

**REPORT – 13th AUGUST 2018
FURTHER UPDATE ON INITIAL CONSULTATION – STATEMENT OF LICENSING
POLICY (ASSESSMENT OF OVERPROVISION**

1. Purpose

Having completed the initial informal consultation on the Board's current Statement of Licensing Policy ("the policy") and considered an initial draft revised Statement together with a separate report regarding the Board's assessment of overprovision) at its meeting on 31st July 2018 ("the previous meeting"):-

1.1 To advise the Board of further steps to be carried out in connection with the review of the Board's Statement of Licensing Policy ("the policy") specifically in relation to the Board's assessment of overprovision required in terms of section 7 of the Licensing (Scotland) Act 2005 (" the Act ") to be included within the policy.

1.2 To submit further information to the Board to assist with the identification of possible localities for the purpose of formal consultation on its required assessment of overprovision in terms of the Act and in order to enable the Board to seek the views of consultees as to whether there may be overprovision, in such localities, of all licensed premises or premises of a particular description.

1.3 To request that the Board have regard to the information set out within this report and appendices, and having taken into account such available information, form a view as to the identification of localities for the purpose of said formal consultation.

2. Statement of Licensing Policy

2.1 The Board was advised at its previous meeting of the statutory requirements regarding its Statement of Licensing Policy and in particular as regards the assessment of overprovision which are set out again below in order to assist Board's further consideration of its review of policy

2.2 The Board is required by section 6 of the Act to publish a Statement of Licensing Policy setting out how it will exercise its functions. The Board must ensure that its policy promotes the licensing objectives set out in the Act.

2.3 The existing policy was agreed in November 2013 and was due to expire on 30th November 2016. The Board's current policy can be viewed at the following link- http://www.edinburgh.gov.uk/downloads/file/3083/licensing_board_policy_november_2013. The Air Weapons and Licensing (Scotland) Act 2015 amended the frequency by which policy statements must be published. Boards are now required to ensure publication within 18 months of local authority elections – in this instance, by 4th November 2018.

3. Overprovision – Legislative background

3.1 The Act sets out at section 7 that the Board's policy statement shall include a statement as to the extent to which the Board considers there to be overprovision of (a) licensed premises, or (b) licensed premises of a particular description, in any locality within the Board's area. This locality may now include the whole of the Board's area.

3.2 In considering whether there is overprovision in a locality, the Board:-

- (a) must have regard to the number and capacity of licensed premises in the locality
- (b) may have regard to such other matters as it thinks fit, including the licensed hours of premises in the locality

3.3 The number of premises licences in force in Edinburgh as at 31st March 2018 was 1917 made up of: - 965 premises with on and off sales: 439 with on sales only: and 513 off sales only.

Work has been undertaken to prepare information for the Board on current figures for licensed premises in Edinburgh relevant to the Board's assessment of overprovision. This information is attached at Appendix One.

The information lists the number of relevant licensed premises in Edinburgh which are to be included in the Board's assessment of overprovision together with their on or off sales capacities. Board should note that provisional premises licences and members clubs are not included in numbers for the purposes of the assessment of overprovision.

As at August 2018 the number of relevant premises in Edinburgh is:-

1816 premises -	On-Sale capacity	424784 persons
	Off-Sale Capacity	57292 linear metres

The numbers of members clubs and provisional premises licences are:-

Members Clubs – 107
Provisional premises licences - 144

3.4 At this time information on the licensed hours of individual premises has not been provided. This may be collated at a later stage if the Board were to consider that the provision of such information would assist with its consideration of overprovision, bearing in mind that there is no requirement upon premises to be open for all of the licensed hours and it is discretionary rather than mandatory for Boards to take such information into account.

3.5 Before the Board designates any particular locality as being an overprovision locality, it will first have to obtain the specific information as set out above at Paragraph 3.2 and also consult with:-

- the Chief Constable
- the Health Board
- such persons as considered to be representative of:-
 - premises licence holders in the locality
 - residents in the locality
- such other persons as the Board thinks fit

4. Overprovision - Statutory Guidance

4.1 Under section 142 of the Act, Scottish Ministers may issue guidance to Licensing Boards. The current Guidance which includes reference to preparation of Statements of Licensing Policy was issued in April 2007 and has not been revised since its introduction despite several legislative changes and updated case law. The current Statutory Guidance can be viewed at the following link: - <http://www.gov.scot/Publications/2007/04/13093458/0>

4.2 The Scottish Government are currently reviewing the terms of the statutory guidance and meantime have issued draft revised Chapters in relation to licensing policy statements and overprovision assessments to Licensing Boards in February 2018. It is important to note that these draft revised Chapters of the Guidance have not yet received the Parliamentary approval required for guidance referred to in section 142 and are therefore not provided on a statutory basis. However it is recommended that the draft revised guidance be considered at this time in conjunction with the statutory guidance given it reflects the current legislative position which the statutory guidance does not. Copies of both these chapters were provided to the Board as an appendix to the report by the Clerk on 31st July 2018 and can be viewed online at http://www.edinburgh.gov.uk/download/meetings/id/58005/item_3_-_update_on_initial_consultation_-_statement_of_licensing_policy_pdf

4.3 In particular the Board is asked to note the following points from Chapter Three of the 2007 Guidance in relation to determining localities :-

“..... The process by which the selection exercise is carried out is largely a matter for the Licensing Board and will no doubt involve the use of its own local knowledge. A locality could, for example, consist of a particular town, a city centre area, a street, a collection of streets or a council ward.

The identification of localities could be approached in a number of ways. The Licensing Board may consider that information which the chief constable is capable of providing is a reasonable starting point. The chief constable will be able to:

- identify "hotspot" areas within the Licensing Board's area where it can demonstrate that crime, disorder and nuisance are caused by customers of a concentrated number of licensed premises;
- suggest other areas in which the number of licensed premises or premises of a particular description is moving closely towards overprovision; and
- Provide the Licensing Board with the geographical boundaries of those areas.

Once the Board has made this initial assessment and decided localities upon which to focus, it should identify the number of licensed premises, or premises of a particular description, in those localities; determine their capacities; and fulfil its consultation obligation.

In relation to the consultation process the Guidance emphasises that:-

“.....The results of all consultation should be evaluated to identify robust and reliable evidence which suggests that a saturation point has been reached or is close to being reached, always provided that a dependable causal link can be forged between that evidence and the operation of licensed premises in a locality. ...”

The Guidance also makes reference to Boards giving proper regard as part of the consultation process to contrasting styles of operation in different licensed premises in order to decide whether there is overprovision of all licensed premises or only of licensed premises of a particular description.

“..... The consultation carried out by the Licensing Board may disclose that communities are placed under stress only by licensed premises sharing certain characteristics: for example, a concentration of off-sales in a residential area, or the density of "vertical drinking establishments" in a town centre. The Board should therefore consider carefully whether it wishes to state that overprovision exists in any locality simply having regard to the number of licensed premises and their capacities. Such an approach should only be adopted in exceptional circumstances. Proper regard should be given to the contrasting styles of operation of different licensed operations and the differing impact they are likely to have on the promotion of the licensing objectives. A policy which discourages premises where the primary activity is the consumption of alcohol may leave room for the introduction of licensed premises which are likely to produce positive benefits for the locality or which will have a neutral impact on the those objectives.”

4.4 As indicated above at paragraph 4.2, the draft revised Guidance reflects the more up to date position taking account of legislative changes and case law. The Board are also asked to note that the draft revised guidance highlights the following:-

Determining Localities

“..... It is for the Licensing Board to determine the “localities” within the Licensing Board’s area for the purposes of this Act.....

The process by which the selection exercise to determine the “localities” is carried out is largely a matter for the Licensing Board. The selection of appropriate localities is based on having a broad understanding of provision across the Board’s area. Licensing Boards may wish to make use of their own local knowledge and understanding of areas. They may wish to carry out informal consultation with interested parties and/or make use of their existing policy statement in order to assist them to come to a view as to which localities may be appropriate to include

Information may be obtained from a number of stakeholder, such as the relevant health/ and or social care body who may be able to provide, amongst other things data on alcohol related morbidity and hospital admissions. The chief constable may be able to identify problematic areas where it can be demonstrated that crime disorder and nuisance are caused by customers of a particular concentration of licensed premises and / or suggest areas in which the number of licensed premises or premises of a particular description are potentially approaching overprovision.....

The Licensing Board may wish to consider making an initial assessment by closely scrutinising the premises across the whole of their area, then proceed to determine those

localities it proposes to examine. After carrying out the initial assessment, the number of premises, or premises of a particular description in those localities should be identified, then the board should determine the capacities and have regard to other matters as it thinks fit and fulfil its duty to consult “.....”.

5. Overprovision - the Board's current policy

5.1 The Board's current policy which may be viewed at

http://www.edinburgh.gov.uk/downloads/file/3083/licensing_board_policy_november_2013 (Pages 20-22)

currently declares the Grassmarket/Cowgate locality to be an area of overprovision in respect of premises of a particular type of description, namely:-

“.....facilities of traditional pubs where consumption of alcohol is the principal attraction and premises offering off sales.....”

The numbers and capacities of all premises within the current area of overprovision are attached at Appendix Two.

5.2 The policy also refers to a number of localities of “serious special concern” regarding provision of licensed premises, namely: - Tollcross; Dalry and Fountainbridge; Southside and Canongate; Old Town and Leith Street; South Leith; Leith Docks; and Portobello.

5.2 The section of the policy which relates to overprovision has not been updated at this stage in the draft, revised Statement of Licensing Policy (which is the subject of a separate report to Board). This section will be updated when, following the formal consultation required by the Act and responses from consultees considered by the Board, the Board makes an assessment of overprovision which will be incorporated into the final version of the Statement of Licensing Policy approved by the Board.

In the meantime, it is proposed that following consideration of today's Report and the Board's decision thereon, the draft Policy include a reference to the terms of a separate consultation document which will be prepared for the purposes of the formal consultation by the Board on its assessment of overprovision.

6. Statement of Licensing Policy - the Board's Informal Consultation

6.1 The Board agreed on 25th September 2017 to carry out an initial consultation, encouraging participation from as wide a range of consultees as possible. The Board asked for responses on the terms of its existing policy, and any other relevant matters. The Board highlighted the following as topics it had a particular interest in, but encouraged consultees not to be restricted by those topics in providing their responses:-

- Children and young persons' access to licensed premises
- Use of outdoor drinking areas
- Licensing of “pop-up” bars
- Extended use of occasional licences
- Overprovision
- Extended Hours for events

- 6.2 The Board agreed to consider the terms of its current policy in light of the representations received, with a view to preparing an updated draft policy for a period of further, formal consultation later in 2018. The initial consultation started on 30th October 2017 and closed on 22nd December 2017. Details of the consultation were published on the Council's Consultation Hub, were sent out to a wide range of consultees and were set out in all communications sent from the Council's Licensing Service. These can be viewed at http://www.edinburgh.gov.uk/download/meetings/id/55996/item_81_%E2%80%93_initial_consultation_-_statement_of_licensing_policy_-_responses_and_next_steps
- 6.3 The Board held its annual joint meeting with the Licensing Forum on 7th December 2017. The Board encouraged the Forum to respond to the initial consultation. Whilst individual responses were received from Forum members in an individual or organisational capacity, no response was submitted on behalf of the Forum itself.
- 6.4 The Board agreed there would be merit in holding hearings once the initial consultation period concluded. The Board were also of the view that an informal workshop to allow for information sharing and discussion between interested parties including community, trade, police and health representatives and Board members would be useful as part of the Board's overall engagement during the informal consultation period. The workshop was held in the early evening to allow as many interested parties as possible to attend. Details of the workshop and a summary of discussion was provided as an appendix to the report to Board on 30th July 2018 and can also be viewed at http://www.edinburgh.gov.uk/download/meetings/id/58005/item_3_-_update_on_initial_consultation_-_statement_of_licensing_policy_pdf
- 6.5 The Board held two hearings over two separate days to allow for further oral evidence to be provided. These took place on 4th and 10th May 2018. And proceeded on the basis of hearing from those who had responded to the initial consultation. The Board also invited the Convener of the Licensing Forum to attend and speak on behalf of the Forum. A summary providing detail of matters raised by those parties and discussed with the Board during the hearings was attached as an appendix to the report of 31st July 2018 and can also be viewed at http://www.edinburgh.gov.uk/download/meetings/id/58005/item_3_-_update_on_initial_consultation_-_statement_of_licensing_policy_pdf
- 6.6 Following the hearings, two further responses were received, the first being from the Green Party Group Convener and the second from GRASS (Grassmarket Residents Association). These were also provided to the Board as an appendix to the above mentioned report and can also be viewed online at http://www.edinburgh.gov.uk/download/meetings/id/58005/item_3_-_update_on_initial_consultation_-_statement_of_licensing_policy_pdf The GRASS response attached a copy of a report prepared in 2010 "Here Comes the Night". Copies of this document can be made available to Board members if required.
- 6.7 In addition an email was received by the Depute Clerk attaching a letter from North East Edinburgh Action on Alcohol Group prior to the meeting of the Board on 30th July 2018. The Board were advised of this and agreed that copies of the letter should be provided to the Board at its next meeting on 13th August 2018. A copy of the letter is attached at Appendix Three.

7. Identification of localities for the Overprovision assessment

7.1 As set out at Paragraph Five above the Board has declared an area of overprovision in respect of the Grassmarket / Cowgate and detailed a number of areas of serious special concern in the current policy.

7.2 The Board were advised at its meeting on 31st July 2018 that consultation responses ingathered during the Board's informal consultation could generally be divided into three categories:-

- 1) Licence holders and trade representatives including licensing solicitors
- 2) Community representatives and individual citizens
- 3) Police/ NHS Lothian , Edinburgh Alcohol and Drug Partnership (EADP) , Council officers, and other organisations including Alcohol Focus

7.3 A number of the responses referred to overprovision, both for and against the designation of overprovision localities.

7.4 Whilst contrary positions have been expressed as regards overprovision, generally where submissions have included reference to areas of serious special concern, most responses expressed concern regarding the status of these areas. It has also been suggested that given their lack of legal status in terms of the Act, then they should be deleted from the policy.

7.5 Responses from trade representatives and licence holders generally suggest that there should be no change to the current policy or that the Board reconsiders the position in the Grassmarket as regards overprovision. Reference has also been made to the positive benefits which the city and its population can derive from the continued growth of different types of premises. This includes benefits both from the creation of employment opportunities and environmental improvements through regeneration in different areas of Edinburgh. Reference was also made in some responses to the health benefits of providing fresh fruit and vegetables at competitive prices. Some responses endorsed the approach which the Board has taken to overprovision hitherto which has encouraged development within the city and also existing operators to upgrade their premises .Some responses suggested that if the Board were to extend overprovision within all or parts of the city then this could be viewed as a material factor when deciding whether or not to invest in the city. Detailed information has also been provided both by licence holders and trade representatives regarding the continued efforts made by the trade to promote the five licensing objectives within their licensed premises. Some differing views were expressed by trade organisations in relation to whether identified problems with the sale and consumption of alcohol can be more closely associated with on or off sales premise types.

7.6 Reponses from citizens and community groups have offered some general views on overprovision with suggestions being made that the previously identified areas of serious special concern now be identified by the Board as areas of overprovision. Some responses refer to views on different types of premises causing difficulties in relation to noise and antisocial behaviour and generally offer the view that there are too many premises within their own particular area.

7.7 Some consultees have made specific locality suggestions for the Board on the basis of assessment of existing statistical information. In this regard the Board have received statistical information from the Edinburgh Alcohol and Drug Partnership (EADP), NHS Lothian and

Police Scotland with statistics also provided by Alcohol Focus contrasting the Board's position with figures nationally.

7.7.1 EADP response

EADP is a partnership between the City of Edinburgh Council, NHS Lothian, Police Scotland, the third sector and people with lived experience of addiction and recovery.

Their submission includes references to:

2556 alcohol related hospital stays and 75 alcohol related deaths in 2015

Reference to Police Scotland for persons arrested during the Night Time Economy (NTE) Hours (8pm – 6am) showing over 70% of those persons arrested on a Friday and Saturday night had consumed alcohol

Alcohol or drugs consumption related to at least 76 fires in Edinburgh in 2015-16 (\$\$% of total incidents)

Results of research by a local community group "People know how "into the views and experiences of Edinburgh residents about alcohol

Reference to the CRESH Report of 2015 which found Edinburgh had over 2000 alcohol outlets with the highest outlet availability in Scotland approaching three times the national average

Data has been ingathered by EADP and its partnership organisations and analysed in relation to health and criminal justice harm ,The analysis also suggest that health harm and criminal justice harm correlate strongly with each other , and other than in the City centre, with areas of deprivation.

23 areas have been identified by use of reference to intermediate data zones where each area was above the Edinburgh average (by 50%) or more) for both health harm (the number of alcohol related hospital stays per year) and for recorded crime/antisocial behaviour associated with the night time economy.

These are the intermediate zones of

Hyvots and Gilmerton
Murrayburn and Wester Hailes North
South Leith
Niddrie
Moredun and Craignur
The Calders
Leith (Albert Street)
Restalrig and Lochend
North Leith and Newhaven
Granton South and Wardieburn
Clovenstone and Wester Hailes
Muirhouse
Bingham, Magdalene and the Christians
Great Junction Street
West Pilton
The Shore and Constitution Street
Dalry and Fountainbridge

◆ EDINBURGH ◆

LICENSING BOARD

Restalrig (Loganlea) and Craigentiny West
Easter Road and Hawkhill Avenue
Gracemount, Southhouse and Burdiehouse
Tollcross
Old Town, Princes Street and Leith Street
Deans Village

A map of the City is included within the EADP submission showing all of these areas identified and is attached at Appendix Four.

The EADP submission recommends that includes a recommendation that the Board expresses a clear intention to declare areas of high alcohol related harm to be overprovided

7.7.2 Police Scotland

Police Scotland in their submission refer to the above work by the group led by EADP to gather and analyse data regarding alcohol related harm (health and criminal justice) in Edinburgh at an Intermediate zone level .

The data was obtained from alcohol related hospital stays 2016/17 –Scottish Public Health Observatory
Alcohol related crimes during the NTE – Police Scotland

As with EADP, Police Scotland state that a breakdown of the Intermediate Datazone datasets identified a number of Intermediate zones where both high levels of hospital related admissions and high levels of NTE crime were recorded. A breakdown of the Intermediate Datazones datasets was provided by Police Scotland and is attached to their submission as an Appendix.

Police Scotland also provide the same map as EADP which highlights the intermediate zones where both factors (hospital related admissions/ NTE crime) were above the Edinburgh average by 50% or more.

Police Scotland recommend that the Board consider this analysis and progress a detailed consultation and analysis in respect of the Intermediate Zones identified as having alcohol related harm of 50 % or more above the Edinburgh average toe stablish if this is driven by overprovision

7.7.3 NHS Lothian

In relation to alcohol related harm NHS Lothian’s submission refers to the following:-

Scottish Health Survey (2016) findings that 30% of adults self-reported drinking more than the weekly guideline in Edinburgh and the Lothians, significantly higher than across Scotland as a whole

Statistics for Hospital admissions for conditions wholly caused by alcohol with a chart showing trends since 2007 to 2016.

Statistics for Trauma admissions at A&E (2016) including where person has been attacked which show most admissions to be at the weekend and during the hours of 1-3am.

A number of recommendations by NHS Lothian include:-

the Board look closely at off sales in the city in particular

The Board could consider wider areas other than intermediate datazones as part of their ongoing analysis

the Board should consider involving local academic experts such as CRESH to help develop a more nuanced approach to overprovision

in addition to the 23 intermediate datazones suggested by the EADP and Police Scotland, the Board should also look at a further 15 intermediate datazone areas which are more than 20% above the city rate for hospital stays. These areas are listed at page 8 of NHS Lothian's submission

8. Identifying Localities

8.1 It is emphasised that it is for the Board to decide on a specific locality/localities, for the purpose of formal consultation as to whether overprovision exists in any or all of them, either in respect of all licensed premises or certain types of licensed premises. The Board is now able to choose its entire area as a locality. It is not however required to identify localities throughout its entire area. As indicated above, with reference to the statutory guidance and draft revised guidance, the choice of localities must, however it is done, be rational and capable of justification in the case of legal challenge. Furthermore, the proactive assessment of overprovision must be based on reliable and credible evidence of a causal link between the engagement of one or more of the licensing objectives and a concentration of premises in that locality .

8.2 It was proposed at the previous meeting that the Board form a preliminary view in relation to the identification of possible proposed localities using the information available at that meeting. Individual plans could then be provided showing possible proposed localities if agreed by the Board. These could include the twenty three intermediate data zones as suggested by EADP, Police Scotland and NHS Lothian which the Board may subsequently agree to identify for the purposes of formal consultation. The plans provided could also include the current area of overprovision identified in the Grassmarket / Cowgate area in order that the Board may consider if this area is to remain a locality where overprovision has been declared and consult formally thereon.

8.3 It was also proposed that details of the numbers and capacities of licensed premises including a breakdown of on sales and off sale premises for the Grassmarket /Cowgate locality and other possible proposed localities could be provided to assist the Board's consideration and have regard to statutory requirements.

8.4 The Board agreed that it wished to proceed to obtain the further information detailed at Paragraphs 8.2 and 8.3 above .in relation to possible proposed localities. The Board also agreed that the same information be provided for a further 15 IDZ geographical areas detailed by NHS Lothian referred to in their submission detailed at Paragraph 7.7.3 above. These 15 areas were :

Bonnington
Broomhouse and Bankhead
Canongate, Southside & Dumbiedykes
Colinton Mains & Firrhill
Cramond
Fernieside & Moredun South
Gorgie East
Granton & Royston Mains
Leith (Hermitage & Prospect Bank)
Liberton West & Braid Hills

◆ EDINBURGH ◆

LICENSING BOARD

Oxgangs
Pilrig
Portobello
The Inch
Trinity

Plans have been prepared for all 38 IDZ geographical areas together with lists of the premises located in each IDZ and the capacities of those premises. This information is attached at Appendix Five. Each of the plans and lists details a separate IDZ which is individually named on the plan and list.

8.5 It was also suggested at the previous meeting that the Board may wish to request information from relevant officers of the Council as regards any noise nuisance issues in any of the twenty three localities suggested by the EADP, Police Scotland and NHS Lothian. The Board agreed information on noise nuisance should be requested.

The Licensing Team Leader, who also deals with noise issues, has provided information on noise complaints received by the Council in respect of licensed premises which is attached at Appendix Six. These are collated on a Council Ward basis and are provided in that format.

9. Identifying Localities for Formal consultation

9.1 Plans and lists referred to at Paragraph 8 above have been provided for the 23 localities namely :-

- 1) Hyvots and Gilmerton
- 2) Murrayburn and Wester Hailes North
- 3) South Leith
- 4) Niddrie
- 5) Moredun and Craignur
- 6) The Calders
- 7) Leith(Albert Street)
- 8) Restalrig and Lochend
- 9) North Leith and Newhaven
- 10) Granton South and Wardieburn
- 11) Clovenstone and Wester Hailes
- 12) Muirhouse
- 13) Bingham, Magdalene and The Christians
- 14) Great Junction Street
- 15) West Pilton
- 16) The Shore and Constitution Street
- 17) Dalry and Fountainbridge
- 18) Restalrig (Loganlea) and Craigentenny West
- 19) Easter Road and Hawkhill Avenue
- 20) Gracemount, Southhouse and Burdiebouse
- 21) Tollcross
- 22) Old Town, Princes Street and Leith Street
- 23) Deans Village

These show possible localities which the Board may identify for the purposes of formal consultation. And are based on intermediate datazones with levels of alcohol related harm at 50% or more over the Edinburgh average as suggested by EADP and Police Scotland.

The lists for each IDZ provide details of the numbers and capacities of licensed premises including a breakdown of on sales and off sale premises

9.2 Plans and lists referred to at Paragraph 8 have been provided for the 15 localities namely:-

- 24) Bonnington
- 25) Broomhouse and Bankhead
- 26) Canongate, Southside & Dumbiedyke
- 27) Colinton Mains & Firrhill
- 28) Cramond
- 29) Fernieside & Moredun South
- 30) Gorgie East
- 31) Granton & Royston Mains
- 32) Leith (Hermitage & Prospect Bank)
- 33) Liberton West & Braid Hills
- 34) Oxfgangs
- 35) Pilrig
- 36) Portobello
- 37) The Inch
- 38) Trinity

These show localities where hospital admissions are 20% or more above the Edinburgh average rather than data relating specifically to alcohol related harm as recommended by the EADP and Police Scotland for the other 23 IDZs.

9.3 The Board have also been provided with the current number of premises and breakdown of on sales and off sales premises in the Grassmarket / Cowgate as this is the current area of overprovision

9.4 The Board is asked to consider which, if any of these possible localities, including the current area of overprovision, the Board identifies as possibly overprovided for the purposes of formal consultation. The Board should also note, that the existing Grassmarket/ Cowgate area of overprovision overlaps with the areas identified as the intermediate data zones described as Tollcross, Old Town, Princes Street and Leith and the Board may wish to consider that if these IDZs are being identified as possible localities for formal consultation then the consultation may also seek views as to whether the existing street based area of overprovision should be replaced by IDZ geographical areas.

9.5 Similarly, the Board should note that within the total number of the IDZ geographical areas proposed by EADP and Police Scotland for consideration by the Board as possible localities, are areas presently referred to in the Board's Statement of Licensing Policy as areas of serious special concern. It is suggested that the Board consider its position in relation to areas of serious special concern and whether the Board would intend to retain such areas given the number of responses received to the informal; consultation which suggest that areas of special concern either do not contribute effectively to, or should be deleted from the policy.

9.6 In addition to considering each proposed locality the Board is asked to consider whether all licensed premises are to be included within that locality or whether the Board considers only premises of a particular type should be consulted upon for the purposes of the overprovision assessment.

10. Next Steps

10.1 Once the Board has identified localities for the purpose of formal consultation on its required assessment of overprovision in terms of the Act, the Board can then seek the views of consultees as to whether there may be overprovision, in such localities, of all licensed premises or premises of a particular description in those localities

10.2 .In addition to those statutory consultees listed at Paragraph 3.5 above it is open to the Board to consult such other persons as it thinks fit.

10.3 The Board also has an overarching duty in terms of section 6 of the Act to consult with the Licensing Forum in relation to preparation of its Statement of Licensing Policy and it is therefore suggested that this consultation on overprovision run in tandem with the Board's formal consultation on its draft revised Statement of Licensing Policy.

10.4 A timescale for the consultation on the draft Statement of Policy is detailed in the separate report provided for the Board's consideration as 14th August to 1st October 2018. The simultaneous consultation process will allow the Board's consultation on overprovision to include the Licensing Forum and as wide a range of people and organisations as it can in addition to the statutory consultees.

10.5 It is proposed that the Clerk and his Deputes, in consultation with the Convener prepare a brief Consultation document which will be added to the current draft revised policy at the Chapter on Overprovision setting out the consultation process to date and detailing the localities identified by the Board for the purpose of formal consultation on its required assessment of overprovision. This will assist consultees when responding to the consultation on overprovision.

10.6 Once the period for formal consultation on both the Statement of Policy and Overprovision are complete, then a further report or reports if appropriate will be brought back to the Board advising of responses received and seeking decisions from the Board on its Statement of Policy which will include the Board's assessment of Overprovision.

11. Recommendations

The Board is asked to:-

- (a) Further consider the written responses received to the informal consultation on the Board's Statement of Licensing Policy previously provided to the Board for its meeting on 31st July 2018 where those responses specifically relate to overprovision
- (b) Further consider the summary of the Board's workshop on overprovision previously provided to the Board for its meeting on 31st July 2018.
- (c) Further consider the summary detailing oral evidence provided to the Board during hearings held previously provided to the Board for its meeting on 31st July 2018.
- (d) Consider the information detailed at Appendix One regarding the current number of licensed premises within Edinburgh
- (e) Consider the information detailed at Appendix Six regarding noise complaints within Edinburgh

- (f) consider the possible localities (including the current area of overprovision) detailed at Paragraphs Seven and Eight of this report together with the information provided on the numbers and capacities within each of those possible localities detailed at Appendices Two and Five, and, having regard to statutory requirements and guidance thereon, determine the localities, which should be the subject of formal consultation on an assessment of overprovision..
- (g) consider, in light of the above, whether the Board proposes that the areas of serious special concern set out in the current policy should be retained and consult thereon
- (h) Authorise the Clerk and his Deputies, in consultation with the Convener, to prepare a short consultation document which will be added to the current draft revised policy at the Chapter on Overprovision and which will set out the consultation process to date and detail the localities identified by the Board for the purpose of formal consultation on its required assessment of overprovision.
- (i) Authorise the Clerk and his Deputies to consult formally in relation to the localities determined by the Board, as to whether overprovision of all licensed premises or premises of a particular type, exists in respect of any of those localities, in accordance with section 7 of the Act including with the Chief Constable, NHS Lothian, Community Councils, Premises Licence Holders and the Licensing Forum
- (j) Authorise the Clerk and his Deputies to consult more widely by agreeing that the above consultation should both be circulated and run in tandem with the timescale for the Board's consultation on the draft revised Statement of Licensing Policy to allow for responses from any interested party
- (k) Authorise the Clerk and his Deputies to take steps to publicise the consultation including use of the Council's consultation hub
- (l) Agree that following formal consultation, a further report will be provided to the Board who will then consider if there is over provision of licensed premises or licensed premises of any type in the localities identified by the Board.

10. List of Appendices

Appendix One – Numbers and capacities for all relevant licensed premises in Edinburgh as at August 2018

Appendix Two – Numbers and capacities for all licensed premises within the Board's current area of overprovision Grassmarket / Cowgate (available at the meeting)

Appendix Three – Copy of letter from North East Edinburgh Action on Alcohol Group

Appendix Four - Plan of the City included within the EADP submission highlighting intermediate datazones where alcohol related harm has been identified at 50% or more above the city average (available at meeting)

Appendix Five - 38 individual Plans and Lists detailing the 23 IDZs identified by Police Scotland and EADP relative to the plan at Appendix Four and the 15 IDZs listed by NHS Lothian. (available at the meeting)

Appendix Six – information on noise complaints from the Council's Licensing Team Leader

11. Background

- 6.1 Report to Licensing Board – 25th September 2017
- 6.2 Report to the Licensing Board – 29th January 2018
- 6.3 Report to the Licensing Board- 30th July 2018
- 6.3 Licensing (Scotland) Act 2005 sections 6 and 7 (as amended)

Morag A. Leck

Depute Clerk of the Licensing Board

Appendix 3

Dear Alcohol Licensing Board members,

Alcohol-related harm has been a serious problem in the Leith Neighbourhood Partnership for years, and the situation is getting worse year on year. No major actions have been taken to date to prevent the widespread harm caused by alcohol in the area. The new Policy Statement on Licensing is an opportunity to curb the availability of alcohol in Leith, helping to ensure that more people have positive experiences rather than negative. Restricting alcohol availability, especially the number and capacity of alcohol outlets (licensed premises) in a given area, has been proven to save lives and lower the level of crime. Declaring the Leith Neighbourhood Partnership an area of overprovision would indicate to all that the health and safety of people living in and visiting the area are prioritised above all else, which is in line with the Licensing Objectives.

According to the most recent research on alcohol outlet availability and harm conducted by Alcohol Focus Scotland (AFS) and the Centre for Research on Environment, Society and Health (CRESH) (refer to [Alcohol Outlet Availability and Harm in City of Edinburgh](#) report published April 2018), the City of Edinburgh had the highest alcohol outlet availability out of all the local authorities in Scotland in 2016, and this was a 12% increase from 2012.

Neighbourhoods in Edinburgh with more places to buy alcohol, regardless of the type of outlet, had significantly higher crime rates and alcohol-related hospitalisation rates. Furthermore, the number of off-sales outlets had a significant effect on alcohol-related death rates.

Keeping these facts in mind, the vast majority of data zones, consisting of 500-1,000 people, falling within the Leith Neighbourhood Partnership area have a much higher level of total alcohol sales than even the city-wide average (refer to [CRESH map](#)). As can be expected, Leith fares badly in terms of alcohol-related crime, hospitalisations and deaths, with levels far above the Edinburgh averages.

For this reason, the Healthy Leith Action Group, which was part of the Leith Neighbourhood Partnership, carried out a survey in spring 2016 asking 263 people about their views on alcohol in the local area. 3 out of every 4 people needed no more than 15 minutes to obtain alcohol, and 1 in 3 could buy it in less than 5 minutes. More than three quarters of respondents said that they had had a negative experience as a result of someone else's drinking in the previous year.

In summer 2017, an inter-agency, inter-sectoral working group was established to develop an approach for preventing and addressing alcohol-related harm in the Leith area, an action for improving health and wellbeing in the Leith small area for the North East Locality Improvement Plan (LIP). Since addressing alcohol and drugs misuse was identified as a high priority action for Community Safety in the LIP for the whole of the North East Locality, the remit of the group was expanded to the North East but retained an initial focus on Leith due to the high level of alcohol-related harm and the strong evidence base behind it.

The North East Edinburgh Action on Alcohol Group now consists of representation from the following 11 agencies and organisations: Edinburgh Health and Social Care Partnership, Edinburgh Alcohol and Drug Partnership, NHS Lothian, City of Edinburgh Council, Police Scotland, Scottish Fire and Rescue Service, Scottish Ambulance Service, AFS, Turning Point Scotland, Rowan Alba and ELCA. There is a unanimous judgement amongst members that the Leith Neighbourhood Partnership should be declared an area of overprovision in order to prevent alcohol-related harm from increasing. As a group, we would be more than happy to submit full evidence at any time should the Licensing Board find this helpful.

Kind regards,

Lauren Browne-Islam (Co-chair)
Public Health Practitioner – North East Locality
Edinburgh Health and Social Care Partnership

On behalf of the North East Edinburgh Action on Alcohol Group

Areas with High Alcohol Related Hospital Stays and High Night Time Economy Crime/ASB*

Your ref

Dear Sir/Madam,

**THE LICENSING (SCOTLAND) ACT 2005
POLICY CONSULTATION – NOISE COMPLAINTS AGAINST LICENCED PREMISES**

I write with regard to the request to furnish information in relation to noise complaints in Edinburgh from licenced premises.

I have attached as Appendix 1 a breakdown of noise complaints by Council Ward, pulled from our enforcement database. Unfortunately it does not have the facility to provide a breakdown by intermediate datazones.

I would also provide the following comments.

In terms of the Unspecified wards within Appendix 1, these complaints relate to events which were not traced to a Licenced premises. This is normally due to the music having stopped by the time officers are on site, although it has also applied on occasion when the complaint is not specific, such as anonymous complaints about the “Festival shows” for example.

In terms of general areas of noise complaints, I think it’s fair to say in Edinburgh we do not have specific problems with areas, as any well managed premises should be able to comply with the noise condition regardless of area. What we do sometimes face, is when a venue wishes to play amplified music or vocals in what is ultimately an unsuitable premises. This can be down to the local geography, and specifically is normally down to nearby residential premises.

**Tom Veitch | Regulatory Team Leader (Licensing Standards)

INVESTORS
IN PEOPLE | Gold

However, the most common noise issue we face is with any venue playing amplified music in an outdoor area, or an area open to the air from which noise will inevitably travel. In particular this applies to temporary venues, which may be using marquees or other similar structures which offer no sound insulation properties to restrict the sound traveling.

These comments are provided for your consideration. If you have any questions regarding this representation please contact Tom Veitch, Regulatory Team Leader on 0131 469 3871 or e-mail tom.veitch@edinburgh.gov.uk
