

Licensing Sub-Committee of the Regulatory Committee

10:00am, Friday 9 June 2023

Present

Councillors Mowat (Convener), Caldwell, Dalgleish (substituting for Councillor Walker), Graham, Mattos Coelho and Neil Ross.

1. Low Emission Zone Network Mitigations – Representations to Traffic Regulation Orders and Redetermination Order

Details were provided of representations received following the public advertising of Traffic Regulation Orders TRO/23/04 and TEO/23/05 and Redetermination Order RSO/23/03 for Low Emission Zone network mitigations together with the Council's comments in response.

In accordance with the statutory scheme of delegation, as no statutory or material objections had been received, RSO/23/03 and TRO/23/05 had been granted as advertised.

Approval was sought to grant TRO/23/04 as advertised as more than six material objections had been received from the public.

Decision

- 1) To note that all representations received to the advertised Traffic Regulation Orders TRO/23/04, TRO/23/05 and Redetermination Order RSO/23/03 associated with LEZ network mitigations had been analysed by the Council.
- 2) To note that Traffic Regulation Order TEO/23/05 would now be approved as advertised as no material objections had been received.
- 3) To note that Redetermination Order RSO/23/03 would now be approved as advertised as no competent objections had been received.
- 4) To set aside the 17 representations to Traffic Regulation Order TRO/23/04 and approve making the Order as advertised.
- 5) To note that these Order did not prevent future strategic re-allocation of street space on Morrison Street and surrounding streets as set out in the emerging Circulation Plan and Edinburgh City Centre Transformation Programme.
- 6) To note there was no cycle provision eastbound along Morrison Street and to agree that officers engage further with the Active Travel team to explore best practice for installing signage to protect cyclists in the eastbound traffic lane.
