406 Websters Land is a 1-bedroom apartment within a residential development consisting of 116 apartments each with their own private doorway. The apartments are accessed from external walkways linked by 2No common stairs.

The property has been utilized as a short-term let to tourists, students and individuals visiting Edinburgh for short term periods on holiday, course work or work for a minimum stay of 3 nights on each occasion.

The property is exclusively advertised on the Airbnb platform with a maximum occupancy of 4 persons and a minimum stay of 3 nights. Each guest is reviewed and verified by Airbnb as part of their policy.

The property has not been altered in any way to affect its external appearance.

Websters Land is situated within the centre of Edinburgh's old town and surrounded by various bars, cafes, restaurants, and student / visitor accommodation. The use of the property for short-term letting is therefore considered appropriate for its location as in keeping with the variety of property uses in an area that requires and benefits from tourism and relevant accommodation.

The property has been continuously used for the past 4 years with no complaints received from neighbours or instances of excess noise or disturbance. This is likely due to the nature of the external walkways and private entrances resulting in lower-than-expected noise levels in communal areas. The low number of guests permitted to stay at the property at any one time is also a contributing factor and we as owners manage the property to ensure that the guests respect house rules and neighbouring residents.

The level of refuse generated by using the property for short-term letting is significantly lower than what is generally produced by a full time resident due to guests often eating out in local restaurants and cafes.

Most guests use public transport when visiting the city and on the odd occasion that they do, are encouraged to utilize the park and ride facilities at the edge of the city to reduce any impact of congestion levels.

Due to the property being used for the past 4 years on a short-term let basis, the granting of the application would not have a direct adverse effect on current available housing in the area.

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Change of use from residential to short term let (in retrospect).
At 406 Webster's Land Edinburgh EH1 2RX

Application No: 23/03777/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 31 August 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this property as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework 4 Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this

property as a short term let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01, 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The change of use of this property to a short-term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Lesley Porteous directly at lesley.porteous@edinburgh.gov.uk.

PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The change of use of this property to a short-term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

SECTION A – Application Background

Site Description

The application site is a one bedroom flat at 406 Webster's Land in the West Port. The property shares its access to West Port via a communal stair and a secure gated access.

Webster's Land is a large residential development comprising around 116 individual flats. It is in a mixed use area just off the Grassmarket. The Grassmarket has a high concentration of cafes, restaurants and bars. Public transport links are easily accessible from the site.

The site lies within the Old Town Conservation Area and the Old and New Towns of Edinburgh World Heritage Site.

Description Of The Proposal

The application is for a change of use from residential to short term let (sui-generis). No internal or external physical changes are proposed. The applicant has advised that the property has been used as a short term let since 2022. Therefore, the application is retrospective.

Section B - Assessment

Determining Issues

Due to the proposed development falling within a conservation area, this report will first consider the proposals in terms of Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997:

- Is there a strong presumption against granting planning permission due to the development conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?
- If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

a) The proposals harm the character or appearance of the conservation area?

Section 64(1) of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states:

"In exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area."

The Old Town Conservation Area Character Appraisal emphasises the survival of the original medieval street pattern; the wealth of important landmark buildings; the survival of an outstanding collection of archaeological remains, medieval buildings, and 17th-century town houses; the consistent and harmonious height and mass of buildings; the importance of stone as a construction material for both buildings and the public realm; the vitality and variety of different uses; and the continuing presence of a residential community.

There are no external changes proposed. The change of use from a residential premises to a short term let will not have any material impact on the character of the conservation area. The change of use would preserve the appearance of the conservation area.

Conclusion in relation to the conservation area

The proposals are acceptable with regard to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

b) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are

superseded by equivalent and alternative policies within NPF4. The relevant policies to be considered are:

- NPF4 Sustainable Places Policy 1.
- NPF4 Heritage Assets and Places Policy 7.
- NPF4 Productive Places Tourism Policy 30.
- LDP Housing Policy Hou 7.
- LDP Transport Policies Tra 2 and Tra 3.

The non-statutory 'Listed Buildings and Conservation Area' guidance is a material consideration that is relevant when considering historic assets.

The non-statutory 'Guidance for Businesses' (2023) is a material consideration that is relevant when considering change of use applications.

Conservation Area and Edinburgh World Heritage Site

There are no external or internal works proposed and as such there will not be a significant impact on historic assets and places. The proposal complies with NPF 4 Policy 7.

Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

The non-statutory Guidance for Businesses (2023) states that an assessment of a change of use of dwellings to a short term let will have regard to:

- The character of the new use and of the wider area;
- The size of the property;
- The pattern of activity associated with the use including numbers of occupants, the period of use, issues of noise, disturbance and parking demand and
- The nature and character of any services provided.

Amenity

This one-bedroom property is part of a five-storey residential block of 116 units. The entrance door of the flat is connected to the shared entrance gate by a series of external walkways that are linked by internal stairways. These are communal.

The applicant has submitted a statement to address the NPF 4 policies. In terms of amenity the applicant asserts that this is a one-bed flat, where a minimum of three nights and only a maximum of four guests is allowed. The statement highlights that the

property is in the centre of the old town surrounded by bars, cafes, restaurants and student accommodation. The applicant is also unaware of any complaints made against the STL use.

There is a mix of uses in the surrounding area and as such there is a fairly high ambient noise level. Consequently, the introduction of an STL use in this location will have no further deterioration in the amenity of the surrounding area. However, the use of the property as an STL would introduce an increased frequency of movement to the property. The proposed one bedroom STL use would enable visitors to arrive and stay at the premises for a short period of time on a regular basis throughout the year in a manner dissimilar to that of permanent residents. There is no guarantee that guests would not come and go frequently throughout the day and night, and transient visitors may have less regard for neighbours' amenity than individuals using the property as a principal home. There could also be a negative impact on residents' security.

The additional servicing that operating a property as an STL requires compared to that of a residential use is also likely to result in an increase in disturbance, further impacting on neighbouring amenity. However, this would be of lesser impact as it is likely that servicing would be conducted during the daytime.

The potential for noise to be generated as described would be significantly different from the ambient background noise that neighbouring residents might reasonably expect and will have a significantly detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

The applicant's planning statement asserts that due to the property already being used for STL use this would not have a negative impact on the loss of housing in the area.

The current lawful use of the property is for residential accommodation. Consequently, the use of the property as an STL would result in a loss of residential accommodation, which given the recognised need and demand for housing in Edinburgh is important to retain, where appropriate.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

Car Parking

There is no off street car parking available within the site. As the site is in the heart of the Old Town car use is discouraged. The site is accessible to public transport. There are no cycle parking standards for STLs. Bikes could be parked within the property if required. The proposals comply with LDP policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7

c) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

City Plan 2030 represents the settled will of the Council, and it has been submitted to Scottish Ministers for examination. As such, limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering

generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Public representations

Five objections received. One from the Old Town Community Council and one from Tollcross Community Council.

A summary of the representations is provided below:

material considerations

- Negative impact on residential amenity (including security). Addressed in b) above.
- Negative impact on housing stock. Addressed in b) above.
- STLs bring few benefits to the local economy. Addressed in b) above.
- Contrary to LDP Policy Hou 7. Addressed in b) above.
- Contrary to NPF 4 Policy 30 (e). Addressed in b) above.

non-material considerations

- Contradicts Edinburgh City Plan 2030. Addressed in c) above.
- Increases litter and is a burden on refuse collection services. The applicant should agree a waste strategy with CEC's Waste Services.
- Encourages anti-social behaviour. This is a Police Scotland matter.
- STL properties can be overcrowded. This is a licensing issue.
- Too many STLs in the area. Each application must be considered on its individual merits.
- Detrimental to mental health of residents. This is not a material planning consideration.

Conclusion in relation to identified material considerations

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this property as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework 4 Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this property as a short term let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified.
