TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS  
**DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Replacement windows and doors  
At 11 Grange Court Edinburgh EH9 1PX

**Application No:** 20/02900/FUL

**DECISION NOTICE**

With reference to your application for Planning Permission registered on 17 July 2020, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

**Conditions:-**

**Reasons:-**

1. The proposal utilises an inappropriate material and would have an adverse impact on the character and appearance of the existing building and would fail to preserve or enhance the character and appearance of the conservation area. The proposal is therefore contrary to Edinburgh Local Development Plan policy Des 12, Env 6, the non-statutory Guidance for Listed Buildings and Conservation Areas, and the Grange Conservation Character Appraisal.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01-06, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The proposal is contrary to the Edinburgh Local Development Plan as it does not comply with policy Des 12 (Alterations and Extensions) and policy Env 6 (Conservation Areas - Development). The proposal does not preserve the character or appearance of the conservation area. There are no material considerations which outweigh this conclusion.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Amelia Christie directly at [amelia.christie@edinburgh.gov.uk](mailto:amelia.christie@edinburgh.gov.uk).

## NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at [www.eplanning.scot](http://www.eplanning.scot) or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email [localreviewbody@edinburgh.gov.uk](mailto:localreviewbody@edinburgh.gov.uk).

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

# Report of handling

## Recommendations

---

**1.1** It is recommended that this application be Refused for the reasons below.

## Background

---

### 2.1 Site description

The application site relates to a two storey terraced dwelling located towards the south side of Grange Court. The surrounding area is mainly residential.

This application site is located within the Grange Conservation Area.

### 2.2 Site History

There is no relevant planning history for this site.

## Main report

---

### 3.1 Description Of The Proposal

The application is for the replacement of five windows and two doors which are currently white painted timber. The five windows and French door are to be replaced with double glazed PVCU. The front door would be coloured anthracite grey.

### 3.2 Determining Issues

Section 25 of the Town and Country Planning (Scotland) Act 1997 states - Where, in making any determination under the planning Acts, regard is to be had to the development plan, the determination shall be made in accordance with the plan unless material considerations indicate otherwise.

Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states - special attention shall be paid to the desirability of preserving or enhancing the character or appearance of the conservation area.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling reasons for not approving them?

If the proposals do not comply with the development plan, are there any compelling reasons for approving them?

### 3.3 Assessment

To address these determining issues, it needs to be considered whether:

- a) the proposals will preserve or enhance the character or appearance of the conservation area;
- b) there would be no unreasonable loss to neighbour's amenity;
- c) any comments have been addressed.

#### a) Conservation Area

The Grange Conservation Area Character Appraisal emphasises the high quality stone built architecture of restricted height enclosed by stone boundary walls, the uniformity resulting from the use of local grey sandstone for buildings and boundary walls and Scots slate for roofs, the formal and picturesque detached and semi-detached dwellings of generous scale and fine proportions, the low density grain of the area, and the spacious and uncluttered streetscape.

The adopted Edinburgh Local Development Plan policy Env 6 highlights the importance of preserving the character and appearance of the conservation area and the materials used are appropriate to the historic environment.

The existing windows are currently white painted timber. The Council's non statutory guidance for Listed Building's and Conservation Areas states that the use of uPVC within a conservation area is deemed unacceptable. Surrounding properties appear to utilise timber framed windows of a similar design and style. The proposed replacement windows would introduce a non traditional material that is not established within the area.

Additionally, the property forms part of a building that was built during the 1970s and has been designed to utilise materials and style that match existing historic buildings that surround the property.

Taking the above into account, the proposal would result in the introduction of an unacceptable material within the Grange Conservation Area and would not comply with policy Env 6, policy Des 12 and the non statutory guidance. The use of uPVC is not suitable and would detract from the appearance of the building and would not preserve the character of the conservation area.

#### b) Neighbouring Amenity

The proposal has been assessed and would not result in an unreasonable loss of neighbouring residential amenity. The proposal complies with the non-statutory guidance with respect to daylight, sunlight and privacy.

#### c) Public Comments

Three comments of objection have been received:

- Plastic is not a suitable material.
- Proposed windows would not be in keeping with surrounding buildings.

- Windows should match that of the neighbouring buildings.
- Not compatible with the area.
- The use of UPVC does not comply with policy and guidance.
- Building has been designed to fit with surrounding buildings.
- No evidence of UPVC use in other properties.
- Could create an undesirable precedent.

It is recommended that this application be Refused for the reasons below.

### **3.4 Conditions/reasons/informatives**

#### **Reasons:-**

1. The proposal utilises an inappropriate material and would have an adverse impact on the character and appearance of the existing building and would fail to preserve or enhance the character and appearance of the conservation area. The proposal is therefore contrary to Edinburgh Local Development Plan policy Des 12, Env 6, the non-statutory Guidance for Listed Buildings and Conservation Areas, and the Grange Conservation Character Appraisal.

## **Risk, Policy, compliance and governance impact**

---

**4.1** Provided planning applications are determined in accordance with statutory legislation, the level of risk is low.

## **Equalities impact**

---

### **5.1 The equalities impact has been assessed as follows:**

The application has been assessed and has no impact in terms of equalities or human rights.

## **Consultation and engagement**

---

### **6.1 Pre-Application Process**

There is no pre-application process history.

### **6.2 Publicity summary of representations and Community Council comments**

Three representations have been received.

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am writing to object to the current proposal to replace the existing timber windows and front door of this property with uPVC plastic.

I am objecting on the basis that non-traditional, low quality, materials like uPVC plastic are inappropriate in historic settings and not compatible with the character and appearance of the conservation area. Therefore, this proposal is, I believe, contrary to the Council's policies on managing change in the historic environment given that an Article 4 Direction is in place in this area.

Edinburgh City Council's supplementary planning guidance on Listed Buildings and Conservation Areas states that: "Replacement windows and doors on all elevations of unlisted properties ... must match the original proportions, appearance, materials, and opening method. ... Alternative materials such as uPVC will not be acceptable."

Additionally, the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 notes that conservation areas "are areas of special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance". Introducing inappropriate, modern, materials like uPVC plastic to this terraced house neither preserves nor enhances the character or appearance of the conservation area and, on the contrary, would have a negative impact.

Grange Court has both architectural and historic interest and was depicted on the 1st edition OS map. The Canmore entry describes it as having originally comprised of over fifty weaver's houses plus stables. The terraced houses on the South and West ranges of the courtyard, of which number 11 belongs, were constructed in the early 1970s and the material palette of sandstone, pantiles and timber windows and doors, was specifically chosen to complement the high quality of

the original 18th century range to the North.

There are currently no plastic windows or doors in Grange Court (with the unfortunate exception of our French windows, which were installed by previous owners prior to the current policy being in place and which we intend to replace in timber as soon as we can afford to do so). This uniformity of high quality, traditional building materials - sandstone, timber, pantiles and slate - contributes greatly to the unique visual character of the courtyard, which is enjoyed by all residents and also members of the public who occasionally stop by and take photographs.

Both as a resident of the courtyard and as a built heritage professional, I fear that allowing the introduction of uPVC plastic windows and door in this instance would set an undesirable precedent for other properties to follow suit. My concern is that these, seemingly small, incremental changes lead to a steady 'drip drip' of inappropriate alterations, which will eventually erode the special character and visual attractiveness of both Grange Court and the wider conservation area.

I would like to clarify that we are not against our new neighbour replacing his windows and front door to a suitable design in timber - it is the proposed use of uPVC plastic that we object to.

Comment: I object to this proposal. Plastic doors and windows are not suitable for buildings in a conservation area. That seems to me to be a sound principle and I believe that it should be sufficient on its own to reject the proposal. However, the principle is particularly pertinent to Grange Court.

On one side of Grange Court is a tenement building that dates from the 1700s and on the other is a row of terraced houses dating from the 1970s. The houses (that include #11) are ingeniously designed to have a modern look yet be entirely compatible with the ancient building opposite them. That compatibility rests on the houses' simplicity of design as well as resort to similar materials on both sides of the Court. Replacement of wooden frame windows with plastic framed ones will undermine that compatibility and detract from the special attractiveness of the location.

Comment Reasons:

Comment: Thank you for the opportunity to comment on the above planning application. The proposals relate to the property, located within Grange Conservation Area. The applicant wishes to replace existing timber windows and doors to uPVC ones.

The panel has discussed the case and is concerned about the impact that can be made by the proposed alterations. According to the Historic Environment Scotland "Managing Change" Series, new external fixtures must be sited to minimise impact on the architectural integrity and historic fabric of the Conservation Area, and materials, such as uPVC, shouldn't be encouraged and won't be permitted. Policy Env 6 in the Edinburgh Local Plan (LDP) states that proposals to the development within a conservation area or affecting its setting will be permitted which preserve or enhance the special character or appearance of the conservation area and demonstrate high standards of design and utilise materials appropriate to the historic environment. The use of uPVC, mentioned in the drawings, is not acceptable, according to the city's guidance on Listed Buildings and Conservation Areas, 2016, p. 22, 24. Accordingly, the panel wishes to object to the application.

## **Reasons for Review**

Proposed Replacement Windows & Doors  
at  
11 Grange Court, Edinburgh, EH9 1PX.

The existing property is a non-listed, mid-terraced, two-storey building within the Grange Conservation Area. Grange Court is a small cul-de-sac with limited access and the property is largely hidden from view to everyone except the few occupants residing within Grange Court. The property frontage faces North towards the properties on the opposite side of Grange Court. The rear of the property faces South towards the rear of Salisbury Church. The properties which make up Grange Court are of similar sizes and appearances.

*View from the left of 11 Grange Court.  
(Red oval identifies visible PVCU windows)*

The existing windows & doors currently installed on 11 Grange Court are of timber construction. The windows have a casement opening style. Looking at the surrounding properties of Grange Court windows appear to be the original windows for the property. Although they have been fitted with trickle vents, which is a modern feature.

Travelling up and down the length of Grange Court will reveal varying styles and colours of windows& doors from one property to the next with some being timber sliding sash, some are timber casement. PVCU windows can be observed in some of the properties in the immediate area. The number of PVCU units in the area suggests the time for preservation has gone, and although many of them may be unauthorised replacements, nothing has been done, or is likely to be done, to enforce these windows to be returned to timber construction.

The existing windows are not certainly not traditional conservation type and are hardly worth hanging on to. The property has a Juliet balcony to the front with white timber French doors, a feature which is not shared by all of the properties within Grange Court making the street scene quite disjointed.

The proposal seeks to replace all the existing windows and the French doors with white PVCU windows/doors of similar proportions, to provide and maintain the existing appearance which is sympathetic to the property whilst achieving the higher construction quality and lowered maintenance offered by the PVCU construction. The windows will not look out of place in the street due to the reasons mentioned above, instead they will appear as more traditional than many of the windows in some of the other properties.

The proposal also seeks to replace the existing white timber front door with an Anthracite Grey composite door, which would blend in with the darker coloured render surrounding it.

To conclude it is our opinion that a precedent has already been set in the area and in light of the surrounding dwellings which are already fitted with PVCU products, the windows and doors proposed in this instance would not look out of place and would easily blend in to the street scene as a whole.

Front Elevation

5 windows & 2 doors to be replaced in total.  
 Existing windows & doors are white painted timber.  
 Proposed windows & french doors are white PVCU, double glazed, toughened sealed units.  
 Proposed front door is Anthracite Grey composite, double glazed.
