Description of Proposal

Please provide a description of your proposal to which your review relates. The description should be the same as given in the application form, or as amended with the agreement of the planning authority: *
(Max 500 characters)

Refusal of planning permission to convert grassed area to garden / driveway / patio area, using porous monobloc pavers.
Screened area to rear to use for seating and beds for planting down each side. At Flat 2 1 Magdalene Drive Edinburgh EH15 3DD

Type of Application

What type of application did you submit to the planning authority? *

Application for planning permission (including householder application but excluding application to work minerals).

Application for planning permission in principle.

Further application.

Application for approval of matters specified in conditions.

What does your review relate to? *

- ☒ Refusal Notice.
- ☐ Grant of permission with Conditions imposed.
- ☐ No decision reached within the prescribed period (two months after validation date or any agreed extension) – deemed refusal.

Statement of reasons for seeking review

You must state in full, why you are seeking a review of the planning authority's decision (or failure to make a decision). Your statement must set out all matters you consider require to be taken into account in determining your review. If necessary this can be provided as a separate document in the 'Supporting Documents' section: * (Max 500 characters)

Note: you are unlikely to have a further opportunity to add to your statement of appeal at a later date, so it is essential that you produce all of the information you want the decision-maker to take into account.

You should not however raise any new matter which was not before the planning authority at the time it decided your application (or at the time expiry of the period of determination), unless you can demonstrate that the new matter could not have been raised before that time or that it not being raised before that time is a consequence of exceptional circumstances.

Our application was refused on the grounds that it was detrimental to the surrounding area, even though there were no complaints and 1 note of support for the works done. Parking is problematic in this area, creating an additional space is a benefit not a detriment. I am currently a blue badge holder with deteriorating health. I would also be unable to maintain or use a large garden set to grass. The patio area ensures I have an area I can use outdoors and provides space for mobility aids.

Have you raised any matters which were not before the appointed officer at the time the Determination on your application was made? *

☐ Yes ☒ No

If yes, you should explain in the box below, why you are raising the new matter, why it was not raised with the appointed officer before your application was determined and why you consider it should be considered in your review: * (Max 500 characters)

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review. You can attach these documents electronically later in the process: * (Max 500 characters)

**Application for Planning Permission
Flat 2, 1 Magdalene Drive, Edinburgh**

Proposal: To convert grassed area to garden / driveway / patio area, using porous monobloc pavers. Screened area to rear to use for seating and beds for planting down each side.

**Item – Local Delegated Decision
Application Number – 21/05239/FUL
Ward – B17 - Portobello/Craigmillar**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The proposal is contrary to the Local Development Plan Policy Des 12 in respect of Alterations and Extensions and the non-statutory Guidance for Householders, as it is not compatible with the character of the existing property and will be detrimental to the neighbourhood amenity and character. There are no material considerations which outweigh this decision.

Description Of The Proposal

It is a retrospective application for a driveway to the front of the garden and a patio area to the back of the garden. Areas of planting have been retained along the sides of the front garden.

Section B - Assessment

Determining Issues

Section 25 of the Town and Country Planning (Scotland) Act 1997 states - Where, in making any determination under the Planning Acts, regard is to be had to the development plan, the determination shall be made in accordance with the plan unless material considerations indicate otherwise.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling reasons for not approving them?

If the proposals do not comply with the development plan, are there any compelling reasons for approving them?

Assessment

To address these determining issues, it needs to be considered whether:

- a) the proposed scale, form and design is acceptable and will not be detrimental to neighbourhood character;
- b) the proposal will cause an unreasonable loss to neighbouring amenity;
- c) any impacts on equalities or human rights are acceptable;
- d) any comments raised have been addressed; and
- e) other material consideration.

a) Scale, form, design and neighbourhood character

The proposed hard-standing area would cover approximately 85% of the front garden area with hard standing which consists of porous materials. The non-statutory "Guidance for Householders" advises that parking spaces in front gardens should be a maximum of 21 square metres or 25% of the area, whichever is the greater. This parking space together with patio takes up 85% of the garden area and exceeds this criterion resulting in an overly dominant feature in this amenity space, detracting from its green character.

In addition, the front parking space should be no wider than 3 metres and the proposal is for 4.7 which considerably exceeds this requirement. In addition, there should be only one parking space per property and the application is for two spaces. Therefore, the proposal does not meet the standards set up by the non-statutory guidance.

In terms of the neighbourhood, the flatted properties of this type have large front gardens and these are generally green space. As a result, the grassed front gardens are part of the overall character of the area and contributes to visual amenity. The loss of the green space begins to undermine this characteristic and starts to impact on the amenity of the neighbourhood.

The proposal does not comply with Local Development Plan Policy Des 12 and the non-statutory Guidance for Householders.

b) Neighbouring amenity

The proposals have been assessed against requirements set out in the non-statutory Guidance for Householders to ensure there is no unreasonable loss to neighbouring amenity with respect to privacy, overshadowing and loss of daylight or sunlight.

The proposals comply with Local Development Plan Policy Des 12 and the non-statutory Guidance for Householders.

c) Equalities and human rights

The submitted documentation states that the retrospective proposal is for creation of a driveway for two cars combined with extended patio area to the front for the owner of Flat 2 1 Magdalene Drive who is registered disabled.

The application is retrospective, and the patio and driveway have already been constructed to the front of the flatted property.

The planning application raises matters of equality as the purpose of the driveway is to meet the identified needs of a disabled individual and this is a material planning consideration.

The Local Planning Authority has a legal obligation to have due regard to persons with protected characteristics under Section 149 - Public Sector Equality Duty of the Equality Act 2010. The Council in determining the planning applications under Section 25 of the Town and Country Planning (Scotland) Act 1997, must consider whether this material consideration outweighs any potential non-compliance with the Edinburgh Local Development Plan.

In terms of equalities there are merits to the scheme for the applicant. The design of the driveway with smooth level access would provide ease of use for users with mobility difficulties. The scale of the driveway has the potential to deliver a good standard of improving external standards of movement, appropriate for the use of this individual with protected characteristics.

Under Section 149 - Public Sector Equality Duty of the Equality Act 2010, the public authority must have due regard to the need to advance equality of opportunity between persons who share a protected characteristic and persons who do not.

In this case, the delivery of an accessible driveway and patio to the front to accommodate a person's disability has the potential to advance equality of opportunity between persons who share a protected characteristic and persons who don't.

In considering whether this material consideration outweighs any potential non-compliance with the Edinburgh Local Development Plan, a number of factors have to be considered. The works impact on the wider amenity of the neighbourhood by removing the green space.

Planning permission relates to the use of the land and it would not be appropriate to apply a personal consent to the future occupancy of a private flatted property as the driveway and patio area would then have to be removed when the applicant no longer lives there.

On balance, the non-compliance with the LDP and non-statutory guidance for householders is not outweighed by the benefits to an individual with a protected characteristic. As stated above, the proposal does not comply with the Guidance for Householders in terms of the extent of the hard standing, size of the access point and loss of green space. These substantial infringements would cause significant harm to the environment, the character of neighbourhood area and sustainability.

Because it is a retrospective application there was no opportunity to amend the proposals. There would be scope to reduce the hardstanding area and to leave one parking space but given the works are complete, this was not an option for the applicant.

d) Public comments

The application has attracted one comment in support.

e) Other Material Consideration

SPP Sustainable Development

Scottish Planning Policy presumption in favour of sustainable development is a significant material consideration due to the development plan being over 5 years old.

Emerging Policy Context

NPF 4 - Draft National Planning Framework 4 is being consulted on at present. As such, it has not yet been adopted. Therefore, little weight can be attached to it as a material consideration in the determination of this application.

City Plan 2030 - While the proposed City Plan is the settled will of the Council, it has not yet been submitted to Scottish Ministers for examination. As such, little weight can be attached to it as a material consideration in the determination of this application.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reasons

1. The proposal is contrary to the Local Development Plan Policy Des 12 in respect of Alterations and Extensions, as it impacts on the character of the building and is detrimental to the neighbourhood character.
2. The proposals are contrary to development plan policy on extensions and alterations as interpreted using the non-statutory Guidance for Householders as the access width and scale of hardstanding impacts on the property and the neighbourhood amenity.

Comment Reasons:

Comment: I wholeheartedly approve of Ms Campbell's plans for her garden. This garden has mainly been rather unkempt for the last few years. Ms Campbell has it looking lovely. It adds to the general ambiance of the building and I have had a number of visitors commenting on how nice it looked and what an improvement Ms Campbell has made to the garden since she moved in last year. This garden has not just improved to the benefit of the owners, but, I feel, to the building residents as a whole.
