## **Recommendation**

It is recommended that this application be **Refused** subject to the details below.

## **Summary**

The change of use of this property to a Short Term Let will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

## Section B - Assessment

### Determining Issues

This report will consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

### Assessment

#### a) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4.

The relevant NPF4 and LDP 2016 policies to be considered are:

- NPF4 Sustainable Places Tackling the climate and nature crises Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- LDP Housing Policy Hou 7.
- LDP Transport Policies Tra 2 and Tra 3.

The non-statutory 'Guidance for Businesses' is a material consideration that is relevant when considering change of use applications.

### Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (b) and (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

The non-statutory Guidance for Businesses states that an assessment of a change of use of dwellings to a short term let will have regard to:

- The character of the new use and of the wider area;
- The size of the property;
- The pattern of activity associated with the use including numbers of occupants, the period of use, issues of noise, disturbance and parking demand and
- The nature and character of any services provided.

In connection to short term lets it states, "The Council will not normally grant planning permission in respect of flatted properties where the potential adverse impact on residential amenity is greatest".

### *Amenity*

The property is located within a residential area, with both ground floor and first floor neighbouring properties. The property is accessed via a shared stair that is used by one further property.

The use as a short term let would allow visitors to come and go from the premises for inconsistent periods of time on a regular basis throughout the year in a manner

dissimilar to that of permanent resident. When staying at the property, guests can come and go frequently throughout the day and night impacting on the amenity of immediate residential occupants. Temporary visitors are likely to have less regard for the local amenity.

This increase in frequency of movement to the flat at unpredictable hours would damage the amenity of the immediate neighbours and adjacent properties.

A change of use would increase the level of ambient background noise beyond what is reasonably expected by neighbouring residents and will have a significant detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

#### *Loss of residential accommodation*

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

However, having the property within residential use would also contribute to the economy, through the use of a variety of local services and employment opportunities across the City. Long term residents also have the ability to make consistent and long-term contributions to the local community.

The proposal would result in the loss of residential accommodation. There is a recognised need and demand for housing in Edinburgh, therefore, it is important to retain the existing supply where appropriate.

The applicant provided a planning statement in support of the proposal in relation to NPF4. The statement commented that tourists spending is around 5% of GDP in Scotland, visitors to the apartment support local businesses and that the current housing demand stimulates development.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

#### Parking Standards

There is no vehicle parking and no cycle parking. Zero parking is acceptable as there are no parking requirements for STLs. Cycles could be parked inside the property.

The proposals comply with LDP Policies Tra 2 and Tra 3.

#### **Conclusion in relation to the Development Plan**

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

**b) There are any other material considerations which must be addressed?**

The following material planning considerations have been identified:

Emerging policy context

City Plan 2030 represents the settled will of the Council, and it has been submitted to Scottish Ministers for examination. As such, limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Public representations

The application did not receive any public representation.

**Conclusion in relation to other material considerations**

The proposals do not raise any issues in relation to other material considerations identified.

**Overall conclusion**

The change of use of this property to a Short Term Let will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

**Section C - Conditions/Reasons/Informatives**

The recommendation is subject to the following;

**Conditions**

1. No conditions are attached to this consent.

## **Reasons**

### **Reason for Refusal**

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short stay let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short stay let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified.

11/1/23.

Dear Sir/Madam,

Application No 22/6124/FULL  
Flat 2 10 Hillcoat Loan  
Edinburgh EH15 1UA

I have just returned from holiday in New Zealand and received your letter dated 13<sup>th</sup> December 2022, regarding planning permission for Flat 2, 10 Hillcoat Loan, Edinburgh EH15 1UA by Mr Wylie, for use as a short term let.

I left Edinburgh on 18<sup>th</sup> December '22, informed Mr ~~Wylie~~ Wylie of my holiday plans, He did not mention this application.

Generally speaking, I would object to this application, It is the flat above me and depending on the occupants there is a variable amount of noise - children are worse - running and stamping on the wooden floor - up to 1am at times and there is a possibility of people partying into the night!

However, an owner/occupier may produce the

some amount of noise;

I have in the past, commented to Mr White  
about noise problems and had a negative

response;

So, my reaction is to object to this proposal.  
As someone of rather advanced years, I don't  
wish a lot of disturbance and possibly noise  
and disruption in my life.

Thank you

~~Yours~~

Yours sincerely,
