## Corporate Governance Code Self-Assessment 2022/23

### 2. Executive Summary

---

- 2.1 The Council's Corporate Governance Code (CGC) is based on the Chartered Institute of Public Finance & Accountancy and Society of Local Authority Chief Executives model framework Delivering Good Governance in Local Government ("the CIPFA/SOLACE framework"). The Council's self-assessment of its compliance with the Code for the financial year 1 April 2022 to 31 March 2023 is presented for scrutiny.

### 3. Background

---

- 3.1 The CGC self-assessment process was reviewed in early 2018 and proposals designed to improve the structure, content and population of the document were agreed. This included a revision of the Code to reduce duplication, an improvement in narrative reporting, a more nuanced scoring system, focused improvement actions and the scheduling of a workshop to coordinate population of the document.

### 4. Main report

---

- 4.1 The CGC self-assessment exercise ensures good governance, an improvement agenda and demonstrates the Council's compliance with the CIPFA/SOLACE framework by providing narrative and links to key documentary evidence.
- 4.2 The purpose of the exercise is to assess the design of the Council's control framework on a corporate level. Officers assess the Council's compliance with each requirement on a scale out of 10. As noted below, it is important to note that this exercise does not assess compliance with the relevant controls.
- 4.3 Areas for improvement are identified and actions added to the improvement plan section at the end of each code principle.
- 4.4 As with previous years, updates were requested from directorates on the current status of improvement actions identified during the previous year's annual assurance exercise and CGC self-assessment. Completed improvement actions were then incorporated into the 2022/23 CGC self-assessment to evidence the improvements in controls that had been achieved.

- 4.5 Relevant improvement actions from individual assurance schedule returns have been replicated in the 2022/23 CGC self-assessment where these will have an impact on the corporate design of the Council’s controls.
- 4.6 A CGC Self-Assessment workshop took place on 10 August 2023, to populate and score the evidence submitted. Scoring was based on the key below:

Self-assessment scoring key:	
0	no evidence provided
1-2	insufficient and/or poor-quality evidence provided
3-4	insufficient but some good quality evidence provided
5-6	predominantly good quality evidence provided but some gaps and improvements required
7-8	significant amounts of good quality evidence provided with minor improvements required
9-10	requirement fully met with significant amounts of strong evidence provided

- 4.7 The document was then reviewed by the Corporate Leadership Team (CLT).
- 4.8 The exercise and scoring regime do not attempt to rate how effectively or consistently controls have been applied. This is instead undertaken during the population of assurance schedules at a service area level. These are reported to Governance, Risk and Best Value Committee separately and individually.
- 4.9 Together these exercises combine to provide a holistic look across the Council’s control framework, incorporating both design and application. The structure of assurance schedules is under continuous review to ensure that areas identified as requiring attention in preceding CGC self-assessment exercises are sufficiently addressed in returns from individual Directorates.

**2022/23 Self-Assessment (position 31 March 2023)**

- 4.10 Officers considered that the overall the design of the framework was appropriate for the period assessed. There were a number of areas that were assessed as adequate but requiring improvement to ensure controls are more robust. There were also areas where further improvement was required, however improvement actions were identified with most already being implemented or under development.
- 4.11 Thirteen scores were adjusted from the previous Self-Assessment. Six scores were scored as higher than the previous Self-Assessment and seven scores were marked as lower. The table at Appendix 2 provides the reasoning behind each adjustment decision.
- 4.12 For the seven scores, where it was identified that there were areas with issues, then actions, have been added to the relevant Sub-Principles in the Improvement Plan of the Self-Assessment to address them.
- 4.13 The word ‘welcomed’ was replaced with ‘respected’ at principle 7.3.2. This now reads as ‘*Ensuring that recommendations from Internal Audit, External Audit, peer challenge, reviews and inspections are respected and acted upon*’. Internal Audit highlight areas for improvement and while this may not always be welcomed, it should always be respected. This is also in line with “Living Our Behaviours”.

## **5. Next Steps**

---

- 5.1 Work will continue to re-align and refine the CGC within the overall Corporate Governance Framework to ensure continuous review and improvement.

## **6. Financial impact**

---

- 6.1 There are no direct financial impacts as a result of this report.

## **7. Equality and Poverty Impact**

---

- 7.1 There are no direct equality and poverty impacts as a result of this report.

## **8. Climate and Nature Emergency Implications**

---

- 8.1 There are no direct climate and nature emergency implications as a result of this report.

## **9. Risk, policy, compliance, governance and community impact**

---

- 9.1 The process of reporting and senior management oversight of the CGC serves to strengthen the control environment and where appropriate prompt mitigating actions.

Self-assessment scoring key:	
0	no evidence provided
1-2	insufficient and/or poor quality evidence provided
3-4	insufficient but some good quality evidence provided
5-6	predominantly good quality evidence provided but some gaps and improvements required
7-8	significant amounts of good quality evidence provided with minor improvements required
9-10	requirement fully met with significant amounts of strong evidence provided

<b>Principle 1</b>	<b>Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law</b>	
<b>Supporting principle</b>	<b>1.1 Behaving with Integrity and Demonstrating Strong Commitment to Ethical Values</b>	
<b>Requirement of the Council's Code</b>	1.1.1 Developing a leadership culture based on values, integrity and public interest that is communicated and understood by all and forms the basis of a framework for decision making and action.	<b>Score out of 10: 7</b>
Evidence of compliance and links	<p>The Council is on a journey to strengthen the leadership culture and support improved decision making at officer level. This though involves cultural change with officers and is not yet embedded throughout the organisation. Decision making at committee level is strong and there is a robust framework that is supported by a suite of governance documentation, that is regularly reviewed by officers and elected members.</p> <p>There is strong and demonstrable commitment from the Corporate Leadership Team (CLT) to promote a strong organisational culture that behaves with integrity, adheres to the rule of law and that is value led. Examples of this come from the establishment of strong corporate values that underpin the culture we are trying to create. The priority of CLT, to develop the leadership culture within the organisation, has included creating a Wider Leadership Team and ensuring that all managers across the organisation have undertaken leadership training which is values led. This was replaced by the Council's Senior Leadership Team (SLT) in December 2022. SLT comprises the Chief Executive, Executive Directors, Heads of Service and their direct reports. Meetings are in person on a monthly basis.) CLT have regular away days where they reflect on their leadership. Leadership development support and training has been reviewed and updated. A Leaders Network has been established and there are quarterly People Leader Sessions on a range of key topics, hosted by Executive Directors.</p> <p>From a legal and compliance perspective we have an independent whistleblowing process to ensure concerns raised are investigated independently, with oversight from the Council's Monitoring Officer, reporting to the Governance, Risk and Best Value Committee and notification of investigation outcomes to the relevant Executive Committee Convener.</p> <p>The Council ensures that it has a robust framework in place including:</p> <ul style="list-style-type: none"> <li>▪ A <a href="#">Member/Officer Protocol</a> sets out the roles and responsibilities of Elected Members and Council officers, including the Chief Executive, to ensure clarity when carrying out their respective duties. The Member/Officer Protocol was approved in August 2022.</li> <li>▪ Mandatory training sessions provided for Elected Members on their obligations under the <a href="#">Councillors' Code of Conduct</a>.</li> <li>▪ Comprehensive induction and training programme for Elected Members that includes mandatory, essential and developmental sessions on a wide range of responsibilities, skills and areas of topical interest.</li> <li>▪ A <a href="#">Scheme of Delegation</a> that sets out the powers delegated by the City of Edinburgh Council to officers, pursuant to the <a href="#">Local Government (Scotland) Act 1973</a>. The Scheme facilitates the efficient conduct of Council business by clearly setting out the nature and extent of the powers delegated to officers by the Council, thereby ensuring that decisions are taken at an appropriate level and ensuring sufficient and appropriate scrutiny. The Scheme of Delegation was reviewed and approved in May 2023.</li> <li>▪ The Council's <a href="#">Decision-Making Framework</a> was reviewed and approved in February 2023</li> <li>▪ Councillors' register of interests and expenses and membership of organisations published in full on the Council's website as part of <a href="#">individual online Councillor profiles</a>.</li> <li>▪ The Council's <a href="#">Whistleblowing Policy</a> encourages a culture of disclosure of wrongdoing that is much wider than that covered by public interest disclosure legislation. Our whistleblowing arrangements are a key risk management tool and widely seen as an exemplar across the public sector.</li> <li>▪ The Monitoring Officer has an independent reporting line to the Chief Executive and his independent reports are considered by Council.</li> <li>▪ The Chief Internal Auditor has an independent reporting line to Governance, Risk and Best Value Committee and direct access to the Chief Executive.</li> <li>▪ <a href="#">The Council's People Strategy 2021-24</a> is essential in making sure we can deliver our Business Plan: <i>Our Future Council, Our Future City. The People Strategy is built around the 3 keys themes of 'Living our Behaviours, Maximising our Capability and Performance and Enhancing Our Colleague Experience</i></li> <li>▪ The Council's Strategic Workforce Plan 2021-24 and associated action plan sits alongside our People Strategy</li> <li>▪ The <a href="#">Council's Business Plan , Our Future Council, Our Future City 2023-2027</a>, which was updated and approved by Committee in March 2023, is a further evolution in the culture of the organisation. It sets out the priorities for the next five years and the <a href="#">updated Planning and Performance Framework</a> will be used to ensure ownership is taken of delivery and drive the way we work and deliver services.</li> <li>▪ Our <a href="#">Employee Code of Conduct</a> and the Council's values of Putting Customers First, Honesty and Transparency, Working Together and Forward Thinking are included as part of our colleague performance framework and sets out our expectations. New employee induction and onboarding is focussed on our four values, so all new starts understand the importance of living these values in the early days of their employment with the Council.</li> </ul>	

	<ul style="list-style-type: none"> <li>▪ Principles and our values are communicated regularly to staff, are on our internal intranet and inform the build and delivery of learning and development interventions. The performance conversations model is built around our values. We reviewed our values through a cultural audit in 2021 as part of our new People Strategy. In 2022/23, we will be replacing our values as part of our work to be a purpose led council with 3 key behaviours of Respect, Integrity and Flexibility.</li> <li>▪ There is strong and demonstrable commitment from the Corporate and Senior Leadership Teams to drive cultural change and leadership development with development sessions taking place regularly. The Council’s Senior Leadership Team (SLT) meets monthly.</li> <li>▪ The Council developed the leadership in the box resource which is available to all leaders. It a virtual box which contains our Leadership Framework and a range of leadership courses and resources such as our leadership learning portal, myLearning Hub. We continue to engage with leaders from across the Council to review what they need to be the best managers and leaders they can be and we refreshed our leadership development offering and this continues to be reviewed to ensure fitness for purpose/alignment to council priorities.</li> <li>▪ There are regular communication channels from CLT members, including Andrew Kerr and Executive Director vlogs which ensure that information is disseminated across the wider Council network.</li> </ul> <p>We completed a ‘culture capture’ to understand more about our organisational culture and what’s important to our people. We paired the outputs from this exercise with work already underway to identify a common sense of purpose and three key behaviours that we can ‘sign up to’ as an organisation. This work supports having a culture where all our people feel valued and included, are treated fairly and equally, and where they can be happy, well and productive. Our new Purpose and Behaviours will be launched in May 2023 alongside our refreshed Employee Code of Conduct.</p> <p>Whilst a strong operational framework exists to ensure that employees behave with integrity (for example established Council policies and decision-making processes), it is important that it is effectively applied, with employees held accountable where they do not behave with integrity or demonstrate strong commitment to ethical values. This is achieved through the Council’s performance framework, with ongoing employee conversations and formal ‘looking backwards’ conversations, and through the relevant Council policies (Performance Management and Disciplinary).</p> <p>Following a motion to Council, an independent review of whistleblowing and organisational culture relevant to the raising of and responding to concerns of wrongdoing involving the Council, its members, officers and colleagues was commissioned. This was completed in December 2022 and the Council accepted all of the recommendations arising from the independent inquiry and culture review in full. An implementation plan is in place and progress is monitored and reported to committee on a regular basis.</p>		
Rationale for score	Assessment of the above evidence. New ‘Our Behaviours’ have been rolled out and progress on the recommendations from the Tanner report.		
<b>Requirement of the Council’s Code</b>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 75%; padding: 5px;">1.1.2 Ensuring this is reflected in policies and processes that are regularly reviewed and monitored for compliance.</td> <td style="width: 25%; padding: 5px; text-align: right;"><b>Score out of 10: 6</b></td> </tr> </table>	1.1.2 Ensuring this is reflected in policies and processes that are regularly reviewed and monitored for compliance.	<b>Score out of 10: 6</b>
1.1.2 Ensuring this is reflected in policies and processes that are regularly reviewed and monitored for compliance.	<b>Score out of 10: 6</b>		
Evidence of compliance and links	<p>The Council’s Corporate Policy Framework mandates the annual review of policies which must be approved by Council or the responsible Executive Committee. The Council’s <u>Policy Register</u> maintains a central public facing record of all council policies.</p> <p>A council policies toolkit is available on the Council’s intranet site. This includes first and second-line responsibilities, consultation and engagement strategies for new policies, a how-to guide, guide to policies and annual review, examples, a policy template for committee reporting and detail on how to comply with the Integrated Impact Assessment (IIA) process. The most recent review of the Policy Management Framework was reported to CLT in May 2021. This resulted in the IIA process being further embedded in the policy process to ensure that all sustainability and ethical considerations are taken into account when creating new policies or refreshing existing policies. IIA documents and reporting have recently been updated.</p> <ul style="list-style-type: none"> <li>▪ The Council consults and engages with stakeholders on policies and procedures, e.g. Trade Unions, relevant service providers, legal advisers and our colleague networks.</li> <li>▪ <u>Assurance Statements for Council policies</u> are reviewed and are considered as being current, relevant and fit for purpose. These are reported to the relevant <u>Committee</u>. Working closely with the Communications Team, relevant information is cascaded to staff via Managers’ news and the internal intranet pages are updated as necessary.</li> <li>▪ A programme of policy review is in place and digital learning modules are available to Council colleagues to enhance their understanding of key policies when they need this. Employment policies are subject to GRBV Committee policy assurance with a revised process having been agreed at the <u>GRBV Committee in September 2017</u> to provide further scrutiny.</li> <li>▪ Process automation and design controls for core HR, Finance Procurement and Debt Recovery processes are tested by internal audit and aligned to the Council’s ongoing Enterprise Resource Planning (ERP) programme.</li> <li>▪ <u>Report template and guidance</u> are regularly updated and incorporate reporting of adherence to council business plan commitments and policy implications.</li> </ul> <p>An audit of policy management was completed in July 2020. As a result, all directorates developed registers to understand the population of policies and procedures in operation, owners, when last reviewed and integrated impact assessment arrangements. This is reviewed quarterly in directorates which results of the quarterly reviews shared with Internal Audit. Internal Audit continues to review policy and procedure control design and operating effectiveness/compliance in all audit work, with specific recommendations made for areas as required.</p>		
Rationale for score	Assessment of the above evidence. Internal Audit identified issues with policies and procedures not being updated as they should.		

Requirement of the Council's Code	1.1.3 Ensuring the organisation's ethical standards permeate all aspects of the organisation's culture and operation and are reflected in its policies and procedures.	Score out of 10: 7
Evidence of compliance and links	<p>Council values are an integral part of our strategic planning and performance management frameworks. The council has embedded mechanisms to ensure ethical standards are permeated across the organisation.</p> <ul style="list-style-type: none"> <li>▪ The Integrated Impact Assessment (IIA) mechanism is built into policy making and decision making through the Council's committee reporting and policy templates.</li> <li>▪ Scrutiny of <u>internal</u> and <u>external</u> audit reports by Governance, Risk and Best Value Committee.</li> <li>▪ The Council's <u>Whistleblowing Policy</u> mandates an independent service provider with authority to decide on the categorising of disclosures and investigations, with investigation outcomes reported quarterly to the Governance, Risk and Best Value Committee.</li> <li>▪ Consideration of The Standards Commission for Scotland Hearing results by Council.</li> <li>▪ The Council's Business Plan: Our Future Council, Our Future City 2021-24 is a further evolution in the culture of the organisation. This focus sets out the way we will work and the way we will deliver services. We will be reviewing our values through a cultural audit in 2021 as part of our new People Strategy.</li> <li>▪ <a href="#">Equality and Diversity Framework 2021-2025</a> ensures that citizens are able to use Council services and join in with the life and work of the city</li> <li>▪ The <a href="#">updated Planning and Performance Framework</a> was agreed by the Policy and Sustainability Committee in March 2023. The Framework set out our approach to effective planning and performance management in the Council and ensures that the Priorities and Outcomes in the Business Plan are translated into clear actions aligned to performance measures which are appropriately monitored, actioned and delivered. Performance is published via the <a href="#">website</a>.</li> <li>▪ As a public authority, the values of public service delivery are at our core, we work in partnership with communities and service partners to deliver services of benefit to our people. Policies, procedures and codes of conduct for both members and officers are aligned with the Nolan Principles on the Standards for Public Life as well as professional/regulatory codes of practice for relevant groups.</li> <li>▪ <a href="#">Employee Code of Conduct</a> sets out the Council's values and describes how we carry out our business and the standards of conduct we expect from our colleagues. This will be reviewed in 2023/24.</li> <li>▪ <a href="#">Disciplinary Code</a> provides details of the conduct, attitude and behaviours expected of employees.</li> <li>▪ <a href="#">Colleague Performance Management Framework</a> is designed to support managers and employees to have open, honest, and supportive performance conversations.</li> <li>▪ <a href="#">The Avoidance of Bullying and Harassment at Work Policy</a> covers management of complaints in relation to bullying and harassment at work. The focus is on early intervention and resolution by managers, to ensure complaints are dealt with quickly. This will be reviewed in 2023/24.</li> <li>▪ <a href="#">Equality and Diversity Policy</a> has the purpose of ensuring that all our employees are treated fairly, equally and with respect in their working lives covering: pay and benefits and terms and conditions of employment; dealing with grievances and disciplinary issues, dismissal, redundancy; parental leave and flexible working; recruitment, promotion, training and development.</li> <li>▪ The <a href="#">equality and diversity framework 2021 to 2025</a> outlines how we meet our legal duties under the Equality Act 2010 and the Public Sector Equality Duty. It integrates planning and performance and provides links between our business plan, key strategies, and other plans. It sits within the Council's performance framework.</li> <li>▪ The Council's People Strategy and Strategic Workforce Plan for 2021-2024 provides a clear line of sight from the Council's <a href="#">Business Plan</a> and describes the people opportunities and challenges the Council faces over the short, medium and long term and sets out the key strategic people themes we need to address in order to deliver our commitments.</li> <li>▪ The Council's response to Serious Organised Crime is facilitated through a Council-wide group. This includes coordinating disparate services to ensure consistency of approach, governance and reporting, and compliance to the duties outlined in <a href="#">Scotland's Serious Organised Crime Strategy</a>.</li> <li>▪ <a href="#">Contract Standing Orders</a> – establish the principles of transparency, equal treatment, non-discrimination and proportionality in how the Council procures its goods, services and works.</li> <li>▪ <a href="#">Grant Standing Orders</a> – provide guidance, controls and regulate the grant application and award process throughout the Council and on behalf of the Edinburgh Integration Joint Board (EIJB).</li> <li>▪ The Council's Monitoring Officer (the Council's Service Director – Legal and Assurance) actively investigates any significant issues coming to his attention, whether through whistleblowing, complaints or other avenues. This has on occasion resulted in reports to Full Council, demonstrating scrutiny at the highest level and that any issues are actively managed.</li> <li>▪ The Council's Information Governance team manages the Council's Corporate Complaints Framework and the relationship with the SPSO. The Council's current complaints policy was agreed by Policy and Sustainability Committee in <a href="#">February 2021</a> and is reviewed annually.</li> <li>▪ Since April 2018, new leaders joining the City of Edinburgh Council and newly promoted leaders within the Council are invited to a welcome event. This takes place every 4-6 weeks, led by the Chief Executive. The aim is to welcome new leaders, help them understand their leadership role, help to develop their leadership skills and introduce them to our leadership culture. New leaders are also expected to complete relevant essential learning on key council policies as part of their induction. A dedicated space has been created on the Council's e-learning platform for new leader essential learning.</li> <li>▪ The Pensions and Trusts Committee adopted, on behalf of Lothian Pension Funds, the United Nations Principles for Responsible Investment and a revised Statement of Investment Principles in March 2008.</li> </ul>	

	<ul style="list-style-type: none"> <li>Material non-compliance with standards is reported to Committee. For example minor non-compliance with Public Sector Internal Audit Standards was reported to Governance Risk and Best Value Committee on <u>31 July 2018</u>. There have been no further PSIAS non conformances since 2018.</li> <li>The application of the Council's risk assessment approach, underpinned by the <u>Enterprise Risk Management Policy</u>. To support this work additional resource has been added into each of the directorates.</li> </ul>
Rationale for score	Assessment of the above evidence. There is significant amounts of good quality evidence provided, particularly the design work carried out in the last financial year, the new behaviours and the new Planning and performance framework.
<b>Supporting principle</b>	<b>1.2 Relationship with External Providers</b>
<b>Requirement of the Council's Code</b>	1.2.1 Ensuring the organisation's ethical standards are understood and upheld by external providers of services. <span style="float: right;"><b>Score out of 10: 7</b></span>
Evidence of compliance and links	<p>The Council has strong controls in place to ensure external providers of services understand the organisation's aims and ethical standards. A number of open internal audit actions on first-line supplier and contract management are currently being progressed.</p> <ul style="list-style-type: none"> <li>The Council's Annual Assurance Process, which seeks assurance on ethical standards, includes significant Council companies and the Joint Boards. This process informs the Annual Governance Statement reported to Governance, Risk and Best Value Committee before Full Council as part of the <u>un-audited financial accounts</u>.</li> <li>The Council's <u>Contract Standing Orders</u> are the legal and operational rules for how the Council buys goods, services and works from external providers. The Contract Standing Orders require all contractual arrangements entered into to comply with the Council's equality and sustainability requirements and policies, to encourage fair working practices and payment of the Living Wage and, where appropriate, contractual or procurement arrangements shall include the use of community benefit clauses. Under the Contract Standing Orders service areas must engage with Commercial and Procurement Services for all proposed purchases in excess of £25,000 in value, to help ensure the Council's strategic procurement objectives, as set out in the Sustainable Procurement Strategy adopted in March 2020, are secured through that purchasing activity, including those relating to ethical procurement which includes relevance of award criteria relating to fair work practices and supply or use of ethically- or fairly-traded products as applicable.</li> <li>As part of the procurement process for goods and services, the Council has set standards to manage integrity, compliance and monitoring, taking into account but not limited to, ethical and fair work practices. It is noted that should a contract be adopted from the Scottish Government Framework these standards are also included within the procurement documentation. Service areas may give a weighting to these standards (where applicable) as part of the procurement process and contractual commitments around this will be monitored throughout the duration of the contract term.</li> <li>Following a risk assessment where the Council has agreed an action which is non-compliant with Contract Standing Orders, the action is recorded and noted publicly via Committee meeting transparency obligations and providing challenge to the decision.</li> <li>Service area use of Public Contracts Scotland (PCS) is approved by Commercial and Procurement Services, in order to ensure PCS users have the required knowledge and skills to use PCS and at the same time ensure the Council's Contract Standing Orders are adhered to and the Council's strategic procurement objectives secured.</li> <li>Template procurement documentation including terms and conditions is drafted with advice from Legal Services. On larger projects and bespoke contracts, specific legal advice is obtained. Legal obligations imposed upon contractors cover the Council's ethical standards in relation to matters such as community benefits, environmental and sustainability impact and workers' rights. <u>The Council's Fair Trade Policy, Sustainable Procurement Policy, Charter against Modern Slavery and Construction Charter Commitments</u> and <u>sustainable procurement objectives</u> are also included in the tender submission documents where appropriate.</li> <li>The Council's <u>Grant Standing Orders</u> apply (with certain exceptions) to all grants made by or on behalf of the Council including those in accordance with directions by the EIJB. The <u>Grant Standing Orders</u> require that the allocation and subsequent use of grant funding must reflect the priorities of the Council its subsidiaries and partners and where appropriate the Edinburgh Integration Joint Board. <u>The Grant Standing Orders</u> provide guidance, controls and regulate the grant application, assessment and award process to third parties to improve social, environmental and economic outcomes for Edinburgh's citizens and communities. Grant agreements require the grant recipient to have in place proper employment, recruitment and selection practices, disclosure checks where appropriate and comply with all equal opportunities' requirements.</li> <li>The Council's <u>Standard Conditions of Grant</u> states that organisations in receipt of a grant should have policies and practices in place which should minimise any detrimental environmental impacts and complement the Council's commitment to protecting and improving Edinburgh's environment for future generations, that organisations must make a commitment to mainstream equalities and rights in accordance with the <u>Equality Act 2010</u> and comply with a range of Council policies and aims. The Council expects grant funded organisations to adopt policies which comply with fair work practices and promote fair and equal pay, including the Living Wage and in terms of its practices employing staff and volunteers and in providing services, the organisation should be able to demonstrate that it: advances equality of opportunity; fosters good relations; and eliminates any unlawful discrimination, harassment and victimisation.</li> <li>The Contract and Grants Management team ensure effective ongoing management of third-party contracts (once procured) by Directorates and Divisions. Evidence of compliance and links	<p>Following a motion to Council, an independent review of whistleblowing and organisational culture relevant to the raising of and responding to concerns of wrongdoing involving the Council, its members, officers and colleagues was commissioned. The review concluded in December 2022 and an improvement plan was agreed by Council with regular reports on progress scrutinised by the Policy &amp; Sustainability Committee.</p> <p>The controls currently in place are:</p> <ul style="list-style-type: none"> <li>▪ The Monitoring Officer is the Service Director, Legal and Assurance and was appointed by <u>Council on 4 February 2016</u>. Allegations of corruption or misuse of power are considered by the Monitoring Officer, who acts independently of the Council. This procedure is available on our website for the public and on the Orb for staff. There is a Corporate Complaints Management Group which promotes and facilitates better complaints management throughout the organisation. A Strategic Complaints Group was established in August 2021 to oversee significant customer engagements.
- Annual Performance reports, Performance updates reports, and Local Government Benchmarking Framework reports can be found on the [Strategy, Performance and Research](#) pages of the Councils' website. The Council's performance reporting takes into consideration appropriate feedback to the relevant stakeholders of any decisions taken by Council by using appropriate communication routes.
- The Council regularly consults and engages with stakeholders and members of the public on its plans and policies. Methods to seek feedback include surveys, focus groups, public meetings, and involving relevant stakeholders in participatory budgeting and local community planning. Details on how to find out about and participate in consultations and records are available via our [Consultation Hub](#).
- Honesty and transparency is enshrined in the [protocol for member officer relations](#) in decision-taking and advice giving.
- Financial impact reporting arrangements are embedded in the [financial regulations](#).
- [Contract Standing Orders](#) ensure that proper procedures are adhered to throughout the procurement process and that there is compliance with relevant sustainable development and equality requirements required by law and co-production with key stakeholders is planned as appropriate. [Contract Standing Orders](#) demonstrate the Council's compliance with the general principles of equal treatment, non-discrimination, transparency and proportionality.
- Procurements must not be designed with the intention of unduly favouring or disadvantaging any potential tenderer. [Contract Standing Orders](#) clearly demonstrate the Council's open approach to tendering processes and details relevant values and associated purchasing procedures for all potential contracts including appropriate approval and delegation levels. The Council also reports awards of contract and related activity conducted through delegated authority to committee every 6 months, to provide greater transparency of such purchasing activity.
- [Grant Standing Orders](#) – provide guidance, controls and regulate the grant application and award process throughout the Council and on behalf of the Edinburgh Integration Joint Board (EIJB). Grant Standing orders were approved February 2022.
- Locality Improvement Planning - each locality has produced a locality improvement plan based on a significant programme of community engagement with local stakeholders and the wider community. The engagement was delivered by a range of partners involving a wide variety of methods and focussing on service users and people experiencing the greatest inequality. Through this process communities of place, interest and identity identified their priorities and will continue, through ongoing dialogue and engagement, to influence the design and delivery of services to improve outcomes in their areas.
- Community Planning - The Edinburgh Partnership governance model offers the opportunity to enhance community planning arrangements at all spatial levels in the city. A key area of the locality-based working has been to involve communities in decision making on the use of devolved funds such as the Community Grants Fund. This role has further been strengthened with the ongoing use of participatory budgeting, such as Leith Chooses, which has increased local democratic decision making, promoted a greater understanding of public budgets and encouraged communities to develop their own solutions to issues.

	<ul style="list-style-type: none"> <li>▪ Service Developments_– the development of facilities and new services are planned and delivered in consultation with local communities with changes and improvements seeking to reflect identified local need where possible e.g. upgrades to local playparks; library service refurbishments</li> <li>▪ Participatory Budgeting_– local communities are increasingly involved in having a say on the allocation of public funds through participatory budgeting, going beyond the traditional small grants model to examine opportunities within mainstream spending, with the development of a range of creative ways both digital and events based to engage greater numbers of local people. E.g. Feith Chooses</li> <li>▪ Place Improvements_– linked to the bullets above, Locality teams are regularly engaged in significant local stakeholder consultation on wider public realm projects – eg. Trams to Newhaven, Meadowbank Redevelopment, Regeneration of Craigmillar Town Centre, India Quay etc, as well as very localised engagement and consultation regarding locally prioritised environmental improvement projects, reported back through Neighbourhood Networks</li> <li>▪ <a href="#">Consultation Policy</a> – an organisation-wide policy was introduced to ensure all consultation activity was self-assessed against quality criteria, and high-assessed activity was subject to a critical review process and sign-off by a multidisciplinary panel. The Policy also introduces minimum timescales for consultation activity. This action improves quality of activity and ability of stakeholders to participate in activities.</li> </ul>
Rationale for score	Assessment of the above evidence. Significant amounts of good quality evidence showed only minor improvement were required such as reviewing processes. Overall the Council takes significant decisions in public through agreed and tested governance processes.
<b>Supporting principle</b>	<b>2.2 Engaging comprehensively with institutional stakeholders</b>
<b>Requirement of the Council’s Code</b>	2.2.1 Ensuring effective engagement with clarity of purpose, objectives and intended outcomes. <span style="float: right;"><b>Score out of 10: 7</b></span>
Evidence of compliance and links	<p>Engagement with institutional partners is facilitated through a number of different forums as well as more bilateral relationships. The council has strong relationships with the rest of the public sector through the Edinburgh Partnership, the business community through the Edinburgh Business Forum, the NHS through the IJB and the Edinburgh Third Sector, neighbouring local authorities through City Region Deal governance and the Scottish Government and other Scottish local authorities through our membership of COSLA and the Scottish Cities Alliance. Engagement with institutional stakeholders can take a variety of forms and is determined by the nature of the relationship and the activity being undertaken. Further evidence of our engagement includes:</p> <ul style="list-style-type: none"> <li>▪ Engagement with the Scottish Government through our Membership of COSLA and the Scottish Cities Alliance.</li> <li>▪ Development of regional partnerships through new regional governance arrangements taken forward by the Edinburgh and South East Scotland City Region Deal which include the six regional authorities, both governments and their agencies and the tertiary and third sectors. A Joint Committee to take this forward has been formally established as has a Regional Enterprise Council which will provide private and third sector leadership to regional engagement.</li> <li>▪ The business community through the Edinburgh Business Forum as well as a number of sector-based groups such as The Edinburgh Planning Forum and the Edinburgh Tourism Action Group.</li> <li>▪ Key resilience stakeholders are engaged through the Multi-Agency Scottish Resilience Structure.</li> <li>▪ In reporting to Committee, all consultation and engagement activities relating to Council decisions are outlined and required to be published as part of reports.</li> <li>▪ The work of localities and strategic partnerships is informed through ongoing dialogue with community and partner agencies, together with dedicated engagement programmes, to ensure all activity reflects the aspirations and priorities of communities.</li> <li>▪ The city’s Community Planning Partnership (Edinburgh Partnership) formally endorsed and approved the EP <a href="#">Community Plan 2018-28</a>, on 30 October 2018. The Plan sets out the partnership’s commitment to work together to reduce poverty and inequality within the city and improve the quality of life for all. The plan identified the issues that require sustained joint action to make a difference and is based on what communities have identified are issues for them and their areas. It is focused on three strategic themes: enough money to live on, access to work, learning or training opportunities and making sure people have a good place to live. The Plan was approved by the EP Board, which comprises 19 representatives drawn from public, third sector and community bodies.</li> <li>▪ To better support partnership work at a local level, the Council and its partners work to four co-terminus locality areas. In addition, the Council and its partners have established four Locality Community Planning Partnerships as part of the new community planning governance arrangements. Membership includes statutory partners, community representatives and have flexibility to co-opt additional representatives at a local level to include other relevant partners. A key role for the Locality Community Planning Partnerships is to set priorities and monitor progress of the Locality Improvement Plans. Meetings resumed in Autumn 2020 as online meetings and are well attended.</li> <li>▪ The Council and its partners are also focused on addressing citywide issues through four strategic partnerships covering community safety, children’s services, community learning and development and city outcomes to address poverty and inequality</li> </ul>

	<ul style="list-style-type: none"> <li>Engagement with Trade Unions through; Joint Consultative Group (Elected members, TUs and Officers); Partnership at work (CLT &amp; TUs); HR/TU fortnightly meetings; Directorate consultative forums (Directorate Leadership teams and local TU representatives). Additionally, where we are required to undertake collective consultation then we do so e.g. organisational reviews, policy development etc.</li> </ul>
Rationale for score	Assessment of the above evidence. Engagement with city stakeholders was not as strong as it could be but does reflect the positive relationships and involvement we have with larger national organisations (e.g. COSLA, Scottish Government).
<b>Requirement of the Council's Code</b>	<b>2.2.2 Developing partnerships based on trust, shared commitments, a challenge culture and added value.</b> <span style="float: right;"><b>Score out of 10: 6</b></span>
Evidence of compliance and links	<p>The Council has a robust framework for partnership working which can be seen through the Edinburgh Partnership, the Integration Joint Board and City Region Deal Framework. This partnership approach has encouraged innovation and facilitates collaborative engagement.</p> <ul style="list-style-type: none"> <li>The Edinburgh Partnership (EP) is made up of a Board, four strategic partnerships, four locality partnerships and 13 neighbourhood networks. The EP Board is not an incorporated body. The partnership operates in a spirit of mutual respect and partnership working. Each member has equal standing. The EP Community Plan 2018-28 includes three strategic priorities that have been agreed on the basis of resourced commitments being made by community planning partners. The aim of the partnership is to work together to address common problems and to hold partners to account in terms of partnership services.</li> <li>During 2018 the EP Board carried out a review and consultation of its governance arrangements and developed a Local Outcome Improvement Plan (Community Plan) in response to the legal requirements of the Community Empowerment (Scotland) Act 2015. The new plan states the ambitions to further strengthen approaches to change, challenge and effective partnership working in tackling poverty and inequality in the city. Locality Improvement Plans, also a legal requirement, were approved in November 2017 following a period of extensive consultation with communities and public and voluntary sector partners.</li> <li>To better support partnership work at a local level, the Council and its partners work to four co-terminus locality areas. In addition, the Council and its partners have established four locality community planning partnerships as part of the new community planning governance arrangements. These provide the platform for improving service coordination and partnership activity in each area, with a key focus on progressing priorities set out within the Locality Improvement Plan for the area. The delivery of the Locality Improvement Plan requires commitment from a much wider partnership contribution at a local level, with partners aligning resources to shared commitments.</li> <li>The Council and its partners are also focused on addressing citywide issues through four strategic partnerships covering community safety, children's services, community learning and development and city outcomes to address poverty and inequality</li> <li>The Community Safety Partnership is responsible for coordinating a multi-agency response to promote community safety, to reduce reoffending and to tackle antisocial behaviour across the city. Improving community safety and effective reduction in reoffending depends on a complex, multi-agency and multi-sector approach to the delivery of a wide range of both universal and specialist services. This multi-agency approach to community safety has strengthened the locality focus which allows for closer engagement with neighbourhoods and is set out in <a href="#">Edinburgh's Joint Community Safety Strategy 2020- 2023</a>.</li> <li>The Edinburgh Integration Joint Board (EIJB) is a formally constituted decision-making body set up under the provisions of the <a href="#">Public Bodies (Joint Working) (Scotland) Act of 2014</a>. It is a formal board whose membership comprises Non-Executive Directors of NHS Lothian and Elected Members of City of Edinburgh Council. It is required to act as a single body rather than the sum or 'sides' of its membership and its operational requirements are set out in the agreed <a href="#">Scheme of Integration</a>. The IJB is required to have in place as its accountable officers a Chief Officer and Chief Finance Officer and it sets out its aspirations in its <a href="#">Strategic Plan</a>.</li> <li>The operational element which delivers the IJB's strategic intention is the Edinburgh Health and Social Care Partnership (EHSCP). Led by the Chief Officer and Executive team the partnership brings together the operational, planning and delivery oversight of a range of adult social care services with a number of community health and hospital-based services in Edinburgh. The aim is to improve the health and wellbeing of citizens by joining up the planning and delivery of health and social care services previously delivered separately by The City of Edinburgh Council and NHS Lothian.</li> <li>The IJB also includes, as non-voting members, professional, carer and service user members to ensure that all views are incorporated in planning and instructing strategic objectives.</li> <li>Directorate Health and Safety Groups/Committees meet with Trades Unions on a quarterly basis to ensure appropriate level of consultation and engagement on health and safety matters.</li> <li>Partnership meetings with trade unions take place on a regular basis at a council wide and service area level. We consult trade union colleagues on people related/cultural change developments, e.g. new and revised HR policies, change etc. The Council recognises eight trades unions for the purposes of collective bargaining. To help the consultation and negotiation process, the trades unions have appointed a staff side secretary covering all non-teaching staff and another covering teaching staff. The Council has a <a href="#">Working Together Protocol</a>, which sets out the way that management and the trades unions should work together to achieve their shared goals and common interests and the behaviours expected from both sides.</li> <li>The Council has set up a range of colleague networks. These networks support colleagues who share a common protected characteristic. The aim of each network is to: develop strong, productive working partnerships with managers and colleagues; help inform our approach to ensuring respect and equality in the workplace; tackle barriers to progression, and create a more inclusive working environment.</li> </ul>

	<ul style="list-style-type: none"> <li>▪ The full <a href="#">City Region Deal</a> was agreed in July 2018 by the City Region and both National governments. It consists of a range of partners, including six councils, four universities and the involvement of the business and third sectors. Internal Audit completed a review of City Deal Funding Processes in June 2020 operated by the Council on behalf of regional partners – which had an overall effective (green) outcome. Internal Audit also reviewed <a href="#">City Deal Integrated Employer Framework in March 2023</a>, with an overall outcome of substantial assurance. In addition, regular assurance arrangements for internal audit have been agreed.</li> <li>▪ The Council is participating in key national activities as an active member of COSLA and SOLACE, along with engaging in local activities.</li> </ul>
Rationale for score	Assessment of the above evidence. However, it is recognised that our partnership working with the NHS in the Edinburgh Integration Joint Board has not been as strong as it could be during the period.

Evidence of compliance and links	<p>The Council has made significant efforts over recent years to improve the way we engage and consult with citizens and communities moving towards a significantly more digitally enabled approach. There is however more work to do to sustain and broaden our approach in this regard to ensure we are improving outcomes.</p> <p>The pandemic placed significant restrictions on our ability to reach seldom-heard citizens, especially those who are digitally excluded. Where possible, the Council has deferred consultation activity, but we have also seen more use of online discussion tools and engagement through social media, which has resulted in more online responses. This suggests that citizens may be more aware of Council activity than before the pandemic.</p> <ul style="list-style-type: none"> <li>▪ A wide range of engagement activities are carried out, ensuring opportunities are provided in ways that are appropriate for communities of place, interest and identity to express their needs and views on services and future provision to inform service development and delivery.   - The Commercial and Procurement Service (CPS) have Commercial Partners, with responsibility to liaise and work with different service areas across the Council. CPS report to senior management within their service area on procurement activity and compliance. This ensures that good practice and areas of concern can be identified and feed into operational decisions.
  - The Council [Contract Standing Orders](#) provide the 'rule-book' for procurement and purchasing of supplies, services and works from which a framework of controls is implemented. Commercial and Procurement Services has continued to improve compliance using our Purchase to Pay (P2P) processes to maximise controls available, in parallel implementing new controls for compliance.
  - Regular engagement with service areas continues across all Directorates, providing 'dashboard' type reporting and enabling review, analysis and adherence in relation to contractual spend, purchase to pay process, CSOs etc. This ensures the Council is continuously reviewing its performance in relation to best value for procurement of goods and services, offering opportunity for intervention where necessary, to enable achievement of the defined needs.
  - The scope of contract purchases continues to be reported to Finance and Resource Committee on a 6-monthly basis, whilst the Council's Annual Report is both reported to Committee and subsequently submitted to the Scottish Government in order to comply with our obligations under the [Procurement Reform \(Scotland\) Act 2014](#). This offers transparency in detailing both the scope of procurement activity (both backward and forward looking) and a review of compliance against the [Council's Procurement Strategy](#), with a view to self-evaluation and continuous improvement.

It is designed to drive a performance and continuous improvement culture in the organisation.	

- Progress against the delivery of our Business Plan is tracked by a Council-wide Planning & Performance Framework. A key component of the framework is a well-defined suite of performance indicators which are used to measure progress against the Priorities and Outcomes in the Business Plan. To further enhance performance management, scrutiny and transparency we are also developing a Public Performance Scorecard. The Public Performance Scorecard is a suite of performance indicators focused on the day-to-day delivery of key services across the Council. Key performance indicators have been established through engagement with service area senior managers as part of the planning and performance framework.
- An Annual Business Plan Progress report which will include progress against our key actions (projects/plans), milestones and KPI's will be submitted to the Policy and Sustainability Committee. Once developed the Public Performance Scorecard will be submitted to the Governance, Risk and Best Value Committee on a quarterly basis culminating in an Annual Performance report. Reports are published on the Strategy, Performance and Research pages of the Council website.
- Alongside the Business Plan Planning & Performance Framework, more detailed KPIS are developed for key strategies/plans and where appropriate progress and performance reports are submitted to relevant Committee meetings.
- We are currently developing CLT, Directorate and Divisional level dashboards to monitor the Business Plan and Public Performance Scorecard measures on a regular basis.
- The Governance, Risk and Best Value Committee was established to take the lead role as the Council's main scrutiny panel and is convened by a senior opposition member. The Executive Director of Corporate Services attends meetings in person, supported by other members of the Corporate Leadership Team (CLT).
- The Committee has the ability to review any of the Council's activities, to require action or further reports and to call witnesses to support its debate.
- The Accounts Commission's 2016 [Best Value Audit Report](#) stated that the Governance, Risk and Best Value Committee 'provides effective scrutiny of the Council's operations and performance' and in its [2020 Best Value Assurance Audit](#) report provided examples of effective scrutiny of the committee.
- The Council has responded to external scrutiny, in the form of external audit and inspection reports, with improvement plans which are reported to the appropriate committees.
- The Council Companies' Hub was established in [June 2016](#) to improve officer scrutiny of Council companies, including risks. It clarifies roles and responsibilities, good governance, elected members' duties as councillors and the mitigation of conflicts of interest.
- The Annual Assurance Schedule issued to all Heads of Service, Service Directors, Executive Directors, Council Companies and Joint Boards includes sections on risk and performance.
- The Corporate Risk Team regularly meet with partners to ensure that where shared risks exist these are considered and assigned to appropriate owners. Some examples of these meetings are with representatives from NHS Lothian in relation to the EIJ/ESHCP, representatives from Edinburgh Trams to consider operational risks from the existing tram system, and the tram extension project to consider project and future operational risks.
- The [Commercial and Procurement Service](#) works with service areas, suppliers and Policy and Insight to ensure spend and service level, including KPI data, is available to measure performance of the contract during its life and prior to re-tender. This ensures the Council is procuring goods and services which meet its defined needs. This allows us to ensure that the contract is being managed regarding capacity, value for money and delivering savings both financially and in-service efficiencies. Service areas also monitor suppliers to ensure the general T&Cs of the contract are being met and that all sustainable and community benefits are being realised.
- As part of the Council's Governance arrangements, regular reviews of project governance and management is carried out on larger projects and recommendations for improvements acted upon.
- A monthly Change Board with representatives from the Corporate Leadership Team and project leads provides oversight of key projects. A range of project information including status updates is provided to board members.

Rationale for score Assessment of the above evidence. KPIs are available for high level organisational requirements. However, there is not always performance data or individual dashboards for all services and it can be difficult to obtain KPIs for these services to ensure the Council can adopt a truly joined up data driven approach.

**Requirement of the Council's Code** 4.2.3 Ensuring that budgeting and resource planning is informed by realistic revenue and capital estimates and aims to deliver objectives, strategies and plans in a sustainable manner. **Score out of 10: 7**

Evidence of compliance and links The Council's revenue and capital budget frameworks are underpinned by regular and proactive review of the full range of factors influencing the costs of delivering its services and the resources available to fund them. The budget framework also includes sums in respect of a small number of on-going COVID-related impacts.

- The Council has an on-going system of review in place with regard to its main expenditure and income drivers. The contents of the revenue budget framework are subject to at-least six-monthly formal reporting, reflecting as appropriate updated grant funding estimates, population and wider demographic projections, inflationary forecasts (including pay awards) and cost impacts of legislative and other changes. The results of [the most recent assessment](#) were reported to the Finance and Resources Committee on 20 June 2023. This framework has contributed to a position whereby revenue expenditure has consistently been maintained within approved levels. Development of the Council's Medium-Term Financial Plan is also underway.
- Budget reporting is presented regularly to SMTs, monthly to CLT and quarterly to Finance and Resources Committee.

	<ul style="list-style-type: none"> <li>While maintaining financial sustainability remains one of the Council’s key on-going challenges, revenue expenditure has been contained within approved levels for fifteen of the last sixteen years without recourse to unallocated reserves with the one exception being due to exceptional COVID-related pressures very late in 2019/20</li> <li>Capital expenditure and income projections are similarly based on up-to-date prudent assessments of likely receipt levels, grant funding, asset condition, Council commitments and priorities and other relevant data. By assisting service areas to develop realistic expenditure plans and promptly identifying instances of potential project delays, the level of expenditure slippage recorded across the programme has been significantly reduced in recent years, comparing very favourably with other authorities and realising savings in loans charge expenditure contributing to addressing wider savings targets. As with the revenue budget strategy, however, the latest update incorporates additional sums in recognition of upward pressure on labour and materials costs, as well as wider inflation, on project costs.</li> </ul>
Rationale for score	Assessment of the above evidence. Medium-Term Financial Plan being developed - A five-year revenue budget framework will be developed and initiate development of a savings programme to address the significant projected funding gaps in 2023/24 and 2024/25
Supporting principle	<b>4.3 Budgeting and financial sustainability</b>
Requirement of the Council’s Code	4.3.1 Ensuring that the budgeting process and financial strategy are sustainable whilst considering objectives, service priorities, affordability and medium/long-term plans. <span style="float: right;"><b>Score out of 10: 7</b></span>
Evidence of compliance and links	<p>The Council has a duty to ensure that its revenue and capital spending plans are prudent, affordable and sustainable whilst supporting the delivery of its priority outcomes. With this in mind, proposals are developed against the backdrop of a longer-term framework, recognising that the need for efficiency, transformation and prioritisation in the Council’s services is a recurring one. The Council has acknowledged that it will need to reduce the overall staffing numbers through service redesign and prioritisation if it is to secure financial stability. The Council has also undertaken a strategy of the incorporation within the revenue and capital frameworks of significant resources to address historic underinvestment in the Council’s estate and recognising the potential additional revenue liabilities of changes to the estate going forward.</p> <p>The budget framework now reflects provision for significant additional sums in respect of on-going COVID-related impacts, as well as an increased level of unallocated general reserves since 2021/22.</p> <p>The Council continues, however, to face significant financial challenges resulting from increased demand for services, inflation and legislative reform, as well as the continuing financial impacts of the pandemic. These factors are set against a backdrop of core grant funding (accounting for around three quarters of the Council’s overall income) that is not keeping pace.</p> <p>While the Council has approved a balanced budget for 2023/24, we face significant financial challenges going forward. Current projections indicate a need to deliver at least £38m of recurring savings in 2024/25, increasing to £173m over the five-year period to 2028/29.</p> <p>The urgent need to initiate a structured medium to longer-term savings programme was highlighted in both the Council’s Best Value Assurance Report and the external auditor’s report for 2020/21. The Council has therefore initiated development of a medium-term financial plan to address these budgetary challenges, including the approach to identifying savings and efficiencies in both the near and longer term, with <a href="#">an update</a> provided to the Finance and Resources Committee on 20 June 2023.</p> <p><b>Strategic</b></p> <ul style="list-style-type: none"> <li>The Council’s budget strategy affords relative protection to key service areas and priorities within an overall position that emphasises the need for both revenue and capital expenditure and income to remain in balance over the medium term.</li> <li>While recognising the Council’s legal responsibility to set a balanced revenue budget for the following financial year by 11 March, both the revenue and capital budget-setting processes adopt a whole-life approach, capturing the expenditure and income implications of approved or proposed actions not just for the following but also subsequent years. In this vein, the approved <a href="#">2018/23 revenue and capital budget frameworks</a>, in acknowledging historic underinvestment in the corporate estate, include significant additional resources to address this backlog, as well as adopting a more proactive and planned maintenance approach and recognising potential additional revenue liabilities of changes to the estate going forward.</li> <li>The Council’s <a href="#">capital plan</a> similarly adopts a longer-term timeframe and is informed by explicit consideration of Council priorities, thereby maximising the level and effectiveness of investment available to take forward key initiatives with reference to the principles contained within the <a href="#">Asset Management Strategy</a> and relevant <a href="#">Asset Management Plans</a>.</li> <li>In addition to the direct impacts of specific proposals, the <a href="#">medium-term financial plan</a> takes account of the wider implications of the Council’s activity in such areas as the associated required levels of pay award and on-cost provision, fees and charges income and enabling investment. The framework also recognises that demand for the Council’s services mirrors changes in the population as a whole and therefore makes explicit provision for the impact of demographic-led growth in such areas as school education, older people’s care and services for those with physical and/or learning disabilities. The framework also reflects the financial impact of future changes such as anticipated changes in grant funding.</li> </ul>

	<ul style="list-style-type: none"> <li>▪ The Council’s <a href="#">financial framework</a> incorporates modelling of a number of key income and expenditure variables and, by adopting a three to five-year timeframe, seeks to provide a contingency against material changes in any of these key factors influencing the overall savings requirement.</li> <li>▪ While acknowledging current demands and pressures within its financial planning processes, the Council has also placed an increased emphasis on preventative investment in recent years, with notable successes achieved in term of both improved outcomes and cost savings in the area of home care reablement and looked-after children’s services. The <a href="#">Council’s updated Business Plan: Our Future Council, Our Future City 2023-27</a> recognises the crucial role such a preventative approach will play going forward, forming a key pillar of the Council’s future operating model.</li> </ul> <p><b>Operational</b></p> <ul style="list-style-type: none"> <li>▪ While work is underway to introduce further integration of the revenue and capital budgets, the process also takes account of the indirect impacts of changes in demand for Council services, such as additional property and school meal costs linked to growth in the number of pupils within the Council’s schools.</li> <li>▪ The Council’s <a href="#">budget framework</a> is underpinned by a comprehensive and regular review of the key factors influencing the Council’s need to spend and the likely level of resources available to support that spend over the medium- to longer-term, be it due to demographic trends, inflationary pressures, legislative reform, grant funding or other changes. The results of these assessments are reported to the Council’s Leadership Team and the Finance and Resources Committee on an at-least six-monthly basis, allowing the adequacy of the Council’s actions to be framed against not just the immediate savings requirement but also the medium-term financial position. This medium-term perspective also informs the assessment of the adequacy and proposed use of the Council’s reserves in striking an appropriate balance between meeting specific liabilities as they fall due and supporting required transformation through, for example, spend to save investment or meeting staff release costs to secure recurring employee cost savings.</li> <li>▪ A Workforce Controls Panel, which reviews and challenges all vacancies that arise (except those pre-approved posts, such as Teacher, which are agreed by CLT) is in operation. This has added stronger rigour to vacancy management and workforce cost controls.</li> <li>▪ The Council has implemented a <a href="#">single workforce dashboard</a> and management information (MI) process to provide the organisation with consistent, regular, and accurate workforce MI/data to facilitate workforce controls, strategic workforce planning, and to measure performance. Reporting has now been implemented a Council, Directorate, and Division/Service level (for certain measures) to provide reliable insight into a range of workforce controls. The recent implementation of workforce dashboards at Directorate level provides regular MI on the monthly variation in Full Time Equivalent (FTE)/costs (by contract type – permanent, Fixed Term Contract (FTC) acting up/secondment and apprentice), and trend analysis to support workforce management controls.</li> <li>▪ An officer governance structure was reviewed and designed with elements implemented.</li> </ul>

recruits joining the Council and make it easier for them to complete some essential learning. We have also created Setting You/Them up for Success Guides and a Welcome Event hosted by the Chief Executive and Council Leader every 4-6 weeks. This helps develop capability early in a new employee's career with the Council. Our approach to performance focuses on the importance of having clarity conversations with all employees, setting clear goals and a development plan which is reviewed regularly through 1-1 check-ins and annual reviews.

All operational governance documentation is subject to review annually and forms part of any review of the decision-making framework.

- Procedural Standing Orders for Council and Committee Meetings establish procedure for the conduct for such meetings and the decision-making process.
- Following the Local Government elections in May 2022 the Governance – operational governance framework was further reviewed (February 2023) to meet the aims and aspirations of the newly elected Council.
- There has been a reduction of eight to six executive committees and change of committee remits to ensure a more balanced structure. These committees ensure that there is significant business at all committees to ensure a joined-up approach to Council services, allowing sufficient focus and time to the business of the committee.
- Committees have the authority to refer reports to other Committees for specific review and scrutiny. This recognises the role and input of each particular committee but nevertheless provides clarity on the decision maker. For example, the Best Value Assurance Audit report was considered by Policy and Sustainability Committee (1<sup>st</sup> December 2020), Governance, Risk and Best Value Committee (8<sup>th</sup> December 2020) Council (10 December 2020) and
- A significant addition to the remit of the executive committees is strategic development. This allows the Local Development Plan and the corporate infrastructure investment programme that comes out of it, to be aligned with housing and economic policies.
- There is also additional scrutiny by the Policy and Sustainability Committee of health and social care services provided, recognising the Integration Joint Board's role but also the duties and responsibilities of the Council.
- The Governance, Risk and Best Value Committee retained its current cross cutting scrutiny remit within the model and also takes the lead role as the Council's main scrutiny panel.
- Committee Terms of Reference and Delegated Functions set out the powers delegated by the City of Edinburgh Council to its committees and sub-committees pursuant to the Local Government (Scotland) Act 1973.
- The Scheme of Delegation sets out the powers delegated by the City of Edinburgh Council to officers, pursuant to the Local Government (Scotland) Act 1973. The Scheme facilitates the efficient conduct of Council business by clearly setting out the nature and extent of the powers delegated to officers by the Council, thereby ensuring that decisions are taken at an appropriate level and ensure sufficient and appropriate scrutiny. Specific reference to the Chief Executive's responsibilities can be found at Paragraph 4.1 check. The Committee Terms of Reference and Delegated Functions contains a paragraph at A4.1 check that allows in the event of a decision which would normally be made by the Council or a Committee and requires to be made urgently between meetings of the Council or Committee; the Chief Executive or appropriate Executive Director, in consultation with the Convener or Vice-Convener, to take a decision, subject to the matter being reported to the next meeting of the Council or Committee.
- Financial Regulations. The Regulations clearly set out the responsibilities of Executive Directors with regard to budget management and the securing of best value with regard to resources entrusted to them. The Regulations also clarify Elected Members' role with regard to setting the Council's financial strategy and scrutinising the effectiveness of its financial management arrangements.
- Contract Standing Orders apply (with certain exceptions) to all contracts made by or on behalf of the Council for the procurement of the execution of works, the supply of goods and materials to the Council, and/or for the provision of services.
- Grant Standing Orders – provide guidance, controls and regulate the grant application, evaluation and award process throughout the Council and on behalf of the Edinburgh Integration Joint Board (EIJB). Roles and responsibilities are set out and require for each grant that the relevant Executive Director or the Chief Officer of the EIJB appoints a Grant Monitoring Officer to set targets, to oversee the process, manage any issues with individual recipients and ensure outcomes are achieved and managed. Elected members are reminded of their duties under the Councillors' Code of Conduct and on conflicts of interest. Procedures for determining the process and award procedure are set out and if and how these may be departed from.
- The Member-Officer Protocol sets out the roles and responsibilities of Elected Members and Council officers, including the Chief Executive, to ensure clarity when carrying out their respective duties.
- A suite of performance indicators have been developed to measure the [Business Plan 2023-27](#) progress and success at each level of the strategic planning framework. Indicators will be presented via dashboards and will include financial, workforce and customer elements to give a balanced view of performance against priorities and outcomes. Performance was scrutinised by Elected Members in August 23 and the Council's Corporate Leadership Team.

Furthermore an annual cycle of service planning and review is

<b>Requirement of the Council’s Code</b>	6.2.3 Ensuring an audit committee or equivalent group/ function, which is independent of the executive and accountable to the governing body: provides a further source of effective assurance regarding arrangements for managing risk and maintaining an effective control environment; and that its recommendations are listened to and acted upon.	<b>Score out of 10: 8</b>
Evidence of compliance and links	The Council has a centralised, independent audit committee which is chaired by an opposition elected member. The Council’s GRBV committee is independent as the Council’s main scrutiny committee as well as its audit committee. It is linked with the Council’s decision-making bodies, having a relationship that both supports and challenges the services under the oversight of the executive committees. However, the Committee has the power to act on its own accord with no need for executive committee permission and its power to call any elected member or officer to the committee provides it the ability to effectively scrutinise. The effectiveness of the committee was reviewed as part of the 20/21 Internal Audit plan with actions in response to recommendations agreed by the GRBV Committee and officers. Actions are monitored as part of the standard quarterly review of audit actions.

-----------------------------	--------------------------

<b>Requirement of the Council’s Code</b>	6.3.1 Ensuring that data is properly managed, accurate and of a good quality.	<b>Score out of 10: 5</b>
--	---	---------------------------

Evidence of compliance and links	<p>The Council has a strong centralised Information Governance Unit that monitors and assesses compliance with its statutory obligations under information governance legislation. While the Council has embedded processes for capturing and mitigating information risk, e.g. breach reporting and data protection assessments, ‘digital by default’ practices have created challenges around ensuring that the Council manages its data appropriately. The continual evolution of ICT tools. e.g. M365, means that the Council’s information governance requirements need to adapt and extend to new environments.</p> <p>The Council is subject to various pieces of Scottish and UK information legislation. UK data protection legislation governs how personal data is collected, managed and used by organisations. UK and Scottish information access legislation (Freedom of Information (Scotland) Act 2002, Environmental Information Regulations (Scotland) 2004, INSPIRE Scotland Regulations 2011, Re-use of Public Sector Information Regulations 2015, and the Pupils Educational Records (Scotland) Regulations 2003), governs how public authorities must deal with requests for information that are made to them. Finally, the Public Records (Scotland) Act 2011 governs how Scottish public authorities must manage their public records in accordance with best practice and standards.</p> <ul style="list-style-type: none"> <li>▪ The Council’s <a href="#">Information Governance Policy</a> set out the Council’s approach to the collection, storage, use, sharing and security of information, including employee roles and responsibilities. The Policy is supported by an information governance framework consisting of detailed <a href="#">guidance, procedures</a> and mandatory training for all employees. The framework is promoted through an annual communications plan which includes various awareness raising initiatives and training events. Additional guidance has been provided to employees on managing data during the lockdown.</li> <li>▪ The Information Governance Unit maintains a series of Council-wide registers that document and classify how data, information and records should be managed in the Council. The <a href="#">Record of Processing</a> details why and how personal data is processed by the Council, and the Council’s <a href="#">Record Retention Schedule</a> details how long information and records should be retained in line with statutory requirement and business need.</li> <li>▪ The Council explains how it manages its data, information and records to the public through various means. Its records managements arrangements are published in its statutory <a href="#">Records Management Plan</a>, its personal data collection arrangements through its <a href="#">Privacy Notices</a>, and how it provides access to information and records through its <a href="#">Publication Scheme</a>.</li> <li>▪ <a href="#">Data Protection Assessments</a> are carried out when new processes for handling personal data are introduced, or existing ones updated. This ensures compliance with all data protection principles and ensures that information risks are properly identified and appropriately managed. Procedures are in place to support <a href="#">information sharing arrangements</a> within the organisation.</li> <li>▪ The Council has standard access to information processes for the public that ensure its compliance with relevant legislation and its commitment to transparency and accountability. This includes <a href="#">personal data</a>, environmental data and general information held by the Council.</li> <li>▪ Standard information governance related terms and conditions are included within Council contracts.</li> <li>▪ The <a href="#">Employee Code of Conduct</a> gives clear guidance for employees on the use of Council Assets, Systems and Information.</li> </ul>

These accreditations provide assurance on the effectiveness of the Council's network security controls.</li> <li>▪ Vulnerability Scanning has been implemented across the Council's corporate network.</li> <li>▪ Senior Management Teams regularly monitor performance of their services as part of the Council's <a href="#">Performance Framework</a>. A key element of this involves senior officers analysing the performance data in advance of the performance discussion to identify areas of good practice and areas for improvement. The quality and accuracy of the data is assessed at this point to ensure that the performance information is robust.</li> <li>▪ An annual information governance maturity assessment is undertaken Council-wide to measure compliance against policy and legislation. Its findings are reported to Directors, the Information Board and the Cyber and Information Security Steering Group.</li> <li>▪ Data quality is also reviewed and audited as part of statutory returns (for example Local Government Benchmarking Framework, Children's Social Work Services returns) to ensure performance information is robust and accurate.</li> <li>▪ Established management information and reporting supports service managers with their operational decision making and allows for comparisons and trends over time to be analysed with confidence.</li> <li>▪ All contract extensions and reviews require a check to ensure that necessary clauses on information governance obligations have been included.</li> <li>▪ An internal audit of Records Management and Statutory Requests was completed in October 2022 with an overall outcome of substantial assurance. All audit actions raised have been confirmed as implemented.</li> </ul>
Rationale for score	Assessment of the above evidence. It was noted that issues with data management (e.g. CRM applications) had been identified and steps were being taken to address them. In addition, the score reflects known issues with the SWIFT system as well as the potential for data loss through other aged data storage solutions (eg the G drive). Data quality is a known issue.

Rationale for score	Assessment of the above evidence. Local Government Benchmarking Framework is submitted to Committee resulting in focused and detailed scrutiny by Elected Members.
<b>Requirement of the Council’s Code</b>	<b>7.2.2 Ensuring that robust arrangements for assessing compliance with Corporate Governance Code principles, publishing results and improvement actions are in place for the Council and jointly managed services.</b>
Evidence of compliance and links	<p>Assessing compliance with the Corporate Governance Code (CGC, Previously CGF) in 2016/17 highlighted many areas where improvement was required in the process for collecting the data. A review took place with input from elected members which identified weaknesses and identified improvement actions to ensure the CGC is a more effective tool in improving processes and practices across the council. Timetabling and content of both the CGC and the Annual Directorate Assurance Exercise continue to be developed to allow for both processes to inform and complement each other and the Council’s Annual Governance Statement. Until the links between the improvement actions of directorates, the framework, assurance schedules and the annual governance statement are strengthened, the framework will only have a limited impact.</p> <ul style="list-style-type: none"> <li>▪ A Corporate Governance Code Self-Assessment Exercise, following the Cipfa/SOLACE recommended format, is undertaken annually and submitted in full to the GRBV Committee.</li> <li>▪ The CG Framework Code self-Assessment Exercise is reviewed by the Council’s CLT and it seeks to apply improvements when identified.</li> </ul>

Appendix 2

Principle	2022	2023	Narrative
1.1.1 Developing a leadership culture based on values, integrity and public interest that is communicated and understood by all and forms the basis of a framework for decision making and action.	6	7	New 'Our Behaviours' have been rolled out and progress on the recommendations from the Tanner report.
1.1.2 Ensuring this is reflected in policies and processes that are regularly reviewed and monitored for compliance.	7	6	Internal Audit identified issues with policies and procedures not being updated as they should.
1.3.2 Dealing with breaches, corruption, and misuse of power effectively.	8	7	Internal Audit noted that the council wide approach to managing fraud and Serious and Organised Crime needs strengthened. There is a senior manager working group and Council wide group currently working on a framework for this.
2.2.1 Ensuring effective engagement with clarity of purpose, objectives and intended outcomes.	8	7	Engagement with city stakeholders was not as strong as it could be and did not reflect the positive relationships we have with larger national organisations (e.g. COSLA, Scottish Government).
2.2.2 Developing partnerships based on trust, shared commitments, a challenge culture and added value.	8	6	Our partnership working with the NHS in the Edinburgh Integration Joint Board has not been strong.

Appendix 2

Principle	2022	2023	Narrative
3.2.1 Ensuring that policies and plans are sustainable and balance the needs of all economic, social and environmental stakeholders.	6	7	Climate training has been rolled out with a high uptake. Reporting to Committees and Council now includes section on climate implications.
4.2.2 Establishing effective KPIs and capacity to generate performance information that allows for the quality of services and projects to be assessed/measured regularly.	8	6	KPIs are available for high level organisational requirements. However, there is not always performance data or individual dashboards for all services and it can be difficult to obtain KPIs for these services to ensure the Council can adopt a data driven approach.
6.2.2 Ensuring additional assurance on the overall adequacy and effectiveness of the framework of governance, risk management and control is provided by the internal auditor.	9	8	Necessary controls exist to provide assurance on the framework of governance and management in the Council. However, there were concerns that due to capacity and resourcing it was not always possible to guarantee these were being followed.
6.2.3 Ensuring an audit committee or equivalent group/ function, which is independent of the executive and accountable to the governing body: provides a further source of effective assurance regarding arrangements for managing risk and maintaining an effective control environment; and that its recommendations are listened to and acted upon.	7	8	A review of GRBV effectiveness was undertaken by the Institute of Internal Auditors in July 2021, actions are progressing in line with agreed timescales.

Appendix 2

Principle	2022	2023	Narrative
6.3.1 Ensuring that data is properly managed, accurate and of a good quality	6	5	It was noted that issues with data management (e.g. CRM applications) had been identified and steps were being taken to address them.
7.1.1 Writing and communicating reports to the public and other stakeholders in a transparent manner which facilitates accountability and accessibility	6	7	A suite of templates were developed so that they are more modern and meet our house writing style. Officers are required to complete reports using the guidelines so that the content is more easily read, accessible, and looks consistent with other reports.
7.2.1 Elected member and senior management owned annual reporting on performance, best value and resource stewardship.	7	8	Local Government Benchmarking Framework is submitted to Committee resulting in focused and detailed scrutiny by Elected Members.
7.3.3 Ensuring that recommendations from Internal Audit, External Audit, peer challenge, reviews and inspections are respected and acted upon.	6	7	The design process and the controls that were created have provided a stronger mechanism to ensure that inspections and actions resulting from them are acted upon and delivered.
