

Addendum by the Coalition

Education Children and Families Committee

24 August 2021

Item 7.5 – School Excursions - Equity

Adds recommendations

1.1.4 Commends schools for their equity work in supporting the attendance of all pupil on P7 residential trips, where cost is a barrier, and notes that for some, this involves financial mitigation for whole cohorts of children and families.

1.1.5 In relation to para 6.3 in the report which states “the estimated costs of investing in a central fund are for illustrative purposes and are not allocated to any budget”. Please report back to October committee to show how a central budget might be funded, how it would be targeted and how it would be distributed
