

REPORT

Public Bodies Climate Change Return Edinburgh Integrated Joint Board 26 October 2020

Executive Summary	This report seeks approval of the Public Bodies Climate
	Change return (attached as Appendix 1) prior to
	submission to Scottish Government. Submission of the
	return is a requirement under the Climate Change
	(Scotland) Act).

Recommendations	It is recommended that the Edinburgh Integrated Joint Board:
	approves the draft EIJB Public Bodies Climate Change Duties (PBCCD) return 2020/21 at Appendix 1.

Directions

Direction to City		
of Edinburgh	No direction required	✓
Council, NHS	Issue a direction to City of Edinburgh Council	
Lothian or both	Issue a direction to NHS Lothian	
organisations	Issue a direction to City of Edinburgh Council and NHS	
	Lothian	

Report Circulation

1. There has been no circulation of this report outside the Edinburgh Health and Social Care Partnership (EHSCP) prior to presentation to the Edinburgh Integrated Joint Board.

Main Report

- 2. In 2009 the Scottish Parliament passed the Climate Change (Scotland) Act which states that a pubic body must, in exercising its functions, act:
 - in the way best calculated to contribute to the delivery of Scotland's climate change targets; (mitigation)
 - in the way best calculated to help deliver any Scottish adaptation programme (adaptation)
 - and in a way that it considers most sustainable (act sustainability)
- 3. In 2015, secondary legislation came into force which requires listed bodies to prepare annual returns on compliance with those climate change duties.
- 4. Integration Joint Boards were required to complete their first return for the year 2016-17 and have completed returns annually since then. No feedback has been received regarding these returns.
- 5. The PBCCD return covering the period 2020-21 is attached as Appendix 1. This is required to be submitted to Scottish Government on or before 30 November 2021.
- 6. EIJB has no direct responsibility for the delivery of service, employs only two members of staff and has no delegated capital assets (buildings, fleet nor IT equipment) and as such has no responsibilities for complying with the climate change duties in these key areas. Responsibilities for these remain with the City of Edinburgh Council and NHS Lothian.
- 7. Guidance on completing the PBCCD return recognises this unique nature of IJBs and that the corresponding local authority and NHS board currently provide the information required. This is reflected in the return. No emissions data has been reported by IJBs to date.
- 8. The Board does however have a responsibility to ensure compliance with the climate change duties in respect of the strategic and financial planning of delegated health and social care services. The return notes that climate change consideration is embedded in the EHSCP through the use of Integrated Impact Assessments (IIAs). IIAs can help ensure that the environmental impact of all new projects, proposals and policies are considered in line with the

requirements of the Climate Change Act outlined in para 1 above. Findings from the IIAs are included in reports to the EIJB and its sub-groups for consideration.

- 9. The PBCCD return references the <u>EIJB's Strategic Plan 2019-22</u>, which commits to working with its partners to support the target of becoming carbon neutral by 2030, and the EIJB's Climate Change Charter, which recognises the work of the <u>Edinburgh Climate Commission</u> and outlines the EIJB's commitments, pledges of support and changes to business practices which will help Edinburgh reach its net zero carbon emission target by 2030.
- 10. The Scottish Government is proposing a review of reporting with a view to possibly customising reporting requirements according to sub-sector or organisation type. The review timescale has not yet been set and so there is no confirmation of the nature or timings of any changes to IJB reporting at this stage.

Implications for Edinburgh Integration Joint Board

Financial

11. There are no additional financial implications arising as a result of the PBCCD return.

Legal / risk implications

12. There is a risk of non-compliance with the duties of the Public Bodies Climate Change Act if the PBCCD return is not submitted by 30 November 2021.

Equality and integrated impact assessment

13. There are no equality issues in relation to the PBCCD reporting.

Environment and sustainability impacts

14. As detailed in the main body of the report.

Quality of care

15. This report does not impact on quality of care.

Consultation

16. There has been no specific consultation carried out with regards to the recommendation.

Appendices

Appendix 1 Public Bodies Climate Change Report

Public Sector Report on Compliance with Climate Change Duties 2021 Template

1. Introduction

This template is for public bodies required to produce annual climate change reports under the 'Climate Change (Duties of Public Bodies; Reporting Requirements) (Scotland) Order 2015'.

The template covers all six parts of the required reporting form, as well as the recommended reporting section on public bodies' wider influence.

All information and data must be entered using this master template available on the SSN website.

Reports must be submitted to ccreporting@ed.ac.uk by 30th November. Reports submitted after this date means the organisation will be non-compliant with Public Bodies Duties legislative reporting requirements.

2. Guidance

- 1. Please save-as this workbook with your organisations name somewhere in the title before completing
- 2. Please fill out question 1f
- 3. Sufficient rows should be available but if you need to add more please email the file to ccreporting@ed.ac.uk
- 4. Homeworking emissions Please include an estimate of emissions associated with homeworking in the designated row provided in table 3b In order for this to be calculated correctly users must complete Q1c relating to number of full time employees (FTEs)
- 5. For question 4d please complete the optional text box instead of the original table which relates specifically to SCCAP1.
- 6. Local Authorities reporting in the recommended section 1a should select their local authority region at the top of the sheet and their emissions will be provided automatically from BEIS datasets

3. Colour Coding used in the template

The Edinburgh Integration Joint Board (EIJB) is a separate and distinct legal entity from City of Edinburgh Council and NHS Lothian. It is responsible for planning the future direction of and overseeing the operational delivery of integrated health and social care services for the citizens of Edinburgh. These services are largely delivered by the Edinburgh Health and Social Care Partnership although some are manged by NHS Lothian on behalf of the EIJB. These are referred to as "hosted" or "set aside" services.

The arrangements for EIJB's operation, remit and governance are set out in the integration scheme which has been approved by the City of Edinburgh Council, NHS Lothian and the Scottish Government.

Adult Social Care Services: •Assessment and Care Management-including Occupational Therapy services•Residential Care•Extra Care Housing and Sheltered Housing (Housing Support provided)•Intermediate Care•Supported Housing-Learning Disability•Rehabilitation-Mental Health•Day Services •Local Area Coordination•Care at home services •Reablement •Rapid Response•Telecare •Respite services•Quality assurance and Contracts•Sensory impairment services•Drugs and alcohol services(Community Health Services•District Nursing•Services relating to an addiction or dependence on any substance.•Services provided by Allied Health Professionals

here applicable, what contributions have been made to the (SCAAP2) Programme?	
nt applicable	

Review, monitoring and evaluation

What arrangements does the body have in place to review current and future climate risks?

Provide details of arrangements to review current and future climate risks, for example, what timescales are in place to review the climate change risk assessments referred to in Question 4(a) and adaptation strategies, action plans, procedures and policies in Question 4(b).

ategies, action plans, procedures and policies in Question 4(b).
arrangements are in place, as this lies with the Council and NHS Board

4f What arrangements does the body have in place to monitor and evaluate the impact of the adaptation actions?

Please provide details of monitoring and evaluation criteria and adaptation indicators used to assess the effectiveness of actions detailed under Question 4(c) and Question 4(d).

	No arrangements are in place, as this lies with the Council and NHS Board	
	Future priorities for adaptation	
	What are the body's top 5 climate change adaptation priorities for the year ahead? Provide a summary of the areas and activities of focus for the year ahead.	
	Priorities for adaptation have not been set, as these lie with the Council and NHS Board	
	Further information Control of the C	
4h	Supporting information and best practice Provide any other relevant supporting information and any examples of best practice by the body in relation to adaption.	
	not applicable	

οт	Description
	5 Procurement
1	How have procurement policies contributed to compliance with climate change duties?
	Provide information relating to how the procurement policies of the body have contributed to its compliance with climate changes duties.
	The procurement of goods and services is not delegated to the IJB and continues to be carried out by CEC and NHS Lothian and will be documented in their respective reports
	How has procurement activity contributed to compliance with climate change duties?
	Provide information relating to how procurement activity by the body has contributed to its compliance with climate changes duties.
	Not applicable
	Further information
2	Supporting information and best practice
	Provide any other relevant supporting information and any examples of best practice by the body in relation to procurement.
	not applicable

	Sector Report on Compliance with Climate Change Duties 2021 Template
RT 6	6 Validation and Declaration
6a	Internal validation process
	Briefly describe the body's internal validation process, if any, of the data or information contained within this report.
	This report will be submitted to the Edinburgh Integration Joint Board for approval
5b	Peer validation process Briefly describe the body's peer validation process, if any, of the data or information contained within this report.
	There has been no peer validation process.
_	Frank Marketine
6c	External validation process Briefly describe the body's external validation process, if any, of the data or information contained within this report.
	There has been no external validation of the information in this report
5d	No Validation Process If any information provided in this report has not been validated, identify the information in question and explain why it has not been validated.
	The strip into this to be the strip of this to be the strip decision and explain why to his not been standard.
5e	Declaration
	I confirm that the information in this report is accurate and provides a fair representation of the body's performance in relation to climate change.
