

Amendment by the Green Group

Finance and Resources Committee

24 September 2020

Item 7.1 Revenue Budget 2020/21 – Progress Update

Add to recommendations

1.1.6 Notes up to £2m in Spend to Save investment which could be available to support Green Recovery and therefore requests that officers present options which meet the criteria for Spend to Save, within one cycle, with costed proposals in two cycles, taking into account suggestions put forward in budget motions in February 2020, the first report of the Edinburgh Climate Commission, the Sustainability programme and the Adaptation and Renewal programme update for the next Policy and Sustainability meeting on 6 October.

AND

1.1.7 Notes that on 5 March 2020 this Committee approved a business case for the EICC which included building a hotel; further notes that the business case is predicated on international business tourism norms which prevailed at the time and that these norms are highly unlikely to apply now and in the future; therefore refers the matter to full Council to withdraw the delegated authority granted on 12 March until such time as a revised business case has been submitted to full council for consideration.
