## 1. Order of Business – Statement by the Lord Provost – One Year Anniversary of the Invasion of Ukraine

The Lord Provost made the following statement in regard to one year anniversary of the invasion of Ukraine.

"I think that we should mark that it is one day before the first anniversary of the invasion of Ukraine and I think it is important for us as a Council to mark this anniversary of the illegal and aggressive invasion of Ukraine by Russia, Our hearts and our prayers as a Council go out to all those affected by the war and especially those displaced families here in Edinburgh who I'm sure will be worrying about friends and family back home in Ukraine.

As a Council we stand united with Ukraine and look forward to welcoming the Ukrainian President and Mayor of our sister city Kyiv to our city in a time of peace which I am sure will be sooner rather than later. Slava Ukraini."

### 2. Deputations

#### a) Deputation – NHS Lothian/Royal College of Speech and Language Therapists

The deputation were concerned that the current revenue saving proposal suggested cutting significant funding for children and young people's Speech and Language Therapists within Education in Edinburgh. They indicated that NHS Lothian received funding from the Council to deliver a co-produced service, where jointly agreed goals and priorities were regularly reviewed and they felt that the proposals did not take into account the long-term implications of reducing this service, particularly for children from less advantaged backgrounds, and had been based on inaccurate information.

The deputation stressed that the communication needs of children and young people was a joint responsibility as spoken language was the foundation of learning, wellbeing, and future life chances for all children.

#### b) EIS Edinburgh Local Association

The deputation expressed concern that any further cuts in the Education budget would have a large impact within schools and felt that inclusion services in schools did valuable work which needed to be supported. They stressed that Inclusion Services were not currently working in schools and that a commitment was needed for a review of inclusion support for pupils. The deputation also asked the Council to reconsider the position of Education Welfare Officer services which was an essential aspect for current working and not being school based was an advantage particularly for families who did not wish to engage with schools. The deputation indicated that schools were already working beyond the limits of their capacity and urged members to be honest about what the people of Edinburgh could be facing. The raised a concern at the lack of democratic engagement and oversight around the budget setting process which they felt needed to be improved upon in future.

#### c) Edinburgh TUC

The deputation raised concerns about the impact the proposed budget cuts would have on jobs, the increase in poverty, Council housing repairs and the retrofitting programme. They indicated that there had also been an impact on the third sector who had continually not received adequate funding to enable them to deliver statutory services to the citizens of Edinburgh. The deputation felt that the budget may impact a statutory service commission by the Council

The deputation urged the Council to provide a clear strategy on how it planned to raise revenue both locally and from the Scottish Government.

#### d) UNISON

The deputation felt that the city was under threat due to the budget proposals and that spending per head in Edinburgh continued to be lower than other Scottish Local Authorities. They urged the Council to put the city and people it represented first and that the proposed cuts would only compound the misery already being caused by the cost of living crisis and spiralling energy prices.

The deputation stressed that the purpose in local authority was not just to make sure the books added up but to help shape the lives of Edinburgh citizens. They outlined the effects the proposed cuts would have on Council staff and that the need for services did not disappear with the post or Department.

The deputation indicated that there was an ever increasing social divide in Edinburgh with people living in poverty, countless hours of unmet social care need, poor quality social housing and the erosion of any sense of community. They urged the Council to work together for the citizens of Edinburgh and to act for the city.

#### e) Trinity Primary School Parent Council

The deputation expressed concern about the proposals set out in the Council's draft budget, which would result in significant cuts to the Education and Children's Services budget. They stressed that the Council needed to be investing in education and support learners and their families, overcome differences in experience, aspiration and opportunity and equip all learners with the knowledge and skills that they needed to become productive members of society who, through their endeavours, character and taxes, would and to achieve this schools needed to be properly resourced. The deputation felt that the proposals had been developed with no meaningful consultation with service users (children and their families) or, to the best of their knowledge, with school teaching staff and believed that further cuts would render the service unfit for purpose.

The deputation urged the Council to work together to resolve this situation, and to take ideas to address it from all political parties and indicated that they would welcome the opportunity to engage in further dialogue with members.

#### f) Unite CEC Branch

The deputation asked the Council to make a no cuts budget and for all Councillors to join in the campaign for better funding from both Governments. This would enable the city to thrive and the deputation urged the council to continue with its no compulsory redundancy pledge.

The deputation thanked the Council for its continued engagement with trade unions and asked that consultation continue and improve. The union were keen to engage with management and elected members to identify genuine efficiencies. They outlined the need to improve insourcing services to enable savings to be made where services were currently provided by private sector agencies and ensure that available finance was kept within the Edinburgh economy. The deputation stressed that bringing services in-house allowed for greater accountability with a workforce working towards a common good.

The deputation urged the council to engage with them to look at ways of working that would ensure workers voices were heard, that resulted in time efficiencies not cuts and to demand proper funding from the Scottish Government.

#### 3. Council Budgets

The Council was invited to consider:

- a report on the provisional outcome of the 2023/24 Local Government Finance Settlement and the impact of this announcement and other changes in planning assumptions on the Council's incremental savings gaps for 2023/24 and subsequent years. A number of further recommended savings were presented for consideration, albeit leaving a residual gap of £3.7m in 2023/24.
- b) a report providing an update on the revenue budget framework which detailed a 2023/24 revenue funding gap of £3.7m, however, officers had continued to explore opportunities for additional income and/or reductions in expenditure, such that a balanced overall position, subject to acceptance of all officer recommendations, could be presented for consideration. A number of further updates which would reduce the gap, expressed on an equivalent basis, to

 $\pm 1.185 \text{m},$  assuming a 3% increase in Council Tax rates in 2023/24 were set out.

- c) a report which presented a summary of the main equality, rights, environmental and economic impacts of the 2023/24 officer budget proposals and mitigating actions to reduce any potential negative impacts alongside an assessment of cumulative impacts.
- d) a report which outlined the risks inherent with the revenue and capital budget framework and the range of measures and provisions established to mitigate these.
- e) report on the Sustainable Capital Budget Strategy 2023-2033, which set out priorities for £1.47bn of Council capital investment, in alignment with the Council Business Plan, over the medium to long-term.

#### Motion

As detailed in Appendix 1 to this minute.

- moved by Councillor Watt, seconded by Councillor Griffiths (on behalf of the Administration).

#### Amendment 1

As detailed in Appendix 2 to this minute

- moved by Councillor Macinnes, seconded by Councillor Mumford (on behalf of the SNP and Green Groups).

#### Amendment 2

As detailed in Appendix 3 to this minute.

- moved by Councillor Ross, seconded by Councillor Younie (on behalf of the Liberal Democrat Group).

#### **Amendment 3**

As detailed in Appendix 4 to this minute.

- moved by Councillor Doggart, seconded by Councillor Bruce (on behalf of the Conservative Group Democrat Group).

#### Amendment 4

To approve the motion by Councillor Watt with the following amendment:

"Council agrees to allocate £4.65 million from the administration budget priorities fund for the purpose of avoiding the allocated funding reductions set out in proposal ECS6."

- moved by Councillor Young, seconded by Councillor Davidson (on behalf of the Liberal Democrat Group).

#### Amendment 5

To approve the motion by Councillor Watt with the following amendment:

"Council agrees to allocate £0.54 million in 2023/24 (£0.88m recurring) from the administration budget priorities fund to provide:

- £200k p.a. from 2023/24 to Restore bus services for Willowbrae / Lady Nairne and Dumbiedykes
- £90k in 2023/24 (£180k recurring) for Enhanced City Centre Waste operations; and
- £250k in 2023/24 (£500k recurring) for dedicated resources to tackle graffiti.

Subject to consideration of more detailed business cases by the Finance and Resources Committee, approves the use of up to £1m from the Spend to Save Fund to accelerate the development of a comprehensive change plan to address the pressing financial challenges facing the council over the medium term including;

- Establishment of a dedicated project team to undertake a programme of Value for Money service reviews.
- Provision of additional dedicated staff to accelerate a strategic property review and implementation of a community hub model approach to capital investment.
- Development of service prioritisation and workforce management savings options with a first phase of savings to be implemented by 1st January 2024.

Notes the continued failure of the Edinburgh Health and Social Care Partnership to develop a strategic approach to financial planning with the Edinburgh Integration Joint Board (EIJB) continuing to rely on non-recurring funding to address non-delivery of Partnership savings and shortfalls in funding from the Scottish Government and NHS Lothian. Further recognises the failure of the Partnership and EIJB to deliver transformational change in service delivery.

Therefore, Council notes the urgent need to address the failure of the EIJB to make progress towards a sustainable budget position and agrees to reprioritise £2.5m of

the Council's allocation to the EIJB on a recurring basis to create ring-fenced Innovation and Service Transformation funds with the initial phase of business case proposals for investment to be brought to the Council by the Autumn."

- moved by Councillor Whyte, seconded by Councillor Rust (on behalf of the Conservative Group).

In accordance with Standing Order 22(12), Amendments 4 and 5 were accepted as amendments to the motion.

#### Voting

#### **First Vote**

The voting was as follows:

-	11 votes
-	22 votes
-	15 votes
-	13 votes
	- - -

(For the Motion (as adjusted): Councillors Arthur, Lezley Marion Cameron, Dalgleish, Day, Graham, Griffiths, Jenkinson, Meagher, Pogson, Walker and Watt.

For Amendment 1: Councillors Aston, Bandel, Biagi, Booth, Campbell, Dixon, Dobbin, Fullerton, Gardiner, Glasgow, Heap, Hyslop, Key, Kumar, Macinnes, Mattos Coelho, McFarlane, McNeese-Meechan, McVey, Nicolson, O'Neill and Work.

For Amendment 2: Lord Provost, Councillors Beal, Caldwell, Davidson, Dijkstra-Downie, Flannery, Lang, Miller, Mumford, Osler, Ross, Staniforth, Thornley, Young and Younie.

For Amendment 3: Councillors Bruce, Burgess, Cowdy, Doggart, Jones, McKenzie, Mitchell, Mowat, Munro, Parker, Rae, Rust and Whyte.

There being no overall majority, the Motion (as adjusted) fell and a second vote was taken between Amendments 1, 2 and 3.

#### Voting

#### Second Vote

The voting was as follows:

For Amendment 1	-	29 votes
For Amendment 2	-	23 votes
For Amendment 3	-	9 votes

(For Amendment 1: Councillors Aston, Bandel, Biagi, Booth, Burgess, Campbell, Dixon, Dobbin, Fullerton, Gardiner, Glasgow, Heap, Hyslop, Key, Kumar, Macinnes,

Mattos Coelho, McFarlane, McKenzie, McNeese-Meechan, McVey, Miller, Mumford, Nicolson, O'Neill, Parker, Rae, Staniforth and Work.

For Amendment 2: Lord Provost, Councillors. Arthur, Beal, Caldwell, Lezley Marion Cameron, Dalgleish, Davidson, Day, Dijkstra-Downie, Flannery, Graham, Griffiths, Jenkinson, Lang, Meagher, Osler, Pogson, Ross, Thornley, Walker, Watt, Young and Younie.

For Amendment 3: Councillors Bruce, Cowdy, Doggart, Jones, Mitchell, Mowat, Munro, Rust and Whyte.)

There being no overall majority, Amendment 3 fell and a third vote was taken between Amendments 1 and 2.

#### Voting

#### Third Vote

The voting was as follows:

For Amendment 1	-	29 votes
For Amendment 2	-	32 votes

(For Amendment 1: Councillors Aston, Bandel, Biagi, Booth, Burgess, Campbell, Dixon, Dobbin, Fullerton, Gardiner, Glasgow, Heap, Hyslop, Key, Kumar, Macinnes, Mattos Coelho, McFarlane, McKenzie, McNeese-Meechan, McVey, Miller, Mumford, Nicolson, O'Neill, Parker, Rae, Staniforth and Work.

For Amendment 2: Lord Provost, Councillors. Arthur, Beal, Bruce, Caldwell, Lezley Marion Cameron, Cowdy, Dalgleish, Davidson, Day, Dijkstra-Downie, Doggart, Flannery, Graham, Griffiths, Jenkinson, Jones, Lang, Meagher, Mitchell, Mowat, Munro, Osler, Pogson, Ross, Rust, Thornley, Walker, Watt, Whyte, Young and Younie.

#### Decision

To approve Amendment 2 by the Liberal Democrat Group (as detailed in Appendix 3 to this minute).

#### **Declaration of Interests**

Councillor Campbell made a transparency statement in respect of the above item as a member of Unite.

Councillor Key made a transparency statement in respect of the above item as his wife is a speech and language therapist.

Councillor Kumar made a transparency statement in respect of the above item as a non substantive employee of NHS Lothian.

# 4. Housing Revenue Account (HRA) Budget Strategy 2023/2024 – 2032/2033

The Council was invited to consider a report on the Housing Revenue Account (HRA) Budget Strategy 2023/2024 – 2032/2033.

#### Motion

A cumulative effect of years of Scottish Government underfunding has resulted in this administration identifying alternative ways to allow us to continue to provide for our citizens.

A modest rent rise of 3%, following a two-year freeze, will enable us to retrofit more council homes, saving tenants up to 70% on their fuel bills and helping us achieve our net-zero target. This could also improve tenants' lives by enabling us to further tackle problems of mould and damp by establishing a team to conduct in-depth surveys of the levels of damp and mould in our housing stock and prioritise remedial action., the exact spend will be determined following a report to the Housing, Homelessness and Fair Work Committee in 2 cycles

This below-inflation rise can also ensure we can continue to make progress on building 25,000 council-owned homes by 2032 whilst helping us achieve our ambition to alleviate poverty by 2030.

For the first time ever, we are introducing mitigations, in the form of a Tenant Hardship Fund, to support tenants for whom a rent rise, in the current cost-of-living crisis, would result in severe financial difficulty. We present this Fund in confidence that it can reduce the pressure our most vulnerable residents would face resulting from Scottish Government real term cuts.

#### Conclusion

Council notes the Housing Revenue Account (HRA) Budget Strategy 2023/2024 – 2032/2033 – referral from the Finance and Resources Committee.

Council therefore:

- Notes the impact of two years' rent freezes and increasing costs and that (based on 3% rent increases over the next 10 years) around 86% of existing homes could be brought up to Energy Efficiency Standard for Social Housing (EESSH2) over the lifetime of the business plan and that c.2,400 social rented homes could be delivered.
- Agrees a rent increase of 3% a 0.5% increase on the Executive Director of Place recommendation.
- Notes the additional financial burden that tenants will be facing from the cost-ofliving crisis, and therefore approves the establishment of a Tenant Hardship Fund to support tenants, including those who cannot access benefits.
- Notes that further details of the Tenant Hardship Fund will be presented to the Housing Homelessness and Fair Work Committee on 9 March 2023

- moved by Councillor Meagher, seconded by Councillor Pogson (on behalf of the Administration)

#### Amendment 1

#### Council:

- 1.1 Notes that the officer proposals at Appendix 3 and 4 of the report reduce the ten-year capital programme from £2.9bn to £1.6bn investment in council housing resulting in the council housebuilding programme coming to an end with no new homes being put into design and development, and the investment in energy efficiency reduced so that only 81% of homes will meet EESSH2 standards.
- 1.2 Agrees that an end to the council housebuilding programme would be catastrophic for Edinburgh, given the urgent need for more social housing.
- 1.3 Further agrees that this reduction in investment is unacceptable given the number of tenants suffering from damp and mould and the negative impact poorly insulated homes have on climate emission targets

#### 2. Rent Increase

2.1 Therefore, agrees to a rent increase of 4.7% this year and commits to this level of increase for the next thirteen years, which would allow the capital

programme to be brought back in line with previous targets on council house building and investment in improving existing homes.

- 2.2 Notes that 70-80% of tenants will have some form of assistance with paying their rent in the form of benefits from the UK Government but that some tenants will be liable for the increase, therefore agrees a tenant arrears fund as set out below (3.1-3.3).
- 2.3 Agrees that CEC must continue to make the case to COSLA and the Scottish Government for increased grant funding for new build social housing and for the investment required to bring housing stock up to the EESSH2 standard, and that any increase in funding in these areas should be used to offset the 4.7% increase in future years wherever possible.

#### 3. Tenant Arrears Fund

- 3.1 Recognises that the Tenant Hardship Fund proposed by officers does not go far enough to mitigate the potential impact of a 4.7% increase on those tenants who would be liable to pay an increase themselves. Agrees to bring back detailed options in one cycle to Housing, Homelessness and Fair Work committee on an alternative easy access fund which makes it straightforward and guarantees support for any tenant who might experience hardship due to the rent increase. These plans must follow offers of engagement with political groups to explore alternative models.
- 3.2 Agrees that £500k of the £4.744m additional revenue from the rent increase in 2023/2024 will be set aside for this purpose. If further funding is required in year, it will come off the amount allocated for Strategic Housing Investment as set out in the table below to replace Appendix 3 of the report. Also agrees that if the full £500k is not utilised any remaining sum will be allocated to Strategic Housing Investment

Net Income	Projected Outturn 2022/23 (£m) 103.169	Proposed Budget 2023/24 (£m) 107.913	Movement £m 4.744
Expenditure			
Housing Services	35.862	37.294	1.432
Property Maintenance	25.094	24.942	-0.152
Debt Charges	36.905	36.676	-0.229
Strategic Housing Investment	5.308	7.501	2.193
Tenant Hardship Fund	0.000	0.500	0.500
Damp and Mould	0.000	1.000	1.000
Total Expenditure	103.169	107.913	4.744

3.3 For future years beyond 2023-2024, agrees that officers will look at ways that this fund could be supplemented from funding outside of the HRA to support tenants on low incomes and protect the most vulnerable residents reporting back on this scoping exercise to Housing, Homelessness and Fair Work committee.

#### 4. Damp and Mould

- 4.1 Notes the unacceptable levels of damp and mould that too many tenants are experiencing and that previous calls for action have not been delivered on.
- 4.2 Agrees that the processes around damp and mould are not working, and therefore agrees for a task force will be put together to implement a rapid action plan for dealing with damp and mould with £1m funding available for immediate improvements for tenants.
- 4.3 The task force will take the data we already have around repairs, the additional information we are gaining from the stock condition survey and work out a plan for prioritising the capital investment in EESSH2 to target properties most impacted by damp and mould. The task force will also be in position to implement any management actions that come out of the damp and mould internal audit, and to look at guidance from the Scottish Housing Regulator around 'Right First Time' repairs and how this can be achieved in damp and mould cases. In particular the task force will focus on why there are multiple visits from the same trades and often from inspectors to the same property before effective action is taken to deal with damp and mould. An action plan will be developed to ensure that damp and mould is made an absolute priority by the council, with reports to CLT and Housing, Homelessness and Fair Work regularly to give an update on progress.
- 4.4 Does not agree Appendix 4, agrees that a new Appendix 4 of the report will be brought back for approval alongside the HRA capital budget report based on a 4.7% increase over thirteen years.

- moved by Councillor Campbell, seconded by Councillor Parker (on behalf of the SNP and Green Groups)

#### Amendment 2

Council:

#### Notes:

That tenants and residents' organisations are vibrant and necessary in helping shape Council policy, therefore;

That a 2.5% increase would only allow 81% (4/5ths) of the Council's EESSH2 (Energy Efficiency in Scottish Social Housing 2) target to be met, while 77% of tenants responding to the consultation have indicated that energy bills are getting harder to pay for, and nearly a quarter are actively reducing their energy usage.

That an additional 0.5% on top of the officer recommendation would allow an extra c. $\pounds$ 22.4 million of revenue to be raised over the lifetime of the current business plan, or an average of  $\pounds$ 747,700 a year, which could be used to support up to an additional funding of c. $\pounds$ 11.7m in capital borrowing.

#### Agrees:

In view of the ongoing negative impact of the Cost of Living Crisis, and the last two years of rent-freeze which, if continued, could lead to a deficit within four years of this budget or a reduction in services, agrees to increase Council rent by 3%, comfortably within the COSLA recommendation that rents do not increase by more than 5%.

The additional 0.5% of revenue will be apportioned equally three ways between EESSH2, the New Homes programme and the Council House Repairs programme.

Prioritises the establishment of a 'Tenants Hardship Fund' to support those council tenants who are not receiving welfare from either the Department of Work and Pensions or Social Security Scotland.

- moved by Councillor Flannery, seconded by Councillor Caldwell on behalf of the Liberal Democrat Group)

#### Amendment 3

Council:

- Notes the recommendations contained in the Housing Revenue Account Budget Strategy report by the Executive Director of Place and the outline 10year HRA capital programme 2023/2024 – 2032/2033
- Agrees that rents be increased by 3% in 2023/24 and that (based on rent increases of 3% over the next 10 years) an additional £90m of funding will be ring-fenced for investment in existing homes allowing an additional 1,600 homes to be brought up to EESSH2 standards.
- Agrees that a Tenant Hardship Fund will be established to support tenants experiencing financial hardship, subject to detailed consideration of arrangements by the Housing, Homelessness and Fair Work Committee.

- moved by Councillor Bruce, seconded by Councillor Doggart (on behalf of the Conservative Group)

At this point in the meeting, Amendments 2 and 3 were withdrawn.

#### Voting

The voting was as follows:

#### **First Vote**

For the Motion	-	32 votes
For Amendment 1	-	27 votes
Abstentions		1

(For the Motion: Lord Provost, Councillors. Arthur, Beal, Bruce, Caldwell, Lezley Marion Cameron, Cowdy, Dalgleish, Davidson, Day, Dijkstra-Downie, Doggart, Flannery, Graham, Griffiths, Jenkinson, Jones, Lang, Meagher, Mitchell, Mowat, Munro, Osler, Pogson, Ross, Rust, Thornley, Walker, Watt, Whyte, Young and Younie.

For Amendment 1: Councillors Aston, Bandel, Biagi, Booth, Burgess, Campbell, Dixon, Dobbin, Fullerton, Gardiner, Glasgow, Heap, Hyslop, Key, Kumar, Macinnes, Mattos Coelho, McFarlane, McNeese-Meechan, McVey, Miller, Mumford, Nicolson, Parker, Rae, Staniforth and Work

Abstentions: Councillor Mackenzie)

#### Decision

To approve the motion by Councillor Meagher.

#### **Declaration of Interests**

Councillor Caldwell made a transparency statement in respect of the above item as a Council tenant.

## Appendix 1

#### (As referred to in Act of Council No 3 of 23 February 2023

## **REVENUE BUDGET 2023/24**

## SUSTAINABLE CAPITAL BUDGET STRATEGY 2023/33

## ADMINISTRATION MOTION

#### **Budget Context**

The local government funding shortfall across Scotland in the coming year is unprecedented with councils facing decisions which will negatively impact the vital services which people rely on. For 2023-24 councils across Scotland will be faced with real budget cuts of over £1bn, imposed on us by the SNP/Green Scottish Government.

Across Scotland, these cuts will impact homelessness, schools, waste, roads and pavements, family support, public health, and social care. Without opposition from councils, the choices made by the Scottish Government will result in councils reducing or stopping services altogether and ultimately, reducing the number of jobs.

Edinburgh continues to receive the lowest per capita block grant -  $\pounds$ 1,786 compared to the Scottish average of  $\pounds$ 2,221 - and although at long last, councils may now make their own decisions regarding raising Council Tax, they lack the powers to adjust the increase by band or update the value of properties. Council Tax is a regressive, unfair tax and needs to be reformed.

Edinburgh needs more power to raise revenue relevant to the unique economy of our city. The considerable spend of tourists and festival visitors should contribute to our public services and work better for the people of Edinburgh. Legislating for a transient visitor levy must be given urgent priority by the Scottish Government.

We are committed to developing Community Wealth Building through our Business Plan to ensure our local economy benefits all of Edinburgh's citizens.

We made a commitment to take action to end poverty in Edinburgh by 2030 and remain dedicated to achieving this aim. In consultation with the Edinburgh Poverty Commission, we continue our response to the cost of living crisis. Last year we distributed an additional £8m, of which £2m was funded by the Council, to help mitigate the impact on our citizens.

We will encourage an expansion in the number of living wage accredited employers in the city, which since the launch of the strategy the number of living wage employers has increased by 50% to 617 currently. We are confident 2023 will see a further increase in the number of sign-ups, building on the record number of employers which signed up last year. Together with Edinburgh employers, public sector, third sector and Trades Union partners we will work with the Living Wage Foundation Scotland to continue to promote the use of living wage and fair work practices throughout the city economy. By tackling low pay and insecure work, we will make progress towards our ambitious goal to end poverty by 2030.

Edinburgh Labour are putting forward a responsible budget that aims to protect services, reducing inequalities, and secure jobs by investing in the Council workforce and insourcing for best value, through a radical review of our procurement process and reduced use of agency staff.

We will continue to source accommodation for citizens who become homeless, we'll maintain our cultural venues and our libraries; our leisure centres will remain open; there will be no cuts to teacher numbers, and we will invest in basic services like waste collection and improve our pavements and roads.

We commit to securing sustainable Council jobs, whilst continuing our no compulsory redundancy policy because we will not compromise the Council's ability to deliver the services that our citizens need.

We are proud to be a diverse and growing city and are committed to delivering our budget within the context of the climate emergency. We will consider any environmental impact in all our strategies and ensure climate goals are embedded across our services as we work towards our 2030 net zero target. We will continue our calls for support from the Scottish and UK Governments to help us achieve these aims.

As we mark the one year anniversary of the illegal Russian invasion of Ukraine, we are proud to have welcomed over 10,000 Ukrainian people through our Welcome Hub. We will continue to support them while the crisis is ongoing; but we will require further resources and effective partnership with the UK and Scottish Governments, particularly in our services already under pressure, such as education and housing.

#### Increased demand and diminished budgets

Real-terms cuts are being imposed on Edinburgh by an SNP/Green Scottish Government. Homelessness costs, together with other inflationary increases for energy costs, staff costs and property rates – which councils pay to the government – for schools, libraries and other essential buildings have increased the cost of running our city by over £70 million this year alone.

Across the Council, we have been working to meet this funding crisis by looking for possible ways that costs can be reduced whilst always considering the impact that cuts will have on the day-to- day lives of our citizens.

We have listened to the public and shall increase parking fines to £100 to deter inconsiderate and anti-social parking; and we'll invest the net income raised in our programme of road and pavement repairs.

#### Education

We'll increase spending on education by £11.4m in the coming year and we're adding 34 new teaching roles, but we want to do more. The Council and our schools have worked together to pool resources and mitigate the budget demands created by rising school rolls and long overdue pay increases.

There are some proposed changes that will improve outcomes, whilst also reducing costs. For example:

• the pay and job security of Pupil Support Assistants are to be reviewed with the intention of improving them. Such initiatives, properly done, will address recruitment and retention challenges, whilst also reducing costs.

We are committed to protecting services which improve outcomes for all children:

- Our Transition Teachers will play an essential role in improving attendance and attainment and we must keep them in our schools.
- We will continue to invest in Speech and Language Therapy; if there is under used resource then we must match it to any unmet need for this assistance.

We will continue to work with our third sector partners and the most recent Education, Children and Families Committee allocated £2.24m to extend our main grants programme through to 31 March 2024. We appreciate that "flat funding" means real term cuts for these organisations, so we are adding £220k for a cost of living uplift.

Our buildings management service, which keeps our public buildings safe and accessible, has already invested more than £100m in major upgrades to schools, leisure facilities and swim centres, and will remain a priority.

#### Culture, Communities and Wellbeing

We have not made cuts to our core culture and communities budget. We will continue our work to create safe, welcoming and empowered communities, ensuring people can access the support they need in the place they live and work.

Our museums, galleries, art centres and libraries remain open as before; we're not charging entry fees and we'll not be levying fines for overdue library books.

- We will continue to support users of our Taxi Card programme, which is available to Edinburgh residents with a severe permanent disability who can't use ordinary buses or can only use buses with assistance.
- We won't be reducing our customer service assistant roles because not all of our citizens are online.

We are using venues, including libraries, as warm and welcoming spaces; we're facilitating collaboration between community-based arts organisations; and we've delivered a £100k cultural diversity and inclusion fund.

Edinburgh events and festivals are watched around the world, with growing numbers attending in person. Such has been their success, that we are already considering ways to ensure that residents feel involved rather than overwhelmed by them.

Therefore, we want to support our cultural venues and recognise that the future of the much-loved King's Theatre is important to many Edinburgh citizens. We will dedicate £3m of asset management capital towards reducing the £9m funding gap, which was caused by the impact of construction inflation on the pre-pandemic renovation plans, subject to confirmation of the project's cost and match funding from other partners, including the UK and Scottish Governments.

#### **Transport and Environment**

The coming year will see us move from talking about improving sustainable transport in Edinburgh, to actually delivering the change we need.

For example, in the coming months: We'll begin assessing effectiveness of bus priority measures. We will work with residents and businesses to evaluate selective Vehicle Detection to enable bus priority at traffic signals, combined with an assessment of the cumulative benefits of increased bus lane operating hours, aligned with parking and loading restrictions. The aim will be to reduce bus journey times on the A70 corridor (Currie/Balerno to city centre).

As well as investing in sustainable transport, we need to get the day-to-day basics right – the core services of our council impact directly on the lives of our citizens, wherever they live in the city.

- That's why we are committing to an additional £10m next year of investment in our pavements and roads; with an ongoing £1.5m for pavement and road repairs. We'll get best value for our city by expanding the Council's own road works and repair teams.
- We're cleaning up our city by putting £2.5m annually into improved street cleaning, waste collection and recycling. This includes annual investment in: Communal bins £300k; a free Special Uplift programme for people on low incomes £500k; tackling fly tipping and dumping beside communal bins £200k; a dedicated team for approach roads and rural roads £0.4m; and improved service resilience of £1.0m.

We expect these new services to be coming onstream from Autumn this year and these investments will create up to 90 jobs with more in the pipeline as we continue the expansion of our own road works and repairs teams. Our work to develop a '20-minute neighbourhood' network where public transport and active travel are the best options for getting around will continue.

#### **Planning and Regulatory**

We know that to achieve our ambitions for a green and sustainable city we need robust enforcement of existing planning regulations; and that applications and licensing is a source of income for the city.

The Planning Service is currently recruiting new staff, including 3 assistant planning officers to help address the increase in planning applications and enforcement cases resulting from the introduction of a short-term letting

Edinburgh's Planning department will continue to provide a strong standard of service for the residents and businesses in our city.

#### Homelessness

Edinburgh is a growing city and we're facing housing pressures like nowhere else in Scotland, with the lowest proportion of social housing in the country and biggest, most expensive, private rented sector. The Scottish Government has rightly tightened rules around the standards of temporary accommodation and changed the eligibility rules but has failed to provide additional funds for us to deliver that.

The Scottish Government must provide more funding for social and affordable homes, and we will also seek alternative methods of funding to progress our house building programme, given the failure of the Scottish Government to assist us with the homelessness crisis that is facing our city.

Between 2020 and 2023 the cost of helping with homelessness has more than doubled, from £31 million per year to an expected £62 million in 2023. This represents a further unfunded shortfall in the coming year of £10.4m, equivalent to the entire 3.4% council tax raise recommended in the Chief Financial Officer's report.

#### **Raising Revenue**

After years of Council Tax freezes and caps, the Scottish Government is now allowing councils to decide how much to increase the level of Council Tax. Opportunities to make council tax fairer or to implement a transient visitor levy have been cast aside by a government which has shown little interest in Edinburgh or in the services that citizens and businesses here rely on in their day-to- day lives. To provide for homelessness, to protect services and to secure jobs, there will be a further Council Tax increase of 2.35% relative to officers' recommendations, giving a total increase this year of 5.75%. For a band D property this amounts to £6.61 per month and we strongly encourage, and will support where needed, residents on low incomes to apply for financial assistance.

#### Conclusions

Edinburgh Labour commit to reviewing the operation and delivery of our services, ensuring best value and sustainability whilst acknowledging the significant mediumterm gap. Recognising the substantial pressures faced by Edinburgh as the lowest funded local authority in Scotland, both now and in the future, we will continue to demand that the Scottish Government gives Edinburgh the fair funding settlement our capital city deserves.

Council notes the following reports from the Executive Directors of Corporate Services and the Chief Executive:

#### **Council Budget Reports**

- (a) Revenue Budget Framework 2023/27 Progress Update referral from the Finance and Resources Committee
- (b) Revenue Budget Framework 2023/24 Further Update report by the Chief Executive
- (c) Council Revenue Budget Framework (2023/24) Integrated Impact Assessments – report by the Interim Executive Director of Corporate Services
- (d) Revenue Budget 2023/24 Risks and Reserves referral from the Finance and Resources Committee
- (e) Sustainable Capital Budget Strategy 2023-2033 referral from the Finance and Resources Committee

Council therefore approves:

- The Revenue Budget 2023/24 as set out in the reports appended to this motion, as amended by the changes/allocations included in Appendix 1;
- A band 'D' Council Tax of £1,458.03 for 2023/24;
- The Council Tax and Rating resolution set out in Annex 2 to this motion;
- The 2023/33 Sustainable Capital Budget Strategy as set out in the report by the Interim Executive Director of Corporate Services, as amended by the changes shown in Annex 3;
- The Schedule of Fees and Charges for Council services as set out in Annex 4 of this motion; and
- The prudential indicators as set out in Annex 5 to this motion.

#### COUNCIL TAX RATING RESOLUTION ANNEX 2 TO ADMINISTRATION MOTION

To recommend that in respect of the year to 31st March, 2024:

#### 1. GENERAL FUND

Revenue Estimates - the Revenue Estimates as presented and adjusted be approved;

Council Tax - estimated expenditure from Council Tax of £347.761m be met and in terms of Sections 70(1) and 74(1) of the Local Government Finance Act 1992 (the 1992 Act) Council Tax be levied in respect of properties in the bands defined in Section 74(2) of the 1992 Act, as amended by The Council Tax (Substitution of Proportion) (Scotland) Order 2016, as follows:

14 July 2023

15 September 2023

Band	Council Tax	Band	Council Tax
	£		£
Α	972.02	E	1,915.69
В	1,134.02	F	2,369.30
С	1,296.03	G	2,855.31
D	1,458.03	н	3,572.17

2. RATING APPEALS TIMETABLE

In terms of Part XI of the Local Government (Scotland) Act 1947 the following dates be approved:

#### Main Assessment Roll

Lodging of Appeals with the Executive Director of Corporate Services by Hearing of Appeals by the Rating Authority

Amendments to Main Assessment Roll made su	bsequent to its issue
Lodging of Appeals with the Executive	Within six weeks of issue of Rate Demand or
Director of Corporate Services	in terms of Section 11 of the Rating and Valuation (Amendment) (Scotland) Act 1984

Hearing of Appeals by the Rating Authority Periodically

#### 3. CAPITAL EXPENDITURE

Expenditure on Capital projects in progress be met.

#### 4. BORROWING

The Council borrows necessary sums to meet the above capital expenditure.

Rolled Forward Capital Investment Programme	£000	£000	£000	£000	£000	£000	£000
Housing Revenue Account	64,850	106,590	173,361	179,125	191,054	221,167	208,867

Indicator 2 - Ratio of Financing Costs to Net Revenue Stream Estimates of the ratio of financing costs to net revenue stream for the current and future years and the actual figures for 2021/22 are: Ratio of Financing Costs to Net Revenue Stream

	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28
	Actual	Forecast	Estimate	Estimate	Estimate	Estimate	Estimate
	%	%	%	%	%	%	%
General Services	6.8%	7.1%	7.6%	8.0%	8.2%	8.4%	8.4%
Housing Revenue Account (HRA)	32.0%	32.5%	34.1%	35.3%	37.1%	37.8%	38.2%

Note: Figures for 2024/25 onwards are indicative at this stage as the Council has not set a General Services or HRA budget for these years.

#### **Indicator 3 - Capital Financing Requirement**

Estimates of the end of year capital financing requirement for the authority for the current and future years and the actual capital financing requirement at 31 March 2022 are:

#### **Capital Financing Requirement**

	2021/22 Actual £m	2022/23 Forecast £m	2023/24 Estimate £m	2024/25 Estimate £m	2025/26 Estimate £m	2026/27 Estimate £m	2027/28 Estimate £m
General Services (including Finance Leases / Right of Use Assets)	1,411	1,493	1,614	1,707	1,789	1,791	1,739
Housing Revenue Account (HRA)	394	422	466	545	558	596	671
NHT LLPs	56	44	32	23	15	0	0
Edinburgh Living LLPs	42	79	137	206	246	254	251
Total Capital Financing Requirement	1,903	2,038	2,249	2,481	2,608	2,641	2,661

The capital financing requirement measures the authority's underlying need to borrow for a capital purpose. The authority has an integrated treasury management strategy and has adopted the CIPFA Code of Practice for Treasury Management in the Public Services. The Council has, at any point in time, a number of cashflows both positive and negative, and manages its treasury position in terms of its borrowings and investments in accordance with its approved treasury management strategy and practices. In day to day cash management, no distinction can be made between revenue cash and capital cash. External borrowing arises as a consequences of all of the financial transactions of the authority and not simply those arising from capital spending. In contrast, the capital financing requirement reflects the authority's underlying need to borrow for a capital purpose.

The capital financing requirement for the NHT LLPs includes an estimate for repayments of advances. Exit strategies are still to be finalised for the remaining three LLPs, however five have now repaid their loans in full.

CIPFA's Prudential Code for Capital Finance in Local Authorities includes the following as a key indicator of prudence.

In order to ensure that over the medium term debt will only be for a capital purpose, the local authority should ensure that debt does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years.

#### **Gross Debt and the Capital Financing Requirement**

	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28
	Actual	Forecast	Estimate	Estimate	Estimate	Estimate	Estimate
	£m	£m	£m	£m	£m	£m	£m
Gross Debt	1,789	1,769	1,896	2,009	2,065	2,073	2,079
Capital Financing Requirements	1,903	2,038	2,249	2,481	2,608	2,641	2,661
(Over) / under limit by:	114	269	353	472	543	568	582

The authority does not currently envisage borrowing in excess of its capital financing requirement over the next few years. This takes into account current commitments, existing plans and assumptions around cash balances and the proposals in this budget. The figures do not include any expenditure and associated funding requirements, other than projects specifically approved by Council, for the Local Development Plan (LDP) or City Deal.

From 2022/2023, the Authority will apply IFRS 16 Leases as adopted by the Code of Accounting Practice. This will subsequently have an impact on the Capital Financing Requirement (CFR) as from the 2022/23 financial year. The capital financing requirement has been adjusted by £42m for 'Right of Use Assets' under IFRS16. This will similarly have an impact on the authorised limit and operational boundary for external debt.

#### Indicator 4 - Authorised Limit for External Debt

The authorised limit should reflect a level of borrowing which, while not desired, could be afforded, but may not be sustainable. "Credit Arrangements" as defined by Financial Regulations, has been used to calculate the authorised and operational limits requiring both the short and long term liabilities relating to finance leases and PFI assets to be considered. In respect of its external debt, the following authorised limits for its total external debt gross of investments for the next four financial years was approved in February 2022. These limits separately identify borrowing under credit arrangements including finance leases and PFI assets. Council have approved these limits and to delegate authority to the Service Director for FInance and Procurement, within the total limit for any individual year, to effect movement between the separately agreed limits for borrowing and credit arrangements, in accordance with option appraisal and best value for money for the authority. Any such changes made will be reported to the Council at its meeting following the change.

#### Authorised Limit for External Debt

	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28
	£m						
Borrowing	1,748	1,92	2 2,214	2,535	2,795	2,906	2,945
Credit Arrangements (including leases and Right of Use assets)	289	31	7 394	383	373	366	361
Authorised Limit for External Debt	2,037	2,23	9 2,608	2,918	3,168	3,272	3,306

These authorised limits are consistent with the authority's current commitments, existing plans and the proposals in this budget for capital expenditure and financing, and with its approved treasury management policy statement and practices. They are based on the estimate of most likely (but not worst case) scenario with sufficient headroom to allow for operational treasury management. Risk analysis and risk management strategies have been taken into account, as have plans for capital expenditure, estimates of the capital financing requirement and estimates of cashflow requirements for all purposes.

#### Indicator 5 - Operational Boundary for External Debt

The operational boundary equates to the estimated maximum of external debt. It is based on the same estimates as the authorised limit but reflects directly the estimate of the most likely, prudent but not worst case scenario, without the additional headroom included within the authorised limit to allow for example for unusual cash movements. The operational boundary represents a key management tool for in year monitoring. Within the operational boundary, figures for borrowing and credit arrangements are separately identified. The Council has also delegated authority to the Service Director for Finance and Procurement, within the total operational boundary for any individual year, to effect movement between the separately agreed figures for borrowing and credit arrangements, in a similar fashion to the authorised limit. Any such changes will be reported to the Council at its next meeting following the change.

	Operational Boundary for External Debt						
	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28
	£m	£m	£m	£m	£m	£m	£m
Borrowing	1,690	1,872	2,164	2,485	2,745	2,856	2,895
Credit Arrangements (including leases)	289	317	394	383	373	366	361
Operational Boundary for External Debt	1,979	2,189	2,558	2,868	3,118	3,222	3,256

The Council's actual external debt at 31 March 2022 was £1,789m of borrowing (including sums repayable within 12 months).

#### Indicator 6 - Loans Charges Associated with net Capital Investment expenditure plans

The authority can set its own local indicators to measure the affordability of its capital investment plans. The Service Director for Finance and Procurement considers that Council should be advised of the loans charges cost implications which will result from the spending plans being considered for approval. These cost implications have been included in the Council's Revenue and HRA budgets for 2022/23 and for future years will be considered as part of the longer term financial frameworks.

#### Loans Charges Liability

	2022/23 Estimate £000	2023/24 Estimate £000	2024/25 Estimate £000	2025/26 Estimate £000	2026/27 Estimate £000	2027/28 Estimate £000
General Services (excluding On-Lending and Tram to Newhaven) - New Loans Fund	Advances					
Loans Fund Advances in year	44,091	90,023	154,929	155,027	74,246	21,942
Year 1 - Interest Only	882	1,820	3,239	3,101	1,485	439
Year 2 - Interest and Principal Repayment	3,233	6,675	11,875	11,369	5,445	1,609
Housing Revenue Account (HRA) - New Loans Fund Advances						
Loans Fund Advances in year (excl. LLP programme *)	45,780	64,681	99,574	36,943	62,442	101,619
Year 1 - Interest Only	973	1,374	2,116	785	1,327	2,159
Year 2 - Interest and Principal Repayment	1,946	2,749	4,232	1,570	2,654	4,319

\* The loans charges associated with the borrowing required for the house building programme for onward transferred to the LLPs will be met from the LLPs and does therefore not have a net impact on the HRA or General Services revenue budget. Tram repayments are based on the income model and will commence from 2023/24 when the line to Newhaven becomes operational.

#### Consideration of options for the capital programme

In considering its programme for capital investment, Council is required within the Prudential Code to have regard to:

- affordability, e.g. implications for Council Tax or house rents;
- prudence and sustainability, e.g. implications for external borrowing;
- value for money, e.g. option appraisal;
- stewardship of assets, e.g. asset management planning;
- service objectives, e.g. strategic planning for the authority;
- practicality, e.g. achievability of the forward plan.

## Appendix 2

## (As referred to in Act of Council No 3 of 23 February 2023)

## REVENUE BUDGET FRAMEWORK 2023/27

## SUSTAINABLE CAPITAL BUDGET STRATEGY 2023/33

## SNP AND GREEN GROUPS AMENDMENT

## 1. Introduction

The SNP and Green parties are proposing a joint budget to create a progressive political alternative to the budget proposals submitted to date. Since May 2022, the climate change team has been disbanded, key work to address poverty has stalled and core services have declined.

For people in Edinburgh, the current cost-of-living crisis comes on the back of the ongoing Covid pandemic, which itself followed over a decade of austerity. Throughout these crises, women, people of colour, disabled people and other marginalised groups have borne the brunt, and the gap between rich and poor has grown further.

What's more, this pain and uncertainty is sitting against the backdrop of the looming climate and nature catastrophe. We know that the time to act on these emergencies is running out, and we are already seeing the impacts of extreme weather changes on the city which will only worsen unless concerted action is taken now. Apathy towards preventing and mitigating for climate change will not only be a moral failure of this Council, but it will end up costing the city significantly more money in the long-term too.

The Council has a vital role to play in targeting its spending towards those most in need across the city. This budget will help get things back on track, setting out real progress on the climate and nature emergencies, targeted help with the cost-of-living crisis and a focus on funding frontline services to give residents the best possible standards.

## 2. Financial context

This budget is taking place in the context of rampant inflation which the UK Tory Government has both partly caused and failed to control. While the Scottish Government budget has grown by 6.2% in 23/24, the inflationary pressure across spending has run at 10.7%, with Barnett consequentials down 5% in real terms since 21/22. This means an incredibly challenging financial year across all public services in Scotland.

To help relieve this pressure, the Scottish Government has committed to expanding powers in areas such as the transient visitor levy, workplace parking levy and has this year increased parking fines to better reflect the reality of urban parking needs. However, the Scottish Government also needs to go further and faster to deliver more powers to Councils which could provide significant revenue to protect public services.

The huge inflationary pressure also means that the Council needs additional help to meet the minimum

5% pay award that our hardworking staff deserve. The additional £100m in support for Councils approved in the Scottish Government's budget 23/24 now means a 4.2% pay uplift can be funded at present. We join all parties in calling for the additional funds to be met by Government, but we further note Council officers can take mid-year actions to raise millions of pounds by executing previous budget decisions in full to fund a fair pay offer following negotiations.

This year the Edinburgh Integrated Joint Board budget has increased by a total of £8.9m from the Scottish Government and we will pass this on in full to the IJB. The Scottish Government has made £1bn available across Scotland for NHS and Social Care in response to the challenges we face. Still, our EIJB faces budget pressures and a shortfall of £31m and demand pressures remain significant. We will return mid-year to examine the current policy and practice of clawbacks for those in receipt of self-directed support to help people keep more of the money paid in self-directed support on activities and support that is available and can help them manage conditions. This will be paid for within the envelope of the current settlement.

## 3. Shared aims and ambition for Edinburgh

This joint budget has been developed in recognition of the need for radical solutions that work for Edinburgh, and the many shared ambitions between our two parties.

Our collective approach is to face challenges head on and submit constructive suggestions which demonstrate how - by thinking differently and creatively - progressive politics can allow us to deliver effectively for our residents in these challenging times. To do this we're taking bold action, recognising the need for Council Tax reform, questioning assumptions about spending needs, and using surplus funds to protect classroom budgets, improve public safety, and make vital progress to fight climate change, among many other things.

A budget that delivers for Edinburgh's future requires a deep understanding of the different experiences and needs facing people in the city, as well as the wider global context of the climate and nature emergencies. Our joint budget proposals have been developed with equality and climate justice in mind, and are accompanied by climate and equality impact statements which have driven the budget choices we have made.

## 4. Budget amendment

## 4.1 We will take decisive action to reverse the current proposed cuts by:

- 4.1.1 Cancelling the proposed £5.6m cut to school budgets, protecting money in the classrooms and encouraging this to be focused on meeting additional needs;
- 4.1.2 Cancelling the £400k cut to education welfare officers, retaining capacity to support young people in need and better link in with schools to encourage take up;
- 4.1.3 Cancelling the cut to Speech and Language Therapy services, retaining these services to support young people and encourage schools to use available capacity;
- 4.1.4 Cancelling the plan to take £1.5m out of inclusion and support education in 24/25, protecting the provision of special schools and allowing parents and teachers to make choices with the best interests of the young person first and foremost;
- 4.1.5 Ensuring continued free travel for people under 22 years old on our expanded tram service, mirroring our commitment to funding over 60s travel on this sustainable transport option;
- 4.1.6 Reversing the £120k cut to the Taxicard scheme, which helps everyone to move more freely around the city.

#### 4.2 We will allocate additional spending to support investment:

- 4.2.1 We will invest £300k to create a skilled council climate change team to lead efforts within the council and in partnerships across the city to help us reach our collective climate goals and fulfil the Council's Climate 2030 Strategy;
- 4.2.2 We'll also spend £200k on the council's strategic flood management team, to help support the city's response to climate change;
- 4.2.3 We'll invest in ground-breaking flood prevention and climate adaptation measures with £500k for street tree projects and raingardens within roads assets;
- 4.2.4 We will use existing resource allocated of £100k on an economic study on climate adaptation to set a roadmap of how all residents can be protected from the worst impacts of climate change in Edinburgh;
- 4.2.5 We'll increase the budget for tree maintenance by £60k to make sure the trees we do have are well looked after and thriving
- 4.2.6 We will invest £50k in an innovative property survey pilot project to help some home-owners take action to better insulate their homes, saving them money, reducing emissions, and providing useful learning for others;
- 4.2.7 We'll allocate funds towards the creation of a new Bike Hire scheme, supporting more residents and visitors to cycle around Edinburgh;

- 4.2.8 We will invest £100k in an Accessibility Commission for the city, integrating accessibility into our planning, transport and housing systems to enable equal access for all across our city;
- 4.2.9 We will invest an additional £500k in road and pavement repairs and spend £200k buying game- changing "pothole pro" machinery which can transform how we tackle road repair in an efficient way;
- 4.2.10 We will spend an additional £200k on street cleaning, repeating some of the deep cleans that have happened around the City, focusing on the city centre and areas most in need;
- 4.2.11 We'll use £400k to expand public toilet provision and upgrade existing public toilets, improving accessibility and making sure nobody is caught short in our popular parks;
- 4.2.12 We'll allocate funding for the Council's participation in Stonewall's accreditation scheme and fund equal provision of sanitary bins across Council buildings;
- 4.2.13 We will also allocate an additional £110k to increase provision of counselling and support services for victim survivors of domestic abuse and sexual violence;
- 4.2.14 We will invest £100k to provide better lighting in parks, making the city a safer and more welcoming place, particularly for women;
- 4.2.15 We will put another £200k into supporting youth work across the city, recognising the long-lasting impacts of the Covid-19 pandemic on our young people;
- 4.2.16 We will create a fund of £200k for our local community centres, at a time when those efforts are truly needed this funding will help them survive and thrive through the challenges of increased energy costs and other pressures;
- 4.2.17 We'll increase participatory budgeting by allocating an additional £200k to budgets of neighbourhood grants funds for those that run decision-making as a PB exercise, putting decisions in the hands of communities;
- 4.2.18 Following the UK Government passing outrageous voter suppression legislation, we'll allocate £50k for the elections team to support those most likely to lose their rights to get what they need to vote;
- 4.2.19 We will fund the continuation of the Gaelic Implementation Officer post to ensure the plan to enhance Gaelic across the City stays on track;
- 4.2.20 We will match-fund the outstanding needs of the refurbishment funding to the King's Theatre, keeping this Edinburgh institution thriving for generations to come.

- 4.2.21 We'll borrow £500k to invest in the replacement for the Pride bridge, matchfunding the gap in the project after the equivalent cost for demolition that we've already allocated;
- 4.2.22 We are allocating £60k to bring the Tollcross Clock back to its historic location;
- 4.23 And we have put in place consideration of pay awards which, when combined with Scottish Government funding, will help to bring some reassurance to our staff members that they will receive the pay increase they deserve.

## 4.3 We will fund these additional investment and reverse proposed cuts by:

- 4.3.1 Increasing parking fines (Penalty Charges Notices) to the new maximum level of fines – raising £2.4m. We'll also increase on-street car park charges to reach 20% for on-street locations excluding residents permit charges and town centres and will look to expand charging in destinations trouble spots to create new revenues and enforcement to raise revenue in future years;
- 4.3.2 Cutting the Lord Provost budget by £100k, recognising that our front-line services are more important than hospitality;
- 4.3.3 Saving a further £250k in property services by acknowledging the underoccupancy in buildings following changes to working patterns and beginning processes to let out Waverley Court;
- 4.3.4 Saving £450k by building on work already delivered across departments to control agency staff spend, focusing on filling vacancies rather than relying on expensive agency workers or overtime;
- 4.3.5 Reducing the Council's communication budget by £100k reflecting the increasing ability to get key messages out to residents digitally and need to prioritise money in front-line services;
- 4.3.6 Saving £100k by reducing the number of Service and Policy Advisors in the Council, reflecting the halving of senior Councillors this team works to;
- 4.3.7 Raising £40k through increasing some of the fees and charges on things like external catering and room hire, but excluding services people rely on like school meals, access to outdoor space, and funerals;
- 4.3.8 We'll also put in motion plans to release further savings in year by exploring agreement to jointly procure services with other councils in the region, supporting staff out of the redeployment pool and releasing one-off monies through selling assets to raise vital cash for lifeline services.

#### 4.4 Council tax:

4.4.1 Fairness in Household Incomes

We believe that the present system of Council Tax constrains local government's ability to raise revenue fairly. In our current decision-making context, the most pressing immediate concern during a cost-of-living crisis is the need to shield households in lower bands from having to pay the same increases as those in higher bands.

The proposal we would have wished to put to council is to set a Council Tax rate under section 93 of the 1992 Local Government Finance Act that is 20% higher than the 2022-23 level, and creating a targeted discount scheme under Section 20 of the 2003 Local Government in Scotland Act where Council itself meets part of the Council Tax bill. That would offset increases so that occupied primary residences in Bands A and B would be frozen, paying no more than at present, in Bands C and D pay 3% more, and in Band E, F, G and H pay 5%, 10%, 15% and 20% more respectively. This would ensure that Council Tax bills correspond more progressively to the value of properties. For the reasons below we are not able to propose this option.

We welcome the legal advice sought by officers, which gives confidence that Council may pay grants to households to support their financial well-being and helpfully identifies the other provisions of the 1992 Act which would interact with our proposal and need to be taken into consideration and negotiated in any attempt at implementation.

We believe this provides a solid base to build a fairer system for Edinburgh.

An interim proposal to help households more likely to face cost-of-living pressures in the coming year is to pay £100 grants to households who occupy Band A-D homes that are sole residences. Despite advice that a scheme could have been be lawful, and deliverable it has unfortunately been advised that this cannot be considered at this meeting.

- 4.4.2.1 We therefore propose the establishment of a Council working group, with representation from all parties committed to a fairer system, to develop proposals that can be delivered in next year's budget and prepare the necessary infrastructure to administer them.
- 4.4.2.2 We further ask officers to pursue further statutory guidance from the Scottish Government under Section 21 of the 2003 Local Government in Scotland Act on the intended extent of the powers in the Act and necessary changes to enable local government to set fairer rates in the context of the Council Tax continuing in a similar form for the foreseeable future.
- 4.4.2.3 We therefore reluctantly are forced to propose to increase Council Tax by 5.99% and we will revisit the issue of direct financial support to households in-year in the context of point 4.4.2.2 and 4.4.2.1.

#### Conclusions

Council notes the following reports from the Executive Directors of Corporate Services and the Chief Executive:

## **Council Budget Reports**

- (a) Revenue Budget Framework 2023/27 Progress Update referral from the Finance and Resources Committee
- (b) Revenue Budget Framework 2023/24 Further Update report by the Chief Executive
- (c) Council Revenue Budget Framework (2023/24) Integrated Impact Assessments – report by the Interim Executive Director of Corporate Services
- (d) Revenue Budget 2023/24 Risks and Reserves referral from the Finance and Resources Committee
- (e) Sustainable Capital Budget Strategy 2023-2033 referral from the Finance and Resources Committee

#### **Council therefore approves:**

- The Revenue Budget 2023/24 as set out in the reports appended to this motion, as amended by the changes/allocations included in Appendix 1;
- A band 'D' Council Tax of £1,461.34 for 2023/24;
- The Council Tax and Rating resolution set out in Annex 2 to this motion;
- The 2023/33 Sustainable Capital Budget Strategy as set out in the report by the Interim Executive Director of Corporate Services, as amended by the changes shown in Annex 3;
- A further report to be submitted to seek approval of revised charges for Council services, the financial impact of which is contained in Appendix 1 to this motion; and
- A further report to be submitted to seek approval of the prudential indicators arising from this motion.

## Appendix 1: Climate impact statement

Following a Green amendment at Policy & Sustainability committee on 17th November 2022, it was agreed that officers should "provide high level guidance for political groups to complete a climate impact assessment of proposed budgets in the run up to the Council's budget setting process in February" and it was recommended that "all budget motions should include an accompanying statement to their proposals which sets out how their spending plans align with the Council's climate strategies, including this as an appendix". This Appendix (1) addresses that recommendation, building on the officer climate impact template which was shared with all political groups in December 2022. We have also produced an equalities impact statement which is found in Appendix 2.

This impact statement is not a substitute for a full climate impact assessment or carbon budget. Further, this statement does not cover all budget lines or "missed opportunities" from unfunded projects which would otherwise have a positive impact on climate targets. Instead, the focus has been to produce a counterfactual analysis of the climate impact of the proposed budget by noting specific budget line insertions, edits and deletions, compared to the officer budget presented at Finance & Resources committee on 7th February 2023.

In future years we hope it will be possible for groups to conduct a fuller impact assessment of budget proposals. We welcome thoughts from officers and political groups about how this might be realised.

#### **Climate impact statement**

The Council has a statutory duty to ensure that its policies, plans and strategies take account of: i) carbon impacts; ii) adaptation to climate change and iii) sustainable development. The climate impact statement is structured around these themes.

## i) Carbon impacts

The carbon impact of budget proposals can be assessed in terms of: a) buildings and energy use, b) infrastructure and energy use; c) transport and d) resource use and waste. Compared to the officer budget presented at Finance & Resources committee on 7th February 2023 it is considered that the budget proposals will result in a greater decrease of carbon emissions in the short and long term.

a) Bu	ildings and energy use	
Positi	ive impacts	Negative impacts
1.	The budget proposals reinstate the investment programme to deliver 100% of existing council homes to EESH2 standards compared to just 81% from the officer budget. This will result in a greater decrease of energy usage and therefore a greater decrease of carbon emissions in the short and long term.	<ol> <li>The budget proposals include new public toilets which will lead to an increase of carbon emissions from construction in the short term. Mitigations should be put in place to ensure construction is as low carbon as possible. The provision of new, accessible public toilets has other positive benefits which are considered to outweigh the negative carbon impact,</li> </ol>
2.	The budget proposals include an investment in property surveys to support residents in the private sector to reduce energy costs. This will result in a decrease of energy usage and carbon emissions in the short and long term. This is not included in the officer	especially over the longer term.

	budget.	
3.	The budget proposals include plans to reduce the use of some council buildings in line with the 20-minute neighbourhood model. This will result in a decrease of energy usage within the council and therefore a decrease of carbon emissions in the short and long term, in line with the CERP. Despite this, the impact on city-wide emissions may be negligible as buildings are used by other groups whose energy usage contributes to emissions in the city.	
4.	The budget proposals include investment in an Energy Officer as part of the Climate Team to prioritise development of low carbon and sustainable energy. This work will result in a greater decrease of carbon emissions across all council business in the long term. This post is not included in the officer budget.	
b) Infra	structure and energy use	
Positive	e impacts	Negative impacts
1.	The budget proposals include investment in a Partnerships & Programme Manager and PMO Officer post as part of the climate team. These posts will support delivery of the 2030 Climate Strategy and actions to decarbonise infrastructure therein. Accordingly, these posts will result in a greater decrease of carbon emissions in the long term. Funding for these posts is not included in the officer budget	<ol> <li>The budget proposals include construction of new street and parks lighting which will have a negative impact on biodiversity (light pollution) and energy usage. Mitigations should be put in place to ensure that new lights are energy efficient and use appropriate coloured bulbs. The provision of increased street and park lighting has other, long term positive benefits which are considered to outweigh the negative carbon impact.</li> </ol>
c) Tran	•	
Positive	e impacts	Negative impacts
1.	The budget proposals include investment in cycling provision, including for further development of a business case for a city-wide cycle hire scheme. Investment to support people to take up cycling will result in modal shift and lead to a reduction in transport	

emissions in the long term. This is not included in the officer budget. 2. The budget proposals include an	
increase in parking charges compared to the officer budget. This encourages modal shift and will lead to a reduction in transport emissions in the long term.	
<ol> <li>The proposals include concessions for U22s tram travel to encourage modal shift amongst younger people. This will have a positive impact on carbon emissions relating to transport. This is not included in the officer budget.</li> </ol>	
d) Resource use and waste	
Positive impacts	Negative impacts
There are no additional proposals / changes which affect resource use / waste	There are no additional proposals / changes which affect resource use / waste

## ii) Climate resilience impacts

The climate resilience impacts of the budget proposals can be assessed in terms of their impact on: a) communities, b) infrastructure and service delivery and c) biodiversity and land use. Compared to the officer budget presented at Finance & Resources committee on 7<sup>th</sup> February 2023 it is considered that the budget proposals will reduce the vulnerability of residents to climate change, reduce the effects of climate change on the city and improve biodiversity.

a) Com	nmunities	
Positiv	e impacts	Negative impacts
1.	The budget proposals include investment in a Stakeholder Engagement & Communications Officer as part of the climate team. This role would support engagement with communities on climate action, improving residents' understanding of the climate emergency and resilience in the face of it. This post is not funded in the officer budget.	
2.	The budget proposals include investment in public toilets which include public access to water sources, important during periods of extreme heat. This means that the city will be better equipped to deal with extreme	

3.	weather arising from the climate crisis. This investment is not included in the officer budget. The budget proposals include funding for a full economic study to be undertaken looking at climate adaptation measures. This economic study will inform considerations needing to be made around climate adaptation measures in the city, including their impacts on communities.	
b) Infra	astructure and service delivery	
	re impacts	Negative impacts
1.	The budget proposals reinstate the investment programme to deliver 100% of existing council homes to EESH2 standards compared to just 81% from the officer budget. This will ensure all council homes are "climate ready" and comfortable during periods of extreme heat / cold.	
2.	The budget proposals include an investment in property surveys to support residents in the private sector to retrofit homes. This will support residents to ensure their homes are "climate ready" and comfortable during periods of extreme heat / cold. This proposal is not included in the officer budget.	
3.	The budget proposals include funding for a full economic study to be undertaken looking at climate adaptation measures. This economic study will help us to understand the effect climate change might have on council services and infrastructure, and help us to reimagine service delivery in this context.	
4.	The budget proposals include investment in a flood management team to design more surface water management schemes. This will lessen the effect climate change will have on city infrastructure by decreasing the	

5.	likelihood of flooding and drainage infrastructure failure. This investment is not included in the officer budget. The budget proposals include investment in street tree projects and rain gardens within roads asset management. This will mitigate the effect climate change could have on roads infrastructure and reduce the likelihood of flooding and drainage infrastructure failure. This investment is not included in the officer budget.	
c) Biod	liversity and land use	
	e impacts	Negative impacts
	The budget proposals include investment in a tree maintenance team to ensure that newly planted trees survive. This will improve biodiversity, increase climate resilience through increased canopy cover and shade, and reduce climate emissions. This investment is not included in the officer budget.	<ol> <li>The budget proposals include an increase in housebuilding which can lead to habitat destruction and soil sealing, as well as increased energy consumption. Mitigations should be put in place to ensure that development is "nature positive" and happens on appropriate sites. The positive benefits of house building in the city are considered to outweigh the negative impacts development might otherwise</li> </ol>
2.	The budget proposals include investment in street tree projects and rain gardens within roads assets. Rain gardens are an example of nature- based solutions to climate change, providing habitats to increase biodiversity. This investment is not included in the officer budget.	have.
3.	The budget proposals include greater investment in street cleansing. This intervention can improve biodiversity.	

## iii) Sustainable development impacts

The sustainable development impacts of the budget proposals can be assessed in terms of their impact on: a) social justice, b) economic development and c) environmental good stewardship. Compared to the officer budget presented at Finance & Resources committee on 7<sup>th</sup> February 2023 it is considered that the budget proposals will improve opportunities for "green" economic development and

improve environmental good stewardship. The impact of budget proposals on social justice are considered as part of the equalities impact statement (Appendix 2).

,	al justice	
Positive	e impacts	Negative impacts
	pact of budget proposals on social justice v ent (Appendix 2)	will be considered as part of the equalities impact
	nomic development	
Positiv	e impacts	Negative impacts
1.	The budget proposals include investment in a Green Finance Officer as part of the climate team. This post will secure funding for climate projects in the Council / city whilst also supporting Edinburgh's wider green economy, skills and supply chains, and encourage job creation. This investment is not included in the officer budget.	
2.	The budget proposals include investment in further climate training for council staff. This will develop skills in the green economy amongst the workforce. This investment is not included in the officer budget.	
	ronmental good stewardship	<u> </u>
Positive	e impacts	Negative impacts
1.	The budget proposals include investment in cycling provision, including for further development of a business case for a city-wide cycle hire scheme. This is not included in the officer budget. Investment to support people to take up cycling will result in modal shift and improve air quality.	
2.	The budget proposals include an increase in parking charges compared to the officer budget. This encourages modal shift and will improve air quality.	
3.	The budget proposals include concessions for U22s tram travel. This will encourage modal shift and improve air quality.	

4. The budget proposals include greater investment in street cleansing. This intervention demonstrates environmental good stewardship.

## Appendix 2: Equalities impact statement

Budget decisions made by local authorities do not have the same impact on all people. Pre-existing inequalities can be exacerbated by failure to account for this in how spending is directed and cuts made.

The cost-of-living crisis is having a disproportionate impact on women, people of colour, disabled people, and other people who have been historically discriminated against. Those on lower incomes, in precarious work, more reliant on social security and with greater caring responsibilities, will bear the brunt of cuts and other austerity measures. Compounding this for women, many of the service areas that local authorities have jurisdiction over - including schools, public transport, licensing, community centres and housing and homelessness - are of particular concern to the lives of women who are the majority of care providers, public transport users, and who have particular needs and experiences relating to public space and safety.

This equalities impact statement should not be seen as a full impact assessment, nor has our budget proposal undergone a full gender budget analysis. Rather this is an attempt to set out the equalities considerations that have formed part of the creation of this budget proposal and is focused on those areas where our budget proposal diverges from the officer budget presented to the Finance and Resources Committee on 7th February 2023, and is based on the gender-budget analysis guidance from the European Institute of Gender Equality.

#### Information on the Officer Budget

The council's current approach to assessing both existing inequalities, and the impacts of budget decisions is deeply disappointing. Only five proposals for cuts and spending were deemed in need of an Integrated Impact Assessment, therefore there is no analysis of the impact that the overall officer budget proposals will have on different groups of people in Edinburgh.

In many cases data is simply not gathered - or is not being made publicly available - to enable a robust understanding of the needs and experiences of people in Edinburgh and the impact of spending decisions. In future years, we hope that fuller information will be made available in this space and we welcome thoughts from officers and political groups about how this might be realised.

#### SNP-Green joint budget aims

This budget has been created from the guiding principles that, despite the immense pressures facing local authorities, we must maximise spending for the benefit of the people of Edinburgh, as well as making investments to tackle and mitigate for the climate emergency.

The budget proposal recognises that failure to make this spending now will have a significant financial impact in the future, and therefore its aim is to be fiscally responsible whilst also responding to the moral imperative to take action for social and climate justice.

# How will the SNP/Green budget proposals impact on different groups of people and increase equality?

## **Reversing cuts**

## Education

The officer budget proposes a number of cuts to education services including speech and language therapy, welfare officers, and transition teachers. While this may have an impact on all young people, there are clearly groups who benefit more from additional support - including care experienced young people, children experiencing poverty, and disabled children – who will be disproportionately impacted by these cuts.

Following the disruption in education we have seen throughout the pandemic, stability and support for young people is vital. Additionally, the stated rationale for the removal of some posts being that they were temporary interventions during the covid crisis ignores the reality that the pandemic is not over for many people in the city, particularly disabled people and people with long-term conditions.

As well as young people, we know that women still undertake the vast majority of childcare in Scotland and bear the overwhelming responsibility for school-related administration. Removing support which provides a lifeline for many young people will also have a knock-on impact on women's time, resources, and wellbeing.

#### Continuing Tram Concessions for under 22s, and the Taxicard scheme

As well as environmental aspirations relying on a significant reduction in private car use and investment in public transport, decent and affordable public transport is an issue of equality. Women are far less likely to be car owners than men, the increasing costs of fuel create a financial barrier for poorer people, and lack of accessible infrastructure prevents many disabled people from traveling as they wish.

Continuing free tram travel for under 22s is beneficial for young people – creating parity with over 60s – as well as marginalised groups within this age bracket. The Taxicard scheme offers travel options for disabled people across Edinburgh and while the parameters of the scheme should be revisited to ensure it is providing the right level of support, to cut it outright would have a significant impact on disabled people. The majority of disabled people and carers of disabled people in Scotland are women.

## Additional spending with a focus on equality

#### Climate change

The impacts of climate change will hit the poorest in Edinburgh hardest. The ability to respond to the impacts of extreme heat, flooding and economic shocks will all be dependent on socio-economic status, job security, physical health, caring responsibilities and other issues. As well as spending on measures to mitigate the worst impacts of climate change, our spending proposals look at adaptation. By investing in nature-based solutions to prevent flooding and mitigate other climate changes, we will improve people's living environment – providing access to green space, shade, and better air quality.

#### Public toilets

Public toilets are an equalities issue. They are more likely to be needed by women, people providing care for children and adults (mostly women), and disabled people. The budget proposal to prioritise spending on increasing and improving the accessibility of public toilets will provide a vital public service to people.

Additionally, the increased provision of temporary toilets in key parks over the summer months will have a positive impact on all users of public space by providing facilities, reducing incidences of public nudity, and keeping our parks safe and sanitary.

#### Supporting enfranchisement

The UK Government's new voter identification legislation will have a disproportionate impact on certain groups of people, including those with severely limiting disabilities, unemployed people and unpaid carers, first time voters, and people without formal education or qualifications. Women, people of colour, migrants and disabled people are more likely to fall into these groups, therefore the enfranchisement spending in this budget proposal will have a positive impact on these groups.

#### Equalities and Access spending

This budget includes specific equalities spend including money for the Stonewall accreditation scheme which will benefit LGBTI people, and increased money for domestic abuse and sexual violence charities which will support women - particularly women of colour - and young people.

Increased funding for youth work and community centres targets spend towards young people, many of whom experience multiple discriminations, and work with particular groups of people done through community centres including older people, the bereaved, learning disabled adults, carers, and refugees.

Funding for an accessibility commission will work towards the mainstreaming of access and inclusion throughout our planning, housing and public transport systems,

as well as considering provision of council services in the broadest sense. This will have positive benefits for disabled people who have varying needs.

## Revenue raising

While increasing finances is vital to continue to provide the services the city needs, care has been taken to ensure increased revenue does not further increase inequality. Increased fees and charges come from non poverty-related services, and spending has been taken from non front-line service departments such as the Office of the Lord Provost.

## Could the budget be used differently to address existing inequalities?

All spending done by the council should be subject to robust gender budget analysis and equalities impact assessments. This is not just about the figures that make up the budget, but the intention and policy behind how spending is targeted.

Investing in equality-focused initiatives alone will not be enough to successfully challenge the status quo and will continue to see growing inequality across Edinburgh. Core budget spending and assumptions about the services the city provides need to be scrutinised, and robust data must be gathered to ensure that we are not inadvertently discriminating against those with protected characteristics.

ANNEX 1

#### REVENUE BUDGET 2023/25 ANNEX 1 TO THE SNP / GREEN GROUPS AMENDMENT

	2023/24		2024/25	
	£000	£000	£000	£000

#### COUNCIL TAX/RATING RESOLUTION ANNEX 2 TO THE SNP / GREEN GROUPS AMENDMENT

To recommend that in respect of the year to 31st March, 2024:

#### 1. GENERAL FUND

Revenue Estimates - the Revenue Estimates as presented and adjusted be approved;

Council Tax - estimated expenditure from Council Tax of £348.550m be met and in terms of Sections 70(1) and 74(1) of the Local Government Finance Act 1992 (the 1992 Act) Council Tax be levied in respect of properties in the bands defined in Section 74(2) of the 1992 Act, as amended by The Council Tax (Substitution of Proportion) (Scotland) Order 2016, as follows:

Band	Council Tax	Band	Council Tax
	£		£
А	974.23	E	1,920.04
В	1,136.60	F	2,374.68
С	1,298.97	G	2,861.79
D	1,461.34	н	3,580.28

#### 2. RATING APPEALS TIMETABLE

In terms of Part XI of the Local Government (Scotland) Act 1947 the following dates be approved:

#### Main Assessment Roll

Lodging of Appeals with the Executive Director of Corporate Services by Hearing of Appeals by the Rating Authority 15 September 2023

#### Amendments to Main Assessment Roll made subsequent to its issue Lodging of Appeals with the Executive Within six weeks of issue of Rate Demand or

Lodging of Appeals with the Executive Director of Corporate Services

Hearing of Appeals by the Rating Authority

Periodically

in terms of Section 11 of the Rating and Valuation (Amendment) (Scotland) Act 1984

#### 3. CAPITAL EXPENDITURE

Expenditure on Capital projects in progress be met.

#### 4. BORROWING

The Council borrows necessary sums to meet the above capital expenditure.

#### CAPITAL BUDGET 2023 - 2028 ADDITIONS TO REVISED PROGRAMME ANNEX 3 TO THE SNP / GREEN GROUPS AMENDMENT

	2023/24 £000	2024/25 £000	2025/26 £000	2026/27 £000	2027/28 £000	Total £000
Available Resources for Distribution (if applicable)

King's Theatre		5,600				5,600
	1,260	5,800	0	0	0	7,060

# Appendix 3

# (As referred to in Act of Council No 3 of 23 February 2023)

# **REVENUE BUDGET 2023/24**

# SUSTAINABLE CAPITAL BUDGET STRATEGY 2023-2033

# LIBERAL DEMOCRAT GROUP AMENDMENT

# A backdrop of Scottish Government cuts

Council:

- 1. Condemns the Scottish Government's repeated failure, year after year, to adequately fund the Council and the subsequent impact upon the quantity and quality of services delivered, with the Council facing a £76 million (5.5%) funding gap this year alone.
- 2. Denounces the Scottish Government's ongoing attack on local democracy and accountability through ring-fenced funding, short term budgeting and imposing unfunded obligations on the Council, resulting in tens of millions of cuts required over the next four years. Regrets the negative impact this has on the Council's capacity to devise and implement vital strategies, such as ending poverty and reaching Net Zero by 2030.
- 3. Notes the legal requirement for the Council to set a balanced budget at a time when costs are rising and when the funding being received from the Scottish Government is reducing, a challenge which requires difficult choices.

# A Council budget that delivers

Council:

- 4. Notes that, despite continued funding cuts from the Scottish Government, residents still rightly expect high-quality local services in return for the increasing amounts of council tax they pay each year, which requires a budget which focuses on essential core services, delivered well.
- 5. Agrees that, at a time of difficult choices and limited resources, it is critical to prioritise spending on those Council services which residents say matter most, including:

**Education** – where the Council has a responsibility and duty to give every child the best possible start in life. Council therefore rejects the proposed budget cuts which would risk reducing the resources available for teaching in our schools.

**Getting the basics right** – where Council notes the huge public concern over the poor and worsening states of the city's roads, paths and pavements, and accordingly allocates substantial additional money to improve repairs and carry out additional resurfacing works for the long term.

**Making Edinburgh a cleaner and greener city** – with additional resource for our parks and greenspaces, improving funding for fly tipping, graffiti removal and street sweeping, and additional resource for flood defences and gully cleaning in light of the increasing impacts of climate change.

# Therefore, agrees to the budget set out below.

# An efficient and effective Council for the future

- 6. Recognises that given the Scottish Government's current approach to local council funding, further cuts are likely to be required in future.
- 7. Therefore, agrees it is imperative that the Council consider all options which could deliver upon its fundamental promise of services for residents in the future by doing things differently, primarily through Best Value service reviews. Therefore, agrees to proceed with a Best Value review of waste and cleansing services that considers the potential savings that might arise through external provision while maintaining if not improving services.
- 8. Agrees furthermore that Edinburgh has amongst the most knowledgeable, diligent, and gifted voluntary and community sector in Scotland, noting that delivery of services by the Council is not always effective or efficient, and that a tremendous multiplier effect applies to Council funding. Recognises the potential this has for the Council to enable better outcomes with less resource invested.
- 9. Recognises the need to raise business rates on empty commercial property as an effective policy in its own right as a way of bringing properties back into use and also to help deliver important additional funding to improve front line Council services.

# Revenue Budget Proposals

- 1. Protect school budgets by rejecting cuts to teachers and pupil support assistants at a cost of £5.55m.
- 2. Reject the cut to the Speech and Language Therapy budget of 370k. Proceed with the review, so long as any savings from duplication go into school budgets.
- 3. Reject the savings from a review of the Council's Inclusion policies and related support.

- 4. Increase spending by £3m on gully cleaning, fly tipping, graffiti removal and street sweeping.
- 5. Fund the Climate & Sustainability team, at a cost of £279k, to press ahead with implementing measures to make our city cleaner and greener.
- 6. Save £600k from the redeployment pool by withdrawing the commitment to no compulsory redundancies.
- 7. Raise £40k from property developers via a 25% increase to Road Occupation charges.
- 8. Generate significant savings from Best Value service reviews, specifically looking at external provision of Waste & Cleansing Services which may result in savings of £500k in year 1, rising to £2.5m p.a. in subsequent years.
- 9. Reject the £120k cut to the Taxicard service.

Notes, in addition, the Council could

- 10. raise additional revenue from empty commercial property through the withdrawal of Empty Property Relief for Non-Domestic Rates.
- 11. reduce energy costs and carbon emissions by turning down standard temperature settings in Council offices from 19° to 18° C.
- 12. raise extra revenue by charging commercial event operators for advice and guidance provided through the Event Planning Operations Group (EPOG) process.

Capital Budget Proposals

- 1. Add £11m to improve paths, pavements and roads.
- 2. Add £3m to fund improvements to parks and greenspaces.
- 3. Add £2m to fund measures to prevent flooding.
- 4. Allocate £3m towards the funding of the King's Theatre refurbishment project from the Asset Management Works programme.
- 5. Notes the Council's commercial property portfolio is managed with a view to maximising the generation of income and capital gains. It also represents a potential source of capital for investment in Council priorities. The Council could put in place a long-term strategy that sets out the purposes and objectives for its commercial estate. Alongside this strategy, the Council could identify all its land titles and commercial properties, their potential uses and value to the Council.

6. Notes that energy efficiency is a key element of the Council's strategy towards achieving its climate targets with the potential for significant reductions in annual carbon emissions and energy costs. Notes the potential source of up to £50m of lower-cost capital available to the Council in its commercial property portfolio that could fund a second programme of energy efficiency measures for the Council's operational estate.

# Conclusions

Council notes the following reports from the Executive Directors of Corporate Services and the Chief Executive:

# **Council Budget Reports**

- (a) Revenue Budget Framework 2023/27 Progress Update referral from the Finance and Resources Committee
- (b) Revenue Budget Framework 2023/24 Further Update report by the Chief Executive
- (c) Council Revenue Budget Framework (2023/24) Integrated Impact Assessments – report by the Interim Executive Director of Corporate Services
- (d) Revenue Budget 2023/24 Risks and Reserves referral from the Finance and Resources Committee
- (e) Sustainable Capital Budget Strategy 2023-2033 referral from the Finance and Resources Committee

Council therefore approves:

- The Revenue Budget 2023/24 as set out in the reports appended to this motion, as amended by the changes/allocations included in Appendix 1;
- A band 'D' Council Tax of £1,447.69 for 2023/24;
- The Council Tax and Rating resolution set out in Annex 2 to this motion;
- The 2023/33 Sustainable Capital Budget Strategy as set out in the report by the Interim Executive Director of Corporate Services, as amended by the changes shown in Annex 3;
- A further report to be submitted to seek approval of revised charges for Council services, the financial impact of which is contained in Appendix 1 to this motion; and
- A further report to be submitted to seek approval of the prudential indicators arising from this motion.

# Appendix 4 (As referred to in Act of Council No 3 of 23 February 2018)

# REVENUE BUDGET 2023/24 SUSTAINABLE CAPITAL BUDGET STRATEGY 2023-33 CONSERVATIVE GROUP AMENDMENT

# Council:

Recognises the unprecedented circumstances under which this budget is being set and acknowledges the resilience of our citizens and businesses in the face of increased demand for services, the challenging global economic environment and the continuing financial legacy of the pandemic.

Notes the long-term failure of Council Administrations and COSLA to convince the Scottish Government to provide adequate and equitable funding for Edinburgh and calls on the SNP/Green Administration at Holyrood to build fair funding for core services, homelessness pressures, adult social care demography and concessionary travel into future budgets as a starting point to a fair settlement for local government.

Notes that the financial challenges facing this Council largely owe their origins to the failure of the previous SNP/Labour Administration to respond to the 2016 and 2020 Best Value audit findings to develop longer-term sustainable service plans to address projected funding gaps.

Considers the appalling condition of the city's roads and many Council houses to be a cause for embarrassment in our Capital city and a direct consequence of neglect and mis-prioritisation by the previous SNP/Labour Administration.

# Revenue Budget 2023/27

On specific budgetary proposals Council

- 1) Recognises the financial challenges facing taxpayers and agrees to limit the Council Tax increase to 4% in 2023/24.
- Rejects the proposed budget cut for Speech and Language Therapy services but instructs a full review of the service to identify the best mechanism of maximising the benefits to those in receipt of the services.
- 3) Council notes the continual failure to maximise efficiency and effectiveness of Council services. In recognising that the quality of the service is critical, Council further commits to considering revisions to all methods of service delivery to improve quality and/or reduce cost in line with Best Value.

- 4) Council agrees to remove the self-imposed political restrictions of the Administration and empowers Chief Officers and senior managers to develop a programme of Value for Money service reviews to deliver significant savings, with options for implementation of a first phase to be brought to Council for approval by September 2023. Market testing and benchmarking should be applied to take an evidenced-based approach to development of savings options.
- 5) Council regrets the failure of the SNP/Green Administration at Holyrood to address anomalies in funding for Homelessness prevention with Edinburgh facing additional gross costs of £33.7m in 2023/24. The additional cost to Edinburgh is equivalent to 10% of Council Tax charges in 2023/24 and Council agrees to make urgent cross-party representations.
- 6) Approves £3.7m of additional expenditure for a programme of environmental initiatives including investment in City Centre operations and action to address key issues including graffiti, fly tipping, communal bin cleaning/maintenance; and provision of a means tested special uplift service.
- 7) Notes that Penalty Charge Notices (PCNs) for parking enforcement have not increased for over 20 years and agrees to adopt the higher PCN rate with a charge of £50 where the penalty is paid within 14 days. Additional income of £2.4m will be ringfenced for investment in road and pavement repairs to start to address the appalling condition of the city's roads.
- 8) Rejects proposals to increase pay and display and parking permit charges by c.12% and limit increases to 5%.
- 9) Rejects the Administration's pledge to ring-fence 10% of the roads and transport budget for cycling. Agrees that these resources should be committed to roads and pavement repairs to improve safety for all road and pavement users.
- 10) Agrees to retain Lothian Buses in public ownership, recognising the need to evolve services as housing provision in the city changes, but rejects plans to introduce a workplace parking levy.
- 11) Regrets that the Scottish Government's provision of free bus travel for under 22s and over 60s does not provide compensating funding for Edinburgh Trams. Council does not agree budget provision for these unfunded National policy commitments and continues to work with Edinburgh Trams to seek full funding from Scottish Government. Further, Council instructs Officers to bring forward an update to Transport and Environment Committee in April.
- 12) Agrees investment of £200,000 to restore bus services 69 and 20 for Willowbrae/Lady Nairne and Dumbiedykes.

- 13) Allocates £220,000 to reject proposed uplifts in fees and charges relating to health and social care and community access to school sports facilities.
- 14) Commits to prioritising the City of Edinburgh Music School and the instrumental music service.
- 15) Recognises the positive impact on individuals and communities of engagement in exercise and agrees to examine opportunities to expand innovative community-based programmes such as the Crags and Queensferry Sports Centres.
- 16) Agrees to terminate the Council's membership of the Convention of Scottish Local Authorities delivering an annual saving of £255,000 from 2024/25.
- 17) Regrets the previous Administration's failure to deliver the Asset Management Strategy, with pressures of £2.4m written off. Further, recognises that many organisations have been proactive in developing new ways of working to benefit employers, employees and customers, but regrets the delay in Council bringing forward robust proposals for flexible working and effective use of Waverley Court and other property assets.
- 18) Council agrees to review organisational change and redeployment arrangements to maximise opportunities for redeployment and ensure value for money.
- 19) Supports the proposal to replace the Council's HR and Payroll system subject to further detailed consideration by Finance and Resources Committee on 10 March 2023.
- 20) Notes the continued failure of the Edinburgh Health and Social Care Partnership to develop a strategic approach to financial planning with the Edinburgh Integration Joint Board (EIJB) continuing to rely on non-recurring funding to address non-delivery of Partnership savings and shortfalls in funding from the Scottish Government and NHS Lothian. Further recognises the failure of the Partnership and EIJB to deliver transformational change in service delivery.
- 21) Council notes the urgent need to address the failure of the EIJB to make progress towards a sustainable budget position and agrees to reprioritise £2.5m of the Council's allocation to the EIJB on a recurring basis to create ring-fenced Innovation and Service Transformation funds with the initial business case for investment to be brought to the Council by the Autumn.

# Capital Investment Programme

Council:

- 22) Agrees proposals for additional capital investment of £16m as detailed in Annex 3.
- 23) Regrets the Administration's decision to approve the Tram Extension business case which, according to the updated business case reported in November 2020, could lead to a future call on Council reserves of up to £93m with a cost allowance of £7m included in the budget framework for 2023/24 and an annual allowance of £9.25m from 2024/25.
- 24) Rejects the proposal to reduce the carriageway and footways budget to address cost pressure on the North Bridge project.
- 25) Agrees an additional contribution of up to £3m to the King's Theatre renovation subject to further assurance on the robustness of project cost estimates and confirmation of match funding from other bodies.
- 26) Agrees that no material legal property commitments will be entered into pending a review of alignment with the strategic review of the estate and consideration of opportunities for wider consolidation and rationalisation, including through a community hub approach.

## **Risks and Reserves**

Council:

- 27) Notes the report by the Executive Director of Corporate Services setting out the significant risks associated with the Administration's budget proposals.
- 28) Agrees that establishment of an appropriate ICT infrastructure reserve will be a priority should additional revenue funding be confirmed through UK and Scottish Government budget decisions.
- 29) Requests the Chief Executive to report to Council in April with detail of specific proposals to address long-standing underlying budget pressures in the Place and Education and Children's Services Directorates.

# **Development of a Sustainable Financial Strategy**

Council:

- 30) Recognises that the projected budget deficits largely pre-date the outbreak of COVID-19 with the Council continuing to rely heavily on corporate savings and reserves.
- 31) Agrees to develop an effective strategy to lobby for a fairer settlement for local government including equitable funding for pressures in homelessness and children's services; proper recognition of pay,

demographic and demand pressures; and full funding for National policy commitments.

- 32) Subject to consideration of more detailed business cases by the Finance and Resources Committee, approves the use of up to £1m from the Spend to Save Fund to accelerate the development of a comprehensive change plan to address the pressing financial challenges facing the council over the medium term including;
  - Establishment of a dedicated project team to undertake a programme of Value for Money service reviews.
  - Provision of additional dedicated staff to accelerate a strategic property review and implementation of a community hub model approach to capital investment.
  - Development of service prioritisation and workforce management savings options with a first phase of savings to be implemented by 1st January 2024.
- 33) Agrees to establish Health and Social Care Innovation and Service Transformation Funds with a first phase of business cases to be reported to the Council in the Autumn.

# Conclusions

Council notes the following reports from the Executive Directors of Corporate Services and the Chief Executive:

- (a) Revenue Budget Framework 2023/27 Progress Update referral from the Finance and Resources Committee
- (b) Revenue Budget Framework 2023/24 Further Update report by the Chief Executive
- (c) Council Revenue Budget Framework (2023/24) Integrated Impact Assessments – report by the Interim Executive Director of Corporate Services
- (d) Revenue Budget 2023/24 Risks and Reserves referral from the Finance and Resources Committee
- (e) Sustainable Capital Budget Strategy 2023-2033 referral from the Finance and Resources Committee

Council therefore approves:

- The Revenue Budget 2023/24 as set out in the reports appended to this motion, as amended by the changes/allocations included in Appendix 1;
- A band 'D' Council Tax of £1,433.90 for 2023/24;
- The Council Tax and Rating resolution set out in Annex 2 to this motion;
- The 2023/33 Sustainable Capital Budget Strategy as set out in the report by the Interim Executive Director of Corporate Services, as amended by the changes shown in Annex 3;
- Allocations from the Spend to Save Fund as set out in this motion.
- A further report to be submitted to seek approval of revised charges for Council services, the financial impact of which is contained in Appendix 1 to this amendment; and
- A further report to be submitted to seek approval of the prudential indicators arising from this motion.
