

Mr Benjamin Lansdown.  
8 Albemarle  
Crookbarrow Road  
Norton,  
Worcester  
WR5 2PA

**Decision date: 2 May 2024**

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS  
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Change of use of property to short term let. The property has been in use as a STL since 22.06.2017.  
At 91 Lochend Road Edinburgh EH6 8BY

**Application No: 23/04941/FULSTL**

**DECISION NOTICE**

With reference to your application for Planning Permission STL registered on 24 October 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

**Reason for Refusal:-**

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling

as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01 - 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The proposal is acceptable with regard to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character or appearance of the conservation area.

The change of use of this property to a short-term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Benny Buckle directly at [benny.buckle@edinburgh.gov.uk](mailto:benny.buckle@edinburgh.gov.uk).

**Chief Planning Officer**  
**PLACE**  
**The City of Edinburgh Council**

## NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at [www.eplanning.scot](http://www.eplanning.scot) or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email [localreviewbody@edinburgh.gov.uk](mailto:localreviewbody@edinburgh.gov.uk).

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

::

# Report of Handling

**Application for Planning Permission STL  
91 Lochend Road, Edinburgh, EH6 8BY**

**Proposal: Change of use of property to short term let. The property has been in use as a STL since 22.06.2017.**

**Item – Local Delegated Decision  
Application Number – 23/04941/FULSTL  
Ward – B13 - Leith**

## **Recommendation**

It is recommended that this application be **Refused** subject to the details below.

## **Summary**

The proposal is acceptable with regard to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character or appearance of the conservation area.

The change of use of this property to a short-term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

## **SECTION A – Application Background**

### **Site Description**

The application dwelling is a ground floor, one bedroom flat, situated within a traditional colony style terrace. Access to the dwelling is via a private front door access from the west side of Lochend Road. As the property is situated within a colony style property it is located in immediate proximity to neighbouring residential properties. The property has access to a small outdoor seating space on the front elevation of the property.

The character of the local area is within residential use. The area is quiet in nature with low levels of pedestrian and vehicular traffic, this is reflected in the strong levels of residential amenity that neighbouring residential properties can expect.

The property is located in the Lochend Conservation Area.

### **Description of The Proposal**

The proposal is for the retrospective change of use from residential to STL.

### **Supporting Information**

## **Section B - Assessment**

### **Determining Issues**

Due to the proposed development falling within a conservation area, this report will first consider the proposals in terms of Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997:

- Is there a strong presumption against granting planning permission due to the development conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?
- If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

## **Assessment**

The application is in retrospect. The application form states within the proposal that the proposed operation of the property as a short term let commenced 22 June 2017. This is prior to 5 September 2022, when the Edinburgh short term let control area came into effect. As the designation does not have a retrospective effect it is necessary to consider whether the use of the property as a STL is a material change of use.

Granting planning permission would change the use from a residential dwelling to STL. The use of the property as a STL, as a result of the granting of planning permission, would constitute a material change in the use of the property under section 26 of the Town and Country Planning (Scotland) Act 1997, given the associated characteristics of STL use in this location (mainly residential) and property type (ground floor flat).

### **a) The proposals harm the character or appearance of the conservation area?**

Section 64(1) of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states:

"In exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area."

The Colony Conservation Area Character Appraisal emphasises "*the historic importance and unique architectural form of the Colony developments in Edinburgh. They are typified by their enclosed setting, their small scale layout, high quality workmanship, detailed control of design and pedestrian emphasis.*"

There are no external changes proposed. The change of use from a residential premises to a short term let will not have any material impact on the character of the conservation area. The change of use would preserve the appearance of the conservation area.

## **Conclusion in relation to the conservation area**

The proposals are acceptable with regards to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

### **b) The proposals comply with the development plan?**

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4.

The relevant NPF4 and LDP 2016 policies to be considered are:

- NPF4 Sustainable Places Tackling the climate and nature crises Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- NPF4 Historic Assets and Places Policy 7.
- Local Development Plan Housing Policy, Hou 7.
- Local Development Plan Transport Policies, Tra 2 and Tra 3

The non-statutory Guidance for Business (2024) is a material consideration that is relevant when considering LDP Policy Hou 7 and NPF4 policy 30.

The Edinburgh Design Guidance is a material consideration when considering LDP Policies Tra 2 and Tra 3.

### Conservation Area

There are no external or internal works proposed and as such there will not be a significant impact on historic assets and places.

The proposal complies with NPF 4 Policy 7.

### Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

The non-statutory Guidance for Businesses (2024) states that an assessment of a change of use of dwellings to a short term let will have regard to:

## *Amenity*

The use as a STL would allow visitors to come and go from the premises for inconsistent periods of time on a regular basis throughout the year in a manner dissimilar to that of a permanent resident. A transient visitor may also have less regard for neighbours' amenity than individuals using the property as a principal home.

Despite the property being accessed via a private main door, it's immediate proximity to neighbouring residential properties further increases the likelihood that STL users could have a detrimental impact on neighbouring residential amenity. The use as a STL is not consistent with the neighbouring residential properties and would have a detrimental effect to their residential amenity.

A change of use would increase the level of ambient background noise beyond what is reasonably expected by neighbouring residents and will have a significant detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

## *Loss of residential accommodation*

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

The proposed change of use to an STL would result in a loss of residential accommodation. As there is a recognised need and demand for housing in Edinburgh, it is critical to retain the existing supply where appropriate.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

It is important to recognise that having the property within residential use also contributes to the economy, using local services and fulfilling employment opportunities across the City. Long term residents can also make consistent and long-term contributions to the local community.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

## Parking Standards

There is street parking available in close proximity to the residential dwelling. This is an acceptable level of parking as there are no parking requirements for STLs. Cycles could be parked inside the property.

The proposals comply with LDP Policies Tra 2 and Tra 3.

## **Conclusion in relation to the Development Plan**

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation in this case it does not outweigh the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

**b) There are any other material considerations which must be addressed?**

The following material planning considerations have been identified:

Emerging policy context

On 5 April 2024 the Planning and Environmental Appeals Division published its report into the examination of the Proposed City Plan 2030 and supporting documents in terms of Section 19 of the Town and Country Planning (Scotland) Act 1997. The Council is currently considering the recommendations and modifications required to the Proposed City Plan 2030. It is the intention that the modifications will be considered by the Council before the end of June 2024. At this time in the context of the consideration of this particular application limited weight can be given to the relevant policies of City Plan 2030 until the proposed modifications have been fully considered.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

## Public representations

The application received no public representations.

## **Conclusion in relation to identified material considerations**

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

## **Overall conclusion**

The proposal is acceptable with regard to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character or appearance of the conservation area.

The change of use of this property to a STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity or loss of residential accommodation. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion.

## **Section C - Conditions/Reasons/Informatives**

The recommendation is subject to the following;

### **Reason for Refusal**

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.
