Decision date: 12 October 2023

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect). This property is available for letting all year.
At 1F1 6 High Street Edinburgh EH1 1TB

Application No: 23/03731/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 31 August 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling

as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01 - 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The change of use of this property to a short term let (STL) will have an adverse impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Benny Buckle directly at benny.buckle@edinburgh.gov.uk.

Chief Planning Officer
PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Report of Handling

**Application for Planning Permission STL
1F1 6 High Street, Edinburgh, EH1 1TB**

Proposal: Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect). This property is available for letting all year.

**Item – Local Delegated Decision
Application Number – 23/03731/FULSTL
Ward – B11 - City Centre**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The change of use of this property to a short term let (STL) will have an adverse impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

SECTION A – Application Background

Site Description

The application property is a two-bedroom, first floor flat, situated in a traditional five-storey tenement at 1F1 6 High Street. The immediate area is mixed use in character with both residential and commercial uses. At ground level of the site is The World's End pub, with the immediate ground floor uses in commercial use.

The property is accessed via a shared ground floor front door and communal stair which also serves three further residential properties.

The property is a category 'B' listed building (29055) designated on the 14/12/1970 and is located within the Old Town Conservation Area and Edinburgh's World Heritage Site.

Description Of The Proposal

Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect).

Section B - Assessment

Determining Issues

Due to the proposals relating to a listed building(s) and being within a conservation area, this report will first consider the proposals in terms of Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 (the "1997 Heritage Act"):

- a) Is there a strong presumption against granting planning permission due to the proposals:
 - (i) harming the listed building or its setting? or
 - (ii) conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?

- b) If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

a) The proposals harm the listed building and its setting?

The following HES guidance is relevant in the determination of this application:

- Managing Change in the Historic Environment: Guidance on the principles of listed buildings
- Managing Change in the Historic Environment: Setting

Managing Change in the Historic Environment: Interim Guidance on the principles of listed building consent sets out the principles for assessing the impact of a development on a listed building.

Managing Change in the Historic Environment: Setting sets out the principles that apply to developments affecting the setting of historic assets or places including listed buildings and conservation areas. It includes factors to be considered in assessing the impact of a change on the setting.

There are no external or internal alterations proposed. As such, the proposal will not have an adverse impact on or cause harm to the listed building. The setting of the listed building and the setting of neighbouring listed buildings will be unaffected by the proposal.

Conclusion in relation to the listed building

The proposal does not harm the character of the listed building, or its setting. It is therefore acceptable with regard to Section 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

b) The proposals harm the character or appearance of the conservation area?

Section 64(1) of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states:

"In exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area."

The Old Town Conservation Area Character Appraisal emphasises *"the survival of the original medieval street pattern; the wealth of important landmark buildings; the survival of an outstanding collection of archaeological remains, medieval buildings, and 17th-century town houses; the consistent and harmonious height and mass of buildings; the importance of stone as a construction material for both buildings and the public realm; the vitality and variety of different uses; and the continuing presence of a residential community."*

There are no external alterations. The change of use from a residential premises to a short term let will not have any material impact on the character of the conservation area. The change of use would preserve the appearance of the conservation area.

Conclusion in relation to the conservation area

The proposals comply with Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

c) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4.

The relevant NPF4 and LDP 2016 policies to be considered are:

- NPF4 Sustainable Places Tackling the climate and nature crises Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- NPF4 Historic Assets and Places Policy 7.
- Local Development Plan Housing Policy, Hou 7.
- Local Development Plan Transport Policies, Tra 2 and Tra 3

The non-statutory Listed Building and Conservation Area Guidance is a material consideration when considering NPF 4 Policy 7.

The non-statutory Guidance for Business (April 2023) is a material consideration that is relevant when considering LDP Policy Hou 7 and the Edinburgh Design Guidance is a material consideration when considering LDP Policies Tra 2 and Tra 3.

Listed Buildings, World Heritage Site and Conservation Area

The impact on the setting of the listed building and on the setting of neighbouring listed buildings has been assessed in section a) above which concluded that this would be preserved.

There are no external or internal works proposed and as such there will not be a significant impact on historic assets and places.

The proposal complies with NPF 4 Policy 7.

Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

The non-statutory Guidance for Businesses (2023) states that an assessment of a change of use of dwellings to a short term let will have regard to:

- The character of the new use and of the wider area;
- The size of the property;
- The pattern of activity associated with the use including numbers of occupants, the period of use, issues of noise, disturbance and parking demand and
- The nature and character of any services provided.

Amenity

The property is a two-bedroom, first floor flat, located within a five storey, traditional tenement property with commercial use at ground floor level. Access to the dwelling is via a narrow-shared stair and communal ground floor front door that is enveloped by a commercial unit, The World's End Pub. The shared access is used by a further three residential properties.

The character of the local area is mixed use with residential units located above ground level with commercial uses at street level. The immediate area has high levels of vehicular and pedestrian traffic and is busy in nature.

The use as a short term let would allow visitors to come and go from the premises for inconsistent periods of time on a regular basis throughout the year in a manner dissimilar to that of a permanent resident. A transient visitor may also have less regard for neighbours' amenity than individuals using the property as a principal home. The use as a short term let is not consistent with the existing neighbouring residential uses. The properties access via a shared stair and communal front door intensifies the effect that short term let use would have on the immediate residential amenity.

A change of use would increase the level of ambient background noise beyond what is reasonably expected by neighbouring residents and will have a significant detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

The applicant provided a planning statement which noted the following. The short term let use would support the local economy by providing quality accommodation to visitors that they would otherwise not be able to afford to visit Edinburgh. If refused the applicant's business would be detrimentally affected as well other small local businesses that rely on the associated footfall. It is believed that Edinburgh's Fringe Festival would not be viable without this style of accommodation. The short-term use of the flat would not affect the current housing shortages as the noise disturbance from the pub below is too great for residential occupancy.

The lawful use of the property is residential and the proposed change of use to STL would result in a loss of residential accommodation. As there is a recognised need and demand for housing in Edinburgh, it is critical to retain the existing supply where appropriate.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

It is important to recognise that having the property within residential use also contributes to the economy, using local services and fulfilling employment opportunities across the City. Long term residents can also make consistent and long-term contributions to the local community.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

Parking Standards

Zero parking is acceptable as there are no parking requirements for STLs. Cycles could be parked inside the property.

The proposals comply with LDP Policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole

from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

d) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

City Plan 2030 represents the settled will of the Council, and it has been submitted to Scottish Ministers for examination. As such, limited weight can be attached to it as a material consideration in the determination of this application.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Public representations

The application received three representations, two objections and one supporting. A representation was received from The Old Town Community Council. A summary of the representations is provided below:

material considerations in objection

- Objection that the short term let use would remove a long-term residential property from Edinburgh's housing stock. This has been assessed within section c).
- An objection that short term let use would have a detrimental effect on neighbouring residential amenity. This has been assessed within section c).

non-material considerations in support

- Short term let use supports workers, tourists and people renovating their homes to stay in flexible accommodation.

non-material considerations in objection

- Concern that the short term let would lead to a loss of income to the City of Edinburgh Council who provide free servicing (rubbish collection) to properties such as this.

Conclusion in relation to identified material considerations

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The change of use of this property to a short term let will have an adverse impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.

Proposal: Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect). This property is available for letting all year.

Case Officer: Benny Buckle

Customer Details

Name: Mrs Elspeth Wills

Address: 3 Browns Place Edinburgh

Comment Details

Commenter Type: Community Council

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The Old Town Community Council wishes to object to this new application.

Our grounds of objection are as follows:

The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short stay let will have a materially detrimental effect on the living conditions and amenity of nearby residents.

The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short stay let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified.

Shortage of housing to buy or rent is a real issue throughout Edinburgh as acknowledged by both by the current and 2030 national planning guidelines. This is particularly true of the Old Town where the voters' roll has fallen to its lowest level ever and one in three properties is now a STL. The proliferation of STLs has damaging effects not only on neighbours (Hou 7) and on building maintenance but on whole communities. Judging by the neighbour notification list there are still a few residents surviving in the area.

STLs bring few benefits to the local economy or community as most visitors stay for only 2-3 nights to have fun in the city centre.

Many properties are at the heart of the World Heritage site.

Loss of income to the Council who maintains essential services such as rubbish collection free of charge. Housing should be seen as a place for people to live in not as an investment.

We urge that this and all STL applications are turned down.

Yours sincerely

Elspeth Wills

Case Officer: Benny Buckle

Customer Details

Name: Ms OLD TOWN ASSOCIATION

Address: 1 Trunks Close, 55 High Street, Edinburgh EH1 1SR

Comment Details

Commenter Type: Amenity Body

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The Old Town Association objects to the loss of residential in the Old Town, particularly to short-term lets (STLs). STLs take residential property out of the housing stock, exacerbating the current housing shortage. STLs adversely affect the amenity of existing housing by constant comings and goings, with heavy luggage being dragged up and down stairs and by those staying being in holiday mode and inconsiderate of neighbours. STLs make residents feel less safe in their own homes as they are always meeting strangers in their shared access and common ground. STLs can affect the maintenance of buildings as there are fewer residents to note faults and organise repairs as required.
