Decision date: 31 May 2024

TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013

Change of use from existing to short term let.

At 55 East London Street Edinburgh EH7 4BW

Application No: 23/06821/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 4 December 2023, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling

as a short term let will result in an unacceptable impact of local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01, 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The proposal complies with Sections 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character and appearance of the conservation area.

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Sean Christie directly at sean.christie@edinburgh.gov.uk.

Chief Planning Officer
PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Report of Handling

**Application for Planning Permission STL
55 East London Street, Edinburgh, EH7 4BW**

Proposal: Change of use from existing to short term let.

**Item – Local Delegated Decision
Application Number – 23/06821/FULSTL
Ward – B11 - City Centre**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The proposal complies with Sections 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character and appearance of the conservation area.

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

SECTION A – Application Background

Site Description

The application property comprises a three bedroom, ground floor flatted dwelling at 55 East London Street. Access is via private main door entry. Other residential properties are located directly next to and above the application unit which also has access to the shared tenement garden.

Although the wider Broughton area supports a variety of uses, this section of East London Road is predominantly residential. There is medium to low degree of activity in the immediate vicinity of the property.

The property is located in the New Town Conservation Area.

Description Of The Proposal

The application is for a change of use from residential to short term let (sui generis). No internal or external physical changes are proposed.

Section B - Assessment

Determining Issues

Due to the proposed development falling within a conservation area, this report will first consider the proposals in terms of Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997:

- Is there a strong presumption against granting planning permission due to the development conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?
- If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

The whole of the City of Edinburgh Council area has been designated as a short-term let control area. The designation came into effect on 5 September 2022.

From the 5 September 2022, if a dwellinghouse, that is not a principal home, is used as a short term let, it is deemed a material change of use requiring planning permission.

a) The proposals harm the character or appearance of the conservation area?

The New Town Conservation Area represents a planned urban concept of European significance with an overriding character of Georgian formality. Stone built terrace houses and tenements, built to the highest standards, overlook communal private gardens; to the rear are lanes with mews buildings, many of which are now in housing use. The importance of the area lies in the formal plan layout of buildings, streets, mews and gardens and in the quality of the buildings themselves.

There are no external changes proposed. The change of use from a residential premises to a short term let will not have any material impact on the character of the conservation area. The change of use would preserve the appearance of the conservation area.

Conclusion in relation to the conservation area

The proposals are acceptable with regard to Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

b) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are superseded by equivalent and alternative policies within NPF4. The relevant policies to be considered are:

- NPF4 Sustainable Places Policy 1.
- NPF4 Historic Assets and Places Policy 7.
- NPF4 Productive Places Tourism Policy 30.
- LDP Housing Policy Hou 7.

- LDP Transport Policies Tra 2 and Tra 3.

The non-statutory 'Listed Buildings and Conservation Area' guidance is a material consideration that is relevant when considering historic assets.

The non-statutory 'Guidance for Businesses' (2024) is a material consideration that is relevant when considering change of use applications.

Conservation Area

There are no external or internal works proposed and as such there will not be a significant impact on historic assets and places. The proposal complies with NPF 4 Policy 7.

Proposed Use

With regards to NPF 4 Policy 1, the proposals do not involve operational development. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relates to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

Amenity

Although the property has private main door entry, it has access to the shared rear garden. The wider Broughton area is mixed use in character, however, the immediate surrounding area along East London Street is predominantly residential with relatively low ambient noise levels, particularly during the evening/night.

Taking into account the size of the property i.e. three bedroom, the use of this property as an STL would introduce an increased frequency of movement to the property. The proposed STL use would enable visitors to arrive and stay at the premises for a short period of time on a regular basis throughout the year in a manner dissimilar to that of permanent residents. There is no guarantee that guests would not come and go frequently throughout the day and night, and transient visitors may have less regard for neighbours' amenity than individuals using the property as a principal home.

The additional servicing that operating a property as an STL requires compared to that of a residential use is also likely to result in an increase in disturbance, further impacting on neighbouring amenity. However, this would be of lesser impact as it is likely that servicing would be conducted during the daytime.

This would be significantly different from the ambient background noise that neighbouring residents might reasonably expect and will have a significantly detrimental effect on the living conditions and amenity of nearby residents. The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

The application property is a residential unit and the current established use of the property is for residential accommodation. Consequently, the use of the property as an STL would result in a loss of residential accommodation, which given the recognised need and demand for housing in Edinburgh is important to retain, where appropriate.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

Parking

There is no car parking available at the property. This is acceptable and there is no requirement for cycle parking for STLs. The proposal complies with policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the city as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

c) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

On 5 April 2024 the Planning and Environmental Appeals Division published its report into the examination of the Proposed City Plan 2030 and supporting documents in terms of Section 19 of the Town and Country Planning (Scotland) Act 1997. The Council is currently considering the recommendations and modifications required to the Proposed City Plan 2030. It is the intention that the modifications will be considered by the Council before the end of June 2024. At this time in the context of the consideration of this particular application limited weight can be given to the relevant policies of City Plan 2030 until the proposed modifications have been fully considered.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Independent economic impact assessment

An independent economic impact assessment was commissioned by the Planning Service, and this resulted in a report on the Economic Impact of Residential and Short-Term Let Properties in Edinburgh (the Economic Report). This was reported to Planning Committee on 14 June 2023. The Committee noted that the findings of the report are one source of information that can be considered when assessing the economic impacts of short-term let planning applications and that given the report is considering generalities rather than the specifics of an individual case, it is likely that only limited weight can be attached to it as a material consideration when making planning application decisions. The study considered the economic impact of various types of properties in Edinburgh if used as a residential property as opposed to being used for short-term holiday lettings.

The Economic Report shows that there are positive economic impacts from the use of properties for both residential use and short-term let use. The Report found that in general the gross value added (GVA) effects are greater for residential uses than short-term lets across all property types and all areas. However, given it is considering generalities rather than the specifics of this individual case, only limited weight can be attached to it as a material consideration in the determination of this application.

Public representations

No public comments received.

Conclusion in relation to identified material considerations

Identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The proposal complies with Sections 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve the character and appearance of the conservation area.

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of tourist accommodation, in this case it does not outweigh the adverse impact on residential amenity.

The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this dwelling as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this dwelling as a short term let will result in an unacceptable impact of local amenity and the loss of a residential property has not been justified.
