porch extension to front of property, Form French doors to rear.

**Application No:** 19/03461/FUL

**DECISION NOTICE**

With reference to your application for Planning Permission registered on 18 July 2019, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

**Conditions:-**

**Reasons:-**

1. The proposal is contrary to Edinburgh Local Development Plan Policy Des 12 as it is not in keeping with the current spatial pattern of the area, and would have a detrimental impact on existing neighbourhood character.
2. The proposal is contrary to non-statutory Guidance for Householders which states that extensions that project beyond the principal elevation line are not generally allowed unless this fits in with the local character of the street. This is not characteristic of Ferry Gait Drive, where the building line remains unbreached, and completely uniform. The character of the area is in large part reliant on this uniformity, and as such the proposal is unacceptable.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01-06, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The proposed scale, form and design is unacceptable and would be detrimental to the character and appearance of the host property and surrounding area. The proposal would be unacceptable by virtue of the breach of the current building line of the application site by the proposed porch, which would not be in keeping with the current spatial pattern of the area and would have a detrimental impact on the existing character of the street. The proposal is contrary to Local Development Plan Policy Des 12 and the non-statutory Guidance for Householders. There are no material planning considerations which would justify approval.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Christopher Sillick directly on 0131 529 3522.

## NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at [www.eplanning.scot](http://www.eplanning.scot) or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email [localreviewbody@edinburgh.gov.uk](mailto:localreviewbody@edinburgh.gov.uk).

# Report of handling

## Recommendations

---

**1.1** It is recommended that this application be Refused for the reasons below.

## Background

---

### 2.1 Site description

The application site is a three storey, end terrace, townhouse, located on the south-west side of Ferry Gait Drive where the road meets Ferry Gait Place.

### 2.2 Site History

There is no relevant planning history for this site.

## Main report

---

### 3.1 Description Of The Proposal

Formation of new porch to the front of the property.

The proposal to form French doors to the rear of the property is permitted development under Class 2B of the Town and Country Planning (General Permitted Development) (Scotland) Order 1992 (as amended). No further assessment of these alterations is required.

### 3.2 Determining Issues

Section 25 of the Town and Country Planning (Scotland) Act 1997 states - Where, in making any determination under the planning Acts, regard is to be had to the development plan, the determination shall be made in accordance with the plan unless material considerations indicate otherwise.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling reasons for not approving them?

If the proposals do not comply with the development plan, are there any compelling reasons for approving them?

### 3.3 Assessment

To address these determining issues, it needs to be considered whether:

a) The proposal is of an acceptable scale, form and design and will not be detrimental to neighbourhood character;

b) The proposal will result in an unreasonable loss of neighbouring amenity.

a) The walls of proposed porch on the principal elevation of the property would project approximately 2.15 metres from the property, with the roof projecting 2.3 metres from the current building line. The porch would have an approximate footprint of 4.61 metres. The porch does not comply with permitted development legislation in that it is fronted by a road on both the principal and side elevations, and also exceeds the 3 square metre footprint allowed.

The Council's non-statutory guidance, outlined in 'Guidance for Householders', states that extensions that project beyond the principal elevation line are not generally allowed unless this fits in with the local character of the street. Local Development Plan policy 'Des 12 Alterations and Extensions' states permission will only be granted where a proposal will not be detrimental to neighbourhood amenity and character. The proposed breach of the current building line would not be in keeping with the character of the street, or the spatial pattern of the area, and as such does not comply with Local Development Plan policy or Council guidance.

The application site is situated in a modern development on Ferry Gait Drive. The street is characterised by three storey townhouses, and four storey flat blocks, with an exposed brick and white render finish. The building line remains unbreached and completely uniform across the entire street, and within the surrounding area. The uniform building line gives way to paved drives with space for up to two cars. The drives are fronted by attractive tree planting, and offer a sense of open space throughout the public realm. The character of the area is derived in large part from the uniformity of the building form, in terms of both the modern finishing of the properties, and the uniform building line.

The proposed breach in the building line to accommodate the formation of a new porch is unprecedented in the surrounding neighbourhood, and not in keeping with the current spatial pattern of the area. The proposed development would look unusual in the context of the street, and would damage the sense of openness of the area. The proposal would have a detrimental impact on the character of the area, and as such does not comply with Local Development Plan Policy Des 12, and non-statutory guidance outlined in Guidance for Householders. The proposal is unacceptable.

b) The proposal fully accords with the criteria in the 'Guidance for Householders' in relation to the protection of neighbouring amenity.

It is recommended that this application be Refused for the reasons below.

### **3.4 Conditions/reasons/informatives**

#### **Reasons:-**

1. The proposal is contrary to Edinburgh Local Development Plan Policy Des 12 as it is not in keeping with the current spatial pattern of the area, and would have a detrimental impact on existing neighbourhood character.

2. The proposal is contrary to non-statutory Guidance for Householders which states that extensions that project beyond the principal elevation line are not generally allowed unless this fits in with the local character of the street. This is not characteristic of Ferry Gait Drive, where the building line remains unbreached, and completely uniform. The character of the area is in large part reliant on this uniformity, and as such the proposal is unacceptable.

## Notice of Review ~~SUPPORTING STATEMENT~~

The applicant acknowledges the planning authorities findings, but would refute the reasons given in respect of refusal of the said application.

The applicant would dispute the planning authorities comments that the proposed porch extension as submitted and is of the opinion that the proposed new addition would not have a detrimental impact on either the existing property, character of the neighbourhood or the street scene in general

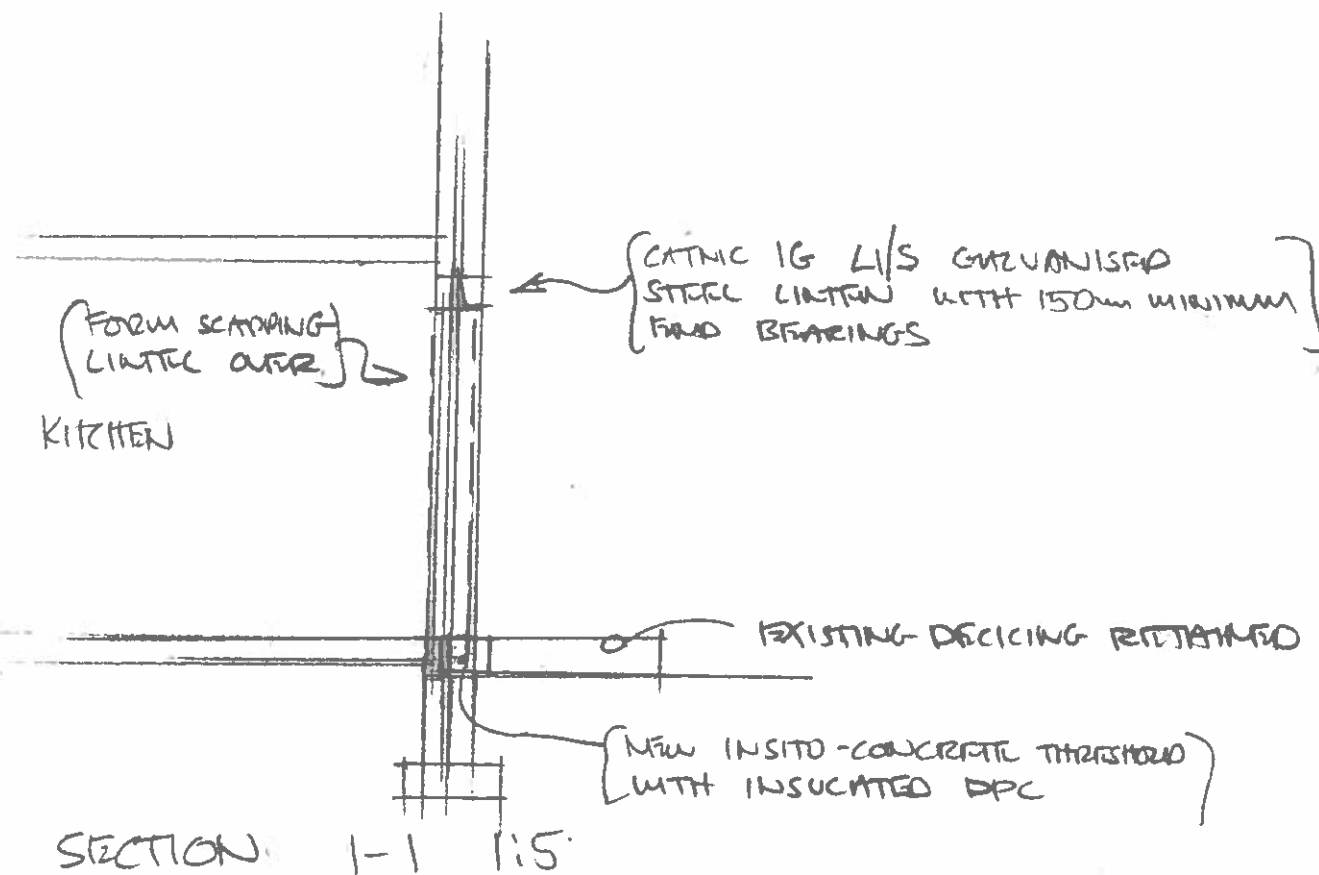

The applicant would state that the introduction of said extension would sit comfortably against the existing property frontage and that the general form, design and scale of the proposed porch structure would in fact compliment the main property and would not detract from the local character of the street

Whilst the applicant would agree that the proposed porch would project beyond the principle elevation line it would not result in an unacceptable addition, as with any small porch extension to domestic properties.

The scale, design and materials proposed in respect of new extension reflect generally what is currently in place and in adjacent properties in respect of material, style and design and would not have a detrimental impact or look out of place in general.

No objections or complaints have been submitted in respect of the proposals and the applicant has consulted a number of adjacent property owners who are very supportive with some also interested in a similar addition to their properties.

It is hoped that the review board shall look favourably in respect of this appeal and take into consideration the points raised by the applicant in support of his appeal.
