Filming in Edinburgh 2021

Executive/routine Wards Council Commitments	Executive All 2
---	---------------------------------------

1. Recommendations

- 1.1 It is recommended that Committee
 - 1.1.1 Notes the city success in attracting and facilitating film and television production in Edinburgh in 2021; and
 - 1.1.2 Notes the economic impact of filming in the city.

Paul Lawrence

Executive Director of Place

Filming in Edinburgh 2021

2. Executive Summary

- 2.1 This report provides the annual report on ongoing work of the City of Edinburgh Council's film office 'Film Edinburgh' including the economic impact of filming in Edinburgh for 2021.

3. Background

- 3.1 Edinburgh's film office, Film Edinburgh, was established in 1991, and has successfully supported location filming in Edinburgh and south east Scotland for over 30 years. In the ten years from 2010 to 2019 inclusive, filming in the city region delivered an estimated £72m into the local economy.
- 3.2 In April 2020, Film Edinburgh transferred to the City of Edinburgh Council, bringing responsibility for managing and attracting filming to Edinburgh, East Lothian and the Scottish Borders into the Council's Culture and Wellbeing Service.
- 3.3 The British Film Institute (BFI) published its [Screen Business Report](#) in December 2021, providing a comprehensive analysis of the economic contribution of the United Kingdom's (UK's) screen sector tax reliefs and their success as drivers of economic investment. The UK screen sector is on a growth trajectory, with £13.4bn of investment from film and high-end television from 2017 - 2019, with Scotland's share during this period estimated at £472.6m
- 3.4 The BFI reported that [the economic impact of filming in the UK in 2021](#) increased to £5.6bn, of which 84% was inward investment from 'streamers' and major production studios. The impact has increased steadily year on year (with the exception of 2020) from £1.3bn in 2013 when tax reliefs were first introduced to the UK.
- 3.5 Edinburgh's experience as a filming destination, coupled with the establishment of a dedicated film studio in Leith as well as in Bathgate, put the city in a good position to attract a greater share of UK production activity.
- 3.6 The [City of Edinburgh Council's Film Charter](#) was established in 1999 and renewed in 2008 and 2014 and outlines the Council's commitments to facilitate film and television production in the city as follows:
- 3.6.1 Cooperation in dealing with filmmakers' requests;

- 3.6.2 Intra-departmental and agency coordination;
 - 3.6.3 Facilitation of requests under the statutory requirements of the appropriate health and safety and road traffic regulations;
 - 3.6.4 Fees for Council property will be in line with the UK market norm for film work and will reflect recoupment of costs to the city; and
 - 3.6.5 Productions will abide with the Code of Practice for Filming in Edinburgh.
- 3.7 The Code of Practice for Filming in Edinburgh was updated and approved by the Culture and Communities Committee in [January 2019](#) to reflect current best practice and to support the film office in managing the city's success as a filming destination, ensuring the city thrives for all.
- 3.8 A [Covid Annexe to the Code of Practice](#) was agreed by the Council's Incident Management Team in August 2020, enabling the safe resumption of filming in the city.

4. Main report

- 4.1 After a year of disruption in 2020, in which all but public information films and essential broadcasting were put on hold from March to July, 2021 saw a strong return to filming in Edinburgh and south east Scotland. Table A of Appendix 1 captures this, with productions following Scottish Government-approved guidelines for Covid safety and Edinburgh's Covid Annexe to the Code of Practice.
- 4.2 Film Edinburgh recorded 270 filmed productions over 693 days. A full list of productions can be found in Appendix 2.
- 4.3 There were 345 enquiries about filming in the region, with a conversion rate of 78%.
- 4.4 The economic impact on the local economy from these productions was £13.9m (with a 3% multiplier applied). This is significantly higher than anticipated and reflects the direct impact of having two film studios in the city region (see Table B of Appendix 1).
- 4.5 The number of productions and economic impact (without multiplier) is broken down as follows:
- 4.5.1 21 feature films and TV dramas (8% of all productions), with an economic impact of £11.6m;
 - 4.5.2 106 factual TV programmes (39% of the total) with an economic impact of £298,500;
 - 4.5.3 113 commercials, corporate and music promos (42% of the total) with an economic impact of £1.5m; and
 - 4.5.4 30 shorts/other productions (11% of the total) with an economic impact of £99,400.
- 4.6 In 2021 the total amount of income generated for the City of Edinburgh Council from filming in the city was £98,811, compared to £17,668 in 2020.

- 4.7 Edinburgh's drama highlights include Amazon's *The Rig* and *Good Omens series 2*, both of which were based in local film studios; *The Lost King*, Stephen Frears' feature film about the discovery of the body of King Richard III by an Edinburgh academic; *Downton Abbey 2* which filmed on The Royal Yacht Britannia; *Guilt series 2* and Irvine Welsh's *Crime*, two Edinburgh-set crime dramas which filmed exterior locations in the city; *A Very British Scandal: The Duchess of Argyll* and *Tetris* both of which filmed in Parliament Square; *The Princess Switch 3* and *Outlander 6* which filmed at stately homes on the edge of the city.
- 4.8 While the number of filming enquiries and productions in 2021 remained slightly below pre-Covid levels, the economic impact of the productions that filmed here was lifted to the value derived in previous years when the city hosted major Hollywood blockbusters (see Table D of Appendix 1). This is explained by the impact of having three major drama productions based in Edinburgh for both their preparation and filming: *The Lost King*, based in the city for four months; *The Rig* based in Leith's FirstStage Studios for eight months and *Good Omens* which, while based in the Pyramids film studio in Bathgate for nine months, used Edinburgh for cast and crew accommodation, transport and other local services as well as some exterior location filming.
- 4.9 The BFI's Screen Business report 2021 found that between 40% and 60% of the budget of feature films and TV dramas is spent in the general community on production requirements such as cleaning, office supplies, transport, catering, construction materials, plant hire etc.
- 4.10 A positive impact of the strong return to production has been the number of employment opportunities for local practitioners.
- 4.11 The two film studio-based productions provided full-time work opportunities for 149 Edinburgh-based practitioners, 23 of which were trainees and entry level crew.
- 4.12 In anticipation of continued employment opportunities in the film and TV production sector, the number of local crew and production services registered with Film Edinburgh grew substantially over 2021, further supporting the capacity of the city to host productions. These are captured as follows:
- 4.12.1 387 local crew, an increase of 14% on 2020;
 - 4.12.2 145 local production services, an increase of 9% on 2020;
 - 4.12.3 70 local production companies, an increase of 3% on 2020; and
 - 4.12.4 1,195 locations, of which 19 registered in 2021.

5. Next Steps

- 5.1 It is intended that Film Edinburgh will continue to encourage film and television productions to locate in Edinburgh in line with the Film Charter and Code of Practice for Filming, in support of the Council's commitment to economic recovery and

towards a thriving city (Outcome 7 of the Council's [2021-24 Business Plan: Our Future Council, Our Future City](#)).

- 5.2 The achievement of the city's success as a filming location relies on continued support and cooperation across Council services, external agencies and city partners, and it is intended that Film Edinburgh will continue to work with colleagues on strengthening and streamlining procedures between the Council services.
- 5.3 Research by the [BFI](#) and [Screen Scotland](#) shows that while the industry is aware of the UK's and Scotland's legally binding carbon reduction commitments, there is little regulation to enforce sustainable practices.
- 5.4 This issue requires immediate consideration in order to meet Edinburgh's commitment to net zero by 2030 and the introduction of the Low Emission Zone (LEZ) which will affect current practices of city centre location filming.
- 5.5 Trade body BECTU Vision has recognised the need for direct action in Scotland and has appointed a Screen Sustainability Manager. Film Edinburgh has a long history of working with BECTU Vision on their entry level training programmes and welcomes the opportunity to work with the Screen Sustainability Manager and will report to the Committee on findings and outcomes.

6. Financial impact

- 6.1 Filming in Edinburgh in 2021 generated £98,811 of income to the City of Edinburgh Council, compared to £17,668 in 2020 and £249,186 in 2019, highlighting the disparity between a year impacted by the Covid pandemic, a year in which the city hosted a globally successful movie franchise, and the first year of Edinburgh's film studios. In general, revenue fluctuates according to the type of filming in the city as well as the selected locations and impact therein.
- 6.2 Film Edinburgh generated £16,600 (April 2021 to end February 2022) for its service through partnership funding, accommodation services, location registration and Notices of No Objection which were introduced following approval by Policy and Sustainability Committee in [November 2020](#).
- 6.3 The financial outlook for 2022 is positive with continued demand for the film studios as well as our locations.

7. Stakeholder/Community Impact

- 7.1 Filming in the city is anticipated to continue to contribute to the city's economic recovery in 2022, based on local businesses deriving £13.8m from filming in 2021.
- 7.2 The long-lasting benefits of filming in the city extend, beyond the direct investment of a film production into the local economy, to the on-screen promotion of the city to local, regional, UK and worldwide audiences, with recognisable impact to the tourism and hospitality industry as well as civic and business pride in association with a successful film and television production.

- 7.3 Community engagement is a core part of a production company's responsibilities while filming in the city. Film Edinburgh provides an essential and effective interface between communities/individuals and productions, ensuring that any potential impact on a community from filming is communicated and discussed with residents and businesses, queries or concerns addressed, and mitigation put in place as and when required, as outlined in the Code of Practice for Filming.
