

### **Item No 3.3**

Further to our conversation yesterday, I can confirm that the Moredun 4 Multis Residents Association requests permission to address the Council's Planning Committee in February.

My understanding is that more than 130 people have lodged objections to the proposed development at Moredunvale (HSG30). Given the exceptional strength of feeling within the local community on this matter we feel it only fair that members of the Council hear their concerns directly from one of their representatives.

Please let me know if this can be arranged.

Kinds regards,

Niel Hansen  
Secretary
