Internal Audit: Overdue Recommendations and Late Management Responses

Item number	7.4		
Report number			
Executive/routine			
Wards			
Council Commitme	ents		

Executive Summary

This report sets out all overdue Internal Audit (IA) recommendations across the Council as at 19 January 2018, providing further status updates and likely implementation dates where they have been provided by Service Areas (Appendix 1).

There were 69 open Internal Audit recommendations across Service Areas as at 19 January (in comparison to 65 at 26 October 2017). Of these 47 (68%) are overdue in comparison to 31 (48%) as at 26 October. During the period, 6 overdue recommendations were closed and a further 22 are now reporting as overdue. Further detail is included at 3.5 to 3.11 below.

This report also highlights audit reports that have been issued in draft where final management responses have not been received within our two-week service standard. As at 19 January there were 2 draft reports where management responses were not received within the two-week requirement, and 1 report that has been delayed due to changes in the Internal Audit team. Further details are provided at 3.16.

Report

Internal Audit: Overdue Recommendations and Late Management Responses

1. Recommendations

- 1.1 Members of the Governance, Risk and Best Value Committee are requested to note:
 - 1.1.1 the status of the overdue Internal Audit recommendations as at 19 January 2018;
 - 1.1.2 that there are were two reports issued in draft as at 19 January where management responses were not received within our two-week service standard, and that one of these has been delayed due to changes in the Internal Audit team; and
 - 1.1.3 the proposals included at section 3.3 and 3.4 to address challenges associated with timing of audit responses received and quality of evidence provided to support closure of recommendations.

2. Background

- 2.1 Following concerns expressed by the Corporate Leadership Team (CLT) and elected members of the Governance, Risk, and Best Value Committee (GRBV) about the number of overdue Internal Audit recommendations being reported to the GRBV each quarter, CLT has requested a monthly update.
- 2.2 It is anticipated that the greater visibility that this monthly reporting provides will result in more Internal Audit recommendations being closed off in a timely manner.
- 2.3 At the CLT meeting on 10 July 2017, revised proposals for monitoring and reporting on overdue Internal Audit recommendations were approved. This paper provides an update on overdue recommendations in line with the revised approach.
- 2.4 The Internal Audit definition of an overdue recommendation is any recommendation where all agreed actions have not been implemented by the final date agreed and recorded in Internal Audit reports

3. Main report

- 3.1 The revised Internal Audit Process to obtain updates from Service Areas on all open recommendations by the 15th of each month was implemented in September 2017. This has resulted in more proactive engagement on both open and overdue recommendations Service Areas, however, a number of updates continue to be received late.
- 3.2 Quality of evidence provided to support validation remains an ongoing challenge. Agreed actions are often confirmed as completed by Senior Management whilst subsequent Audit validation confirms that controls have not been fully and effectively implemented. This results in Audit providing further advice and often reperforming validation work to support final closure.
- 3.3 At CLT on 1 November 2017 it was agreed that each Service Area would nominate a representative who will be responsible for coordination of all audit updates and responses (including provision of evidence), and that IA would facilitate a workshop with all representatives to explain the validation process and expectations in relation to quality of evidence to support closure of recommendations.
- 3.4 Since then, IA has been exploring whether the TeamMate audit system could be reconfigured to support automation of the open and overdue recommendations reporting process. We have now confirmed that this is possible and are working with the system providers to make the relevant changes. These changes will enable:
 - 3.4.1 generation of automatic reminders for Service Areas as in advance of completion dates;
 - 3.4.2 nominated representatives from Service Areas to enter progress updates and attach evidence directly into the system;
 - 3.4.3 automatic generation of monthly dashboards for each Service Area that illustrates their open and overdues position; and
 - 3.4.4 automated reporting on the overall position across the Council to support both CLT and Governance, Risk, and Best Value Committee updates.

A further meeting with the system supplier took place on 7 February, and a pilot of the new process is planned for March and April, with a view to implementing the new process in July 2018.

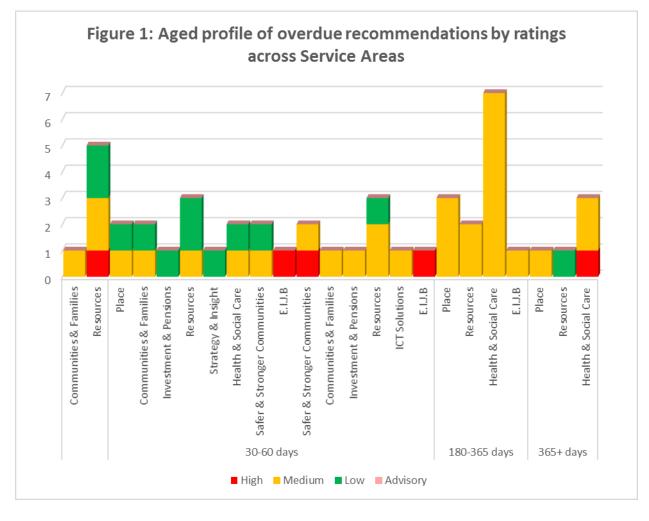

These timeframes will enable completion of the pilot and implementation of the new process, supported by provision of training for service area representatives. The agreed actions noted at 3.3 will be incorporated within our system implementation plans.

3.5 There were 69 open Internal Audit recommendations across Service Areas as at 19 January 2018. Of these, 47 (68%) were overdue (5 High; 30 Medium; and 12 Low) in comparison to 31 (48%) as at 26 October. During the period, 6 overdue recommendations (2 High; 2 Medium; and 2 Low) were closed and a further 22 (3 High; 9 Medium; and 10 Low) are now reporting as overdue.

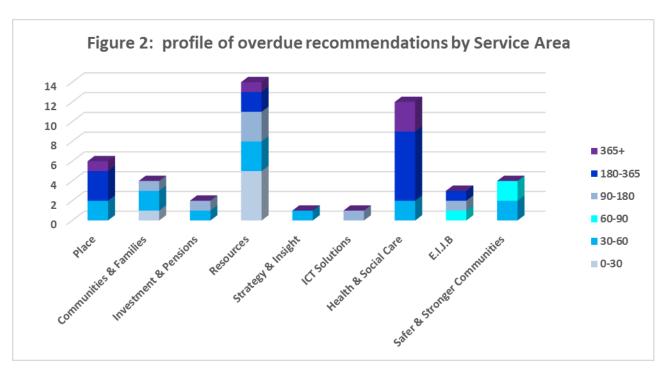

- 3.6 This increase in overdue recommendations is attributable to the high volume of recommendations that were due for closure in November and December, and also recommendations in relation to shadow IT (4 Medium) and service level agreements with outside entities (6 Low) that were allocated across all Service Areas (following agreement by CLT on 30 August 2017) that have not yet been fully concluded.
- 3.7 Evidence has been provided by Service Areas for 13 of the overdue recommendations (7 Health and Social Care (H&SC); 4 Resources; and 2 Safer and Stronger Communities (SSC)). IA has reviewed the evidence provided and is engaging with management, however, evidence provided is not yet sufficient to close these recommendations.
- 3.8 Six Medium overdue recommendations have been closed in the period across the following Service Areas:
 - Health and Social Care (1 High)
 - Resources (1 High; 1 Low)
 - Place (1 Medium; 1 Low)
 - Strategy and Insight (1 Medium)
- 3.9 22 recommendations (3 High; 9 Medium; and 10 Low) have now become overdue. These are:
 - Edinburgh Integrated Joint Board (EIJB) / H&SC (3) 1 High (**HSC1604ISS.1 – IJB Data Integration and Sharing); 1 Medium (CW1602ISS.1 – Disaster Recovery / Shadow IT) and 1 Low (HSC1715ISS.4 - EADP Contract Management);
 - Resources (7) 1 High (**RES1601ISS.1 Supplier Management); 3 Medium (RES1615ISS.4 and ISS5 Property Maintenance and **RES1712ISS.2 Asset Management Strategy); and 3 Low (**RES1712ISS3 and 4 Asset Management, RES1705ISS3 and RES1605ISS.1 Service Level Agreements with Outside Entities);
 - Investment and Pensions (2) Low (RES1605ISS.1 Service Level Agreements with Outside Entities and RES1705 Information Governance);
 - Strategy and Insight (1) Low (RES1605ISS.1 Service Level Agreements with Outside Entities);
 - Safer and Stronger Communities (4) 1 High (**SSC1701 Short Term Homelessness); 2 Medium (SSC1701ISS.4 – Short Term Homelessness and CW1602ISS.1 – Disaster Recovery / Shadow IT); and 1 Low (RES1605ISS.1 – Service Level Agreements with Outside Entities); and
 - Communities and Families (3) 2 Medium (CF1621ISS.3 GIRFEC Named Person and CW1602ISS.1 – Disaster Recovery / Shadow IT) and 1 Low (RES1605ISS.1 – Service Level Agreements with Outside Entities)
 - Place (2) 1 Medium (CW1602ISS.1 Disaster Recovery / Shadow IT) and 1 Low (RES1605ISS.1 – Service Level Agreements with Outside Entities)

Where recommendations are noted as ** in the list above, initial evidence has been provided and IA is working with management to obtain sufficient additional evidence to support full closure.

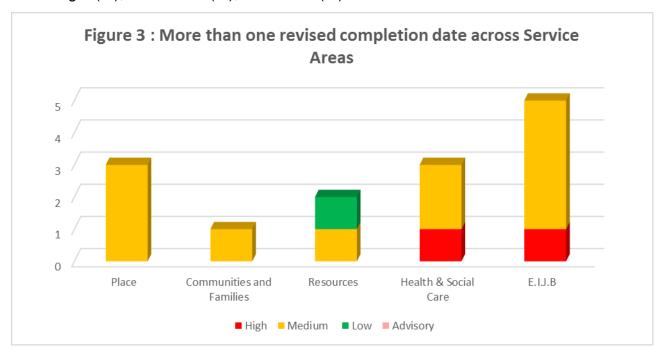

- 3.10 One High rated recommendation owned by Health and Social Care was due for completion by 31 January 2018 (HSC1604ISS.2 IJB Data Integration and Sharing). It is expected that this recommendation will be closed imminently following approval of a pan Lothian memorandum of understanding in relation to information sharing between relevant Councils and the NHS by the Health and Social Care's Chief Officer and the Council's Chief Executive on 14 February 2018.
- 3.11 One Medium recommendation (Resources Asset Management Strategy RES1712ISS.3) has been reduced to a Low based on evidence provided by management that confirms the risk has been partially addressed.
- 3.12 Figure 1 illustrates the ageing profile of all overdue recommendations by rating across Service Areas. Of the 47 overdue items, 18 are more than 180 days overdue (1 High; 16 Medium; and 1 Low) in comparison to 17 at the end of October, with 5 of the 18 (1 High, 3 Medium and 1 Low) more than 365 days overdue in comparison to 6 last month.

3.13 Figure 2 highlights the ageing profile of overdue Internal Audit recommendations for each Service Area.

3.14 Figure 3 illustrates that there are 14 overdue recommendations where completion dates have been revised more than once since the implementation dates agreed with Service Areas when finalising audit reports. This is a decrease of 6 in comparison to October. This decrease is driven by EIJB (+1); Health and Social Care (-1); Strategy and Insight (-2); Resources (-2); and Place (-2)

- 3.15 There are also five open (not overdue) recommendations where agreed dates for specific actions have been missed. These are:
 - Strategy and Insight ICO Follow Up (RES1606ISS.2 Medium);
 - Strategy and Insight Complaints Process (CF1619ISS.1 Medium);
 - Health and Social Care IJB Data Integration and Sharing (HSC1604ISS.4 -Medium); and
 - Resources Asset Management Strategy (RES1712ISS.5 Low).
- 3.16 Internal Audit has categorised all overdue Internal Audit actions by Directorate showing the latest status updates where received. The detailed results of this categorisation are set out in Appendix 1.
- 3.17 There were 2 Internal Audit reports issued in draft as at 19 January where management responses had not been received within our two-week service standard. These are:
 - 3.17.1 Health and Social Care Care Homes Assurance review. Draft report was issued mid-October for management responses. The Interim Chief Officer, Health and Social Care Partnership attended the Governance, Risk, and Best Value Committee on 16 January 2018 to provide an update on progress with this report. The final report was issued on 11 February 2018, and details of the High recommendations raised will be provided to GRBV as part of the June 2018 quarterly IA update report.
 - 3.17.2 Resources Customer Transformation Programme. Review was subject to handover from the Principal Audit Manager who left in August to the Chief Internal Auditor. Further work was required and has now been completed with a report out in draft for management comment. The Audit should have been completed by end August 2017, and has not yet been finalised.

4. Measures of success

- 4.1 An increase in the implementation and closure of Internal Audit recommendations within their initial estimated closure date.
- 4.2 An improvement in the time taken to receive management responses and finalise Internal Audit Reports

5. Financial impact

5.1 Not applicable.

6. Risk, policy, compliance and governance impact

6.1 If Internal Audit recommendations are not implemented, the Council will be exposed to the risks set out in the relevant detailed Internal Audit reports. Internal Audit recommendations are raised as a result of control gaps or deficiencies identified during reviews therefore overdue items inherently impact upon effective risk management, compliance, and governance.

7. Equalities impact

7.1 Not Applicable.

8. Sustainability impact

8.1 Not Applicable.

9. Consultation and engagement

9.1 Not Applicable.

10. Background reading/external references

10.1 Not Applicable.

		Project Name	Group	Issue Cor Rati	ng Finding	Business Implication	Recommendation	Agreed Management Action	Status	Due Date	Revised Date	Revisions	Status U
Communities & Fami CW160215S.1	cw1602	Disaster Recovery	Communities & Families	65.1 Me	Following the transition of IT managed services to CGI, a DR programme has been established which is anticipated, would allow the Council to recover critical services and data in the event of major disruption or loss of IT infrastructure. However, enhancements are required to allow confidence th the DR programme will meet the recovery requirements of the Council and its stakeholders. The weaknesses in the DR programme, set out below may adversely impact upon the ability of the Council to recover critical systems effectively. Robust testing in line with the GC contractual requirement, of the Council 's recovery processes has not been performed to determine whether the recover solution is fit for purpose and to validate the effectiveness of the current design of recovery provisions and processes. The approach to classifying critical systems, as either 91, P2 or P3 (high, Medium, Low), is not consistent and does not consider other prioritisations within the Council to require the systems being inclassified from a Council wide perceptive. It inventory of system dependencies between critical Council systems is not regularly reviewed or maintained. Management review this on and ablo cabasis or when GC identify any weaknesses in infrastructure. There is no mandatory requirement for, or oversight d, OB provisions or testing for If systems that are procure, managed or maintained either outlide the GC is outract or without oversight from CI. Business owners and stakeholders for IT systems and services have not been updated, which may result in delays in implementing improvements and establishing business requirements.	tested and captures all Council critical services and systems, there is a risk that following significant ICT disruption (for example the loss of a datacentre or a major cyber security breach) the Council is unable to recover all critical data and resume business operations in a timely manner. The loss of critical ICT services for an extended period of time e or the inability to successfully recover data could result in significant operational and reputational damage to the Council.	processes should be vigorously tested to validate the ability of the Council to successfully recover systems and data within the defined timescales set by stakeholders. For systems that are identified which are not managed by central ICT (Shadow IT), Management should	Service Areas will identify all shadow IT (systems, applications and websites historically procured and implemented by Services that are not managed corporately by (TI in conjunction with CGI) and provide details of these to the Head of ICT. Information to be provided will include: - Name of the application - betails of the application provider - information on the Council service that the system support betails of any upport agreements and licence arrangements in t place with the system provider, including their expiry date - information re any available information no how the system is backed up to ensure that source data held on the system can be recovered An initial assessment of the system's critically based on definitions provided by ICT.	Overdue	30/11/17			IA Note: required
RES1605ISS.1	RES1605	Service Level Agreements with Outside Entities	Communities & Families	155.1 Lov	We reviewed the arrangements in place with 5 organisations to which the Council provides professional services. HSC1604ISS.1	HSC1604	UB Data Integration &	EIJ8.	ISS.1 Higi	The governance processes in place are not sufficiently mature to support the vision of seamlessly sharing data between both parties to the IIB. We observed the following areas of weakness: Role and responsibilities. Roles and responsibilities are not well defined or communicated between CE and ANHS, in particular relating to : Management of access to critical systems; Reporting and escalation of susces and Ensuing compliance well hegal information governance regulations . Management structure A process is currently ongoing to establish and capture cross party system access requirements for or the NHS; CC and external particle (e.g. OP practice es). While we recognise that th is exercise is now complete, at the time of the review, a management structure to manage access hans to been established, and there is no clear roadmap or timeline that details when and how access will be implemented. In the interim system access is being granted to individuo an and sho basis. Communication strategy During our review, it was observed that the communication strategy is not well defined. The UB dee not promote awareness of its remain to the benefits ic can facilitate to staff within CEC and NHS. This has resulted in a lack of awareness on the types of data, not originating from their 'home' organisation, which is now available to staff.	E There is a risk that UB members and the executive board cannot monitor progress segainst strat egic objectives effectively. With no clear implementation roadmap, the UB might experience resourcing issue or miss important dependencies between req uirements. If internal communication is not well defined , there is the risk that employees do not make best use of the available data with a knock on impact on patient/customer outcomes.	The LIB should ensure roles and responsibilities for the management of access to critical systems, reporting and escalation of issues and compliance with legal regulations are clearly defined and communicated.	Nominated officer to be identified in respect of ICT and Information Governance to take responsibility for ensuing that appropriate governance arrangements are in place for both the Glinburgh Integration Joint Board (EUB) and the Edinburgh Health & Social Care Partnership (EHSCP). November Update: a workshop to determine the information and communication needs of the UB, staff working within the Health and Social Care Partnership and the public took place on 1/11/17. The outputs from that workhop are currently helg analysed to determine the best way to nove forward. October update: A workhop is taking place on 1 November 2017 to discuss the information and communication needs of the UB, staff working within the Health and Social Care Partnership and the public. Following the workshop we will produce an evaluation of the needs identified, how these are currently met, any gaps and how they need to be addressed. Thios will be shared with staff, UB members and other stakeholders.	Wendy Dale,Strategic Commissioning Manager
	Drug (EAD Man	bburgh Alcohol and F g Partnership DP) – Contract nagement	eann à 300al Cait	53.4 LDW	On 2nd June 2017, the main provider contracted under the Adult Community Treatment Services Contract were timo Administration. The Joint Programme Manager advised that the provider contracted the EADP team towar ds the end of May to inform them of this and to advise that the contract terms and conditions were being transferred to another provider with immediate effect. It understood at that point that the original providers' staff had already been 'TUPEd' over to the new contract provider. The Joint Programme Manager noted that the Council was in the process of signing a Novation Agreement to transfer the terms and conditions over to the new contract provider. Newver, it is understood that the Novation Agreement is still unsigned (as a tour audit closing meeting of 3rd October) although the provider has been providing service delivery under contract since the transfer of staff in June.		The EADP Novation Contract Agreement should be signed by both parties immediately.	EADP Joint Commissioning Officer will follow up the novation agreement for the new contract and resolve by the end of November 2017.						David Williams,EADP Joint Commissioning Officer
	Opti				Sottis Government collects data on SDS users through annual and quarterly statistical surveys of local authorities. The answers to survey questions are based on data held in Swift. The accuracy and completeness of data input is therefore essential. There have been several changes in the assessment process and data captured in the pays year such as: "Eligibility of survives (so in which data is required by Scottish Government) has been recorded since January 2015; ' initial steps to support' assessments were in use for new contracts between Augus 2014 and Nay 2015 but in owu sed only for or lois care, have personal apport plan was introduced in October 2015. Where a new personal support plan is used, ' Option 4' is now recorded as a combination of Option m 1, 2 and 3. There was no cut-off data after which all assessments would be carried out using new templates. The full process of assessment and arranging care can be lengthy. This means that there are several different ways of recording assessments usuing a combinet data captured in each one. It is therefore difficult to extract complete and accur ate data for management information and for reporting to Scottish Government.	likely tobe incorrect. Data quality is a flected where several processes to capture the same information are in use. There are over 500 practitioners completing assessments on Swift: multiple process chan areas over a short period of time increase the likelihood of errors in data input.	year as a result of the Transformation Programme and integration with the NHS. A change management process should be inplace to minimise the number of process and recording changes through the year, implement clear cu-off dates, and to ensure changes are communicated to staff clearly. In the meantime, Research and Information should be aware of the likely inconsistencies in data recorded and ensure th at reports are thoroughly reviewed before issue.	Infrastructure Steering Group. The inconsistencies in data recording are as a result of numerous changes to processes and trying to reduce the recording burder of implementing these on frontline practitioners. The Research and Information Fram are aware and al changes to recording practice and take these into account. A summary of all changes and the impact on data extraction has also been produced.	Validation progress		31/03/18	31/12/17 30/06/17	Current Position at 11/0/118 - Overdue - IA Validation in Progress Compliance and Data Quality Team Manager now in place, rest of the Team starts on 8/1/18. HSC1504 ISS.1	HSC1504 Care	e Sector Capacity E	LIB.	ISS1 Medium	A Joint Strategic Needs Assessment (JSNA) has been drafhed by the Research and Information team in preparation for health and social care integration. This analyses demographics across the city and the attendant pressures on social care provision such as life expectancy. Thorbitry, deprivation, prevalence of unpaid carers and employment levels (affecting both need for social care and the availability of carers). While the JSNA gives a sophistcated analysis of the current demographic and economic profile of the city, it is a napshot based on historic statistics. Forecasting is limited to percentage provide acroth a toth NA and and NE aroots of S o Caland population projections by age group. The demographic trends and pressures on social care provision identified in the JSNA gives acrost of S contand population projections by age group. The demographic trends and pressures on social care provision identified in the JSNA gives acrost of S contand provisions identified in the JSNA gives acrost of S contand social care in the or the aronal team is direct they will have on demand for services in the medium-to long-term. This means that the Council does not have a robust forecasting model of demand for social care in the City to inform its strategic planning.	of future service provision; New service structures and initiatives may be c reated in an attempt to address current problems which are not suitable for changing demands caused by foreseeable mov ement and trends in the population.	forecastig m odel for demand for social care in the City. This should involve an appropriate level of scrutiny of the reliability of the data used and the assumptions used in the model. We recommend that an officer from Health and Social Care is involved in the development of the JSNA in order to assess the assumptions used. The forecasting model should include a sensitivity analysis to assess the likely import of variation in forecast trends. This is particularly important given the recognised breadth and complexity of social and economic factors affecting demand for care. Gap Analysis Once demand for homecare services has been forecasted, the Service should identify the gap between current and required capacity. If the forecast is sufficiently nuanced, the Service will be able to identify the	Forecasting The Edinburgh Health and Social Care Partnership 's Strategic Plan includes as a priority the improvement of our understanding of the strength and needs of the local population. Through the ongoing development of the ISNA. A working group has been established to carry out this work. Members include colleagues form Public Health in NHS tothin as well as from the Health and Socia Care Partnership. — One of the work streams which have been identified for groups, and our P ublic Health in NHS of the scating needs anong specific groups, and our P ublic Health colleagues are supporting this work. Sensitivity analyses will be built into forecasting models. Gap Analysis Exist in methods enable the gap to be identified between demand and supply in broad torms. Further work will be done in conjunction with Strategic Planning and Contracting colleagues to provide analyses in relation to specific service models. Ingelmentation improved understanding of the strengths and needs of local populations, and the gap between demand and supply, will be used to develop service models and will inform strategic planning.	Validation progress		31/12/17		November Update: - Ovedue - IA Validation in progress. Further evidence supplied by Eleanor Cunningham for validation by Hugh Thomson Current Position at 24/10/17 - Overdue - IA Validation in Progress. A meeting took place with Internal Audit on 17/10/17 to Gotson sthe current approach to forecasting and what evidence is required for this recommendation to be closed. It was agreed that further evidence would be submitted for consideration by Internal Audit. September update : A meeting has been arranged for mid Cotober with Internal audit to provide them with evidence of recent work underfaken in relation to demand forecasting in order to establish whether or not this addresses the concerns raised in the report. This action is being taken forward through the ongoing development of the ISNA and the development of the Capacity and Demand Plan for Older People.	Wendy Dale, Strategic Commissioning Manager

Other update: Resourcing issues in respect of performance management to be addressed as part of Phase 3 of the Health MacCold Care transformation. Owner for this action to be changed to Michelle Miller Squetmeet products: the Interim Cirle Officer. EH&SCP currently exploring any key gaps in infrastructure support such as performance management and identifying how to address these. Implementation date extended: the support services part of the new structure has not progressed as quickly as anticipated.
HSL1604 ISS.2 HSL1604	UB Data Integration &	ELIS.	ISS.2 Hgn	During interviews conducted with NHS and ECC, It was noted that two processes (specifically access management and communication protocols for data sharing) do not fully sport the objectives of the UB. Responsibilities for ensuring that access rights to NHS and ECC systems remains appropriate have not been estabilished. Currently, management with NHS should notify CE and vice versa of staff joiners, leavers or movers. This allows access rights to be updated in line with revised operational requirements. However, there is no formal documented process or guidance that sets out the requirement to notify the two bodies of staff changes , and interviewes reported that access control is inconsistently applied (for example on all managers notify their ' non-home ' organisation ' of staff changes). Currently, communication protocols for data sharing are in place. However, we observed that these protocols were not fully established and not sufficiently mature enough on data protection to properly support the objectives of UB.	notify their 'non-home' organisation of staff changes. This could lead t access rights not being updated for leavers or movers and result in confidentiality of sensitive citizen data being put at risk, leading to regulatory fines or censure. Immature data sharing protocols increase	fully established and mature on data protection.	A pan Lothian General Data Sharing Protocol that facilitates trust among all parties (MHS Lothian, Edinourph, Esst, West and Mid Lothian Concolls and UB)s is now in place and the Memorandum of Understanding (MOU) defining the joint data controller responsibilities between the Chy of Edinburgh Council, NHS Lothian and the EUB is in the final draft. It is envisaged that the MOU will be signed off by all parties by the end of June 2017. Once sign off has been achieved details will be shared with staff through the regular staff newsletter. The existing processes within the Council and NHS Lothian for notifying system	Overdue		31/01/18		December update: The Pan Lothian Agreement (final draft) has been circulated to respective Lothian Council legal teams for comment. Merior Withraham, and CEO igard. CEC Legal Services have agreed document, other legal teams are holding up the process. Meeting has been arranged Information Governance. Manager, Corporate November update: the memorandmum of understanding is now in the final draft but is still with the legal Teams in CEC and NHSL. At the EHS2/ICT and Information Governance. Manager, Corporate Governance. October update: Once the Memorandum of Inderstanding has been signed by all parties, a communication will be produced for distribution to all staff linked to the communication following the workshop to be held on 1/11/17. See response to the action above. Current Position at 16/01/18 -Overdue. Change of 'hsue' Owner'. A' Handover meeting' was held between the Strategic. Wendy Dale, Strategic.
						implemented to ensure access to CEC and NHS systems remain appropriate. This should include processes to ensure that changes are applied in a timely manner and access rights are regularly recertified. This would provide assurance to system owners over the operating eff e cliveness of these controls.						Commissioning Manager and the Operations Manager on 08/01/18. IA Note: The Operations manager met with Internal Audition L10/11/8 and Iwa sagreed that the required update would be deferred to the following month. November update: an individual has now been appointed to the post, funded by Resources and will begin to develop a work plan. A hand over will be arranged with the existing action owner. October update: This recommendation will be post funded by Resources. The post will have a range of responsibilities, inicuding information governance, business continuity and resilience, health and safety and coordination of the HSC Partnership risk register. As it is anticipated that recruitment may not be completed before 31/12/1 a completion date 31/3/18 is proposed
HSC1604 ISS.3 HSC1604	UB Data integration &	ELIS.	ISS.3 Medium	During our audit procedures, we observed there are compatibility and connectivity issues when using CEC hardware at NRS locations or to access NHS owned systems and vice wers. LEC staff have experienced difficulties in connecting through Wi-Fi at NHS sites (and vice versa) in order to access their emails, and some systems cannot be accessed using specific hardware such as mobile devices (i.e. tablets, mobile phones).	Inere is a risk of the operational emicency and errectiveness being impacted by an inability to access system in a timely manner.	The UB should ask for a review of connectivity and hardware compatibility to be conducted in NHS and CEC sites, to ensure all staff can be fully operational wherever they are located.	The ICT and Information Governance Seering Group will request a review of connectivity and hardware compatibility to be conducted across all steets housing integrated teams and consider any recommendations arising from that review. Unque No Project Code PLI601 ISS.5 PLI601	Project Name Recycling Targets	Group Place	Issue Cor Rating	Indiag Although there is considerable recycling internally within the council, there is currently no internal waste management policy. The Waste and Recycling Strategy 2010 - 2025 focuses on external, public waste but there is on supportingosicy which specifically states how the Council itseff as amajor local employer, plans on reducing waste arising from its own operations (e.g. schools, council offices) and increasing recycling participation. The Council's strategic aim its to reduce overall waste being set to landfill within the local authority by increasing recycling participation. Budgets h are been set aside for schemes to increase public awareness and participation in an effort to achieve this strategic aim, however, a group of contributors to Edinburgh's overall waste (i.e. Council employees themselves) is being overlooked by not allocati in g sufficient resource to internal waste management schemes. In addition, there is a lack of data on how much waste is sent to landfill as a result of Council operations; therefore it cannot be accurately quantified how much the internally generated waste is costing the Council in landfill charges.	financial and environmental impact: - Risk of reputational damage due to lack of own strategy; and	Internal waste management or resource efficiency policy that embrace reducing, reusing and recycling. Many staff members will live in the City of Edinburgh Council, therefore generating waste at work and at home. Providing this awareness at work could realise additional benefits for the Council as a potential reduction for both internally generated waste and household generated waste within the local authority. With the continued future increases in landfill tax, it is advisable that the Council lias ab potentian consideration to advisable that the Council lias ab potentian consideration to the Council least optical potentian of the consideration of the consideration to the consideration of the consideration of the advisable that the Council least by example and pixels consideration to the consideration of the consideration of the consideration to the consideration of the consideration o	Agreed Management Action (0 Upr opposed management action is to approach the Sustainable Development Un is and Facilities Management to establish a working group to review any existing internal waste policy, the purpose being to incorporating this within, and consult o a refreshed Waste Strategy Document (life Action 2). The inclusion of the Sustainable Development Unit is critical in moving froward this action as they hold responsibility for development of the Council's internal waste policy and recording data on internal waste arriangs. Waste & Fleet Services will commit to taking the lead in establishment of the internal working group. Opportunities to improve the way in which the Council gathers and records data on its own waste arisings will be alve outcome of the working group. The Council 's Take Waste & Service (gart the Waste & Fleet structure) has already met with Facilities Management to identi opportunities to increase the range or frequing opportunities across the Council estate. New services such as food waste recycling will be available in major Council offices such as Waverley Court and is already available across a number of schools.	ı, f	30/09/16	Revised Dat	te Revisions	Status Update Owner Current Position at 18/12/17 - Overdue There is no one with formal responsibility for internal Council waste. RES1712ISS.4	RES1712	Asset Management Strategy	Resources	155.4 Low	The contractual agreement between the Council and Faithful and Gould specifies that a target of 10% of the contilion surveys completed by Faithful and Gould's external surveysors are to be reviewed by the Council to confirm that the quality of surveys meets Council expectations. To date circa 5% of condition surveys completed by the external contractors have been reviewed. Although the surveys sampled and reviewed by the Council have found the surveys to be thorough and the reported costs realistic, issues have been noted regarding the categorisation of propersy condition findings. Condition surveys completed by the Council use a team of three fabric surveys and two Metchanical and Electrical surveyors. The lead officer inputs the results into the Computer Aided Facility Management (CAVI) system. The calls of the useryor. However, due to resource constraints, the officer performing the verification may be part of the original survey team.	parties and Council employees could result in failure to identify issues with quality or the estimated cost of repairs.	The volume of independent review of third party surveyors performed by the Council should be increased to meet the 10% target to ensure that any system issues with the quality of the surveys is identified and resolved. The review performed should ensure that survey grade applied (on a scale of A to D) accurately reflects the condition of the property and the costs associated with the repair.	well underway. Any surveys identified as inconsistent between identified costs and condition grade are being returned to the third party for further assessment. This has resulted in instances where the condition grade has been adjusted to reflect the level of spend required. A full LOS sample will be completed, along with scrutiny of any other obvious anomalies.		22/12/17		
CF1402 ISS.1	CF1402	School Meals	Resources	65.1 Low	For the school meals service delivered by SG, the roles and responsibilities of key officers within SC and C&F were of clarrly defined in a formal document such as a service level agreement (SLA) or working protocol. Although processes have not been formalised, good cross departmental working was evidenced between the C&F Development Officer and SIC Catering Performance Officer. This collaboration was specifically noted within the memu planning process. Similarly Facilities Managers (FMA) and Kitchen Supervicers work closely with School Business Managers to reache issues on site. It is understood that Corporate Facilities Management are producing SLAS for cleaning and janitorial services, hower catering is not stope at present. It is wered differently as the end user of the service delivered is external, i.e., the pupils rather than Council staff.	knowledge of key members of staff and staff changes may impact on the effectiveness of the service.	Consideration should be given to preparing an SLA to outline the respective reposabilities within exp cross departmental processes in delivery of the school meals service.	schools meals service it is proposed that an SLA between CBF and SIC be put in place to ensure a first class school meals service is delivered.		30/04/15	31/01/18	30/04/15 Oec.13 31/12/17 the ov here or has be and th feedby feed
MIS1601a ISS.	2 MIS1601a	Non Housing Invoices	Resources	ISS.2 Medium	A fixed-price quote is obtained from prospective contractors for repairs estimated to cost more than E1,000. Any variance between the quote and the invoice is challenged before the technical officer will approve payment. Estimates and quotes are not routinely requested for repairs likely to cost less than £1,000 (any variance between the pacet this). The technical officer is experienced enough to make a reasonably accurate assessment of the likely cost of a repair, and challenge or approve payment of the contractor's invoice accordingly. It is understood that a schedule of rates exists for the non-housing contract framework, but is not referred to. This means that: The authorising manager does not know the value of works that they are approving (see Section 2: variance between actual and estimate). The Coundi may not have access to commercially advanta gous rates for common repairs; and Elevated charges may not be identified by the technical officer as they have no benchmark.	housing repairs and maintenance.	We recommend that a schedule of rates is built into the next non- housing contract framework.	The non-Housing contractor framework will be re-tendered during 2017. The inclusion of detailed best-value and due-diigence options will be considered as part of the process. This may include schedule of rates, gain share, penalties etc or a combination. MI\$1601a ISS.:	3 MIS1601a	Non Housing Invoices	Resources		replaced in the Autum/Winter 2015. The system is over 40 years old and is limited in its capabilities and links to the Council system. This means its its difficult to obtain information about repairs carried out. Only one officer is able to use A5400 reporting functions, and none we spoke to in Co proter Property heven how to access information about E56 son-housing reharges through the Fronter financial reporting system. This limits the management information available to Corporate Property about the volume. This limits the management information available to Corporate Property about the volume. The sample, the A5400 (works ordering, Total [dilling) and restricted the scope of our audit. For example, the A5400 (works ordering, Total [dilling) and Corade (finance) systems do not use the same reference numbers. A manual log is kept to record the involce number for each works order raised on A5400. This was not consistently updated, so despite the help of the non-housing administration team and Accounts Payable, we wave able to trace invoices for only 4 of the 50 charges reviewed. We also identified occasions where details of work's orders charged to Corporate Property had not been transferred into the Oracle data wavehouse. This means we fund Corporate Property had not been transferred into the Oracle data wavehouse. This means we fund Corporate Property had not been transferred into the Oracle data wavehouse. This means we fund Corporate Property had not been transferred into the Oracle data wavehouse. The total charge only was recorded.	housing repairs.	Management will not have ready access to accurate and reliable information about the volume and cost of repairs and maintenance until AS40 bis replaced by CARM in Autumn/Winter 2016. We note that the introduction of CARM has been delayed, and every effort should be made to meet the new target implementation date. RES1608 ISS.2	RES1608	Risk Management	Resources	ISS.2 Medium	The successful embedding of risk management throughout an organisation is achieved when staff of all levels are: aware of their risk management responsibilities, understand their responsibilities, and are motivated to aci in accordance with their organisation's risk management framework. The Risk Function and CRD have delivered risk training to the CIT, their respective Senior Management Teams (* SMS; 1) and to GRBV conciliens. Feedback indicates that this training has been effective in securi rig buy-in and understanding at the senior manager level and above. However, risk training has not recently been provided to middle management levels, no rhave senior managers within directorates been trained to provide risk management training to their teams. This regr cent s a potential ago in the understanding and methoding of risk management training as well as an interrain control mould which teachers aff how to manage r isks. The se modules are available to coreyone through CEC's interactive learning polatorm (* CECL'), however, there is no mandatory requirement for staff to complete this training. Within CEOL	presents the risk that CEC may be exposed to a degree of undue risk: at times of significant change, people can unintentionally revert to behaviours that are not in keeping with expectations. If the generic risk management training module within CEC lis completed by staff, there is a risk that staff's understanding is inconsistent with CEC's risk management approach. If risk register templates are not used consistent ly across all Directorates, key information may be missed or reported incorrectly when consolidated by the Risk Function for	time and resource to embed risk management below senior management level. It is important to reflect on what contributed the success of ' buy-in' and education of the senior team. Additionally, there needs to be pragmatic consideration given to the large numbers of staff across the council. We recommend a training and communications plan is drafted reflecting the above and approved by the appropriate counties. This should involve input from HR and other relevant non-risk functions. Consideration should be given as to whether training series remanagement, to equip them to	risk management. Prior to transformation a risk steering group was in place whereby risk 'champions' from each directorate could drive messaging the need for training and maintain momentum. With the substantial organisational changes this arrangement was suspended and we are currently re-stabilishing such ownership within the Service Area Risk Management Groups as indicated within the response to finding 3.3. For clarity two risk modules exist on the Council's eLearning site. One is generic and the other specific to CEC. We agree with the finding that the generic risk management module is not helpful from the perspective of specific messaging. Management will work with RH Store surve that only the single tailored solution is	Verified			
	1	1	1		however, there is no mandatory requirement for staff to complete this training. Within CECiL there is also a generic r isk m anagement training module , des igned by the external system		Human Resources should include risk management and internal controls training modules as part of CEC's essential learning.	accessible.			1	I

17 update from Gohar Khan - The Service Delivery Plan (schools), which outlines the structure, roles / responsibilities of staff and	Christopher Ross,
werall strategic service plan for the catering service, is still with C&F for feedback / approval. It is anticipated that feedback will eceived and approval granted mid January. Therefore, revised due date requested to 31/01/18. IA Note: A copy of the FM SLA	Catering Manager
been provided to IA and this appears reasonable. FM are now waiting for final sign off from Schools (copy to be provided to IA)	
this can then be signed off. Nov 17 Update – Service Delivery Plan with Communities and Families and waiting on back. Oct 17 Update from Gohar Khan: The Service Delivery Plan is with C&F for consultation and we are still awaiting	
back. It is, however, anticipated that the SDP will be signed off and in place by December 2017. Outwith the SDP, the catering ice has a detailed strategic blueprint which outlines its aims, objectives and strategic goals going forward and it is anticipated that	
blueprint will be shared and agreed with all relevant stakeholders. Sept Update from Gohar Khan: A Service Delivery Plan	
) that includes the catering service is currently out to consultation with key stakeholders and feedback is awaited. The SDP is gned to provide key stakeholders with an overview of the services that will be provided by the FM team to High Schools and	
des clarity on staff roles and responsibilities. The overarching objective of the services is to provide the right resources at the	
place at the right time, with the flexibility to respond to the requirements of each Directorate as and when required. It is saged that the SDP will be agreed by the key stakeholders by 31.12.17. July Update : SLA completion is dependent on	
nisational reviews. Initial expected completion date was Sept 2017 and this has now been revised to December 2017. IA	
PLease note that this recommendation was historically reported under Place and has now been transferred across to surces.	
mber Update: Dec In order to mitigate the risk in the interim, a vouching / clearing regime is now in place to ensure all invoices thecked for value for money before being passed for payment. This has been agreed with Internal Audit. This is also tied into the	Murdo MacLeod, Maintenance Standards
ntial increase in the R&M budget from 01.04.18 to ensure that we have the correct levels of governance and resource to manage	Officer
Illocation. Furthermore, it is proposed that an interim supply chain will be in place from 01.0418 until the full retendering exercise mpleted. IA Comment - Time to be arranged for walkthrough of revised process. November Update : Corporate	
urement Plan has been revised and a new implementation date of dec 2018 agreed. October Update : Agreement reached Corporate Procurement that due to the Procurement Plan being revised, the new implementation date will now be December	
3. However, in the meantime, in order to mitigate the risk from Medium to Low, a proposal is being worked on and will be	
rted at the next cycle. September Update: The non - Housing contractor framework will be re - tendered due to the value and egulations. This is being led by Corporate Procurement with a revised timescale.	
spontons. This is demy reality component internetic with a revised dimestant.	
mber Update : As per November with revised implementation date of 01/04/18. Whilst CAFM is due to be implemented in April	Peter Watton, Head of
nd is on track for implementation, a sufficient volume of invoices is required to be processed over a period of time before MI on	Corporate Property
irs and maintenance work can be produced and used. November Update - the use of CAFM to monitor and report on R&M (/expenditure is still expected to be operational in time for the start of the new FY 2018/19. October Update: The use of CAFM	
onitor and report on R&M work / expenditure is still expected to be operational in time for the start of the new financial year	
3/19. Work is progressing to review, cleanse and align the FM cost centres with the new hub models as being implemented by the Transformation programme. Engagement with key stakeholders with regards to implementing CAFM for R&M works management	
e to commence shortly. September Update : The CAFM asset condition and helpdesk modules are now fully operational, ever, the use of CAFM to monitor and report on R&M work / expenditure is now scheduled to be operational in time for the start	
e new financial year 2018/19. This will include having the ability to produce MI reports on R&M activity at site level, which at this	
nent in time, only Frontier is able to produce this information July Update: This has progressed. However, following the PPP ctural wall issue plus reports to CLT, the condition module has now been prioritised and, with assistance from external surveyors,	
will be complete for the non-housing estate in autumn 2017. This will identify the backlog maintenance, both capital and revenue,	
allow prioritisation and budget planning in detail going forward. The remaining property maintenance modules will be rolled out 117/18 and this is progressing.

Note: the risk management modules may be included in CEC's essential learning suite, subject to CEC's	
													essential learning policy refresh which is due around Spring/Summer 2018, and which is currently scheduled to be agreed by CLT by	
													end Dec 2017. Include appropriate 'train the trainer'/risk education type items in Risk Committees, Risk Management Groups,	
													annual risk refreshes, Leaders' Inductions and at Service Management Team (SMT) risk workshops on an ongoing-basis. Offer training to Heads of Service and above in how to provide appropriate risk management training within their Service. October Update from	
													CRO - Ongoing discussions between CRO and CIA to clarify and reword Agreed Management Actions and revised due dates.	
													September Update: Embedding risk management throughout the organisation is one of my key objectives. The current draft Annual Audit Report from Scott Moncrieff notes that: "Overall, we were satisfied that risk management arrangements appear to be	
													embedded across the organisation" The following points describe some of the mechanisms which help embed risk management	
													across CEC: Through the Risk Management Groups/Committees/Steering Group. Through 1-2-1 conversations between the CRO and several HoS/Directors. Individuals in the Corporate Risk Team and others have attended external training sessions on different	
													aspects of risk management. Risk management workshops take place across the services, often at team locations away from	
													Waverley Court. 'Risk Matters' newsletters highlight particular risk topics within schools. Risk management is one of the subjects	
													covered at the Leaders' Induction events. Following the office move in Sep/Oct 2017 I intend installing a risk noticeboard to publicise information. I have created quarterly 'risk themes' to publicise the work of several areas. An internal comms and training plan can be	
													developed and rolled out within an appropriate timescale to address this action but the measures described are having a greater	
													effect

Therefore, rather than setting up a separate stand-alone framework which could be cumbersome and have resource implications which could distract from other	
													material priorities and risks of the pension fund, we would prefer to integrate this issue within our existing risk and compliance	
										1			controls and monitor it in the context of the fund's overall risks and responsibilities. We have also engaged with PwC on what is generally done in this regard, and have the sense that this perhaps does not warrant anything beyond what we are proposing above.	
													October (IA) No evidence provided in relation to implementation of the supplier management framework whch is the main	
				1						1			reason for recommendatio not closing. Evidence has been provided that review of security provisions in contracts has been performed.	1
