

QUESTION NO 10

**By Councillor Whyte for answer by
the Convener of the Transport and
Environment Committee at a meeting
of the Council on 27 May 2021**

Question

The publicly available Edinburgh Road Reports (eg. <https://www.edinburgh.gov.uk/downloads/file/29452/14-may-2021>) in the table listing road works, in the 'Traffic Control' column, many of the controls are listed as:

*"Re-designating key parts of the road to help pedestrians, people using **wheelchairs**, prams or bicycles to physically distance"*

For every entry in this list, where the Traffic Control has the word '**wheelchair**' mentioned and, therefore, implies to council staff and the wider public that the control is specifically being put in place to help people with wheelchairs, please can you provide:

- a) The measure that was put in place to specifically help people using wheelchairs by improving accessibility.
- b) Any measures put in place as part of that scheme which conversely reduce accessibility for wheelchairs

Answer
