1. Deputations

a) Patriothall Artists Group

(In relation to items 9.2 and 9.3 on the agenda – Motions by Councillors Osler and Heap – WASPS Patriothall Studios)

The deputation indicated that they were very supportive of the WASPS, management of the studios throughout Scotland and the work they did for artists, but had a few misgivings regarding the direction the organisation had taken in recent years, as an overall rent increase of 32% over the past two years had caused some grave concerns for the tenant community of Patriothall. They understood the requirement of WASPS to be financially agile in an ever changing economy, but remained dismayed at the singular direction being taken towards marketplace development and creative hubs rather than constructive curation and development of its artists.

They urged the Committee to support their efforts to engage in a constructive conversation to gain clarification from Wasps as to why this was happening, to seek some assurance regarding the future of the building and to ensure that they could move onto a successful future together.

(see items 25 and 26 below)

b) Muirhouse Millenium Centre/LIFT

(In relation to item 7.4 on the agenda – Community Centre Strategy)

The deputation indicated that they were proud to be included in the community centre strategy as they did not get any funding from the Council and felt that it showed the hard work they had put in over the past 8 year to get the reputation it now had.

The deputation stressed that they thought that it was important for every Community Centre to have a family support team and that non-funded centres

struggled to provide this service. They felt that community centres needed to be welcoming places with an open door policy rather than door entry systems, receptionists and appointment systems.

(see item 9 below)

c) Sandy's Community Centre

(In relation to item 7.4 on the agenda – Community Centre Strategy)

The deputation indicated that Sandy's was crucial to the community in Craigmillar and stressed how important it was to have community centres in Edinburgh to reach people from all walks of life, intergenerational projects and people who had had to leave their country as refugees and were made to feel so welcome as part of a community. They said that the management at Sandy's did a fantastic job, and that part of that was that they were local people who knew what was going on, knew the people and knew the needs of the community.

The deputation urged the Committee to ask people what they wanted as they felt it was important to give people empowerment, to feel valued and that their voices were heard.

30. Summerhall – Emergency Motion by Councillor Heap

The Convener ruled that the following item, notice of which had been given at the start of the meeting, be considered as a matter of urgency to allow the Committee to give early consideration to this matter.

The following motion was submitted by Councillor Heap in terms of Standing Order 17:

“Committee notes

- 1) The incredible contribution of the Summerhall to culture and enterprise in Edinburgh, as the home to many cultural events and businesses.
- 2) With concern the prospect of the Summerhall site being sold.
- 3) That sale of the building to be developed for other purposes would be a severely negative development.
- 4) The welcome precedent of the Filmhouse building being saved for film in the city.

Committee therefore

- 5) Asks the Convener and Leader to meet urgently with the owners of the building to explore how they can ensure Summerhall continues to provide outstanding culture and events space, and homes to businesses.
- 6) Asks that a nominee from other political groups are invited to attend the meeting.”

- moved by Councillor Heap, seconded by Councillor Staniforth

Decision

To approve the motion by Councillor Heap.
