# Referral Report

## Internal Audit: Overdue Findings and Key Performance Indicators as at 11 August 2021 – referral from the Governance, Risk and Best Value Committee

### 2. Terms of Referral

---

- 2.1 On 21 September 2021, the Governance, Risk and Best Value Committee considered a report on the outcome of the Internal Audit: Overdue Findings and Key Performance Indicators as at 11 August 2021.
- 2.2 The Governance, Risk and Best Value Committee agreed:
  - 2.2.1 To note the status of the overdue Internal Audit (IA) findings as at 11 August 2021;
  - 2.2.2 To approve that a further three-month extension date be applied to all open IA findings, recognising the ongoing impacts of Covid-19 and other priorities and challenges currently faced by the Council;
  - 2.2.3 To note management commitment to the implementation of the governance and assurance model and ensuring appropriate ongoing focus on closure of all high rated findings, and all findings that are more than one year overdue; and,
  - 2.2.4 To refer the report to the relevant Council executive committees and the Edinburgh Integration Joint Board Audit and Assurance Committee for information in relation to the current Health and Social Care Partnership position.

### 3. Background Reading/ External References

### 1. Recommendations

---

- 1.1 It is recommended that the Committee:
- 1.1.1 notes the status of the overdue Internal Audit (IA) findings as at 11 August 2021;
  - 1.1.2 approves the recommendation that a further six-month extension date is applied to all open IA findings, recognising the ongoing impacts of Covid-19 and other priorities and challenges currently faced by the Council;
  - 1.1.3 notes management commitment to implementation of the governance and assurance model and ensuring appropriate ongoing focus on closure of all high rated findings, and all findings that are more than one year overdue; and,
  - 1.1.4 refers this paper to the relevant Council Executive committees and the Edinburgh Integration Joint Board Audit and Assurance Committee for information in relation to the current Health and Social Care Partnership position.

## Internal Audit: Overdue Findings and Key Performance Indicators as at 11 August 2021

### 2. Executive Summary

---

#### **Progress with Closure of Open and overdue Internal Audit findings**

- 2.1 The overall progress status for closure of overdue IA findings remains amber (stable with limited change).
- 2.2 This is supported by closure of an increased number of IA findings and management actions in the current period, with 24 findings (3 open and 21 overdue) and 95 management actions closed following review by IA in comparison to 18 findings (5 open and 13 overdue) and 68 management actions closed in the previous quarter (10 February to 27 April 2021).
- 2.3 This is further supported by a decreasing trend in the proportion of open IA findings that are overdue (KPI 3 in Appendix 1); improvement in the proportion of findings between three and six months overdue (KPI 9); and a decrease in the proportion of overdue management actions (KPI 14).
- 2.4 This progress is offset by a decrease in the proportion of findings and management actions submitted to IA by management for review and closure (KPIs 4 and 15); an increasing trend in findings less than three months and more than six months overdue; and an increase in the number of management actions where the latest implementation date has been missed.
- 2.5 This confirms that ongoing focus is required on closure of findings that are more than one year overdue, and ensuring that open findings and supporting management actions do not miss their agreed implementation dates.
- 2.6 Further detail on the monthly trends in open and overdue findings is included at Appendix 1.

#### **Current position as at 11 August 2021**

- 2.7 A total of 96 open IA findings remain to be addressed across the Council as at 11 August 2021. This excludes open and overdue Internal Audit findings for the Edinburgh Integration Joint Board and the Lothian Pension Fund.
- 2.8 Of the 96 currently open IA findings:

- 2.8.1 a total of 45 (47%) are open, but not yet overdue;
  - 2.8.2 51 (53%) are currently reported as overdue as they have missed the final agreed implementation dates. This reflects an increase of 4% in comparison to the April 2021 position (63%).
  - 2.8.3 78% of the overdue findings are more than six months overdue, reflecting an increase of 8% in comparison to April 2021 (70%) with 25% aged between six months and one year and 53% more than one year overdue.
  - 2.8.4 evidence in relation to 3 of the 51 overdue findings is currently being reviewed by IA to confirm that it is sufficient to support closure; and,
  - 2.8.5 48 overdue findings still require to be addressed.
- 2.9 The number of overdue management actions associated with open and overdue findings where completion dates have been revised more than once since July 2018 is 48, reflecting a decrease of 16 when compared to the April 2021 position. This excludes the four-month date extension that was applied to reflect the impact of Covid-19.

### **Proposed Solutions**

- 2.10 Whilst a four month extension date was applied to all open IA findings and supporting management actions reflecting the initial impacts of Covid-19, management has subsequently confirmed that this was not sufficient to fully reflect the ongoing impacts of the pandemic.
- 2.11 It is therefore proposed that a further six month extension is applied to all open IA findings and actions, reflecting the ongoing impacts of the Covid-19 and current Council priorities and challenges as services resume; new ways of working are defined and implemented; and senior leadership review outcomes are implemented.
- 2.12 The impact of the six-month extension is that completion dates for all 45 open findings that are not currently overdue will be extended by six months, and the eleven findings that are currently less than six months overdue will revert to open with completion dates extended by six months.
- 2.13 In the interim, management has committed to ensuring appropriate ongoing focus on closure of all high rated findings, and all findings that are more than six months overdue.
- 2.14 This approach should also provide sufficient time for effective implementation of the new governance and assurance model that was discussed at the August Committee in response to the 2020/21 IA annual opinion.

### **Key Performance Indicators**

- 2.15 The IA key performance indicator (KPI) dashboard was not applied during the 2020/21 plan year as the Council continued to focus on its Covid-19 resilience response.

- 2.16 As advised in the June 2021 Committee paper, ongoing monitoring of IA key performance indicators (KPIs) supported by monthly reporting to the Corporate Leadership Team (CLT) and quarterly reporting has been reinstated to support delivery of the 2021/22 IA annual plan.
- 2.17 Reintroduction of ongoing monitoring of KPIs should also address the Committee request to ensure that audits are carried out in line with the timescales set out in the agreed audit plan.
- 2.18 Reintroduction of KPIs has confirmed that action is required to ensure that services are aware of the KPIs that apply to the audit process and engage proactively with IA to ensure that any potential impacts that could cause delays are identified and effectively managed.

### **3. Background**

---

#### **Overdue IA Findings and Management Actions**

- 3.1 Overdue findings arising from IA reports are reported monthly to the Corporate Leadership Team (CLT) and quarterly to the GRBV Committee.
- 3.2 This report specifically excludes open and overdue findings that relate to the Edinburgh Integration Joint Board (EIJB) and the Lothian Pension Fund (LPF). These are reported separately to the EIJB Audit and Assurance Committee and the Pensions Audit Sub-Committee respectively.
- 3.3 Findings raised by IA in audit reports typically include more than one agreed management action to address the risks identified. IA methodology requires all agreed management actions to be closed in order to close the finding.
- 3.4 The IA definition of an overdue finding is any finding where all agreed management actions have not been evidenced as implemented by management and validated as closed by IA by the date agreed by management and IA and recorded in relevant IA reports.
- 3.5 The IA definition of an overdue management action is any agreed management action supporting an open IA finding that is either open or overdue, where the individual action has not been evidenced as implemented by management and validated as closed by IA by the agreed date.
- 3.6 Where management considers that actions are complete and sufficient evidence is available to support IA review and confirm closure, the action is marked as 'implemented' by management on the IA follow-up system. When IA has reviewed the evidence provided, the management action will either be 'closed' or will remain open and returned to the relevant owner with supporting rationale provided to explain what further evidence is required to enable closure.
- 3.7 A 'started' status recorded by management confirms that the agreed management action remains open and that implementation progress ongoing.

- 3.8 A 'pending' status recorded by management confirms that the agreed management action remains open with no implementation progress evident to date.

#### **IA Key Performance Indicators**

- 3.9 An operational dashboard has been designed to track progress against the key performance indicators included in the IA Journey Map and Key Performance Indicators (KPI) document that was designed to monitor progress of both management and Internal Audit with delivery of the Internal Audit annual plan.
- 3.10 A motion and addendum agreed at Committee in August 2021 requested that audits should be carried out in line with the timescales set out in the agreed audit plan.

## **4. Main report**

---

- 4.1 As at 11 August 2021, there are a total of 96 open IA findings across the Council with 51 findings (53%) now overdue.
- 4.2 The movement in open and overdue IA findings during the period 27 April (reported to GRBV in June 2021) to 11 August 2021 is as follows:

<b>Analysis of changes between 27/04/2021 and 11/08/2021</b>				
	<b>Position at 27/04/21</b>	<b>Added</b>	<b>Closed</b>	<b>Position at 11/08/21</b>
<b>Open</b>	100	20	24	96
<b>Overdue</b>	63	9	21	51

#### **Overdue Findings**

- 4.3 The 51 overdue findings comprise 17 High; 28 Medium; and 6 Low rated findings.
- 4.4 However, IA is currently reviewing evidence to support closure of 3 of these findings (1 High and 2 Medium), leaving a balance of 48 overdue findings (16 High; 26 Medium; and 6 Low) still to be addressed.

#### **Overdue findings ageing analysis**

- 4.5 Figure 1 illustrates the ageing profile of all 51 overdue findings by rating across directorates as at 11 August 2021:

**Fig1: Aged Overdue Findings by Ratings across Directorates**

4.6 This analysis of the ageing of the 51 overdue findings outlined below highlights that Directorates made good progress in the last quarter with resolving findings overdue between three and six months, as the proportion of those findings has significantly decreased. However, this is offset by an increase in the proportion of findings overdue for less than three months; overdue between six months and one year; and findings overdue for more than one year.

- 9 (18%) are less than 3 months (90 days) overdue, in comparison to 10% as at April 2021;
- 2 (4%) are between 3 and 6 months (90 and 180 days) overdue, in comparison to 20% as at April 2021;
- 13 (25%) are between 6 months and one year (180 and 365 days) overdue, in comparison to 19% as at April 2021; and,
- 27 (53%) are more than one year overdue, in comparison to 51% as at April 2021.

## **Management Actions Closed Based on Management's Risk Acceptance**

- 4.7 During the period 27 April 2021 to 11 August 2021 eight management actions have been closed on the basis that management has retrospectively accepted either the full or residual elements of the risks highlighted by IA in original audit reports. These are:
- 4.7.1 Corporate Services - Communications - Controls over access to Social Media Accounts (Medium) - Management has explored the feasibility of allocating unique user ID and profiles to operate social media accounts and discounted it as it was cost prohibitive. Management has therefore accepted the risks associated with the use of generic shared user IDs, making it difficult to trace any potentially adverse social media content or activity to a particular employee.
  - 4.7.2 Health and Social Care - Emergency Prioritisation & Complaints (Medium) - Management has accepted the residual risk of potential manual errors when recording response times. The process is semi-automated via the Jontek application which records the time of the call and the responder's call from the citizen's home and is supported by paper-based records completed by responders.
  - 4.7.3 Corporate Services - Customer and Digital Services - Digital Services Change Initiation (Medium) - Management has accepted the risks associated with not implementing bespoke service levels for complex change requests, as this is not possible within the terms of the CGI partnership agreement.
  - 4.7.4 Corporate Services - Customer and Digital Services - CGI Partnership Management and Governance (Medium) - Management has accepted the risks associated with the limited change and security key performance indicators included in the CGI partnership agreement as it is not possible to change these under the terms of the existing contract.
  - 4.7.5 Corporate Services - Customer and Digital Services - Council oversight of CGI subcontract management (Medium) - Management has accepted the residual risk that sub-contractors providing critical high value services for the Council are not identified and reclassified by CGI; that no formal supplier management arrangements are applied by CGI across these sub-contractors; and that poor supplier performance in relation to critical services is not proactively managed. A quarterly report will be sourced from CGI detailing any changes to sub-contractor services that will inform any category change required to key sub-contractors.
  - 4.7.6 Corporate Services - Customer and Digital Services - Ongoing Dacoll supplier management (Low) - Management has accepted this risk until April 2023 which is when the next discussion regarding a contract extension is due. Additionally, there are no guarantees that Dacoll (a key sub-contractor responsible for the Council's local area networks and end user infrastructure)

supplier performance arrangements will be enhanced as part of these discussions. Current supplier performance issues with Dacoll have been escalated by Digital Services to CGI.

- 4.7.7 Corporate Services - Customer and Digital Services - Out of Support Technology and Public Sector Network Accreditation: Public Services Network governance arrangements (Low) - Management has accepted the residual risk associated with this finding that security risks (that could potentially impact both PSN and Cyber Essentials plus accreditation) identified, recorded, and managed by CGI on behalf of the Council are not currently flowing through into the Council's risk management process. Digital Services has confirmed that this will be addressed in future through the Council's Cyber and Information Security Steering Group risk register. The risk has been closed on the basis the residual risk is low; is within appetite; and that PSN and Cyber Essentials plus accreditation has been received, although this will need to be addressed in future to support implementation of the refreshed operational risk management framework.
- 4.7.8 Place - Waste and Cleansing Services - Performance Management Framework (Low) - Management has accepted the residual risk of not providing a clear link to the Scottish Government's Code of Practice on Litter and Refuse guidance on all customer street cleansing communications. The link has been made available via the Council's website; however management has advised that no direct street cleansing communications issued to customers.

### **Agreed Management Actions Analysis**

- 4.8 The 96 open IA findings are supported by a total of 233 agreed management actions. Of these, 130 (56%) are overdue as the completion timeframe agreed with management when the report was finalised has not been achieved. This reflects a 3% decrease from the April 2021 position (59%).
- 4.9 Of the 130 overdue management actions, 17 have a status of 'implemented' and are currently with IA for review to confirm whether they can be closed, leaving a balance of 113 to be addressed.
- 4.10 Appendix 2 provides an analysis of the 130 overdue management actions highlighting:
- their current status as at 11 August 2021 with:
    - 17 implemented actions where management believe the action has been completed and it is now with IA for validation;
    - 108 started where the action is open, and implementation is ongoing; and
    - 5 pending where the action is open with no implementation progress evident to date.
  - 70 instances (54%) where the latest implementation date has been missed; and

- 48 instances (37%) where the implementation date has been revised more than once.

4.11 Figure 2 illustrates the allocation of the 130 overdue management actions across Directorates, and the 17 that have been passed to IA for review to confirm whether they can be closed.

### Revised Implementation Dates

- 4.12 Figure 3 illustrates that there are currently 48 open management actions (including those that are overdue) across directorates where completion dates have been revised between one and five times since July 2018. This number excludes the automatic extension applied by IA to reflect the impact of Covid-19.
- 4.13 This reflects a decrease of 16 in comparison to the position reported in April 2021(64).
- 4.14 Of these 48 management actions, 22 are associated with High rated findings; 23 Medium; and 3 Low, with the majority of date revisions in the Place Directorate.

**Figure 3 - management actions with more than one revised completion date since July 2018**

### Key Performance Themes Identified from the IA Dashboard

- 4.15 The IA key performance indicator dashboard was not applied during the 2020/21 plan year as the Council continued to focus on its Covid-19 resilience response.
- 4.16 The dashboard has now been reinstated for 2021/22 as advised in the June report presented to Committee, to support smooth delivery of the 2021/22 IA annual plan and prevent delayed completion of audits and finalisation of reports shortly before finalisation of the IA annual opinion.
- 4.17 Reintroduction of the KPIs supported by monthly reporting to the Corporate Leadership Team and quarterly to the Committee will highlight any significant delays that could potentially impact on delivery of the annual plan, and is aligned with the requirements of both the motion and addendum agreed at Committee in August 2021 requesting that audits will be carried out in line with the timescales set out in the agreed audit plan.
- 4.18 For the 10 audits currently in progress across the Council where a terms of reference has been issued the dashboard at Appendix 3 highlights that:
  - 4.18.1 8 service responses have been received within agreed KPI timeframes;
  - 4.18.2 Executive Director responses are generally within agreed timeframes;
  - 4.18.3 Agreement on the Digital and Smart City terms of reference with Digital Services involved extensive engagement and was impacted by annual leave;

- 4.18.4 Service responses on the terms of reference for the Fraud and Serious Organised Crime audit have not yet been received from all services included in the scope of the review;
- 4.18.5 Finalisation of the report and workshop with management for the Planning and Performance Framework review was significantly impacted by the timing of annual leave; and,
- 4.18.6 The Elections in the Covid-19 environment audit was completed effectively with management and IA working closely to provide assurance in advance of the May 2021 Scottish parliament elections.

## **5. Next Steps**

---

- 5.1 IA will continue to monitor the open and overdue findings position and delivery against key performance indicators, providing monthly updates to the CLT and quarterly updates to the Governance, Risk and Best Value Committee.

## **6. Financial impact**

---

- 6.1 There are no direct financial impacts arising from this report, although failure to close findings and address the associated risks in a timely manner may have some inherent financial impact.

## **7. Stakeholder/Community Impact**

---

- 7.1 If agreed management actions supporting closure of Internal Audit findings are not implemented, the Council will be exposed to the service delivery risks set out in the relevant Internal Audit reports. Internal Audit findings are raised as a result of control gaps or deficiencies identified during reviews therefore overdue items inherently impact upon effective risk management, compliance and governance.

### Trend Analysis - key

Adverse trend - action required

Stable with limited change

Positive trend with progress evident

No trend analysis is performed on open findings and findings not yet due as these numbers will naturally increase when new IA reports are finalised

## Appendix 2 - Internal Audit Overdue Management Actions as at 11 August 2021

### Glossary of terms

1. Project – This is the name of the audit report.
2. Owner – The Executive Director responsible for implementation of the action.
3. Issue Type – This is the priority of the audit finding, categorised as Critical; High; Medium; or Low
4. Issue – This is the name of the finding.
5. Status – This is the current status of the management action. These are categorised as:
  - Pending (the action is open and there has been no progress towards implementation),
  - Started (the action is open, and work is ongoing to implement the management action), and
  - **Implemented** (the service area believes the action has been Implemented and this is with Internal Audit for validation).
6. Agreed Management action – This is the action agreed between Internal Audit and Management to address the finding.
7. Estimated date – the original agreed implementation date.
8. Revised date – the current revised date. **Red** formatting in the dates field indicates the last revised date is overdue.
9. Number of revisions – the number of times the date has been revised since July 2018.
10. **Amber** formatting in the dates field indicates the date has been revised more than once.
11. Contributor – Officers involved in implementation of an agreed management action.

Whilst the vision is to have all property data in CAFM, the volume of property data that could be captured and recorded is near infinite, therefore property data that will retained in CAFM has to be focused on the effort and cost to collect versus the value it provides. The CAFM Business Case includes requirement for a Data Quality Manager, who will be the responsible data steward for Property and Facilities Management (P&amp;FM) data. Their role is not necessarily to collect the data but to ensure rigor and control over it. This will involve ensuring regular reviews of data within the system and ensuring that data is managed and maintained in line with the established CAFM data hierarchy and agreed Council information management policies and procedures. Sharing data steward responsibilities across services is problematic, as they hold responsibility and accountability for the data under their remit. It would be highly unlikely that a data steward from another service would want to take on the additional accountability of data from P&amp;FM. We recommend that P&amp;FM establish their own data steward. The CAFM Business Case includes the delivery of a Data Quality Strategy for P&amp;FM. The objective of the data quality strategy is to attribute risk and value to the data maintained in the system. Additionally: data change processes and procedures that capture data processing and management in CAFM will be designed and implemented. processes for reviewing data quality, for example, review of condition survey data run in tandem with review of property data every five years, will be designed and implemented. data validation controls within CAFM will be applied; and data quality audit controls for individual data fields available in CAFM will be applied, and audit reports</p>	<p><b>Revised Date:</b> <b>01/08/2022</b></p> <p><b>No of Revisions</b> <b>1</b></p>	<p>Audrey Dutton Brendan Tate Gohar Khan Peter Watton</p>

				<p>agency workers, but these include all leavers and do not specifically highlight those who are drivers. As part of our engagement with the Strategy and Communications Business Hub, we will determine whether leaver reports can be provided that include details of vocational and grey fleet drivers. If this is not possible, we will engage with Continuous Improvement to determine whether it is possible to design and implement an electronic process that compares the employee data in the leavers reports with the data retained in the Fleet Services Tranman driver database to identify those leavers who are drivers. If this is not possible, a manual comparison will continue to be performed and leavers who are drivers will be removed from the Tranman database and advised to Davis 5 and 6 - Once the data cleanse and reconciliation has been performed, the Council will have an accurate record of all known vocational, grey fleet, and agency drivers that details where checks have been performed and permits issued. The ongoing reconciliation to be performed at 2 above will ensure that this remains complete and accurate 7. E Davis will perform the licence checks as soon as permission forms are received by them. Davis also provides management information in relation to permissions that are due to expire. MI re permissions that are due to expire.</p>

	Paul Lawrence, Executive Director of Place and SRO			payment has not been made. There is no evidence from directorate monitoring the level of income from HMOs licence applications which would demonstrate that fees are not being collected. Any unmatched fee not identified will in effect contribute to the Council's general revenue account and therefore there is no financial loss to the Council. The Internal Audit recommendation outlined above is not accepted as it not believed to be achievable. Therefore Licencing; Customer; and Finance will investigate potential solutions re the BACS issue, (including any potential scope for a technology solution) to address this risk. These options will be reviewed with Internal Audit and a longer-term solution identified and implemented. It has been agreed with Internal Audit that (once the solution has been identified) another audit finding will be raised that will monitor implementation of the solution to confirm that it is operating effectively. In the meantime, a statement will be added to the Licencing pages on the Council's external website and application forms advising customers of what reference must be used to successfully make a BACs payment.	<b>Revisions 1</b>	Grace McCabe Isla Burton
37	HMO LicensingPL1803 Issue 3 - Operational Performance and ReportingPaul Lawrence, Executive Director of Place and SRO	<b>Medium</b>	PL1803 Issue 3.6 HMO Key Performance Indicators and Performance Reporting Started	The Regulatory Committee were previously advised that HMO performance data would be excluded whilst the Licencing introduced the significant change of moving towards a three-year licensing system. Performance reports therefore only included Civic and Taxi data in the period 2015-2018. Licencing will be reporting to Regulatory Committee on the first cycle of three-year licencing for HMO's prior to the setting of Licensing Fees for 2020/21 in early 2020. The Directorate will include within that report relevant performance data and	<b>Estimated Date:31/01/202 0 Revised Date:01/06/202 0 No of Revisions0</b>	Alison CoburnAndrew MitchellDavid GivanGeorge GauntGrace McCabeIsla Burton

The Scientific Services team have reviewed the comment above against current legislation and will implement the following refreshed approach: Rather than a rolling programme covering all 20,000 Housing Property Services (HPS) properties equally, different types of property are classed in different priority risk categories. The Council has responsibility for 44 multi storey blocks and 33 Sheltered Housing complexes. These properties are all classed as high risk and assessments will be carried out within the stated two-year period currently specified in the Council's water policy, and then every two years going forward. The remaining properties on the Housing estate are considered low level priority and legislation states that these surveys should be undertaken over a five-year period. Risk assessments will be carried out on sample properties for these low risk properties. For example, in a street of 100 homes with 20 different house types, only 20 surveys would be required. 2. Providing that Housing Property Services as the risk owner allocate sufficient budget resource, Scientific Services are comfortable that this work will not put a strain on their current resources and as the approach adopted is in line with the Council's Water Safety Policy and applicable regulations, there is no	<p><b>Estimated Date:</b> <b>31/12/2020</b></p> <p><b>Revised Date:</b></p> <p><b>No of Revisions</b> <b>0</b></p>	<p>Alison Coburn Gareth Barwell Jemma Tennant Robbie Beattie</p>

58	<p>Records Management - LAAC</p> <p>CW1705 Issue 1: Project file review process</p> <p>Julien Kramer, Interim Director of Communities and Families</p>	Medium	<p>CW1705 Issue 1.3: Quality assurance checks</p> <p>Started</p>	<p>Project management information will be monitored weekly to identify the volume of files that have been reviewed by the project team and an independent risk based quality assurance approach developed and implemented that focuses on files that have not been 'split' by the project team, to confirm that they have been accurately classified as files that have not been merged prior to their return to Iron Mountain for archiving. Quality assurance sample sizes will be selected at the start of each week and will depend on the volumes of files reviewed by the project team and the relevant proportion of non-merged and merged files. Where merged files have been identified and split by the project team, a lighter touch approach involving peer reviews will be adopted to ensure that the project file review process has been consistently applied and appropriate actions implemented. Quality assurance outcomes will be recorded and all significant errors (for example failure to identify merged files), areas of good practices, and areas for improvement will be shared with the project team. Availability of quality resource will be monitored throughout the project to ensure that it remains adequate to complete an appropriate number of QA reviews based on file outcomes. A retrospective sample of cases already reviewed by the project team will also be selected for retrospective review based on the approach outlined above. The project team will work to an end of February date for implementation of quality assurance within the project team with an end of March date for Internal Audit to review the process applied.</p>	<p><b>Estimated Date:</b> 31/03/2020 <b>Revised Date:</b> 31/03/2022 <b>No of Revisions</b> 4</p>	<p>Alison Roarty Ani Barclay Freeha Ahmed Jackie Irvine John Arthur Liz Harrison Louise McRae Nichola Dadds Nickey Boyle Nicola Harvey Stephen Moir</p>

87	Road Services Improvement Plan  PL1808 Issue 2. Roads services performance monitoring and quality assurance  Paul Lawrence, Executive Director of Place and SRO	High	PL1808 - 2.1 Service Delivery Performance Monitoring  Started	One of the roles included in the new Roads structure is a Roads Service Performance Coordinator. The team member appointed to this role will be responsible for designing; implementing; and maintaining a performance and quality assurance framework that will incorporate the recommendations made to support ongoing monitoring and management of the Roads service. This will involve ensuring that all Roads teams develop team plans that include key performance measures; outline their respective roles and responsibilities for delivery; and are aligned with overall Council's commitments that are relevant to Roads.	<b>Estimated Date:</b> <b>31/07/2020</b> <b>Revised Date:</b> <b>30/09/2021</b> <b>No of Revisions</b> <b>2</b>	Alison Coburn Cliff Hutt David Givan Gareth Barwell Gavin Brown George Gaunt Jamie Watson Jordan Walker Nicole Fraser Sean Gilchrist
88	Road Services Improvement Plan  PL1808 Issue 2. Roads services performance monitoring and quality assurance  Paul Lawrence, Executive Director of Place and SRO	High	PL1808 - 2.2 Roads services quality assurance framework  Started	1. The existing Transport Design and Delivery quality framework will be revised to reflect the new Roads and Transport Infrastructure Service and rolled out across the service. As part of this review, the recommendations highlighted above will be considered and incorporated where appropriate. The Design, Structures and Flood Prevention Manager will be responsible for refreshing the quality framework once appointed. 2. A sampling regime will be designed and embedded for safety inspections to ensure that defects are being	<b>Estimated Date:</b> <b>30/06/2020</b> <b>Revised Date:</b> <b>31/03/2021</b> <b>No of Revisions</b> <b>1</b>	Alison Coburn Cliff Hutt David Givan Gareth Barwell Gavin Brown George Gaunt Jamie Watson Jordan Walker Nicole Fraser Sean Gilchrist

				categorised properly. This process will be designed and implemented by the Team Leader for Safety Inspections to be appointed as part of the ongoing restructure. 3. A sampling regime will be designed and embedded for road defect repairs to ensure that repairs are fit for purpose and effective. 4. Key performance indicators for each team will be included in the target setting for each 4th tier manager and their direct reports to ensure focus on these measures. Emerging themes from Team Plans and quality assurance reviews will also be shared with Roads teams, and individual and team training needs will be considered based on the themes identified. This process will be designed and implemented by the Service Performance Coordinator to be appointed as part of the ongoing restructure.

116	<p>Social Work Centre Bank Account Reconciliations</p> <p>Corporate Appointee Client Fund Management</p> <p>Judith Proctor, Chief Officer - HSCP</p>	High	<p>Recommendation 1a - Health &amp; Social Care</p> <p>Started</p>	<p>1. Health and Social Care: Given the considerable business support and social worker resources implications, the above recommendations will take time to design, implement and maintain. Business Support is resolving problem appointee arrangements as we go along, however, the backlog of reviews will need a programme management approach to rectify errors and support the governance required. In the meantime, associated risks will be added to the Partnership's risk register to monitor controls and progress on a monthly basis, given its high finding rating. Following the Care Home Assurance Review, the Partnership is developing a self-assurance control framework. Locality Managers have agreed for corporate appointee arrangements to be included in the assurance framework – which if found to be successful and useful, can be mirrored by the other applicable services in this report. Business Support is working on new guidelines for the administration of Corporate Appointeeship (e.g. new procedures, monthly checklists, etc.), which will support the effective delivery of the framework.</p>	<p><b>Estimated Date:</b>  <b>28/06/2019</b>  <b>Revised Date:</b>  <b>01/11/2021</b>  <b>No of Revisions</b>  <b>3</b></p>	<p>Alison Roarty  Angela Ritchie  Colin Beck  Louise McRae  Tony Duncan</p>

Following the completion of further wards in the EESLP, Internal Audit will perform sample testing to ensure the data held on Confirm is accurate and complete, and that electrical testing outcomes are being recorded. IA will also confirm that the inventory checks have been designed and implemented. It is expected that the EESLP will complete in late 2021, and therefore an implementation date of 31/03/2022 has been agreed with IA.</p>	<p><b>Estimated Date:</b> <b>20/12/2019</b></p> <p><b>Revised Date:</b> <b>31/03/2022</b></p> <p><b>No of Revisions</b> <b>4</b></p>	<p>Alan Simpson Alison Coburn Claire Duchart Cliff Hutt David Givan Gareth Barwell Gavin Brown George Gaunt Lindsey McPhillips Nicole Fraser Robert Mansell Tony Booth</p>

120	<p>Supplier Management Framework and CIS Payments</p> <p>RES1809 Issue 1: Contract Management by Directorates and Service Areas</p> <p>Judith Proctor, Chief Officer - HSCP</p>	High	<p>RES1809 Issue 1.2(1): Supplier management quality assurance - H&amp;SCP</p> <p>Pending</p>	Health and Social Care Partnership Quality assurance monitoring is performed over the two Partnership contracts included in the Internal Audit sample, through the Multi Agency Quality Assurance meetings held every two months – one for care at home/care and support, and another one for care homes and adult residential. The terms of reference of this enhanced monitoring arrangement include care inspectorate grades and care service feedback complaints. There are also areas of excellent practice with some weekly supplier meetings and ongoing monitoring, and some suppliers have payment terms that are linked to quarterly performance (for example the Sustainable Community Support Programme). These recommendations are accepted and will be implemented following implementation of the refreshed Contracts management framework (that includes an enhanced contract risk assessment matrix for the Partnership), and refresh of the Partnership contracts register.	<p><b>Estimated Date:</b> <b>29/06/2021</b></p> <p><b>Revised Date:</b> <b>01/11/2021</b></p> <p><b>No of Revisions</b> <b>0</b></p>	<p>Angela Ritchie Moira Pringle Tony Duncan</p>

125	<p>Supplier Management Framework and CIS Payments</p> <p>RES1809 Issue 2: Contracts and Grants Management Strategic Direction</p> <p>Stephen Moir, Executive Director, Corporate Services</p>	High	<p>RES1809 Issue 2.3: Project Governance supporting implementation of the Public Contracts Scotland Tendering technology system</p> <p>Started</p>	<p>This system is already well-established in other public sector partners, and supported by the Scottish Government, and has been identified by Scotland Excel as an appropriate e-solutions system to support contract and supplier management. Training sessions have already been held, including a day session focussed entirely on contract management functionality. All members of the team have had access to the system for a suitable period of time, to allow for learning on a test system and have built up a thorough knowledge of the system's capability to upload contract documentation. The mass upload of contract documentation is a key factor in the successful roll out of the system, and the team continues to get support from contemporary teams in Scottish Government and other public sector partners who have carried this out. Training sessions have been held with a number of contract managers across 4 directorates, focussing on 6 Tier 1 contracts, some with cross-directorate delivery. 40 suppliers have also been involved in the trial to date. The team are continuing to monitor the trial, with regular updates from contract managers and will use all lessons learned to prepare the project plan for full roll out of the system. The C&amp;GM team will design and apply a suitable project management and governance framework to support PCS-T implementation. This will include additional suitable system testing, and training for service area contract managers who would be using the system to store and access contract documentation. As stated above, the team is already also working with public sector partners, to identify best practice to assist the successful roll out the contract management module. Commercial and Procurement Services are already considering</p>	<p><b>Estimated Date:</b> <b>31/12/2020</b></p> <p><b>Revised Date:</b> <b>31/12/2021</b></p> <p><b>No of Revisions</b> <b>1</b></p>	<p>Annette Smith Gavin Brown Hugh Dunn Iain Strachan Layla Smith Michelle Vanhegan Mollie Kerr</p>

				the possible adoption of PCS-T as the Council's eProcurement system, bringing an end to end approach to procurement and management of contracts. This work is continuing, and the PCS-T Working Group which has been established within Commercial and Procurement Services will take forward both aspects. If it is decided to adopt PCS-T for the Council's actual procurement processes, and not just contract management, then it is noted that the actual implementation of that would take longer, as there would be a greater direct impact upon other Council services.
