Item 7.1 – Response to the Edinburgh Tram Inquiry

Agree the recommendations with the following additions:

At the end of 1.1 insert

Officers will produce a progress checklist of implementation and guidance for project managers and others to be presented to a future meeting of the GRBV Committee to demonstrate assurance that the Recommendations in Lord Hardie's Report that are being accepted by the Council are being embedded in future Council processes.

At the end of 1.2 insert

The review to focus on strengthening and clarifying the aspects related to officer candour with the benchmarking to specifically include the Civil service Code [Civil Service Code - gov.scot](http://www.gov.scot) (www.gov.scot) with a particular focus on the section entitled "Honesty". The review to consider how to make clear in the Code or in Disciplinary Policies that a serious breach of this duty of candour will be considered as Gross Misconduct and that this could equally apply within management structures should officers breach the code when providing information to senior colleagues. Finally, recognising the Council's governance role, a draft should be presented to a suitable Committee or a member workshop for discussion prior to consultation with Trade Union and the wider colleague base.

Insert a new 1.3 and renumber the remainder accordingly

1.3 Recognising that the Council appoints the Monitoring Officer and has overall responsibility for resolving issues of malpractice within the Council a review will be undertaken within six months, reporting to the GRBV and Policy and Sustainability Committees as appropriate, covering the structures and processes for the various reporting mechanisms relating to misconduct, whistleblowing and maladministration, given the numerous recommendations from differing external inquiries in recent years, to ensure these are fit for purpose, provide adequate independence and to ensure public confidence.

Item 7.5 – Affordable Housing Approvals 2022/23

Adds after 1.1.2:

- 1.1.3 Council acknowledges that the formula through which Edinburgh receives funding for affordable housing supply (Transfer of Management Development Fund: TMDF) was calculated in 2003
- 1.1.4 Council Recognises that Edinburgh and Glasgow are unique in this capacity, with the remaining thirty local authorities receiving funding through the Strategic Housing Investment Fund
- 1.1.5 Council recognises that the TMDF funding is weighted in favour of Glasgow (70%/30% split), which received more than double Edinburgh in the last five years.
- 1.1.6 Council notes, that in the wake of declaring a Housing Emergency (2nd November 2023), it is appropriate to request that the funding arrangement is reconsidered, noting the changing landscape in both cities, and recognising a parity of need.
- 1.1.7 Notes the pipeline of projects delivered in Edinburgh through utilising underspend from other Local Authorities; Requests that this arrangement becomes formalised and can therefore be factored into Officers Budget positions.
- 1.1.8 Requests that the Council leader write to COSLA and the Scottish Government in relation to these concerns and requesting that the funding arrangement be reconsidered.

Item 7.5 – Affordable Housing Approvals 2022/23

Replace 1.1.2 onwards with:

1.1.2 Regrets that the report does not capture the impact of failure of leadership of the Administration and slow acting response which contributed to the 41% drop in affordable home approvals, compared to an 18% drop across Scotland as a whole.

1.1.3 Notes the Scottish Government relies on Capital funding from the UK Government and therefore agrees the Council Leader will write to the UK Government asking them to increase the capital allowance relevant for housing by at least 56% to reflect the increased inflation-drive cost demand on the affordable home grant needed to build each home.

1.1.4 Further agree that the Council Leader should continue to work with Scottish Government to secure any additional funding in year which could help deliver more affordable homes.

1.1.5 Agrees the Council Leader will table at the COSLA Leader's meeting no later than 3 months' time, an amendment to the current funding formula to seek a consistent and increasing grant funding commitment to expand Edinburgh's Affordable Housing programme to meet the housing needs of the city to include the following criteria within the formula:

1.1.5.1 Number of households in temporary accommodation;

1.1.5.2 Average time each household spends in temporary accommodation before their homelessness is resolved;

1.1.5.3 The number of people on housing waiting lists with priority.

1.1.6. Agrees that officers will provide an update report at the next Housing Homelessness and Fair Work Committee on the deliverability of the target on page 14 of the Edinburgh Council Business Plan 2023-2027 to increase the supply of affordable housing to reach 25,000 affordable homes.

City of Edinburgh Council

14 December 2023

Item 7.5 – Affordable Housing Approvals 2022/23

Council

Adds;

1.1.3 Notes with concern that the 2022 average grant requirement per home (£89,000) is less than the latest (2023) SHIP (Strategic Housing Investment Plan) figure of £96,000 and does not factor in land value, against a backdrop of a £665m funding shortfall. Edinburgh's grant has remained at £45 million each year and any additional spend is dependent on underspends in other local authority areas.

Therefore, requests

The Housing Directorate take into consideration Edinburgh's average property price in FY2022/23 (RoS) as a material factor during any conversations with the Scottish Government relating to fairer grant distribution, reflecting the City's unique position and its recent Housing Emergency Declaration.

Item 8.1 – Motion by Councillor Lang - Protecting Edinburgh Police Numbers

Delete paragraph 1 and replace with

1) Recognises that though some communities are made to feel safer by local policing other residents, such as BAME people, LGBTQ+ people and women, have valid reasons to feel less safe when there is a police presence and that the former chief constable of Police Scotland, Iain Livingstone, has said that “institutional racism, sexism, misogyny and discrimination is a reality for Police Scotland.”

In paragraph 3 delete ‘with concern’

Delete paragraph 5

Add:

5) Notes that increasing or maintaining police numbers is not the most effective way to reduce crime; with the link between crime and social deprivation being much stronger than the link between crime and police numbers.

6) Notes that in an ongoing financial crisis the Scottish government is facing a number of budgetary pressures.

7) Notes that therefore limited funds could be better spent on preventative measures such as reducing deprivation, youth work, addiction services and anti-poverty funding targeted at groups who are disproportionately likely to be in poverty such as BAME people, LGBTQ+ people, disabled people and women.

8) Agrees that the Council Leader should write to the Cabinet Secretary for Justice & Home Affairs urging a holistic approach to crime prevention and that the requests of the police for further funding should be weighed against the urgent need to reduce poverty and inequality.

Item 8.1 – Motion by Councillor Lang – Protecting Edinburgh Police Numbers

Replace paragraphs 4) and 5) with:

- 4) Notes that 'E' Edinburgh Division now has only 1104 local Police officer resources compared to the 1180 available to the Divisional Commander at the formation of Police Scotland in 2013, a drop of 6.4%. Further notes that this compares badly with 'G' Glasgow Division which has 2482 local Police officer resources for a similar population and overall level of recorded crimes.
- 5) Notes historic commitments from Police Scotland to rebalance resources over time through future turnover of officers with suggestions to Policy and resources Committee that recruitment would be focussed on Edinburgh and other under resourced parts of Scotland in recognition that our local Police officer numbers are approximately 23 per 10,000 population compared to 37 per 10,000 in Glasgow.
- 6) Agrees that the Council Leader should write to the Cabinet Secretary for Justice & Home Affairs to express the council's support for a proper funding settlement for Police Scotland which would prevent further reductions in police numbers and local service levels, emphasising the particular policing needs of Edinburgh as Scotland's capital city.
- 7) Further agrees that the Council Leader should write to the new Chief Constable seeking a policy commitment that local Police officer numbers should be maintained in Edinburgh, regardless of any reductions in the service as a whole, in recognition of the historic low numbers and the increasing population of the City which mean 'E' Division has been considerably under resourced compared to other parts of Scotland.

Item 8.4 – Motion by Councillor Dalglish – Short Term Let Judicial Review

(Amendment to Replace Motions at items 8.3, 8.4 & 8.16)

Council:

- 1) Notes the decision of the Planning Committee on 23 February 2022 to designate the whole of the City of Edinburgh as a short term let (STL) control area, and the decision of 19 April 2023 to amend non-statutory guidance on STLs.
- 2) Notes that both committee decisions were unanimous, reflecting the strong cross-party consensus on the need to control the numbers of STLs in Edinburgh.
- 3) Notes the STL (Planning) Judicial Review issued by Lord Braid on Friday 1 December 2023, further notes the briefing note circulated to members on 6 December, and that the Council's Planning service will consider the implications of the ruling in detail, including considering an appeal.
- 4) Notes Lord Braid's finding that the Scottish Parliament did not intend that Section 26B of the Town and Country Planning Act 1997 should have retrospective effect by requiring planning permission to be applied for where a secondary STL was in operation prior to the coming into force of the Short Term Lets Control Area; and that the judgement reduces the whole of the amendment to the 'Guidance for Businesses' agreed by Planning Committee on 19 April 2023, including several changes which were outside the specific scope of the judicial review.
- 5) Notes that the judgement could have significant implications for the council's approach to effective regulation of STLs.

Council therefore:

6) Agrees to reconvene the STL working group as soon as possible to consider the next steps for effective regulation of the STL sector in Edinburgh following the judgement, and on the practical implications of licensing powers in respect of potential breaches of planning control.

7) Requests that a report come to Planning Committee in one cycle (excluding any special Planning Committees) detailing the implications of the Judicial Review and what outcomes this will have on Short Term Let Planning Policy and the assessment of Short Term Let Planning applications, what implication this may have for the Council's Short Term Let Licensing Scheme, and potential amendments to the 'Guidance for Businesses' which comply with the judgement. This report should also be sent to the Regulatory Committee and the Short Term Lets Working Group for information.

8) Agrees that the Leader of the Council should urgently write to the Minister for Local Government Empowerment and Planning to:

- a) seek clarity of the position of the Scottish Government on the principle of retrospectively requiring planning permission for STLs within a control area and,
- b) call for an emergency Bill to be introduced to the Scottish Parliament to address the legislative deficiencies in Section 26B, and failing that to consider what changes to primary or secondary legislation or other options might be required so Edinburgh Council can continue with its originally intended approach, as agreed cross-party.

Replaces 1) - 3):

“1) Notes with concern the considerable safety and accessibility issues at the junction at Queensferry Road, Strachan Road, Hillhouse Road and Telford Road as highlighted by Sight Scotland’s campaign.

2) Notes that the list of junctions to be prioritised for safety improvements as part of the Major Junctions Review was developed in consultation with key stakeholder groups Spokes, Living Streets, and the Edinburgh Access Panel.

3) Regrets that the number of junctions perceived as more dangerous was so high that the junction was not included in the short list. However, notes that other avenues for short-term safety improvements are available.”

Amends 5): “Asks officials that the next update being received by the Transport and Environment Committee in relation to **Local Traffic Improvement Plans** includes this junction with a view to urgently improve;

- a) Pedestrian safety and movements across and around the junction,
- b) Accessibility for those with reduced mobility and/or a visual impairment,
- c) Improvements for cyclists travelling through the junction.”

Item 8.14 – Motion by Councillor Nols-McVey – UK Government Austerity

Deletes 5, 6 and 7 and replaces with:

- “5) While Council acknowledges that the Scottish Government has delivered a better funding settlement than that given to English Councils, the Scottish Government has given Edinburgh the lowest per capita funding of any Scottish Council. It has also added many additional responsibilities and constraints on Scottish Councils, which have added considerably to the cost burden borne by the City of Edinburgh Council.
- 6) Council therefore recognises the source of constrained public sector budgets in Scotland is the 13 year austerity programme of the UK Government and decisions made by the Scottish Government, and further recognises if this continues the risk to Councils in Scotland suffering the same financial fate as English Authorities will increase year-on-year.
- 7) Council calls for an end to austerity and requests the Council Leader writes to the Prime Minister and the First Minister asking for a firm pledge to improve funding for local government.”

Item 8.14 – By Councillor Nols-McVey – UK Government Austerity

Council

Deletes all and inserts:

- 1) Notes that 31.7% of the Scottish Government's total revenue was allocated to local government in 2023-24, compared to 35% in 2015-16.
- 2) Notes how the decision of the Scottish Government to deprioritise local government within in its annual budget has come, irrespective of the money allocated to it by the UK Government.
- 3) Notes how the percentage of the Scottish Government's total revenue allocated to local government has reduced in each year since the Greens joined the SNP in the Scottish Government.
- 4) Notes the decision of the First Minister to announce a council tax freeze without any discussion or consultation with COSLA, going directly against the spirit of the Verity House Agreement.
- 5) Notes the conclusions of the Fraser of Allander Institute that the council tax freeze will create a shortfall of £229-£417m in local council revenue, and that the Scottish Government has yet to commit to fully fund its new freeze policy.
- 6) Believes all these events show a fundamental disrespect by the Scottish Government towards local councils and a lack of recognition for the important role of councils in delivering public services.
- 7) Endorses the "Councils are key" campaign by COSLA which recognises how councils are facing rising costs and increasing demand, and that the local government settlement from the Scottish Government must reflect the true cost of delivering and commissioning services.

Item 8.14 – Motion by Councillor Nols-McVey - UK Government Austerity

Council notes:

- During the seven-year administration of FM Nicola Sturgeon, annual public expenditure in Scotland grew at 8% per annum. This compares with 6% growth in annual UK public expenditure.
- Neither figure represents austerity, especially when inflation was 1%.
- For every £100 spent in England, the UK Gov spends £125 in Scotland. This represents £2,200 of additional spend per person in Scotland.
- GERS sets out the spending priorities of the Scot Gov with no interference from Westminster.
- The two highest spending priorities of the Scottish Government in the last seven years have been (i) social protection (welfare and benefits) which grew at 15% pa (i.e. doubled in seven years) and (ii) public sector wages which increased this year by c. £1bn.
- The three lowest spending priorities of the Scottish Government in the last seven years have been (i) Education, (ii) Police and (iii) Local Councils where spending increases at 4% pa is half of the average 8%.
