Education, Children and Families Committee

10am, Tuesday,16 April 2024

Commissioning and Contract Management Update

Executive/routine Wards

1. Recommendations

- 1.1 The Education, Children and Families Committee is asked to:
 - 1.1.1 Note the ongoing work being undertaken by Children, Education and Justice Services Directorate to review all third party spend.
 - 1.1.2 Note the actions implemented towards an integrated partnership approach to ethical commissioning, as directed by Scottish Government.
 - 1.1.3 Note the steps taken in relation to the contracts reviewed in 23/24 financial year:

1.1.3.1 no early termination of contract is proposed.

- 1.1.3.2 no service has ended as a result of a contract coming to an end.
- 1.1.4 Note there is active contract planning for those contracts coming to an end between April and December 2024. A briefing will be arranged in May to consider the current contract planning and tender strategies.
- 1.1.5 Note the next update report will be submitted in October 2024

Amanda Hatton

Executive Director of Children, Education and Justice Services

Contact: Laura Zanotti, Commissioning Manager

Report

Commissioning and Contract Management Update

2. Executive Summary

2.1 This report provides an overview of the current commissioning and contract management activity in the Children, Education and Justice Services Directorate, including the actions taken to streamline the monitoring of the spend and forecast to support budget process and service planning.

3. Background

- 3.1 The Children, Education and Justice Services (CEJS) third party revenue budget equates to £90m over approximately 170,000 transactions per annum.¹
- 3.2 This budget is committed to a number of contracts, grants and service level agreements, whilst a minor percentage of this spend is non-compliant (approximately 5%, see table below). Work is currently underway to ensure due diligence, best value and compliance across all areas of the Directorate, in collaboration with Commercial and Procurement Services (CPS).
- 3.3 The need to review the current landscape of third-party agreements has been discussed at November Education, Children and Families Committee, who agreed the plan and requested an update report in April.
- 3.4 Consideration has been given to all contracts due to end in financial year 23/24 and those coming to an end between April and December 2024. In collaboration with Finance and Commercial & Procurement Services, the scope has been widened to include the non-contracted spend whose visibility and scrutiny tend to be more complex.

4. Main report

4.1 Commissioning flows from strategic planning and population need whilst responding promptly to new policy and legislative changes. Innovation and improvement must be key elements of all commissioning processes.

¹ Details are provided in Appendix 1. Due to the large volume of data, it is recommended to access the document via the link provided in paragraph 10.1 which shows all City of Edinburgh regulated contracts.

- 4.2 To ensure that the limited resources are being utilised in the best interests of Edinburgh's children, young people and their families, officers agreed at ECF Committee to actively plan in advance and avoid automatically extending contractual arrangements when they come to an end. All agreements are being reviewed and assessed against the contract performance, the need and required model of delivery.
- 4.3 Whilst planning activities are progressing, contract and grant opportunities are published and widely communicated through all available channels, including Joint Commissioning Group, Children's Partnership and third sector network.
- 4.4 Alongside the review of existing compliant agreements, the recently created Strategic Planning and Commissioning Team has been tackling the non-contracted, non-compliant spend which represents a high risk to the organisation. The graph below shows the proportion of non-contracted spend in December 2023.

4.5 The table below demonstrates the successful impact of the directorate's collective efforts in collaboration with CPS. There has been a reduction of departures from Contract Standing Orders of approximately 80% since financial year 21/22.

- 4.6 It is noted that reducing the risk of non-compliant spend has been a priority for CEJS. During contract planning it has however come to light that the financial risk to the Council is also high for first generation contracts. Whilst inflation remains unpredictable and above Government targets, best value may be achieved through short term agreements. The optimum balance between quality and price over the life of the contract must take into consideration the Council's recent Medium Term Financial Plan (MTFP) and focus on delivering within budgetary constraints. This also includes careful consideration of fully compliant routes via national frameworks that, whilst convenient and quick to implement can sometimes be more expensive than alternate, longer and more complex routes to market.
- 4.7 Accordingly, a small number of extension and waivers are still being presented for approval. Pending continuous and further development, as soon as inflation rates become stable, and resources are available, we shall look at tendering for these few extensions and waivers.

Any departure from CSOs, however, will continue to be in the best interest of the children, young people and their families, and consequently of the Council itself. It is worth noting that in accordance with Contract Standing Orders, an extension of up to four months can be granted within Director's delegated authority if a tender process or contract negotiations are currently in progress and a contract award and contract commencement is anticipated within four months.

- 4.8 A third strand of the work being undertaken relates to encouraging a consistent use of corporate terms and conditions in one-off agreements. The Commissioning Team has offered support to all schools and the individual teams across the Directorate to ensure that existing providers of services sign up to CEC corporate terms and conditions.
- 4.9 The main approach to tightening control and rationalising the supplier base to direct available resources to focus on quality assurance and performance, still requires teams in the Localities and Learning Communities to access services as appropriately and as flexibly as required. Multi-provider frameworks offer the flexibility the City of Edinburgh Council needs to meet the requirement timely, locally, and effectively within budget. This approach promotes the uniqueness of each child and their experience.
- 4.10 Over the last 9 months, two major flexible purchasing frameworks have been awarded to support the delivery of services for Children and Young People: <u>Sports and Physical Activities</u> and <u>Accredited Pathways and Certified Counsellors and Therapists</u>.²
- 4.11 Extensive co-production has been carried out for both projects which has enabled

² Following the award of the Sports and Physical Activities Framework (June Finance & Resources Committee), further consultation and co-production with internal and external stakeholders identified the need for a framework that meets the needs of delivering the Experiences and Outcomes (E's and O's) to support young people in their journey for Accredited Pathways. Therefore, a framework that was split into two lots was proposed. Lot 1: Accredited Pathways; Lot 2: Certified Counselling and Therapies

new small and micro-organisations to apply in a more flexible manner. The projects have been praised by the sector for the exceptional level of support provided by the Council during the engagement and application process.

- 4.12 Monitoring processes for these frameworks are being reviewed with the aim to coordinate the data on outcomes received from schools and recorded in their 2024/25 PEF plans.
- 4.13 The contracts that have been reviewed in financial year 23/24 are listed in Appendix 2, which also includes details of new awards or alternative provisions where applicable.
- 4.14 The below table shows the main projects the team will focus on over the next quarter:

Statutory Bodies (NHS, Other Local Authorities, Police etc)	These agreements should be recorded on the Service Level Agreement (SLA) Register and monitored in collaboration with Corporate Governance.	Review of these agreements is ongoing, with a focus on realigning shared responsibilities. If the agreement addresses a requirement that is out with the Council's remit to deliver, and whose responsibility should lie with another partner, we will bring this to the Children's Partnership attention to allow joint consideration of needs. Any Service Level Agreement for shared responsibilities will be discussed with the Joint Commissioning Group with the aim to achieve efficiencies when pooling budgets.
Whole Family Wellbeing Fund	Grant programme is open for applications. Decision making process lies with Edinburgh Children's Partnership.	The role of the team will be key in linking the new transformational services with the existing provisions to inform commissioning for outcomes.
Residential Care and Special Schools Framework	Both the National Framework (SXL) and CEC Framework are recorded on the contract register.	CEC Residential Care, Special Schools and Supported Accommodation Framework ends in July 2024. Indicative value £12m per annum. The

		new tender is progressing, however changes to the provision of residential care linked to our improvement plan will impact on the service specification and the timescales. F&R approval to extend the current framework and an individual contract for a similar provision will be sought before the summer.
Fostering and Continuing Care Framework	Contract end date is 31 st March 2025.	Market engagement is underway for the new tender process. Indicative value £9m per annum.
Community Mental Health contracts	Contract end date is 10 th October 2024. Decision making process lies with Edinburgh Children's Partnership.	Planning for next steps is taken forward by the multi- agency Strategic Implementation Group
Holiday support for disabled children and young people contracts	Contracts were awarded in June 2023 for a period of three years.	A review of the provision is required. A briefing will be arranged ahead of June Committee report.

5. Next Steps

- 5.1 As the work progresses, the contract register will be updated regularly. Some of the changes being implemented from April 2024 may not be recorded yet. The link provided in paragraph 10.2 will apply when the update is released.
- 5.2 Early termination of contracts continues to be discouraged unless underperformance issues are evidenced. As agreed in the recommendations of the <u>November ECF</u> <u>Committee report</u>, if a recommendation is made to end a contract before its natural end, an Integrated Impact Assessment will be circulated to ECF Committee Members for consideration.
- 5.3 Work will continue to prioritise our children, young people and their families, to ensure the limited resources are directed where the need is greatest. Statutory and critical services will continue to be protected, although the model of delivery may change. If so, when the decision is made, an Integrated Impact Assessment is completed prior to the implementation of the revised model.

- 5.4 Work is ongoing to develop a single monitoring format to build closer relationships with the providers, including the recipients of grant funding. The aim is to align the service provision with the need, through more detailed data collection and SIMD heatmaps.
- 5.5 Due to the ongoing organisational reviews in the Directorate, it is anticipated that changes may not be finalised until such reviews are completed.

6. Financial impact

6.1 Contract reviews and new awards are being progressed within budgetary provision. Relevant financial details of the contracts awarded and extended can be found in appendices 2.

7. Equality and Poverty Impact

7.1 Any impact on equality and human rights, environment and climate change, economy including socio-economic disadvantage will be assessed and mitigating measures identified and implemented where applicable.

8. Climate and Nature Emergency Implications

- 8.1 The City of Edinburgh Council declared a Climate Emergency in 2019 and committed to work towards a target of net zero emissions by 2030 for both city and corporate emissions and embedded this as a core priority of the City of Edinburgh Council Business Plan 2023-27. The City of Edinburgh Council also declared a Nature Emergency in 2023.
- 8.2 Climate change was identified as relevant to the procurement exercises described in this report. Service Providers were required to complete a Climate Change Plan within their tender to provide evidence that their organisation has taken steps to build the awareness of the climate change emergency.

9. Risk, policy, compliance, governance and community impact

9.1 If any is identified, the IIAs will be able to capture and mitigate impact.

10. Background reading/external references

- 10.1 Commissioning and Contract Management update report, November 2023
- 10.2 Contract register published on City of Edinburgh Council website.

11. Appendices

- 11.1 Appendix 1 Extract of the contract register (Children, Education and Justice Services Directorate)
- 11.2 Appendix 2 Contracts reviewed for financial year 2023/2024 (Children, Education and Justice Services Directorate)
