

Mr Saunders
Flat 15 108 Great Junction Street
Edinburgh
EH6 5LD

Decision date: 20 August 2024

**TOWN AND COUNTRY PLANNING (SCOTLAND) ACTS
DEVELOPMENT MANAGEMENT PROCEDURE (SCOTLAND) REGULATIONS 2013**

Change of use from residential to a short term let (in retrospect).
At Flat 15 108 Great Junction Street Edinburgh EH6 5LD

Application No: 23/05542/FULSTL

DECISION NOTICE

With reference to your application for Planning Permission STL registered on 18 January 2024, this has been decided by **Local Delegated Decision**. The Council in exercise of its powers under the Town and Country Planning (Scotland) Acts and regulations, now determines the application as **Refused** in accordance with the particulars given in the application.

Any condition(s) attached to this consent, with reasons for imposing them, or reasons for refusal, are shown below;

Reason for Refusal:-

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this property as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this property as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.

Please see the guidance notes on our [decision page](#) for further information, including how to appeal or review your decision.

Drawings 01, 02, represent the determined scheme. Full details of the application can be found on the [Planning and Building Standards Online Services](#)

The reason why the Council made this decision is as follows:

The proposal complies with sections 64 and 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve or enhance the character or appearance of the conservation area and does not harm the character of the listed building, its setting, or the setting of neighbouring listed buildings.

The change of use of this property to a short term let (STL) will result in a loss of the residential accommodation and an unacceptable impact to neighbouring amenity. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the impact to neighbouring amenity. The proposal does not comply with Development Plan policy NPF4 policy 30(e) and LDP plan policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

This determination does not carry with it any necessary consent or approval for the proposed development under other statutory enactments.

Should you have a specific enquiry regarding this decision please contact Lizzi Smyth directly at lizzi.smyth@edinburgh.gov.uk.

Chief Planning Officer
PLACE
The City of Edinburgh Council

NOTES

1. If the applicant is aggrieved by the decision to refuse permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under section 43A of the Town and Country Planning (Scotland) Act 1997 within three months beginning with the date of this notice. The Notice of Review can be made online at www.eplanning.scot or forms can be downloaded from that website. Paper forms should be addressed to the City of Edinburgh Planning Local Review Body, G.2, Waverley Court, 4 East Market Street, Edinburgh, EH8 8BG. For enquiries about the Local Review Body, please email localreviewbody@edinburgh.gov.uk.

2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land accordance with Part 5 of the Town and Country Planning (Scotland) Act 1997.

Report of Handling

**Application for Planning Permission STL
Flat 15 108 Great Junction Street, Edinburgh, EH6 5LD**

Proposal: Change of use from residential to a short term let (in retrospect).

**Item – Local Delegated Decision
Application Number – 23/05542/FULSTL
Ward – B13 - Leith**

Recommendation

It is recommended that this application be **Refused** subject to the details below.

Summary

The proposal complies with sections 64 and 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve or enhance the character or appearance of the conservation area and does not harm the character of the listed building, its setting, or the setting of neighbouring listed buildings.

The change of use of this property to a short term let (STL) will result in a loss of the residential accommodation and an unacceptable impact to neighbouring amenity. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the impact to neighbouring amenity. The proposal does not comply with Development Plan policy NPF4 policy 30(e) and LDP plan policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

SECTION A – Application Background

Site Description

The application property comprises a four-bedroom duplex flat on the top floor of a converted 19th Century brewery building, located on the north side of Great Junction Street. Access is via a shared entrance and communal stairwell.

The surrounding area is of a mixed character with street level commercial uses, such as bars, cafes and shops, with residential accommodation above. Great Junction Street

sees a high level of vehicular and pedestrian traffic, and as such experiences relatively high background ambient noise levels.

The premises is located within the Leith Conservation Area and is part of a category C listed building, 100-118 Great Junction Street (Formerly John Crabbie and Co), LB27501, 29/11/1990.

Description Of The Proposal

The proposal is for the change of use from a private residential dwelling to a short term let (STL) in retrospect.

Section B - Assessment

Determining Issues

Due to the proposals relating to a listed building(s) and being within a conservation area, this report will first consider the proposals in terms of Sections 59 and 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 (the "1997 Heritage Act"):

- a) Is there a strong presumption against granting planning permission due to the proposals:
 - (i) harming the listed building or its setting? or

(ii) conflicting with the objective of preserving or enhancing the character or appearance of the conservation area?

b) If the strong presumption against granting planning permission is engaged, are there any significant public interest advantages of the development which can only be delivered at the scheme's proposed location that are sufficient to outweigh it?

This report will then consider the proposed development under Sections 24, 25 and 37 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act):

Having regard to the legal requirement of Section 24(3), in the event of any policy incompatibility between National Planning Framework 4 (NPF4) & Edinburgh Local Development Plan 2016 (LDP) the newer policy shall prevail.

Do the proposals comply with the development plan?

If the proposals do comply with the development plan, are there any compelling material considerations for not approving them?

If the proposals do not comply with the development plan, are there any compelling material considerations for approving them?

In the assessment of material considerations this report will consider:

- equalities and human rights;
- public representations; and
- any other identified material considerations.

Assessment

The application is in retrospect. The application form states that the operation of the property as a short term let commenced in June 2014. This is prior to 5 September 2022, when the Edinburgh STL control area came into effect. As the designation does not have a retrospective effect it is necessary to consider whether the use of the property as an STL is a material change of use.

Granting planning permission would change the use from a residential dwelling to STL. The use of the property as an STL, as a result of the granting of planning permission, would constitute a material change in the use of the property under section 26 of the Town and Country Planning (Scotland) Act 1997, given the associated characteristics of STL use in this location and property type.

a) The proposals harm the listed building or its setting?

The following HES guidance is relevant in determining this application:

- Managing Change in the Historic Environment: Interim Guidance on the principles of listed building consent.
- Managing Change in the Historic Environment: Setting

Managing Change in the Historic Environment: Interim Guidance on the principles of listed building consent sets out the principles for assessing the impact of a development on a listed building.

Managing Change in the Historic Environment: Setting sets out the principles that apply to developments affecting the setting of historic assets or places including listed buildings and conservation areas. It includes factors to be considered in assessing the impact of a change on the setting.

There are no external or internal alterations proposed. As such, the proposal will not have an adverse impact on or cause harm to the listed building. The setting of the listed building and the setting of neighbouring listed buildings will be unaffected by the proposal.

Conclusion in relation to the listed building

The proposal does not harm the character of the listed building, or its setting. It is therefore acceptable with regard to Section 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

b) The proposals harm the character or appearance of the conservation area?

Section 64(1) of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 states: *"In exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area."*

The Leith Conservation Area Character Appraisal emphasises *"the area's unique and complex architectural character, the concentration of buildings of significant historic and architectural quality, the unifying effect of traditional materials, the multiplicity of land use activities, and the importance of the Water of Leith and Leith Links for their natural heritage, open space and recreational value."*

As stated previously, there are no external changes proposed. The change of use will not impact on the character or appearance of the conservation area. Therefore, the proposal does not conflict with the objective of preserving or enhancing the character or appearance of the conservation area.

Conclusion in relation to the conservation area

The proposals comply with Section 64 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997.

c) The proposals comply with the development plan?

National Planning Framework 4 (NPF4) was adopted by the Scottish Ministers on 13 February 2023 and forms part of the Council's Development Plan. NPF4 policies supports the planning and delivery of Sustainable Places, Liveable Places and Productive Places and are the key policies against which proposals for development are assessed. Several policies in the Edinburgh Local Development Plan (LDP) are

superseded by equivalent and alternative policies within NPF4. The relevant policies to be considered are:

- NPF4 Sustainable Places Tackling the climate and nature crises Policy 1.
- NPF4 Productive Places Tourism Policy 30.
- NPF4 Historic Assets and Places Policy 7.
- Local Development Plan Housing Policy, Hou 7.
- Local Development Plan Transport Policies, Tra 2 and Tra 3

The non-statutory Listed Building and Conservation Area Guidance is a material consideration when considering NPF 4 Policy 7.

The non-statutory Guidance for Business (2024) is a material consideration that is relevant when considering LDP Policy Hou 7 and NPF4 policy 30.

The Edinburgh Design Guidance is a material consideration when considering LDP Policies Tra 2 and Tra 3.

Listed Building, Conservation Area and Edinburgh World Heritage Site

The impact on the setting of the listed building and on the setting of neighbouring listed buildings has been assessed in section a).

There are no external or internal works proposed and as such there will not be a significant impact on historic assets and places.

The proposal complies with NPF 4 Policy 7.

Proposed Use

With regards to NPF 4 Policy 1, the proposed change of use does not involve operational development resulting in physical changes to the property. The proposals will have a negligible impact on the global climate and nature crisis.

NPF 4 Policy 30 seeks to encourage, promote and facilitate sustainable tourism development which benefits local people, is consistent with our net zero and nature commitments, and inspires people to visit Scotland. Criterion 30 (e) specifically relate to STL proposals.

LDP Policy Hou 7 (Inappropriate Uses in Residential Areas), seeks to protect residential amenity.

Amenity

The use of this property as an STL would introduce an increased frequency of movement to the property through the shared stair, enabling visitors to arrive and stay at the premises for a short period of time on a regular basis throughout the year in a manner dissimilar to that of permanent residents. There is no guarantee that guests would not come and go frequently throughout the day and night, and transient visitors may have less regard for neighbours' amenity than individuals using the property as a principal home. Given this property can accommodate up to ten guests and is located on the top floor, it is likely that the impact on amenity will be particularly noticeable.

The location of the property, near a busy road with a variety of commercial uses, means the area is often busy with a high level of ambient noise. This character may sufficiently mitigate the impact of the proposed use to neighbouring residents who live outside the shared stair, but there would still be an unacceptable impact on the residents who live in the stair. The noise generated would be significantly different to the ambient background noise that neighbouring residents living with the building might reasonably expect, and consequently will have a detrimental effect on their living conditions and amenity. This is highlighted by the fact that the property has previously received an enforcement enquiry with regards to the noise generated by its use a short term let.

The additional servicing that operating a property as an STL requires compared to that of a residential use is also likely to result in an increase in disturbance, further impacting on neighbouring amenity. However, this would be of lesser impact as it is likely that servicing would be conducted during the daytime.

The proposal does not comply with NPF 4 policy 30(e) part (i) and LDP policy Hou 7.

Loss of residential accommodation

NPF 4 policy 30 (e) part (ii) requires that where there is a loss of residential accommodation, this will only be supported where the loss is outweighed by demonstrable local economic benefits.

Paragraph 220 of the LDP acknowledges that tourism is the biggest source of employment in Edinburgh, providing jobs for over 31,000 people. The use of the property by guests and the required maintenance and upkeep of STL properties are likely to result in a level of job creation and spend within the economy which can be classed as having an economic benefit.

The current lawful use of the property is for residential accommodation. Consequently, the use of the property as an STL would result in the loss of this residential accommodation, which given the recognised need and demand for housing in Edinburgh it is important to retain, where appropriate.

Further, it is important to recognise that residential occupation of the property contributes to the economy, in terms of providing a home and the spend in relation to the use of the property as a home, including the use of local services, resultant employment, and by making contributions to the local community.

In this instance, it has not been sufficiently demonstrated that the loss of the residential accommodation is outweighed by demonstrable local economic benefits. As such, the proposal does not comply with NPF 4 30(e) part (ii).

Transport

No parking is proposed. This is acceptable as there are no parking requirements for STLs. The property is in close proximity to a variety of public transport options.

The proposals comply with LDP Policies Tra 2 and Tra 3.

Conclusion in relation to the Development Plan

The change of use of this property to an STL will have an unacceptable impact on neighbouring amenity. The loss of the residential accommodation has not been justified. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the adverse impact on residential amenity. The proposal does not comply with the Development Plan policy NPF 4 policy 30(e) and LDP policy Hou 7.

d) There are any other material considerations which must be addressed?

The following material planning considerations have been identified:

Emerging policy context

On 5 April 2024 the Planning and Environmental Appeals Division published its report into the examination of the Proposed City Plan 2030 and supporting documents in terms of Section 19 of the Town and Country Planning (Scotland) Act 1997. On 27 June 2024 the Council accepted the recommendations and modifications required to the Proposed City Plan 2030. The Proposed City Plan 2030 has now been submitted to Scottish Ministers for their final consideration. At this time in the context of the consideration of this particular application limited weight can be given to the relevant policies of City Plan 2030 until the adoption of the plan.

Equalities and human rights

Due regard has been given to section 149 of the Equalities Act 2010. No impacts have been identified.

Consideration has been given to human rights. No impacts have been identified through the assessment and no comments have been received in relation to human rights.

Public representations

The application attracted two representations objecting to the proposals. A summary is provided below:

material considerations

- The proposals will contribute to a loss of residential accommodation. Assessed in section c).
- The proposals will lead to a loss of residential amenity due to noise. Assessed in section c).

non-material considerations

- The owners are not resident.

Conclusion in relation to identified material considerations

The identified material considerations have been assessed above and do not raise issues which outweigh the conclusion in relation to the development plan.

Overall conclusion

The proposal complies with sections 64 and 59 of the Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997 as it will preserve or enhance the character or appearance of the conservation area and does not harm the character of the listed building, its setting, or the setting of neighbouring listed buildings.

The change of use of this property to a short term let (STL) will result in a loss of the residential accommodation and an unacceptable impact to neighbouring amenity. Whilst it is recognised that there is an economic benefit to the City as a whole from the provision of visitor accommodation in this case it does not outweigh the loss of residential accommodation or the impact to neighbouring amenity. The proposal does not comply with Development Plan policy NPF4 policy 30(e) and LDP plan policy Hou 7. There are no material considerations that outweigh this conclusion. The proposal is unacceptable.

Section C - Conditions/Reasons/Informatives

The recommendation is subject to the following;

Reason for Refusal

1. The proposal is contrary to Local Development Plan Policy Hou 7 in respect of Inappropriate Uses in Residential Areas, as the use of this property as a short term let will have a materially detrimental effect on the living conditions and amenity of nearby residents.
2. The proposal is contrary to National Planning Framework Policy 30(e) in respect of Local Amenity and Loss of Residential Accommodation, as the use of this property as a short term let will result in an adverse impact on local amenity and the loss of a residential property has not been justified.
