Decision date: 26 April 2024

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect).
At Flat 16 83 Hopetoun Street Edinburgh EH7 4NJ

Application No: 23/04560/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 12 October 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling

as a short term let will result in an adverse impact on local amenity and the loss of a residential property that has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 1, 2, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The change of use of this property to a short term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact James Armstrong directly at james.armstrong@edinburgh.gov.uk.

Chief Planning Officer
PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Report of Handling

**Application for Planning Permission STL
Flat 16 83 Hopetoun Street, Edinburgh, EH7 4NJ**

Proposal: Use of flat for short-term let use (Sui Generis) and residential flat (in retrospect).

**Item – Local Delegated Decision
Application Number – 23/04560/FULSTL
Ward – B12 - Leith Walk**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The change of use of this property to a short term let (STL) will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

SECTION A – Application Background

Site Description

The application property is a three bedroom fifth floor flat accessed off of Hopetoun Street featuring two balconies. The property shares its access to the street with other residential dwellings. Hopetoun Street is predominantly of residential character, featuring a low degree of activity during the day and a low degree of activity at night.

Description Of The Proposal

The application is for the retrospective change of use of the property from residential to short term let (sui generis) (STL). No internal or external physical changes are proposed. The applicant has indicated on the application form that the operation of the property as a short stay let commenced in 2016.

Section B - Assessment

Determining Issues

This report will consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

The application has been submitted in retrospect. The applicant indicates on the application form that the operation of the property as a short stay let commenced in 2016. This is before the 5 September 2022, which is when the Edinburgh short-term let control designation came into effect. As the designation does not have a retrospective effect it is necessary to consider whether the use of the property as a commercial short stay let is a material change of use.

On the basis of the application form, the description of development, drawings and supporting information it is considered that the proposals constitute a material change of use under Section 26 of the Town and Country Planning (Scotland) Act 1997.

a) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4.

The relevant NPF4 and LDP 2016 policies to be considered are:

- NPF4 Sustainable Places Tackling the climate and nature crises Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- Local Development Plan Housing Policy, Hou 7.
- Local Development Plan Transport Policies, Tra 2 and Tra 3

The non-statutory Guidance for Business (2021) is a material consideration that is relevant when considering LDP Policy Hou 7 and NPF4 policy 30.

The Edinburgh Design Guidance is a material consideration when considering LDP Policies Tra 2 and Tra 3.

Proposed use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas) seeks to protect residential amenity.

Amenity

The use of the property as an STL would result in an increased frequency of movement to the property and into the shared stair, representing a pattern of movement that would be dissimilar to that of permanent residents. A transient visitor may also have less regard for neighbours' amenity than individuals using the property as a principal home, with resultant negative amenity impacts, particularly at night. The amenity impacts of the proposed use are increased by the property's three bedroom size and access to two balcony areas. There may also be a negative impact to community cohesion and resident safety from the proposals.

However, it is recognised that the amenity impacts of the application are in part mitigated by the high likelihood that the additional servicing of the property necessitated by the change of use would be conducted during the daytime.

Whilst it is noted that flat 3, 83 Hopetoun Road, accessed from the same shared stair as flat 16, is in lawful use as an STL (reference: 21/02966/CLE) it is reasonable to seek to protect other residences in the stair and nearby from the further negative amenity impact that would result from the proposal.

On balance, the proposed change of use would result in an additional increase to the level of ambient background noise in the shared stair and surrounding area, beyond what might be reasonably expected by neighbouring residents, and have a significant detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

It is important to recognise that having the property within residential use also contributes to the economy, using local services and fulfilling employment opportunities across the City. Long term residents can also make consistent and long-term contributions to the local community.

The proposed change of use would result in a loss of residential accommodation, which, as there is a recognised need and demand for housing in Edinburgh, it is critical to retain the existing supply of where appropriate. In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

Transport

No parking is proposed. This is acceptable as there are no parking requirements for STLs. The proposed use will not result in a significant impact to public transport services in the local area.

The proposals comply with LDP Policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

b) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

On 5 April 2024 the Planning and Environmental Appeals Division published its report into the examination of the Proposed City Plan 2030 and supporting documents in terms of Section 19 of the Town and Country Planning (Scotland) Act 1997. The Council is currently considering the recommendations and modifications required to the Proposed City Plan 2030. It is the intention that the modifications will be considered by the Council before the end of June 2024. At this time in the context of the consideration of this particular application limited weight can be given to the relevant policies of City Plan 2030 until the proposed modifications have been fully considered.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering

generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Public representations

One objection was received regarding the application. A summary of the issues raised is provided below:

material considerations in objection

- Negative impact to the local community. Assessed in section a).
- Negative impact to local amenity. Assessed in section a).
- Negative impact to the character of the area. The proposal involves no physical works, consequently no impact of the character of the area is identified.

non-material considerations

- None

Conclusion in relation to identified material considerations

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The change of use of this property to a short term let will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.

2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short term let will result in an adverse impact on local amenity and the loss of a residential property that has not been justified.

Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The flat in question is part of a community of residents, a combination of families, young couples, and older people. Short-term lets are not appropriate for the neighbourhood. While some tourists are well behaved, others return late at night or make much noise or both. It would be more appropriate to have a long-term let to people that live and work in the community.
