2 Pennywell Place, Edinburgh EH4 4FT Appeal Statement

Planning Appeal Statement. _

This Appeal Statement has been prepared by b3a, on behalf of the owner, Satyavik Property Ltd, in relation to a retrospective planning application which has been refused for the change of use of this property from a dwelling to a STL.

Reasons for Refusal

1 The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this property as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.

2 The proposal is contrary to National Planning Framework 4 Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this property as a short term let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified.

Comments on refusal

1 The reason for refusal is that. “ *a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents*”

This comment is based upon the **assumption** that visitors using this facility will as quoted within the Report of Handling “ *The use of the property as an STL would result in an increased frequency of movement to the property, representing a pattern of movement that would be dissimilar to that of permanent residents. A transient visitor may also have less regard for neighbours' amenity than individuals using the property as a principal home, with resultant negative amenity impacts, particularly at night. The potential amenity impacts of the use of the property as an STL are amplified by the property's access to a private rear garden area.* “

The reasons given above are, it would have to be assumed, is on the basis of a general opinion on this type of property, which is largely unfounded and accentuated by misinformation on social media, as this is a two bedroom main door house with, on average 4 occupants. who are holidaying in Scotland and will therefor be out most of the day enjoying the sights and sounds of their holiday and not trailing back and forth to their property as insinuated in the statement. It must also be emphasised that there is an assumption within the Report of Handling that all the local residents do not engage in anti-social behaviour and that all holidaymakers will, which is not based on reality and gives a negative impression of tourists visiting the city. The vast majority of tourists act in a reasonable manner, but unfortunately the few who do misbehave get published in the local press and social media and is vastly misrepresented throughout the city.

The Report of Handling states that an “ *the proposed change of use would increase the level of ambient background noise beyond what might be reasonably expected by neighbouring residents, and have a significant detrimental effect on the living conditions and amenity of nearby residents* “

, again there is a presumption that tourists will be anti-social and residents not, do residents not make a noise, have parties, have deliveries of take aways, parcels and supermarket shopping at unsociable hours ?

As stated within the planning statement the minimum term for staying at this premises is 3 days, the applicant is also prepared to insist that tourists arriving and departing do so between the hours of 8:00 - 21:00 to remove the possibility of disturbance overnight. Again within the report the assumption is that the guests will be irresponsible in their behaviour and that residents are not, this is again a generalisation which is unjustified, most tourists will act in a reasonable manner trying not to invade the privacy of residents as we do as a family when we have used similar facilities all over Europe making sure we do not effect the local community cohesion and safety . I am sure some residents work late shifts, arrive late home with friends etc.

The advantage of having a properly run licence regime is that should a property have consistent issues within the local community the licence can be revoked which is not so easily done in the rented or ownership sectors.

As each application is judged upon its own individual merits, this item of refusal goes against that principle as it is taking a generalisation as a reason for refusal. This presumption is similar to saying that you should ban all taxis as they may disturb people in their homes at night.

2 *“ the use of this property as a short term let will result in an unacceptable impact on local amenity and the loss of a residential property has not been justified “*

This two bedroom main door end of terrace house will not have any impact on the local amenities whatsoever, the local services and employment will all benefit from the tourists using these facilities and the guests will spend more over a year than would normally be attributed to a resident. In regard to the loss of a residential unit, this is on the assumption that someone working locally can afford the rent and council tax for this property which in most cases is unlikely and the root of the issue is the lack of affordable housing within the city. This property will not be coming back to the market as a rented property or for sale as the owners will leave the property vacant, if not granted approval.

Comments

During the consultation period for the planning application there were nine comments received from the public:

1 Objection from Mr N Mair, 1 Sharp Street, Edinburgh

This objection states “ ***in some instances*** “ there was notable noise and disturbance from this property, there is no list of when this occurred and we assume it was not of a level that the local authority or police have been informed of this nuisance, so we can assume it was no worse than any other occupier having a party or gathering in their back garden during fine summer weather ?

The remainder of the objection is a personal opinion and not based upon planning grounds.

2 Objections from Mrs Eleanor Veitch, 3 Sharp Street, Edinburgh

This objection is a personal opinion and does not present any planning grounds for an objection.

Recent Court Case :

As has been reported a recent court ruling by Lord Braid has stated that short term let properties which have been in use since September 2022 should not require planning approval to apply for a STL Licence, as the Scottish Parliament did not intend it to be applied to all properties. We assume the planning department will take this ruling on board.

Conclusion

This two bedroom main door end of terrace house will have minimal impact on the local community and as such will provide a good standard of accommodation for tourists and is already set up to comply with the licence and fire assessments and will not provide any disruption or disturbance to the neighbouring properties or residents any more than is already present.

A balance has to be struck between residents and STL properties if the council wish to maintain the number of tourists who visit the city who cannot afford to stay in luxury hotels, otherwise the income produced by tourists will decline and will effect the local businesses and income for the council.

We would recommend you approve the use of this small house for use as a STL to ensure the future viability of Edinburgh as a major tourist destination in which local residents and tourists can enjoy each others experiences.
