

Stuart

As discussed earlier today, the Roseburn Cycle Route Group, who are an organisation of residents local to Roseburn, would like to form a deputation to the Transport and Environment Committee for its meeting of 30th August. This would be to talk in support of the segregated cycle path through Roseburn Terrace and leading on to Haymarket and the city centre. At this time I am not sure exactly who would represent the group but will advise you further in the next few days. Please let me know if there are other details you need in advance.
