There will be no impact to living conditions or amenity to near by residences. The building has 3 flats, including 12 2f2 that share the stair. One is a short let and the other is an hmo property which is let to young students. Therefor there is no residence residing in the building and will have no effect. The property also has an hmo in place and would share a mixed use of short lets and student rentals through the year. By refusing the application there will be a loss of jobs and a loss of income from tourism. Castle street is already a busy street lined with pubs, offices and restaurants. Often there are buskers on the street ranging from the drone noise of bag pipes to the boom of a full band. It has a constant footfall of tourists who stop for pictures and use the local amenities. It has a constant footfall of office workers who pass by or work on the street, including regular markets and events that happen outside the door. Castle street flat has a very strict no party policy and an agreement set up with the other owners in the building to report any noise disturbances. Soo far, there has been no complaints from either propertyys. Guests that stay here usually leave for the day and sleep early, causing no effect to locals

2. Policy 30

Loss of residential accommodation – This is not a residential area. It's more of a tourist hotspot and business area with noise and difficult vehicle access. Castle street flat has had an hmo in place since records began. It has always been rented to students. Usually foreign students who stay for an academical year and move on. It is unsuitable for a local family as it is situated on the 3rd floor with no lift access. It also has students above that are known to cause noise issues. The street is pedestrianised, making it near impossible to get access with a car. Therefor, there is no loss of residential accommodation
