# Introduction and approach

### Introduction

In line with the Internal Audit Charter, Internal Audit provides independent and objective assurance on the overall effectiveness of the Lothian Pension Fund's (LPF) governance, risk, and control frameworks.

This document sets out the scope of the Internal Audit 2024/25 annual plan with the objective of delivering independent assurance on the key controls established across the LPF group to mitigate high and moderate risks.

### **Approach**

The approach to preparing the annual plan is set out at Figure 1. The plan is driven by LPF's objectives and priorities, and an assessment of the risks that could prevent LPF from meeting its objectives.

The audit universe includes the LPF group structure and provide assurance for the LPFI and LPFE Boards where appropriate.

LPF's Business Plan centres around the following four broadly defined strategic goals:

- develop and deliver a member and employer proposition for service excellence
- earn an appropriate risk adjustment investment return as responsible officers
- extend collaboration and services to existing partners and deepen where possible
- achieve greatness in our people, teams, and culture.

#### Other sources of assurance

Internal Audit is only one of several sources of assurance over the LPF groups risks. In developing our risk assessment and plan we have considered other sources of assurance and have considered the extent to which reliance can be placed upon these other sources (for example, external audit, BDO, Mercer and LPF's Risk and Compliance function).

IA does not intend to place formal reliance upon these other sources of assurance but would not seek to duplicate the work they do. Key stakeholders including senior management, committee members and external audit (Azets) have been invited to provide input into the IA annual plan to help ensure that the relevant areas are targeted for review.

Figure 1: Approach to developing the 2024/25 IA Annual Plan								
Step 1 Understand LPF's corporate objectives	Review the LPF business plan to understand strategic objectives and priorities.							
Step 2 Review LPF's risk profile	Review the LPF's risk profile, risk appetite and consider any other external and internal risks that could impact LPF.							
Step 3 Consider the audit universe	Identify all auditable areas across LPF.							
Step 4 Consider other sources of assurance provided	Consider other sources of assurance across the audit universe and the extent to which reliance may be provided on such work.							
Step 5 Consult with key stakeholders	Consult with key stakeholders to ensure areas which may be of risk to operations are considered for inclusion within the IA work programme.							
Step 6 Determine the audit plan	Based on the outcomes of steps 3, 4 and 5, determine the timing and scope of audit work required.							

Consider any requirements in addition to those

identified from the risk assessment process.

## Risk Assessment

To ensure a risk-based approach to the LPF Group IA annual plan which is proportionate and aligned to business-critical risks and emerging issues, consideration was given to the LPF group's priorities as detailed in the <u>2023-24 Business Plan</u>.

LPF undertook a comprehensive review of its Risk Management Framework during 2023 which resulted in a simplified methodology and revised risk registers. The IA risk assessment considered the LPF group risk profile as at January 2024 (Table 1). All high and moderate risks (a total of 15 risks) were reviewed, together with the outcome of previously completed audits, other assurance sources and key regulatory requirements (Table 2).

## 2024/25 Internal Audit Plan

The following table sets out the LPF internal audit work programme for the period 1 April 2024 to 31 March 2025. Reports detailing outcomes of each review will be presented to the Pensions Sub-Committee. Reviews completed for LPFI/LPFE will also be presented to the relevant Board.

While the audit plan includes a short summary of the area proposed for review, IA will meet with key officers prior to commencing each audit to further understand the key risks and to develop and refine the scope of each review. It should be noted, that if areas are identified during testing that are outwith scope but impact the risk and control framework, findings and recommendations will still be raised and reported on, where appropriate.
