

**QUESTION NO 23**

**By Councillor Nicolson for answer by the Convener of the Transport and Environment Committee at a meeting of the Council on 22 September 2022**

**Question**

As a Council we have previously recognised the extreme difficulties caused for some residents as a result of flooding following major rainfall events, something we are seeing happen more frequently as a result of climate changes. One practical issue which has emerged is the supply of sandbags at appropriate times for some elderly or disabled residents who cannot collect them in person from fire service stations, as is the current practice.

What solutions to this would the Convener suggest that can be implemented effectively ahead of the winter season?

**Answer**
