

**QUESTION NO 17**

**By Councillor Mowat for answer by  
the Convener of the Transport and  
Environment Committee at a meeting  
of the Council on 29 August 2024**

Figures were released for the number of fines issued for non-compliant vehicles entering the Low Emission Zone in July since enforcement started on 1<sup>st</sup> June; whilst these figures have been broken down into 1<sup>st</sup> and subsequent breaches of the Zone there has been no reporting on types of vehicles breaching the Zone.

**Question**

Could the Convener:

- a) Provide figures for different classes of vehicles breaching the Zone i.e. cars, light vans, HGVs; and
- b) if this information is not readily available can he advise how the Council can procure this information given that breaches of the Zone are captured by Automatic Number Plate Recognition technology and that each number plate can be matched back to vehicle class so this information is held somewhere and would be useful for the Council to understand and analyse the impact the enforcement of the Zone is having and on whom.

**Answer**
