## **Application for Advert Consent 19/03996/ADV At Bus Shelter Adjacent To Broughton Road Play Area, Broughton Road, Edinburgh Replacement of a non-advertising bus shelter with a Foster bus shelter with a double-sided back-lit LED advertising panel.**

### **Recommendations**

---

1.1 It is recommended that this application be Granted subject to the details below.

### **Background**

---

#### **2.1 Site description**

The site is adjacent to Broughton Road Play Area, a designated area of open space. The surrounding built environment comprises of four storey tenement blocks, with some commercial uses on ground floors on the streets north elevation. The existing shelter sits on an extended pavement and serves buses heading from the Gyle Centre down to Ocean Terminal. Road side parallel car parking spaces are on both sides of the bus shelter.

Bus shelter reference: EDH0198AB.

#### **2.2 Site History**

There is no relevant site planning history.

### **Main report**

---

#### **3.1 Description Of The Proposal**

The proposal seeks the replacement of a standard bus shelter with a double-sided (inward and outward) LED advertising bus shelter on one elevation. The advertising panel will be 1160mm x 1710mm on each side, lit with four LED strip lights to provide uniform back light distribution. The visible screen area would be 1.9 square metres.

The existing bus stop is being replaced with a new bus shelter as part of the Council's advertising contract with JC Decaux (the Applicant). This application relates to advertisement consent only, with the shelters being installed under the Council's permitted development rights.

### **3.2 Determining Issues**

Do the proposals affect the amenity of the locality? In the determination of the suitability of the site for the display of advertisements, the Planning Authority shall have regard to the general characteristics of the locality including the presence of any feature of historical, architectural, cultural or similar interest. The authority may disregard any advertisements displayed in the locality.

Do the proposals affect public safety? The Planning Authority shall in particular consider whether any such display is likely to obscure, or hinder the ready interpretation of, any road traffic sign, railway signal, or aid to navigation by water or air.

### **3.3 Assessment**

To address these determining issues, the Committee needs to consider whether:

- a) the proposal has an acceptable impact on amenity;
- b) the proposal would compromise public safety; and
- c) any material representations have been addressed.

#### **a) Amenity**

The Council's guidance on Outdoor Advertising and Sponsorship does not allow advertising on items of street furniture other than bus shelters, and advertising on bus shelters would not be permitted in visually sensitive locations. However, this location is not deemed to be visually sensitive and therefore there is no detrimental impact on the amenity of the area.

The proposal seeks to introduce advertising and illumination as an integrated part of a new streamlined bus shelter. Although this area is predominantly residential and adjacent to an area of open space, the positioning and orientation of the advert ensures that there would be no adverse impact on amenity.

The proposals comply with the relevant Council Guidance.

#### **b) Public Safety**

The advert will not impact on road safety, nor will it present any issues for pedestrians on Broughton Road.

The Roads Authority have advised they have no objections in terms of road safety.

#### **c) Material Representations**

No representations were received.

## Conclusion

Regulation 4(1) of the Town and Country Planning (Control of Advertisements) (Scotland) Regulations 1984 (as amended) states that advertisement control shall be exercisable only in the interests of amenity and public safety.

The proposal will not have an impact on amenity or public safety and complies with the Councils Guidance on Outdoor Advertising and Sponsorship.

There are no material considerations that outweigh this conclusion.

It is recommended that this application be Granted subject to the details below.

### **3.4 Conditions/reasons/informatives**

#### **Conditions:-**

1. Consent is granted for a period of five years from the date of consent.

#### **Reasons:-**

1. In order to accord with the statutory requirements of the Town and Country Planning (Scotland) Acts.

## **Financial impact**

---

### **4.1 The financial impact has been assessed as follows:**
