

Notice of meeting and agenda

Edinburgh and South East Scotland City Region Deal Elected Member Oversight Committee

10.00 am Friday, 28th April, 2023

Virtual Meeting - via Microsoft Teams

The papers for this are available for the public to view and can be found on the City of Edinburgh Council's website – <https://democracy.edinburgh.gov.uk>

Contacts

Email: jamie.macrae@edinburgh.gov.uk

Tel: 0131 553 8242

1. Order of Business

- 1.1 Including any notices of motion and any other items of business submitted as urgent for consideration at the meeting.

2. Declaration of Interests

- 2.1 Members should declare any financial and non-financial interests they have in the items of business for consideration, identifying the relevant agenda item and the nature of their interest.

3. Minutes

- 3.1 Minutes of the Edinburgh and South East Scotland City Region Elected Member Oversight Committee of 17 February 2023 – submitted for approval as a correct record 5 - 8

4. Items for Consideration

- 4.1 Regional Prosperity Framework - Progress Update
- 4.2 Regional Prosperity Framework Delivery Plan - Desktop Version 9 - 30
- 4.3 Regional Intelligence Hub - Overview - John Scott, University of Edinburgh Verbal Report
- 4.4 Next Steps

5. Date of next meeting

6. AOB

Gavin King

Clerk

If you have any questions about the agenda or meeting arrangements, please contact Jamie Macrae, City of Edinburgh Council, Business Centre 2.1, Waverley Court, 4 East Market Street, Edinburgh EH8 8BG, Tel 0131 553 8242, email jamie.macrae@edinburgh.gov.uk.

Minutes

Edinburgh and South East Scotland City Region Deal Elected Member Oversight Committee

Microsoft Teams

10.00am, Friday 17 February 2023

Present:

Scottish Borders Council – Councillors Euan Robson (in the Chair) and Elaine Thornton-Nicol

City of Edinburgh Council – Councillor Lesley Macinnes (substituting for Councillor Adam McVey)

East Lothian Council – Councillors John McMillan and Andrew Forrest (substituting for Councillor Norman Hampshire)

Midlothian Council – Councillors Russell Imrie and Kelly Parry

Fife Council – Councillors David Alexander and Altany Craik

West Lothian Council – Councillors Tom Conn and Kirsteen Sullivan

Higher/Further Education Consortium – David Brown, Simon Earp and Ritchie Somerville (substituting for Jane Grant)

Regional Enterprise Council – Garry Clark

In attendance:

Paul Lawrence, Executive Director of Place, City of Edinburgh Council

Andy Nichol, City Region Deal Programme Manager, City of Edinburgh Council

David Baxter, City Region Deal PMO, City of Edinburgh Council

David Hanna, City Region Deal PMO, City of Edinburgh Council

Graeme Rigg, City Region Deal PMO, City of Edinburgh Council

Daniel Stevens, City Region Deal PMO, City of Edinburgh Council

Lisa Howden, Accountant, City of Edinburgh Council

Douglas Proudfoot, Executive Director for Place, East Lothian Council

Andrew Stewart, Project Manager, East Lothian Council

Ken Gourlay, Executive Director of Enterprise and Environment, Fife Council
Dr Grace Vickers, Chief Executive, Midlothian Council
Kevin Anderson, Executive Director, Place, Midlothian Council
Alice Mitchell, Economic Development and Regeneration Manager, West Lothian Council
Jarmo Eskelinen · Executive Director, Data-Driven Innovation, University of Edinburgh
Jamie Macrae, Committee Services, City of Edinburgh Council
Andrew Robertson and Graeme Johnstone, Glasgow Regional Intelligence Hub

1. Order of Business

Decision

- 1) To appoint Councillor Euan Robson as Chair for this meeting of the Edinburgh and South East Scotland City Region Deal Elected Member Oversight Committee.
- 2) To note that that the formal appointment of the Convener of the Edinburgh and South East Scotland City Region Deal Elected Member Oversight Committee take place at next meeting of the Edinburgh and South East Scotland City Region Deal Joint Committee on 3 March 2023.

2. Minutes

Decision

To approve the minute of the Edinburgh and South East Scotland City Region Deal Elected Member Oversight Committee of 13 January 2023 as a correct record.

3. Glasgow Regional Intelligence Hub

Andrew Robertson, Glasgow Regional Intelligence Hub Manager, gave an update on the work of the Hub, which was established in July 2019. The Hub's main functions were data analytics, economic modelling, research and strategy development and business case development. There were currently 5 officers in the Hub, with recruitment underway to recruit an additional GIS officer. Details were provided of the Hub's key achievements.

Decision

To note the update by the Glasgow Regional Intelligence Hub Manager.

4. Regional Prosperity Framework Delivery Plan

An update was provided by Paul Lawrence, Senior Responsible Officer, Regional Prosperity Framework on the Regional Prosperity Framework Delivery Plan, which set out an ambitious and dynamic series of four key programmes to deliver the region's ambitions:

- Green Regeneration;

Edinburgh and South East of Scotland City Region Deal Elected Member Oversight Committee – 17 February 2023

- Infrastructure for Recovery and Prosperity;
- Visitor Economy and Culture; and
- Data Driven Innovation (DDI) Economy

These programmes would enable the city region to maintain and enhance its global reputation and become the data capital of Europe, delivering sustainable and inclusive growth. The Delivery Plan aligns with Scotland's National Strategy for Economic Transformation (NSET), Scotland's Regional Economic Policy Review recommendations, and UK Government's Levelling Up priorities. Regional Partners ask the Scottish and UK Governments to continue to commit to work in tripartite partnership to deliver a Blueprint through a long term, integrated, place-based funding allocation to deliver shared outcomes.

Decision

- 1) To approve the Regional Prosperity Framework Delivery Plan.
- 2) To note that the Delivery Plan had been considered by all six constituent Local Authorities in the Edinburgh and South East Scotland City Region (ESESCR).
- 3) To write to both UK and Scottish Government's to promote the Delivery Plan and seek their support to realise the ambitions of the Regional Prosperity Framework and deliver the Programmes within the Delivery Plan.

(Reference – report by the Executive Director of Place, City of Edinburgh Council, submitted.)

5. Strategic Transport Projects Review 2 – Progressing Regional Interventions

Details were provided of Transport Scotland's second Strategic Transport Projects Review (STPR2), which was finalised in December 2022. This presented a wide range of 45 transport recommendations to Scottish Government for investment over the next 20 years. STPR2 closely aligned with the Regional Prosperity Delivery Framework and key regional priorities (most notably proposals to improve; public transport and interchange, digital connectivity, active travel, demand led transport and workforce mobility). Recommendation No.12, Edinburgh and South East Scotland Mass Transit, was the most significant proposal relevant to Edinburgh and South East Scotland the Region. A Delivery Plan to prioritise STPR2 recommendations and inform funding decisions was expected to be published in the first part of 2023. The ESES Region was collaborating and delivering successful projects through SEStran and the City Region Deal Transport Appraisal Board.

Decision

- 1) To note the close alignment between the Regional Prosperity Delivery Framework and STPR2.
- 2) To note that successful existing structures were already making good progress with the development of Strategic Business Cases for the Bus Partnership Fund and Granton to Bio Quarter and Beyond Tramline.

- 3) To note that the STPR2 Delivery Plan was currently being developed by Transport Scotland and this would set the immediate funding priorities.
- 4) To note that undertaking interim activities now, in partnership with the relevant local authorities and SEStran, in a more formal and visible manner (and amplifying the communications promoting the outputs of this interim work) could be significant and positively influence the STPR2 Delivery Plan (confirming Recommendation No.12 as a key priority for investment: alongside Clyde Metro).
- 5) To note that, recognising that there was limited time to influence the STPR2 Delivery Plan, the Joint Committee, at its meeting on 3 March 2023, would be asked to approve that the City of Edinburgh Council to coordinate an initial meeting with relevant officers across the region to further discuss Recommendation No.12 and plan next steps and activities to be undertaken.
- 6) To note that at the same meeting, the Joint Committee would be asked to collectively agree that the ESESCR Joint Committee write to Transport Scotland and Scottish Government highlighting the strength of the regional collaboration and the readiness to deliver on the STPR2 recommendation No.12.

(Reference – report by the Chair, Transport Appraisal Board, submitted.)

6. Date of next meeting

Decision

To be confirmed.

Foreword

Cllr Euan Jardine

Chair of the Edinburgh & South East of Scotland Joint Committee

The Edinburgh and South East Scotland City Region Deal brings together six local authorities, four universities, six colleges and the Regional Enterprise Council with representatives from the business, social enterprise and third sectors. The partnership is now in the fifth year of the delivery of the Deal programme, and we continue to make excellent progress.

Building on the successful delivery of the City Region Deal, partners have developed an ambitious Regional Prosperity Framework (RPF) that articulates the next phase of activity to develop the regional economy, building upon the successes of the Deal. The RPF sets out a blueprint for regional economic recovery post-pandemic; resilience through the cost-of-living crisis; and transition to net zero.

Our RPF Delivery Plan is both an action plan, focused on more immediate interventions that can currently be resourced; and a prospectus, setting out collective future ambition and opportunities. A “living” document, the Delivery Plan sets out a bold and dynamic series of four key programmes to deliver the region’s ambitions:

- **Green Regeneration;**
- **Infrastructure for Recovery and Prosperity;**
- **Visitor Economy and Culture;** and
- **Data Driven Innovation (DDI) Economy**

These programmes will enable the city region to maintain and enhance its global reputation and become the data capital of Europe, delivering sustainable and inclusive growth.

Our Delivery Plan aligns with Scotland’s National Strategy for Economic Transformation (NSET), Scotland’s Regional Economic Policy Review recommendations, and UK Government’s Levelling Up priorities, as well as the 2022 Autumn Statement.

We ask the Scottish and UK Governments to continue to commit to work in tripartite partnership to deliver our Blueprint through a long term, integrated, place-based funding allocation to deliver shared outcomes.

Nile Istephan Chief Executive – Eildon Housing Association

The Regional Prosperity Framework is an exciting next step for the Edinburgh and South East Scotland City Deal. Great progress across all parts of this area has been made to ensure this region can continue to be the engine room of the Scottish economy. The focus on having an action plan to deliver prosperity for all who live in this diverse region is a really important development in the work of this partnership.

We need to be bold to make lasting change to ensure we can share prosperity better and the action plan commits us to progress in promoting sustainable communities, delivering more affordable homes, testing innovative constructive methods and using investment to drive a just transition to a net zero carbon future. There is much more to do, but the commitment to work together in partnership is a vital and necessary step.

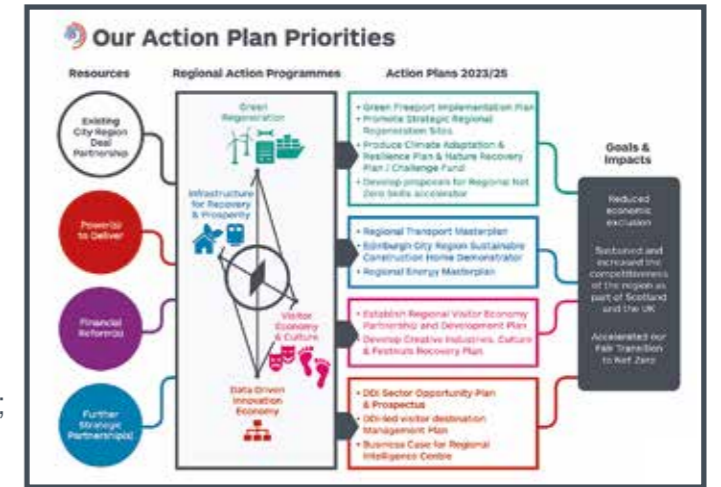

Executive Summary

Over the last five years the regional partnership behind the South East Scotland City Region Deal has flourished, resulting in the publication of the **Regional Prosperity Framework (RPF)** in September 2021.

A range of acute external pressures have strained the Regional Partnership and this living Delivery Plan is our remedy. The Plan targets three goals: reduced economic exclusion; increased regional competitiveness; and accelerated transition to net zero. The Delivery Plan comprises four key programmes and associated regional action plans. The action plans will deliver immediate benefits whilst providing a longer-term platform for future activities that deliver our goals.

Early momentum is key to consolidating the Regional Partnership, as a more formal Regional Economic Partnership, and is core to our actions plans. The four priority initiatives in our Call to Action are:

Infrastructure for Recovery and Prosperity by developing with the Governments a place-based capital and revenue funding model for delivery of regional ambitions

Develop Green Regeneration (focused on the Forth) investment prospectus

Secure a sustainable visitor economy and promotion of our cultural assets

Promote the transition to a Data Driven Innovation (DDI) enabled economy in the region

These initiatives will: provide further evidence of the positive impact of our Partnership; build further confidence in our ability to collaborate; and deliver and demonstrate the positive outcomes that investment in our region will deliver.

The Regional Partners now seek to co-create the delivery and resourcing approach for this Delivery Plan with government partners and other stakeholders.

Introduction

A region that is committed to new ways of working to grow an innovative and diverse economy

Page 12

Steven Drost
CSO CodeBase

CodeBase fully supports Edinburgh's ambition to become the Data Capital of Europe. That is why we are excited about plans to embed, and broaden the impact of, Data-Driven Innovation investment in the regional and national economy.

In order to become Europe's Data Capital, it is essential that Edinburgh and South East Scotland continue to provide the skills, support network, data and transport infrastructure that will facilitate the continued growth of data-led organisations - companies old and new - in the region.

Introduction

Our Delivery Plan has been developed through our Regional Economic Partnership (REP) in collaboration with the Governments and their agencies. The Plan sets out our opportunities for regional action and investment that better deliver regional inclusive economic growth through regional collaboration.

The Delivery Plan Builds Upon our shared Strategic Framework

The Regional Prosperity Framework articulates the long-term aspirational goals for Edinburgh and South East Scotland city region. It guides the future direction of regional economic and wider policy by setting out an ambitious vision for the regional economy to 2041. All actions under the RPF are framed to support:

- People:** expand access fair work, learn and develop new skills and to live happy and healthy lives.
- Places:** develop communities that are sustainable, attractive to live and work in and where enterprise thrives.
- Planet:** meet our needs whilst enabling future generations to meet theirs, with a focus on climate action through emissions reduction and adaptation.

Our Vision for the Region is Challenging but Achievable...

We will ensure the social and economic benefits of future growth extend to all. All sections of the community will have the opportunity to develop and enhance the key skills that will help to end inequalities in our society. We will protect our environment and make best use of our extraordinary built and natural assets, ensuring that our Region delivers a just transition to a net zero economy. Our institutions, ancient and modern, will deliver positive outcomes that enhance our local, national, and international reputation. Our aim is to become the data capital of Europe.

Introduction

....by Remaining Responsive to Change

Global events, such as global pandemic recovery, the war in Ukraine, inflation and emerging financial and political uncertainties, demand an agile strategic response if our shared regional ambitions are to be achieved. As a result, the Delivery Plan focuses on the immediate **1 to 3-year horizon**, but in the context of our longer-term regional ambitions. It will be **reviewed annually**, adding or subtracting Programmes and projects to ensure continued focus on our ambitions and enable dynamic responses to any challenges as they emerge.

Our Plan Builds Upon the Unique Attributes of the Region

The Delivery Plan describes:

- **The Region's Diverse Economy**, identifying the unique strengths and assets of our regional economy.
- **Opportunities and Challenges**, assessing our regional growth levers and the barriers we must overcome.
- **Delivering Together**, describing the aims and priorities for our Plan including the pathway that we can follow if we are going to positively impact the regional economy.

A Resilient Regional Economy

Borders Innovation Park

Easter Bush

A Resilient Regional Economy

West Lothian

- Broad and extensive business base is supported by a skilled workforce, and further upskilling could be supported by an additional university presence.
- Key strengths in life sciences, engineering, construction, food & drink, aerospace, retail, software development, renewables, advanced manufacturing, health, communications, support services and logistics.
- Heartlands offers 2,000 homes and 1.5 million square feet of employment space with easy motorway access.
- Winchburgh is delivering thousands of new homes and 40 acres of employment and retail space, with newly created junction to motorway and a site identified for a new rail station.
- Ambitions for other strategic transport network enhancement, such as at the Avon Gorge and via new all ways Junction 3 on the M9, seek to improve connectivity for wider regional economic activities including tourism.

Edinburgh

- Key driver of Scottish economy with diverse global business base, quality retail core, and world heritage cityscape.
- Global strengths in professional services, finance, insurance, education, science, health and data.
- Thriving retail, hospitality and leisure sector.
- Forth Bridge world heritage site frames key green growth and regeneration opportunities along the Forth.
- Continued strong demand in housing and commercial property markets.
- Regional actions underway to distribute economic opportunity, address commuting travel patterns, improve affordable housing supply and enhance strategic local infrastructure.

A Resilient Regional Economy

Midlothian

- Shawfair, 4000 homes, community campus with nursery, primary, secondary education including swimming pool and vocational training facilities.
- At the forefront of world leading research and development programmes in biomedicine and agritech.
- Data Driven Innovation (DDI) Skills Gateway established at Newbattle High School Centre of Excellence.
- Destination Hillend is a strategic proposal for multi-activity leisure tourism with business opportunities at Hillend Snowsports Centre.

Scottish Borders

- Strong cultural heritage, high quality environment and communities with a good quality of life.
- Strengths in agriculture, energy, tourism, food & drink, manufacturing, forestry and construction.
- Well connected to Central Scotland and the Cities of the North of England.
- Borders Rail has catalysed regional opportunities.
- Future extension of railway to Carlisle and planned 4G/5G investments will sustain economic opportunities.
- Scottish Borders Mountain Bike Innovation Centre will cement the region's international cycling reputation.
- Inspire Learning Centre - Tweedbank. Delivering a world class digital learning environment in partnership with Apple.

A Resilient Regional Economy

Fife

- Strengths include advanced manufacturing, financial and business services and food and drink.
- Outstanding coastline and strategic travel routes provide opportunities for inclusive, sustainable growth.
- Dunfermline awarded city status and offers large housing development area including shared learning campus for Fife College.
- Rosyth International Port and Arrol Gibb Campus complement local strengths in freight and logistics.
- Centre of Excellence in Low Carbon and Renewable Energy innovation being created at Guardbridge.
- Number of transformative investments are already underway (e.g. reopening of the Levenmouth Rail Link).
- Outstanding natural and cultural assets (the Forth Bridges, 48 golf courses, the Fife Coastal Path, and the Pilgrim Way).

East Lothian

- Celebrated for its attractive market towns, prime countryside and coast, and golf and leisure tourism.
- Green growth opportunities in emerging Climate Evolution Zone, including Cockenzie Power Station site and potential expansion of Blindwells new settlement,
- Potential investments in strategic sustainable infrastructure, including the High Speed Rail,
- Internationally significant scientific, biomedical and education activities, including Edinburgh Innovation Hub and Edinburgh Innovation Park,
- The future use of Torness Nuclear Power Station site is a significant longer term opportunity.

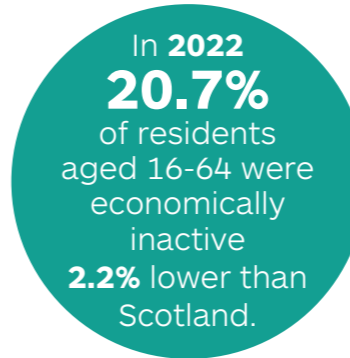

The Firth of Forth and Coast

- Economic renaissance of the Forth estuary is driven by green growth, net zero energy innovation and sustainable infrastructure, new fuel production and nature based solutions.
- Strengths in life sciences, engineering, construction, agriculture, food and drink, distribution, aerospace, retail, software development and renewables, advanced manufacturing health, information, communications, support services and logistics.
- Three regeneration and renewal zones along its length:
 1. South Zone: Hound Point (deep water facilities), Edinburgh Waterfront and East Lothian's Climate Evolution Zone (including the former Cockenzie Power Station), Blindwells new settlement (with potential for expansion), and Eyemouth as a hub for off-shore renewables;
 2. North Zone: former Longannet Power Station site (with rail link), Rosyth International Port, Braefoot Bay Oil and Gas Terminal (deep water facilities), Mossmorran fuel and distribution hub, the Fife Renewables Innovation Centre and ORE Demonstrator at Levenmouth; and
 3. West Zone: the Forth provides links to the Falkirk and Grangemouth Investment Zone with its green fuel production, biotechnology and skills development, and Scotland's National Environment Centre and National Aquaculture Technology and Innovation Hub.

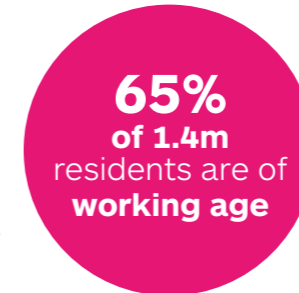

A Resilient Regional Economy

This ranges from 16.3% to 26.9% across the six Local Authorities.

It is a decrease from pre-pandemic levels. Reasons for inactivity include long-term sickness. Unemployment rates by disabled status range from 15.6% to 33.7%. (Nomis)

The Region's dependency ratio is projected to **increase from 54% in 2018 to**

compared to Scotland's **60%** (number of dependents over the number of people working). (Nomis)

Forecasted change in population

compared with **2.5%** for Scotland and **9%** for the UK. (NRS)

A Resilient Regional Economy

who have left the labour market in the Region. (RSA Nov 22)

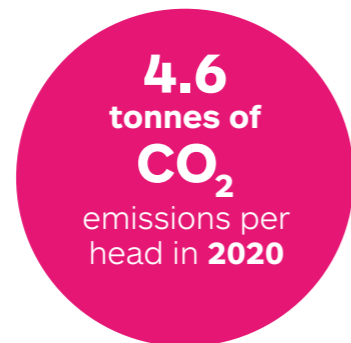

Productivity, calculated by dividing total regional Gross Value Added by total regional employment (measured by jobs),

and higher than the Scottish average of £54,100. (ONS)

broadly similar to Scotland as a whole. (ONS)

similar to the UK and Scottish national positions. (Dept. Business, Energy & Industrial Strategy)

A Resilient Regional Economy

Reduce Economic Exclusion

- Reduce levels of economically inactivity.
- Reduce unemployment levels by disabled status.
- Reduce the number of people suffering the greatest levels of deprivation.
- Minimise the impact of an increasing dependency ratio (i.e. those not in work who depend on those in work) in the region.

Sustained and Increased Competitiveness

- Increase productivity per capita by increasing adoption of data driven innovation and business start-ups.

Accelerate Fair Transition to Net Zero

- Reduce per capita end-user greenhouse gas emissions for the region and by sector.
- Achieve net zero by 2045, with a 90% net reduction by 2040 and a 75% net reduction by 2030.

A Resilient Regional Economy

Opportunities

Devise circular investment opportunities where benefits from investments are retained and magnified within the region.

Link supply and demand at a regional level so that regional needs can be better met locally in a sustainable fashion.

Develop a “*pack mentality*” in the REP to seek and deliver regional opportunities which transects all sectors and builds on the success of the City Region Deal.

Building on the progress in the digitisation of the regional economy, further drive adoption of this innovation into all sectors.

Improve food and resource security at a regional level, and develop sustainable forms of tourism, culture and heritage.

Deliver interventions that are collaborative, multi-faceted and diffused to address local needs across the region.

Embed community wealth building in anchor institutions to increase focus on a wellbeing economy.

Develop new partnerships with industry and the governments and secure funding through a “one region” approach that complements local action within communities.

Mobilise a whole societal ‘one region’ approach to Net Zero, involving communities, businesses and governments.

Goals

Sustained and Increased Competitiveness

Reduced Economic Exclusion

Accelerated Fair Transition to Net Zero

Challenges

Place-based capital and revenue funding allocations, recognising the delivery of regional ambition, need to be designed and delivered.

Significant fiscal uncertainty exists for the governments and the public sector. Maintaining core key services is the priority for all regional partners in the short term.

The scale and complexity of our external challenges requires a response that is equal to it, and **collective action at scale is vital** to meet them with the necessary capability and capacity.

Change in national policies and approaches is needed if regional opportunities are to be realised.

Quality of life shocks are having a real and sustained impact on the quality of life across the region, reinforcing regional inequalities.

Labour shortages have been experienced in a wide range of sectors in the region. While shortages exist in Health and Social Care across all parts of the region, there is variation amongst other sectors.

Whilst unprecedented transformative change is essential the cost of delivering a **just transition**, in the short term, is beyond the means of local government **alone**.

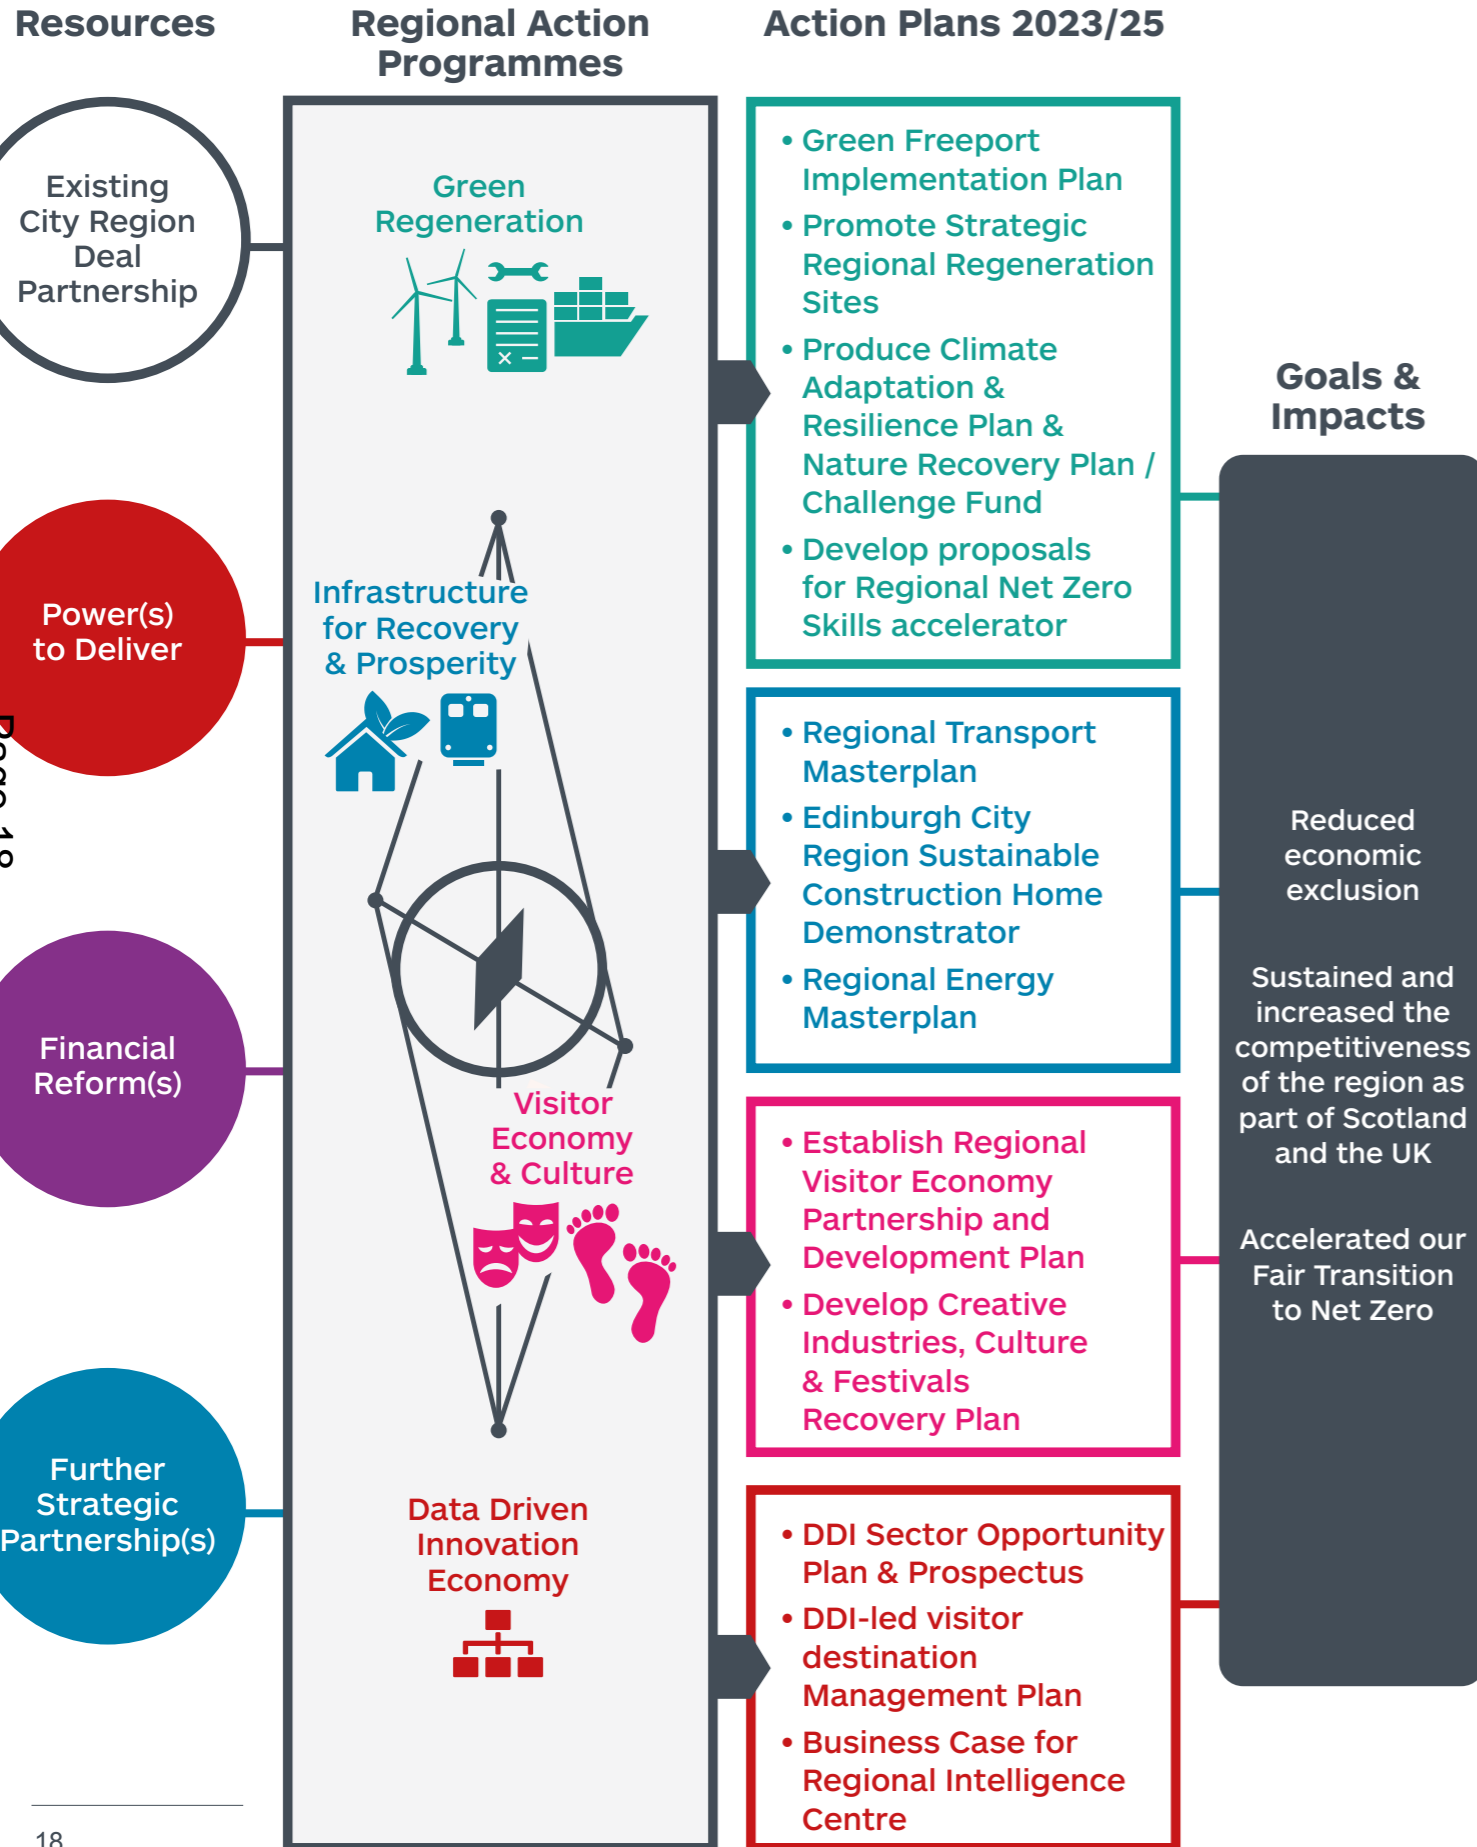

Our Action Plan Priorities

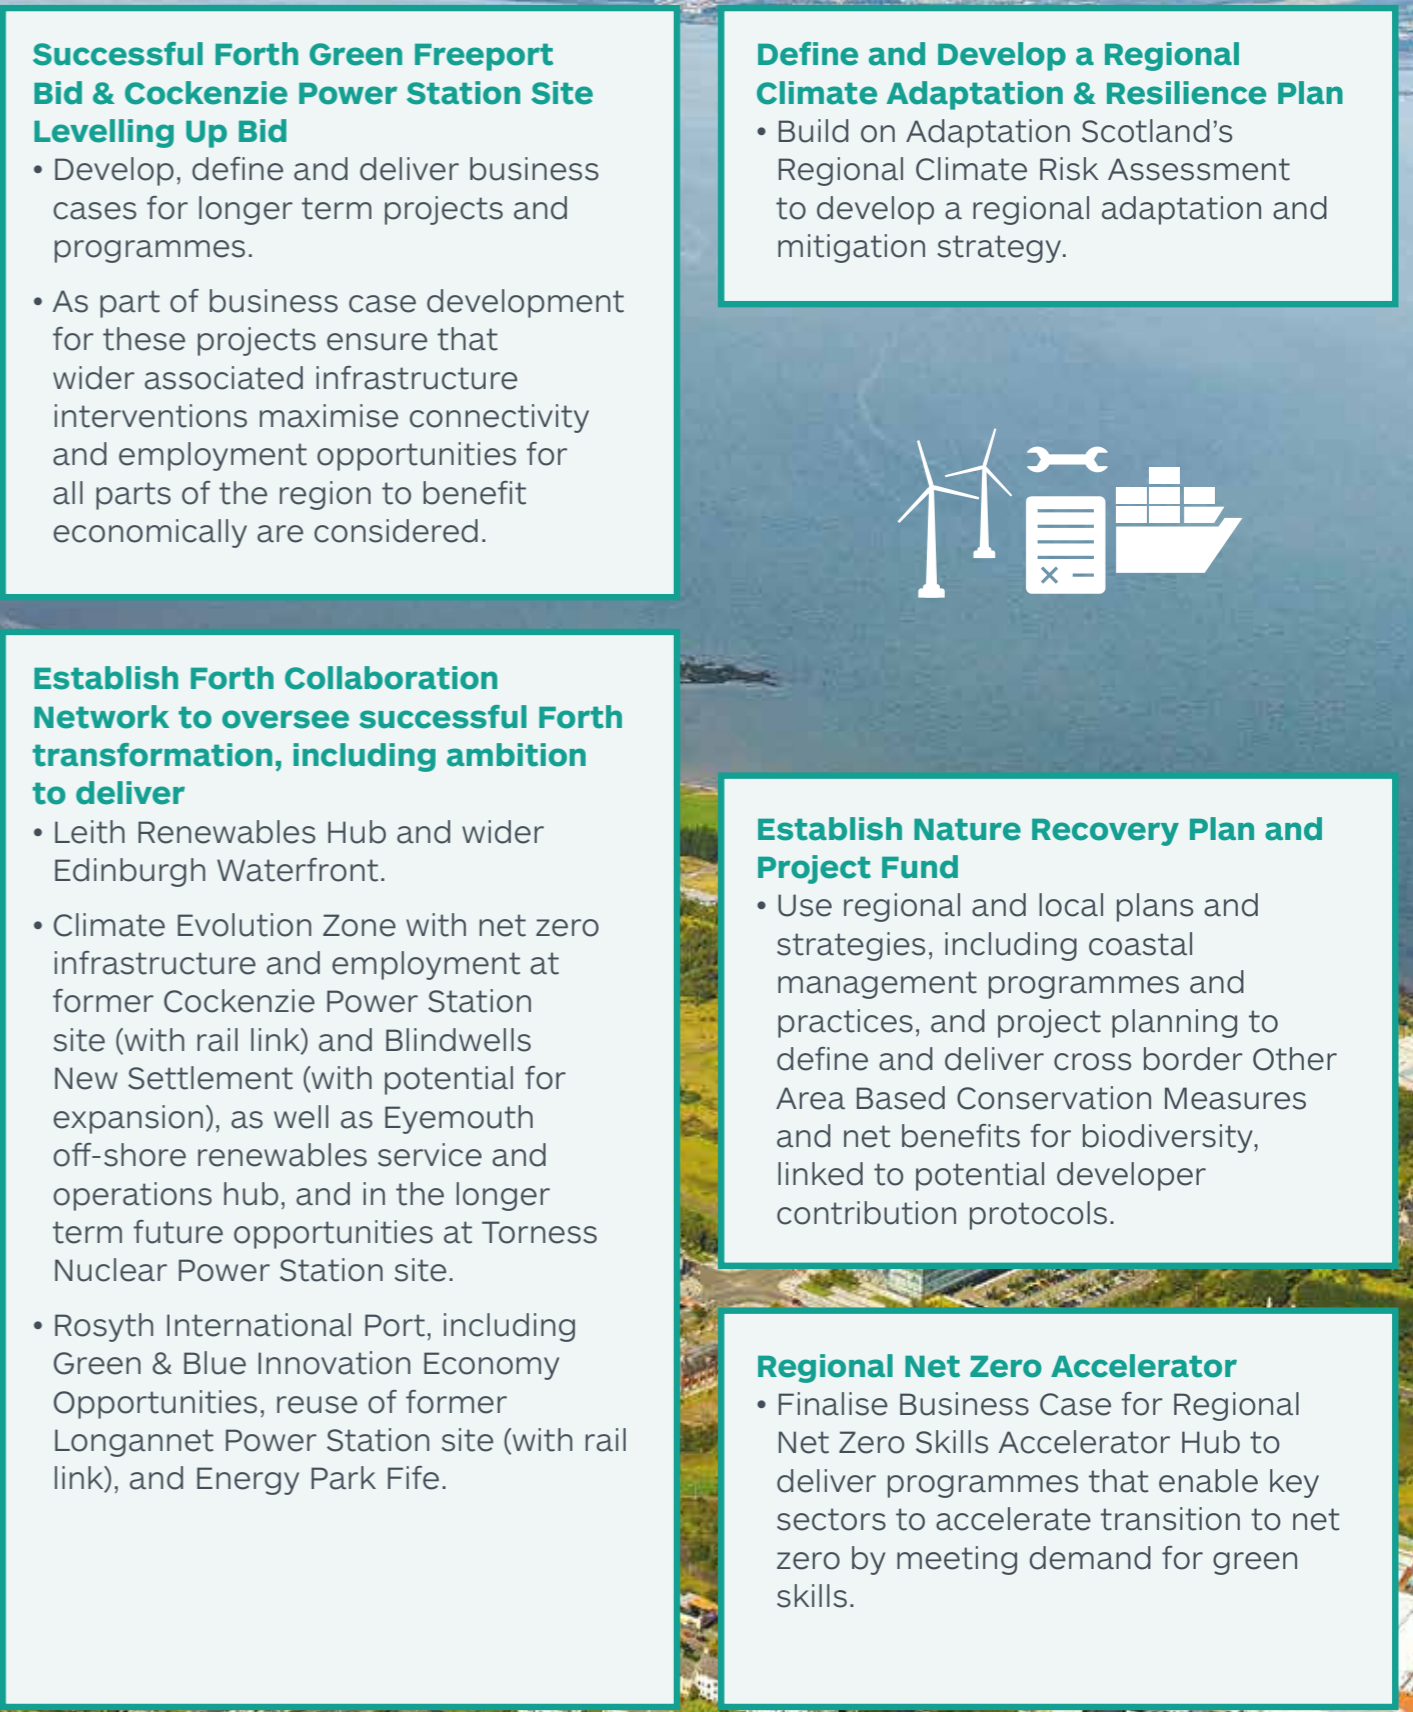

Our Action Plan Priorities

Our Action Plan Priorities

Our Action Plan Priorities

Regional Transport Masterplan

- Collaboratively develop a brief for the South East Scotland Regional Transport Masterplan, Funding & Delivery Programme.
- The Masterplan will complement the Strategic Transport Projects Review 2, while providing influence and regional clarity on expectations, including in relation to new sustainable transport interventions which may include active travel, railway opportunities, road interchanges, service improvements and behavioural change.
- The Masterplan aligned with STPR2 aims to improve accessibility for residents, visitors and business and to make sustainable transport options more attractive. It will also align with the Regional Visitor Economy Development Plan to support growth and ensure it is spread equitably across the whole of the region.
- The Masterplan will build upon the Regional Transport Strategy by reviewing and identifying cross boundary infrastructure and services improvements beyond the remit of STPR2.

Edinburgh City Region Sustainable Construction Home Demonstrator

- New business model for delivering net zero affordable homes.
- Phase 1 in delivery and scale up programme with Regional Pipeline defined.
- Identify funding and delivery partner and potentially suitable sites for off-site manufacturing facilities – e.g. for infrastructure and / or housing.

Regional Energy Masterplan

- Phase 1 funding secured and develop Phase 2 proposition and demonstrators.

Our Action Plan Priorities

Visitor Economy

We will work in collaboration at regional level to responsibly grow, maximise and spread the benefits generated by the regions significant visitor economy by creating a:

• Regional Visitor Economy Partnership:

Seek to establish a Regional Partnership with Visit Scotland, Scottish Enterprise and others, to facilitate stronger more efficient and effective cross regional working to the benefit of the regional visitor economy.

• Regional Visitor Economy Development Plan:

Regional Partnership to co-produce a Plan that aligns regional ambitions and actions to become a world-class year round visitor destination, delivering a forward looking ambitious response to responsible tourism.

Culture

We will capitalise on the Region's reputation as a leading cultural destination maximising the opportunities of our cultural offering to benefit the wider region and support:

• Festivals Recovery:

Build on the ambitions of our festivals to strengthen the region's by establishing a Festivals Recovery Fund to enable festivals to recover and be more resilient through implementing a new business model.

• Creative Industries:

Define regional creative industries sectoral challenges and opportunities, and co-produce a recovery and growth plan.

A Unique Regional Asset

- Phase One of DDI has focussed on the planning, construction, fitting out and initial launch of the six innovation hubs. This phase is now nearing completion and **will offer 53,000 square metres of collaboration space**.
- Once complete the network of **DDI Hubs will provide a unique regional asset with which to develop and experiment** with new ways to innovate, teach and research in collaboration with schools, colleges, other universities, public authorities, industry and governments.
- **The National Robotarium** works in collaboration with industry partners to test and develop robotic solutions to global challenges and rapidly moves pioneering research from laboratory to market.
- To secure a permanent position as a data capital, **outputs of DDI projects and activities need to lead to long-term outcomes and lasting impact**. This is the focus for Phase Two.
- **The innovation platform** will be applied to drive novel data science capacity, entrepreneurship and skills, and enable economic growth.
- Already, **a range of major partnerships have been formed with organisations** including Legal and General, Baillie Gifford, UNICEF and the Scottish Government.
- The immediate focus of DDI activity is to **ensure that the programme evolves to meet the needs of our region** and its key industry sectors.

Our Action Plan Priorities

DDI Prospectus and Sector Opportunity Plans:

- Re-assess the data and AI marketplace, revise existing DDI plans and develop an investment prospectus to extend the role and impact of data services across the regional business base and public sector.

Secure Exascale Investment:

- Secure the first next-generation Exascale supercomputer in Europe, reinforcing the position of the region as a global centre for high-performance computing. Exascale computing is up to 1,000 times faster than current supercomputers, supporting complex applications in everything from medicine to climate sciences, nuclear physics and national security.

DDI-led approach to visitor economy destination management:

- Scope business case, which will help to position the region as a global leader in regional data-driven decision-making for strategic tourism investments and allow for the implementation of innovative digital assets to help work towards a truly responsible and sustainable visitor economy for the region.

Regional Intelligence Centre Establishment:

- Finalise business case to enable regional policy makers, service delivery executives and the public to access relevant useful knowledge and insights to develop regional policy and improve services.

Delivering Together

The National Robotarium

Edinburgh Innovation Park

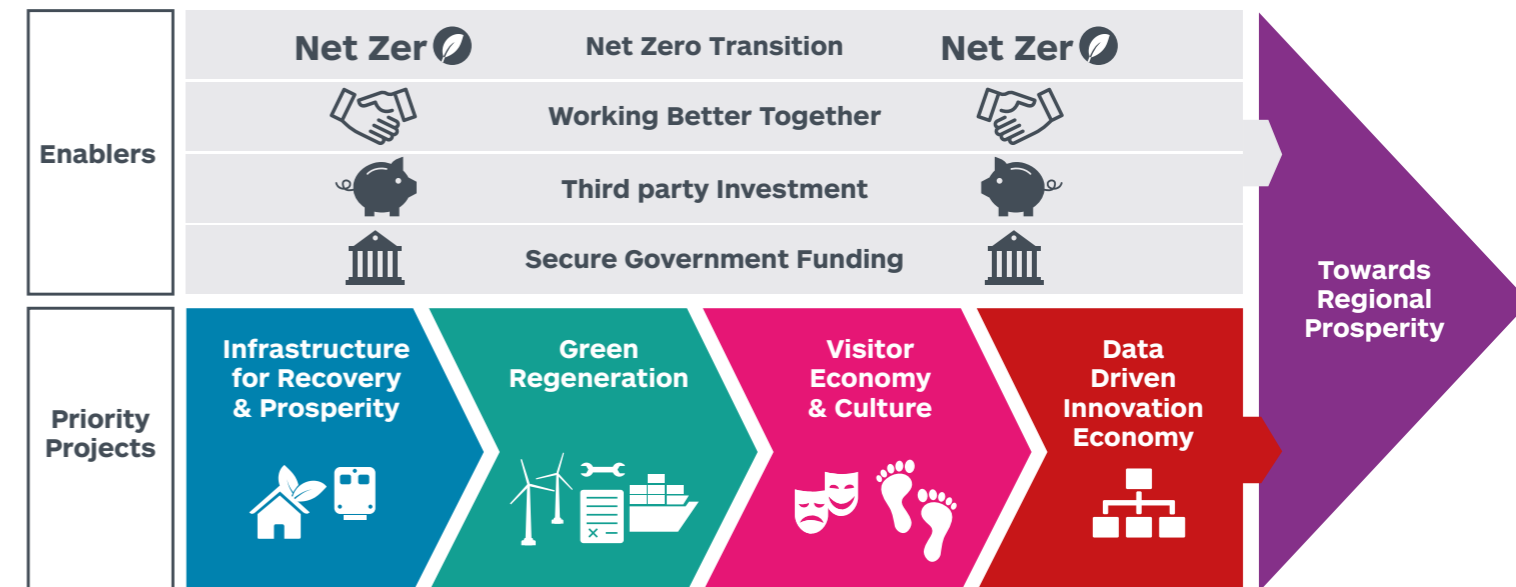

Delivering Together

Early momentum is key to any major initiative and is embedded in the Action Plan. Our Call to Action does not require all **12** initiatives to be launched simultaneously and immediately. Instead, we will undertake the following four activities as a priority:

- Infrastructure for Recovery and Prosperity – developing, with the UK and Scottish Governments, a new funding model for regional infrastructure initiatives that incorporates capital and revenue place-based funding allocations.
- Develop an investment prospectus for the Green Regeneration (focused on the Forth).
- Secure a sustainable visitor economy and promotion of our cultural assets.
- Promote the transition to data enabled business performance in the region.

These early wins will: provide us with further evidence of the positive impact of regional working; build further confidence in our ability to collaborate and deliver; and demonstrate the positive outcomes that investment in our region will deliver.

Delivering Together

Transformation is a Team activity

Addressing the scale of transformation required to transition the region to a balanced economy that meets the needs of its citizens and businesses within the limits of its resources will require action at a local, regional and national level. It is for this reason that the Partners have set out an ambitious yet pragmatic vision for innovation and change. New ways of working together are required.

The region has the diversity and attributes to tackle many of its economic challenges in ways that provide for the needs of its citizens and businesses. But the nature of some of the actions required mean that **a new multi-governmental Team approach is required**. Many of the controls through which local and regional challenges can be addressed sit with others at Scottish or UK Government level. Through the right form of partnership (new collaborative approaches and funding models) the Edinburgh and South East Scotland Region has the potential to harness the opportunity of the drive to net zero, to build a more self-sustaining regional economy that can support a just transition for Scotland and the UK.

Bayes Centre

Delivering Together

Our Asks of Government Span Financial Support and New Forms of Partnership

To realise the aim and objectives of the Regional Prosperity Framework, and this associated Action Plan, Scottish and UK Government are asked to offer the following support:

Financial Support for Programmes

- We ask for our Action Plan to be achieved through a medium to long term, integrated, place-based funding allocation based on shared outcomes. New forms of Partnering
- Support to **develop a new Regional delivery capability** to support the Regional Prosperity

Framework

- Align national strategies & policies to **support regional aspirations**
- We ask both the Scottish and UK Governments to **commit to continue to work in tripartite (UKG/SG/ESES) partnership**
- Recognise the region is closely aligned and uniquely positioned to progress the recommendations made in the Scottish Government's Regional Economic Policy Review

Enablement

New powers and new delivery tools to deliver the Framework, through “live” Action Plans.

National Strength Recognition – there are a basket of regional economic assets that are a vital part of the national economy, but which have been buffeted by recent economic upheavals. We want to work the Governments to secure these for the long term.

Delivering Together

Measuring Impact

As with City Region Deal activity, a Benefits Realisation Framework will be adopted for the Regional Prosperity Framework.

Given the emerging activities of the Scottish Government, and its National Strategy for Economic Transformation, and the Regional dimension to this being developed, and UK Government, through its Levelling Up Missions and Shared Prosperity Fund activity, the Regional Partners want to work with both UK and Scottish Government, and other Regional Partners, to develop a Benefit Realisation approach that enables all of these activities to be answered with the lowest possible resource demand, ensuring that resources are primarily focused on delivery and impact.

This will look at build up on the work already defined through the City Region Deal, to create a sustained suite of indicators of success and impact, supported by the stories of impact that allow economic development to be understood, allowing the stories of our citizens and businesses to be heard and amplified.

Page 23

Delivering Together

Claire Pattullo and Garry Clark

Chair and Vice Chair of the Regional Enterprise Council

It has been a pleasure for the Regional Enterprise Council (REC) to have been part of developing the Regional Prosperity Framework (RPF), from its original vision through to this Delivery Plan. The REC advises the City Region Deal's Joint Committee on the delivery of projects across the city region and encourages further investment opportunities, and has helped shape the ambition and strategic direction of the RPF.

There has been considerable change at a national, local and regional level since the RPF was published in September 2021. The City Region Deal Partners are determined to respond positively to challenges and changes in the economy. It is critically important that the RPF Delivery Plan is a living document that is regularly reviewed and re-focused to ensure that everyone benefits from regional prosperity and growth.

The four key programmes – Green Regeneration; Infrastructure for Recovery & Prosperity; Visitor Economy & Culture; and Data Driven Innovation Economy – are critical to the region's economic future. They provide clarity for collaboration and future investment to ensure this region continues to be Scotland's most successful and productive regional economy. The RPF Delivery Plan is a key step in delivering sustainable, inclusive growth to enhance and protect our environment and make best use of the region's built and natural assets, ensuring that the region delivers a just transition to a net zero economy.

Delivering Together

Robert Carr
Regional Enterprise Council, Partner and Solicitor Advocate
– Anderson Strathern

It has been a privilege to have been part of the team preparing the Regional Prosperity Framework to constitute a flexible and lasting template for economic development across the whole Region and to maximise the benefits for all from the Edinburgh and South East Scotland City Deal.

A most welcome characteristic of how that team has worked together is the collaboration across geographies among the elected representatives from all political parties, council officials, communities and enterprises. As we have sought to build back differently for the future many open conversations have taken place about where we are now, where we want to be, and how we are going to get there. These conversations have been conducted, not as a dance of opposites, fueled by self-interest or point-scoring, but as heartfelt dialogues to collectively create and deliver a common vision for the future.

The team have had the confidence to be bold and ambitious in how the pressing challenges that exist for our enterprises, workplaces, marketplaces, communities and for our environment can be addressed. We have had a shared vision of a sustainable, respectful Scotland, where individuals and communities can flourish, and our diversity is celebrated. That vision recognises that our wellbeing is dependent upon the people most affected taking informed decisions about their futures.

As the Framework process now moves from design the team is wrestling with how the pace of delivery can be accelerated. As the actions and outputs are measured, we will answer the timeless question posed by immunologist Jonas Salk, who developed the polio vaccine in the 1950s: are we being good ancestors?.

“are we being good ancestors?”

“It has been a privilege to have been part of the team preparing the Regional Prosperity Framework”

“The team have had the confidence to be bold and ambitious”

Case Studies

Case Study: Borders Railway

When opened in September 2015, the Borders Railway marked the longest domestic railway to be constructed in Britain for over 100 years. The new railway quickly and substantially exceeded the predicted patronage figures and wider benefit forecasts.

The line has breathed fresh vitality and investment into the communities it serves, transforming the places and local economies by:

- **Retaining and attracting residents;**
- **Enabling the local business base to expand;** and
- **Doing so in a sustainable manner.**

The Borderlands Inclusive Growth Deal includes a joint commitment (up to £5 million from both the UK and Scottish Governments) to develop a shared understanding of the benefits and challenges of extending the Borders Railway to Carlisle, including the undertaking of feasibility work to further develop the business case for reinstatement of the railway. This would provide an important regional and national connection southwards to the rest of the UK.

Case Studies

Transport Scotland evaluation of the existing line has revealed the wide-ranging nature of the impacts in just the first two years of operation (since 2015/16). Only two years of data is likely to vastly underreport the full impacts - major rail infrastructure would typically take five to ten years for the full effects. Impact summary below:

Connectivity

- **40%** of journeys were not previously made.
- In only two years, **15%** of survey respondents indicating they had changed employment, and over half indicating that the line was a factor.
- **90%+** of travel is to/from Edinburgh and beyond.
- **15%** of users did not have a car available.

Modal Shift

- **60%** used another mode, of which 64% previously travelled by car.
- **6%** of survey respondents had reduced their car ownership.
- Housing delivery in Midlothian **doubled** in years before opening.
- **Over 50%** of new residents stated the line had been a factor in their decision to move to the area.

Visitor Economy

- Visitor numbers for Midlothian and Borders attractions increased by 7% in the first half of 2016.
- 70% of tourist and day visitor users said the railway had been a factor in their decision to make the trip.

Skills/Qualifications/Training

- Applications to Borders College (Galashiels) increased by 74% in 2016/17 compared to the previous year.

Case Studies

Case Study: **Preparing for Tomorrow Today – Granton Net Zero Housing**

As part of the Region’s commitment to “net-zero” 75 net-zero carbon homes and three retail units have been developed as part of the Granton D1 initiative.

This is an **Edinburgh Home Demonstrator** (EHD) pilot, championed by City Region partner, the City of Edinburgh Council, with support from construction and academic partners. It is part of the region’s ambitions to deliver 18,000 affordable homes by 2028.

The project was undertaken in partnership with CCG (Scotland) Ltd, to test this new business model for building affordable, net zero homes. A large proportion of the construction was carried out off-site in a factory setting, reducing the overall time it takes to build the homes.

The homes include zero emissions heating, reducing the risk of fuel poverty for tenants. In addition, this will help reduce their greenhouse gas emissions and support the region’s net-zero targets.

The pilot is also supported by a team from Napier Edinburgh University, and University of Edinburgh, who are analysing the energy performance of the homes to validate and inform the net-zero carbon strategy for future EHD projects. The EHD project aims to deliver 1000 affordable net-zero carbon homes across the region as part of the City Region Deal.

Case Studies

Case Study: **Integrated Regional Employability & Skills (IRES)**

IRES is a £25m, 8 year change programme which started in April 2018. Excellent progress is being made towards delivering an additional 14,700 skill improvements; 5,300 people into employment; and a further 500 career enhancements through its 7 themes:

Outputs and outcomes are tracked through a bespoke monitoring and evaluation framework and reported using a live dashboard.

Building on the successful partnerships established through the IRES programme we will support the Regional Prosperity Framework through the establishment of additional Skills Gateways. A Net Zero Accelerator to develop skills linked to green economy jobs including Construction, Energy and Transport; whilst there is a strong ambition for a Health and Social Care Skills Gateway to support innovation and capacity.

Case Study: Regional Transport Master Plan

Transport is a key enabler to unlock the region's potential, but in many areas, it has constrained the full realisation of opportunities and benefits for our people, place and economy. The national commitment to decarbonised transport and infrastructure provides a once in a generational opportunity to deliver a 'Just Transition' to tackle transport poverty and the inequalities that currently exist across the region. Coupled with the publication of the Regional Transport Strategy, Strategic Transport Projects Review 2 and the National Planning Framework 4, it all supports an 'infrastructure first' approach to deliver a sustainably connected region.

Our previous approach to public transport no longer responds to our region's needs and barriers. Instead, having a transport system which is collaborative, coordinated, collects/analyses/responds to the emerging data, is inclusive and responsive, attracts a diverse workforce, while minimising its impact on the environment is critical to the region's success.

A regional Master Plan will respond to the needs of the region by identifying the cross-boundary opportunities that will fill the gaps of SPTR2, identify economies of scale, build on existing partnerships to support the region's ambition and respond to current and future challenges.

| Approach | Partnership |
| Themes | Innovative, Flourishing & Resilient |
| Benefits | Net Zero, jobs, connectivity, enabling the RPF 4 Priority Projects |

Case Studies

Case Study: Regional Transport Master Plan

As an example of this is Mass Rapid Transit (MRT). It must be designed with regional coordination, smarter (utilising data) and be responsive to accommodate high volumes of movement to key local and regional destinations, while acknowledge the variances in daily demand for a flexible working population.

Regional MRT will include:

Key to its success will be the equitable delivery of scaled journey hubs, targeted local/regional infrastructure improvements, a single Mobility as a Service information and ticketing system, open API's (Application Programming Interface) across all transport modes to optimise the network and experience for the end user.

This will also support the expectations and demands of the visitors to our region, whether they are local, national or international. Assisting the role of the visitor arrival hubs like Edinburgh Airport, as a crucial access point for national and international visitors, before they seek coordinated sustainable transport options to visit the wider region and Scotland.

Master Plan Priorities:

- Partnership
- Mobility as a Service
- Data sharing and digital infrastructure aligned to transport network
- Public transport infrastructure and services investment and funding models
- Improve arterial routes into rural communities
- Active Travel
- Efficient movement of freight
- Behavioral Change
- Decarbonising Transport

Case Studies

Case Study: People, Place and Prosperity

Edinburgh Innovation Hub & Park

- Joint venture between East Lothian Council and Queen Margaret University to deliver the Edinburgh Innovation Hub
- Is funded by UK Government, the Scottish Government, and the Council
- The Hub will drive company growth, support and develop existing businesses and create sustainable new businesses to access a global market for healthy and functional food
- Will be a catalyst for subsequent delivery of wider Edinburgh Innovation Park (EIP)
- The EIP will create a nationally significant centre of knowledge exchange, innovation and high value businesses.

East Lothian's Climate Evolution Zone

As part of the wider greening of the Forth, strategic net zero and just transition opportunities in this Zone include:

- The redevelopment of the Cockenzie Power Station site for net zero infrastructure and strategic employment
- Blindwells new settlement, with potential for expansion into a significant new town
- Sustainable infrastructure, including strategic transport improvements, potential for high speed rail, and green and blue network and nature based solutions

These major green growth projects can also be a catalyst for significant regeneration, and require partnership to enable and accelerate benefits.

Case Studies

Case Study: People, Place and Prosperity

Future of Torness Power Station Site

The future reuse of Torness Power Station site, with its grid connection, coastal location and deep water access, is a significant long term opportunity linked to the wider greening of the Forth. Strategic collaboration and partnership on the future use of this site and wider area could deliver long term benefits.
