6. City of Edinburgh Council response to the Scottish Government Advisory Group on Economic Recovery Call for Views

Details were provided of the Council's response to the Call for Views issued by the Scottish Government's Advisory Group on Economic Recovery. The response was

compiled based on feedback from service areas, and in alignment with existing Council statements and policies. The response drew on the emerging findings of engagement with businesses and partners carried out as part of early stages of the Sustainable Economic Recovery strand of the Council Adaptation and Renewal Programme. A full report on this engagement activity and its findings would be reported to committee upon its completion.

Motion

To note the Council's response to the call for views from the Scottish Government Advisory Group on Economic Recovery. This was approved by the Chief Executive in consultation with the Convener and Vice Convenor under urgency provisions contained within Committee Terms of Reference and Delegated Functions.

- moved by Councillor McVey, seconded by Councillor Day

Amendment 1

- 1) To note with concern that the matter was dealt with under delegated powers when the call for evidence was issued on 18 May, and Policy & Sustainability Committee met on 28 May, three days before the deadline of 31 May. This meant there was no consultation with councillors other than the Leader and Deputy Leader and condemns the continued approach of taking important and politically sensitive decisions in private without reference to Committee despite the commencement of fortnightly Policy and Sustainability meetings and the work ongoing to reinstate full Council.
- 2) To note that the request from the Scottish Government was specifically for information on the local situation which was lacking from the response which quotes national figures rather than furnishing the Scottish Government with the particular needs of the situation in Edinburgh and considers that this was a lost opportunity to communicate the specific needs of the city to the Government.

- moved by Councillor Whyte, seconded by Councillor McLellan

Amendment 2

- 1) To note the Council's response to the call for views from the Scottish Government Advisory Group on Economic Recovery. This was approved by the Chief Executive in consultation with the Convener and Vice Convenor under urgency provisions contained within Committee Terms of Reference and Delegated Functions.
- 2) To thank Friends of the Earth Scotland for mobilising a collective response to the Scottish Government calling for a just and green recovery and supports their five steps.
- 3) To note the need to review the City Region Deal to reflect the new circumstances and to embed new powers over revenue-raising and regional planning which will allow local government and partners to deliver a green recovery.

- 4) To welcome the Edinburgh Climate Commission's forthcoming report on the key elements of a green recovery
 - 5) To note the UK Government's intention was to pursue Brexit without an extension, rather than taking account of the current emergency circumstances, and continues to press the UK Government to negotiate for a suitable extension period.
- moved by Councillor Staniforth, seconded by Councillor Main

In accordance with Standing Order 19(12), the amendment was accepted as an addendum to the motion.

Voting

The voting was as follows:

For the Motion (as adjusted)	-	10 votes

- 4) To welcome the Edinburgh Climate Commission's forthcoming report on the key elements of a green recovery

8. 2050 Edinburgh City Vision

The City Vision process started in late 2016. Since then there has been significant and ongoing stakeholder and public engagement to develop a Vision for the City. In 2018 a public engagement process was undertaken to add to the 10,000 inputs gathered from the citizens of Edinburgh in the previous two years. In this process there had been clear consensus throughout from the people of Edinburgh that took part on the themes and values considered most important to guide the future direction of the city. These have been crystallised into a 2050 Edinburgh City Vision by the Steering Group made up of key individuals from a wide variety of organisations and across a wide range of demographics.

Motion

- 1) To welcome and endorse the 2050 Edinburgh City Vision (Appendix A) finalised by the Steering Group of city partners (details of membership form Appendix B).

 - 3) To agree that the Lord Provost should sign and commit City of Edinburgh Council to the 2050 Edinburgh City Vision Charter (Appendix C).
 - 4) To note that an annual conference of youth representatives would consider progress towards delivery on the 2050 Edinburgh City Vision and would report back to Committee.
- moved by Councillor McVey, seconded by Councillor Day

Amendment 1

- 1) To note that the key consensus point expressed by residents in the City Vision consultation was a wish to see a clean city and agreed that this should be given far greater priority in a redrafted document recognising that this should encompass a restoration of civic pride and a focus on the services that maintain our built and natural environment.
 - 2) To note that there were no measures of success in the document which made it impossible to check progress either through Council processes or the suggested young peoples' conference. Therefore, agrees that any future version of a City vision should include measures of success to be reviewed through the democratic processes of the Council.
 - 3) To recognise that the Council cannot bind the priorities or vision of any future Council or its decision-making processes and any attempt to do so would be profoundly undemocratic.
- moved by Councillor Whyte, seconded by Councillor McLellan

Amendment 2

- 1) To welcome and endorse the 2050 Edinburgh City Vision (Appendix A) finalised by the Steering Group of city partners (details of membership form Appendix B).
 - 2) To note that Committee agreed on 28 May 2020 that values of the 2050 Edinburgh City Vision should be central to the Council's Adaptation and Renewal programme.
 - 3) To agree that the Lord Provost should sign and commit City of Edinburgh Council to the 2050 Edinburgh City Vision Charter (Appendix C).
 - 4) To note that an annual conference of youth representatives would consider progress towards delivery on the 2050 Edinburgh City Vision and would report back to Committee.
 - 5) To agree that the Council Leader wrote to the steering group of city partners to request that they used the feedback from the conference in 1.4 of the report to agree a set of metrics which could be used to measure the city's success in meeting the aspirations set out in the vision.
- moved by Councillor Lang, seconded by Councillor Aldridge

In accordance with Standing Order 19(12), the amendment was accepted as an addendum to the motion.

10. Spaces for People Programme Update

An update was provided on the prioritisation of interventions in the Spaces for People programme, progress so far and planned next steps. Approval was also sought for a direct award of contract via a waiver of Contract Standing Orders (CSOs) for supply and installation of temporary traffic management infrastructure, due to time criticality of the programme, which precluded the opportunity to undertake a full procurement exercise. The value of this award was expected to be in the region of £1 million and £1.5 million, subject to costs received from suppliers.

Motion

- 1) To note the schemes implemented to date, plans for future phases of this programme and the role of these changes in supporting the city's plans for adaptation and renewal, particularly in supporting businesses.
 - 2) To note that the Council had been awarded £5 million of funding from the Scottish Government's Spaces for People programme.
 - 3) To note that the Scottish Government's Spaces for People fund would be increased from £10 million to £30 million. Further bids for funding may be submitted to progress additional interventions which had been suggested by the public and/or stakeholder groups.
 - 4) To note that due to the immediate requirement for programme implementation, there was not sufficient time to undertake a full procurement exercise. As such approves a direct award of contract via waiver of Contract Standing Orders (CSOs) to purchase temporary traffic management infrastructure. The value of this award was subject to costs received from suppliers but was expected to be of a value between £1 - £1.5 million.
- moved by Councillor McVey, seconded by Councillor Day

Amendment 1

- 1) To note the schemes implemented to date, plans for future phases of this programme and the role of these changes in supporting the city's plans for adaptation and renewal. The priority for bringing schemes forward should be reversed to begin with local high streets which have seen an increase in footfall and pedestrians that need the extra space, while also recognising the need for a dedicated support campaign for traders.
- 2) To note that the Council had been awarded £5 million of funding from the Scottish Government's Spaces for People programme.

- 3) To note that the Scottish Government's Spaces for People fund would be increased from £10 million to £30 million. Further bids for funding may be submitted to progress additional interventions which had been suggested by the public and/or stakeholder groups.
 - 4) To note that due to the immediate requirement for programme implementation, there is not sufficient time to undertake a full procurement exercise. As such approves a direct award of contract via waiver of Contract Standing Orders (CSOs) to purchase temporary traffic management infrastructure. The value of this award is subject to costs received from suppliers but is expected to be of a value between £1 - £1.5 million.
 - 5) To request that Network assessment and modelling took place on the impact across city of all the agreed and proposed designs to date. This should also include any other major proposals (e.g. The Mound being closed at Bank Street) and focus on unintended consequences and outcomes of individual projects, which when brought together, may result in severing of the north of the city from the south. This would have a serious impact on both businesses and residents.
 - 6) To agree to immediately suspend and consider alternatives solutions for North Bridge which by limiting to one shared lane for both buses and cycles was inherently dangerous.
 - 7) Regretted that despite unanimous local support, many local projects have yet to be instigated or included in plans to date, for example, the failure to include Raeburn Place in the Town Centre schemes outlined in 4.14 and requested further information on their inclusion within one Policy and Sustainability Committee cycle.
 - 8) Regretted that the sharing of design plans and their progress between officers, local elected members and stakeholders was still not as robust as was necessary and that a review of the timelines of communication should take place and be reported to Committee in the report outlined in 7 above.
- moved by Councillor Webber, seconded by Councillor Cook

Amendment 2

- 1) To note the schemes implemented to date, plans for future phases of this programme and the role of these changes in supporting the city's plans for adaptation and renewal, particularly in supporting businesses.
- 2) To note that the Council had been awarded £5 million of funding from the Scottish Government's Spaces for People programme.
- 3) To note that the Scottish Government's Spaces for People fund would be increased from £10 million to £30 million. Further bids for funding may be submitted to progress additional interventions which had been suggested by the public and/or stakeholder groups.
- 4) To note that due to the immediate requirement for programme implementation, there was not sufficient time to undertake a full procurement exercise. As such

approved a direct award of contract via waiver of Contract Standing Orders (CSOs) to purchase temporary traffic management infrastructure. The value of this award was subject to costs received from suppliers but was expected to be of a value between £1 - £1.5 million.

- 4) To note the pace of implementation to date has raised disappointment from many residents, notes the gradual increase of traffic levels across the city giving rise to increased risk to people walking, wheeling and cycling, and calls for implementation of subsequent measures to be delivered at a faster pace in order to increase safety for everyone.
- 5) To note concerns regarding transparency of process and strategic approach to provision of distancing measures across all areas of the city where they are needed, and in particular filling the significant gaps in the bike network and consistently providing at least minimum pavement widths as per the Edinburgh Street Design Guidance.

- moved by Councillor Miller, seconded by Councillor Staniforth

Amendment 3

- 1) To note the schemes implemented to date, plans for future phases of this programme and the role of these changes in supporting the city's plans for adaptation and renewal, particularly in supporting businesses and agrees that the first schemes in direct response to suggestions received from communities should be developed and put in place by the end of June.
- 2) To note that the Council had been awarded £5 million of funding from the Scottish Government's Spaces for People programme.
- 3) To note that the Scottish Government's Spaces for People fund would be increased from £10 million to £30 million. Further bids for funding may be submitted to progress additional interventions which had been suggested by the public and/or stakeholder groups.
- 4) To note that due to the immediate requirement for programme implementation, there was not sufficient time to undertake a full procurement exercise. As such approved a direct award of contract via waiver of Contract Standing Orders (CSOs) to purchase temporary traffic management infrastructure. The value of this award was subject to costs received from suppliers but was expected to be of a value between £1 - £1.5 million.
- 5) To agree to extend the list provided in paragraph 4.14 of the report to include the town centre of Stockbridge.

- moved by Councillor Lang, seconded by Councillor Gloyer

In accordance with Standing Order 19(12), the amendment was accepted as an addendum to the motion.

The voting was as follows:

For the Motion (as adjusted)	-	10 votes

18 Living Wage for Health and Social Care Staff - Motion by Councillor Day

a) Deputation – UNITE Edinburgh Not for Profit Branch

A written deputation was presented on behalf of UNITE Edinburgh Not for Profit Branch.

The deputation organised 1240 members in the Edinburgh Not For Profit sector and had an interest in the implementation of the promised Scottish Living Wage increase. They were aware that politicians, including the Health Secretary, announced earlier this year that social care workers who earned less than the Scottish Living Wage would get their hourly rate increased to £9.30 at the beginning of April. The deputation stated they found out that the Scottish Government was not going to meet the estimated bill for the City Council to pay the increase and understood that the City Council officials estimated that they needed an additional £5 million to pay the increase. The deputation understood that to date the Scottish Government had only offered another £1.1 million though negotiations are continuing. The deputation sought an assurance from the Council that the promised increase would be paid and backdated, and when. They questioned what would happen if an agreement could not be reached with the Scottish Government and if the increase would still be paid.

b) Motion by Councillor Day

The following motion by Councillor Day was submitted in terms of Standing Order 14:

“Committee welcomes the Scottish Government announcement to increase the Scottish Living Wage including a 3.3% uplift for all care workers delivering adult social care services in Scotland.

Committee notes the briefing of 18 May “Contractual Uplifts 20/21” issued by the CFO of EIJB which shows this will mean a £6.5m increase in money paid to carers in the Capital.

Also notes the ongoing discussions through COSLA to deliver the 3.3% increase in full and agrees to support the efforts of the EIJB, COSLA and the Scottish Government in reaching a positive conclusion as quickly as possible.”

- moved by Councillor Day, seconded by Councillor McVey

Decision

To approve the motion by Councillor Day.

19 Black Lives Matter - Motion by Councillor Day

a) Deputation

A written deputation was presented by Bobby Melville, a descendant of Henry Dundas.

The deputation requested it should be formally recorded that he protested at the new inscription for the Dundas Statue in St Andrew's Square, Edinburgh.

b) Motion by Councillor Day

The following motion by Councillor Day was submitted in terms of Standing Order 14:

“Committee reaffirms Edinburgh Council’s commitment to leadership of Scotland’s capital city anchored in equality, inclusion, fairness, tolerance and diversity. Notes Police Scotland’s commitment to Fairness, integrity and respect as core values of policing and the ongoing work with partners, including the Council, to stamp out racism in our City and across Scotland. As our citizens, Council and the city, move out of, and beyond the Coronavirus pandemic, Council shall continue to nurture and enhance Edinburgh’s globally renowned reputation as a safe, welcoming, inclusive city for anyone, from anywhere, to live, work, study, and visit. Committee affirms there is no place for racism, prejudice, discrimination, intolerance and hate in Edinburgh; and that there should be no place for it anywhere against anyone. Committee condemns the recent murder of George Floyd in Minneapolis, USA. Committee agrees that Black Lives Matter and supports the Black Lives Matter campaign.”

Motion

- 1) To approve the motion by Councillor Day
- 2) To add to the motion by Councillor Day:

Notes that the Council facilitated the convening of an independent Panel, following a petition in 2016 to the then “Culture and Sport Committee”, to agree wording for a plaque at St Andrew Square more accurately reflecting the history of Henry Dundas.

Notes this panel met and agreed an approach but didn’t manage to come to a consensus view to agree final wording for Council approval.

Notes a meeting was held on 9 June 2020 between the Council Leader, Depute Leader and panel member Sir Geoff Palmer to agree final wording. This meeting also had input from Edinburgh World Heritage, Edinburgh University (who checked details with academics) and Cllr Wilson (as relevant Convenor and former panel member as Lord Provost) and Cllr McNeese-Mechan as relevant Vice-Convenor.

Notes positive engagement has taken place with the owners of St Andrew Square to install a new plaque swiftly.

Committee agrees that the text below is an appropriate and accurate description and requests the Director of Place continues engagement with the owners to find the most appropriate place for this onsite to help tell Edinburgh's story.

"On the plinth at the centre of St Andrew Square stands a neoclassical column with a statue at the top. This represents Henry Dundas, 1st Viscount Melville (1742 – 1811). He was the Scottish Lord Advocate and an MP for Edinburgh and Midlothian, and the First Lord of the Admiralty. Dundas was a contentious figure, provoking controversies that resonate to this day. While Home Secretary in 1792 and first Secretary of State for War in 1796 he was instrumental in deferring the abolition of the Atlantic slave trade. Slave trading by British ships was not abolished until 1807. As a result of this delay, more than half a million enslaved Africans crossed the Atlantic. Dundas also curbed democratic dissent in Scotland. Dundas both defended and expanded the British empire, imposing colonial rule on indigenous peoples. He was impeached in the United Kingdom for misappropriation of public money and although acquitted, he never held public office again. Despite this, the monument before you to Henry Dundas was funded by voluntary contribution from officers, petty officers, seamen and marines and erected in 1821, with the statue placed on top in 1827. In 2020 this was dedicated to the memory of the more than half a million Africans whose enslavement was a consequence of Henry Dundas's actions."

- moved by Councillor Day, seconded by Councillor McVey

Amendment 1

To add to the end of the motion by Councillor Day in so far as applicable in the UK to note:

- 1) The UK and Scottish Government statements that attending mass gatherings of any kind pose a risk to public health and people's lives during this emergency.
- 2) The organisers of the protests in Edinburgh maintained good order, in contrast to recent acts of public disorder and irresponsible and at times illegal behaviour elsewhere in the UK, which detracts from key anti-racist messages of tolerance and equality, puts lives at risk and runs contrary to the right of peaceful protest.
- 3) The work of Police Scotland in keeping all Edinburgh residents safe despite stretched resources, and maintaining the right to peaceful demonstration, and agrees that the Council shall seek fair funding for policing in Edinburgh.

- 4) The outstanding instruction of Council to add a plaque to the Melville Monument in St Andrew Square to put Henry Dundas in a full context, and instructs the Chief Executive to expedite this with appropriate academic input and through a process agreed by Council Committee.
- 5) Requests the Council Leader writes to the Scottish Government Cabinet Secretary for Health and Sport to ascertain what work the Scottish Government is undertaking to understand the higher fatality rate from Covid-19 in our BAME communities and in particular whether Bangladeshi and Pakistani communities are at the greatest risk, as recently identified by Public Health England.

- moved by Councillor Cook, seconded by Councillor Whyte

Amendment 2

Insert after paragraph 4 of the motion by Councillor Day:

Committee recognises and supports calls from people of colour that cities, including Edinburgh, should acknowledge and address their roles in perpetuating racism and oppression in the past as part of the process of challenging it in the present.

Committee recognises that many of the injustices of today - massive wealth inequality, climate breakdown and extreme labour exploitation - have their roots in colonialism and slavery.

Committee notes the work of the Glasgow-based Commission for Racial Equality and Rights, including their recent publication 'Changing the Race Equality Paradigm' which concludes that, "Without a clear understanding of race and racism, even the most well-meaning efforts are likely to fail. This frustrating situation can only be reversed if institutions are willing to change their paradigm on race equality.

Committee believes that the people of Edinburgh want the Council to take meaningful actions to remove entrenched structural racism and inequalities wherever they are found in our city's institutions and services and ensure that our young people receive an education that promotes inclusion and diversity and which includes BME history and culture across the curriculum and that work opportunities and resources are fairly available to all, and believes that many of the changes needed have been documented and quantified over recent years.

To insert at the end of the motion:

Committee therefore agrees:

- 1) That an action plan is brought forward by the Chief Executive within three cycles to introduce best practice in the council's recruitment and employment practices, including, but not limited to, ensuring that equality, diversity and anti-discrimination training is introduced as standard for all staff.
- 2) That the Director of Education bring forward an action plan within three cycles to enhance diversity and inclusion in Edinburgh's schools, that includes actions identified in recent committee papers, (Preventing and Responding to Bullying and Prejudice among Children and Young People October 2019 and Promoting Equality, October 2020) and includes actions to ensure that BME history and

culture are included in all phases of secondary school education, across all disciplines in Edinburgh schools, and that the Leader of the Council write to the Private schools in Edinburgh asking them to demonstrate that they are doing the same.

- 3) That the Chief Executive bring forward a plan within three cycles to review any features within the council boundary which commemorate those with close links to slavery and colonialism, including, but not limited to, public statues and monuments, street or building names; further agrees that this review should be led by one or more members of the BME community, and should closely consult with the wider BME community, and that the review should consider all options, including removal of statues, and make recommendations to rectify the glorification of slavery and colonialism which these commemorations represent to many people.

- moved by Councillor Staniforth, seconded by Councillor Main

Amendment 3

To add to the end of the motion by Councillor Day:

Committee reaffirms its commitment to ensure the Council treats all people equally and with fairness and respect and: 1. calls for a report within two cycles setting out current staff training provision around equality and unconscious bias and any proposals to strengthen such arrangements; and 2. ensures that the resident engagement plan for the Council's Adaptation and Renewal programme is designed to hear the voices, concerns and interests of all citizens including BAME residents to ensure Edinburgh is a city for all and that no-one is either excluded or left behind.

- moved by Councillor Aldridge, seconded by Councillor Gloyer

In accordance with Standing Order 19(12), Amendment 2 as written and Amendment 3 as adjusted were accepted as addendums to the motion.

For Amendment 1	-	5 votes

21 Funding of Temporary Accommodation for Homeless People - Motion by Councillor Watt

The following motion by Councillor Watt was submitted in terms of Standing Order 14:

“That Committee

- Notes the ongoing work of the Homelessness Task Force and the Housing, Homelessness and Fair Work Committee which has included extending the PSL contract and the ongoing extension of a private rented framework, both of which seek to further increase the supply of temporary flats.
- Recognises the development of a Rapid Rehousing Transition Plan (RRTP) for Edinburgh, which sets out the options for improving prevention of homelessness and increasing the supply of permanent, affordable accommodation with the aim of ending the use of temporary accommodation.
- Notes the previously approved decision to invest in 5 properties for home-share.
- Calls for a report to be submitted to the Policy & Sustainability Committee, which lists the current temporary accommodation that has been contracted for since the CV-19 pandemic: giving the type of accommodation, the number of families and single people accommodated and the current end date of the contracts.
- The report should set out the work to date on an exit strategy and transition post lock down to find positive solutions for people moving on from accommodation provided as a public health response to the Covid 19 pandemic. This should include an update report on the work to increase the number of PSL properties available to use as temporary accommodation.
- The report should also make recommendations as to what types of accommodation could be purchased or leased long-term (including – but not

restricted to – properties that were previously being used for ‘air bnb’ style short-term lets). It should also consider work with third sector partners and how contracting could be used to secure further accommodation so that we are examining all options to ensure that suitable accommodation is available for people when their current accommodation ceases to be available.”

Motion

To approve the motion by Councillor Watt

- moved by Councillor Day, seconded by Councillor Kate Campbell

Amendment 1

To add to the motion by Councillor Watt

Welcomes the motion and the potential to see former holiday property brought back into residential use for people in acute housing need; but notes that, as of 6 May 2020, the Unsuitable Accommodation Order was extended to apply to all homeless people, with the consequence that certain types of shared accommodation, such as bed and breakfast hostels, cannot be used for more than 7 days, except in relation to coronavirus-related emergencies for a limited period until 30 September; and therefore also seeks an update to all members on progress being made to eliminate the use of B&B hostels for all homeless applicants.

Notes that COVID-19 has both highlighted and exacerbated the harms caused to homeless dependant drinkers, and it is widely accepted that currently there is a need for suitable support and services for this group, in particular the lack of specialist addictions services. A new long-term project, Managed Alcohol Programme, (MAP) is being developed in Edinburgh to address this need and homelessness, backed by a strong academic case and keenly supported by the Scottish Government Drug and Alcohol Unit. And therefore agrees that CEC will work with H&SCP to identify suitable accommodation to enable the project to support this vulnerable homeless group.

- moved by Councillor Main, seconded by Councillor Staniforth

Amendment 2

In the final paragraph of the motion by Councillor Watt after “short term lets add: “and suitable student accommodation which is likely otherwise to remain unoccupied.”

- moved by Councillor Aldridge, seconded by Councillor Gloyer

In accordance with Standing Order 19(12), Amendments 1 and 2 were accepted as addendums to the motion.

Decision

To approve the following adjusted motion by Councillor Watt:

- 1) To note the ongoing work of the Homelessness Task Force and the Housing, Homelessness and Fair Work Committee which had included extending the PSL contract and the ongoing extension of a private rented framework, both of which sought to further increase the supply of temporary flats.

- 2) To recognise the development of a Rapid Rehousing Transition Plan (RRTP) for Edinburgh, which set out the options for improving prevention of homelessness and increasing the supply of permanent, affordable accommodation with the aim of ending the use of temporary accommodation.
- 3) To note the previously approved decision to invest in 5 properties for home-share.
- 4) To call for a report to be submitted to the Policy & Sustainability Committee, which listed the current temporary accommodation that had been contracted for since the CV-19 pandemic: giving the type of accommodation, the number of families and single people accommodated and the current end date of the contracts.
- 5) To agree that the report should set out the work to date on an exit strategy and transition post lock down to find positive solutions for people moving on from accommodation provided as a public health response to the Covid 19 pandemic. This should include an update report on the work to increase the number of PSL properties available to use as temporary accommodation.
- 6) The report should also make recommendations as to what types of accommodation could be purchased or leased long-term (including – but not restricted to – properties that were previously being used for ‘air bnb’ style short-term lets and suitable student accommodation which was likely otherwise to remain unoccupied). It should also consider work with third sector partners and how contracting could be used to secure further accommodation so that all options would be examined to ensure that suitable accommodation was available for people when their current accommodation ceased to be available.
- 7) To welcome the motion and the potential to see former holiday property brought back into residential use for people in acute housing need; but note that, as of 6 May 2020, the Unsuitable Accommodation Order was extended to apply to all homeless people, with the consequence that certain types of shared accommodation, such as bed and breakfast hostels, could not be used for more than 7 days, except in relation to coronavirus-related emergencies for a limited period until 30 September; and therefore also seek an update to all members on progress being made to eliminate the use of B&B hostels for all homeless applicants.
- 8) To note that COVID-19 had both highlighted and exacerbated the harms caused to homeless dependant drinkers, and it was widely accepted that currently there was a need for suitable support and services for this group, in particular the lack of specialist addictions services. A new long-term project, Managed Alcohol Programme, (MAP) was being developed in Edinburgh to address this need and homelessness, backed by a strong academic case and keenly supported by the Scottish Government Drug and Alcohol Unit. And therefore agree that CEC would work with H&SCP to identify suitable accommodation to enable the project to support this vulnerable homeless group.

24 Public Lavatories - Motion by Councillor Laidlaw

The following motion by Councillor Laidlaw was submitted in terms of Standing Order 14:

“Committee notes that public toilets remain closed despite the easing of lockdown resulting in significant numbers of people socialising outdoors in our parks and greenspaces where these normally provide lavatory facilities.

Committee notes in the absence of public toilets being open, members of the public are choosing to relieve themselves outdoors and in the vicinity of people’s homes causing a significant health hazard.

Committee recognises the challenges of reopening the toilets as stated by officers below, but notes that limited public toilet opening has been achieved by other UK local authorities in response to particular pressures in high-volume outdoor areas like major parks and beaches.

Committee asks officers to report to the next meeting of the P&S Committee with a plan for limited reopening of public toilets in key pressure point areas such as parks and the seafront, for Phase 2 of the lockdown easing to include assessment of the following:

- a) Assessments of the layout of each property to establish social distancing e.g. cubicle use only, maximum capacity.
- b) Ensuring queue control consistent with social distancing advice outside of the property.
- c) Enhanced cleaning methods, storage and disposal of waste material.
- d) Provision of sanitising materials within facilities e.g. seat cleaner.
- e) Risk assessments and Safe working practices.

Committee requests that in the short-term Council communications is used to notify people that public toilets are not open and to take this into consideration when going out, as well as the £50 on-the-spot fines that police can issue for relieving oneself outdoors.”
