### Item 8.1 – Supporting Local Businesses in Edinburgh

Council notes:

That a local Champions network will be established with individuals from local businesses, Traders Associations and/or Community Council to enable the Council to consult directly with local businesses on the additional action which they would like the Council to take to provide further support within the Spaces for People and other economic recovery programmes.

Asks that Officers engage immediately with trade bodies and work with the Local Champions network to quickly agree a policy proposal regarding licencing of outdoor spaces for eating, drinking and other similar activities; including exploring deferral of fees and discount for small businesses.

In the event that a policy is proposed which has a financial impact beyond the existing Spaces for People budget, that the proposed policy is brought to the next Policy and Sustainability Committee for consideration.

### Item 8.1 – Supporting Local Businesses in Edinburgh

Council

Addendum after 1.1.1:

A) But expresses concern that feedback from businesses is that the Council is not moving quickly enough to support them or to meaningfully act on their concerns; recognises that the challenges faced by businesses in local high streets are different to those in the city centre and therefore require distinct solutions.

B) Many local high streets have seen encouraging footfall as lockdown has eased, thus far largely trading in an environment safe for staff and customers alike. Therefore, agrees it is essential that Spaces for People (SfP) measures recognise that traders know their client base better than the Council and that SfP measures assist rather than hinder their trading environment.

C) Notes statements by the Transport Convenor on the supposed value of customers travelling to businesses by bicycle rather than vehicle; Considers that this evidence fails to fully take account of Edinburgh's suburban demographics and unknown changes in consumer behaviour post-Covid.

D) Notes City Centre businesses are suffering from severely reduced footfall because of the absence of both tourists and office workers who amounted to 25 – 30,000 incoming visitors per day and there is currently a reduction of 85 – 90% in footfall; notes that this is unlikely to change until Scottish Government Covid-19 guidance changes but recognises that there is an urgent need to support these businesses in the immediate term, Therefore, and requests that officers further review the speed and costs of licensing outdoor spaces in order to deliver animation to the City Centre to support it through this very difficult trading time.

### Item 8.1 – Supporting Local Businesses in Edinburgh

Add recommendation

1.1.5 Accepts and endorses the Edinburgh Climate Commission recommendations on a 20-minute walking principle in place-making design and supporting neighbourhood economies; and recognises that applying such principles consistently would provide enormous benefit to local businesses.

Notes that community support for local shops and businesses has an important part to play in adaption and renewal across the city, and therefore requests that local residents be included in the Local Champions Network by including 2 representatives for each town centre drawn from Community Councils, residents associations, parent councils and other relevant local groups.

### Item 9.2 – By Councillor Staniforth - Commercial Short-Term Lets in Edinburgh

Recognises the ongoing work of officers within the cross service short term let team to tackle antisocial behaviour, using existing legislative powers across various council service areas including planning, licensing, environmental health, trading standards and housing and family support focusing on using planning enforcement and has successfully defended actions at appeal.

Notes the decisions of the Policy and Sustainability Committee, based on the work of the Short Term Lets Working group, to make the case to the Scottish Government for a licensing regime that gives the council additional powers to control short term lets.

Welcomes that the Scottish Government has restarted work on bringing forward the legislation required following a pause caused by Covid -19.

Agrees that the STLWG and council officers will continue to work together to respond to the Scottish Government consultation, and help shape legislation that comes forward, so that it delivers the full powers that we need in Edinburgh to properly protect homes and communities.

Add at end:

- 7) Welcomes the reallocation of road space as part of Spaces for People, outlined in 1. above, while recognising that taxis form part of a strategy to help people move around the city without recourse to a private car; and that therefore there is a legitimate expectation of taxi-drivers to have access to earmarked space which is convenient for passengers to be picked up and dropped off; and further therefore, to agree that review of taxi rank spaces should include options for reallocating space currently provided for on-street parking of private cars to taxi ranks.
