## **Introduction**

The Scottish Fire and Rescue Service is required under the Fire (Scotland) Act 2005, as amended by the Police and Fire Reform (Scotland) Act 2012, to prepare Local Fire and Rescue Plans for each local authority in Scotland. Our first Local Fire and Rescue Plans were published in April 2014. These were reviewed and replaced in 2017/18.

These Plans were developed to direct the Service through its initial transformation journey and to forge our place as a national organisation with a strong sense of local accountability. Against the drive of public sector reform, the local planning landscape continues to evolve to tackle inequalities and improve community outcomes through strong and open collaborative working.

The publication of our new Strategic Plan 2019-22 in October 2019 now instigates a requirement to carry out a mandatory review of all Local Fire and Rescue Plans. This review will provide us with information on how well we are performing against our existing priorities as well as highlighting areas for continued improvement and opportunities for change against the growing needs of our communities.

The Local Senior Officer will be leading this work in your local authority area. To support the review a range of statistics will be assessed to determine if SFRS activities are having the desired impact and to confirm future priority areas.

## **Review Process**

The primary focus of SFRS will remain on the delivery of our core functions, but we will also consider how we may collaborate more to expand our reach and support a wider range of local needs.

The views of partners and communities are an important part of this review, and committee members are invited to participate in a short survey and give your views on our local service provision. The survey is available online on the SFRS Consultation Hub and will be open until 18 March 2020. It can be accessed at: <https://firescotland.citizenspace.com/planning-and-performance/local-fire-and-rescue-plan-review-2020/>

For information the survey questions are attached in appendix 1 which can also be used to respond by sending to the address highlighted.

In due course a report will be prepared on the outcome of the review. This will inform what revisions will be required in the Local Fire and Rescue Plan. If you wish to discuss this further or wish to discuss any other fire and rescue service matter, please do not hesitate to use the following contact information:
