Please identify/describe the location of the site or sites

Northing

670651

Easting

323796

## Description of Proposal

Please provide a description of your proposal to which your review relates. The description should be the same as given in the application form, or as amended with the agreement of the planning authority: \*  
(Max 500 characters)

Replace the existing aluminium framed double glazing units with new uPVC A+ rated units

## Type of Application

What type of application did you submit to the planning authority? \*

- Application for planning permission (including householder application but excluding application to work minerals).
- Application for planning permission in principle.
- Further application.
- Application for approval of matters specified in conditions.

What does your review relate to? \*

- Refusal Notice.
- Grant of permission with Conditions imposed.
- No decision reached within the prescribed period (two months after validation date or any agreed extension) – deemed refusal.

## Statement of reasons for seeking review

You must state in full, why you are seeking a review of the planning authority's decision (or failure to make a decision). Your statement must set out all matters you consider require to be taken into account in determining your review. If necessary this can be provided as a separate document in the 'Supporting Documents' section: \* (Max 500 characters)

Note: you are unlikely to have a further opportunity to add to your statement of appeal at a later date, so it is essential that you produce all of the information you want the decision-maker to take into account.

You should not however raise any new matter which was not before the planning authority at the time it decided your application (or at the time expiry of the period of determination), unless you can demonstrate that the new matter could not have been raised before that time or that it not being raised before that time is a consequence of exceptional circumstances.

The condition that "trickle vents should be concealed in the meeting bars and should not be visible on the face of the windows". Cannot be met. Both my supplier and several others have indicated that "Trickle vents on Sash & Case windows can only be fitted to the top of the sash". A vent as requested would need an opening in both sashes. This type of frame cannot be manufactured in this way. Near by properties with similar frames have the vent in the top sash.

Have you raised any matters which were not before the appointed officer at the time the Determination on your application was made? \*

Yes  No

If yes, you should explain in the box below, why you are raising the new matter, why it was not raised with the appointed officer before your application was determined and why you consider it should be considered in your review: \* (Max 500 characters)

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review. You can attach these documents electronically later in the process: \* (Max 500 characters)

Copy of email from planning officer. Copy of email from my selected installer with a CAD image of the selected frame for installation. Photo evidence of surrounding properties with uPVC frames and the trickle vent in the sash.

## Application Details

Please provide the application reference no. given to you by your planning authority for your previous application.

21/05446/FUL

What date was the application submitted to the planning authority? \*

14/12/2021

What date was the decision issued by the planning authority? \*

31/01/2022

## Review Procedure

The Local Review Body will decide on the procedure to be used to determine your review and may at any time during the review process require that further information or representations be made to enable them to determine the review. Further information may be required by one or a combination of procedures, such as: written submissions; the holding of one or more hearing sessions and/or inspecting the land which is the subject of the review case.

Can this review continue to a conclusion, in your opinion, based on a review of the relevant information provided by yourself and other parties only, without any further procedures? For example, written submission, hearing session, site inspection. \*

Yes  No

In the event that the Local Review Body appointed to consider your application decides to inspect the site, in your opinion:

Can the site be clearly seen from a road or public land? \*

Yes  No

Is it possible for the site to be accessed safely and without barriers to entry? \*

Yes  No

## Checklist – Application for Notice of Review

Please complete the following checklist to make sure you have provided all the necessary information in support of your appeal. Failure to submit all this information may result in your appeal being deemed invalid.

Have you provided the name and address of the applicant?. \*

Yes  No

Have you provided the date and reference number of the application which is the subject of this review? \*

Yes  No

If you are the agent, acting on behalf of the applicant, have you provided details of your name and address and indicated whether any notice or correspondence required in connection with the review should be sent to you or the applicant? \*

Yes  No  N/A

Have you provided a statement setting out your reasons for requiring a review and by what procedure (or combination of procedures) you wish the review to be conducted? \*

Yes  No

Note: You must state, in full, why you are seeking a review on your application. Your statement must set out all matters you consider require to be taken into account in determining your review. You may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

Please attach a copy of all documents, material and evidence which you intend to rely on (e.g. plans and Drawings) which are now the subject of this review \*

Yes  No

Note: Where the review relates to a further application e.g. renewal of planning permission or modification, variation or removal of a planning condition or where it relates to an application for approval of matters specified in conditions, it is advisable to provide the application reference number, approved plans and decision notice (if any) from the earlier consent.

## Declare – Notice of Review

I/We the applicant/agent certify that this is an application for review on the grounds stated.

Declaration Name: Mr Martin Cameron

Declaration Date: 13/02/2022

On Tuesday, 1 February 2022, 11:29:51 GMT, Nancy Jamieson <nancy.jamieson@edinburgh.gov.uk> wrote:

Martin, as you are probably aware we do not usually allow UPVC in conservation areas but in this case I felt a case could be made as the change of material would not be highly evident. However, this is also dependent on the detailing being correct and in my opinion the addition of the trickle vent on the top of the window is an ugly addition contrary to our guidance on listed buildings and conservation areas where it states regarding windows

*Ventilators and Extractor Fans - Ventilators cut through the glass or visible on the window frames will not be considered acceptable; they should be located unobtrusively in the meeting rail or through the box frame.*

So this requirement is nothing new and I don't know why your chosen manufacturer cannot insert the vent in the bottom rail of the top sash hidden in the horizontal section. I would suggest you and your clients should shop around and find a manufacturer who can insert a discreet vent in compliance with the condition.

Hi Martin

Please see below from the supplier

***“Trickle vents on Sash & Case windows can only be fitted to the top of the top sash. We do not fit trickle vents to frame or to the interlock.”***

This means these are noticeable on the face off the window but it looks like your council requests they are not noticeable. This is not something we can do.

Let me know how you wish to proceed. I have attached a CAD image of how the sash & case window looks, showing the vent on the top sash

Thanks

**Jay Fairgrieve**
