Decision date: 2 October 2023

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Change of use from residential to short term let (in retrospect).
At 8 Currievale Farm Edinburgh EH14 4AA

Application No: 23/03057/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 20 July 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling

as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01 - 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The change of use of this property to a short term let (STL) will have an adverse impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Benny Buckle directly at benny.buckle@edinburgh.gov.uk.

Chief Planning Officer
PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Report of Handling

**Application for Planning Permission STL
8 Currievale Farm, Edinburgh, EH14 4AA**

Proposal: Change of use from residential to short term let (in retrospect).

**Item – Local Delegated Decision
Application Number – 23/03057/FULSTL
Ward – B02 - Pentland Hills**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The change of use of this property to a short term let (STL) will have an adverse impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

SECTION A – Application Background

Site Description

The site property is a two bedroom, two storey traditional stone-built house. The property forms part of a group of residential properties which were converted from former farm buildings to residential units. The property is located between two residential properties. Areas of parking are set around the site with the access road (Currievale Farm) terminating at this group of houses.

The surrounding properties are entirely residential, with the wider area rural in character made up of agricultural land.

Description Of The Proposal

The proposal is for retrospective planning permission from a change of use from residential use to short term let.

Section B - Assessment

Determining Issues

This report will consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

a) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4. The relevant policies to be considered are:

- NPF4 Sustainable Places Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- LDP Housing Policy Hou 7.
- LDP Transport Policies Tra 2 and Tra 3.

The non-statutory 'Guidance for Businesses' (2023) is a material consideration that is relevant when considering change of use applications.

Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relates to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

The non-statutory Guidance for Businesses (2023) states that an assessment of a change of use of dwellings to a short term let will have regard to:

- The character of the new use and of the wider area;
- The size of the property;
- The pattern of activity associated with the use including numbers of occupants, the period of use, issues of noise, disturbance and parking demand and
- The nature and character of any services provided.

Amenity

The house forms part of a terrace and is situated among other residential dwellings with low levels of vehicle and pedestrian traffic and has a high level of residential amenity. Access to the dwelling is via a private front door. The property has direct access to outdoor amenity space, which is overlooked by immediate neighbouring residential properties and located next to residential garden.

The use as a short term let would allow visitors to come and go from the premises for inconsistent periods of time on a regular basis throughout the year in a manner dissimilar to that of a permanent resident. A transient visitor may also have less regard for neighbours' amenity than individuals using the property as a principal home. The direct access to an outdoor amenity space creates an opportunity where by STL users could directly affect neighbouring residential amenity. The use as a short term let is not consistent with the existing neighbouring residential uses.

The proposed use would increase the ambient background noise levels beyond what residents would reasonably expect within the immediate and local area. The increase in frequency of movement to the property at unpredictable hours would damage the amenity of the immediate neighbours and adjacent properties.

A change of use would increase the level of ambient background noise in this context to beyond what is reasonably expected by neighbouring residents and will have a significant detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential property will only be supported where the economic benefits of the proposals are outweighed by demonstrable local economic benefits.

The applicant's supporting statement notes that the proposal would not result in the loss of residential accommodation as the property is occupied by the applicant for a period of five months annually. The applicant states that if refused the property would become empty for the remainder of the year when not in use by the owners. The statement further comments that the proposal has a local economic benefit by providing visiting families temporary accommodation.

The current lawful planning use of the property is for residential accommodation. The use of the property as an STL for a period of seven months in the year would result in a material change of use of the property leading to a loss of residential accommodation. Given the recognised need and demand for housing in Edinburgh it is important to retain this, where appropriate.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

However, having the property in residential use would also contribute to the economy, through the use of a variety of local services and employment opportunities across the City. Long term residents also have the ability to make consistent and long-term contributions to the local community.

The proposal would result in the loss of residential accommodation. There is a recognised need and demand for housing in Edinburgh, therefore, it is important to retain the existing supply where appropriate.

Parking Standards

There are no requirements for cycle parking for STLs. Cycles could be parked inside the property. The proposals comply with LDP Policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

b) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

City Plan 2030 represents the settled will of the Council, and it has been submitted to Scottish Ministers for examination. As such, limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering

generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Public representations

No public representations were received.

Conclusion in relation to identified material considerations

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or the loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.
