

Development Management Sub-Committee Report

Wednesday 9 November 2022

**Application for Planning Permission
29B Blair Street, Edinburgh, EH1 1QR.**

Proposal: Retrospective COU from residential to short-term let visitor accommodation (sui generis).

**Item – Committee Decision
Application Number – 22/02338/FUL
Ward – B11 - City Centre**

Reasons for Referral to Committee

Given the level of public interest in relation to the issue of short term lets, it is considered appropriate that this application be determined by Committee.

Recommendation

It is recommended that this application be **Granted** subject to the details below.

Summary

The proposal is acceptable with regard to Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will not harm the listed building or its setting and it will preserve or enhance the character or appearance of the conservation area.

The proposal complies with the relevant policies with the Edinburgh Local Development Plan and SPP. There are no material considerations that outweigh this conclusion. The proposal is acceptable.

SECTION A – Application Background

Site Description

The application site is a basement, two bedroom flat located below other private residences on the western side of Blair Street. The property has its own access to the street.

Blair Street is of mixed character, with a mix of different uses, including leisure and entertainment uses, offices, public houses and residential properties. Public transport links are easily accessible from the site.

The application property is part of a category B listed building, 27-31 (ODD NOS) BLAIR STREET (FORMER STATIONARY WORKS), LB28332, 29/04/1977.

The application site is in the Old Town Conservation Area and the Edinburgh World Heritage Site.

Description of the Proposal

The application is for a retrospective change of use from residential to short term let (sui generis). No internal or external physical changes are proposed. The applicant has advised that the property has been used as a Short Term Let (STL) since 2017.

Section B - Assessment

Determining Issues

Due to the proposals relating to a listed building(s) and being within a conservation area, this report will first consider the proposals in terms of Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 (the "1997 Heritage Act"):

- a) Is there a strong presumption against granting planning permission due to the proposals:
- (i) harming the listed building or its setting? or
 - (ii) conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?
- b) If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

If the proposal is in accordance with the development plan the determination should be to grant planning permission unless material considerations indicate otherwise?

If the proposal is not in accordance with the development plan the determination should be refuse planning permission unless material considerations indicate otherwise?

In the assessment of material considerations this report will consider:

- the Scottish Planning Policy presumption in favour of sustainable development, which is a significant material consideration due to the development plan being over 5 years old;
- equalities and human rights;
- public representations and
- any other identified material considerations.

Assessment

To address these determining issues, it needs to be considered whether:

a) The proposals harm the listed building and its setting?

The following HES guidance is relevant in the determination of this application:

- Managing Change in the Historic Environment: Guidance on the principles of listed buildings
- Managing Change in the Historic Environment: Setting

Managing Change in the Historic Environment: Interim Guidance on the principles of listed building consent sets out the principles for assessing the impact of a development on a listed building.

Managing Change in the Historic Environment: Setting sets out the principles that apply to developments affecting the setting of historic assets or places including listed buildings and conservation areas. It includes factors to be considered in assessing the impact of a change on the setting.

There are no external or internal alterations proposed. As such, the proposal will not have an adverse impact on or cause harm to the listed building. The setting of the listed building and the setting of neighbouring listed buildings will be unaffected by the proposal.

Conclusion in relation to the listed building

The proposal does not harm the character of the listed building, or its setting. It is therefore acceptable with regard to Section 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

b) The proposals harm the character or appearance of the conservation area?

Section 64(1) of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states:

"In exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area."

The Old Town Conservation Area Character Appraisal emphasises the survival of the original medieval street pattern; the wealth of important landmark buildings; the survival of an outstanding collection of archaeological remains, medieval buildings, and 17th-century town houses; the consistent and harmonious height and mass of buildings; the importance of stone as a construction material for both buildings and the public realm; the vitality and variety of different uses; and the continuing presence of a residential community.

As stated previously, there are no external changes proposed. Therefore, the impact on the character and appearance of the conservation area is acceptable.

Conclusion in relation to the conservation area

The proposals are acceptable with regard to Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

c) The proposals comply with the development plan?

The development plan comprises the Strategic and Local Development Plans. The relevant Edinburgh Local Development Plan 2016 (LDP) policies to be considered are:

- Environment Policies, Env 1, Env 3 and Env 6.
- Housing Policy, Hou 7.
- Delivering the Strategy Policy, Del 2
- Transport Policies, Tra 2 and Tra 3.

The non-statutory 'Listed Buildings and Conservation Area' guidance is a material consideration that is relevant when considering LDP Policies Env 3 and Env 6.

The non-statutory guidance for Business is a material consideration when considering LDP Policy Hou 7.

Listed Buildings and Setting

The impact on the setting of the listed building and on the setting of neighbouring listed buildings has been assessed in section a) above which concluded that this would be preserved.

The proposal complies with the objectives of LDP Policy Env 3.

Conservation Area

The impact on the character and appearance of the conservation area has been considered above in b). It was concluded that the change of use would not have any material impact on the character of the conservation area and would preserve the appearance of the conservation area.

The proposal complies with LDP Policy Env 6.

Principle of Development

The application site is situated in the Urban Area and City Centre, as defined in the LDP.

The main policy that is applicable to the assessment of short term lets is LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), which seeks to protect residential amenity.

The non-statutory Guidance for Businesses states that an assessment of a change of use of dwellings to SCVA will have regard to:

- The character of the new use and of the wider area;
- The size of the property;
- The pattern of activity associated with the use including numbers of occupants, the period of use, issues of noise, disturbance and parking demand; and
- The nature and character of any services provided.

Whilst the properties above the application site are in residential use, the character of Blair Street is one of a very busy thoroughfare, with a considerable pedestrian footfall and ambient noise levels that remain high during the day and night.

The application site is in close proximity to several night clubs, pubs, bars, and other premises that operate into the early hours, resulting in an amenity level for residents that is below that which would be experienced in other, quieter locations within the city centre. Despite the proximity of residential properties above, particularly the ground floor flat that is adjacent to the property's entrance platt, the impact of the STL use would essentially be masked by the background noise levels created by the uses and resultant activities that exist within the vicinity of the application property.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. Whilst there is not a specific LDP policy relating to the jobs created through the required care, maintenance and upkeep of STL properties, the economic benefits are a material planning consideration.

The proposal will provide accommodation for tourists and individuals visiting the city, within an area of mixed use. The proposal will not prejudice or inhibit the activities of any nearby employment use and will have no adverse effect on residential amenity. It will not adversely affect the vitality of the city centre and its role as a strategic business centre, regional shopping centre and capital city.

The proposal complies with LDP Policies Hou 7 and Del 2.

World Heritage Site

The change of use to an STL does not affect the reasons for the inscription of the Edinburgh World Heritage Site.

The proposal complies with LDP Policy Env 1.

Parking standards

There is no vehicle parking and no cycle parking. Zero parking is acceptable as there is no requirement for cycle parking for STLs. Cycles could be parked inside the property.

The proposals comply with LDP Policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to a STL will not be of material detriment to neighbouring amenity and is acceptable in this location within the city centre. It will not harm the listed building or its setting and will preserve the character and appearance of the Old Town Conservation Area. The proposal complies with the Development Plan. There are no material considerations that outweigh this conclusion.

d) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

SPP - Sustainable development

Scottish Planning Policy (SPP) is a significant material consideration due to the LDP being over 5 years old. Paragraph 28 of SPP gives a presumption in favour of development which contributes to sustainable development. Paragraph 29 outlines the thirteen principles which should guide the assessment of sustainable development.

The proposal complies with all thirteen principles outlined within paragraph 29 of the SPP. The proposal will therefore contribute to sustainable development.

Emerging policy context

The Draft National Planning Framework has been consulted on but has not yet been adopted. As such, little weight can be attached to it as a material consideration in the determination of this application.

While City Plan 2030 represents the settled will of the Council, it has not yet been submitted to Scottish Ministers for examination. As such, little weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Public representations

A summary of the representations is provided below:

material considerations

- Negative impact on resident amenity. Addressed in Section C.
- Negative impact of short term lets on communities. Addressed in Section C.
- Negative impact on the world heritage site. Addressed in Section C.
- Lack of economic benefits from STLs. Addressed in Section C.

non-material considerations

- Loss of residential accommodation. This is not a material consideration under the current LDP.
- The applicant has been trading without planning permission since at least 2017. The application is retrospective.

Overall conclusion

The proposal is acceptable with regard to Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will not harm the Listed Building, or its setting and it will preserve or enhance the character or appearance of the Conservation Area.

The proposal complies with the relevant policies within the local development plan and the SPP. There are no material considerations that outweigh this conclusion. The proposal is acceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

1. There are no conditions attached to this permission.
