Period 6 Financial Statement 2020/21

2. Executive Summary

2.1 The forecast is for net expenditure to be in line with the approved revenue budget of the Board, based on the position at 30th September.

3. Background

3.1 The Board's Financial Regulations require presentation of quarterly expenditure monitoring statements. This report summarises the projected revenue budget outturn position to 31st March 2021, based on the position at 30th September2020. The report has been prepared in consultation with the Interim Assessor and ERO.

4. Main Report

4.1 The table below compares the projected revenue expenditure outturn for 2020/21 with the approved budget. The forecast, based on the position at 30th September, is for net expenditure to be in line with the approved budget.

- 4.2 The revenue budget approved by the Board on 3rd February 2020 included a phased implementation of the Board's Transformation Programme between 2020 to 2024, with no change in council requisition from the 2019/20 requisition.
- 4.3 The budget made provision for the costs and financial benefits from potential 2020/21 leavers through the Board's Transformation Programme. A planned release of staff in 2020/21 continues to be progressed by the Interim Assessor. Updates on the Transformation Programme will be provided to the Board by the Interim Assessor on a regular basis.
- 4.4 The approved budget required the balance of inescapable employee cost pressures and severance costs to be met by a drawdown of £0.657m from the Board's unallocated reserve.
- 4.5 At this stage of the financial year, net expenditure is forecast to be within the approved budget. A further 2020/21 budget update will be provided to the Board in February 2021.
- 4.6 Employees of the Board are currently working from home, in line with Scottish Government guidance. Home working continues to create longer recruitment lead times, where posts are currently vacant, which may lead to a reduced level of employee costs, in comparison to the approved budget for 2020/21. The move to home working required the Board to invest in additional ICT equipment and to provide support for lone working arrangements.
- 4.7 The Board has also incurred expenditure on office preparation costs, signage, hand sanitiser, etc and a revised third party office cleaning provision.
- 4.8 The forecast continues to assume that any employee turnover savings will contribute to offsetting additional ICT equipment costs, with office preparation costs met from within the approved budget.
- 4.9 In the event there is an overall net underspend, this will reduce the planned drawdown of £0.657m from the Board's unallocated reserve.
- 4.10 The Board has received 9,541 valuation appeals, as a consequence of the Coronavirus Pandemic. This represents an additional workload to the Board and reflects a national trend. The Scottish Government has extended the statutory disposal date to 31 December 2021, which will reduce the risk of additional costs being incurred to meet the original disposals deadline date.
- 4.11 The 2020/21 approved budget included £0.109m for delivery of Individual Electoral Registration (IER), with all costs met from Cabinet Office grant carried forward from 2019/20. The Cabinet Office subsequently awarded the Board grant of £53,834, with the possibility of a top up at year end, subject to justification. Total funding for IER of £0.162m is therefore currently in 2020/21.
- 4.12 In February 2018 the Board approved a formal reserves policy based on holding a general reserve with a minimum value of 3% of annual requisition (£0.180m based on 2020/21 requisition). Balances held in excess of 3% require to be reviewed annually in-line with risk/identified commitments
- 4.13 The Board's unaudited general reserve balance currently stands at £0.897m. The general reserve would reduce to £0.240m at 31st March 2021 based on the

forecast included in this report. An update on financial risks is included at Appendix 1.
