) – action completed. <u>The</u> <u>report</u> was considered by the Corporate Policy and Strategy Committee on 3 October 2017;

(iv) **publication of the Council's Corporate Governance framework selfassessment (medium-priority)** – action completed. <u>The self-assessment</u> was considered by the Governance, Risk and Best Value Committee on 28 November 2017, with a number of recommendations agreed by the Committee to establish a member-officer working group to review and, where practicable, streamline the process for future years; and

(v) continuing prioritisation of actions to improve performance in respect of delayed discharge (high-priority) – on-going. Weekly Star Chamber meetings continue to allow focused discussion on individuals experiencing delay. Further actions undertaken include:

- Implementation of locality teams from beginning of October to allow more integrated community responses;
- Continuation of work to address capacity issues with care at home providers;
- Seeking of additional care home places from independent sector;

- Review of the care at home contract; and
- Presentation of outline commissioning plan for older people to the EIJB in January 2018.
- 3.3 As noted above, progress updates in respect of addressing delayed dischargerelated issues and other actions with planned implementation dates later in 2018 will be provided to the Committee's meeting on 8 May 2018.

Review of internal controls

- 3.4 The external auditor's review of the Council's internal control framework, while attesting to the general effectiveness of current arrangements, included seven recommendations, six of which were assigned medium-priority and the remaining one low-priority.
- 3.5 For those actions with planned implementation dates by December 2017, the position is as follows:

(i) **payroll systems access (medium-priority)** – action completed. Access rights for all payroll employees have been updated to be fully aligned to current responsibilities and a process put in place going forward to undertake reviews on a quarterly basis;

 (ii) documentation and review of all key procedures for the CFATS Telford, Tranman and SWIFT systems (medium-priority) – action completed.
 Procedures for all key systems have now been developed or updated as appropriate, with an annual cycle of review also put in place;

(iii) CFATS Telford system access rights (medium-priority) – action completed. A full review of current rights has been undertaken and a programme of regular review introduced going forward to ensure that access appropriate to an individual's role is maintained;

 (iv) CFATS – documentation of procedures to ensure full reconciliation of work performed and requested prior to payment approval (mediumpriority) – action completed. These notes are included in the suite of procedural documentation noted above;

(v) **updating of published guidance on members' remuneration** (mediumpriority) – action in progress. Updated guidance, incorporating input from Insurance, Payroll, Democratic Services is being finalised and will be published on the Orb by the end of January 2018. This guidance will be subject to formal and documented annual review going forward as part of the Customer Division's wider policy assurance review; and

(vi) **Non-Domestic Rates reliefs/exemptions spot checks (low-priority)** – action completed. Annual spot checks were concluded by the end of November 2017. Activities are being scheduled within "business as usual" plans for future years.

4. Measures of success

4.1 Agreed measures are implemented to address any actions identified within external and internal audit reviews in accordance with the timescales indicated.

5. Financial impact

5.1 There is no direct additional impact arising from the report's contents, although the on-going effectiveness of the Council's current financial management and planning arrangements was noted in the Annual Audit Report.

6. Risk, policy, compliance and governance impact

- 6.1 The Committee's remit includes the review of all matters relating to external audit, including reports and action plans to monitor implementation of external audit recommendations.
- 6.2 The Council's arrangements for risk management, fraud prevention and internal control, as well as its wider governance framework, have been assessed to operate effectively. Prompt actioning of recommendations for improvement serves to strengthen the effectiveness of this overall framework.

7. Equalities impact

7.1 There is no direct relevance of equalities and rights issues to the report's contents.

8. Sustainability impact

8.1 There are no impacts on carbon, adaptation to climate change and sustainable development arising directly from this report.

9. Consultation and engagement

9.1 There is no direct relevance to the report's contents.

Internal Audit Quarterly Update Report: Quarter 2 – (1 July – 30 September 2017)

Item number 7.2 Report number Executive/routine Wards Council Commitments

Executive summary

This report provides details of the Internal Audit reviews completed in Quarter 2 and an update on progress with the overall delivery of the 2017/18 Internal Audit plan.

As at 30 September, Internal Audit had issued a total of 6 reports (4 were issued in quarter 2) and 14 audits were in progress. The 4 reports issued in quarter 2 incorporated 8 Findings (2 High; 4 Medium; 1 Low and 1 Advisory).

The Starters audit report is recommended for referral to the Edinburgh Integration Joint Board (EIJB) Audit and Risk Committee. No reports were referred by the EIJB Audit and Risk Committee to GRBV at their meeting in September 2017.

Delivery progress as at 30 September left a balance of 37 audits to be completed in the second half of the year, with 15 audits to be delivered in Quarter 4 (for comparison purposes, 13 audits were completed in Quarter 4 2016).

Internal Audit plan delivery has also been significantly impacted by resourcing challenges within the team during this period. A capacity analysis has been undertaken to assess the ability of the team to deliver the balance of the plan, as at 8 January 2018, which is appended to this report.

Report

Internal Audit Quarterly Update Report: Quarter 2 – (1 July – 30 September 2017)

1. Recommendations

- 1.1 Committee is requested to:
 - 1.1.1 Note that Internal Audit issued a total of 6 Internal Audit reports in the 2017/18 plan year with 4 reports being issued in Quarter 2 (1 July to 30 September 2017).
 - 1.1.2 Note the risks associated with the 2 High rated findings raised and consider if further clarification or immediate follow-up is required with responsible officers for specific items.
 - 1.1.3 Refer the Starters and Local Development Plan and Action Programme audit reports to the appropriate Council executive committees for information and further scrutiny where appropriate.
 - 1.1.4 Approve the recommendation to refer the Starters audit report to the EIJB Audit and Risk Committee as this could have a direct impact on the services delivered by the Health and Social Care Partnership.
 - 1.1.5 Note that no reports were referred by the EIJB Audit and Risk Committee to GRBV at their meeting in September 2017.
 - 1.1.6 Note the volume of Internal Audit work in progress as at the end of Quarter 2 (30 September 2017) and the status of progress with the annual audit plan as at 30 November 2017 (refer section 3.2 and Appendix 1, Tables 2 and 3).
 - 1.1.7 Following a request for an update at Committee in November 2017, note the resourcing challenges currently affecting upon Internal Audit capacity and recognise their potential impact on delivery of the 2017/18 Internal Audit plan as detailed at 3.5 and Appendix 2.
 - 1.1.18 Approve option 2 as the best approach to deliver the 2017/18 annual Internal Audit plan based on the options outlined at 3.5 below. This will involve purchasing additional days from PwC under the current co-source agreement to support delivery of the plan and an Internal Audit annual assurance opinion for 2017/18 based on an appropriate level of coverage of the Council's key risks. In doing to, note that this approach will incur additional, unplanned costs and the Executive Director, Resources has endorsed an additional spend of up to £100k to support this critical work.

2. Background

- 2.1 Internal Audit is required to deliver an annual plan of work, which is scoped using a risk-based assessment of Council activities. Additional reviews are added to the plan where considered necessary to address any emerging risks and issues identified during the year, subject to approval from the relevant Committees.
- 2.2 The status of progress against the plan and a summary of findings are presented to the Governance, Risk, and Best Value (GRBV) Committee for consideration on a quarterly basis.

3. Main report

3.1 Internal Audit 2017/18 Plan Progress

As at 30 September 2017 Internal Audit had issued a total of 6 final reports in the 2017/18 plan year, with 4 reports issued in quarter 2. These reports included 2 High; 4 Medium; 1 Low; and 1 Advisory rated recommendations. Further analysis is included at Appendix 1 (Table 1), with details of the High rated findings included at Appendix 2.

The main reason for the low volume of reports issued in the first half of the year reflects the time required to complete the thematic review performed across the Council's 10 care homes in quarters 1 and 2. This involved three team members and required circa 120 audit days.

Detailed outcome reports and management action plans have been issued to individual care homes and the overarching report that outlines the consolidated outcomes and findings was issued to Health and Social Care on 12 October with a request for management responses by 17 November.

Management responses have not yet been received from Health and Social Care. However, the Interim Chief Officer is progressing this with the management team.

3.2 Referrals to and from the Edinburgh Integration Joint Board

The review of Starters completed in quarter 2 could have a direct impact on the services delivered by the Health and Social Care Partnership. This report is therefore being recommended for referral by the Committee to the next meeting of the EIJB Audit and Risk Committee.

No reports were referred by the EIJB Audit and Risk Committee to GRBV at their meeting in September 2017.

3.3 **2017/18 Annual Plan Completion**

The position at 30 September 2017 left a balance of 37 audits (based on the rebased plan approved by GRBV at their meeting on 28 November) to be completed in the second half of the plan year. Progress with these audits as at 30 November is detailed below:

• 3 draft reports have been issued;

- 7 draft reports are currently being prepared for issue by Internal Audit;
- 6 audits are in progress;
- 21 audits have not yet started. 4 of these 21 audits are planned to be delivered by specialist PwC resources under the terms of the co-source agreement;
- A further 30 days of PwC generalist support is available in Quarter 4 as per the co-source agreement, which should support delivery of circa 2 audits; and
- This leaves a balance of circa 15 audits to be delivered by the Internal Audit team in comparison to 13 audits in Quarter 4 of the 2015/16 plan year. Further analysis on whether this is achievable is presented to the Committee in addition to this paper.

Appendix 1 provides a summary of the audits completed and Findings raised (Table 1); a summary of work in progress at the end of the quarter (Table 2); and the status of progress with the Internal Audit 2017/18 annual plan as at 30th November (Table 3).

3.4 Internal Audit capacity

One of the two Internal Audit Principal Audit Manager roles has been vacant since August 2017. A second recruitment campaign later in the year was successful at filling the role. The successful candidate is expected to join the team in April 2018, subject to the successful completion of pre-employment checks to a standard deemed satisfactory to the Council.

Whilst skilled temporary backfill resource was sourced from mid-August, this contractor left on 15 December to take up a permanent role outside the Council.

The importance of ensuring compliance with HM Revenue and Customs Intermediary Regulations (IR) 35 regulations for off-payroll workers has prevented allocation of ongoing management responsibilities to the temporary contractor (for example, review and oversight of audit work performed by the team and people management responsibilities). This has also impacted delivery of the Internal Audit plan.

No suitable backfill resource has yet been identified from the labour market to cover the ongoing Principal Audit Manager vacancy for the period January to March 2018, therefore there will be a gap.

Additionally, absence due to ill-health within the team since the end of November has further impacted delivery of the plan. This has been exacerbated by some audits taking longer than planned due to the amount of engagement required with service areas, and the time required to support implementation of the new monthly Internal Audit validation process.

Given these challenges and the need to ensure robust assurance for the Council's operations, the Executive Director of Resources has approved an increase in the Internal Audit team's establishment. The addition of 2.0 full-time equivalent Senior Auditor roles, which are being recruited at present, will enable the internal delivery of general audits on a more cost-effective basis by reducing the generalist

resource provided by PwC under the existing co-source arrangements. It is expected that successful candidates will be in place for the start of the new financial year.

Given the resourcing issued detailed, further detail on the options to achieve full delivery of the internal audit plan for 2017/18 are detailed in the following section of the report.

3.5 **2017/18 Internal Audit Plan Delivery**

The resourcing challenges noted at 3.4 above have had a significant adverse impact on delivery of the rebased Internal Audit plan that was presented to and approved by the Committee in November 2017.

Shortfall based on completion of the rebased IA plan approved in November 2017

A further 611 days of Internal Audit activity is required to deliver and complete the plan by 31 March 2018 in comparison to 278 available days (from the Internal Audit team and PwC co-source contract), this leaves a shortfall of 333 days (or 8.5 FTE) to deliver the current plan (refer Appendix 2, Table 1).

Proposals for removal of audits and audit activity

9 audits / Internal Audit activities comprising 185 days have been identified that could be removed from the 2017/18 plan for early inclusion in the 2018/19 plan, if still considered high or medium risk. These include:

- Resources Finance and Treasury Travel (20 days)
- Communities and Families Self Assurance Framework (20 days)
- Place Waste Services (25 days)
- Place Fleet Project (20 days)
- Resources Enterprise Resource Planning (ERP) / Business World Project review (30 days)
- Cycling / Walking Safer Streets Grant (10 days) there is no longer a requirement for Internal Audit to confirm appropriate disbursement of grant funds.
- Continuous Testing fraud and key financial controls (20 days)
- Fraud Support ongoing review of internal fraud cases that can be transferred to the corporate fraud team (10 days)
- Internal Audit Quality Assurance review (30 days)

Further detail and supporting rationale supporting removal of these audits and activities from the plan is included at Appendix 2, Table 2.

Revised shortfall position and available options

Removal of these audits / activities reduces the shortfall position to 148 days or 3.8 FTE.

Options to address this shortfall include:

- Approve removal of the audit activities outlined above to support delivery of the 2017/18 plan and remove a further 148 days of audit activity from the remainder of the plan to be delivered in quarter 4. This would enable delivery of the plan to be delivered by the Council's Internal Audit team without additional cost, but would adversely impact provision of the annual Internal Audit assurance opinion over both the Council's and IJB's key risks, and audit services provided to third party arms-length organisations.
- 2. Approve removal of the audit activities outlined above to support delivery of the 2017/18 plan and draw down additional support from PwC to deliver the remainder of the plan. This additional spend is unplanned and not reflected in the 2017/18 Internal Audit budget. The Executive Director of Resources has committed to fund up to £100k from the Directorate budget to enable this option to be viable.

The option of approving removal of the audit activities outlined above and recruiting external contract resource from the market to support plan delivery has been carefully considered and is not recommended as it is highly unlikely that this can be achieved in sufficient time to support effective plan delivery.

Option 2 is therefore recommended for the Committee's approval.

3.6 **Overdue Internal Audit Recommendations**

The current status of all overdue recommendations from reports issued prior to this period is discussed in the report 'Internal Audit follow-up arrangements: status report' presented separately to the Committee.

4. Measures of success

4.1 Once implemented, the recommendations contained within these reports will strengthen the Council's control framework.

5. Financial impact

5.1 If option 2 (as detailed at 3.5) is approved, this will incur an additional unplanned costs of up to £100K that are not reflected in the current Internal Audit budget. Given the critical nature of this work and potential impact on the audit opinion, this additional spend has been approved by the Executive Director of Resources.

6. Risk, policy, compliance and governance impact

6.1 If the rebased Internal Audit plan is not fully delivered, there will be insufficient coverage of the Council's High and Medium rated risks, which could impact upon the 2017/18 Internal Audit opinion.

7. Equalities impact

7.1 No full ERIA is required.

8. Sustainability impact

8.1 None.

9. Consultation and engagement

9.1 None.

10. Background reading/external references

10.1 None.

Background

Statistics provided showed that between April 2016 and January 2017 there were 1596 new employees joining the Council. This included employees beginning casual, fixed term, permanent, supply and temporary contracts. Communities and Families employed the largest number at 900, with Place and Health and Social Care employing 219 and 215 respectively.

The Council aims to give all these new employees an understanding of how their work fits into the Council's work in the city, and the information and support they need to start in their new role. The Council also has a responsibility to ensure that new employees are familiar with core policies and procedures and have the tools and training they need to carry out their work successfully and safely.

This induction is expected to be concluded within 7 weeks of the employee starting in their post.

This review was included in the 2017/18 internal audit plan as a result the weaknesses identified from our review of the leaver's process in 2016/17. Fieldwork for this review highlighted areas of concern in the starter's process, specifically with regards to inventory control over the issue of ICT equipment to employees.

Scope

The scope of this review was to assess the design and operating effectiveness of the Council's controls relating to 'on boarding' and induction processes for new employees.

Summary of High Risk Findings

1. Record Management – On Boarding Files and Employment Contracts

Finding

Manual 'on boarding' files are maintained in Waverley Court for all new starts until, a new employee account is created on the iTrent system; two payroll periods have passed; and an employment contract is generated. These manual on boarding files include sensitive personal data about prospective employees.

The current contract preparation process involves automated creation of contracts via a 'mail merge' process. Source data for the mail merge is a spreadsheet that is extracted from the iTrent system in Excel format and used as the basis of the mail merge

Review of the record management processes supporting on boarding and contract generation established that:

- 1. Nine of our requested sample of 46 manual 'on boarding' files could not be immediately located. It was noted that a further 3 files were located between completion of our testing and the time of writing this report. The missing 6 files is attributable to the fact that the record management and retention process for manual on boarding files is dated, incomplete and not consistently applied.
- 2. Review of a sample of 25 on boarding files identified 16 archived files that had been sent to Iron Mountain containing sensitive personal data such as bank details; PVG applications; criminal conviction questionnaires; and equal opportunities questionnaires. These documents should have been removed and destroyed prior to archiving, in line with the agreed process within the team and standard best practice.
- 3. There are no reconciliation controls in place between manual on boarding files and data recorded on the spreadsheet used as the basis for the 'mail merge' to ensure that the full population of contracts is produced; and
- 4. The newly introduced 'mail merge' process results in an inability to automatically upload employment contracts on employee iTrent accounts, or to generate manual / electronic copies of the contracts for retention. Evidence is not retained to confirm that all new starts have received their employment contract within 8 weeks of their start date.

Business Implication

- Breach of Data Protection legislative requirements and non compliance with the Council's Records Management Policy
- Breach of employment law requirement to issue full terms and conditions within 8 weeks of employee starting.
- Regulatory fines and penalties for breach of legislation.

Recommendations

- 1. Record management processes should be defined and implemented to ensure that manual files are managed, retained and archived in line with Data Protection legislation and the Council's Records Management Policy. This should include requirements for secure storage; recording of the location and transfer of all manual files and a process supporting either electronic or manual retention of employment contracts.
- 2. There is no mandatory requirement to destroy sensitive personal information prior to archiving however this approach, supported by retention of a completed checklist was confirmed as good practice by the Information Governance team. An investigation should be performed to establish the full population of missing files and ensure that they are located and either securely stored or archived.
- 3. A reconciliation should be performed to confirm that the 'mail merge' spreadsheet includes data from the full population of on boarding files to ensure that no contracts are missed.

 <u>Agreed Management Actions</u> 1. Change in the storage procedure initiated with secure, central storage and indexed records, detailing location and where appropriate details of transfer of manual files to other 3rd parties (internally and Iron Mountain). 	<u>Target Date</u> 31/07/17	<u>Status</u> Closed
2. A retrospective Compliance Project commences on 10/7/17 for 8 weeks to check all 18,500 personal files. Remedial action to be taken to identify any missing files and ensure securely filed in future.	31/07/17	Closed

3	B. Guidance from the home office recommends retention of some sensitive personal data which evidence right to work etc. This data will be required moving forward to evidence Council compliance with "Right to Work" legislation. Appropriate document retention will be agreed with Information Governance	29/09/17	Closed
4	I. The 'mail merge' process for issuing contracts now includes a reconciliation of on boarding files to contracts issued. This is recorded and signed off for each cycle by TL.	30/06/17	Closed

Status of actions due will be validated by Internal Audit as part of the follow-up review process.

2. Completeness and Accuracy of 'On Boarding' and Payroll Data

Finding

Whilst responsibilities for completion of new employee 'on boarding' process and contract generation is segregated between different sections within the team, there are no established technology controls to prevent a single officer from completing the end to end on boarding process, including creation of iTrent and payroll employee accounts.

Additionally, existing payroll exception reports will not identify variances in salaries between 'on boarding' documentation and salary details recorded on iTrent. There is a reliance on manual independent checks performed by Team Leaders to confirm that only authorised new start salary details have been completely and accurately recorded on the payroll system.

Customer Service Advisors review all files to ensure all required documents have been provided prior to making a formal offer of employment and 'on boarding' can be concluded. No additional independent sample testing is performed between 'on boarding' files and iTrent records to confirm that correct details have been entered either before or after the payroll run.

Review of manual 'on boarding' files for Council employees recruited between April 2016 and January 2017 demonstrated that the on-boarding process is not consistently and accurately performed. 100% of the 25 'on boarding' files sample failed due one or more of the following errors being identified:

- 1. One file did not include a mandatory vacancy e form. Recruitment and 'on boarding' had progressed with no evidence of formal confirmation of a vacancy from the authorised vacancy manager.
- 2. Three files contained unauthorised Nominated Candidate forms which should be signed as evidence of line manager approval to recruit the preferred candidate.
- 3. Four files contained checklists that had not been signed by the CSA or supervising officer to confirm that all necessary 'on boarding' documentation had been received.
- 4. For one employee there were differences in employment start date details between their Itrent system account and those noted on the file checklist, which could result in inaccurate calculation of initial salary.
- 5. Five files failed to state the Salary Scale point or banding for the post
- 6. One file showed a difference between the salary banding and Itrent, and
- 7. One file indicated that a 'Salary Placement' form was required but was not present

Business Implication

- Addition of fictitious employees to the iTrent and payroll systems would not be identified.
- New employees receive incorrect salary payments.
- Weaknesses in references or missing right to work documents are not identified and addressed during the on boarding process.
- Customer Service Advisors training requirements and are not identified and resolved.

Recommendations

The 'On Boarding' process should be reviewed and updated to ensure it is performed consistently, accurately and robustly. Consideration should be given to ensuring the revised process includes the following controls;

- 1. Appropriate segregation of duties in relation to systems access rights.
- 2. Regular additional independent review of on boarding files prior to offer of employment to ensure that all mandatory forms are present and completed in full.
- 3. Independent check to ensure that iTrent and payroll accounts have been established accurately in accordance with information provided during the 'On boarding' process, including authorised Salary Placement Forms where a candidate is placed on a scale point higher than the base of the grade.

<u>A</u>	greed Management Actions	Target Date	<u>Status</u>
Tł	e on boarding process will be updated:	31/08/17	Closed
1.	System cannot be configured to restrict access to specific elements of the end to end task. This will be built into the new Business World system configuration. To ensure appropriate interim controls, a manual check will be undertaken by Senior Transactions Administrators (these staff will have iTrent systems update access removed) to ensure tasks are undertaken by appropriate/restricted officers, supported by the necessary paperwork		
2.	Files content will be reviewed by Senior Transaction Administrators to ensure accuracy and consistency. A full process of checks and procedures will be documented and signed off at Team Leader level for each transaction cycle.	31/07/17	Closed
3.	Newly created compliance team will undertake independent sample checks with recruiting managers to ensure new starts are known and correct	29/09/17	Closed
4.	An independent check to reconcile on boarded files to payroll new starts reports for each payroll cycle will be carried out and jointly countersigned by the Team Leaders in Payroll and Recruitment. Authorised salary placement forms will be part of the check.	30/06/17	Closed

Status of actions due will be validated by Internal Audit as part of the follow-up review process.

2. Local Development Plan and Action Programme (PL1705)

	Critical	High	Medium	Low
Total number of findings	-	2	1	1

Background

There is a statutory requirement (refer Part 2 (Development Plans) of the Planning etc. (Scotland) Act 2006) for each council in Scotland to prepare a local development plan (LDP). The LDP forecasts how communities will grow and develop during the next 10 years and includes policies that guide decisions on all planning applications. It provides certainty for communities and investors alike about where development should and should not take place and the supporting infrastructure required for growth.

There is also a statutory requirement (refer Section 21 of Part 2 (Development Plans) of the Planning etc. (Scotland) Act 2006) to prepare an Action Programme (AP) to support delivery of the LDP. The AP details the actions required to ensure delivery of the LDP. The Council has chosen to go beyond the statutory requirements and to use the AP as a corporate document to co-ordinate housing development proposals with the infrastructure and service requirements (such as schools and transport) needed to support them.

The first draft of LDP was published in March 2013 and was based on the regional Strategic Development Plan (SESplan) that was approved by Scottish Ministers (with changes in relation to increased housing requirements) in June 2013. These changes to SDP led to the development of the second proposed LDP in June 2014. Representations were accepted from August to October 2014, and the plan was submitted to Scottish Ministers in June 2015, with modifications received in June 2016. These modifications were incorporated into the revised plan that was formally adopted by the full Council on 24 November 2016, with the AP formally adopted by the Planning Committee on 8 December 2016. The risks associated with the LDP and its Action Programme are significant in terms of finance, reputation, and the Council's performance in relation to its statutory duties as Planning, Roads and Education Authority.

Scope

The scope of this review was to assess the design and operating effectiveness of the Council's framework and controls over the development, approval and delivery of the LDP and AP.

Summary of High Risk Findings

1. Local Development and Action Plan governance arrangements

Finding

Separate governance structures were established to support development of both the LDP and supporting AP. Our review of these governance arrangements established that:

- 1. LDP governance arrangements were documented in the LDP project initiation document, dated April 2010. The LDP was adopted in November 2016 however the governance arrangements were not revisited or reviewed during this period to confirm that they remained appropriate.
- Meeting frequency The AP Board and Oversight group should meet monthly and quarterly respectively. No AP Board meetings were held between Jan 2016 - May 2016 and Dec 2016 - Jan 2017. The AP Oversight Group only met twice during 2015 (March and July). The LDP Steering Group is designed to meet once in two months but no meetings were held between January and May 2016. The rationale for missing these meetings was not documented.
- 3. Management Information No defined Management Information (MI) was provided to either LDP or AP governance forums to enable progress tracking and inform decision making, with the exception of the risk register submitted to LDP Steering Group meetings. For all LDP and AP governance forums, updates were verbally discussed in the meeting and then documented in the minutes.
- 4. Risk Registers Review of LDP and AP risk registers and governance meeting minutes established that:
 - LDP governance arrangements specified that the risk register should be updated prior to each Steering Group meeting to enable a focussed discussion on risks. Review of a sample of 4 meetings established that the risk register had not been updated prior to the October and December 2016 meetings, and that the August 2016 meeting minutes include no evidence of a risk register discussion.
 - The last LDP Steering Group meeting was held on 12 December 2016 following adoption of the LDP by the Council in November 2016, however, the LDP risk register has not yet been closed down and outstanding actions / unresolved risks were not transferred across to the AP governance framework.
 - The AP risk register was created in April 2016 but was not reviewed or approved by either the Head of Planning or the AP governance forums.
- 5. Issues and Dependencies that could impact development of the LDP and AP were not recorded and reported to governance forums.
- 6. Communication between LDP and AP Governance Forums No formal arrangements were established between LDP and AP governance forums to ensure that information regarding the decisions made in these forums and their potential impacts was shared. Instead, knowledge sharing was based on the working knowledge and relationships among Planning team members.
- 7. LDP steering group progress tracking Tracking progress of previous meeting's action points is a standing agenda item for the LDP steering group. Review of 2 meetings held in September and December 2015 noted that action points from the previous meeting had not been tracked.
- 8. Stakeholder Engagement and Communication No communication strategy or plan was developed and presented to LDP and AP governance forums detailing the Council's approach to engage with relevant stakeholders.

Business Implication

- Delayed or ineffective decision making.
- Lack of alignment between LDP and AP.
- Crystallisation of risks, issues and dependencies that have not been identified and managed that could impact on or delay completion of the LDP and AP.
- Delayed completion / finalisation of LDP and AP where action points are not addressed in a timely manner.

• Potential risk that stakeholders are not consulted or engaged when required.

Recommendations

The following recommendations should be considered for implementation now (where appropriate) to ensure effective implementation of Action Programmes, and to support development of the next LDP. Planning to support development of the next LDP is due to commence in December 2017 – the target for an agreed project plan is March 2018.

- 1. Governance arrangements should be reviewed on an annual basis by the chair and members of steering group during to confirm that they remain appropriate. Any change required as part of developments/changes in project should be reflected in its governance arrangements.
- 2. If a governance meeting is not required, the rationale for cancelling the meeting should be documented.
- 3. Roles, responsibilities and expectations regarding quality and timelines for deliverables should be formally clarified for all Service Areas involved in the LDP and AP process.
- 4. The Chair and the members of LDP and AP governance forums should specify the management information and reports to be presented at each meeting to support their oversight and decision making.
- 5. A risks, issues and dependencies register should be created, regularly updated and discussed at appropriate governance forum to ensure that all risks, issues and dependencies have been identified and are being managed.
- 6. The LDP risk register should be reviewed to confirm whether all outstanding risks have been addressed. Any risks not yet addressed should be transferred to the relevant AP governance forum for resolution. The AP risk register will also be reviewed, updated, presented and discussed at the appropriate AP governance forums.
- 7. Governance forums should maintain a list of open actions that are tracked with their resolutions discussed at subsequent meetings.
- 8. All key stakeholders should be identified and a long term communications plan or strategy defined, approved by governance forums and implemented. This should outline the approach and frequency of engagement with the key stakeholders identified.

Agreed Management Actions	Target Date	<u>Status</u>
1. Review the LDP risk register at the next relevant governance meeting to confirm that risks have either been addressed or will be transferred across into AP.	31/10/17	Validation
2. Agree project plan for LDP 2 project which implements above recommendations.	30/03/18	Open
 Action Programme – review governance arrangements, agree Management Information, prepare and agree Risk, Issues and Dependency Register, agree Communications Plan. 	30/03/18	Open

Status of actions due will be validated by Internal Audit as part of the follow-up review process.

2. Financial Modelling

Finding

Development costs for healthcare and transport infrastructure requirements were prepared by NHS Lothian and the Council's transport service area respectively. The healthcare costs were not independently reviewed and assessed by the Council, and no granular detail is available to support calculation of the transport costs.

Whilst potential funding LDP funding gaps had been highlighted to the Finance and Resources Committee in January and August 2015, financial modelling to determine and quantify the level of funding required to support infrastructure investment was completed in April 2017. Outcomes from the modelling process were presented in draft to the LDP Oversight Group in June 2017, six months after approval and publication of the LDP and supporting APs in December 2016 and highlighted a total funding requirement of £148M over the ten year lifespan of the LDP (after accounting for potential developer contributions).

Whilst there is no regulatory requirement to confirm that funding is available prior to publication of the LDP as per the Planning etc. (Scotland) Act 2006, it would be beneficial to understand potential LDP funding gaps prior to publication. or plan was developed and presented to LDP and AP governance forums detailing the Council's approach to engage with relevant stakeholders.

Business Implication

Inability to source funding to support implementation of the infrastructure proposals included in the published LDP

Recommendations

- 1. Costs supporting LDP infrastructure proposals should be reviewed, challenged and approved by the relevant LDP and AP governance forums prior to commencement of financial modelling.
- 2. Funding gaps identified should be escalated to CLT and the Finance and Resources Committee together with proposals to source the funding required.
- 3. For the next LDP, financial modelling should be performed in conjunction with LDP/AP development, and (if statutory timeframes permit) the funding plan

Agreed Management Actions		<u>Status</u>
1. Challenge of infrastructure proposals will be performed at the LDP Action Programme oversight group.	30/03/18	Open
2. Complete and agree Financial Model of 2018 LDP Action Programme	30/03/18	Open
3. Annual Report to CLT and F&R Committees	30/03/18	Open
4. Prepare update to Financial Model in line with next LDP project plan.	30/03/18	Open

Status of actions due will be validated by Internal Audit as part of the follow-up review process.

Governance, Risk and Best Value Committee

Edinburgh Health and Social Care Partnership – Update on Financial Position of City of Edinburgh Council Services - referral from the Finance and Resources Committee

Item number	7.3		
Report number	1.0		
Wards	All		
Executive summary			

On 7 November 2017 the Finance and Resources Committee considered a report that provided a service-specific update on the Council's financial position for Health and Social Care. The report has been referred to the Governance, Risk and Best Value Committee for consideration as part of its work programme.

Edinburgh Health and Social Care Partnership – Update on Financial Position of City of Edinburgh Council Services

Terms of referral

- 1.1 On 28 September 2017 the Finance and Resources Committee considered the in-year, Council-wide revenue monitoring report for 2017/18 which highlighted a potential full year overspend of £9.1m for Health and Social Care.
- 1.2 On 7 November 2017 a services-specific update on Health and Social Care was provided which outlined the work being undertaken to identify and deliver appropriate mitigating actions. There had been an improvement in the projected overall in-year position although further pressures in Health and Social Care that would require concerted and sustained action to regain financial stability had been highlighted. Details of management actions which had been initiated were provided.
- 1.3 The Finance and Resources Committee agreed:
 - 1.3.1 To note the current financial forecast for Health and Social Care, which was based on current levels of service delivery.
 - 1.3.2 To note the potential additional cost of unmet need.
 - 1.3.3 To note that work was ongoing to assess the level of increasing demand and unmet need and to evaluate opportunities for financial savings and demand management, and that the Interim Chief Officer would provide regular updates on progress to the Finance and Resources Committee.
 - 1.3.4 To refer the report by the Executive Director of Resources to the Governance, Risk and Best Value Committee as part of its work programme.

For Decision/Action

2.1 The Finance and Resources Committee has referred the report to the Governance, Risk and Best Value Committee on 28 November 2017 for consideration as part of its work-programme.

Finance and Resources Committee 7 November 2017.

Finance and Resources Committee

10.00am, Tuesday 7 November 2017

Edinburgh Health and Social Care Partnership – Update on Financial Position of City of Edinburgh Council Services

Item number Report number Executive/routine Wards Council Commitments

Executive Summary

At its meeting on 28 September, the Finance and Resources Committee considered an update on the in-year, Council-wide revenue monitoring for 2017/18. Based on projections at month 5 and taking account of mitigating actions identified, the report advised of a potential full-year overspend of £9.1m for Health and Social Care. The projected overspend reflected significant demand-led pressures, together with £6.0m of slippage on planned demand management savings initiatives. The forecast represented an increase of £2m compared to the period 3 position, and reflected service levels at period 5, with no provision for any further uplift in activity. Given the seriousness of this position, members of the Committee asked the Interim Chief Officer of the Edinburgh Health and Social Care Partnership to provide a service-specific update to the Committee on 7 November.

Work to identify and deliver appropriate mitigating actions is continuing apace. This report notes an improvement in the projected overall in-year position, albeit highlighting further pressures in Health and Social Care that will require concerted and sustained action to regain financial stability. Several management actions have been initiated and these are detailed in the report. Significant and long-standing pressures are evident in the current financial position. Returning to balance will require major redesign of services, radical changes in thinking and approach, and the involvement of all partners and stakeholders.

Report

Edinburgh Health and Social Care Partnership – Update on Financial Position of City of Edinburgh Council Services

1. **Recommendations**

- 1.1. The Finance and Resources Committee is asked to:
 - 1.1.1. note the current financial forecast for Health and Social Care, which is based on current levels of service delivery
 - 1.1.2. note the potential additional cost of unmet need
 - 1.1.3. note the range of mitigation measures instigated by the Interim Chief Officer
 - 1.1.4. note that work is ongoing to assess the level of increasing demand and unmet need and to evaluate opportunities for financial savings and demand management, and that the Interim Chief Officer will provide regular updates on progress to the Finance and Resources Committee
 - 1.1.5. refer this report to the Governance, Risk and Best Value Committee as part of its work programme.

2. Background

2.1 At its meeting on 28 September, the Finance and Resources Committee considered the in-year, Council-wide revenue monitoring report for 2017/18. Based on projections of expenditure and income and taking account of mitigating actions identified, the report highlighted a potential full year overspend of £9.1m for Health and Social Care. Given the seriousness of this position, members of the Committee asked the Interim Chief Officer of the Edinburgh Health and Social Care Partnership to provide a service specific update to the Finance and Resources Committee on 7 November.

3. Main report

3.1 In recognition of the level of concern about the financial position, the Interim Chief Officer undertook to provide a service-specific update to the Finance and Resources Committee as a matter of priority. The Partnership faces considerable pressures to meet financial targets, deliver approved savings programmes and operate within established budgets. It also faces significant levels of unmet need, which, if addressed with current models of provision, would increase pressure on the financial position.

- 3.2 Increasing demand, failure to implement previously approved savings / demand management programmes, together with significant and growing waits for assessment and service have placed extreme strain on the budget. The Partnership faces growing numbers of people waiting for services. As of 16 October 2017, 169 people were delayed in hospital, 700 people were waiting in the community for c7,000 hours of service and assessments were outstanding for 1,836 people.
- 3.3 These demand-led pressures and non-delivery of approved savings are reflected in the latest year-end forecast position for the Partnership's Health and Social Care services, which shows an overspend of £9.1m. This is after application of a £2.25m allowance for demographic growth from the Edinburgh Integration Joint Board (EIJB) and demonstrates a deterioration from the position reported at month 3. A summary is given in table 1 below:

	Period 5 Forecast Variance
Employees	(£1.0m)
Purchasing	£9.75m
Transport	£0.25m
Supplies (Legal)	£0.4m
Transfer Payments	£0.2m
Income	(£0.5m)
Net Expenditure	£9.1m

Table 1: Health and Social Care forecast outturn 2017/18

- 3.4 This forecast reflects service levels at period 5 and *does not* include provision for any further uplift in activity, either in terms of increased baseline demand or through addressing the waiting lists.
- 3.5 The EIJB will review the extent to which uncommitted financial plan funding can be reprioritised in year. A proposal to release a further £2m from inflation provisions that are no longer required to partly offset the financial implications of demographic growth will be presented to the EIJB on 17 November. If agreed, this would reduce the projected overspend to £7.1m. Work is continuing to identify further opportunities to reduce the level of projected overspend.
- 3.6 Members will be aware that the most recent Council-wide revenue monitoring update considered by the Finance and Resources Committee on 28 September 2017 indicated that without further remedial action, there would be a potential

overall year-end overspend of £4.0m, representing the net effect of significant overspends in Health and Social Care (£9.1m) and other Council services (£3.5m), offset by one-off savings (or savings already assumed in the budget framework in future years) of £8.6m.

- 3.7 In light of the projected position at that time, the report confirmed that a further tightening of financial and workforce controls had been implemented. When combined with a review of discretionary expenditure priorities, the identification of the proposed additional contribution of £2m from the Social Care Fund, and active management of risks and pressures for the remainder of the year, it is anticipated that this will allow a projected balanced position for the Council to be reported to the Finance and Resources Committee's November meeting.
- 3.8 While the improvement in the overall projected position of the Council is to be welcomed, underlying pressures in Health and Social Care require to be addressed on a sustainable basis to ensure a stable longer term financial position. The Council's financial strategy for 2018/19, as reported to Finance and Resources Committee on 27 October 2017, seeks the identification of savings sufficient to address the underlying structural pressures of £7.1m in Health and Social Care. Specific savings proposals totalling £1.1m relating to disability day services alignment, discretionary expenditure, and legal services have been identified, and are included in the Council's proposals for budget engagement. A £3m savings target for Health and Social Care, representing savings originally planned for delivery in earlier years, has been set for 2018/19, and updates on development of specific initiatives will be provided through regular reports to Committee. The net effect of the above additional funding and assumed additional savings would result in an uplift of £3m in the Council's baseline offer to the EIJB for 2018/19, with compensating savings proposed across other Council services.
- 3.9 It is in this context that the Council Leadership Team and Partnership Senior Management Team have identified a series of mitigating actions. Some of these initiatives will deliver reductions in the cost base, whilst others will support the management of capacity, seeking to increase service delivery without additional costs. An important element of this approach is the reinvigoration of previously agreed schemes (reablement, telecare and brokerage), together with development of a pipeline of prioritised projects. Specifically, the Interim Chief Officer, supported by the Senior Management Team, has:
 - 3.9.1 developed and agreed a "Statement of Intent", which sets out the challenges facing the Partnership and begins to articulate how efforts will be prioritised to tackle them
 - 3.9.2 established a Savings Governance Board, chaired by the Interim Chief Finance Officer for the Edinburgh Integration Joint Board with a remit to support the development and oversee the implementation of the savings and recovery programme across all Partnership services; membership of the board includes senior leadership from the Partnership, with support from

finance staff from the Council and NHS Lothian and an experienced Council project manager.

- 3.9.3 *Targeted reablement* the criteria for entry to the reablement service, which had been relaxed in response to delayed discharge pressures, has been reinstated. Locality Managers have been tasked with discharging those services users who have been reabled successfully into mainstream services and ensuring only new service users who meet the criteria enter the reablement service. As a result, the average package of care should be reduced in line with the target of 45%. Benefits are currently tracking at 49%. There is an additional opportunity to reduce the unit cost of the service through improved productivity. The proposal for this is being developed and is anticipated to realise in year benefits.
- 3.9.4 *Telecare* a detailed implementation plan is being developed to provide telecare services to new service users each month, thereby reducing reliance on care at home and care and support services. The project delivery team is working with locality teams to identify the cohorts of service users and accelerate progress.
- 3.9.5 Support planning and brokerage three interrelated work streams have been developed in the scope of this scheme. First, delivery plans are being finalised for the North-East locality test of change, which focuses on developing the asset-based approach to assessment and support planning for a targeted number of people. The scope includes older people, people with learning disabilities, physical disabilities and mental health problems, and is due to 'go live' from 4 December.
- 3.9.6 Care at home and care and support services pending full implementation of the schemes detailed above, Locality Mangers have been tasked with reviewing all extant packages of care. This incorporates a review of all high cost packages of care, sleepover arrangements, overnight services and a parallel review of the productivity of in house services. Work has been commenced to consider alternative models to address the contractual issues and increase capacity.
- 3.9.7 *Workforce* as above, there are several strands to this work stream, including: the instigation of staffing controls, with all vacancies being authorised by the executive management team; increased controls over the use of all supplementary staffing, with all requests for agency cover now signed off by Cluster Managers; "star chambers" held with care homes to address budget overspends; a review of the options to support robust rota management; scrutiny of all current vacancies and fixed-term contracts with a view to identifying potential efficiencies; and an acceleration of appropriate elements of the phase 3 organisational review.
- 3.9.8 Development of specific savings initiatives as noted in paragraph 3.8, a savings target of £3m is assumed in the Council's budget proposals for

2018/19, and specific initiatives will be developed with updates provided to Committee. Areas under consideration include: further staff savings through enhanced workforce controls; comprehensive review of charges; a review of services, including homecare and reablement; and a review of grants.

- 3.9.9 Supplies and procurement a General Supplies Group, supported by Procurement, will be established with a remit to ensure best value is delivered for all products that are either high volume/low cost or high cost/low volume. A one-off review of inventory will be undertaken and opportunities to introduce a "top-up" system in care homes will be investigated. A similar approach has yielded results previously in NHS Lothian, and this project will be supported by senior managers from the Royal Infirmary of Edinburgh.
- 3.9.10 Internal controls a number of actions have been initiated to strengthen internal controls: an internal audit review to assess the adequacy and effectiveness of controls established across Health and Social Care to support home care service delivery has been added to the 2017/18 internal audit plan at the request of the Interim Chief Officer and Council Head of Finance; work is underway to develop a weekly management dashboard highlighting movements in service volumes; a monthly process to cleanse commitment data in Swift has been agreed to support financial monitoring; and weekly reports are now being issued to Locality Managers providing details of all new commitments approved through Direct Payments and Individual Service Funds.
- 3.9.11 The Interim Chief Officer has initiated a review of all uncommitted funds within the Social Care Fund and Integrated Care Fund and an update will be reported to the EIJB on 17 November.
- 3.9.12 An Assessment and Review Board has been established, and this group will lead on the development of a plan to prioritise outstanding assessments. An update on this matter, including proposed funding arrangements, will be reported to EIJB on 17 November.
- 3.9.13 *Budget realignment and budgetary control* work is ongoing to realign budgets, expenditure and commitments to reflect new organisational structures to provide the basis for effective ongoing financial management by senior managers.
- 3.9.14 Other schemes several miscellaneous projects are also underway, including a targeted exercise to increase clawback of direct payments that are no longer required; a review of transport arrangements in line with the Council-wide transformation project, and scrutiny of all discretionary expenditure.
- 3.10 The cost of assessing and providing services for all the people who are waiting is significant. It is not possible to estimate the exact figure with accuracy, given that: needs change over time; some assessments will result in no service being required

and others will lead to a wide range of demand; however, an initial estimate indicates that costs might be in the region of £20m over two financial years.

4. Measures of success

4.1 Achieving a balanced overall budget outturn position for 2017/18 at the same time as delivering key service performance indicators carries a high risk. The measure of success is therefore defined as ensuring no additional growth in the overspend and reducing costs wherever possible.

5. Financial impact

- 5.1 Delivery of a balanced budget in any given year is contingent on the development and subsequent delivery of robust savings, alongside management of all risks and pressures, particularly those of a demand-led nature.
- 5.2 The Council's Financial Regulations set out Chief Officer, Executive Director and Senior Manager responsibilities in respect of financial management, including regular consideration and ongoing active management of delegated service budgets.

6. Risk, policy, compliance and governance impact

- 6.1 The delivery of a balanced budget outturn for the year is the key target. The risks associated with cost pressures, increased demand and savings delivery targets are regularly monitored and reviewed and management action is taken as appropriate. Despite this overview, however, it is not possible to mitigate all the risks associated with the delivery of a balanced budget when this is constrained by the reductions in public expenditure required by the government's financial settlements.
- 6.2 Regular updates on the financial position will be considered by the Partnership management team, Council Leadership Team, Council Committees and the EIJB.

7. Equalities impact

7.1 While there is no direct additional impact of the report's contents, all budget proposals are now subject to an initial relevance and proportionality assessment and, where appropriate, a formal Equalities and Rights Impact Assessment is then undertaken. The equalities and rights impacts of any substitute measures identified to address savings shortfalls are similarly assessed.

8. Sustainability impact

8.1 While there is no direct additional impact of the report's contents, the Council's revenue budget includes expenditure impacting upon carbon, adaptation to climate change and contributing to sustainable development. In addition, all budget proposals are now subject to an upfront assessment across these areas.

9. Consultation and engagement

- 9.1 The Corporate Leadership Team has formally reviewed and discussed the in-year monitoring position and year-end projection. The Chief Executive has tasked Executive Directors with identifying mitigating actions to address in-year pressures and to review opportunities for additional savings proposals.
- 9.2 There is no external consultation and engagement arising directly from this report, although the Council's budget continues to be subject to a process of regular consultation and engagement.

Edinburgh Health and Social Care Partnership

Improvement Programme Summary

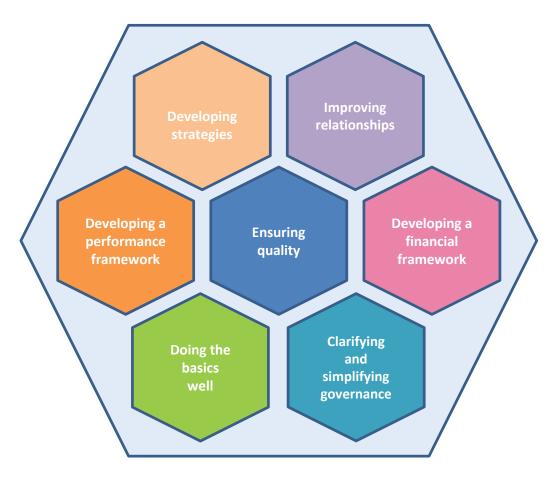

December 2017

Working together for a caring, healthier, safer Edinburgh

Edinburgh Health and Social Care Partnership Statement of Intent

The Partnership has developed a change and improvement programme structured around the key themes outlined in the Statement of Intent

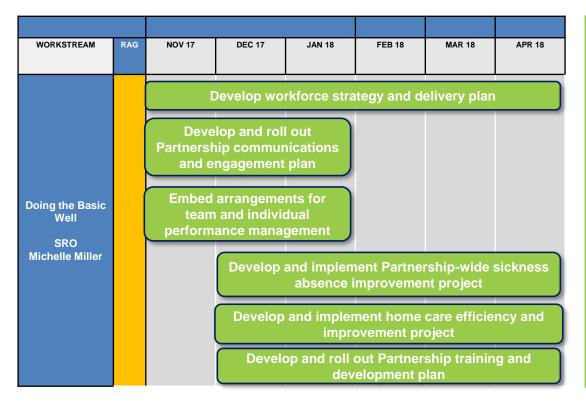

The following slides outline the high level detail of the programme and identify the action we will take over the coming months to deliver against our priorities

Doing the Basics Well

We will identify, develop and deliver the basic organisational norms to allow the Partnership to operate more effectively. We will:

- define the values, behaviours and standards we expect from all staff at all levels in the Partnership
- ensure that all staff:
 - have SMART objectives aligned to the objectives of the Partnership, clear line management arrangements and a development plan
 - understand the respective roles and responsibilities of the IJB, Health and Social Care Partnership, Council and NHS Lothian

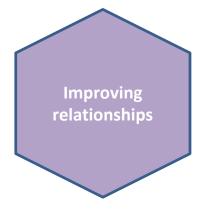

Progress to Date:

A workforce steering group has been established and business change expertise has been provided by Strategy and Insight to support development and implementation of a coherent, integrated workforce strategy and plan.

HR is supporting work to analyse sickness absence levels and plan the approach to improvement.

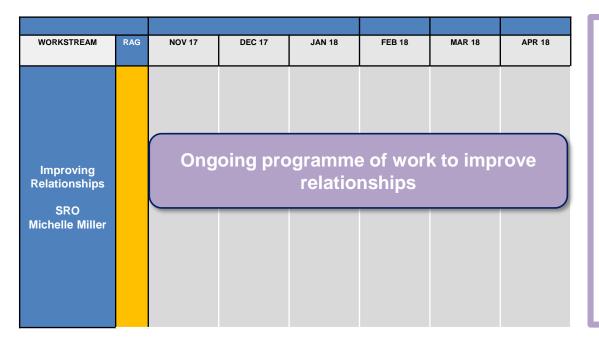

A project to address efficiency in the internal home care services has been established and added to the savings governance programme.

Improving Relationships

We will work to improve our relationships with NHS Lothian and the Council, as well as with the voluntary and independent sectors, partner IJBs, service users and their carers. We also need to consider our relationships with the Scottish Government, COSLA, scrutiny bodies and others, and ensure these are productive and positive. We will:

- respond promptly and accurately to requests for information
- meet deadlines
- ensure appropriate attendance at boards and committees
- support locality teams more effectively

Progress to Date:

The need to improve our relationships with a range of stakeholders and work more effectively with partners is an ongoing priority for the Partnership. The importance of this has been a key focus in a number of recent management and development sessions and away days.

We will continue to prioritise the development and embedding of culture and behaviours, which support effective working.

Developing Strategies

The Partnership will, by January 2018, deliver strategies for Older People, Disabilities and Mental Health; and by February 2018 for Primary Care. These strategies will set out demand and capacity, investment choices, and the risks associated with each. They will have high-level, but robust commissioning plans embedded in them, and be presented to the IJB for approval. Each strategy will outline:

- an accurate and realistic analysis of our current position
- a statement of where we want services to be in the medium and longer term
- robust analysis of our current demand and capacity
- an outline of required resources
- an action plan for delivery

Progress to Date:

Work is underway to develop the 4 key strategies.

Outline strategic plans for Disabilities, Older People and Mental Health will be presented to the IJB in January. The Primary Care strategic plan will follow in February.

The final plans will be completed by September 2018.

Developing a Financial Framework

We will establish a financial framework that is focused on best use of resources and well managed financial accountability. We will:

- communicate the financial challenge, our options for delivery, and the risks to performance and quality, as widely as we can, including with the public
- couch financial discussions with the IJB in terms of investment (and disinvestment) decisions
- delegate financial resources as appropriate to localities, whilst being clear on financial expectations and the accountability for delivery
- re-establish the 'savings governance group' to monitor progress against agreed actions

WORKSTREAM	RAG	OCT 17	NOV 17	DEC 17	JAN 18	FEB 18	MAR 18
Establishing a Financial Framework SRO Moira Pringle		manage	ngs ance and oring work hal audit of ement and legation of	DPs/ISFs	resources		es

Progress to Date

Savings Governance Board and programme established and meeting on a fortnightly basis to track progress of key projects.

Internal audit underway and due to report back on 22 December 2017.

Financial outlook/strategy for next 5 years due to be presented to the IJB on 15 December 2017.

Delegation of resources to localities largely complete, with exception of purchasing budgets. Work is underway and this is expected to be in place for the start of the new financial year.

Clarifying and Simplifying Governance

We will simplify our governance arrangements to ensure they are focused on delivering our objectives and are easily understood by our staff, partners and stakeholders. We will:

- clarify the differing roles of the IJB and the Health and Social Care Partnership and their relationships to the Council and NHS Lothian
- review how the IJB and its sub groups fit together
- review the internal governance of the Health and Social Care Partnership
- ensure that the IJB and the Partnership both have a set of organisational objectives

WORKSTREAM	RAG	NOV 17	DEC 17	JAN 18	FEB 18	MAR 18	APR 18	Ensuri
Clarifying and Simplifying Governance SRO Michelle Miller	(Review and clarify governance of IJB and sub- committees and NHSL hosted services Review and clarify role Profession Advisory Committees	d of al	nent new st serv	affing struc	tures for "I	Phase 3"	focus i An IJB govern new n nomin groups The Pa structu undern Localit to focu

Progress to Date:

Ensuring clarity of roles and remits is a key focus in planned staff engagement sessions.

An IJB briefing on 17 October confirmed governance arrangements. The IJB is recruiting new non-voting members and is seeking nominations for chairs for various steering groups and strategic planning groups.

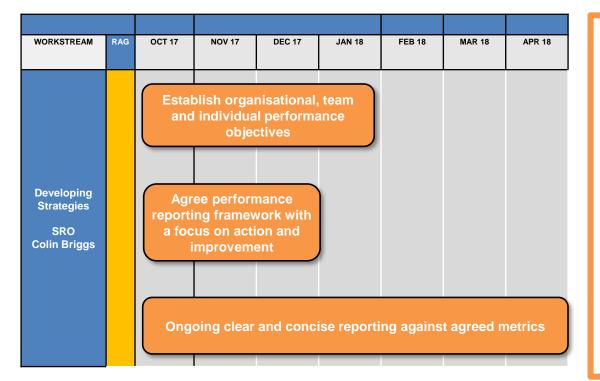

The Partnership's senior management team structure has been revised and recruitment is underway for the Chief Officer.

ocality scrutiny boards have been established to focus on finance, quality and performance.

Developing a Performance Framework

Developing a performance framework We will develop a performance framework aligned to the Scottish Government's national outcomes and local priorities, against which the Partnership and its staff can be held to account. We will:

- establish organisational objectives for the Partnership that provide the basis for setting team and individual objectives
- set out the metrics to be reported to the IJB and Health and Social Care Partnership Senior Management Team
- report against the metrics clearly and concisely
- emphasise personal accountability

Progress to Date:

Planning is underway to ensure the development and cascade of appropriate organisational, team and individual performance objectives.

A performance dashboard has been developed to track performance against the key national outcome indicators. The next stage will extend this dashboard to local reporting.

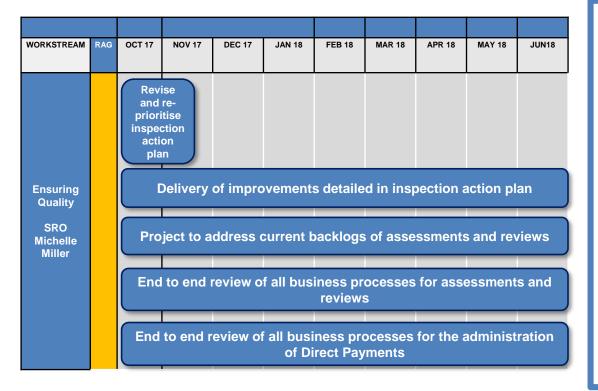

Scrutiny boards established in each locality have a clear focus on the management and improvement of performance, budgetary control and quality.

Ensuring Quality

We will improve citizens' experience of our services by taking action in response to the 17 recommendations in the report of the joint inspection of services for older people published in May 2017. We will:

- review and prioritise each of the recommendations
- sustain, and where necessary, accelerate progress to date
- engage with the inspection bodies as partners in our improvement journey
- establish a robust programme of quality assurance

Progress to Date:

The inspection action plan was revised and reprioritised in October 2017. We have established a quality improvement framework for localities, supported by expertise in adult protection and quality assurance and compliance.

Funding has been identified to establish a project to address the current backlog of assessments/reviews over the coming 7 months. We are establishing a temporary data cleansing/compliance team to improve the integrity of Swift data and ensure that lean, effective business processes are in place to support locality working.

Savings Governance Programme – Delivering Financial Sustainability

- In addition to the improvement programme, themed around the priorities set out in the Statement of Intent, the Partnership has developed a savings programme
- This programme is monitored and governed through the Savings Governance Board, which meets on a fortnightly basis to track progress and deal with risks/issues/decisions
- The savings programme is targeting significant financial savings and/or cost avoidance
- The high level details of this programme are set out in the following slide

Accounts Commission: Local Government in Scotland – Financial Overview 2016/17

Item number	7.4
Report number	
Executive/routine	
Wards	
Council Commitments	

Executive summary

In November 2017, the Accounts Commission published its Scotland-wide review of local government financial performance for 2016/17. The report concludes that in light of increasing demand and reducing funding, the financial challenges facing all councils continued to grow in 2016/17. Savings were correspondingly more difficult to identify and deliver and greater use was made of reserves, in some cases to support routine service delivery.

Given an accompanying increase in debt levels in some authorities, robust mediumterm planning, transparent reporting and effective leadership will be key to securing ongoing financial sustainability in informing the increasingly difficult decisions that undoubtedly lie ahead. In confronting these challenges, close working amongst officers, councillors, stakeholders and partners will be vital.

Report

Accounts Commission: Local Government in Scotland – Financial Overview 2016/17

1. Recommendations

- 1.1 Members of the Governance, Risk and Best Value Committee are asked to:
 - 1.1.1 note the contents of the report; and
 - 1.1.2 refer the report to the Finance and Resources Committee for its consideration in the context of setting the Council's 2018/23 revenue and capital budget framework.

2. Background

- 2.1 Until 2014/15, as an integral part of its annual programme of scrutiny and inspection across Scotland's local authorities, the Accounts Commission published a high-level, independent overview report. This annual report drew upon work undertaken in the preceding year, summarising findings and key themes emerging from financial statement, Best Value, Community Planning and wider performance audits.
- 2.2 For the 2015/16 review year, a slightly different approach was adopted. Rather than providing coverage of all of the above areas within a single overview, a series of discrete reports was instead issued. <u>The financial overview report</u>, issued several months earlier than usual in November 2016 with the intention that it then inform and complement councils' budget-setting processes, was considered by the Governance, Risk and Best Value Committee on 2 February 2017. A Scotland-wide overview of service performance and the range of challenges facing councils was subsequently released in March 2017 and considered by the Governance, Risk and Best Value Committee on 20 April 2017. A similar two-part approach is being adopted for the 2016/17 review year, with the financial overview report issued on 28 November 2017.
- 2.3 As in 2015/16, the overview report is aimed primarily at councillors and senior officers and assesses councils' financial performance and preparedness in the context of a number of existing and emerging challenges. These challenges centre on reconciling demographic-led increases in service demand, other cost pressures and growing complexity arising from legislative change with on-going, real-terms reductions in funding. In seeking to enhance councillors' understanding of the issues concerned to discharge effectively their scrutiny

role, a number of specific suggested questions for consideration are also highlighted. These questions, and the accompanying contextual commentary, provide an accessible overview of the complex local government landscape and may be of particular interest to recently-elected members.

2.4 Given its Scotland-wide coverage, the report's recommendations are correspondingly general. Edinburgh-specific and other reports covering areas of direct applicability to the Council's activities are, however, regularly considered by the Governance, Risk and Best Value Committee. Of particular relevance is the Council's own <u>Annual Audit Report</u>, considered by the Governance, Risk and Best Value Committee on 26 September 2017.

3. Main report

Overview of report and key messages

- 3.1 The Accounts Commission report comprises three distinct sections. The first (on pages 10 to 19) provides a high-level overview of councils' income and expenditure in 2016/17, placing these within the context of recent years' trends. The second section (pages 20 to 32) then proceeds to examine the effectiveness of councils' financial management arrangements in 2016/17. The third section (on pages 33 to 41) provides an overview of the outcome of councils' budget-setting processes for 2017/18, before identifying a number of key messages geared towards securing both longer-term financial sustainability and on-going delivery of priority outcomes.
- 3.2 In overall terms, the report concludes that in light of increasing demand and reducing funding, the financial challenges facing all councils continued to grow in 2016/17. Savings were correspondingly more difficult to identify and greater use was made of reserves, in some cases to support routine service delivery.
- 3.3 Given an accompanying increase in debt levels in some authorities, robust medium-term planning, transparent reporting and effective leadership will be key to securing on-going financial sustainability in informing the increasingly difficult decisions that undoubtedly lie ahead. In confronting these challenges, close working amongst officers, councillors, stakeholders and partners will be vital.

Relevance to Edinburgh

- 3.4 As noted above, the conclusions of the overview report are drawn from audit work undertaken across all Scotland's councils and, as such, the messages are intended to be of general applicability. In considering the report's contents, however, specific attention is drawn to the following:
 - 3.4.1 **Exhibit 3, page 12** Edinburgh's combined level of General Revenue Grant, Non-Domestic Rates and Council Tax funding, when expressed on a per capita basis, was the lowest in Scotland in 2016/17. This reflects a number of factors including the city's relative affluence (with a knock-on impact on its spending needs assessment), economies of scale in service

delivery and, most materially, the size of the independent education sector;

- 3.4.2 Exhibit 5, page 15 the Council was one of the first in Scotland to introduce a long-term financial plan, doing so in 2009. The plan captures movements in key expenditure (and income) factors influencing the Council's activities, with those shown in the diagram collectively adding over £25m to the Council's cost base in 2016/17. This cost increase contributed to an overall requirement to deliver some £73m of savings to maintain balance between expenditure and income during the year;
- 3.4.3 **Paragraph 23, page 16** the Council adopted a corporate charging policy framework in June 2014, with increases in most discretionary fees and charges linked to wider changes in inflation rates to maximise the level of investment in key services;
- 3.4.4 **Exhibit 6, page 17** in line with the position for Scotland as a whole, the Council has afforded relative protection to education and social work services in recent years' budgets. Given that expenditure in these areas accounts for over two-thirds of the Council's budget and is increasing with each year of relative protection, however, it is clear that all areas need to contribute to addressing savings requirements going forward if financial sustainability is to be secured;
- 3.4.5 **Exhibit 9, page 22** the Council was one of a minority in Scotland that increased their levels of reserves in 2016/17 against the backdrop of an overall reduction of £32m. The Council's recent external audit concluded that an effective approach to the management of reserves is in place, with the combination of unallocated and earmarked reserves appropriate to the risks it faces and the annual Risks and Reserves report considered by the Finance and Resources Committee identified as an example of good practice. In this vein, the Council has already applied earmarked reserves in the current year in meeting, for example, building dilapidation liabilities and obligations associated with its waste disposal contract;
- 3.4.6 **Exhibit 12, page 25** the demand-driven nature of a number of service overspends in 2016/17 mirrors the experience in Edinburgh, with the budget framework subsequently providing additional investment in the priority areas of Health and Social Care, Communities and Families and Safer and Stronger Communities. This additional investment is, however, only affordable through the identification of corresponding savings elsewhere within the budget, with a consequent need for much more fundamental consideration of what the Council does and how it does it;
- 3.4.7 **Exhibits 15 and 16, page 28 and 29** as with reserves, councils' relative levels of debt should be interpreted in the context of their contribution to wider strategic objectives and their underlying prudence, affordability and sustainability. The Council's overall level of debt is influenced, for

example, by the purchase of its Waverley Court headquarters building in 2008, with the approved business case predicated on delivering net savings relative to the previous lease arrangement of at least £38m over the borrowing term, as well as gaining ownership of the building. The Council's overall level of debt has decreased by over £120m since December 2012, with the resulting savings in loans charge expenditure maximising the level of resources available for frontline service provision;

- 3.4.8 **Paragraph 55, page 30** following a centralisation of the Council's capital budget monitoring and development processes in 2012, a best-practice review was undertaken with a view to better co-ordinating management of the capital programme by identifying opportunities to accelerate projects to offset slippage elsewhere. This approach resulted in a marked overall decrease in slippage which continues to be amongst the lowest of all Scottish councils, ensuring that available resources are applied effectively;
- 3.4.9 Exhibit 19, page 35 the approval by Council of a 3% increase in Council Tax rates, along with the impact of Scotland-wide revisions to multipliers for higher-banded properties, has resulted in a marked increase in revenues generated through Council Tax in 2017/18. Despite this, the proportion of the Council's net expenditure funded through Council Tax remains relatively low at 27%, with the balance met through General Revenue Grant and Non-Domestic Rates;
- 3.4.10 Paragraph 69, page 35 enhanced senior officer and elected member scrutiny at the inception, development and implementation stages have seen significant improvements in the proportion of savings subsequently delivered in recent years, with nearly 90% by value delivered in both 2015/16 and 2016/17. The Council's approved budget for 2017/18 is underpinned by the delivery of around £40m of savings, with around 80% of these currently assessed to be on track for full delivery. In recognition of the shortfall in delivery within, in particular, Health and Social Care, the budget framework provides significant additional service investment in 2018/19.
- 3.4.11 Exhibit 21, page 37 no use of general (unallocated) reserves was assumed in approving the Council's 2017/18 budget. In view of external audit recommendations around enhancing in-year transparency of the use of earmarked reserves, however, a review of practice elsewhere is being undertaken and will be incorporated in subsequent Council-wide revenue monitoring reports;
- 3.4.12 Exhibit 22, page 38 subsequently to the publication of the overview report, the Scottish Government has confirmed that it will not implement the Barclay Review on Non-Domestic Rates' recommendation on the removal of charitable relief from existing Council arm's length organisations (ALEOs) which had the potential to introduce combined

annual rates liabilities across Edinburgh Leisure and the Festival City Theatres Trust of more than £2.5m. The Cabinet Secretary for Finance and the Constitution confirmed, however, that relief would likely be withheld from newly-formed ALEOs going forward.

4. Measures of success

4.1 The report reiterates a number of principles of sound financial management and assesses councils' current practices against these. The Council's own arrangements were assessed to be effective as part of the 2016/17 Annual Audit process, with expenditure contained within budget for the tenth successive year and almost 90% of approved savings delivered.

5. Financial impact

5.1 Delivery of a balanced budget in any given year is contingent upon the development, and subsequent delivery, of robust savings, alongside management of all risks and pressures, particularly those of a demand-led nature.

6. Risk, policy, compliance and governance impact

- 6.1 An annual report on the risks inherent in the budget process is considered by the Finance and Resources Committee, usually in January, and referred to Council as part of setting the revenue and capital budgets. This report was identified as an example of good practice as part of the 2016/17 external audit process.
- 6.2 The savings assurance process is intended to ensure that, as far as is practicable, those proposals approved by Council deliver the anticipated level of financial savings in a way consistent with the expected service impacts outlined in the respective budget proposals.
- 6.3 A summary of progress in respect of savings delivery is reported to the Finance and Resources Committee on a quarterly basis, with additional detail and commentary on risks, mitigations and alternative measures (as appropriate) reported to Executive Committees.

7. Equalities impact

7.1 While there is no direct additional impact of the report's contents, all budget proposals are now subject to an initial relevance and proportionality assessment and, where appropriate, a formal Equalities and Rights Impact Assessment is then undertaken. The equalities and rights impacts of any substitute measures identified to address savings shortfalls are similarly assessed.

8. Sustainability impact

8.1 While there is no direct additional impact of the report's contents, the Council's revenue budget includes expenditure impacting upon carbon, adaptation to

climate change and contributing to sustainable development. In addition, all budget proposals are now subject to an upfront assessment across these areas.

9. Consultation and engagement

9.1 As in previous years, an extensive programme of engagement on the specific proposals and wider themes comprising the 2018/23 budget framework is being undertaken. A separate report on the key findings emerging from this year's engagement process will be reported to the Finance and Resources Committee on 23 January 2018.

Local government in Scotland **Financial overview** 2016/17

ACCOUNTS COMMISSION S

こうべい

The Accounts Commission

The Accounts Commission is the public spending watchdog for local government. We hold councils in Scotland to account and help them improve. We operate impartially and independently of councils and of the Scottish Government, and we meet and report in public.

We expect councils to achieve the highest standards of governance and financial stewardship, and value for money in how they use their resources and provide their services.

Our work includes:

- securing and acting upon the external audit of Scotland's councils and various joint boards and committees
- assessing the performance of councils in relation to Best Value and community planning
- carrying out national performance audits to help councils improve their services
- requiring councils to publish information to help the public assess their performance.

You can find out more about the work of the Accounts Commission on our website: www.audit-scotland.gov.uk/about-us/accounts-commission **N**

Audit Scotland is a statutory body set up in April 2000 under the Public Finance and Accountability (Scotland) Act 2000. We help the Auditor General for Scotland and the Accounts Commission check that organisations spending public money use it properly, efficiently and effectively.

Key facts

Chair's introduction

Welcome to the Accounts Commission's 2017 financial overview report for local government.

Last year was the first time that we published a separate financial overview report. In view of the very positive feedback we received from our stakeholders, we have decided to continue publishing two overview reports each year: this one focuses on financial matters, and the other on councils' performance and outcomes, which we plan to publish in April 2018.

Generally, councils face increasing challenges which require flexible responses that balance immediate needs, sound long term planning and limited financial resources. This task is a demanding one for elected members – not least for newly elected members – and I would hope that this overview report and its associated material, including the examples of questions we provide to support scrutiny by councillors, is a useful source of information and guidance.

We live in a rapidly changing public sector landscape, where external issues such as the transfer of further powers to Scotland and the decision to withdraw from the European Union add to an already complex domestic environment. Against this general backdrop the Commission is very aware of the importance of understanding the individual context faced by each council in terms of demand for services and resources available to sustain or develop them.

A major element of this operating environment for councils is the continuing pressure on finances. There was a real terms reduction in councils' main source of funding from the Scottish Government for 2016/17. This year has seen a further real terms funding reduction, with that trend forecast to continue into future years.

Councils tell us that they are finding the situation more serious than ever, with savings becoming increasingly difficult to identify and achieve. The Commission recognises this, but also recognises that some councils are in a better position to respond than others.

Effective leadership and financial management is becoming increasingly critical and medium-term financial strategies and well thought out savings plans are key to financial resilience and sustainability.

Elected members need to be clear about the potential impact of planned savings on achieving corporate objectives and the subsequent outcomes for citizens. The implications of community empowerment legislation heighten the importance of engaging effectively with communities around local priorities, and working together on options for the best future use of resources in service provision.

The Commission continues to emphasise the importance of Best Value as a comprehensive framework, based on the principle of continuous improvement that encompasses the key features of a high performing and effective council. It is especially relevant in times of tight finances, and we welcome the work being carried out by the Scottish Government, CoSLA, Solace and others, to refresh the Best Value statutory guidance so that it better reflects the current context for local government.

Finally, we welcome that once again the audits of annual accounts from all 32 councils were signed off with no qualifications. This is testament to the hard work amongst council staff, especially those within the finance function, and the good relationships developed by our auditors. There is of course, always room for improvement in financial management, such as in monitoring and reporting of financial matters to both councillors and the wider public. We will continue our interest in this.

Graham Sharp Chair of Accounts Commission

Summary | 7

Summary

Key messages

- 1 Councils' financial challenges continue to grow. Funding reductions are compounded by increasing costs and demands on services. In response, councils have needed to achieve ambitious savings plans, including around £524 million of savings for 2016/17.
- 2 Councils are showing signs of increasing financial stress. They are finding it increasingly difficult to identify and deliver savings and more have drawn on reserves than in previous years to fund change programmes and routine service delivery. Some councils risk running out of General Fund reserves within two to three years if they continue to use them at levels planned for 2017/18.
- **3** Debt increased by £836 million in 2016/17 as councils took advantage of low interest rates to borrow more to invest in larger capital programmes. Councils' debt levels are not currently problematic, but some are becoming concerned about affordability of costs associated with debt within future budgets.
- 4 Councils' budget-setting processes for 2016/17 were complicated by late confirmation of funding from the Scottish Government and the funding arrangements for integrating health and social care. Councils' expenditure and use of reserves often differed noticeably from that originally planned, indicating the need for budget-setting to become more robust and reliable.
- **5** All councils received an unqualified audit opinion on their 2016/17 accounts but auditors found that in several councils financial management could be improved. Councils can use their accounts to more clearly explain their financial performance over the whole year to support better scrutiny.
- 6 The financial outlook for councils continues to be challenging, with the need to deliver savings being increasingly critical to their financial sustainability. As such, robust medium-term financial strategies and effective leadership to deliver them are of increasing importance.

councils are showing signs of increasing financial stress

About this report

1. This report provides a high-level independent analysis of the financial performance of councils during, and their financial position at the end of, 2016/17. It also looks ahead and comments on the financial outlook for councils. It is one of two overview reports that the Accounts Commission publishes each year, complementing a report on councils' performance and outcomes that will be published at the start of the next financial year in April 2018.

2. The report is intended to inform the public and its representatives. It is particularly aimed at councillors and senior council officers, and will be of significant interest to elected members who joined councils for the first time following the May 2017 elections. While the focus of the report is on councils, we also provide some early information about Integration Joint Boards (IJBs), which are also local government bodies, following their first full year of operation in supporting health and social integration. A programme of audit work looking in more detail at health and social care integration and IJBs is under way.¹

3. The report is in three parts:

- Part 1 (page 10) comments on councils' income and budgets for 2016/17.
- Part 2 (page 20) looks at councils' financial performance during, and position at the end of, 2016/17.
- Part 3 (page 33) looks at councils' 2017/18 finances and the challenges faced going forward.

4. Our primary sources of information are councils' 2016/17 audited accounts (including management commentaries) and their 2016/17 external annual audit reports. We have supplemented this with data submitted by councils to the Scottish Government through local finance returns (LFRs) and Provisional Outturn and Budget Estimates (POBE). LFRs present spending information for councils on a different basis from the spending information that councils record in their annual accounts. We do not audit data contained in LFRs.

5. UK-wide changes to the format of council financial statements in 2016/17 mean that we are no longer able to compare spending on services across councils using the annual accounts. This includes changes that make it difficult to establish the true service income and expenditure totals. We will include further analysis of these areas in our local government overview report in April 2018, using Scottish Government LFR data.

6. We refer to 'real-terms' changes in this report. This means we are showing financial information from past and future years at 2016/17 prices, adjusted for inflation, so that they are comparable to information from councils' 2016/17 accounts. We also refer to figures in 'cash terms'. This means we are showing the actual cash or money paid or received.

7. Throughout the report, we identify examples of questions that councillors may wish to consider to help them better understand their council's financial position and to scrutinise financial performance. The questions are also available on our website in *Supplement 1: Scrutiny tool for councillors* (*).

8. Accompanying this report, and to facilitate insight and comparisons across the sector, we have provided additional financial information on our website. The information is based on councils' audited accounts. We hope this will be useful for senior council finance officers, their staff and other interested stakeholders. We have also produced a separate supplement on councils' Housing Revenue Account (HRA) (*) and the Local Government Pension Scheme (LGPS) (*).

9. Throughout this report Orkney and Shetland have been excluded from exhibits that show usable reserves and debt. This is because the levels they hold mean inclusion would make it difficult to see relative positions of other councils. Most councils hold usable reserves of between five and 35 per cent of their annual income, whereas Shetland's reserves were 250 per cent of its annual income and Orkney's 300 per cent of its annual income. These large reserves relate to oil, gas and harbour related activities. As a result, both Orkney and Shetland also have more investments than borrowing unlike other councils.

Part 1

Councils' income and budgets for 2016/17

Key messages

- **1** 2016/17 was a challenging year for councils with a real-terms reduction in revenue funding, a continuation of the council tax freeze, inflationary pressures and the cost of new UK and Scottish Government policy commitments.
- 2 Councils depend on Scottish Government funding for the majority of their income. The largest element of Scottish Government funding, relating to Grant Aided Expenditure, has remained largely unchanged since 2008/09, with additional funding linked to supporting national policies. The Scottish Government and COSLA should assure themselves that the funding formula remains fit for purpose in a changing landscape for local government. It is important that it is suited to improving outcomes for local communities and sensitive to priorities such as reducing inequality within and across council areas.
- 3 In response to funding reductions, councils approved about £524 million of savings and the use of £79 million of their reserves when setting budgets for 2016/17. Councils' savings plans have focused on reducing staff numbers, rationalising surplus property and improving procurement of goods and services. Councils were not always clear in their budget-setting reports about the risks associated with savings and their potential impact on levels of service.
- 4 Councils' budget-setting processes for 2016/17 were complicated by later confirmation of funding from the Scottish Government and the funding arrangements for integrating health and social care.
- **5** Councils set larger capital budgets in 2016/17 than in 2015/16. The Scottish Government capital grant fell and councils planned to fund expenditure through increased borrowing.

Councils faced a major challenge from the significant fall in revenue funding for 2016/17

10. The Scottish Government provides almost two-thirds of councils' income through general revenue grant, non-domestic rates (NDR) and specific grants for things like community justice (Exhibit 1, page 11). In comparison, council tax accounts for 14 per cent of councils' income, and fees and charges about eight per cent of their income.²

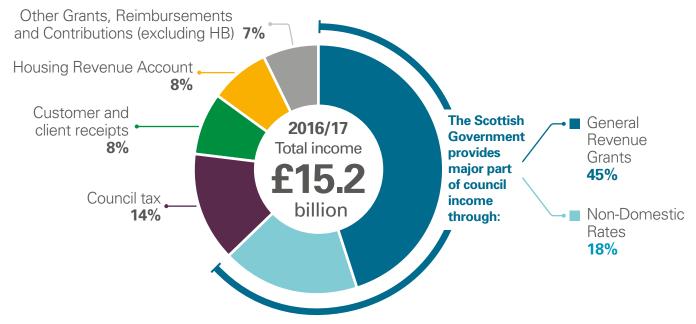

2016/17 was a challenging year for councils

Exhibit 1

Sources of council revenue income, 2016/17

Councils are dependent on the Scottish Government for the majority of their income.

Notes:

1. Does not include all income collected for services delivered through council arm's-length external organisations (ALEOs) and Integration Joint Boards (IJBs).

2. Income excludes housing benefit.

3. Customer and client receipts are 2015/16 totals at 2016/17 prices.

Source: Annual accounts 2016/17 and Scottish Local Government Finance Statistics 2015-16

11. Scottish Government revenue funding for councils in 2016/17 fell by 5.2 per cent in real terms (Exhibit 2). Councils' revenue funding from the Scottish Government has fallen in real terms by 7.6 per cent since 2010/11. The size of the reduction in 2016/17 presented councils with a major challenge in delivering services and required most to identify significant savings.

Exhibit 2

Scottish Government revenue funding to councils

Revenue funding fell both in cash and real terms in 2016/17 compared to 2015/16.

	9,958	-0.8 🔻	-2.8 🔻

Source: Local Government Finance Circular 1/2017, Scottish Government

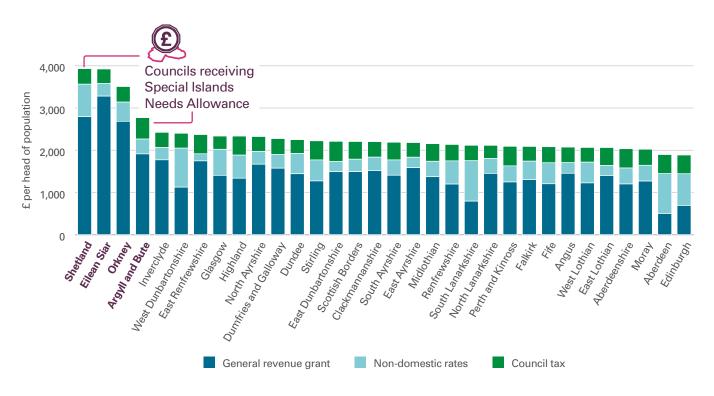

12. In 2016/17, the Scottish Government transferred an additional £250 million from the health budget to support health and social care integration. Even taking this into account, total revenue funding for councils fell in 2016/17.

13. Council tax is a key source of income for local government. Councils have typically set council tax rates to reflect local policy choices. Between 2008/09 and 2016/17, councils agreed with the Scottish Government to freeze council tax rates. To compensate them, the Scottish Government provided local government with an additional £70 million in each year of the freeze. In 2008/09, £70 million represented just over three per cent of council tax income and councils each received a share in line with their tax base. Councils that may not have increased their council tax by this amount each year will have benefited from additional funding as a result of the freeze. Councils did, however, lose the option of raising council tax to generate additional revenue. Although the council tax freeze was lifted in 2017/18, councils were constrained to increases of three per cent.

14. The revenue funding that councils received from the Scottish Government and council tax income varied between £2,000 and £2,400 per head of population for most councils in 2016/17 (Exhibit 3). This impacts on the income they have available and on the decisions they need to make about delivering services. The income per head of population in Argyll and Bute, Eilean Siar, Orkney and Shetland is higher than in other councils because they receive extra funding for their island populations, in recognition of the additional costs they face when providing services.

Exhibit 3

Income from General Revenue Grant, Non-Domestic Rates and council tax per head of population, 2016/17 Most councils received between £2,000 and £2,400 per head of population.

Source: Annual accounts 2016/17; and National Records of Scotland mid-year population estimate for 2015

Additional Scottish Government funding has been linked to supporting national policies

15. The Scottish Government funding mechanism is the main determinant of a council's overall funding. It is designed to reflect differences between councils in terms of population and other factors, such as geography and deprivation. The funding mechanism is based on a large number of elements as illustrated in **Exhibit 4 (page 14)**. The Fraser of Allander Institute has provided a useful outline summary of how funds are allocated:

'The Scottish Government allocates grants to local authorities taking into account both the relative spending need of each authority, and the revenues raised from council tax and non-domestic rates income.

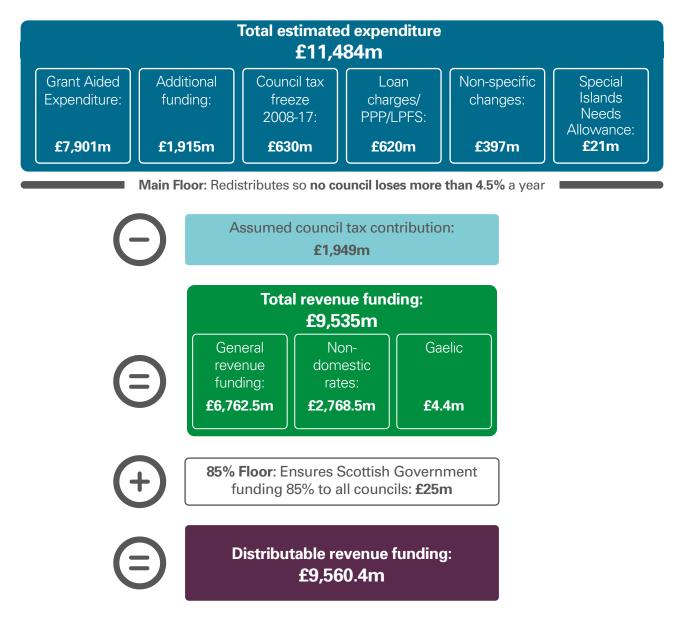

The grant allocation system first calculates the 'total estimated expenditure' (TEE) that each local authority is likely to need to meet its various commitments. The elements of TEE are:

- an assessment of spending needs, based on the Grant Aided Expenditure (GAE) assessments combined with a Special Islands Needs Allowance (SINA)
- a series of additional revenue grants such as the funding used in the past to support the council tax freeze – the allocation of which is determined on a case-by-case basis
- a series of further non-specific changes to grant allocations, the allocation of which is based on local authorities' shares of GAE + SINA
- local authorities' commitments in respect of certain historic loan charges
- the sum of these elements is then adjusted by a 'floor' to ensure that no local authority experiences particularly large swings in support from one year to the next.

Having calculated TEE, an adjustment is then made based upon an estimate of what each local authority is expected to raise from council tax, the revenues that each local authority is forecast to raise from non-domestic rates, and their allocation of ring-fenced Gaelic funding. A further 'floor' calculation is applied to ensure that no local authority receives less than 85 per cent of the Scottish average on a per capita basis.³

16. Within the Scottish Government's estimate of councils' TEE in any year, the largest element is Grant Aided Expenditure (GAE). GAE totals have remained broadly the same since 2008/09, with the exception of funding for police, fire and district courts having been removed. In 2016/17, GAE was £7.9 billion of a total estimated expenditure of £11.5 billion. GAE is distributed between councils based on an estimate of their relative spending needs across 89 elements, with reference to one or more indicators. For example, the GAE for primary education is allocated with reference to its share of primary school aged pupils. A small adjustment is made based on a secondary indicator of the percentage of pupils in small schools. The variations between councils in each of the elements are mostly determined by population profiles, although other factors to reflect rurality and deprivation are also used when appropriate.

Local Government funding mechanism, 2016/17 The formula contains many elements.

Notes: On top of distributable revenue funding, councils also received £133 million from other grants and payments such as the Teacher Induction Scheme and Discretionary Housing Payments.

In 2016/17, the 85 per cent floor was applied to funding for Aberdeen City and City of Edinburgh Councils.

Source: Audit Scotland and Fraser of Allander Institute

17. New funding for councils since 2008/09, for example funding to expand early years' childcare, has come as 'additional funding' and 'non-specific changes' and is funding specifically directed at delivering particular national policies. The proportion of council funding directed towards national policies is increasing, a trend that will continue with Scottish Government proposals for fairer funding for equity and excellence in education. This shift increasingly restricts the flexibility councils have in managing their budgets across their full range of services. The Scottish Government and COSLA should assure themselves that the funding

formula remains fit for purpose in a changing landscape for local government. It is important that it is suited to improving outcomes for local communities and sensitive to priorities such as reducing inequality within and across council areas.

Councils faced increased budgetary pressures in 2016/17

18. Councils faced a growing range of budgetary pressures in 2016/17 from the real-terms reduction in Scottish Government funding, the continuation of the council tax freeze and cost inflation. They also faced additional pressures in meeting new UK and Scottish Government policy commitments. Many of the budgetary pressures that councils faced were associated with staff. As councils' largest area of expenditure, additional staff-related costs have a very significant impact on their budgets (Exhibit 5).

Exhibit 5

Significant budgetary pressures on councils in 2016/17 UK and Scottish Government policy commitments had sizeable cost implications for councils.

The move to the single state pension at UK

level. This ended the employer NI rebate in relation to staff in contractedout pension schemes (such as the LGPS and Teachers schemes).

3.4 per cent

increase in NI costs affected employees from 1 April 2016. The cost of introducing the **living wage** for social care workers from 1 October 2016.

Estimated cost of £100 million.

The undertaking to maintain teacher numbers in Scotland and the Teacher Induction Scheme.

Councils spend around £2.4 billion on teachers. By not cutting teacher numbers they receive a share of £88 million extra funding.

Annual increases in staff costs.

Estimated cost of one per cent pay rise about £70 million. Costs also increase as staff move up pay scales.

The full year effect of increased pension contributions for teachers (increased from 14.9 per cent

to 17.2 per cent from September 2015).

The estimated impact was around £20 million in 2016/17.

Source: Audit Scotland

19. In addition to the costs of meeting government policies and inflationary pressures, councils also had to deal with ongoing demand pressures. Some demand pressures such as those associated with an ageing population and placements for looked-after children, are often not easy to forecast and budget for. This highlights the need for adequate budget contingency and robust arrangements for identifying and responding to changes in demand for services.

20. Rent arrears can also create budgetary pressures for councils' Housing Revenue Accounts. The Department for Work and Pensions (DWP) began a rollout of Universal Credit (UC) in Scotland in March 2016. By March 2017, UC had rolled out across five councils.⁴ Rent arrears across these councils increased in 2016/17 by an average of 14 per cent, compared with an average of 4 per cent across the remaining councils. Our *Housing Benefit Performance Audit: Annual update 2016/17* () highlighted that councils are finding that the roll-out of UC is having a detrimental effect on their collection of housing rental income.

Some service areas saw larger reductions to budgets in 2016/17

21. In responding to the range of pressures they face, councils approved about £524 million of savings and budgeted to use about £79 million of reserves in their budgets for 2016/17. Savings plans continued to focus on their main areas of spend, reducing staff numbers, rationalising surplus property and improving procurement of goods and services. It was not always clear from budget-setting reports how savings aligned with the council's corporate and financial plans or how they would impact on service delivery.

22. In 2016/17, budgets for education increased, mainly as a result of the policy commitment to maintain teacher numbers and the inflationary pressures around pay and pension costs. Despite demand pressures in social work, overall budgets reduced – but not by as much in percentage terms as in other areas of service. Remaining service areas have seen larger reductions to their budgets. In some cases, increases in fees and charges may have reduced the amount of budgeted expenditure. This pattern of larger reductions to relatively smaller service areas has been recurrent in recent years and is something that has continued into 2017/18. While it is right that resources should be aligned with policy priorities, the impact on other services and their outcomes should be carefully assessed **(Exhibit 6, page 17)**.

Councils have been seeking to maximise the income available to them from charging for services

23. Councils generate about eight per cent of their total income from charging for services (excluding housing rents). This includes income from charges to service users, rental income (excluding council houses) as well as 'other' charges. It is difficult to establish from the data available the full extent of income councils receive. Some income from services provided via arm's-length external organisations (ALEOs) and IJBs is not shown in council totals.⁵

24. Councils have been seeking to maximise their income through increasing charges and by introducing new charges for services, for example introducing charges for garden waste. Councils have also sought to collect more of the income that is due to them. Charges for social care which are subject to regulation, represented the largest area of income from charging services in 2015/16 (Exhibit 7, page 18).

Does your council have a charging policy? Is this in line with corporate plans and objectives?

When was this last reviewed?

What information do you need to be able to explain increases in fees and charges to your constituents? **25.** The Scottish Parliament's Information Centre (SPICe) has published a **detailed briefing on some fees and charges** (*). The Accounts Commission also considered fees and charges for services in its 2013 report, *Charging for services: are you getting it right?* (*)

26. Although councils generate a relatively small proportion of their overall income from fees and charges, increases can make a difference to council finances over time. However, councils face difficult decisions in balancing their need to maximise income while also ensuring their charging policy is consistent with corporate objectives, such as providing access to services and addressing inequality. Increasing prices can be unpopular with the public, but effective leadership, sensitive management, good communications and community engagement can assist with this.

Exhibit 6

Trend in council expenditure on main services, in real terms There was significant variation in budget changes across council services.

		2013/14 £million	2014/15 £million	2015/16 £million	16/17 Budget £million	Change over period
+ - × =	Education	4,771	4,736	4,830	4,826	1%

Charges to service users

Charges to service users account for over £500 million of councils income.

Note: Does not include all income collected for services delivered through council ALEOs and IJBs. Source: Scottish Local Government Finance Statistics 2015-16

Integration Joint Boards added further complexity to budget setting

27. For the majority of councils, 2016/17 was the first operational year for Integration Joint Boards (IJBs). IJBs were established as a result of the Public Bodies (Joint Working) (Scotland) Act 2014. They are partnerships between NHS boards and councils and are responsible for the delivery of adult health and social care, and in some council areas, for other services, such as children's services. The partnerships are the subject of 'integration schemes' which are written agreements about how they will operate, including responsibilities for any budget underspends and overspends.

28. Councils delegated £2.4 billion of social care expenditure to IJB budgets for 2016/17 and NHS boards contributed £5.6 billion. The introduction of IJBs has complicated budget-setting, due to differences in both the approach and timing of budget-setting between councils and NHS boards. The establishment and development of IJBs has been a complex exercise and will take time to mature. Their operation will be the focus of further performance audit work we have planned in 2018.

Councils set larger capital programmes for 2016/17, with plans to increase borrowing

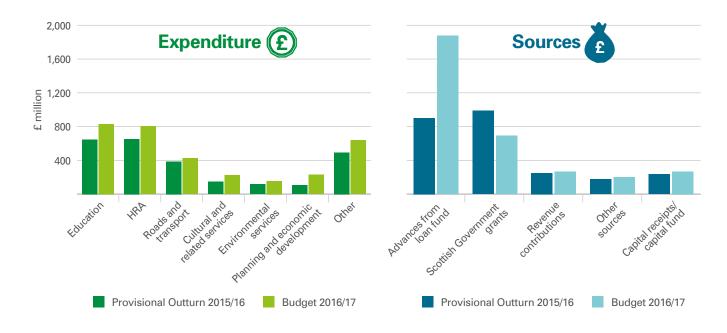

29. In addition to their day-to-day revenue spending on goods and services, councils also incur capital expenditure on the assets that support those services, including schools, houses and equipment such as vehicles. In 2015/16, councils spent about £2.4 billion on capital projects. Budgets for 2016/17 were much higher at over £3.3 billion.

30. Councils finance their capital expenditure from a number of sources, including Scottish Government capital grants and borrowing. Scottish Government grants fell from £834 million in 2015/16 to £591 million in 2016/17, returning to a more usual level following re-profiling in earlier years. **Exhibit 8** shows where councils were planning to spend their capital and how they planned to finance it.

31. Councils are required to consider the affordability of their capital programmes. This includes the cost of any borrowing along with the impact on day-to-day running costs. However, they are free to determine what they consider prudent and with interest rates remaining low in 2016/17, councils assessed increased borrowing to be affordable. The delivery of capital programmes and the affordability of debt are considered further in <u>Part 2</u> and <u>Part 3</u>.

Exhibit 8

Capital programmes and sources of finance, 2015/16 and 2016/17 Councils planned to borrow more in 2016/17 to meet the cost of larger capital programmes.

Notes:

- 1. Excludes regional transport partnerships and Joint Valuation Boards.
- 2. Other budgeted use of capital includes Social Work, Central Services, Trading Services, etc.
- 3. Other sources of capital finance for the General Fund are grants (excluding those received from the Sottish Government).
- 4. For HRA this includes capital from other sources, such as developer contributions.

Part 2

2016/17 financial performance

Key messages

- 1 All councils received an unqualified audit opinion on their 2016/17 accounts but the accounts could more clearly explain their financial performance.
- **2** Councils are showing signs of increasing financial stress with 20 councils drawing on their usable reserves in 2016/17.
- **3** Councils' actual use of reserves was often quite different from that originally planned. The reasons why are not always clear.
- **4** Auditors found that budget-setting needed to be more robust and that financial management could be improved in several councils.
- 5 Levels of net debt increased by £836 million in 2016/17. On average councils spent almost ten per cent of their revenue budgets servicing this debt. Some councils are concerned about the ongoing affordability of servicing their debt as resources decrease.
- 6 Councils that have been proactive in making difficult decisions will be better placed to deal with future financial pressures.

All councils received an unqualified audit opinion on their 2016/17 accounts but the accounts could more clearly explain their financial performance to readers

32. In 2016/17, for the sixth consecutive year, auditors issued a 'true and fair' unqualified audit opinion on the accounts of all 32 councils. An unqualified opinion means auditors have judged that all council's financial records and statements are fairly and appropriately presented, that the council's financial statements are sound and free from material misstatements or errors.

33. For the last three years, councils have had to produce a management commentary to accompany their annual accounts. These commentaries play an important role in public accountability and helping interested parties to better understand the accounts of each council and its financial performance and position. As such, they should include explanations of amounts included in the accounts as well as:

Twenty councils drew on reserves in 2016/17 – actual use of reserves was often quite different from original plans

- a description of the council's strategy and business model
- a review of the council's business
- a review of principal risks and uncertainties facing the council
- an outline of the main trends and factors likely to affect the future development, financial performance and financial position of the council.

34. Each management commentary should concisely present the financial 'story' of a council in an understandable format for a wide audience. Auditors express an opinion on whether the management commentary is consistent with the audited financial statements and is in line with Scottish Government guidance.

35. Management commentaries for 2016/17 vary in how clearly councils and IJBs explain their financial and general performance. Overall there remains scope for improvement. It is the Accounts Commission's view that councillors have an important role in ensuring that the management commentary effectively tells a clear story of financial performance and can be understood and scrutinised by a wide audience. The story at the end of the year should be produced from regular reports provided to councillors throughout the year.

Councils are showing increasing signs of financial stress

Twenty councils drew on their usable reserves in 2016/17

36. In 2016/17, 20 councils drew on their usable revenue and capital reserves. Nineteen councils drew on their revenue reserves in 2016/17, an increase from the eight councils that did so in 2015/16. Council revenue reserves fell by £32 million in 2016/17. (Exhibit 9, page 22). Overall council usable reserves (capital and revenue) fell by about £33 million.

37. The Chartered Institute of Public Finance and Accountancy (CIPFA) has identified the rapid decline of usable reserves as one of the symptoms exhibited by councils under financial stress.⁶ Councils with good financial management demonstrate well-planned and managed use of reserves, in accordance with carefully thought out council policies.

38. In some cases, councils have used reserves to support service delivery. Councils have used reserves to invest in their change programmes, such as meeting the additional costs of staff severance. In 2016/17, councils continued to focus on reducing staffing levels. They reduced their workforces by almost 2,200 staff (almost one per cent of the total workforce), at a cost of £78 million (Exhibit 10, page 23). Councils' policies around voluntary severance and redundancy typically require payback of the costs over two to three years.

39. In future, severance schemes could become less attractive for staff under Scottish Government proposals to limit payments. Conversely, severance packages for staff with retirement dates after April 2020 will become more expensive for councils following changes to pension protection.

?

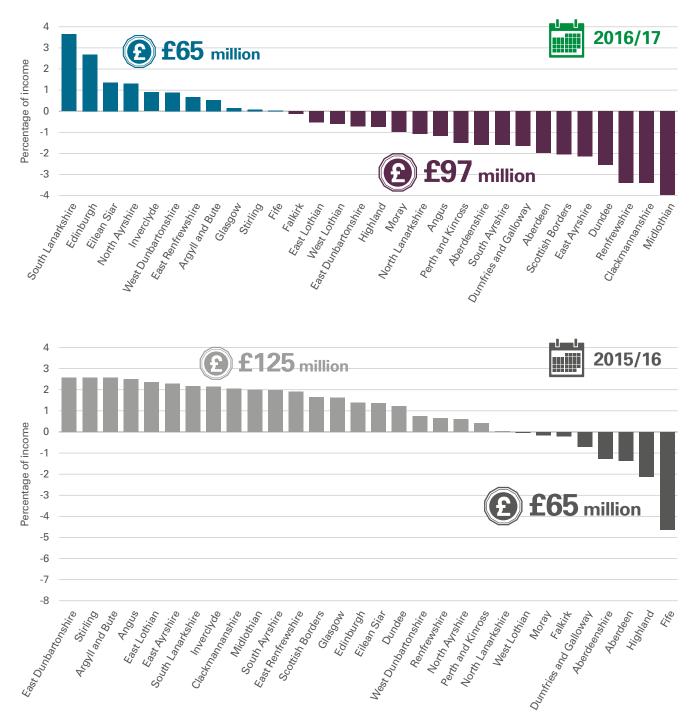

Do management commentaries clearly explain council performance and any changes to plans?

 $(\ref{eq:constraint})$

Are staff severances in line with the council's workforce plan?

Changes in revenue reserves (excluding HRA), 2015/16 and 2016/17

Many more councils drew on revenue reserves in 2016/17 compared with 2015/16.

Notes:

Due to issues with the scale on this exhibit Orkney and Shetland are excluded (paragraph 9).
 In 2016/17, Renfrewshire moved money from revenue to capital reserves.

Source: Audited accounts 2015/16 and 2016/17

Exit packages, 2011/12 to 2016/17

The number and average cost of exit packages both fell in 2016/17.

	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	Total
Total number of packages	4,070	2,407	2,373	1,933	2,660	2,195	15,642
Total cost of packages Cash terms £000	148,750	109,068	92,640	74,935	97,231	78,125	600,750
Total cost of packages Real terms £000	160,868	115,528	96,535	76,955	99,172	78,125	627,184
Average cost per package Real terms £	39,525	47,997	40,681	39,811	37,227	35,592	40,096

Note: Real terms comparisons are based on 2016/17 prices.

Source: Annual accounts 2016/17

Councils use of reserves and service expenditure was often quite different from that originally planned

40. In 2016/17, as many councils used more reserves than they had originally planned as used less (Exhibit 11, page 24). It is not always clear from management commentaries why the actual use of reserves differed from that planned.

41. There can be a range of reasons why councils need to draw more heavily on their reserves than planned. It can be the result of poor budget-setting and/or budgetary control. For example, councils may need to use reserves to balance budgets where savings have not been achieved. The failure to deliver savings might be due to councils underestimating the time required for change programmes to deliver benefits. As budgets come under greater pressure from funding reductions, cost pressures and increasing demand, it is critical that councils understand the risks of using reserves in an unplanned way in relation to future savings and long-term financial sustainability.

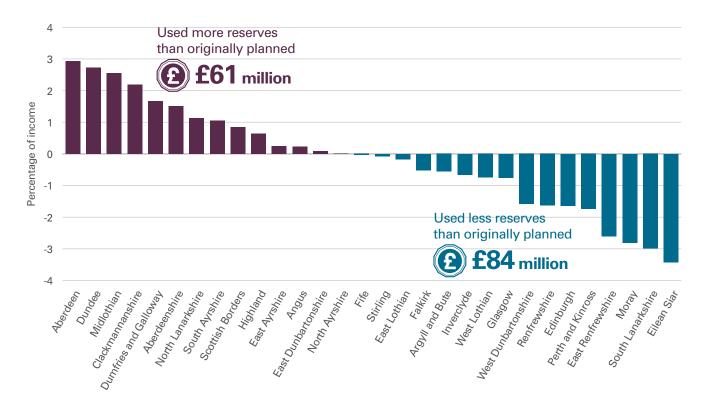

42. Auditors identified that some councils failed to deliver their savings plans in 2016/17. Auditors also highlighted that some budgets did not properly reflect patterns of previous actual expenditure and that councils should consider rebasing their budgets where they consistently underspend. One such area is underspending on financing costs, where slippage on capital programmes leads to less borrowing and lower interest payments. Built-in budget contingencies partly explain budget underspends but councils need to explain this more clearly.

How does the council ensure that council staff have the capacity to delivery transformational change?

What have reserves been used for in recent years? Supporting services and bridging the funding gap or transforming services?

Difference between planned and actual use of General Fund reserves as a proportion of income, 2016/17 The difference between planned and actual use of reserves for some councils was more than two per cent of their total income from general revenue grants and taxation.

Note: Due to issues with the scale on this exhibit Orkney and Shetland are excluded (paragraph 9). Source: Audited accounts 2016/17 and auditor returns

43. Reasons often cited by councils for under and overspends against final budgets are included in **Exhibit 12 (page 25)**.

44. Management commentaries in councils' accounts tend to only identify the main reasons for over or underspends against final budgets and not why plans or budgets changed during the year. This represents an area of weakness in financial reporting that councils need to address to support more effective financial scrutiny. If significant changes are made to original budgets the reasons should be clearly reported to councillors throughout the year, as well as featuring in the management commentary accompanying the accounts at the end of the year.

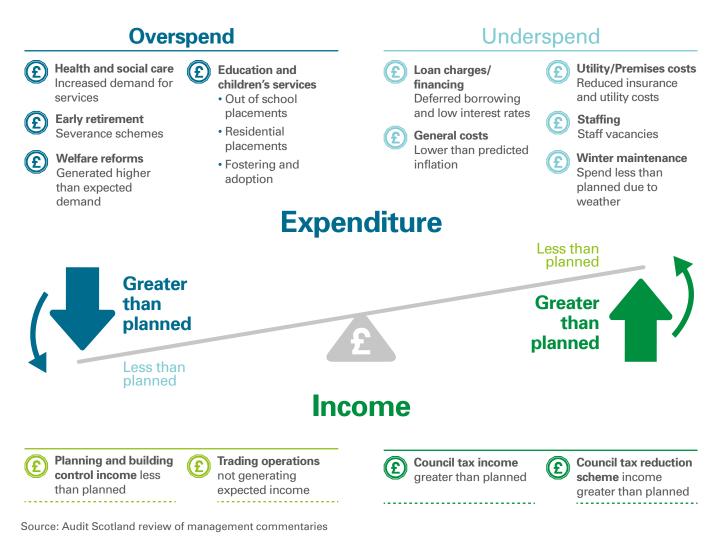

Do budget monitoring reports clearly explain performance against plans and any changes to plans?

Commonly reported reasons for budget variances, 2016/17

Demand pressures primarily drove overspends - with financing costs a key driver of underspends.

Levels of usable reserves vary widely and it is important that councils have clear reserves policies

45. The levels of usable reserves held by councils vary widely, as do policies on the minimum level of reserves they should hold. The General Fund reserve is the main revenue reserve available to support general council services. By the end of 2016/17, General Fund reserves, excluding Orkney and Shetland, totaled £1.1 billion. However, councils hold a number of other reserves and total usable reserves held amounted to £1.9 billion (excluding Orkney and Shetland, paragraph 9), (Exhibit 13, page 26).

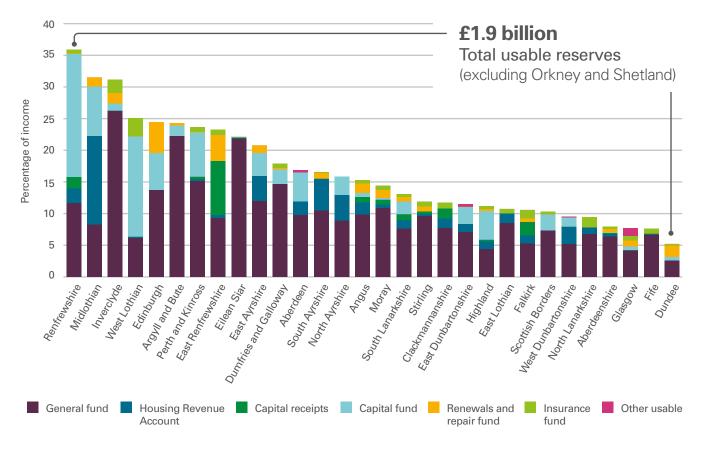

46. There is no prescribed minimal level of usable reserves. Typically councils' policies are to have a minimum uncommitted General Fund balance of between two and four per cent. Councils need to be clear about the reasons for the levels of reserves they hold to mitigate risks and support medium-term financial plans.

?

What is your councils reserves policy?

Council usable reserves at 31 March 2017

There are wide variations in the level of reserves as a proportion of income from general revenue grant, taxation and housing rents.

Note: Orkney and Shetland councils have reserves far in excess of those held by other councils and are excluded. We explain why this is the case in paragraph 9.

Source: Annual accounts 2016/17

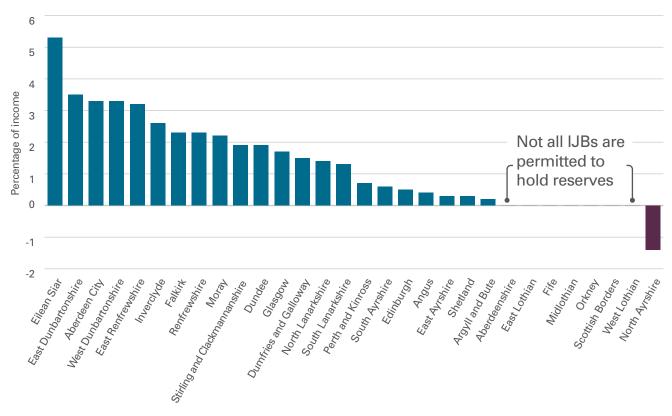

47. At the end of their first full operational year, IJBs held usable reserves of £96 million, representing about 1.2 per cent of their total income of £8 billion in 2016/17. Reserves vary across IJBs. Not all integration schemes permit IJBs to hold reserves. Only North Ayrshire Council recorded an overspend. This was largely due to spending on social care services (Exhibit 14, page 27).

48. It is not clear from the accounts of IJBs to what extent reserves have been built up in a planned way, have arisen as a result of underspends on IJB activities or have been earmarked for transformation activity. There is a lot of pressure on the budgets of IJBs and reserves at the end of 2016/17 are not forecast to continue in future years. Further analysis of IJB accounts will help inform specific audit work on IJBs being carried out in 2018.

What are the different types of reserves your council holds? Do you know what these can be spent on?

IJB usable reserves as a proportion of 2016/17 income Reserves vary across IJBs.

Note: Stirling Council and Clackmannanshire Council are members of the same IJB. Source: Annual accounts 2016/17

Levels of debt have increased and some councils are concerned about future affordability

49. Following two years of reducing debt, councils' net debt increased in 2016/17 from £13.7 billion to £14.5 billion (excluding Orkney and Shetland). The increase in borrowing was lower than that originally planned when capital programmes were approved. This was primarily due to slippage in delivering capital programmes.

50. As with reserves, levels of debt vary widely across councils (Exhibit 15, page 28). 2016/17 saw an increase in the HRA borrowing requirement of about £140 million, with the 26 councils who provide social housing being actively involved in new council housing development. Collectively they plan to deliver about 13,000 homes by 2020/21. The cost of servicing additional HRA debt will be met from rental income.

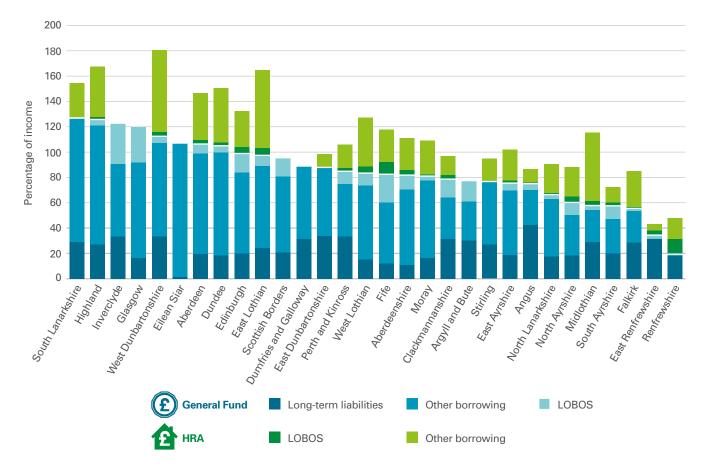

51. The ongoing costs associated with debt reduces the amount councils have available for day-to-day service expenditure. It is therefore important that assets are effectively supporting service delivery and strategic priorities. Higher levels of debt often result in higher costs for councils but actual interest and repayment costs will depend on the type of debt councils hold and the period over which it has to be repaid.

?

What are the levels of reserves held by your council's IJB? Are these in line with the IJB's reserve policy?

Council net external debt at 31 March 2017

Levels of debt held vary across councils as a proportion of income from general revenue grant, taxation and housing rents.

Note: Council debt has been allocated to General Fund and HRA in proportion to capital financing requirements. Source: Annual accounts 2016/17

52. Despite debt increasing, the ongoing cost of servicing it, through the interest and repayment costs, reduced slightly in 2016/17. This in part reflects the lower interest rates available on new borrowing. It also reflects councils choosing to make lower voluntary debt repayments. On average, councils spent almost ten per cent of their income on interest and debt repayment (Exhibit 16, page 29).

53. Councils are required by regulation to consider the revenue impact of borrowing, ie its ongoing affordability. A large part of council debt has fixed interest rates which gives councils certainty about costs. However, this type of debt makes councils' assessment of longer term affordability more complex, requiring more detailed assumptions of future inflation and interest rates:

What share of

your council's budget is taken up with interest payments and debt repayment?

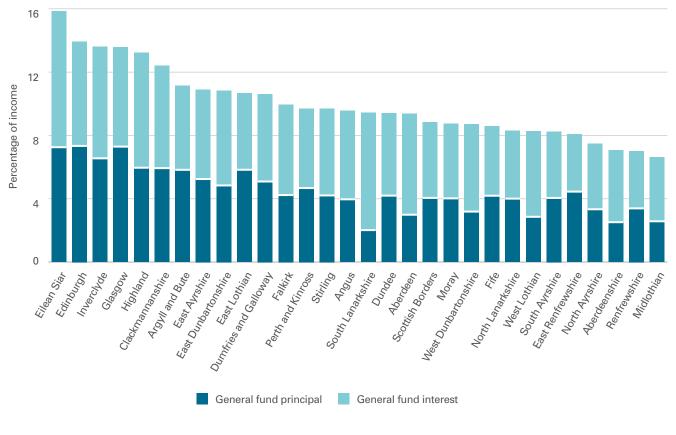

- 'Lender option borrower option' loans (LOBOs) include options for the lender to increase interest rates. LOBOs account for about 11 per cent of council debt.
- PPP/PFI and indexed linked bonds include charges that increase with inflation. Projects financed using the Scottish Government's Non-Profit Distributing (NPD) programme (which replaced the previous long standing PPP/PFI programmes) also include an element of indexation but typically at lower levels. The value for money of newer NPD projects will be examined in detail in a joint report by the Auditor General and the Accounts Commission in 2019/20.

What proportion of your council's debt is linked to inflation (ie, subject to indexation)? What does that mean for longer term affordability?

Exhibit 16

Revenue cost of General Fund borrowing, 2016/17

Costs associated with debt vary across councils as a proportion of income from general revenue grants and taxation.

Source: Annual accounts 2016/17

54. Levels of debt and associated costs are set to rise in future. This is because councils have invested usable reserves in their capital programmes, something referred to as 'internal borrowing'. At the end of 2016/17 the amount of 'internal borrowing' was about £0.5 billion. Internal borrowing is usual treasury management practice for councils during periods when they would make a lower return from investing their usable reserves than it would cost them to borrow money. However, as councils increasingly rely on reserves to fund services they will need to replace internal borrowing with external borrowing, increasing their costs.

Councils continue to report significant slippage in delivering capital programmes

55. Councils spent £2.8 billion on capital projects in 2016/17, 84 per cent of their planned expenditure of £3.3 billion. Twenty-four out of 32 councils underspent against their capital budgets in both 2015/16 and 2016/17.

56. The reasons for slippage in delivering capital programmes are unclear. Management commentaries for the councils recording the largest slippage give reasons such as changes to project start dates, and one council identified weaknesses in the forward planning process. However, the consistent levels of capital slippage across the country suggest that councils are setting unrealistic budgets.

57. In our 2013 report *Major capital investments in councils* (*) we noted 'that for most major projects completed within the previous three years, councils' early estimates of the expected costs and timetable were inaccurate, and recommended that better information was made publicly available'.⁷ Our **follow-up report** (*) in 2016 suggested councils had made limited progress on this recommendation.⁸ Data for 2016/17 shows that councils still need to improve in this area.

Net pension liabilities increased for councils despite large increases in pension fund assets

58. Overall, net pension liabilities on council balance sheets were approximately £11.5 billion at the end of 2016/17, an increase of 51 per cent on the previous year. This increase was mainly due to a change in actuarial assumptions used to value future liabilities. It was a good year for Local Government Pension Scheme (LGPS) investments, which increased by almost 22 per cent.

59. Not all council pension liabilities are the responsibility of the LGPS fund. Where councils have awarded added-year pension benefits as part of severance arrangements, for both teachers and other staff, they have to meet the ongoing cost of pensions themselves. This also helps explain why the increase in council liabilities outstripped investment returns. These liabilities are not matched with any pension fund assets.

60. Public service pension scheme benefits have been reduced on a number of occasions to make the schemes more affordable. However, pension contributions have been a significant cost pressure for councils in recent years. The need for any increase in employer contributions will be determined through the results of the 2017 triennial funding valuation. The LGPS 2015 includes a cost-sharing mechanism that will limit any future increase for employers. A supplement on the **Local Government Pension Scheme** (1) is available on our website.

Has non delivery of the capital programme (ie, slippage) been significant at your council in recent years? Why?

?

Do you know the implications of your council's pension liabilities of staff retiring early?

Provisions and contingent liabilities can be difficult to quantify and should be kept under review

61. Where councils have a known obligation and they can quantify the cost, they are required to make a provision in their accounts. Councils held provisions of £132 million at the end of 2016/17 covering areas such as equal pay compensation claims, teachers' maternity pay, holiday pay, insurance claims and landfill site reinstatement.⁹

62. Councils are also required to disclose potential liabilities that are still contingent on future events or which cannot be quantified reliably. Fourteen councils are disclosing contingent liabilities for equal pay claims that they are defending. Other contingent liabilities identified by a number of councils include those relating to holiday pay claims and potential claims arising as a result of changes to the legislation around historic child abuse.

Councils that have been proactive in making difficult decisions will be better placed to deal with future financial pressures

63. Councils have had to make difficult decisions in recent years in the light of falling resources and increasing demand for services. Councils that have a track record of effective leadership, self-evaluation, robustly addressing the financial challenges, and are implementing effective medium to long-term strategies and plans, will be in a better place than those that have avoided difficult decisions or not applied sufficient pace to making changes. That is not to say that the challenges faced by councils have necessarily been uniform. Differences in the resources available to them, the demand for services and the costs councils face as a result of their size and remoteness can also impact on their financial position (Exhibit 17, page 32).

64. The effectiveness of council leadership will be tested further in the years ahead given the increasing demand for services and likely funding scenarios that the public sector faces. Decisions made as part of budget-setting for 2017/18 together with the financial outlook are considered in **Part 1 (page 10)**.

Main determinants of a council's financial position There are number of factors that affect a councils financial position.

Source: Audit Scotland

Part 3 Financial outlook

Key messages

- **1** The financial outlook for councils remains challenging with further realterms reductions in funding and a range of cost and demand pressures on budgets.
- 2 In total councils approved £317 million of savings and the use of £105 million of reserves when setting budgets for 2017/18.
- **3** Some councils relying heavily on the use of reserves to fund services will need to take remedial action or they will run out of General Fund reserves within two to three years.
- **4** Robust medium-term financial strategies and savings plans are increasingly critical to the financial sustainability of councils.
- **5** Strong leadership is increasingly important and it is essential that councillors work effectively with officers, their partners and other stakeholders to identify and deliver necessary savings. It is important that councils engage with local communities when planning and delivering services and identifying savings.

Council funding continues to fall as cost pressures increase

Scottish Government funding fell again in real terms for 2017/1865. Councils received a further real-terms reduction of 2.3 per cent in their funding from the Scottish Government for 2017/18, reflecting the overall trend and direction of travel (Exhibit 18, page 34).

66. Councils' funding continues to include money targeted at delivering national policy commitments that restricts the overall flexibility in their budget setting. In 2017/18, this included £120 million provided for the school attainment fund and £88 million for maintaining pupil teacher ratios and for the teachers' induction scheme.

the financial outlook for councils remains challenging

?

How is your council preparing for any further real terms reduction in Scottish Government funding?

Scottish Government revenue funding to councils

Reductions in Scottish Government funding were only partly offset by the end of the council tax freeze

67. The council tax freeze ended in 2017/18. Twenty-four councils chose to increase council tax, with 21 approving the maximum three per cent permitted. Fourteen councils chose to remove the ten per cent discount on second homes, another option for increasing revenue. For some councils, additional income from second homes is not significant.

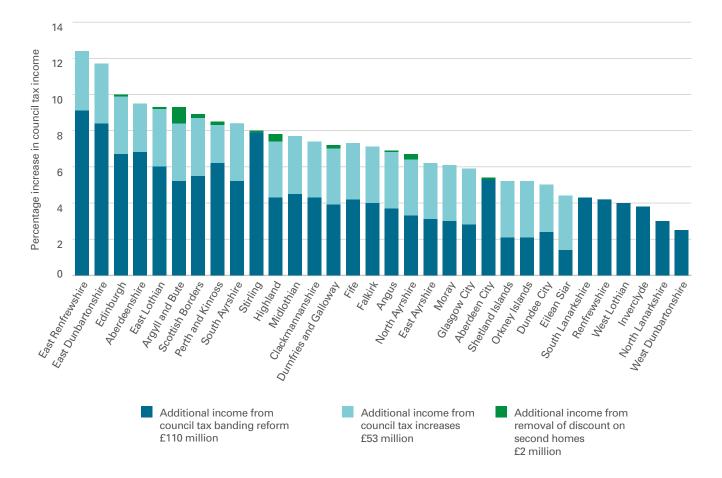

68. There were reforms to council tax banding multipliers for 2017/18 that resulted in a further £110 million of council tax due across the 32 councils. This will be available in full as additional income to be spent in the local authority area it is collected. Exhibit 19 (page 35) shows the additional income councils are due from council tax in 2017/18.

If your council plans to raise council tax, do you know how much it will raise? How will you communicate and explain the reasons for the rise to constituents?

Increase in council tax by council, 2017/18

Council tax in 2017/18 has risen as a result of reforms and the end of the council tax freeze.

Note: Council tax due before any discounts are applied.

Delivering savings is critical for councils' financial sustainability

Councils approved savings of £317 million and the use of £105 million of reserves when setting budgets for 2017/18

69. When setting budgets for 2017/18, councils had to take into account a number of new cost pressures, including:

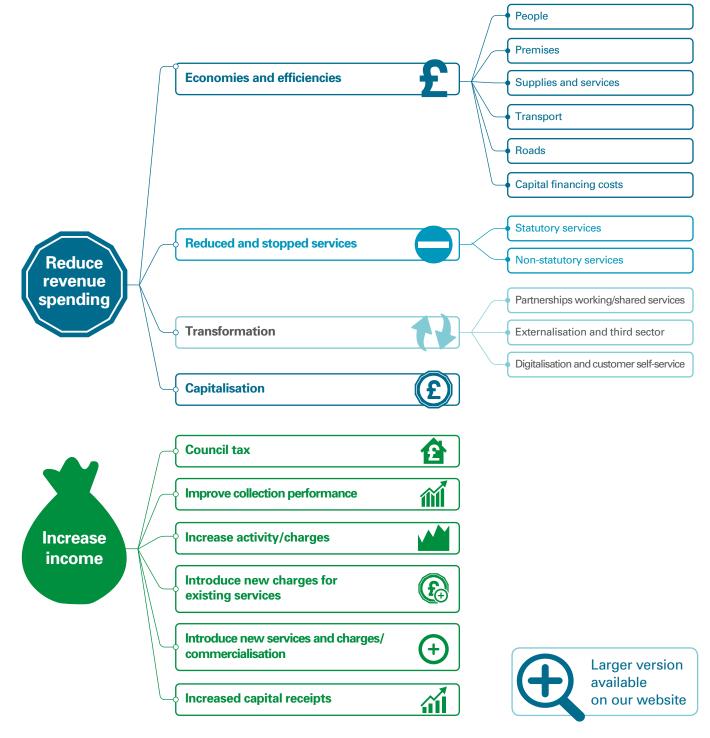

- the introduction of the apprenticeship levy of 0.5 per cent of pay bills above £3 million
- the requirement to meet the first full year effect of the living wage
- meeting HMRC guidelines on paying the national minimum wage for care workers when sleeping over
- non-domestic rates (NDR) revaluation.

70. In balancing funding reductions and cost pressures, councils' 2017/18 budgets included approved savings of £317 million and the use of £105 million of General Fund reserves. Common measures taken by councils to close their funding gaps in 2017/18 are set out in **Exhibit 20**. Not all initiatives to reduce expenditure are savings, some simply deferred expenditure by moving it from revenue to capital.

Does your council have a savings plan? What are the options to close future funding gaps?

Exhibit 20

Measures taken by councils to close their funding gaps in 2017/18

Source: Audit Scotland, analysis of budget setting reports 2017/18

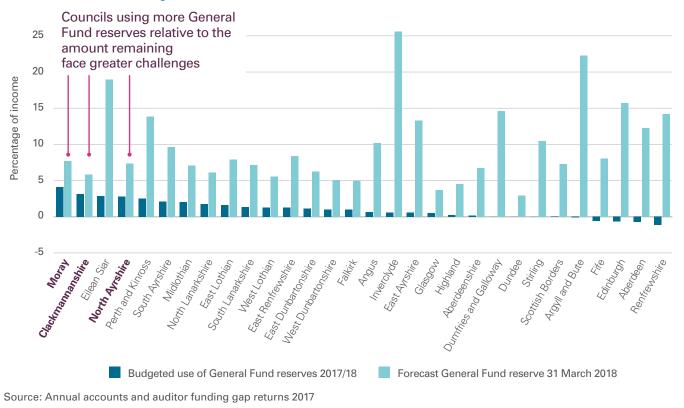

Some councils will need to take remedial action or they will run out of General Fund reserves within two to three years

71. Some councils' plans for 2017/18 have relied more heavily than others on using reserves to bridge funding gaps. A number of these councils could have relatively low levels of General Fund reserves remaining at the end of the year (Exhibit 21).

What is the likely use of reserves for 2017/18? How does this compare to forecast funding gaps?

Exhibit 21

Budgeted use and remaining levels of General Fund reserves, 2017/18 Two-thirds of councils budgeted to use reserves in 2017/18.

72. Councils using reserves to support services in 2017/18 will be faced with having to identify larger savings in 2018/19 or again using reserves. However, using General Fund reserves at the current rate is not an option for some councils – Clackmannanshire, Moray and North Ayrshire councils would run out of General Fund reserves within two to three years if they continued to use them at the level planned for 2017/18.

73. Forecasts made by councils when setting their budgets for 2017/18 indicated the overall local government funding gap would increase to about £350 million in 2018/19 and to about £650 million in 2019/20.¹⁰

74. Since setting 2017/18 budgets, councils will have changed their plans for the current year and updated their forecast funding gaps for 2018/19 and beyond. A number of factors have created further potential pressures and uncertainties, for example:

• ongoing demand pressures from people living longer and population growth

?

What is your council's financial position? What particular challenges does it face?

• ongoing cost pressures from general inflation

- increased staffing costs from staff moving up pay scales, proposals to end the public sector pay cap and potential increases in employers' pension contributions following the LGPS triennial funding valuation
- income and rent collection potentially becoming more difficult and costly as a result of increased charges and the continued roll-out of Universal Credit
- interest rate rises
- the potential impact from changes to NDR (as outlined in Exhibit 22)
- potential impacts from the process of withdrawal from the European Union.

Barclay review of non-domestic rates (NDR) 2017 The Barclay review recommended removing NDR relief for councils' ALEOs.

Councils collect NDR and pay this into a central pool, which is redistributed back to councils by the Scottish Government.

The Government established the Barclay review group in 2016 to make recommendations that would 'enhance and reform' NDR in Scotland. The review aimed to:

- better support business growth and long-term investment
- reflect changing marketplaces
- retain the same level of income (recommendations would be 'revenue neutral').

The review concluded that some form of NDR was still appropriate. The recommendations in the report focused on measures to support economic growth, improve how the system is administered and increase fairness in the system.

In seeking increased fairness, the review recommended that councils' NDR relief for ALEOs should be removed. The review recommended that legislation be changed to remove relief for ALEOs and, in the interim, that the Scottish Government should adjust its funding to recoup an estimated £45 million of ALEO funding from councils. The review recommended this is applied from April 2018.

The Scottish Government has accepted many of the points of the Barclay review, but the recommendation around ALEOs is still being considered. The Accounts Commission will examine ALEOs in more detail in a report to be published in May 2018.

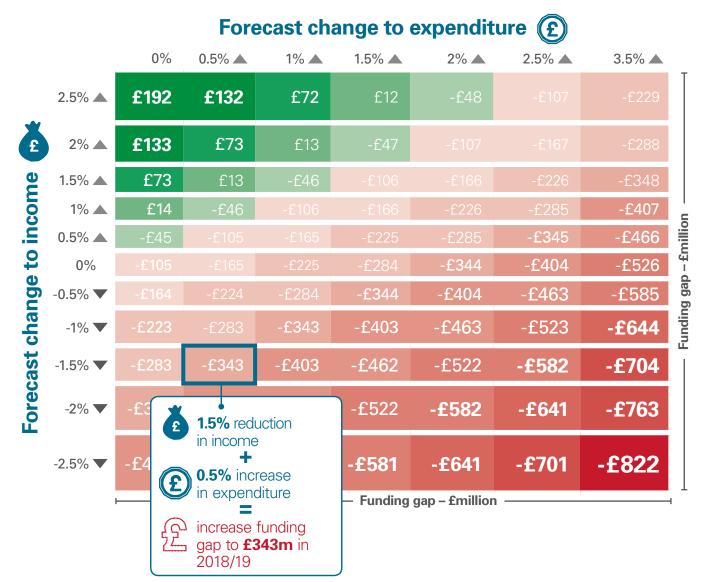

Source: Report of the Barclay Review of Non-Domestic Rates, August 2017

75. Uncertainty means that councils need to prepare for a range of possible scenarios both in terms of costs and funding and different savings options available to them. For example, if councils were to apply a further three per cent increase in council tax in 2018/19 this would raise about £68 million in additional income. In contrast, applying a one per cent increase to staff salaries would cost about £70 million. Even a small proportional increase above this as a result of lifting the public sector pay cap would have further significant costs. Exhibit 23 shows the overall impact of various income and expenditure scenarios on the size of the total funding gap across councils for 2018/19.

Exhibit 23

Council funding gaps scenarios, 2018/19

In the absence of further savings, councils would use around £343 million in 2018/19 if expenditure were to increase by 0.5 per cent and income decrease by 1.5 per cent.

Source: Audit Scotland funding gap returns

Savings plans should be scrutinised and the impact assessed

76. CIPFA's report on building financial resilience and managing financial stress in local authorities highlighted the importance of planning for savings over at least a three-year period, and the need for robust challenging of plans as part of the scrutiny process.¹¹ In previous reports, the Accounts Commission has highlighted the need for councils to adopt this practice.

77. Regular updates on forecasts of funding gaps as savings are approved enable councillors to better understand the impact of the savings decisions they are making. However, currently only about half of councils routinely update their three-year financial forecasts as part of their annual budget-setting process.

78. To achieve effective financial management, long-term planning is essential. It is important that councils continue to consider likely funding scenarios and what this means for council services in the longer term as well as the medium term. For councils with lower levels of reserves, financial plans need to be increasingly detailed and robust. This will mean more work for officers and members in clearly identifying savings and assuring themselves that they have the capacity to deliver their intended plans.

79. It is important that savings plans are clear and that the impact on services is understood. Savings should be realistic and achievable. Where funding reductions are passed on to other bodies, such as ALEOs and IJBs, by reducing council contributions to them, it is equally important to assess the impact on service users and communities. Risks associated with income generation initiatives or arising from cuts to services should be explicit and considered by councillors as part of their scrutiny role.

80. Medium-term financial strategies should ensure that both revenue and capital budgets are aligned with corporate plans and that the revenue impact of capital expenditure is understood. Savings from service redesign and other initiatives need to be monitored effectively to ensure that plans and strategies continue to be relevant and accurate.

Longer-term affordability of capital programmes should be kept under review

81. Council capital programmes for 2017/18 are broadly in line with those for 2016/17, with General Fund budgets at about £2.6 billion and HRA budgets at about £800 million.

82. Councils are required to consider the affordability of their capital programmes and any new borrowing before approving them each year. Assessments will include consideration of:

- existing debt levels and servicing costs and how these may increase
- capital reserves available
- impact on running costs, eg reduced overall running costs arising from invest to save initiatives
- additional income streams that can be used to service borrowing

Does your council have a medium term financial strategy aligned with corporate objectives?

How does annual budget setting link to medium term financial planning?

What impact will savings have on the delivery of services? What are the potential risks?

How clearly does the council's capital programme link with the asset management plan and corporate objectives? additional funding available, eg Scottish Government funding for NPD projects, additional capital grants in respect of the City Deals (a recent initiative backed by UK and Scottish governments).

83. As revenue resources reduce, and the cost of some debt increases, it is becoming increasingly important for councils to keep the longer-term affordability of their borrowing under review. The need for robust business cases setting out how new capital expenditure will support corporate objectives is key. Capital finance and treasury management are areas covered by regulation and where councils also take professional advice. A key treasury management issue facing councils is the risk around interest rate rises, which makes decisions about the timing of borrowing important. If councils borrow in advance of their need they will incur additional interest costs in the short term. However, if the interest rates go up before councils borrow then they will be faced with paying higher interest rates for the term of any new borrowing. Recently a number of councils have been turning to short-term borrowing to keep their interest costs down but this strategy is not without risk and it is important that councils are clear about these in their plans and reports.

Effective leadership is increasingly important in maintaining financial sustainability

84. The Accounts Commission recognises that the financial challenges facing councils will inevitably mean councillors need to make difficult choices and take decisions that may not sit neatly with the manifestos they were elected on in May 2017. This requires effective political leadership and effective communications. It is essential that councillors work effectively with officers, council partners and other stakeholders to identify and deliver necessary savings. It is important that councils engage with local communities when planning and delivering services and identifying savings. We published a report **Roles and working relationships in councils – Are you still getting it right?** (November 2016) to support councillors in their difficult and challenging role.

Addressing the underlying demand for services through transformation is key to longer-term sustainability

85. Given the scale of the challenge facing councils, we are of the view that the sustainability of some services will be increasingly dependent on the ability of councils and their partners to address the underlying demand for them. With health and social care integration, for example, much depends on the extent to which resources can be switched from treatment to prevention. Council transformation programmes need to identify and deliver changes of this nature over the longer term. It is important that councils give careful consideration to their capacity to support such change when making savings as part of budget setting.

86. The extent to which council transformation plans are delivering real changes to the way services are being delivered will be explored further in the second of our local government overview reports planned for publication in April 2018.

?

What additional training would you like to receive to develop your knowledge and skills in financial scrutiny?

?

What measures in the council's corporate and transformational plans are aimed at addressing the underlying demand for services?

Endnotes

- We published the first of three planned audits on health and social care integration in 2015: <u>Health and social care</u> <u>integration</u> (1), December 2015. Our next national audit in this area will be carried out in 2018/19. Annual audit plans and reports for each IJB are also published on Audit Scotland's website .

Internal Audit: Overdue Recommendations and Late Management Responses: as at 26 October 2017

Item number	7.5
Report number Executive/routine Wards Council Commitment	S

Executive summary

This report sets out all overdue Internal Audit recommendations across the Council providing further status updates and likely implementation dates where they have been provided by Service Areas (Appendix 1).

There were 65 open Internal Audit recommendations across Service Areas as at 26 October 2017. Of these 31 (48%) are overdue. This remains the same as the position reported to CLT on 4 October 2017 (as at 22ⁿSeptember). During the period 6 overdue recommendations were closed and a further 6 are now reporting as overdue.

This report also highlights audit reports that have been issued in draft where final management responses have not been received within our two-week service standard. There were currently 2 draft reports where management responses were not received within the two-week requirement, and 1 report that has been delayed due to changes in the Internal Audit team. Further details are provided at 3.14

Report

Internal Audit: Overdue Recommendations and Late Management Recommendations: as at 26 October 2017

1. **Recommendations**

- 1.1 The Governance Risk and Best Value (GRBV) Committee is requested to:
 - 1.1.1 Note the status of the overdue Internal Audit recommendations as at 26th October 2017;
 - 1.1.2 Note that there are currently 2 reports issued in draft where management responses have not been received within our two-week service standard, and 1 report that has been delayed due to changes in the Internal Audit team; and
 - 1.1.3 Note the proposals approved by the Corporate Leadership Team (CLT) included at section 3.2 to address challenges associated with timing of audit responses received and quality of evidence provided to support closure of recommendations.

2. Background

- 2.1 The GRBV Committee and CLT have both expressed concerns about the number of overdue Internal Audit recommendations. Currently, the status of overdue recommendations is reported monthly to CLT and quarterly to GRBV.
- 2.2 It is anticipated that the greater visibility that this monthly reporting provides will result in more Internal Audit recommendations being closed off in a timely manner.
- 2.3 At the CLT meeting on 10 July 2017, revised proposals for monitoring and reporting on overdue Internal Audit recommendations were approved. This paper provides an update on overdue recommendations in line with the revised approach.
- 2.4 The Internal Audit definition of an overdue recommendation is any recommendation where all agreed actions have not been implemented by the final date agreed and recorded in Internal Audit reports.

3. Main report

3.1 The revised Internal Audit Process to obtain updates from Service Areas on all open recommendations by the 15th of each month was implemented in September

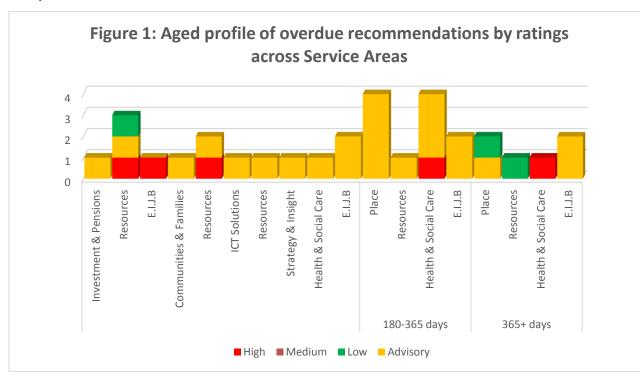

2017. This has resulted in more proactive engagement on both open and overdue recommendations Service Areas, however, a number of updates were received late which delayed our reporting. For future reports, the cut off previously agreed with CLT (15th of the month or nearest Friday) will be strictly applied.

- 3.2 Quality of evidence provided to support validation remains a challenge. Agreed actions are often confirmed as completed by Senior Management whilst subsequent Audit validation confirms that controls have not been fully and effectively implemented. This results in Audit providing further advice and often reperforming validation work to support final closure. The following actions are proposed to address this challenge:
 - Each Service Area to nominate a representative who will be responsible for coordination of all audit updates and responses (including provision of evidence).
 - IA to facilitate a workshop with all representatives explain the validation process and expectations in relation to quality of evidence to support closure of recommendations.
 - Wider Leadership Team (WLT) slot has been requested to focus on validation of Audit recommendations with WLT members. The Communications Team has advised that the WLT meeting structure and content is being reviewed and this may not be the most appropriate forum. CLT decision is required on whether to progress.
 - The audit guidance that was developed and distributed in September is being discussed with Service Areas when finalising audit reports and issued with each final report.
- 3.3 There were 65 open Internal Audit recommendations across Service Areas within the Council as at 26th October 2017. Of these 31 (48%) are overdue (5 High; 23 Medium; and 3 Low). This remains the same as the position reported to CLT on 4 October 2017 (as at 22 September). During the period 6 overdue recommendations were closed and a further 6 are now reporting as overdue.
- 3.4 Six Medium rated overdue recommendations have been closed across the following Service Areas:
 - Strategy and Insight (3 Medium)
 - Resources (1 Medium)
 - Place (1 Medium)
 - Integration Joint Board (1 Medium)
- 3.5 Six recommendations became overdue as at 26 October 2017. These are:
 - Strategy and Insight (1) 1 High (HSC1604ISS.2 IJB Data Integration and Sharing)
 - Resources (3) 1 High (RES1704ISS.5 Starters); 1 Medium (RES1608ISS.2 Risk Management); 1 Low (RES1608ISS.4 Risk Management)

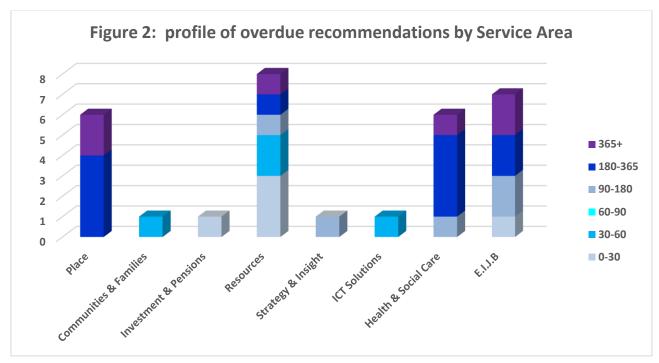

- Investment and Pensions (1) 1 Medium (RES1614ISS.2 Cyber Security)
- Health and Social Care (1) 1 Medium (SW1601ISS.4 Social Work preemployment verification)

Progress updates and revised implementation dates have been provided for 5 of these recommendations. The Chief Executive LPF is committed to ensuring that an update is provided on the overdue Investments and Pensions recommendation for next month.

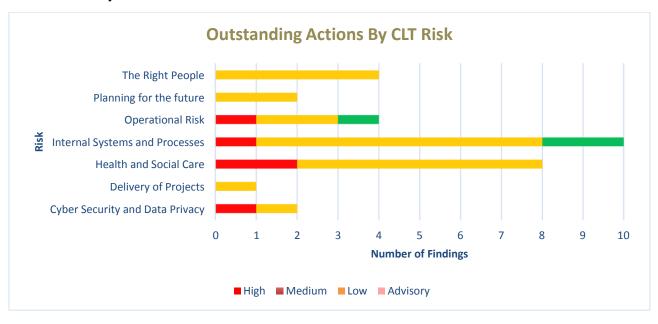

- 3.6 Eleven recommendations are due for completion by 31st October 2017. These are:
 - Integration Joint Board (1) 1 High (HSC1604ISS.1 IJB Data Integration and Sharing)
 - Place (1) 1 High (PR1701ISS.1 Ross Band Stand)
 - Resources (1) 1 High (RES1603ISS.3 Leavers);
 - Safer and Stronger (2) 2 High (SSC1701ISS2 and ISS4 Homelessness)
 - Council Wide (6) 6 Low actions across all Service Areas (RES1605ISS.1 Service Level Agreements). Note that Health and Social Care action has been completed.
- 3.7 No recommendation ratings have been downgraded since the last CLT report.
- 3.8 Figure 1 illustrates the ageing profile of all overdue recommendations by rating across Service Areas. Of the 31 overdue items, 17 are more than 180 days overdue (2 High; 13 Medium; and 2 Low) in comparison to 12 last month, with 6 of the 12 (1 High, 3 Medium and 2 Low) more than 365 days overdue in comparison to 5 last month.

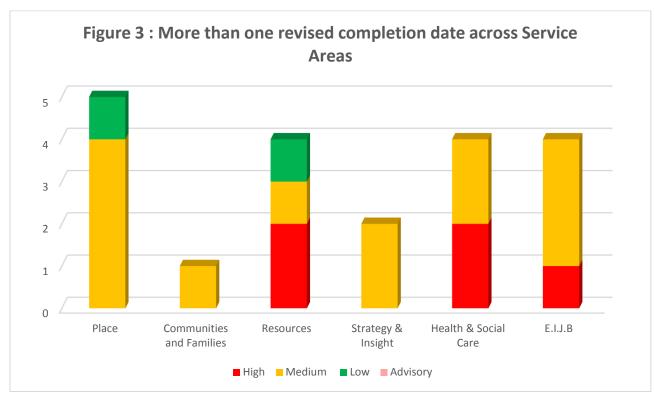

3.9 Figure 2 highlights the ageing profile of overdue Internal Audit recommendations for each Service Area.

3.10 Figure 3 correlates the current top Corporate Leadership Team risks with the relevant overdue Internal Audit recommendations. The Council's primary risk exposures as a result of overdue recommendations are Health and Social Care and Internal Systems and Processes.

3.11 Figure 3 illustrates that there are 20 overdue recommendations where completion dates have been revised more than once since the implementation dates agreed with Service Areas when finalising audit reports. This is an increase of 5 in comparison to last month. This increase is driven by Place (1); Resources (2) and Strategy and Insight (1).

3.12 There were 4 recommendations across Lothian Pension Fund (1) and Resources(3) where closure was originally dependent on implementation of the new Business World System.

These have now been closed and validated based on implementation of alternative (manual) controls.

- 3.13 There are 4 open (not overdue) recommendations where agreed dates for specific actions have been missed. These are:
 - Integration Joint Board Data Integration and Sharing (HSC1604ISS.1 High). Initial action date 30 August, the full recommendation is due for closure by 31 October.
 - Strategy and Insight Complaints Process (CF1619ISS.1 Medium). Initial action date was 31 August. This action date has been revised to 31 July 2018, the full recommendation is due for closure by 31 March 2019.
 - Strategy and Insight ICO Follow Up (RES1606ISS.2 Medium). Initial action date was 30 May. This action date has now been revised to 31 August, with the full recommendation due for closure by 31 March 2018.

- Safer and Stronger Communities Homelessness (SSC1701ISS.4 Medium). Initial action date was 30th September 2017, the full recommendation is due for closure by 31st October.
- 3.14 Internal Audit has categorised all overdue Internal Audit actions by Directorate showing the latest status updates where received. The detailed results of this categorisation are set out in Appendix 1.
- 3.15 There were 3 Internal Audit reports issued in draft where management responses have not been received within our two-week service standard. These are:
 - Resources Lothian Pension Fund Information Governance report has now been issued in final.
 - Resources Property and Asset Management Strategy impacted by annual leave during the October week for schools. Management responses have now been received and we are aiming to finalise by Friday 3 November.
 - Resources Customer Transformation Programme. Review was subject to handover from the Principal Audit Manager who left in August to the Chief Internal Auditor. Further work was required and has now been completed with a report out in draft for management comment. Audit should have been completed by end August 2017.

4. Measures of success

4.1 An increase in the implementation and closure of Internal Audit recommendations within their initial estimated closure date.

5. Financial impact

5.1 Not Applicable.

6. Risk, policy, compliance and governance impact

6.1 If Internal Audit recommendations are not implemented, the Council will be exposed to the risks set out in the relevant detailed Internal Audit reports. Internal Audit recommendations are raised as a result of control gaps or deficiencies identified during reviews therefore overdue items inherently impact upon effective risk management, compliance, and governance.

7. Equalities impact

7.1 Not Applicable.

8. Sustainability impact

8.1 Not Applicable.

9. Consultation and engagement

9.1 Not applicable.

10. Background reading/external references

10.1 Not Applicable.

Lesley Newdall

Chief Internal Auditor

<u>EJJB and Health</u>	<u>k social Care</u> HSC1503	Personalisation SDS - Option 3	E.I.J.8. 155.3	Medium	Sottish Government collects data on SOS users through annual and quarterly statistical surveys of local authorities. The answers to survey questions are based on data held in Swift. The accuracy and completeness of data input is therefore essential. There have been several changes in the assessment process and data captured in the past year such as: Eligibility for services (on which data is required by Soctish Government) has been recorded since. January 2015; ' Initial steps to support ' assessments were in use for new contacts between August 2014 and May 2015 but are now used only for crisis care; A new personal support plan was introduced in October 2015. Where a new personal support plan is used, ' Option 4 ' is now recorded as a combination of Option s. 1, 2 and 3. There was no cut-off date after which all assessments would be carried out using new templates. The full process of assessment and arranging care can be lengthy. This means that there are several different ways of recording assessments running concurrently, with different data captured in each one. It is therefore difficult to extract complete and accur ate data for management information and for reporting to Scottish Government.		Further changes to the assessment process are expected over the next year as a result of the Transformation Programme and integration with the NHS. A change management process should be in place to minimise the number of process and recording changes through the year, implement clear cut-off dates, and to ensure changes are communicated to staff clearly. In the meantime, Research and Information should be aware of the likely inconsistencies in data recorded and ensure th at reports are throughly reviewed before issue.	A change management process will be established and overseen by the SDS Infrastructure Steering Group. The inconsistencies in data recording are as a result of numerous changes to processes and trying to reduce the recording burden of implementing these on fortiline practitioners. The Research and Information Team are aware of all changes to recording practice and take these into account. A summary of all changes and the impact on data extraction has also been produced.	Overdue	30/06/16	31/12/17	31/12/17 30/06/17
HSC1503 ISS.6	HSC1503	Personalisation SDS - Option 3	E.I.J.B. ISS.6	Medium	Since October 2015, all personal care plans must be signed off by a senior. This is a measure introduced to improve the quality of personal support plans. We obtained a report of all personal support plans completed between October 2015 and January 2016. We identified 44 cases out of 811 (5.4%) where the system recorded that the assessor who prepared the personal support plan also signed it off. This was reflected in the variable quality of the 25 personal care plans we reviewed as part of our audit work.	SDS and ensuring that people receive the care that they choose and	All personal care plans should be signed off by a senior, as required by HSC policy. 'Workarounds' on Swift should be deactivated to prevent this breach of segregation of duties recurring.	Ensure that there is a mechanism in place on SWIFT for the senior to record that they have signed off the support plan. At present any edits made by the senior at the time of the review will show that the senior has both prepared and reviewed the plan. Data quality reports will be set up to identify any support plan signed off by the assessor who produced the plan. Sector Managers and seniors to ensure appropriate oversight and sign off by senior for the personal care plans	Overdue -	30/06/16	31/12/17	31/12/17
HSC1504 ISS.1	HSC1504	Care Sector Capacity	EIJJ8. ISS.1	Medium	A Joint Strategic Needs Assessment (JSNA) has been drafted by the Research and Information team in preparation for health and social care integration. This analyses demographics across the city and the attendant pressures on social care provisions such as life expectancy, morbidity, deprivation, prevalence of unpaid carers and employment levels (affecting both need for social care and the availability of carers). While the ISNA gives a sophistcated analysis of the current demographic and economic profile of the city, it is a snapshot based on historic statistics. Forecast ing is limited to percentage growth according to the N ational R ecords of S cotland population projections by age group. The demographic trends and pressures on social care provision identified in the JSNA have not been translated into the likely effect they will have on demand for services in the medium-to long-term. This means that the Courcil does not have a robust forecasting model of demand for social care in the City to inform its strategic planning.	Lack of robust forecasting models impedes informed strategic planning of future service provision; New service structures and initiatives may be created in an attempt to address current problems which are not suitable for changing demands caused by foreseeable mov ements and trends in the population.	Forecasting The JSNA should be developed into a robust forecasting m del for demand for social care in the City. This should involve an appropriate level of sorutiny of the reliability of the data used and the assumptions used in the model. We recommend that an officer from Health and Social Care is involved in the development of the JSNA in order to assess the assumptions used. The forecasting model should include a sensitivity analysis to assess the likely impact of variation in forecast trends. This is particularly important given the recognised breadth and complexity of social and economic factors affecting demand for care. Gap Analysis Once demand for homecare services has been forecasted, the Service should identify the gap between current and required capacity. If the forecast is sufficiently nuanced, the Service will be able to identify the gap between available resources and need for <i>r</i> different groups, types of care, and localities. Implementation To date, population projection have generally been used to litustrate the need for service reform. The forecasting model and gap analysis should be used to inform strategic planning of Health and Social Care services.	work. Sensitivity analyses will be built into forecasting models. Gap Analysis Existi ng methods enable the gap to be identified between demand a nd supply in broad terms. Further work will be done in conjunction with Strategic Planning and Contracting colleagues to provide analyses in relation to specific service models. Implementation Improved understanding of the strengths and needs of local populations, and the gap between demand and supply, will be used to develop service models and will inform strategic	Overdue -	30/04/17	31/12/17	31/12/17
HSC1601 ISS.6	HSC1601	Care Home Debt Management	E.I.J.B. ISS.6	Medium	Section 22(2) of the National Assistance Act 1948 states that "the payment (which a person is liable to make) for any such accommodation shall be in accordance with a standard rate fixed for that accommodation by the council managing the premises in which it is provided (and that standard rate shall be represent the full cost to the authority of providing the accommodation)." Historically the Council have not charged the full cost of accommodation provided the accommodation and provided the accommodation at discount to the full unit cost. The Chief Officer of the Edinburgh Health and Social Care Partnership is responsible for reviewing charges on an annual basis. Unit costs are updated regularly by Finance and are available to Health and Social Care senior management to	excess of what is permitted under the National Assistance Act 1948. The rates charged to residents in all Council provided accommodation needs to be reviewed for 2017/18 to ensure that they better reflect the actual cost of the care provided and prevent a similar recurrence.	The incident of apparent overcharging requires to be investigated and if substantiated, refunds provided to the individual residents affected.	The Team Manager – Social Care Finance – Transactions, will identify the clients who have been overcharged for 2015/16 by the Billing Team and make the appropriate refunds.	Closed and Verified			
					Inform decisions on charges. Rates charged to residents for Care Homes are currently based on a historic costs exercise thought to have been completed in approximately 2005, then updated by "inflationary" increases in subsequent years. These uplifts were not linked to the actual cost increases in delivering accommodation and in 2015/15 a cohort of 9 residents receiving specialist dementia are at the North Merchiston Care Home appare to have been charged 93.90 per week in excess of the Home's unit cost of care provision for all or part of the year (total over-charge: 63.059), an apparent breach of the National Assistance Act 1948. This situation did not recur in 2016/17 due to the contract changes with the company running the care home on behalf of the Council. The unit cost of care increased by 3.3% in 2016/17 while the rate charged to residents in this category at the North Merchiston Care Home.		The rates charged to residents in all Council provided accommodation needs to be reviewed for 2017/18 to ensure that they better reflect the actual cost of the care provided and prevent a similar recurrence.	The rates charged to residents in all Council provided accommodation will be reviewed for 2017/18 to ensure that they better reflect the actual cost. Finance will update unit costs to inform this review.	Overdue	31/03/17	31/12/17	30/06/17
HSC1603 ISS.4	HSC1603	Management Information [EUB]	E.I.J.B. ISS.4	Medium	There is one member of the NHS Data Set Team responsible for pulling together and circulating delayed discharge reports to locality managers each week. We selected a sample of 5 weeks and confirmed that the report had been generated and circulated. We identified: One week where no delayed discharge report was circulated as the officer responsible was on annual laeva; One week where additional information was missing as the officer responsible did not have time to complete it.		reports to provide cover in the event of staff absence. Lessons Learned In developing the Performance Management Framework,	I The resource requirements to meet the performance management requirements of the UB will be identified as part of the development and implementation of the new operating structure in Health and Social Care.	Overdue	31/03/17	31/12/17	31/07/17 31/12/17
HSC1604 ISS.2	HSC1604	UB Data Integration & Sharing	E.I.J.B. ISS.2	High	During interviews conducted with NHS and CEC, it was noted that two processes (specifically access management and communication protocols for data sharing) do not fully support the objectives of the UB. Responsibilities for ensuring that access rights to NHS and CEC systems remains appropriate have not been established. Currently, managers within NHS should notify CEC and vice versa of staff joiners, leavers or movers. This allows access rights to be updated in line with revised operational requirements. However, there is no formal documented process or guidance that sets out the requirement to notify the two bodies of staff changes , and interviewes reported that access control is inconsistently applied (for example not all managers interviewes reported that access control is inconsistently applied (for example not all managers and the set of the measurement of the set of the requirement of the set of the set of the set of the measurement of the set of th	There is a risk of managers not being aware of their responsibilities to notify their 'non-home' organisation of staff changes. This could lead to access rights not being updated for leavers or movers and result in confidentiality of sensitive citizen data being put at risk, leading to regulatory fines or censure. Immature data sharing protocols increase the risk of data being inappropriately handled or misused, putting the confidentiality of sensitive citizen data at risk, leading to regulatory fines or censure.		parties (NHS Lothian, Edinburgh, East, West and Mid Lothian Councils and UBs) is now in place and the Memorandum of Understanding (MOU) defining the joint data controller responsibilities between the City of Edinburgh Council, NHS Lothian and the EUB is in the final draft. It is envisaged that the MOU will be signed off by all parties by the end of June 2017. Once sign of thas been achieved details will be shared with staff through the regular staff newsletter.	Overdue	31/07/17	31/01/18	31/10/17
					Interviewes reported that access control on inclusioning spine (or example not an immigers notify their 'n on-home' or ganisation '' of staff changes). Currently, communication protocols for data sharing are in place. However, we observed that these protocols were not fully established and not sufficiently mature enough on data protection to properly support the objectives of UB.		The processes for notifying system owners of staff changes should be well defined and communicated to stakeholders. Controls should be implemented to ensure access to CEC and NHS systems remain appropriate. This should include processes to ensure that changes are applied in a timely manner and access rights are regularly recertified. This would provide assurance to system owners over the operating eff e ctiveness of these controls.	The existing processes within the Council and NHS Lothian for notifying system owners of staff changes will be communicated to all managers of integrated teams. Establishing an integrated system setting out the systems access requirements for all posts and the mechanism for gaining access for new staff and notifying system owners of leavers and changes in role will be a priority for the nominated officer to be identified in respect of ICT and information Governance.	Overdue	30/09/17	31/03/18	

ns	Status Update	Owner
17 18	October Update : The complaints action cannot progress in isolation as there is a Council wide complaints project underway which will determine the way our complaints are recorded. The update provided in September which is recorded in the spreadsheet provides the details. There is nothing further we can add at this time. September Update : 11/09/17 - The current Jadu form will be reviewed, in consultation with the wider work ongoing within Strategy & Insight, to ensure that complaint can be collected at an earlier stage in the process. As a result of the Corporate Review of Complaints, a Corporate Complaints Improvement Plan. 'Agree a strategy to minimise the number of databases currently being used across service areas to record, manage and report complaints' This will involve meeting with all services that do not use Capture or Confirm, research possible solutions, consult services affected by recommendations to agree future arrangements and to review training provided on alternative systems to ensure alignment with standardised complaints training. The timescale for this action is November 2017 – July 2018. Please note the procurement of an ew CRM (customer relationship management) is currently on hold	Frances Smith, Advice & Complaints Officer (Education)
17	January 2018 update Compliance and Data Quality Team Manager now in place, rest of the Team starts on 8/1/18. Draft project plan agreed by Assessment and Review Board (copy supplied to Internal Audit). Current Position at 21/11/17 - The establishment of the Compliance and Data Quality Team has been agreed; the manager will take up post on 4/12/17 and the rest of the Team on 8/1/18. A prioritised work plan will be drawn up for the Team and include the development and implementation of a change management process. Delivery date to be extended to 31/3/18.	Mary McIntosh, Business Services Services Manager
17	January 2018 update Compliance and Data Quality Team Manager now in place, rest of the Team starts on 8/1/18. Draft project plan agreed by Assessment and Review Board (copy supplied to Karen Sutherland). Current Position at 21/11/17 - Overdue The establishment of the Compliance and Data Quality Team has been agreed; the manager will take up post on 4/12/12 and the rest of the Team on 8/1/18. A prioritised work plan will be drawn up for the Team and include the outstanding tasks in order to address this recommendation. Delivery date to be extended to 30/6/18.	Mary McIntosh, Business Services Manager
17	November Update: - Ovedue - IA Validation in progress Further evidence supplied by Eleanor Cunningham	Wendy Dale,

HSC1604 ISS.3	HSC1604	UBB Data Integration & Sharing			Medium	During our audit procedures, we observed there are compatibility and connectivity issues when using CEC hardware at NHS locations or to access NHS owned systems and vice versa. CEC staff have experienced difficulties in connecting through WI-Fi at NHS sites [and vice versa] in order to access their enails, and some systems cannot be accessed using specific hardware such as mobile devices {i.e. tablets, mobile phones}.	Dosains implication There is a risk of the operational efficiency and effectiveness being impacted by an inability to access system in a timely manner.	The UB should ask for a review of connectivity and hardware compatibility to be conducted in NHS and CEC sites, to ensure all staff can be fully operational wherever they are located.	The ICT and Information Governance Steering Group will request a review of connectivity and hardware compatibility to be conducted across all sites housing integrated teams and consider any recommendations arising from that review.	Overdue	30/06/17	31/12/17		Jaruary 2018 update - the ICT and Information produce the Survey Monkey questions for agre Revised implementation date 31/3/2018. November update : following discussion with I ICT and Information Steering Group on 21/11/ and NHSL systems are required are asked to ta relating to access to systems.
HSC1503 ISS.1	HSC1503	Personalisation SDS - Option 3				The Social Care (Self-directed Support) (Scotland) Act 2013 states that the authority must "inform the supported person of the amount that is the relevant amount for each of the options for self- directed support from which the authority is giving the person the opportunity to choose, and the period to which the amount relates." The "relevant amount" is defined as "the amount that the local authority considers is a reasonable estimate of the cost of securing the provision of support for the supported person". At present, the supported person is not informed of their assessed budget when they are asked to choose their option. They are only told of the resources available to them when they receive their personal support plan after they have selected their option.	Support [Scotland] Act 2013. The supported person may not have sufficient financial information to make an informed decision on the feasibility and affordability of arranging their own care under Option 1.	how the legislation should be applied where the supported person is allocated the same budget whichever option is chosen. Management must then ensure that the SOS assessment process is compliant with Scottish Government's instructions. This may mean informing the supported person of their personal budget at an earlier stage of the assessment process.	Work Soutiand SDS Sub-group and have indicated that they are prepared to consider issuing further guidance and in particular revisit the issue of whether local authorities need to notify individuals of the indicative budget for each of the four options or just provide a single indicative budget which is what most authorities seem to be doing in practice. These discussions will take place through the Social Work Scotland SDS Sub-group and Senior management will ensure that Edinburgh is involved in these discussions. The current processes and practice in relation to providing individuals with an indicative budget will be reviewed and updated and clear guidance issued to staff taking account of any change in guidance from the Scotlish Government. In either case, an indicative budget will be given to individuals before they are asked to select their preferred option.	Overdue	31/10/16		30/06/17	January 2018 update - progress in deli A revised completion date on 31/3/18 Current Position at 21/11/17 - Overdu update on progress and agree next ste
HSC1503 ISS.2	HSC1503	Personalisation SDS - Option 3	H&SC	155.2	High	The Social Care (Self-directed Support) (Scotland) Act 2013 states that the authority must give the person "in any case where the authority considers it appropriate to do so, information about persons who provide independent advocacy services (within the meaning of section 259(1) of the Mental Health (Care and Treatment) (Scotland) Act 2003 (sap 13))." When researching advocacy services for people affected by SOS the only place we were able to find information was on the Council's Edinburgh Choices website which is an online directory of local care and support services. My we were unable to find links to the Edinburgh Choices website in key communications to service users and the general public about 505. The Council has produced detailed pamphlets and leaflets which explain SDS to service users and carers but advocacy services are not covered, and readers are not directed to the Edinburgh Choices website. Practitioners we spoke to could not direct us to advocacy services.	There is a risk of non-compliance with the Social Care (Self-directed Support) (Scotland) Act 2013	The service should ensure that information about advocacy service is available to service users. Possible options may include: Providing practitioners with information about available advocacy service and what they do; Directions to Edinburgh Choices in guidance materials for service users; or Names of advocacy service in pamphlets and leaflets for service users.	Existing leaflets and information materials to be reviewed to make reference to Edinburgh choices Information to be produced for dissemination to practitioners regarding the duty to identify people who may benefit from advocacy and support them to access this services and the agencies that the 6 Council has commissions to provide advocacy services. SW1601 ISS.4	SW1601	Social Work: Pre- Employment Verification	H&SC	ISS.4	Medium	There was insufficientevidence to support the PVG checks of three nominated candidates who were 'existing Council employees'. The original PVG certificate is destroyed at the initial point of employment. Therefore recruiting managers of nominated candidates, who are existing employees, may not be aware of the 'vetting information' included in the original PVG Check. This restricts managers' ability to make an informed decision to proceed with the employment. It should be noted that Scheme Record Updates (which carry out a check betwe en the original PVG Certificated issued; to the date of the requested update) do not include details of any 'vetting information' held within the original certificate. The current "Recruitment and Selection Guidance for Managers Pre-Employment Checks for Nominated Candidates' states that "no further check is required if the individual is a PVG Scheme member in the Council for the same type of 'regulated work'. There is potential for staff to be recruited to a role which is not appropriate given their previous convictions. For example; a person with fraud convictions may properly be recruited to a care home if they are not handling cash but a future appointment to the homecare service; with access to vulnerable people's funds may be approved without due consideration of the riskin October 2016 a carer in Eas Lothian was convicted of Fraud amounting to £46,000 from two clients.	information' to allow them to make an informed decision over whether to proceed with employment. This may lead to recruitment of staf not appropriate to the role.	F Employment Checks for Nominated Candidates" should be updated to	Employees should currently retain vetting information received as a result of a PVG disclosure check for regulated work. If an existing employee working in regulated work is the nominated candidate for another position within the Council which is also regulated work then that candidate should evidence the vetting information for the original PVG check. It should be noted that Disclosure Scotand have confirmed that Scheme Record updates now contain original vetting information. Employees who fail to evidence the original vetting information will continue to be distroyed by the People Support Recruitment Team as it is not deemed efficient to retain huge amounts of vetting information on al just in case basis'. The required documentation will be cound in on a ned basis in the first instance the responsibility to provide information will be the employees. The requirement to evidence vetting information will be cound will be included in the guidance at its next review.	Closed - Verified				
								PVG certificate to the pre-employment checks meeting; in order to	Locality Managers to obtain confirmation from their recruiting managers that nominated candidates are being requested to bring their PVG certificate to the pre- employment checks meeting. This requirement has been effectively communicated to all relevant managers / staff and a mechanism will be introduced to ensure that the requirement is being adhered too. This procedure will be embedded within the HSC and Safer & Stronger Communities protocol.	Overdue	31/03/17	30/11/17	30/11/2017	Current Position at 26/10/17 - Overdue IA met with Executive Business Support Manage has a revised implementation date of 30.11.17.
SW1601 ISS.5	SW1601	Social Work: Pre- Employment Verification	H&SC	ISS.5	Medium	Testing identified that working practices between recruiting managers, HSC Recruitment, and HR Recruitment are not fully documented and this has led to inconsistencies including:bypassing the HSC Recruitment Co-ordination Team;inadequate recording of Criminal Convictions form (CCF) and PVG information;inappropriate record management; andno clear formal procedure has been issued to Recruiting Managers to advice them of the requirement to formally document the decision to proceed with or recind the offer of employment; following receipt of 'vetting information in respected of the nominated candidate. 		e Project Name	Grout	, issue		Finding	Business Implication	A review of the Tirrent information held for each recruiting manager within Health and Social Care should be undertaken to establish any manager who has not completed the Recruitment and Selection training within the last 2 years. Any manager who is identified as not having complied with this training requirement should be requested to complete the training as soon as possible and not recruit staff until the have undertaken the training. A mechanism for monitoring the mandatory requirement should be introduced. In the interim, Localin Managers and Safer and Stronger Communities Senior Managers	Agreed Management Action Locality Managers have been requested to remind all recruiting managers that they are required to have completed the training before undertaking any further recruitment and confirm that this has been completed. The H&SC Partnership has been going through an organisational re-design, with staff being appointed to posts within the new structure under Phase 1, 2 and 3. The organisational re-design of the team has inevitably mean changes to recruiting managers. It is envisaged that Phase 2 of the organisational re-design will be completed by January 2017. Under phase 2, new recruiting managers will be appointed: Once these appointments have been made, a review of their recruitment and selection training will be reviewed by the respective Locality Managers and the appropriate measures taken, to ensure full compliance.		31/05/17		30/11/17	Status update Current Position at 22/10/17 - Overdue September Update: Interim Chief Officer managers which highlights the required a
Place			-	+										
PL1601 ISS.2	PL1601	Recycling Targets	Place	ISS.2	Medium	Contractors submit weighbridge tonnage data each month, which is used to calculate the recycling and landiil tonnage reported to the Transport and Environment Committee, and to prepare the annual SEPA submission. The current system for logging weighbridge tonnage submissions is manual as contractors provide their submissions in varying formats, some of which require further calculations to be made by Waste Services to establish the required figures. The data is entered manually into three separate databases, twice by the admin assistant and once by the Waste Collection Route Manager. The same data is entered into each database, with no significant differences in functionality between them.	Manual input could lead to errors in raw data used to calculate key performance measures; and inefficient use of resources due to duplication of manual data input.	Automated data submission Contractors should be required to submit monthly weighbridge tonage data in a prescribed format to support batch uploads of data to the tonnage database and reduce the need for manual data entry. Many contractors now have weighbridges which can produce tornage data electronically and in real time. Management should investigate whether it is feasible to obtain this data directly. In the short term, a single database should be used for analysis and reporting. This will mean data only needs to be entered once.	There will be a review of the current process with the aim of implementing the recommendation of reducing the number of times data is inputted. This action will be taken forward on completion of the transformation process and once team structures are in place. PL1601 ISS.4	PL1601	Recycling Targets	Place	ISS.4	Medium	There are a number of Council service areas and divisions effected by the waste management strategy but are unaware of key liskues, regulation changes and decisions. This appares to have been as a result of key stakeholders not having been appropriately identified and engaged in all areas of the process. The key stakeholders for the Council's overall waste management strategy are wide ranging, affecting related strategies and span both across the Council and externally.		A key stakeholder identification exercise should be performed to ensure all required individuals are included in the process. Key groups identified could include: Waste Services, Sustainability Team, Property Services and other external groups. In alignment with the creation of an internal waste management policy, stakeholders could be engaged through an overarching steering group with representation from each key group. This group would help ensure that relevant information is appropriately disseminated and that all stakeholders needs are considered. It would also enable stakeholders to monitor and challeng performance against the overall waste management strategy.	As outlined within the response to Action 2, it is our intention to refresh the existing strategy and to consult with both internal and external stateholders to help shape the final strategy. A series of commitments/actions will be a key output from the strategy and progress against individual actions/commitments will form a key part of reporting progress to stakeholders.	Overdue	31/03/17	31/03/18	30/09/2017	Current Position at 25/10/17 - Overdue An internal working draft will be circulate view to sign off and approval by elected r annual "light touch" review, with a more that we need to account for policy chang August Update : Information has been pr unlikely to be ready for Committee befor provided. July Update: Work is conti presented to the Transport and Environm that the Waste and Recycling strategy is t the committee are to be provided to aud information. The strategy will then need Draft new Waste and Recycling strategy id delivery plan for implementation.
PL1601 ISS.5	PL1601	Recycling Targets	Place	ISS.5	Medium	Although there is considerable recycling internally within the council, there is currently no internal waste management policy. The Waste and Recycling Strategy 2010 - 2025 focuses on external, publi waste but there is no supporting policy which specifically states how the Council itself as major local employer, plans on reducing waste arising from its own operations (e.g. schools, council offices) and increasing recycling participation. The Council's strategic am its to reduce overall waste being sent landfill within the local authority by increasing recycling participation. Budgets have been set aside for schemes to increase public awareness and participation in an effort to achieve this strategic aim; however, a group of contributors to Edinburgh's overall waste (i.e. Council employees themselves) being overlooked by not allocating sufficient resource to internal waste management schemes. In addition, there is a lack of data on how much waste is sen to Indifil as a result of council operation therefore it cannot be accurately quantified how much the internally generated waste is costing the Council in landfill charges.	c Ifinancial and environmental impact: - Risk of reputational damage due to lack of own strategy; and - Opportunity cost lost on not providing an overarching framework to o support the Council's own recycling participation.	internal waste management or resource efficiency policy that embraces reducing, reusing and recycling. Many staff members will liv in the City of Edinburgh Council, therefore generating waste at work	Our proposed management action is to approach the Sustainable Development Unit and Facilities Management to establish a working group to review any existing internal waste policy, the purpose being to incorporating this within, and consult no, a refreshed Waste Strategy Document (Ref Action 2). The inclusion of the Sustainable Development Unit critical in moving forward this action as they hold responsibility for development of the Cound's internal waste policy and recording data on internal waste arisings. Waste & Fleet Services will commit to taking the lead in establishment of the internal working group. Opportunities to improve the way in which the Council gathers and records data on its own waste arisings will be a key outcome of the working group. The Council's Trade Waste Service (part of the Waste & Fleet structure) has already met with Facilities Management to identify opportunities to increase the range of recycling opportunities across the Council offices such as Waverley Court and is already available across a number of schools. PL1603 ISS.3	PL1603	Mortuary Services		155.3	Medium	The current Bereavement Services risk register, dated July 2015, outlines a range of controls in place as part of the mitigation strategy to manage the body holding capacity risk. The risk was escalated to the Place risk register, and as a April 2016 was in the top 10 Departmental residual risks, categories as one of the most controlled risk due to the controls noted as being in place. The mitigation strategy includes the following: Mortuary plan in place; and Saff training and participation in a Service quality action group. The Scientific, Bereavement and Registration Services Senior Manager noted that there are no formal mortuary plans in place; covering arrangements to minimise storage times, and no such training is currently being delivered. In addition, no Service KPIs or performance / service standards are currently produced. Quality documents for the Mortuary covering forms, plans and procedures are being drafted. The mitigation strategy also notes that Funeral Directors are contacted to increase collection rates, but this does not recognise that Mortuary staff are limited in the actions that they can take in this respect until the Funeral Director makes contact, as their service is assigned by the next of kin. The risk register does not reflect other issues outwith Council control, for example, The daily cap on the number of post mortems undertaken means there is always a backlog; and The uncertainty around service delive post Crown Office contract expiry in 2020.	 the risk that intended controls are not implemented in practice leading to inefficient use of resources and demand not being managed effectively. r Y 	c urrent controls in place. Issues currently outwith Council control should be added to facilitate wider discussion on ways to better manage these. A mortuary plan should be prepared covering the management of body holding capacity. The plan should include: An outline of current arrangements: An outline of all key stakeholders; Service standards expected of Mortuary staff to ensure an efficient, prompt and respectful service; Standards expected of key stakeholders, for example, processes to be followed be Police when storing a body out of hours, prompt notification from Fumeral Directors when assigned, and prompt collection by Fumeral Directors when notified that a body has been released for uplift; and A programme of regular staff training sessions to ensure that Mortuary staff are aware of their responsibilities to mainime storage. The plan should incorporate contingency arrangements for business as usual during periods of extended closure, for example, at Easter and Christmas.	post transformation review. A mortuary plan is under development and should be completed before the end of December 2016. Implementation by 31/01/2017 is anticipated. 0/16	31/03/18	30/09/17	Current Position at 25/10/17 - Overdue October update: Inputting of tonnage data is being tied into the business process automation project to seek automatic uploading of data on a more regular basis. September update : EV are now working with the Service area to determine how the inputting of data can be streamlined. This is part of their Waste Service Contract management project.	Lesley Sugden, Waste Strategy Manager
3/17	31/03/18	30/09/2017	Current Position at 25/10/17 - Overdue An internal working draft will be circulated to management within the service by the end of this year (2017) with a wiew to sign off and approval by elected members by spring 2018. Thereafter we will carry out an approximately annual "light touch" review, with a more in depth review every 3-5 years, albeit this will be flexible in the event that we need to account for policy changes (e.g. resulting from a change of government). August Update : Information has been provided to internal Audit regarding the process of strategy review, this is unlikely to be ready for Committee before the review de Spetember implementation date and a new date is to be provided. July Update: Work is continuing on the new Waste and Recycling strategy, this is not due to be presented to the Transport and Environment Committee until October at the earliest. A commitment to the date that the Waste and Recycling strategy is to be presented to committee, the committee papers and the outcome of the committee are to be provided to audit. The action can be reduced to low on the satisfactory receipt of this information. The strategy will then need to be communicated to stakeholders before the action an be closed Draft new Waste and Recycling strategy is not yet finalised. Communication of this strategy will form part of a delivery plan for implementation.	Angus Murdoch, Strategy Officer
9/16	31/12/17	30/04/17	Current Position at 25/10/2017 - Overdue No change from September Update. September Update:Information provided to IA regarding the Changeworks SLA requirement to "Develop awareness among staff of the correct procedures and contact points to improve and resolve waste management problems within schools'. A revised data of the 31/12/11 to develop the internal waste management policy. Working group now established between Facilities Management and Waste and Cleansing Services. This group meets regulary. July Update :	Karen Reeves, Technical Team Leader
3/17	31/10/17		Current Position at 25/10/17 - Overdue No change from September update. September Update The Risk Register is being updated in collaboration with the Council's Risk team this is anticipated to be completed by the end of September. Demand forecasts for future years have been made. Demand forecast[s] for seasonal variation within a year are to be completed by the end of October 2017. August Update: - Information was provided on the 22/R/17 and is currently being reviewed by Internal Audit. July Update: - meting held 10/7 to discuss 1) A risk register is to be created. 2) Operational plan to be produced to track and forecast demand. This could be high risk as the Council is providing services to other local authorities and may not be able to meet the additional demand. 3) A contingency plan is to be produced to ease pressure on the council mortuary at times of high demand and it should be evidenced that this has been tested. 4) Potential for rating to be reduced to low if the trisk register, operational plan and contingency plan have been implemented and tested.	Robbie Beatlie, Scientific, Bereavement & Registration Services Senior Manager
3/17	31/12/17	30/4/17	Current Position at 25/10/2017 - Overdue Work continuing on the update of contingency plans. Scottish Government continue to progress a national mortuary review to reassess the most suitable organisations to assume statutory responsibility. Arrangements with NHS Lottina for contingency provision are well progressed with a licence agreement draw up. A trial of the use of the NHS facility was undertaken recently to allow for essential maintenance of the CEC mortuary. September Update: A stakeholder plan has been evidenced. A contingency plan for mass fatalities events (either intensive or extensive) an agreement is in place that the RIE would be the control centre with the support of the cound's staff. A memorandum of understanding advising of this arrangement has been submitted to members of the EoS RRP group. The draft contingency plan at the time of the audit has been provided to the service area to deal with busy periods that are not designated as muss fatalities incluents, this is to be updated due to changes in the Council structure and is anticipated to be complete by December 2017.	Robbie Beatle, Scientific, Bereavement & Registration Services Senior Manager

		School Meals		urc ISS.1	Low	For the school meals service delivered by SfC, the roles and responsibilities of key officers within SfC and C&F were not clearly defined in a formal document such as a service level agreement (SLA) or working protocol. Although processes have not been formalised, good cross departmental working was evidenced between the C&F Development Officer and SfC Catering Performance Officer. This collaboration was specifically noted within the meu planning process. Similarly Faulties Managers (FMs) and Kitchen Supervisors work closely with School Business Managers to resolve issues on site. It is understood that Corporate Facilities Management are producing SLAs for cleaning and janitorial services, however catering is not in scope at present. It is viewed differently as the end user of the service delivered is external, i.e., the pupils rather than Council staff.	knowledge of key members of staff and staff changes may impact on the effectiveness of the service.	Consideration should be given to preparing an SLA to outline the respective responsibilities within key cross departmental processes in delivery of the school meals service.	As part of a wider Facilities Management Review for the clarity on roles and responsibilities of key offices within SIC who have responsibility for delivering the schools meals service it is proposed that an SLA between C&F and SIC be put in place to ensure a first class school meals service is delivered.	due 30/04/15	31/12/1	7 30/09/17 31/12/17	Oct 17 Update from Gohar Khan: The Service Delivery Plan is with C&F for consultation and we are still awaiting feedback. It is, however, anticipated that the SDP will be signed off and in place by December 2017. Outwith the SDP, the catering service has a detailed strategic blueprint which outlines its aims, objectives and strategic goals going forward and it is anticipated that this blueprint will be there is taims, objectives and strategic goals going forward and it is anticipated that this blueprint will be shared and agreed with all relevant stakeholders. Sept Update from Gohar Khan: A Service Delivery Plan (SDP) that includes the catering service is currently out consultation with key stakeholders and feedback is awaited. The SDP is designed to provide key stakeholders wi an overview of the services that will be provided by the FM team to High Schools and includes clarity on staff rol and responsibilities. The overarching objective of the services is to provide the right resources at the right place the right time, with the flexibility to respond to the requirements of each Directorate as and when required. It is envisaged that the SDP will be agreed by the key stakeholders by 31.12.17.	th les at
MI51601a ISS.2 N	MIS1601a I	Non Housing Invoir	es Resou	ISS.2	Medium	A fixed-price quote is obtained from prospective contractors for repairs estimated to cost more than £1,000. Any variance between the quote and the invoice is challenged before the technical officer will approve payment. Estimates and quotes are not routinely requested for repairs likely to cost less than £1,000 and we would not expect this). The technical officer is expected to be experienced enough to make a reasonably accurate assessment of the likely cost of a repair, and challenge or approve payment of the contractor's invoice accordingly. It is understood that a schedule of rates exists for the non-housing contract framework, but is not referred to. This means that: The authorising manager does not know the value of works that they are approving (see Section 2: variance between actual and estimate); The Council may not have access to commercially advantageous rates for common repairs; and Elevated charges may not be identified by the technical officer as they have no benchmark.	I housing repairs and maintenance.	We recommend that a schedule of rates is built into the next non- housing contract framework.	The non-Housing contractor framework will be re-tendered during 2017. The inclusion of detailed best-value and due-diligence options will be considered as part of the process. This may include schedule of rates, gain share, penalties etc or a combination.	due 31/08/17	31/12/1	8	October Update : Agreement reached with Corporate Procurement that due to the Procurement Plan being revised, the new implementation date will now be December 2018. However, in the meantime, in order to mitigate the risk from Medium to Low, a proposal is being worked on and will be reported at the next cycle. September Update: The non - Housing contractor framework will be re - tendered due to the value and EU regulations. This is being led by Corporate Procurement with a revised timescale.	Murdo MacLeod, Maintenance Standards Officer
MI51601a ISS.3 N	MIS1601a t	Non Housing Invoi	es Resou	urc ISS.3	Medium	The system used to manage repairs and maintenance to operational buildings, AS400, is due to be replaced in the Autumn/Winter 2016. The system is over 40 years old and is limited in its capabilities and links to other Council systems. This means its idifficult to obtain information about repairs carried out. Only one officer is able to use AS400 reporting functions, and none we spoke to in Corporate. Property knew how to access information about EBs non-housing recharges through the Frontier financial reporting system. This limits the management information available to Corporate. Property about the volume and value of repairs. It also delayed our audit fieldwork and restricted the scope of our audit. For example, the AS400 (works ordering), Total (billing) and Oracid (finance) systems do not use the same reference numbers. A manual log is kept to record the invoice number for each works order raised on AS400. This was not consistently updated, so, despite the help of the non-housing administration team and Accounts Payable, we were able to trace invoices for only 4 of the 60 charges reviewed. We also identified occasions where details of works order charged to Corporate Property had not been transferred into the Oracle data warehouse. This means we (and Corporate Property) were unable to validate the accuracy of the charge for those periods. The total charge only was recorded.	housing repairs.	Management will not have ready access to accurate and reliable information about the volume and cost of repairs and maintenance until AS400 is replaced by CAFM in Autumn/Whiter 2016. We note that the introduction of CAFM has been delayed, and every effort should be made to meet the new target implementation date.		due 01/04/17	01/04/1	8	October Update: The use of CAFM to monitor and report on R&M work / expenditure is still expected to be operational in time for the start of the new hin models as being implemented by the FM Transformation programm Engagement with key stakeholders with regards to implementing CAFM for R&M works management is due to commence shortly. September Update : The CAFM asset condition and helpdesk modules are now fully operational, however, the use of CAFM to monitor and report on R&M work / expenditure is now scheduled to be operational in time for the start of the new financial year 2018/19. This will include having the ability to produce MI reports on R&M activit at site level, which at this moment in time, only Frontier is able to produce this information	e. Corporate Property
RES1603 ISS.5 R	RES1603 I	Leavers Process	Resou	uro ISS.5	Medium	We selected a sample of 45 employees who left the Council in August 2016. Security passes held by 18 of those employees (40%) had not been returned or disabled.	Security passes could be used to fraudulently gain access to Council buildings putting sensitive data and mobile assets at risk.	Security passes should be collected from payroll and non-payroll leavers and returned to the Facilities Management Hub. We recommend that Facilities Management are also provided with a daily or weekly list of leavers, so security passes can be deactivated.	An expiry date will be set for all cards issued to temporary staff, agency staff and contractors at 6 months unless otherwise specified by the line manager. Verifi	d - ed				Mark Stenhouse, Facilities Management Senior
									All security passes which have not been used for 3 weeks will be deactivated on 1 Close April. Cardholders will need to contact Security to reactivate them. Verifi	d - ed				Mark Stenhouse, Facilities Management Senior
									All temporary passes will be deactivated on 1 April. This will include a gency staff and contractors. Further amendments to the Orb forms will restrict all mon-CEC cards to 90 days without exception. The practice of surrendering cards to the FM security HUB could be promoted by a formal comms via the Chief Executive.	
									The Management Information team will provide Security with a list of leavers each week. Security will deactivate passes.	d - ed				Edel McManus
RES1608 ISS.2 R	RES1608 F	Risk Management	Resou	urcl ISS.2	Medium	The successful embedding of risk management throughout an organisation is achieved when staff of all levels are: aware of their risk management responsibilities; understand their responsibilities; and are motivated to act in accordance with their organisation's risk management framework. The Risk Function and CRO have delivered risk training to the CLT, their respective Senior Management Teams (' SMTS') and to CRBV councilors. Feedback indicates that this training has been effective in securing buy-in and understanding at the senior manager level and above. However, risk training has not recently been provided to middle management training to their teams. This represents a potential gap in the understanding and embedding of risk management below senior manager level and potential gap in the understanding and embedding of risk management training to all as an betrained trained to find and the senior manager level and above. However, risk training has not recently been provided to middle management training to their teams. This represents a potential gap in the understanding and embedding of risk management training to all as no heard and a senior manager level and the senior based deviation of for coreit for more more training and wall as no heard training to the senior heard based of the coreit for more more training to the senior manager level and the senior has deviated of for coreit for more more training to the senior training and the potentian training to the senior heard based of the senior training and wall as no heard to the senior heard based or heard to provide the more more training to the senior manager level and the senior heard based or heard to potentian training the training and the senior manager level and the senior heard based or heard to the senior manager level and the senior heard based or heard to the senior training and the senior heard based or heard to the teams. This heard heard to heard the senior and the senior heard bas and heard to heard the senior the senio	presents the risk that CEC may be exposed to a degree of undue risk at times of significant change, people can unintentionally revert to behaviours that are not in keeping with expectations. If the generic risk management training module within CECL is completed by staff, there is a risk that staff's understanding is inconsistent with CEC's risk management approach. If risk register templates are not used consistently across all Directorates, key information may be missed or reported incorrectly when consolidated by the Risk Function for	time and resource to embed risk management below senior management level. It is important to reflect on what contributed to the success of ' buy-in ' and education of the senior team. Additionally, there needs to be pragmatic consideration given to the large numbers of staff across the council. We recommend a training and communications plan is drafted reflecting the above and approved by the appropriate committee. This should involve input from HR and other relevant non-risk functions. Consideration should be	risk management. Prior to transformation a risk steering group was in place Verifi whereby risk 'champions' from each directorate could drive messaging the need for training and matiani momentum. With the substantial organisational changes this arrangement was suspended and we are currently re-establishing such ownership within the Service Area Risk Management Groups as indicated within the response to finding 3.3.	d -				Rebecca Tatar, Principal Risk Manager
						The Risk Function have designed CEC specific risk management training as well as an internal controls module which teaches staff how to manage risks. These modules are available to everyone through CEC's interactive learning platform (° CECL'), however, there is no mandatory requirement for staff to complete this training. Within CECL there is also a generic risk management training module, designed by the external system provider. This is not CEC specific and there is a risk that this may cause confusion amongst staff. From discussions with the	to CLT and GRBV. It makes management of risk and risk reporting less efficient and potentially less effective.	provide risk management training to their teams would held drive understanding and a cocutability below serior management level. Human Resources should include risk management and internal controls training modules as part of CEC's essential learning. Individual's scores from the end of module assessments can be used to	the other specific to CEC. We agree with the finding that the generic risk Verifi management module is not helpful from the perspective of specific messaging. Management will work with HR to ensure that only the single tailored solution is accessible.	ed .				Tatar, Principal Risk Manager
						Head of HR, we understand that all staff will be required to complete "essential learning." when on-boarding and on an annual basis going forward. Good practice is a chieved when HR have an important role in facilitating risk training so that It is considered alongside other key training and communications. More importantly, good practice is when HR have an active role in fully embedding reproshibilities and accountabilities for risk across an or organisation. Therefore, to align		confirm staff's understanding of their responsibilities. The system provider's risk management module should be removed to avoid confusion. In keeping with policy, all service areas should use the CEC risk register template, with any other versions removed to avoid inaccurate information being reported to CLT and GRBV and	HR is currently reviewing the requirements of induction and essential learning Close throughout the Council. The latest timing for go-live is likely to be prior to the commencement of FY18. The plan with HR will be confirmed shortly. The 'different' risk register template was adopted as a temporary measure in Place Close	ed				Rebecca Tatar, Principal Risk Manager Rebecca
						with best practice, HR should play an active role in embedding risk, however there are currently no risk management modules within the essential learning suite. CEC's risk register template is available to all staff via the staff intranet. However, this document is not used consistently across all service areas. For example, the Place Directorate uses a different style of risk		improve the efficiency of the aggregation and reporting process.	as part of a learning exercise to prompt focus on cause and effect in the articulation Verifi of risks. This version is now being superseded.	ed				Tatar, Principal Risk Manager

RES1608 ISS.4 R	RES1608	Risk Management	Resourc ISS.4	Low	CEC's risk management 'toolkit' represents the key documents and system available to staff via the orb (intranet) to support risk management. Key documents include risk management policy and procedures and the risk appetite statement. Upon review of these documents and following interviews with staff, a number of inconsistencies have been identified. The Covalent system was introduced to support and encourage proactive and consistent management of performance, governance and risk. It offers the functionality to electronically consolidate information and make it simple and efficient for user to update and analyse data. This system is not used consistently and consistently and the staff.	increased reliance on interpretation and judgement if there is a need to consolidate information based on different assessment criteria of formats. When risk MI is collated on this basis, vital information may be missed and not escalated on a timely basis. Use of an enterprise risk management system should increase the efficiency of collating and	CEC should consider implementation of a replacement systemised risk management tool to drive efficiencies and consistency in risk management practices and provide the opportunity to generate risk MI without the need for manual intervention. The business case for an enterprise wide risk management system should be prepared and integrated with the wider IT change programme. In line with best practice, CEC risk documentation should be updated as soon as the		Closed - Verified Closed - Verified				
					throughout Directorates and CEC will be withdrawing Covalent in early 2017. Therefore, a manual and inconsistent approach to risk management is likely to ensue across Directorates upon	reporting data, and increase capacity to locus on aniarpass of risk. I has Management policies and procedures coupled with a consistent risk appetite statement form the foundations for a sound risk framework. If an organisation is going through strategic change, its risk environment is also continuously changing. Therefore, annual review and updating of this information is important to ensure staff are provided with guidance and direction to manage risks in accordance with CEC's expectations and requirements.	new structure has been finalised, with updated versions communicated and circulated to staff.	escalation path has been carlified and confirmed. These will then be available to all staff on the CEC Intranet. The Risk Management team is currently reviewing options with regard to a 'GRC' (Governance Risk and Compliance) solution that fit-for-purpose for the Council. The new CGI contract identifies the need to introduce such a solution by the Summer of 2017. As such a business case will be developed in line with this critical path. In the meantime, risk registers for SMT and CLT are updated quarterly on consistently formatted spreadsheets and stored on a shared drive for version control. Corporate Leadership Team Risk Update

Item number	7.6
Report number	
Executive/routine	
Wards	

Executive summary

The Council's risk management framework seeks to ensure that risks to and within the Council are effectively managed, reviewed and updated through quarterly Risk and Assurance Committees held at both Directorate and Corporate Leadership Team (CLT) levels.

The information presented in this report reflects the Council's top risks and the key controls in place to mitigate them as at 6 December 2017. These risks and the associated controls have been scrutinised and challenged by the CLT and are presented to the GRBV Committee for oversight and review.

Corporate Leadership Team (CLT) Risk Update

1. Recommendations

- 1.1 To review and scrutinise the CLT risk update and be assured by the risk management framework, controls and mitigations in operation.
- 1.2 To request, where appropriate, further updates from relevant officers to discuss the key risks and mitigating actions identified.

2. Background

- 2.1 The Governance, Risk and Best Value (GRBV) Committee is responsible for monitoring the effectiveness of the Council's risk management arrangements.
- 2.2 The Council has an Enterprise Risk Management Policy and Risk Management Procedure in place which describe why, when and how risk management should take place. These documents are reviewed and updated annually.
- 2.3 The purpose of this report is to provide an update to the Committee on the key risks currently facing the Council and the work being undertaken to reduce the level of risk within the Council.
- 2.4 Some risk and associated mitigation measures lie outside the control of the Council. The Council's risk management framework seeks to reduce the Council's exposure to risk where practicable and proportionate, recognising that some mitigation measures may be the responsibility of third parties.
- 2.5 The CLT Risk Update was last presented to the GRBV Committee on 26 September 2017.

3. Main report

- 3.1 During the last quarter, risks have been reviewed at Risk Management Groups, Directorate Management Teams, and the Risk and Assurance Committees which cover all Directorates and the Chief Executive's Services. The top risks have been escalated to the CLT Risk and Assurance Committee for oversight, scrutiny and confirmation of scoring, in accordance with the Council's risk management framework.
- 3.2 The information in this report reflects the Council's top risks and the key controls in place to mitigate them, as at 6 December 2017. Appendices 1 and 2 reflect the current top risks to the Council and the key controls in place.

- 3.3 The risks set out in the appendix are not in any rank order given the differences in 'inherent' and 'residual' risk scores and the variables in the levels of tolerability, control and/or proximity to an event occurring. However, CLT consider that 'Health and social care delivery', 'Health and Safety' and 'Capital asset management' are the Council's current top focus areas from a risk perspective. .
- 3.4 Three new risks have been added to the CLT Risk Register. These are: 'Workforce capacity and capability, 'Major Programme and Project delivery and assurance' and 'Homelessness'.
- 3.5 Due to the scoring system used, by definition the Council's top risks will tend to appear toward the top right of the 'heatmap' graphic in Appendix 1. It should be noted that it may not always be practicable or proportionate to undertake mitigation measures which reduce the scoring to a level that risks move out of the 'red zone'.
- 3.6 Improvements to the risk management framework, based upon good practice in the public and private sector, are being continually reviewed and considered for implementation as part of continuous improvement. These are designed to refine and enhance several areas of the risk management framework and will be documented in the next update of the Policy and Procedure documents.
- 3.7 The Risk Management Team is currently considering options to introduce risk management software to better harmonise and streamline the escalation and reporting of risk across the Council.

4. Measures of success

4.1 Effective risk management aims to ensure that key risks to the Council are identified, managed, and communicated appropriately and that suitable controls are put in place to mitigate risks to acceptable levels.

5. Financial impact

- 5.1 There is no direct financial impact arising from this report.
- 5.2 Control measures to mitigate risk may have an associated cost which is to be funded from existing budgets in the first instance.

6. Risk, policy, compliance and governance impact

6.1 Effective risk management aims to improve performance against objectives by contributing to more efficient use of resources, reduction in management time spent dealing with sudden shock events and more focus internally on doing the right things properly.

6.2 By its very nature risk management cannot guarantee to protect against every possible negative consequence. Even with a perfectly-functioning risk management framework, events considered significant or untoward with a low likelihood may still occur, resulting in significant negative consequences.

7. Equalities impact

7.1 There are no direct impacts upon equalities arising from this report.

8. Sustainability impact

8.1 There are no direct impacts upon sustainability arising from this report.

9. Consultation and engagement

9.1 As part of the Council's risk management framework the information in Appendices 1 and 2 has been discussed, challenged and agreed by the CLT.

11. Appendices

Appendix 1 – CLT Top Risks as at 6 December 2017

Appendix 2 – CLT Top Risks with Mitigating Actions

Appendix 1 - Corporate Leadership Team (CLT) Top Risks

Health and Social Care 1.

Due to increased demands for services and associated demographic changes, leading to significant financial pressures, compounded by historic funding arrangements and traditional service models, there is a significant risk that the Council fails to implement and/or deliver appropriate health and social care arrangements, as required under the terms of the Edinburgh Integration Joint Board (EIJB). The potential impact of failure to manage this risk effectively could include direct harm to people, safeguarding breaches, inappropriate care packages being offered and significant reputational damage to the Council with additional calls for funding from other Council budgets.

Capital and asset management 2.

Due to the age of a number of properties across the Council's operational estate, there is risk that properties are not of a sufficiently safe and sustainable standard for their continued use, potentially resulting in structural failures and/or negative health and safety consequences for staff, service users or members of the public. Associated with this, the Asset Management Strategy requires that decisions are made to dispose of properties in a planned manner. The risk associated with the implementation of the strategy is that disposal decisions are not made in a timely manner, which results in additional costs pressures for both the capital and revenue budgets and consequently demographic pressures cannot be responded adequately to by the property portfolio, particularly for education and health and social care services.

Transformation and change agenda 3.

Key deliverables, benefits and timescales for achieving change across the Council may not be achieved in line with business expectations, requirements, budgets and resources. This may result in adverse impacts on service delivery, the Council's finances and reputation.

4. Major incident

A sudden high impact event causes harm to people and damages infrastructure, systems or buildings. Buildings, staff and/or systems are non-operational for a time, resulting in a reduced ability to deliver services. Failure to deliver an appropriate level of service in the event of a sudden operational requirement may lead to harm to people and reputational damage to the Council.

Maintaining service with less resource 5.

Funding reductions, legislative changes, and increased demographic pressures, as well as the requirements of the City Deal and the Local Development Plan, mean that the legal requirement to deliver balanced budgets may be placed at risk. In addition, the anticipated need for further savings to deliver balanced budgets may create additional material pressure on our infrastructure, capital and revenue funding, the execution of the Council's business plan, with the associated adverse reputational impact.

6. Information Governance

A loss of data from the Council's control could result in fines, claims, loss of public trust and reputational damage. This risk takes into account the new requirements arising from the New General Data Protection Regulation due to take effect in May 2018.

Customer experience and expectations 7.

Customer dissatisfaction around delivery of citizen facing services (e.g. waste management, roads, etc.) may lead to increased complaints with consequential financial pressures and reputational damage.

Health and Safety 8.

There is a risk of non-compliance with the Council's legislative requirements and associated suite of health and safety policies and/or failure to comply with procedures or applicable legislation could lead to an incident resulting in harm to staff, service users or members of the public, liability claims, regulatory fines and associated reputational damage.

Workforce Capacity and Capability 9.

The risk is that the Council is unable to recruit, retain, develop, engage and reward its employees effectively, including those in specialist roles to enable service delivery in a sustainable and affordable manner.

10. Major Programme and Project Delivery and Assurance

The Council is unable to ensure the effective management and successful delivery, on time and budget, of major programmes and projects. This risk also outlines the need for the Council to prioritise and deploy project delivery resource effectively, according to business needs, ensuring that benefits are realised and learning is shared effectively across all delivery activity.

11. Homelessness

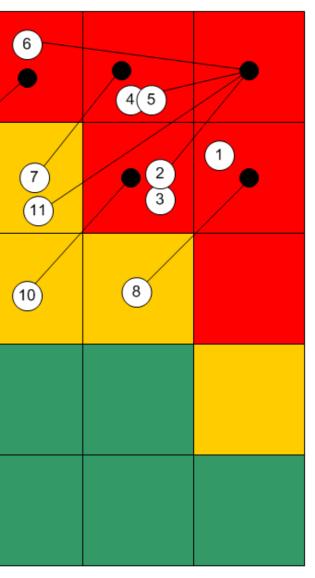

Due to planned welfare changes, the introduction of Universal Credit, changes to the benefit payment process, and a buoyant private rented market, greater demands will be placed on homelessness services across the city. Move-on, permanent accommodation for homeless people is not sufficient to meet this demand and there is insufficient capacity in temporary accommodation, leading to

	9	
Likelihood		

presented in any ranked order.

Impact

These are the top risks to the Council as at 6 December 2017 and are not

more people rough-sleeping or in sub-standard conditions, and to breaches in the Council's statutory duties. The cost of mitigating both this risk and the reduction in rent collection rates is not accounted for in current budgets.

Appendix 2 - CLT Top Risks with Mitigating Actions

	Risk description	I	L	Current key mitigating controls	I	L	Further actions
1	Health and Social Care delivery Due to increased demands for services and associated demographic changes, leading to significant financial pressures, compounded by historic funding arrangements and traditional service models, there is a significant risk that the Council fails to implement and/or deliver appropriate health and social care arrangements, as required under the terms of the Integration Joint Board. The potential impact of failure to manage this risk effectively could include direct harm to people, safeguarding breaches, inappropriate care packages being offered and significant reputational damage to the Council with additional calls for funding from other Council budgets.	5	4	 Corporate Policy and Strategy Committee to scrutinise health and social care performance, delivery and risk management Recruitment for new full-time Chief Officer of the IJB underway from 24 Nov 17 Access to external experts for capacity and capability and knowledge sharing Partnership working with service areas and IJB (IJB Procurement Board) the Council's Chief Internal Auditor is also the Chief Internal Auditor for the IJB thereby ensuring auditing of key risks Implementation of Health and Social Care Improvement Programme initiated in December 2017 	5	4	 Risk manage appointment (subject to fu Partnership In 15 December Appointment complete in N

Status of the ICT Programme

Item number	7.7	
Report number		
Executive/routine		
Wards	All	
Council commitments		

Executive Summary

The purpose of this report is to give an overview of the programme of works within ICT and of the current service delivered by the Council's external ICT partner, CGI.

Since the last update report was presented to the Committee, there have been an increased number of critical faults in the network and this has had a significant impact on the council's ability to deliver core services. Most major change programmes required to be delivered by CGI are at least 12 months overdue and there are several still in a replanning stage. These service failings and change programme delays continue to adversely impact the transformation of the Council and the delivery of more efficient and effective services for the benefit of citizens, pupils, Councillors and Council officers.

In December 2017, given the issues experienced by the Council, a review was held by the Council with the CGI Global Chief Executive Officer at which CGI committed to the delivery of an improvement plan focussed in three areas: service stability, security and a deliverable change and transformation programme.

Status of the ICT Programme

1. Recommendations

1.1 It is recommended that the committee notes and scrutinises the update.

2. Background

ICT strategy

2.1 The City of Edinburgh Council's current strategy to deliver the vision for ICT services is to focus on understanding citizen and colleague needs to deliver the outcomes that matter to them. The current ICT and Digital Strategy is business driven and action orientated. The diagram below summarises our operating model to support the empowering of Edinburgh through the use of ICT and Digital.

2.2 By defining the Council's approach around the benefit that citizens and colleagues will receive, through enablement by ICT and Digital, we will maximise the value that can be delivered from our reducing resource base. This will help us to deliver a 'One Council' focus to designing and sourcing our ICT and Digital provision whilst

Governance, Risk and Best Value Committee – 16 January 2018

enabling citizen and colleague-centric delivery, i.e. what the Council needs to deliver the services where service users need it.

CGI – External ICT Partner

- 2.3 The Council has operated an outsourced ICT arrangement since 2001. A new contract for ICT services was entered into in 2016 to continue with a prime supplier model but in a non-exclusive contract to transform the existing ICT service into a flexible, scalable service and to implement an output based contract(s) ('what' we get rather than 'how'). The new contract is intended to save the Council at least £6m per annum against the 2015/16 ICT baseline spend, £45m over the first seven years. ICT Services, under this contract, are procured on a utility basis (flexible "pay as you go" terms). The contract is also structured to deliver 25% of the value of ICT services over the term of the contract through subject matter expert's.
- 2.4 The term of the contract awarded was for "up to 19 years" to CGI, with periods awarded as 7 years initially, with the option for the Council to extend by 5 years, a further 5 years and a final 2 years. CGI are contractually responsible for providing to the Council: service transition, service transformation and operational services delivery, initially comprising of 93 Output Based Specifications including base services, utility services, and business case development services.

Major Change Programmes

- 2.5 The portfolio of major change programmes that CGI is responsible for delivering for the Council includes a number of critical service developments. These are outlined as follows:
- 2.6 Wide Area Network: To deliver a high bandwidth, fibre-based wide area network delivering improvements in operational efficiency, productivity, reliability and scalability to enable the next generation of digital learning opportunities in city schools and to improve commercial and cultural opportunities for live event streaming, webcasting and conferencing in the city's cultural venues.
- 2.7 LAN and Voice: to reduce infrastructure costs and complexity, to implement flexible 'find me/follow me' call routing allowing remote and mobile working and to create opportunities for further innovations and savings through evolving work practices.
- 2.8 End User Compute: to allow anytime, anywhere access to email, important documents, contacts, and calendar across devices, to share large, hard-to-email files both inside and outside the Council.
- 2.9 Enterprise Resource Planning (ERP) / Business World: A single repository for all financial and HR transactions, providing one trusted source of all financial information, to reduce printed invoices by utilising electronic invoicing and manual payment plan maintenance enabling a reduction in staffing and an enabling platform to deliver wider savings.
- 2.10 Customer Digital Enablement (Channel Shift): to improve citizen engagement with real time, online transactions across Council services, to increase operating efficiencies and significantly reduce the cost of end-to-end transactions and to

improve citizen insight and enabling agile and rapid development of future online services.

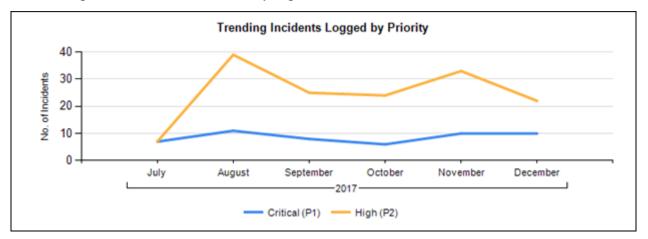

- 2.11 Web: to deliver a best in class web platform for citizen transactions, enabling and accelerating channel shift and reduce operating costs.
- 2.12 Libraries: to improve the user experience of the library system to better engage citizens and increase adoption through improved user interface, to reduce operating costs through lower cost software and increased device support, and to become a single library management system.

3. Main report

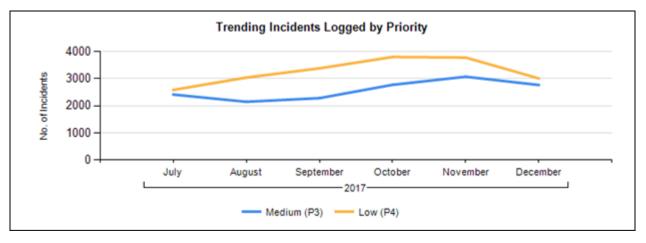

- 3.1 Since the contract commenced CGI has consistently underperformed on their contractual commitments. Major change programmes have missed the original delivery dates, and in a number of cases revised delivery dates. This has meant that Council has been unable to realise the service transformation benefits and/or the full expected profile of savings envisaged through the contract.
- 3.2 The Council has consistently invested significant senior management time and the totality of its small team of in-house ICT professional resource to manage the contract effectively on behalf of taxpayers. This has and continues to include: weekly, monthly and executive review meetings with senior CGI staff regarding the overall delivery and performance against contract and the issue of legal correspondence. Without exception CGI has committed to improve their overall performance and delivery and whilst there have been some improvements, this has not been with the necessary pace or rigout that their the contract specifies or the Council requires. This situation led to a face to face meeting with the CGI Global Chief Executive Officer being convened by the Council on 8th December 2017. The Leader and Deputy Leader of the Council along with the Council's Chief Executive, Executive Director of Resources and Chief Information Officer/Head of ICT all attended this meeting. As a consequence of this executive review, the CGI Global Chief Executive Officer committed additional resources and, critically, his personal involvement, to enable service improvements to be delivered. The service improvement plan that CGI are now being required to deliver focusses in three areas: service stability, security and a deliverable change and transformation programme.
- 3.3 Senior CGI staff will attend the Governance, Risk and Best Value Committee meeting, including the CGI Vice President responsible for day to day contract delivery for the Council. This will provide an opportunity for direct scrutiny of the delivery of the three key improvement areas highlighted.

Service Performance

- 3.4 Since August there has been an increase in the number of critical incidents. These incidents have had a major impact on the council's ability to deliver services. The root cause of these incidents has been a combination of unapproved changes being implemented by CGI personnel and the acceleration of project related changes which have not been adequately managed from an interdependency mapping or testing perspective.
- 3.5 Service incidents are categorised into four different classes, with the most severe, classified as P1 or critical service incidents, an example of a P1 incident would be a significant network failure.
- 3.6 The first graph shows the trend for the most severe incidents, P1 and P2, which have occurred on a monthly basis. Whilst the volume of incidents, particularly P1s, may be considered low, the impact upon Council operations and services of a single P1 incident can be very significant.

3.7 The volume of incidents classed as P3 and P4, per month, in outlined in the following graph. Whilst the impact of these may not be as significant as a P1 or P2 incident, the cumulative impact of issues logged should also be considered as a key part of contract delivery by CGI.

Major Change Programme Performance

3.8 The current status of the key major change programmes, as assessed by the Council, is as follows:

Project	Contract RAG	RAG August GRBV	RAG Now	Target completion date	Status update
Business World				Q4 2018	This programme has been pushed back again. Likely completion date Q4 2018.
Customer Digital enablement				TBC by CGI	This programme is currently being re-planned and the focus will be on the top 20 transactions. No project plan or completion date.
Wide Area Network				Completed	Completed.
Local Area Network				03/11/17	All sites have had the network upgraded however remediation work is required as there is Wi-Fi coverage issues across a number of sites.
Voice				31/01/18	8 sites still to be completed. The contact Centre telephony is also due to migrate in January
End User Compute				30/07/18	The corporate device refresh programme is due to commence in February 2018 however no agreed dates for the Learning and Teaching upgrades.
Libraries				Completed	Phase 1 project completed.
Room Booking's				Completed	Phase 1 project completed.
Parent Pay				31/08/17	Completed.
Cashless Catering				30/09/17	Completed.

3.9 In addition to the major programmes above there is also a large volume of small and complex changes. The delivery of these other changes There has seen a significant amount of focus from CGI, particularly since the Executive Review meeting in December 2017 and the backlog of change requests in these categories has reduced from a total of 373 to 253 change requests, with the average age of requests being delivered reducing from 190 days to 90 days. Whilst such an improvement is welcome, this has been significantly supported by additional CGI resource being deployed to address the backlog and the Council implementing a short-term change freeze to reduce further requests adding to the historic backlog volumes which CGI has not closed.

Governance and Contract Management

- 3.10 There are various boards and governance meetings used to manage the entire ICT programme and contract as follows:
 - Executive Review
 - Programme and Service Review Meeting
 - ICT Partnership Board
 - Supplier Management Board
 - Programme Boards
 - Innovation Forum
 - User Group
- 3.11 The programme and service review meeting is held on a weekly basis and at this forum the major programmes, the change projects, new proposals, security issues and service escalations are reviewed.
- 3.12 The role of the Governance, Risk and Best Value Committee as a key element of the Council and its external ICT partner being scrutinised is also deemed critical.

4. Measures of success

- 4.1 The main measure of success is to deliver the revised programme of works as per the project plan.
- 4.2 The outcomes are clearly defined and these will be measured as part of any sign off process i.e. Milestone acceptance certificates.

5. Financial impact

- 5.1 There are two key mechanisms to recover monies based on CGI's performance:
 - Service Credits: Due to poor performance CGI are liable to pay service credits.
 - Delay Deductions: Due to the failure to deliver the Major Programmes of work CGI are liable to pay delay deductions to the Council.
- 5.2 The Council has not formally applied these sanctions from a financial perspective, given that this continues to drive CGI to deliver improvements. However, the Council has taken the opportunity, where appropriate to do so, to withhold payment to CGI as a result of non-delivery.
- 5.3 Owing to the delays entailed and non-delivery concerned to date, the Council is currently reviewing its internal ICT service resource allocation to ensure that sufficient expertise in the key areas for improvement are available to draw upon. This potential increase in in-house resource may have financial implications, which are being quantified at present. It is intended that any such resource increase should be contained within the existing ICT service budget, where at all possible.

Governance, Risk and Best Value Committee – 16 January 2018

6. Risk, policy, compliance and governance impact

- 6.1 Since the contract commenced CGI have underperformed on the contractual commitments. Transformation programmes have missed the original delivery dates, and in some cases the revised delivery dates and this has meant that Council has been unable to realise the benefits and/or savings as originally envisaged.
- 6.2 The Council has assessed the contractual remedies available to it in respect of the non-delivery of the contact by CGI to date. Subject to the CGI improvement plan arising from the December 2017 Executive Review meeting.
- 6.3 The Council's Corporate Leadership Team (CLT) risk register, formally identifies the risks associated with non-delivery of the ICT Programme, ensuring that sufficient mitigations and active management of these risks continues to be undertaken.
- 6.4 The Council's internal audit plan for 2017/18 includes provision for an ICT contract management audit, during quarter 4 of the financial year. This audit is considered an important part of the assurance and testing of the Council's contract management arrangements for the ICT service provision and will be completed and reported to a future meeting of the Committee.

7. Equalities impact

7.1 Not applicable.

8. Sustainability impact

8.1 Not applicable.

9. Consultation and engagement

9.1 Whilst there are no formal consultation and engagement implications arising from this report, the Committee is advised that concerns have been raised by one of the Council's main recognised trade unions, UNISON. These concerns are about the impact that the continued level of service incidents and delays to change programmes are having upon the ability of their members to successfully undertake their work.
